- We continue the hiring process for licensed staff. We have 4 remaining openings for teachers in PACES, TEA, IDEA and PHD as well as one position for a behavior analyst.
- Staff development plans are set for August. Our schedule is available on the website.
- We held our annual event for member district directors and school board members on July 13th at Mount Olivet in Farmington.
- The staff and students at Lebanon Education Center documented their first year in the new site by creating a yearbook and a time capsule. The yearbook was created by Hannah White's and Stephanie Adix's high school class. The time capsule was assembled by Ann Haschig. Staff wrote letters about the first year and students wrote articles about current events from the year. The capsule also contains a staff photo and the first edition of the student newspaper.
- **Karen Doenges**, Speech/Language Pathologist in the ISD 917 Deaf/Hard of Hearing Program, and **Kitri Larson Kylo**, Assistant Director, recently presented July 9, 2016 at the international *NCSA 50th Anniversary of Cued Speech Conference* in Falls Church, VA in the Washington DC area. Their presentation entitled, *Developing English Language and Literacy Through Visual Access to the Fundamental Phonemic Level*, was well attended with participants from all over the United States, Canada, Europe, Africa, and Asia. Ms. Doenges and Ms. Kylo were also both recipients of the *NCSA Cueing Leadership Award* at the conference's Gala Awards Reception 'in recognition of their multiple talents, accomplishments and many years of leadership in activities that impact the use and awareness of Cued Speech.'

- Inver Grove Heights Animal Hospital graciously donated \$500.00 to the TESA Program. The money was donated as a “thank you” for the volunteer hours that Kelli Proulx’s Community Based Vocational Learning class put in at the animal hospital.
- ESY is underway at Alliance Education Center. Some of the classes are focusing a portion of the time this summer on service learning projects. These projects provide a service to the community and allow our students the opportunity to learn and practice skills needed for success beyond school, in addition to giving back to the community. Some of the projects include cleaning up city parks and volunteering at the Rosemount Community Center. In addition, 3 high school students and their classroom staff spent some time last week cleaning up the ball field at Alliance. This field is used by the City of Rosemount during the summer for little league baseball. The students saw a few (ok, maybe more than a few) weeds taking over the infield, and decided to fix it up for the youngsters who need a great field to play ball on. Not to mention, Mr. Saintey was pretty excited to see it cleaned up too!
- Construction on the remodeling project is well under way at Alliance Education Center! Most of the demolition has been completed and there has been a lot of digging and cement being moved. The plumbing is positioned in the correct location and awaiting a few finishing touches before inspection. Every day brings new change! Students and staff are all very excited about the activity and are looking forward to seeing the finished product.
- Students at Lebanon Education Center took part in Minnesota DNR's Fishing in the Neighborhood (FIN) program at the end of the school year. Students spent the day fishing at Cobblestone Park. DNR staff provided all of the equipment as helping the students who had never fished before. Students divided into two groups and went on two different days. Everyone caught at least one fish!

903 UNIFORM GRANT GUIDANCE POLICY REGARDING FEDERAL REVENUE SOURCES

I. PURPOSE

The purpose of this policy is to ensure compliance with the requirements of the federal Uniform Grant Guidance regulations by establishing uniform administrative requirements, cost principles, and audit requirements for federal grant awards received by the school district.

II. DEFINITIONS

A. Grants

1. “State-administered grants” are those grants that pass through a state agency such as the Minnesota Department of Education (MDE).
2. “Direct grants” are those grants that do not pass through another agency such as MDE and are awarded directly by the federal awarding agency to the grantee organization. These grants are usually discretionary grants that are awarded by the U.S. Department of Education (DOE) or by another federal awarding agency.

[Note: All of the requirements outlined in this policy apply to both direct grants and state-administered grants.]

- B. “Non-federal entity” means a state, local government, Indian tribe, institution of higher education, or nonprofit organization that carries out a federal award as a recipient or subrecipient.
- C. “Federal award” has the meaning, depending on the context, in either paragraph 1. or 2. of this definition:
 1.
 - a. The federal financial assistance that a non-federal entity receives directly from a federal awarding agency or indirectly from a pass-through entity, as described in 2 C.F.R. § 200.101 (Applicability); or
 - b. The cost-reimbursement contract under the federal Acquisition Regulations that a non-federal entity receives directly from a federal awarding agency or indirectly from a pass-through entity, as described in 2 C.F.R. § 200.101 (Applicability).
 2. The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of 2 C.F.R. § 200.40 (Federal Financial Assistance), or the cost-reimbursement contract awarded under

the federal Acquisition Regulations.

3. “Federal award” does not include other contracts that a federal agency uses to buy goods or services from a contractor or a contract to operate federal-government-owned, contractor-operated facilities.

D. “Contract” means a legal instrument by which a non-federal entity purchases property or services needed to carry out the project or program under a federal award. The term, as used in 2 C.F.R. Part 200, does not include a legal instrument, even if the non-federal entity considers it a contract, when the substance of the transaction meets the definition of a federal award or subaward.

E. Procurement Methods

1. “Procurement by micro-purchase” is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold (generally \$3,000, except as otherwise discussed in 48 C.F.R. Subpart 2.1 or as periodically adjusted for inflation).
2. “Procurement by small purchase procedures” are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than \$150,000 (periodically adjusted for inflation).
3. “Procurement by sealed bids (formal advertising)” is a publicly solicited and a firm, fixed-price contract (lump sum or unit price) awarded to the responsible bidder whose bid, conforming to all the material terms and conditions of the invitation for bids, is the lowest in price.
4. “Procurement by competitive proposals” is normally conducted with more than one source submitting an offer, and either a fixed-price or cost-reimbursement type contract is awarded. Competitive proposals are generally used when conditions are not appropriate for the use of sealed bids.
5. “Procurement by noncompetitive proposals” is procurement through solicitation of a proposal from only one source.

F. “Equipment” means tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost which exceeds the lesser of the capitalization level established by the non-federal entity for financial statement purposes, or \$5,000.

G. “Compensation for personal services” includes all remuneration, paid currently or accrued, for services of employees rendered during the period of performance under the federal award, including, but not necessarily limited to, wages and salaries. Compensation for personal services may also include fringe benefits which are addressed in 2 C.F.R. § 200.431 (Compensation - Fringe Benefits).

- H. “Post-retirement health plans” refer to costs of health insurance or health services not included in a pension plan covered by 2 C.F.R. § 200.431(g) for retirees and their spouses, dependents, and survivors.
- I. “Severance pay” is a payment in addition to regular salaries and wages by the non-federal entities to workers whose employment is being terminated.
- J. “Direct costs” are those costs that can be identified specifically with a particular final cost objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.
- K. “Relocation costs” are costs incident to the permanent change of duty assignment (for an indefinite period or for a stated period not less than 12 months) of an existing employee or upon recruitment of a new employee.
- L. “Travel costs” are the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the school district.

III. CONFLICT OF INTEREST

- A. Employee Conflict of Interest. No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. The employees, officers, and agents of the school district may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, the school district may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. The standards of conduct must provide for disciplinary actions to be applied for violations of such standards by employees, officers, or agents of the school district.
- B. Organizational Conflicts of Interest. The school district is unable or appears to be unable to be impartial in conducting a procurement action involving the related organization because of relationships with a parent company, affiliate, or subsidiary organization.
- C. Disclosing Conflicts of Interest. The school district must disclose in writing any potential conflict of interest to MDE in accordance with applicable federal awarding agency policy.

IV. ACCEPTABLE METHODS OF PROCUREMENT

- A. General Procurement Standards. The school district must use its own documented procurement procedures which reflect applicable state laws, provided that the procurements conform to the applicable federal law and the standards identified in the Uniform Grant Guidance.
- B. The school district must maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.
- C. The school district's procedures must avoid acquisition of unnecessary or duplicative items. Consideration should be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives and any other appropriate analysis to determine the most economical approach.
- D. The school district must award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.
- E. The school district must maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to, the following: rationale for the method of procurement; selection of the contract type; contractor selection or rejection; and the basis for the contract price.
- F. The school district alone must be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the school district of any contractual responsibilities under its contracts.
- G. The school district must take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible.
- H. Methods of Procurement. The school district must use one of the following methods of procurement:
 - 1. Procurement by micro-purchases. To the extent practicable, the school district must distribute micro-purchases equitably among qualified suppliers. Micro-purchases may be awarded without soliciting competitive quotations if the school district considers the price to be reasonable.
 - 2. Procurement by small purchase procedures. If small purchase procedures

are used, price or rate quotations must be obtained from an adequate number of qualified sources.

3. Procurement by sealed bids (formal advertising).
4. Procurement by competitive proposals. If this method is used, the following requirements apply:
 - a. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical;
 - b. Proposals must be solicited from an adequate number of qualified sources;
 - c. The school district must have a written method for conducting technical evaluations of the proposals received and for selecting recipients;
 - d. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered; and
 - e. The school district may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method where price is not used as a selection factor can only be used in procurement of A/E professional services; it cannot be used to purchase other types of services, though A/E firms are a potential source to perform the proposed effort.
5. Procurement by noncompetitive proposals. Procurement by noncompetitive proposals may be used only when one or more of the following circumstances apply:
 - a. The item is available only from a single source;
 - b. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;
 - c. The DOE or MDE expressly authorizes noncompetitive proposals in response to a written request from the school district; or
 - d. After solicitation of a number of sources, competition is determined inadequate.

- I. Competition. The school district must have written procedures for procurement transactions. These procedures must ensure that all solicitations:
 - 1. Incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product, or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When making a clear and accurate description of the technical requirements is impractical or uneconomical, a “brand name or equivalent” description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated; and
 - 2. Identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.
- J. The school district must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the school district must not preclude potential bidders from qualifying during the solicitation period.
- K. Non-federal entities are prohibited from contracting with or making subawards under “covered transactions” to parties that are suspended or debarred or whose principals are suspended or debarred. “Covered transactions” include procurement contracts for goods and services awarded under a grant or cooperative agreement that are expected to equal or exceed \$25,000.
- L. All nonprocurement transactions entered into by a recipient (i.e., subawards to subrecipients), irrespective of award amount, are considered covered transactions, unless they are exempt as provided in 2 C.F.R. § 180.215.

V. MANAGING EQUIPMENT AND SAFEGUARDING ASSETS

- A. Property Standards. The school district must, at a minimum, provide the equivalent insurance coverage for real property and equipment acquired or improved with federal funds as provided to property owned by the non-federal entity. Federally owned property need not be insured unless required by the terms and conditions of the federal award.

The school district must adhere to the requirements concerning real property, equipment, supplies, and intangible property set forth in 2 C.F.R. §§ 200.311, 200.314, and 200.315.

B. Equipment

Management requirements. Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part under a federal award, until disposition takes place will, at a minimum, meet the following requirements:

1. Property records must be maintained that include a description of the property; a serial number or other identification number; the source of the funding for the property (including the federal award identification number (FAIN)); who holds title; the acquisition date; the cost of the property; the percentage of the federal participation in the project costs for the federal award under which the property was acquired; the location, use, and condition of the property; and any ultimate disposition data, including the date of disposition and sale price of the property.
2. A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.
3. A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft must be investigated.
4. Adequate maintenance procedures must be developed to keep property in good condition.
5. If the school district is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

VI. FINANCIAL MANAGEMENT REQUIREMENTS

- A. Financial Management. The school district's financial management systems, including records documenting compliance with federal statutes, regulations, and the terms and conditions of the federal award, must be sufficient to permit the preparation of reports required by general and program-specific terms and conditions; and the tracing of funds to a level of expenditures adequate to establish that such funds have been used according to the federal statutes, regulations, and the terms and conditions of the federal award.
- B. Payment. The school district must be paid in advance, provided it maintains or demonstrates the willingness to maintain both written procedures that minimize the time elapsing between the transfer of funds and disbursement between the school district and the financial management systems that meet the standards for fund control.

Advance payments to a school district must be limited to the minimum amounts needed and timed to be in accordance with the actual, immediate cash

requirements of the school district in carrying out the purpose of the approved program or project. The timing and amount of advance payments must be as close as is administratively feasible to the actual disbursements by the non-federal entity for direct program or project costs and the proportionate share of any allowable indirect costs. The school district must make timely payment to contractors in accordance with the contract provisions.

- C. Internal Controls. The school district must establish and maintain effective internal control over the federal award that provides reasonable assurance that the school district is managing the federal award in compliance with federal statutes, regulations, and the terms and conditions of the federal award. These internal controls should be in compliance with guidance in “Standards for Internal Control in the Federal Government,” issued by the Comptroller General of the United States, or the “Internal Control Integrated Framework,” issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

The school district must comply with federal statutes, regulations, and the terms and conditions of the federal award.

The school district must also evaluate and monitor the school district’s compliance with statutes, regulations, and the terms and conditions of the federal award.

The school district must also take prompt action when instances of noncompliance are identified, including noncompliance identified in audit findings.

The school district must take reasonable measures to safeguard protected personally identifiable information considered sensitive consistent with applicable federal and state laws regarding privacy and obligations of confidentiality.

VII. ALLOWABLE USE OF FUNDS AND COST PRINCIPLES

- A. Allowable Use of Funds. The school district administration and board will enforce appropriate procedures and penalties for program, compliance, and accounting staff responsible for the allocation of federal grant costs based on their allowability and their conformity with federal cost principles to determine the allowability of costs.

- B. Definitions

1. “Allowable cost” means a cost that complies with all legal requirements that apply to a particular federal education program, including statutes, regulations, guidance, applications, and approved grant awards.
2. “Education Department General Administrative Regulations (EDGAR)” means a compilation of regulations that apply to federal education programs. These regulations contain important rules governing the

administration of federal education programs and include rules affecting the allowable use of federal funds (including rules regarding allowable costs, the period of availability of federal awards, documentation requirements, and grants management requirements). EDGAR can be accessed at: <http://www2.ed.gov/policy/fund/reg/edgarReg/edgar.html>.

3. “Omni Circular” or “2 C.F.R. Part 200s” or “Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards” means federal cost principles that provide standards for determining whether costs may be charged to federal grants.
4. “Advance payment” means a payment that a federal awarding agency or passthrough entity makes by any appropriate payment mechanism, including a predetermined payment schedule, before the non-federal entity disburses the funds for program purposes.

C. Allowable Costs. The following items are costs that may be allowable under the 2 C.F.R. Part 200s under specific conditions:

1. Advisory councils;
2. Audit costs and related services;
3. Bonding costs;
4. Communication costs;
5. Compensation for personal services;
6. Depreciation and use allowances;
7. Employee morale, health, and welfare costs;
8. Equipment and other capital expenditures;
9. Gains and losses on disposition of depreciable property and other capital assets and substantial relocation of federal programs;
10. Insurance and indemnification;
11. Maintenance, operations, and repairs;
12. Materials and supplies costs;
13. Meetings and conferences;
14. Memberships, subscriptions, and professional activity costs;

15. Security costs;
16. Professional service costs;
17. Proposal costs;
18. Publication and printing costs;
19. Rearrangement and alteration costs;
20. Rental costs of building and equipment;
21. Training costs; and
22. Travel costs.

D. Costs Forbidden by Federal Law. 2 CFR Part 200s and EDGAR identify certain costs that may never be paid with federal funds. The following list provides examples of such costs. If a cost is on this list, it may not be supported with federal funds. The fact that a cost is not on this list does not mean it is necessarily permissible. Other important restrictions apply to federal funds, such as those items detailed in the 2 CFR Part 200s; thus, the following list is not exhaustive:

1. Advertising and public relations costs (with limited exceptions), including promotional items and memorabilia, models, gifts, and souvenirs;
2. Alcoholic beverages;
3. Bad debts;
4. Contingency provisions (with limited exceptions);
5. Fundraising and investment management costs (with limited exceptions);
6. Donations;
7. Contributions;
8. Entertainment (amusement, diversion, and social activities and any associated costs);
9. Fines and penalties;
10. General government expenses (with limited exceptions pertaining to Indian tribal governments and Councils of Government (COGs));
11. Goods or services for personal use;

12. Interest, except interest specifically stated in 2 C.F.R. § 200.441 as allowable;
13. Religious use;
14. The acquisition of real property (unless specifically permitted by programmatic statute or regulations, which is very rare in federal education programs);
15. Construction (unless specifically permitted by programmatic statute or regulations, which is very rare in federal education programs); and
16. Tuition charged or fees collected from students applied toward meeting matching, cost sharing, or maintenance of effort requirements of a program.

E. Program Allowability

1. Any cost paid with federal education funds must be permissible under the federal program that would support the cost.
2. Many federal education programs detail specific required and/or allowable uses of funds for that program. Issues such as eligibility, program beneficiaries, caps or restrictions on certain types of program expenses, other program expenses, and other program specific requirements must be considered when performing the programmatic analysis.
3. The two largest federal K-12 programs, Title I, Part A, and the Individuals with Disabilities Education Act (IDEA), do not contain a use of funds section delineating the allowable uses of funds under those programs. In those cases, costs must be consistent with the purposes of the program in order to be allowable.

F. Federal Cost Principles

1. The Omni Circular defines the parameters for the permissible uses of federal funds. While many requirements are contained in the Omni Circular, it includes five core principles that serve as an important guide for effective grant management. These core principles require all costs to be:
 - a. Necessary for the proper and efficient performance or administration of the program.
 - b. Reasonable. An outside observer should clearly understand why a decision to spend money on a specific cost made sense in light of the cost, needs, and requirements of the program.

- c. Allocable to the federal program that paid for the cost. A program must benefit in proportion to the amount charged to the federal program – for example, if a teacher is paid 50% with Title I funds, the teacher must work with the Title I program/students at least 50% of the time. Recipients also need to be able to track items or services purchased with federal funds so they can prove they were used for federal program purposes.
- d. Authorized under state and local rules. All actions carried out with federal funds must be authorized and not prohibited by state and local laws and policies.
- e. Adequately documented. A recipient must maintain proper documentation so as to provide evidence to monitors, auditors, or other oversight entities of how the funds were spent over the lifecycle of the grant.

G. Program Specific Fiscal Rules. The Omni Circular also contains specific rules on selected items of costs. Costs must comply with these rules in order to be paid with federal funds.

- 1. All federal education programs have certain program specific fiscal rules that apply. Determining which rules apply depends on the program; however, rules such as supplement, not supplant, maintenance of effort, comparability, caps on certain uses of funds, etc., have an important impact when analyzing whether a particular cost is permissible.
- 2. Many state-administered programs require local education agencies (LEAs) to use federal program funds to supplement the amount of state, local, and, in some cases, other federal funds they spend on education costs and not to supplant (or replace) those funds. Generally, the “supplement, not supplant” provision means that federal funds must be used to supplement the level of funds from non-federal sources by providing additional services, staff, programs, or materials. In other words, federal funds normally cannot be used to pay for things that would otherwise be paid for with state or local funds (and, in some cases, with other federal funds).
- 3. Auditors generally presume supplanting has occurred in three situations:
 - a. School district uses federal funds to provide services that the school district is required to make available under other federal, state, or local laws.
 - b. School district uses federal funds to provide services that the school district provided with state or local funds in the prior year.
 - c. School district uses Title I, Part A, or Migrant Education Program

funds to provide the same services to Title I or Migrant students that the school district provides with state or local funds to nonparticipating students.

4. These presumptions apply differently in different federal programs and also in schoolwide program schools. Staff should be familiar with the supplement not supplant provisions applicable to their program.

H. Approved Plans, Budgets, and Special Conditions

1. As required by the Omni Circular, all costs must be consistent with approved program plans and budgets.
2. Costs must also be consistent with all terms and conditions of federal awards, including any special conditions imposed on the school district's grants.

I. Training

1. The school district will provide training on the allowable use of federal funds to all staff involved in federal programs.
2. The school district will promote coordination between all staff involved in federal programs through activities, such as routine staff meetings and training sessions.

- J. Employee Sanctions. Any school district employee who violates this policy will be subject to discipline, as appropriate, up to and including the termination of employment.

VIII. COMPENSATION – PERSONAL SERVICES EXPENSES AND REPORTING

A. Compensation – Personal Services

Costs of compensation are allowable to the extent that they satisfy the specific requirements of the Uniform Grant Guidance and that the total compensation for individual employees:

1. Is reasonable for the services rendered and conforms to the established written policy of the school district consistently applied to both federal and non-federal activities; and
2. Follows an appointment made in accordance with a school district's written policies and meets the requirements of federal statute, where applicable.

Unless an arrangement is specifically authorized by a federal awarding agency, a school district must follow its written non-federal, entitywide policies and

practices concerning the permissible extent of professional services that can be provided outside the school district for non-organizational compensation.

B. Compensation – Fringe Benefits

1. During leave.

The costs of fringe benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, family-related leave, sick leave, holidays, court leave, military leave, administrative leave, and other similar benefits, are allowable if all of the following criteria are met:

- a. They are provided under established written leave policies;
- b. The costs are equitably allocated to all related activities, including federal awards; and
- c. The accounting basis (cash or accrual) selected for costing each type of leave is consistently followed by the school district.

2. The costs of fringe benefits in the form of employer contributions or expenses for social security; employee life, health, unemployment, and worker's compensation insurance (except as indicated in 2 C.F.R. § 200.447(d)); pension plan costs; and other similar benefits are allowable, provided such benefits are granted under established written policies. Such benefits must be allocated to federal awards and all other activities in a manner consistent with the pattern of benefits attributable to the individuals or group(s) of employees whose salaries and wages are chargeable to such federal awards and other activities and charged as direct or indirect costs in accordance with the school district's accounting practices.

3. Actual claims paid to or on behalf of employees or former employees for workers' compensation, unemployment compensation, severance pay, and similar employee benefits (e.g., post-retirement health benefits) are allowable in the year of payment provided that the school district follows a consistent costing policy.

4. Pension plan costs may be computed using a pay-as-you-go method or an acceptable actuarial cost method in accordance with the written policies of the school district.

5. Post-retirement costs may be computed using a pay-as-you-go method or an acceptable actuarial cost method in accordance with established written policies of the school district.

6. Costs of severance pay are allowable only to the extent that, in each case,

severance pay is required by law; employer-employee agreement; established policy that constitutes, in effect, an implied agreement on the school district's part; or circumstances of the particular employment.

- C. Insurance and Indemnification. Types and extent and cost of coverage are in accordance with the school district's policy and sound business practice.
- D. Recruiting Costs. Short-term, travel visa costs (as opposed to longer-term, immigration visas) may be directly charged to a federal award, so long as they are:
 - 1. Critical and necessary for the conduct of the project;
 - 2. Allowable under the cost principles set forth in the Uniform Grant Guidance;
 - 3. Consistent with the school district's cost accounting practices and school district policy; and
 - 4. Meeting the definition of "direct cost" in the applicable cost principles of the Uniform Grant Guidance.
- E. Relocation Costs of Employees. Relocation costs are allowable, subject to the limitations described below, provided that reimbursement to the employee is in accordance with the school district's reimbursement policy.
- F. Travel Costs. Travel costs may be charged on an actual cost basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two, provided the method used is applied to an entire trip and not to selected days of the trip, and results in charges consistent with those normally allowed in like circumstances in the school district's non-federally funded activities and in accordance with the school district's reimbursement policies.

Costs incurred by employees and officers for travel, including costs of lodging, other subsistence, and incidental expenses, must be considered reasonable and otherwise allowable only to the extent such costs do not exceed charges normally allowed by the school district in its regular operations according to the school district's written reimbursement and/or travel policies.

In addition, when costs are charged directly to the federal award, documentation must justify the following:

- 1. Participation of the individual is necessary to the federal award; and
- 2. The costs are reasonable and consistent with the school district's established travel policy.

Temporary dependent care costs above and beyond regular dependent care that directly results from travel to conferences is allowable provided the costs are:

1. A direct result of the individual's travel for the federal award;
2. Consistent with the school district's documented travel policy for all school district travel; and
3. Only temporary during the travel period.

RE: Policy 456 Substitute Instructor Pay Schedule

Board agenda item X.B. is a first reading of revised Policy 456 Substitute Instructor Pay Schedule.

We are recommending on a first reading an additional paragraph in the Internal Substitute Instructor section. This language clarifies pay rates and benefit impact for program assistants with teacher licensure who agree to short-term or long-term substitute assignments.

JC:ljb

400 PERSONNEL

456 SUBSTITUTE INSTRUCTOR PAY SCHEDULE

I. Definition

A daily substitute teacher is a person hired to replace an absent teacher on a daily basis to cover the teacher's regular assignment for that day pursuant to the direction of the building principal or assigned supervisor.

A long-term substitute teacher is a person hired to replace an absent teacher on a long-term basis to cover the teacher's regular assignment performing all duties of the absent teacher pursuant to the direction of the building principal or assigned supervisor. In accordance with Minn. Stat. section 179.03, a licensed long-term substitute shall be considered a long-term substitute when they are in the same position for 31 days or more.

II. Compensation

Daily substitute teachers shall be paid an established hourly rate consistent with the portion of the day actually worked or governed by the payment policies of a contracted service.

Long-term substitute teachers will be paid as determined by the agreed upon placement on the teacher salary schedule.

The Board of Education shall annually approve the daily substitute hourly rate prior to the beginning of each school year.

III. Benefits

Regular daily and long-term teacher substitutes are not entitled to insurance benefits granted to regular or part-time district teachers. Long-term substitute teachers are eligible for pro-rated leave benefits.

IV. Internal Substitute Instructor

District 917 teachers assigned by their principal/supervisor to teach beyond their normal student contact hours shall be paid their hourly rate pro rata to the employee's contract for the additional student contact time.

District 917 program assistants with teacher licensure who agree to a substitute assignment for a short-term assignment shall be paid their program assistants hourly rate or teacher daily substitute hourly rate whichever is greater. The program assistant will also maintain their insurance and leave benefits. When a program assistant agrees to a

long-term substitute assignment, hourly pay will be determined by the agreed upon placement on the teacher salary schedule. The program assistant will also maintain their insurance and leave benefits when in a long-term teacher substitute assignment.

V. Summer School Substitute Instructor Pay

Summer school substitute instructors shall be paid the daily substitute teacher rate. District 917 contracted teachers who substitute during summer school sessions shall be paid their hourly rate pro rata to the employee's contract.

RE: Policy 456 Substitute Instructor Pay Schedule

Board agenda item XI.A. - Policy 456 Substitute Instructor Pay Schedule.

The pay rate we are recommending for 2016-2017 is \$22.00 per hour. When we compare our hourly rate to our area school districts, this rate will keep us competitive with the area districts.

The ability to hire quality substitutes continues to be a big challenge.

Re: FY17 ISD 917 board approved meal prices

Information:

- Intermediate School District 917 has renewed our participation in the National School Lunch Program for FY17. Our Lunch Program operates at three of our locations: Alliance Education Center, Dakota County Technical College and Lebanon Education Center.

ARTICULATION CREDITS

DCALS currently offers articulated college credits with various post-secondary institutions. While attending DCALS, students have the opportunity to earn Technical College credit in qualifying courses. Students must earn at least 80% or better in the DCALS-Tech program competencies and meet attendance requirements to receive college credit. The student will then receive a DCTC college transcript and/or certificate indicating college credits earned.

ATTENDANCE AND RETENTION PROCEDURES

Attendance:

One of the objectives of DCALS is to provide you the instruction that will help prepare you for successful entry into an occupational area.

Our instructional programs are designed to teach you the skills, knowledge, and work habits related to the occupation and/or post-secondary school you have selected. In order for you to achieve your personal goals, as well as school goals, it is essential that you attend your classes regularly. **One standard which is common to post-secondary education; business, and industry occupations is for you to be at work/school on time every day.** We, therefore, have established the same standard for you. You are expected to attend your DCALS-TECH program every day your home school is in session and the home school sends a bus to the DCALS. **DCALS and DCALS North will follow the Intermediate School District 917 calendar.**

Absences:

DCALS does NOT have excused or unexcused absences.

Absences will negatively influence your grade.

DCALS Parent Portal TIES:

Parent/guardians have the access to secure any timely information about their student's attendance and grades. There will be a link to Parent Portal on www.isd917.k12.mn.us.

Your home school (**DCALS-Tech**) and/or parent/guardian will be notified when you are absent from Dakota County Area Learning School.

Students will be graded in the following categories: Professionalism and Skill Development (**DCALS-Tech**). DCALS and DCALS North will be graded in core academic areas according to the Minnesota Department of Education (MDE) standards.

If you are absent from DCALS on a day when you are expected to attend, you will be marked absent and that absence will negatively effect your grade.

DCALS staff will notify your parent(s)/guardian(s) and/or home school staff when a poor attendance pattern develops. The criteria for sending excessive absence letters and unsatisfactory performance letters are explained in the following Retention Procedure section.

Retention Procedure:

The retention procedure will give students, instructors, parents/guardians, and/or home school staff information about students who are in potential danger of failing for excessive absences or for unsatisfactory performance.

Every three weeks a grade report will be available on-line.

The grade report will be available on-line for parents/guardians to monitor your student(s)

progress or lack of progress and/or excessive absences. If a student has a “D” or an “F” for two consecutive 3-week grading periods, at the start of the third 3-week grading period there may be a **conference** (by phone or in person) with the DCALS instructor and/or teacher, student, parents/guardians, and/or home school counselor/case manager.

The team will discuss the situation and reach a decision on what action to take. An **Academic Contract** may be written outlining the circumstances under which the student will continue in our school, or to determine an alternate schooling option for the student. The contract is distributed as follows: Principal, parent/guardian, home school (DCALS-Tech), DCALS and/or DCALS North teacher, and the student.

Absence Appeal Process

You and your parent/guardian may appeal to the DCALS Principal to justify excessive absences. This appeal may result in a conference with some or all of the following: student, parents/guardians, DCALS staff members, and home school staff (DCALS-TECH).

Make-up Work Procedures

Make-up work is **the student’s** responsibility:

1. The day you return to DCALS after an absence, you must request the make-up work from your instructor/teacher for the day(s) missed.
2. You will have two days after the work is issued to complete the make-up work and turn it in to your instructor/teacher for grading. Furthermore, you will be given two school days to complete the work for every day missed.

Late Arrival to Class

Late arrival to class may result in the loss of Professionalism (**DCALS-Tech**) and/or academic points for that day.

The official record of student attendance is kept with the DCALS Principal. Attendance records will not be changed except by the procedure outlined above.

BULLYING AND CYBER-BULLYING

"Intimidation or bullying" means conduct that substantially interferes with a student's educational benefits, opportunities or performance occurring on or near school grounds. Intimidation or bullying includes an intentional gesture or a written, verbal, or physical act or threat that a reasonable person under the circumstances knows or should know has the effect of:

- (1) harming a student;
- (2) damaging a student's property;
- (3) placing a student in reasonable fear of harm to his or her person;
- (4) placing a student in reasonable fear of damage to his or her property; or
- (5) presenting a sufficiently severe, persistent, or pervasive threat or action and creating an intimidating, threatening, or abusive educational environment for a student.

The misuse of technology including, but not limited to, teasing, intimidating, defaming, threatening, or terrorizing another student, teacher, administrator, volunteer, contractor, or other employee of the District by sending or posting e-mail messages, instant messages, text messages, digital pictures or images, or Web site postings, including blogs, also may constitute an act of bullying regardless of whether such acts are committed on or off District property and/or with or without the use of District resources.

Students are reminded that they may be subject to school consequences for actions that may be considered to interfere with the educational process, learning environment, or school functions. This would include activity outside of school, during non-school hours, including vacations and holidays. There does not necessarily need to be police action, arrest or conviction of unlawful activity if the school finds evidence that unlawful activity has occurred.

DCALS Secondary programs will comply with ISD 917 policy 411 related to Bullying.

CAMPUS ACCESS

DCALS students are restricted from being on the West end of the college campus without supervision. Students found on West end beyond the cafeteria (without teacher permission) will be escorted to DCALS administration.

COMPUTERS, NETWORK, AND INTERNET

ISD 917 has guidelines for student use of computers, networks and Internet. Access to the network and Internet entails responsible student actions. These guidelines define the appropriate and ethical uses of this hardware, software and communications, identify student responsibilities and outline procedures for enforcing behavior and disciplinary action. All ISD 917 student behavioral expectations apply to computers, networks and Internet use. Violations will result in school disciplinary action to include one or more of the following: verbal warning, suspension, possible recommendation of expulsion and referral to legal authorities for prosecution.

ISD 917 staff monitors all work done on District computers, networks and Internet. District 917 does not relinquish control over any material on the system or contained on files.

Using the Internet is a privilege, not a right. Inappropriate use will result in cancellation of those privileges. Before students will be allowed to have access to the Internet, the student and their parent or guardian will sign and return a permission form.

Use of computers, network and Internet

1. Be polite. Do not be abusive in communications to others. This includes messages that might threaten or harass individuals or groups because of their age, race, sex, religious beliefs, sexual orientation, physical abilities, etc. District 917 policy regarding harassment (413) applies to electronic communications.
2. Use appropriate language and images. Do not use threats, swearing, vulgarities, pornography or any other inappropriate language and images. District student disciplinary policies regarding assault, verbal abuse or harassment apply to electronic communications.
3. Do not give out personal or family information such as phone numbers, addresses or arrange for face-to-face meetings without parental or guardian supervision and never respond to suggestive messages. All instances of people asking for personal information or face-to-face meeting are to be reported immediately to staff.
4. Communication that must be 100% private or secure is not to be communicated via the school computers, network or Internet. The school staff has access to all student communications and files. Messages and activities that violate district policies and procedures or violate or support illegal activities will be reported to school and legal authorities.
5. The Internet, network, and computers are to be used for class assignments and tasks.
6. The Internet, network, and computers violations include, but are not limited to:
 - a) Using the Internet and network in ways that violate district policies and procedures or violate laws of Minnesota or the United States.
 - b) Using the Internet or network for any illegal activity. Included is the advertisement,

promotion, sale or sharing of information of any product or service that is illegal. This includes violating copyright laws or other laws. Making or distributing unauthorized and illegal copies of licensed software is against the law. The district student discipline policy regarding technology and telecommunications apply to the Internet and network.

- c) Using the Internet or network for financial or commercial gain or commitments.
- d) Degrading, disrupting or destroying equipment or system performance.
- e) Invading the privacy of other individuals by accessing and or vandalizing their computerized data.
- f) Wasting technology resources, including file space and printers.
- g) Gaining unauthorized access to resources or entities.
- h) Using an account owned by another person.
- i) Posting or using personal communications without the author's consent.
- j) Downloading or loading of unauthorized software, deleting or misusing of files or programs and inappropriate accessing of files, software or servers.

If any student feels he/she is being discriminated against because of race, religion, sex, national origins or any other reason, he/she should report such discrimination to the building administrators or the counselor. It will then be forwarded to the Human Resources Officer for further investigation. A copy of the complete harassment policy is available and printed in the ISD 917 Policy Book which can be picked up at the School Office or can be accessed on the district website; www.isd917.k12.mn.us.

DRESS CODE

Expectations

Research has shown that there is a direct correlation between students' dress and students' behavior. Students must be neat, clean, and properly dressed at all times.

Student dress is recognized as a matter of personal taste at DCALS; however, no student will be allowed to attend the school while wearing bizarre, obscene, or odd clothing which could cause disruption of the orderly learning environment or clothes or grooming styles which constitute a health and/or safety hazard.

- Students will not be allowed to wear clothing which declares membership in a group that has as one of its primary activities the commission of criminal acts, or acts that would be criminal if the student were an adult.
- No article of clothing can convey intimidation, obscene, racial, discriminatory or violent messages, nudity, profanity, liquor or tobacco promotions or logos, or statements or pictures demeaning to any group or person. (For example; clothing items depicting celebrities or groups that promote this type of message will not be allowed.)

- Chains and other decorative items that could be used as weapons (i.e. spiked bracelets) are not allowed and will be removed.
- Students will wear clothing that covers their stomachs, chests, backs, and buttocks. Low-cut or tight-fitting shirts are not considered appropriate.
- Shoes will be worn at all times.
- Neither headgear, “do rags”, handkerchiefs, beads, caps, hoods, nor hats of any kind will be worn in the classroom, unless approved by administration.
- Sunglasses of any kind will not be worn inside the classroom.
- Intentionally altered clothing—i.e., cut-off jeans, holes cut above the knee, and/or ill fitting garments are not acceptable.
- Pants and shorts must be worn at the waist level at all times. Suspenders and/or straps attached to overalls must be fastened at all times and remain over the shoulders.
- Certain programs, for safety purposes, require students to wear special garments, safety glasses, hair coverings, safety shoes, etc. For your safety, and the safety of others, you must comply with these regulations. You must provide ankle high leather boots for use in the Welding & Metals Fabrication shop area.

Students who choose to dress inappropriately will be subject to disciplinary action.

DRIVING/RIDING PERMITS

All students are expected to ride to DCALS on the bus provided by your home school (**DCALS-Tech**), or you have obtained a driving/riding permit. Any violation of this policy will be referred to Principal and your home school (**DCALS-Tech**) for appropriate action. Before a student may drive/ride in a private vehicle to DCALS, a driving/riding permit must be obtained. Driving/riding permits can be obtained from the DCALS Office, Room 2-405. Once the form is signed, bring it to Administrative office for processing where you will be issued a permanent parking sticker. The Dakota County Technical College (DCTC) and the City of West St. Paul (DCALS North) has established parking and traffic regulations for the campus. All students must follow these regulations, or they are subject to ticketing, denial of parking privileges or referral to police. A copy of District 917’s parking and traffic regulations can be obtained from the Administration office, Room 2-406, or the Campus Sheriff’s Office, Room 2-709.

EMERGENCY EVACUATION OF BUILDING AND FIRE DRILLS

Fire drills and lock downs are held periodically during the school year in accordance with state law. Each instructor will inform students of the procedures for each drill and emergency situation. When the alarm sounds, everyone must follow the directives in a timely and orderly manner.

EVALUATION AND GRADES

Students will receive progress reports every three weeks during the grading period. This report will be completed by the program instructor/teacher indicating their performance to date.

At the end of each grading period (Trimester, Quarter) instructors will complete a student grade report. Copies of the grade report are distributed as follows:

1. Student file in the DCALS office (**obtained for student by administration**),
2. Home High School (**Tech**),
3. DCALS instructor/teacher.

If your performance is poor, you will be notified in writing three weeks prior to the end of the grading period.

Incomplete grades are the student's responsibility to correct within **two weeks** of issuance. Confer with your instructor/teacher to determine what work must be completed. After the two-week period, your instructor/teacher must change the incomplete to a letter grade. That letter grade will be calculated by your instructor/teacher on work performed with or without the incomplete work turned in.

The Dakota County Area Learning School grading scale:

A	100% - 90%
B	89% - 80%
C	79% - 70%
D	69% - 60%
F	59% - 0%
I	(Incomplete)
NG	No Grade

FEES

No student fees are required for supplies or materials to complete the educational requirements of your program. Materials can be furnished by the student or purchased from the program Instructor/Teacher.

FOOD AND BEVERAGES

Food and beverages are allowed only in designated areas of the Dakota County Technical College (DCTC), DCALS and DCALS North. Instructors/teachers are required to enforce the Food and Beverage Policy.

HAZING PROHIBITION

I. PURPOSE

The purpose of this policy is to maintain a safe learning environment for students and staff that are free from hazing. Hazing activities are inconsistent with the educational goals of Intermediate School District 197 and are prohibited at all times.

- E. A person who engages in an act that violates school policy or law in order to be initiated into or affiliated with a student organization shall be subject to discipline for that act.
- F. The school district will act to investigate all complaints of hazing and will

discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor or other employee of the school district who is found to have violated this policy.

III. DEFINITIONS

- A. “Hazing” means committing an act against a student, or coercing a student in committing an act. That creates a substantial risk of harm to a person, in order for the student to be initiated into or affiliated with a student organization, or for any other purpose. The term hazing includes, but is not limited to:
 - 1) Any type of physical brutality such as whipping, beating, striking, branding, electronic shocking or placing a harmful substance on the boy.

 - 5) Any activity that causes or requires the student to perform a task that involves violation of state or federal law or of school district policies or regulations.
- B. “Student organization” means a group, club or organization having students as its primary member or participants. It includes grade levels, classes, teams, activities or particular school events. A student organization does not have to be an official school organization to come with the terms of this definition.

IV. REPORTING PROCEDURES

- A. Any person who believes he or she has been the victim of hazing or any person with knowledge or belief of conduct which may constitute hazing shall report the alleged acts immediately to the school district human rights officer or alternates to a school district administrator.
- B. Teachers, administrators, volunteers, contractors and other employees of the school district shall be particularly alert to possible situations, circumstances or events which might include hazing. Any such person who receives a report of, observes, or has other knowledge or belief of conduct which may constitute hazing shall inform the school district human rights officer or an administrator immediately.
- C. Submission of a good faith complaint or report of hazing will not affect the complainant or reporter’s future employment, grades, or work assignments.

V. SCHOOL DISTRICT ACTION

- A. Upon receipt of a complaint or report of hazing, the school district shall undertake or authorize an investigation by school district officials or a third party designated by the school district.
- B. The school district may take immediate steps, at its discretion, to protect the complainant, reporter, students, or others pending completion of an investigation

of hazing.

- C. Upon completion of the investigation, the school district will take appropriate actions. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline prohibited behavior. School district action for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements, applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act, school district policies and regulations. Penalties under the rules of the Minnesota State High School League will also apply.

VI. REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who retaliates against any person who makes a good faith report of alleged hazing or against any person who testifies, assists, or participates in a proceeding or hearing relating to such hazing. Retaliation includes, but is not limited to, any form of intimidation, reprisal, or harassment.

VII. DISSEMINATION OF POLICY

This policy shall appear in all school district student and staff handbooks.

HEALTH SERVICES

Intermediate School District 917 has a nurse on duty in the Health Service Room, 1-501. A nurse is on duty at all times and will assist you in case of an emergency or sudden illness.

If you need to visit the nurse, notify your instructor/teacher. Your home school nurse (**Tech**) will be notified if you are injured or become ill at DCALS. In the event of an injury requiring treatment by a physician, the school will attempt to contact your parents/guardians prior to such treatment. DCALS administration will then activate reasonable emergency medical procedures.

INSURANCE

Students who attend the Dakota County Area Learning School are **NOT** covered by accidental health insurance. You should arrange for coverage through your family health insurance plan.

LOCKERS AND DESKS

Lockers, desks and storage areas are the property of Intermediate School District 917. At no time does ISD 917 relinquish its exclusive control of lockers/storage areas provided for the convenience of students. Inspection of the interior lockers/storage areas may be conducted by school district administration for any reason at any time, without notice, without student consent, and without a search warrant. The personal possessions of students within a school locker/storage area may be searched only when school administration have a reasonable suspicion that the search will uncover evidence of a violation of law or school rules. As soon as practicable after the search of a student's personal possessions, the school administration must provide notice of the search to students whose lockers were searched unless disclosure would impede an ongoing investigation by police or school officials.

LOST AND FOUND

Lost and Found items are kept by the receptionist located in the front office of Dakota County Technical College. If lost items are not claimed in 30 days, they will be discarded. You may also inquire in the DCALS office.

NON-DISCRIMINATION POLICY

It is the policy of the DCALS not to discriminate on the basis of religious, racial, sexual orientation, national origin or disability in its educational programs and activities as required by Title VI of the Civil Rights Act of 1964 and by Title IX of the Educational Amendments of 1972.

The Dakota County Area Learning School programs are open to all students. The case manager and/or administration for DCALS is available to discuss student needs for auxiliary aides or services, accommodations in testing situations or to assist with arrangements for alternative test options and to provide guidance services.

Students may also request that their home school counselor or IEP manager contact the Principal at DCALS for assistance. Any American Disabilities Act (ADA) related complaint is to be referred to ISD 917 Disability Non-discrimination Coordinator or alternates (see below). For details regarding the ISD 917 ADA policy, see District Policy 402. A copy is available in the Administration Office.

NUISANCE AND HAZARDOUS ITEMS

Nuisance items such as hacky sacks, laser pointers, thrown objects (snowballs, Frisbees, balls, etc.) are **not** permitted at DCALS. Telecommunication devices, radios, and other personal entertainment devices are **not** allowed during class time, unless approved by the instructor/teacher for instructional purposes.

PARKING

DCALS parking is in the outermost East lot. All vehicles must display a parking permit. A permit, to hang from the rear view mirror, will be issued for vehicles parking on a regular basis. A pink permit, placed on the dash of your car, will be issued for temporary parking. Parking violations may result in ticketing, immobilizing, or towing. Questions about parking citations must be directed to the Campus sheriff's Office, Room 2-709. ***Parking a vehicle on ISD 917 (DCALS North) and Dakota County Technical College (DCTC) property implies consent to allow search of the vehicle for contraband or illegal items.***

Students violating these guidelines are subject to disciplinary action up to and including suspension and notification of police. ***NOTE: The speed limit in all parking lots is 10 MPH.***

PESTICIDE/HERBICIDE INFORMATION

Minnesota law requires schools that apply pesticides and herbicides to maintain an estimated schedule of such applications and to make the schedule available to parents and guardians for review or copying at the District Office. Our district is so small and the amount of outside grounds is so limited that pesticides and herbicides are seldom applied and then only on an as needed basis. Therefore, no scheduled applications are made. We attempt to limit such application to the maximum extent and only use chemicals when absolutely necessary.

State law also requires that you be told that the long-term health effects on children from the application of such pesticides and herbicides or the class of chemicals to which they belong may not be fully understood. Since Intermediate District 917 does not apply chemicals on a scheduled basis, you may wish to be notified in the event that an application is anticipated. If so,

please send a letter to Linda Berg, Health and Safety Coordinator, 1300 145th Street East, Rosemount, Minnesota 55068. Information on Health, Wellness, and Safety can also be found on our website at www.isd917.k12.mn.us. If you need additional information, please call Linda Berg at 651-423-8214.

PLEDGE OF ALLEGIANCE

Intermediate School District 917 has waived the requirement to recite the Pledge of Allegiance via Board Policy 6.14, in accordance with Minn. Stat. § 121A.11, sub. 3.

SEARCHES

The law allows school authorities to search students, their lockers, their motor vehicles and personal property when they have reasonable suspicion that a particular student is in possession of something prohibited by school rules or by law. School authorities may seize any illegal contraband, substance, or object; or any material or object that violate a school rule or poses a hazard to the safety and good order of the school. Students are not to bring these items to school or to any school-sponsored function.

1. General Inspection – School authorities will be making general inspections of lockers for purposes including but not limited to safety, cleanliness, retrieval of school material, and maintenance. Such general inspections shall not include searching personal items stored in lockers, such as clothing, bags, purses, unless reasonable particularized suspicion exists.
2. Locker/Storage Area Inspections – All lockers and other storage areas provided for student use on school premises remain the property of the school district and are subject to inspection, access for maintenance, and search. All weapons or instruments that have the appearance of a weapon are prohibited within all school environments and the school except for educational purposes as authorized in advance by the Secondary Principal or designee. School environments include, but are not limited to, District-owned buildings; school grounds; leased or rented facilities; school-sponsored activities; field trips; school vehicles and school buses/vans rented or owned; and school bus/van stops, any entrance or departure from school premises or events and all school related functions. Possession of a Firearm (or Explosive Device)

Any person having a firearm (which includes explosive devices) on their person or in an area subject to their control in a school environment will be subject to the same procedures and consequences listed under the consequences and procedures for possession of a weapon. In addition, firearm possession will result in a school board determination that the student shall be expelled for the period of one year. The School Board will require expulsion if the parent waives their right to an expulsion hearing or if it is determined through an expulsion hearing that the student did in fact bring or possess a firearm in a school environment. The School Board has the option of modifying the student's expulsion on a case-by-case basis.

Student Reporting

Students who see or become aware of a weapon at school must not touch it nor remain in the presence of a person or group if a weapon is present. Students must notify a staff person immediately for the safety of all concerned; students not following these steps are subject to disciplinary action up to and including expulsion.

SPECIAL EDUCATION SERVICES OVERVIEW

The mission of Intermediate School District 917 special education is to provide program options and other services to students with low-incidence disabilities referred by its member school districts.

These programs and services are offered because the member school districts desire comprehensive and efficient special education services that can be offered cooperatively under the direction of Intermediate School District 917.

Philosophy of Special Education:

Whereas public education is a fundamental right of all children and youth, and whereas every person is entitled to an equal opportunity to obtain an education, the Intermediate School District 917 School Board upholds the following beliefs as a basis for program decisions:

- All students are to be valued equally.
- All students can learn, including students with disabilities.
- Individual student educational plans are to be developed through cooperation among providing district staff. These individual educational plans shall portray a comprehensive and accurate view of a student and his or her abilities and needs, including transitional issues important to settings that the student will experience after school graduation, as well as needs for an extended school year.
- Students with disabilities must be served in an environment appropriate to their educational needs. Intermediate School District 917 believes that providing services to students with disabilities in integrated settings is determined by individual student needs, and should be practiced and encouraged when that setting will foster appropriate educational growth.
- Educators from the providing school districts and Intermediate School District 917 must cooperate with each other and other human service agencies in order to achieve comprehensive student-centered services.
- Because the school district in which the student resides is legally responsible for the special education services provided to the student, Intermediate School District 917 must also be responsive to the expectations of the providing school district.

SPECIAL EDUCATION PROGRAMS AND SERVICES

ANTHONY LOUIS CENTER Anthony Louis Center is a chemical dependency day treatment program operated by On-Belay Minnesota, Inc. Intermediate School District 917 provides the general and special education services for the students enrolled in the program. Course offerings include English, math, social studies, and science.

DAKOTA COUNTY ALTERNATIVE LEARNING SCHOOL (DCALS) and (DCALS-North)

Special education services are provided to students enrolled in DCALS as determined by students' individualized education plans.

DAKOTA ALTERNATIVE FOR SEVERELY HANDICAPPED (DASH) The DASH Program provides services to students, ages 3-21, who present with severe to profound Developmental Cognitive Disabilities (DCD) and may have multiple disabling conditions which require nursing care during the school day. The program focuses on communication, social, motor and daily living skills as well as functional academics. A full range of related services including speech/language, adapted physical education, occupational and physical therapy as well as other specialists are available, as determined by the IEP team. In this setting, students also utilize assistive technology to support their IEP goals. The current DASH Program sites include Henry Sibley High School in Mendota Heights, Lakeville North High School in Lakeville and three Hastings locations, Christa McAuliffe Elementary, Hastings Middle School and Hastings High School.

DEAF AND HARD OF HEARING ITINERANT (D/HH) Intermediate School District 917 provides a variety of services for learners who are deaf and hard of hearing. In the itinerant program, services are delivered to learners and families in their home school districts and ISD 917 site-based programs, and are either provided in the school and/or in the home setting. A major emphasis of services is to support learners' communication, language, literacy and academic development impacted by hearing loss. Teachers of deaf and hard of hearing also provide support and in-service to general education teachers and other related personnel. Related and support services including audiology, interpreting/transliterating, captioning, tutoring, and note-taking are also available to learners as needed. If a learner who is deaf or hard of hearing needs alternative or more intensive services than can be provided in an itinerant model, a resource program is available at the preschool, elementary, and secondary levels.

DEAF AND HARD OF HEARING RESOURCE (D/HH) Center-based programs are available for learners who are deaf and hard of hearing at the preschool, elementary, and secondary levels. In general, learners who attend the center-based resource program receive a significant portion of their academic instruction by a teacher of deaf and hard of hearing in a self-contained classroom. The languages of instruction used include American Sign Language and English via spoken English paired with cued English using the system of Cued Speech, the exposure to one or both being determined by a child's IFSP or IEP team. A major emphasis of the program is to support learners' communication and language development impacted by hearing loss, including listening and spoken language, and/or sign or cued language skills. Learners participate in general education classes as determined by their IEP teams. Related and support services in the areas of speech and language, audiology, occupational therapy, physical therapy, DAPE, nursing, interpreting/transliterating and deaf/blind intervener are available as needed.

INTRA-DAKOTA EDUCATIONAL ALTERNATIVE (IDEA) The IDEA Program stresses academics with the major emphasis on helping each student develop appropriate classroom behaviors and skills which will allow him/her to function in a general classroom setting. The student typically begins the IDEA Program on a full-day basis and as he/she progresses, the student spends more time in the home school setting. Student progress is monitored and assisted by a close working relationship with the student's home school district staff, the student's parents, and the student. There are also transition activities available for high school-aged students. School psychology and social work services are available for all students enrolled in the IDEA Program. Other related services are available according to a student's needs. The IDEA Program's largest school setting is at Alliance Education Center in Rosemount. In addition a high school satellite classroom is offered at Lebanon Education Center located in Apple Valley.

JUVENILE SERVICES CENTER (NEW CHANCE and RIVERSIDE SCHOOL) These programs provide educational support to the Juvenile Services Center for Dakota County. Youth offenders are court ordered to attend and will be provided with appropriate educational services. Educational services include educational screening as well as general and special educational services. High school courses leading toward graduation and transition services for students returning to home schools or other settings are features of the program.

OPTIONS Options is a day treatment program for mental health and chemical dependency operated by Community Drug & Alcohol Services, Inc. Intermediate School District 917 provides the general and special education services for the students enrolled in the program. Course offerings include English, math, social studies, and science.

PHYSICAL & HEALTH DISABILITIES (PHD) Intermediate School District 917 provides teachers for students with physical and health disabilities to serve students in general education settings. The teachers consult with the student's general education teacher(s) and other related personnel serving the student to help provide modifications to the education environment, instructional techniques, and curriculum used with the student. Services provided include assessment, monitoring, in-service training to staff, adaptation of materials, and training to students in the areas of assistive technology, work completion, and organizational skills.

PHYSICAL THERAPY (PT) Intermediate School District 917 employs physical therapists to serve students in their school and early childhood home settings. Although a physician's prescription is needed, the purpose of physical therapy is to support the student's education program. The physical therapist works closely with instructional and other related service personnel in the student's school in helping to implement the student's special education program.

PROGRAM ALTERNATIVE FOR COMMUNICATION EDUCATION AND SOCIALIZATION (PACES)

The PACES Program is designed to meet the needs of students who present with deficits related to their Autism Spectrum Disorders (ASD), and related neurobiological disorders. The program addresses the educational and environmental needs through a highly structured environment with a low student/staff ratio. A focus of the program is to develop positive social skills and strategies for interacting in the school and community setting. This includes indentifying and implementing tools and strategies to address sensory needs. The curriculum emphasizes the development of functional skills and academics, communication and social skills, daily living/life skills, vocational preparation, recreation and leisure. The current PACES program sites include Meadowview Elementary, Boeckman Middle School and Farmington High School in Farmington, Cherry View Elementary, McGuire Middle School and Lakeville North High School in Lakeville.

STUDENTS WITH UNIQUE NEEDS (SUN) This program provides services to students with unique needs who require a low staff-to-student ratio. Classrooms are located at Alliance Education Center in Rosemount and at Cedar School in Eagan. The SUN Program offers students the opportunity to work on academics as well as functional, transition, and social skills. There are two different classroom models to address the varying levels of student need. One model is a small group of six students served by a team of 1 teacher with three paraprofessionals. The other model is our individualized setting serving six students each with their own office space as well as a space for group work. The group is served by a teacher and six paraprofessionals. The SUN Program also works in cooperation with various public and private agencies to meet students' individual needs.

THERAPEUTIC EDUCATION ALTERNATIVE (TEA) The Therapeutic Education Alternative (TEA) Program serves students from grades K-12 who have complex educational, mental health, and behavioral needs. Students with a variety of disabilities attend the program. The principle behind the program is to integrate mental health and educational programming into the entire school day. The service model focuses on attachment and relationship to assist with co-regulation. Students coming to the TEA program need to have a diagnostic assessment completed by a mental health professional prior to intake. Students in the TEA program receive individualized educational services as well as direct mental health services daily. There are two different classroom models to address the varying levels of student need. One model is a small group setting of approximately eight students served by a team consisting of the teacher, mental health practitioner and two paraprofessionals. The other model is an individualized setting serving six students, each with their own office space as well as a space for group work. The group is served by a team consisting of a teacher, mental health practitioner, and six paraprofessionals. Students receive their education from a special education teacher and their mental health services from a mental health practitioner. All the staff at the TEA program (teachers, paraprofessionals and mental health practitioners) work toward helping the students progress in both areas. Related services of DAPE, speech, and occupational therapy, are also provided. This program is located at the Lebanon Education Center in Apple Valley.

TRANSITION EDUCATION SERVICE ALTERNATIVE (TESA) The TESA Program is located at the Dakota County Technical College in Rosemount and addresses the transition needs of young adults ages 18-21, in the areas of independent living, employment and post-secondary training and education. Staff, students, families, and community providers work together to identify the student's unique strengths, interests and learning styles and develop a plan to provide instructional and community opportunities to meet their transition needs. Areas addressed may include independent living skills, employment skills, academic or functional skills, communication and social skills community resources, self-advocacy, and post-secondary planning. For those students considering post-secondary education following graduation, there are also opportunities to build their skills in preparation for college, including understanding the resources and supports available through disability services.

VISUALLY IMPAIRED ITINERANT (VI) Services are provided to blind and visually impaired students in their local districts and ISD 917 site-based programs. Vision teachers work directly with students, and also provide consultative services to parents, teachers and other related personnel. Services provided include assessment, monitoring, in-service training to staff, adaptation of materials, training students in the use of low-vision aids, Braille and orientation and mobility training. The primary goal of the vision teacher is to help the student develop adaptive skills which will allow the student to function independently in and out of the school setting.

YOUTH TRANSITION PROGRAM (YTP) YTP is a mental health day treatment program operated by Life Span, Inc. Intermediate School District 917 provides the general and special education services for students enrolled in the program. Course offerings include: English, mathematics, social studies and science.

GENERAL INFORMATION

ABSENCES

If you are keeping your child home due to illness or any other reason, call the school or his or her IEP manager each morning as well as the transportation company.

ALLERGENS AND CHEMICAL SENSITIVITY

Exposure to fragrances and scents can cause some people to experience upper respiratory irritation, asthma, headaches and other symptoms. Because of this, ISD 917 requests that all classrooms and spaces used by ISD 197 staff and students remain free of chemical-based scented products. Specific points to this request include:

- Use non-scented body products (e.g. lotion, hair spray).
- Refrain from use of optional items in office areas that give off chemical based scents (e.g. air-fresheners, potpourri).
- Air-out recently dry-cleaned clothing before wearing.
- Use least toxic cleaning products, disinfectants, and paints that are commercially available. Store these products in tightly closed areas away from “traffic” areas.

These guidelines are not a “ban” on scented products, but a request to voluntarily refrain from chemical-based scented products so that chemical barriers will not prevent access for people chemical sensitivities. These guidelines are voluntary, so its enforcement relies on good will of staff and students. However, it is hoped that people will come to understand that scented products are, by their very nature, shared, hence not “personal”.

Additionally, sensitivity to other products may exist that could potentially be life threatening – including latex containing products (inflated non-mylar balloons and other latex containing products). Due to the latex dust particles (especially from stretchable latex products, it is recommended that latex products not be used in our classroom spaces.

Food items that can be of concern for individuals with potentially life threatening conditions include: peanuts or other nut allergy, when eaten or when breathed in. Because of this, packaged nut products are not recommended to be served in common eating areas.

ATTENDANCE

Regular attendance is important to school success. It is expected that a student's attendance will be regular and he or she will be on time unless prevented by illness, religious observance, family emergency (please call the school), or severe weather. An explanation by phone message or note from the parent/guardian is required when a student is tardy or absent. A phone or email message the morning (before the start of the school day) of the absence/tardy is preferred. This lets the school staff know that parents/guardians are aware of the tardiness or absence of the student. The following information should be given: date, student name, homeroom number or teacher, and reason for the absence/tardy. If the student will be tardy, please indicate approximate time s/he will be arriving and if they will need a school lunch ordered.

COMMUNITY FIELD TRIPS

During the school year student trips are planned to different locations in the community to enhance educational programming. There may be a charge for these trips depending on the activity. Intermediate School District 917 will provide the transportation. Permission slips are sent home with a student before any trip is taken. Cooperation in returning the signed slip promptly is appreciated. Students will not be allowed to participate in a field trip unless a permission slip has been signed and emergency health forms have been completed and are on file at the school.

CONFERENCES

Conferences are held each year and parents/guardians are encouraged to attend. The conferences are scheduled to review each student's program and to make plans for future programming.

DIRECTORY INFORMATION

Intermediate School District 917, pursuant to the U.S. General Education Provisions Act and Minnesota Government Data Practices Act, declares the following as "Directory Information" as provided in the Act, and that information relating to students may be made public if the information is in any of the following categories:

- Student's name
- Date of birth
- Major field of study
- Participation in officially recognized activities
- Dates of attendance
- Grade levels completed
- Degrees and awards received

Directory information does not include identifying data which references religion, race, color, social position, nationality, or disability. Any parent of any student or eligible student (18 or older) in the District may notify the District of their desire that some or none of the above information is to be released without their consent by contacting the administrator in the program in which said student attends and by completing a nondisclosure form, which can be obtained from the program administrator.

DRESS CODE

Since we believe that school is the student's place of work and that his/her dress should be in harmony with a good working situation, school dress policy needs to be followed:

- Clothing should be comfortable and appropriate for the age and sex of the student. Pants, skirts and shorts cannot be worn below the top of the hips. Wallet chains and similar accessories are also not acceptable school dress.
- Students should be dressed to be comfortable in warm weather. Revealing clothing, such as tight and/or short shorts, halter and tube tops, and any clothing that reveals a bare midriff are to be reserved for after-school wear.
- Written messages or pictures on clothing must be appropriate for school. They cannot display messages of a discriminatory, sexual, or violent nature. Shirts with tobacco, drug, or alcohol messages or logos are not acceptable.
- Appropriateness will be decided by the school administration and other clothing will be available.

- Gang-related clothing and symbols will not be allowed in school.
- Outerwear, such as headgear, windbreakers, jackets, coats, gloves and scarves may not be worn indoors during the school day. If a student feels cold indoors, s/he should bring a sweater to school.

EMERGENCY EVACUATIONS/FIRE DRILLS

In accordance with state law and for the safety of all students, a minimum of one tornado, five lockdown and five fire drills will be conducted this school year. During the drills, everyone must follow the directives in a timely and orderly manner.

EMERGENCY INFORMATION

All students are required to have up-to-date health and emergency information on file at school. This is to include the emergency telephone number where an adult can be reached during the school day. Parents/guardians will also be asked by their transportation office to provide emergency information that will be kept on the school bus. It is also important that parents establish an emergency plan for their child in case school is released because of severe weather conditions or other emergencies. The child should have a person in the neighborhood designated to supervise him/her if he/she cannot get into the house.

EXCUSING STUDENTS FROM SCHOOL

Requests to excuse a student from school for an extended period (more than a day or two) should be made in advance and in writing. These requests require the approval of the teacher(s) and the program administrator. All other absences (full or partial day) should be handled as noted under the "Attendance" section. The school board permits the school to excuse students for the following reasons:

- Illness;
- Serious illness or death in the family;
- Appointment with a doctor, dentist, or mental health professional when an appointment cannot be made outside the school day;
- Religious observance; or
- Special occasions authorized by the assistant director, director, or school superintendent. Before a student leaves the school building, he/she must report to the office and have a parent/guardian sign the student out.

FOOD AND BEVERAGES

Food and beverages are allowed only in designated areas. Students are not allowed to bring open containers into the school. Items must be in factory sealed containers and can only be brought in with permission from his/her IEP manager.

GROUNDINGS FOR REMOVAL FROM CLASS

The teacher shall have the authority to remove a student from the class when the student exhibits:

- Willful conduct which materially and substantially disrupts the rights of others to an education;
- Willful conduct which endangers school district employees, the pupil, or other pupils or property of the school; or
- Willful violation of any rule of conduct established in the discipline policy adopted by the Board.

HOMework

Homework assignments vary based on individual classroom teacher, student, subject, and program alternative. Parents who wish their child to have regularly assigned homework should contact the child's classroom teacher early in the school year to arrange homework. Generally, students are permitted to take work home if they have not completed it during the school day or within a designated period.

ILLNESS (HOME)

To help reduce the spread of infections throughout the school, we ask students to remain at home if the following applies:

- **Fever** of 100.5 (orally) or higher and behavior change (increased irritability, fatigue, inability to sleep) or other sign and symptoms of illness (i.e. cough, sore throat, rash, vomiting, head ache, diarrhea);
- **Diarrhea or vomiting** in previous 24 hours unless the diarrhea or vomiting is determined to be caused by a non-communicable condition and the child is not at risk of dehydration;
- **Eye drainage** thick white or yellow drainage and redness of the eye; or eye pain.

In general, follow the 24-hour rule to send your child back to school. Please keep your child home 24 hours after: fevers, diarrhea, vomiting, starting antibiotics.

Additionally, it is important to notify the school of any contagious conditions such as strep throat, head lice or scabies, gastrointestinal or respiratory influenza, pneumonia or otherwise, to which a student is ill with or has been exposed. The licensed school nurse or health associate/designee will be able to take appropriate measures for your child and other students.

Please refer to the Intermediate School District 917 website: <http://www.isd917.k12.mn.us/> for further information regarding contagious conditions and making determinations regarding whether a child may attend school in the article, *"Information about Common Childhood Diseases"*.

ILLNESS/INJURY (SCHOOL)

If a student becomes ill or is injured at school, the parent will be contacted. If a parent cannot be reached, the person listed on the **Student Emergency Contact Information** will be called. Transportation home and additional medical care is the responsibility of the parent.

In the event 911 is called, emergency response personnel will assess the need for further medical treatment and possible transport to an acute care facility. Parent/Guardian will communicate with emergency response personnel related to action advised. If transport is needed, parent/guardian is expected to be onsite at the acute care facility for ongoing care authorization.

The school nurse will take the following into consideration when determining the severity of the illness:

- **Inability of child** to participate comfortably in activities as determined by the school staff due to illness;
- **Rash** with fever and/or behavioral changes;
- **Draining sores** that can not be covered; and/or are not diagnosed;
- **Head lice** until treated and 24 hours; treatment is recommended before returning to

- school for both “nits” and active head lice;
- **Bad colds (upper respiratory infections)** with coughing and yellow/green nasal drainage or sputum;
- **Abdominal pain** that continues for more than two hours or intermittent pain associated with fever or other signs or symptoms.

Please note that the Licensed School Nurse will also consider:

- If illness results in a need for care that is greater than the staff can provide without compromising the health and safety of other children;
- If child appears to be severely ill;
- If illness poses a risk of spread of disease to others;
- If any child determined by the local health department is contributing to the transmission of illness during an outbreak.

IMMUNIZATIONS

In order to attend school, students must show that they are in compliance with *Minnesota School Immunization Requirements* (see Minnesota Department of Health <http://www.health.state.mn.us/immunize> for more Information).

Intermediate School District 917 follows our member districts’ policies, which include a “No Shots, No School Policy.” This policy states that students who are not up to date on their immunizations will not be allowed to start school until they provide the school with documentation that they have received the required immunizations. The immunizations are required against:

- Diphtheria
- Tetanus
- Pertussis
- Polio
- Measles, Mumps, Rubella
- Hepatitis B
- Varicella (chicken pox) **All children entering kindergarten and seventh grade will be required to have received two doses of the chickenpox immunization (Varicella).** If the student has already had chickenpox, the immunizations are not necessary; however, it is necessary to submit the date the child had the disease (date/month/year) and a health provider needs to have verified that child had disease. If the student has never been vaccinated for Varicella, two immunizations must be given three months apart.
- **Meningitis – requiring the vaccination of meningococcal (MCV, MPSC)** for all children in 7th – 12th grade with booster given at age 16 years.

Students transferring into Intermediate School District 917 program are allowed a 30-day grace period to meet the immunization requirements.

INSTRUCTIONAL MATERIALS AND SUPPLIES

In some programs, parents are expected to supply: gym shoes, paint aprons, pens, loose-leaf notebooks and paper, facial tissues, and pencils. If instructional materials are lost or damaged, a charge will be assessed to the student who lost or damaged the item.

LOCKERS AND DESKS

Lockers, desks and storage areas are the property of Intermediate School District 917. At no time does Intermediate School District 917 relinquish its exclusive control of lockers/storage areas provided for the convenience of students. Inspection of the interior lockers/storage areas may be conducted by school district authorities for any reason at any time, without notice, without student consent, and without a search warrant. The personal possessions of students within a school locker/storage area may be searched only when school authorities have a reasonable suspicion that the search will uncover evidence of a violation of law or school rule. As soon as practical after the search of a student's personal possessions, the school authorities must provide notice of the search to students whose lockers were searched unless disclosure would impede an on-going investigation by police or school officials.

MEDICATIONS AND SPECIALIZED HEALTH CARE PROCEDURES

Intermediate School District 917 acknowledges that some students may require medication during the school day. Medications that can be administered to the student appropriately before or after school will be the responsibility of the parent/guardian. Medications that are required during school hours will be administered by school nursing staff or a delegatee who the nurse has trained and delegated the function of medication administration or delivery of specialized health care procedures.

All medications will be kept in the health office or designated area unless there is a written plan/agreement between the school, parent/guardian, physician and student (when appropriate).

Parents are responsible for obtaining and providing the needed forms, medications, supplies and equipment prior to their child receiving any medication or specialized health care procedure at school. All forms need to be updated annually and when there is any change in requested medication or procedure (i.e. dose, time, and type).

Requirements for Administration of Medications and Specialized Health Care Procedures:

- Signed authorization/directions from parent/guardian. See *"Authorization and Request for Administration of Medications"* form;
- Signed authorization from physician is required for all prescription medications. See *"Authorization and Request for Administration of Medications"* form. Additionally, non-prescription medications may need a physician or licensed provider authorization at the discretion of the Licensed School Nurse.
- All prescribed medications must be provided with an accurately labeled prescription container;
- All non-prescription medications provided by parent must be in an original container with label and directions;
- Health service administration of medication or procedures by our member district's health services for 917 students, will be in accordance to member district's policy and procedures.
- Supplies and equipment for authorized procedures must be consistent with the directions/written authorizations.

PLEDGE OF ALLEGIANCE

Intermediate School District 917 has waived the requirement to recite the Pledge of Allegiance via Board Policy 6.14, in accordance with Minn. Stat. § 121A.11, sub. 3. Intermediate School District 917 programs may be located in districts which recite the Pledge of Allegiance, in which case the program defers to the local district practice.

REFERRAL PROCESS

All students served by Intermediate School District 917 special education programs are referred by the local school district Special Education Director to the Intermediate School District 917 Special Education Director. Inquiries regarding a possible referral should not be addressed to teachers or supervisors. They should be addressed to the Special Education Director in the local district.

SAFETY

Intermediate School District 917 has an obligation to provide students with a safe learning environment. Safety is also the student's responsibility. Students can help avoid accidents by following common sense safety rules while in school. If students see an unsafe act or condition in their classroom/shop, they are to discuss it with a teacher.

SCHOOL-SPONSORED STUDENT PUBLICATIONS AND/OR STUDENT PROJECTS

Expression in a school publication or in a student project is prohibited when the material:

- Expresses or advocates sexual, racial or religious harassment or violence or prejudice;
- Encourages students to commit illegal acts or violate school regulations or substantially disrupts the orderly operation of school or school activities;
- Advertises or promotes any product or service not permitted for minors by law;
- Is libelous or slanderous; or
- Is obscene to minors.

Students violating these guidelines are subject to disciplinary action up to, and including, suspension.

SEARCHES

The personal possessions of a student and a student's person may be searched when school officials have a reasonable suspicion that the search will uncover violation of law and/or school rules. The search will be reasonable in its scope and intrusiveness.

STUDENT ORGANIZATIONS' CODE OF CONDUCT

Before attending a student organization activity, the instructor will inform students of the student organization's code of conduct. Students will be asked to agree to conduct themselves according to the code. Students attending a school-sponsored student activity must also follow the same behavioral guidelines that apply in all Intermediate School District 917 programs. Students are subject to disqualification and dismissal from the activity and to disciplinary action if they do not conform to these standards of conduct. This includes all forms of hazing. Violators will be disciplined based on the conduct violation.

TELEPHONE CALLS

We discourage telephone calls to teachers during the school day. Contact with teachers prior to or after classes is encouraged. Instructors will be contacting parents on a regular basis regarding their child's program. Students are requested to use the phones only in emergency situations. A student must receive permission from the classroom teacher before being permitted to use the phone. If a parent needs to talk with a child during the school day, office staff will assist parents in reaching or delivering a message to the student. Students are not allowed to have cell phones or pagers in school. Public phones are available at Alliance Education Center and at Dakota County Technical College.

TENNESSEN WARNING

When Intermediate School District 917 requests non-public data concerning you or your family, the purpose of that request will be specifically stated to you. In addition, our overall purpose and intended use of all such data shall be for the smooth and uninterrupted conduct of business to fulfill the educational purpose of Intermediate School District 917. At the time that any non-public data is requested from you regarding your family, you will be informed of the consequence arising from supplying or refusing to supply such information. In addition, you will be informed of the persons or entities authorized by law to receive the information unless the individual requesting the information does so pursuant to a law enforcement investigation, otherwise governed by law. Unless you are specifically notified otherwise, the information gathered by Intermediate School District 917 will be routinely accessed by District personnel, agents, contractors and others authorized by law to the extent necessary.

TRANSPORTATION

The local school district is responsible for transporting students and inquiries regarding transportation should be made to their office. Students wanting to drive to school need prior approval from the program supervisor.

- The local school district will contact parents regarding the time students will be picked up for school.
- Students will be picked up and delivered to a consistent location (home, neighbor, babysitter, etc.).
- Buses do not leave the school without students unless parents have made special arrangements. Contact the school if you are making other arrangements for transportation home.
- Appropriate behavior is expected in school vehicles. Students who are disruptive can interfere with the driver and cause dangerous situations to occur.
- If a student will not be attending school, the bus driver or transportation office of the local school district should be notified.
- Intermediate School District 917 will assist the local district with disciplinary bus issues when appropriate. Intermediate School District 917 needs a written report of the incident to establish what, if any, disciplinary measures are needed.

VISITORS

All visitors must sign in at the school office before being escorted to their appointments. In many schools visitors will be required to have identification badges. Students are not allowed to bring visitors to school without special permission from the program supervisor. If a parent would like to observe a classroom, an appointment must be made in advance with the program supervisor. Other children, friends, or siblings are not to accompany parents on these visits.

SELECTED SCHOOL DISTRICT POLICIES AND PROCEDURES

411 BULLYING PROHIBITION POLICY

[Note: School districts are required by statute to have a policy addressing bullying.]

I. PURPOSE

A safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with a student's ability to learn and/or a teacher's ability to educate students in a safe environment. The school district cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel. However, to the extent such conduct affects the educational environment of the school district and the rights and welfare of its students and is within the control of the school district in its normal operations, the school district intends to prevent bullying and to take action to investigate, respond to, and to remediate and discipline for those acts of bullying which have not been successfully prevented. The purpose of this policy is to assist the school district in its goal of preventing and responding to acts of bullying, intimidation, violence, reprisal, retaliation, and other similar disruptive and detrimental behavior.

II. GENERAL STATEMENT OF POLICY

- A. An act of bullying, by either an individual student or a group of students, is expressly prohibited on school premises, on school district property, at school functions or activities, or on school transportation. This policy applies not only to students who directly engage in an act of bullying but also to students who, by their indirect behavior, condone or support another student's act of bullying. This policy also applies to any student whose conduct at any time or in any place constitutes bullying or other prohibited conduct that interferes with or obstructs the mission or operations of the school district or the safety or welfare of the student or other students, or materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. This policy also applies to an act of cyberbullying regardless of whether such act is committed on or off school district property and/or with or without the use of school district resources.
- B. No teacher, administrator, volunteer, contractor, or other employee of the school district shall permit, condone, or tolerate bullying.
- C. Apparent permission or consent by a student being bullied does not lessen or negate the prohibitions contained in this policy.

- D. Retaliation against a victim, good faith reporter, or a witness of bullying is prohibited.
- E. False accusations or reports of bullying against another student are prohibited.
- F. A person who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying or permits, condones, or tolerates bullying shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures, including the school district's discipline policy (See MSBA/MASA Model Policy 506). The school district may take into account the following factors:
 - 1. The developmental ages and maturity levels of the parties involved;
 - 2. The levels of harm, surrounding circumstances, and nature of the behavior;
 - 3. Past incidences or past or continuing patterns of behavior;
 - 4. The relationship between the parties involved; and
 - 5. The context in which the alleged incidents occurred.

Consequences for students who commit prohibited acts of bullying may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion. The school district shall employ research-based developmentally appropriate best practices that include preventative and remedial measures and effective discipline for deterring violations of this policy, apply throughout the school district, and foster student, parent, and community participation.

Consequences for employees who permit, condone, or tolerate bullying or engage in an act of reprisal or intentional false reporting of bullying may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of bullying may include, but not be limited to, exclusion from school district property and events.

- G. The school district will act to investigate all complaints of bullying reported to the school district and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who is found to have violated this policy.

III. DEFINITIONS

For purposes of this policy, the definitions included in this section apply.

- A. "Bullying" means intimidating, threatening, abusive, or harming conduct that is objectively offensive and:

1. an actual or perceived imbalance of power exists between the student engaging in the prohibited conduct and the target of the prohibited conduct, and the conduct is repeated or forms a pattern; or
2. materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges.

The term, "bullying," specifically includes cyberbullying as defined in this policy.

- B. "Cyberbullying" means bullying using technology or other electronic communication, including, but not limited to, a transfer of a sign, signal, writing, image, sound, or data, including a post on a social network Internet website or forum, transmitted through a computer, cell phone, or other electronic device. The term applies to prohibited conduct which occurs on school premises, on school district property, at school functions or activities, on school transportation, or on school computers, networks, forums, and mailing lists, or off school premises to the extent that it substantially and materially disrupts student learning or the school environment.
- C. "Immediately" means as soon as possible but in no event longer than 24 hours.
- D. "Intimidating, threatening, abusive, or harming conduct" means, but is not limited to, conduct that does the following:
 1. Causes physical harm to a student or a student's property or causes a student to be in reasonable fear of harm to person or property;
 2. Under Minnesota common law, violates a student's reasonable expectation of privacy, defames a student, or constitutes intentional infliction of emotional distress against a student; or
 3. Is directed at any student or students, including those based on a person's actual or perceived race, ethnicity, color, creed, religion, national origin, immigration status, sex, marital status, familial status, socioeconomic status, physical appearance, sexual orientation including gender identity and expression, academic status related to student performance, disability, or status with regard to public assistance, age, or any additional characteristic defined in the Minnesota Human Rights Act (MHRA). However, prohibited conduct need not be based on any particular characteristic defined in this paragraph or the MHRA.
- E. "On school premises, on school district property, at school functions or activities, or on school transportation" means all school district buildings, school grounds, and school property or property immediately adjacent to school grounds, school bus stops, school buses, school vehicles, school contracted vehicles, or any other vehicles approved for school district purposes, the area of entrance or departure from school grounds, premises, or events, and all school-related functions, school-sponsored activities, events, or trips. School district property also may mean a student's walking route to or from school for purposes of

attending school or school-related functions, activities, or events. While prohibiting bullying at these locations and events, the school district does not represent that it will provide supervision or assume liability at these locations and events.

- F. "Prohibited conduct" means bullying or cyberbullying as defined in this policy or retaliation or reprisal for asserting, alleging, reporting, or providing information about such conduct or knowingly making a false report about bullying.
- G. "Remedial response" means a measure to stop and correct prohibited conduct, prevent prohibited conduct from recurring, and protect, support, and intervene on behalf of a student who is the target or victim of prohibited conduct.
- H. "Student" means a student enrolled in a public school or a charter school.

IV. REPORTING PROCEDURE

- A. Any person who believes he or she has been the target or victim of bullying or any person with knowledge or belief of conduct that may constitute bullying or prohibited conduct under this policy shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report bullying anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.
- B. The school district encourages the reporting party or complainant to use the report form available from the principal or building supervisor of each building or available in the school district office, but oral reports shall be considered complaints as well.
- C. The building principal, the principal's designee, or the building supervisor (hereinafter the "building report taker") is the person responsible for receiving reports of bullying or other prohibited conduct at the building level. Any person may report bullying or other prohibited conduct directly to a school district human rights officer or the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as the primary contact on policy and procedural matters. The building report taker or a third party designated by the school district shall be responsible for the investigation. The building report taker shall provide information about available community resources to the target or victim of the bullying or other prohibited conduct, the perpetrator, and other affected individuals as appropriate.

- D. A teacher, school administrator, volunteer, contractor, or other school employee shall be particularly alert to possible situations, circumstances, or events that might include bullying. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute bullying or other prohibited conduct shall make reasonable efforts to address and resolve the bullying or prohibited conduct and shall inform the building report taker

immediately. School district personnel who fail to inform the building report taker of conduct that may constitute bullying or other prohibited conduct or who fail to make reasonable efforts to address and resolve the bullying or prohibited conduct in a timely manner may be subject to disciplinary action.

- E. Reports of bullying or other prohibited conduct are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of bullying and the record of any resulting investigation.
- F. Submission of a good faith complaint or report of bullying or other prohibited conduct will not affect the complainant's or reporter's future employment, grades, work assignments, or educational or work environment.
- G. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's obligation to investigate, take appropriate action, and comply with any legal disclosure obligations.

V. SCHOOL DISTRICT ACTION

- . A. Within three days of the receipt of a complaint or report of bullying or other prohibited conduct, the school district shall undertake or authorize an investigation by the building report taker or a third party designated by the school district.
- B. The building report taker or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the bullying or other prohibited conduct, the complainant, the reporter, and students or others, pending completion of an investigation of the bullying or other prohibited conduct, consistent with applicable law.
- C. The alleged perpetrator of the bullying or other prohibited conduct shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.
- D. Upon completion of an investigation that determines that bullying or other prohibited conduct has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited conduct. Remedial responses to the bullying or other prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act;

the student discipline policy and other applicable school district policies; and applicable regulations.

- E. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets of bullying or other prohibited conduct and the parent(s) or guardian(s) of alleged perpetrators of bullying or other prohibited conduct who have been involved in a reported and confirmed bullying incident of the remedial or disciplinary action taken, to the extent permitted by law.
- F. In order to prevent or respond to bullying or other prohibited conduct committed by or directed against a child with a disability, the school district shall, when determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in bullying or other prohibited conduct.

VI. RETALIATION OR REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged bullying or prohibited conduct, who provides information about bullying or prohibited conduct, who testifies, assists, or participates in an investigation of alleged bullying or prohibited conduct, or who testifies, assists, or participates in a proceeding or hearing relating to such bullying or prohibited conduct. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy.

VII. TRAINING AND EDUCATION

- A. The school district shall discuss this policy with school personnel and volunteers and provide appropriate training to school district personnel regarding this policy. The school district shall establish a training cycle for school personnel to occur during a period not to exceed every three school years. Newly employed school personnel must receive the training within the first year of their employment with the school district. The school district or a school administrator may accelerate the training cycle or provide additional training based on a particular need or circumstance. This policy shall be included in employee handbooks, training materials, and publications on school rules, procedures, and standards of conduct, which materials shall also be used to publicize this policy.

- B. The school district shall require ongoing professional development, consistent with Minn. Stat. § 122A.60, to build the skills of all school personnel who regularly interact with students to identify, prevent, and appropriately address bullying and other prohibited conduct. Such professional development includes, but is not limited to, the following:
 - 1. Developmentally appropriate strategies both to prevent and to immediately and effectively intervene to stop prohibited conduct;
 - 2. The complex dynamics affecting a perpetrator, target, and witnesses to prohibited conduct;
 - 3. Research on prohibited conduct, including specific categories of students at risk for perpetrating or being the target or victim of bullying or other prohibited conduct in school;
 - 4. The incidence and nature of cyberbullying; and
 - 5. Internet safety and cyberbullying.
- C. The school district annually will provide education and information to students regarding bullying, including information regarding this school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to prevent bullying and other prohibited conduct.
- D. The administration of the school district is directed to implement programs and other initiatives to prevent bullying, to respond to bullying in a manner that does not stigmatize the target or victim, and to make resources or referrals to resources available to targets or victims of bullying.
- E. The administration is encouraged to provide developmentally appropriate instruction and is directed to review programmatic instruction to determine if adjustments are necessary to help students identify and prevent or reduce bullying and other prohibited conduct, to value diversity in school and society, to develop and improve students' knowledge and skills for solving problems, managing conflict, engaging in civil discourse, and recognizing, responding to, and reporting bullying or other prohibited conduct, and to make effective prevention and intervention programs available to students.

The administration must establish strategies for creating a positive school climate and use evidence-based social-emotional learning to prevent and reduce discrimination and other improper conduct.

The administration is encouraged, to the extent practicable, to take such actions as it may deem appropriate to accomplish the following:

- 1. Engage all students in creating a safe and supportive school environment;

2. Partner with parents and other community members to develop and implement prevention and intervention programs;
 3. Engage all students and adults in integrating education, intervention, and other remedial responses into the school environment;
 4. Train student bystanders to intervene in and report incidents of bullying and other prohibited conduct to the schools' primary contact person;
 5. Teach students to advocate for themselves and others;
 6. Prevent inappropriate referrals to special education of students who may engage in bullying or other prohibited conduct; and
 7. Foster student collaborations that, in turn, foster a safe and supportive school climate.
- F. The school district may implement violence prevention and character development education programs to prevent or reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as attentiveness, truthfulness, respect for authority, diligence, gratefulness, self-discipline, patience, forgiveness, respect for others, peacemaking, and resourcefulness.
- G. 6.12 STUDENTS AND CHEMICAL DEPENDENCY

The District 917 School Board recognizes alcoholism or other chemical dependency as a treatable disease. The concern with chemical dependency is directed to its effects on the student's educational performance. In accordance with a general concern for the student as an individual as well as a future worker, the School Board has adopted the following policy statement regarding chemical dependency:

This policy assures that no student with alcoholism or other chemical dependency will have his/her student status affected for seeking and/or accepting diagnosis and treatment. Referral for diagnosis and/or treatment may be based on unsatisfactory educational performance or behavior.

Where the chemical dependency of a family member negatively affects a student's school performance, the School District will assist the student and/or the student's parent or legal guardian in locating and identifying appropriate counseling services. All contacts with non-school agencies for the purpose of diagnosis and/or treatment of chemical dependency will be considered confidential.

The confidential nature of the medical records of students with alcoholism or other chemical dependency will be preserved in the same manner as all other medical records.

If the student is a minor, the School District shall communicate with and work through the student's parents or legal guardian.

This policy shall in no way limit the application and authority of the school district pursuant to the Pupil Fair Dismissal Act.

District 917 Administration shall develop procedures to implement the above policy.

6.316 OFFENSES AND POTENTIAL CONSEQUENCES

Each offense listed may result in any or several of the following consequences depending upon the circumstances, including the pupil's prior disciplinary offenses. At a minimum, a verbal warning shall be given for each infraction. 6.316(a) WEAPONS POLICY

It is the policy of District 917 to maintain a positive, safe, secure learning and working environment. In striving to attain such an environment, the District takes the position of zero tolerance for weapons in our schools and programs, except as specifically stated below. Zero tolerance means the District will view safety violations as very serious matters and will take all necessary and appropriate disciplinary steps. All weapons or instruments that have the appearance of a weapon (look alike) are prohibited within all school environments and the school except for educational purposes as authorized in advance by the Director or designee. School environments include, but are not limited to, district-owned buildings; school grounds, leased or rented facilities; school-sponsored activities; field trips; school vehicles and school buses/vans rented or owned; and school bus/van stops, any entrance or departure from school premises or events and all school related functions. Anyone found to be in possession of a weapon in any area defined in this policy, before, during or after school hours is subject to administrative and legal action. Possession shall mean on one's person or in an area subject to one's control.

1. Possession of a Firearm (or Explosive Device)

Any person having a firearm (which includes explosive devices) on their person or in an area subject to their control in a school environment, will be subject to the same procedures and consequences listed under the consequences and procedures for possession of a weapon. In addition, firearm possession will result in an expulsion for a period of one calendar year (12 month period) consistent with Minn. Stat. § 121A.44. The school board will require expulsion if the parent waives their right to an expulsion hearing or if it is determined through an expulsion hearing that student did in fact bring or possess a firearm in a school environment. The school board may modify this expulsion requirement on a case-by-case basis pursuant to Minnesota or federal law. Unlawful possession of a firearm must be reported to the proper authorities (e.g., area police) as soon as possible.

2. Student Reporting

Students who see or become aware of a weapon at school must not touch it nor remain in the presence of a person or group if a weapon is present. Students must notify a staff person immediately for the safety of all concerned; students not following these steps are subject to disciplinary action which may include expulsion.

3. Weapons

The district takes a position of "Zero Tolerance" on use or possession of the following objects:

- All firearms, whether loaded or unloaded, etc.*

- Other guns of all types including air guns, pellet, B-B, stun, look-alike, and non-functioning guns that could be used to threaten others.
- Knives, switchblades or automatically opening blades, daggers, swords, razors, or similar objects.
- Artificial knuckles or other objects designed to be worn over the fist or knuckles.
- Blackjacks, clubs, nunchucks, throwing stars, or similar objects.
- Explosives**
- Poisons, chemicals, or substances capable of/causing bodily harm.***
- Bow and arrows, sling-shots, or similar objects.
- Incendiary devices.
- Any other device or instrument used to intimidate, threaten or inflict harm.
- Any device or instrument meeting federal or state definitions of a weapon.

*For purposes of this policy, a firearm is defined under federal law at 18 U.S.C. 921. The definition includes (a) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (b) the frame or receiver of any such weapon; (c) any firearm muffler or firearm silencer; or (d) any destructive device (including any explosive, incendiary, poisonous gas, bomb, grenade, rocket, missile, device or any other device similar to the devices listed).

**For purposes of this policy, an explosive is defined under federal law at 18 U.S.C. 844(i). This definition includes gun powders, powders used for blasting, all forms of high explosives, blasting materials, fuses (other than electrical circuit breakers), detonators, and other detonating agents, smokeless powders and any chemical compounds, mechanical mixture, or device that contains any oxidizing and combustible units, or other ingredients, in such proportions, quantities, or packing that if ignited by fire, by friction, by concussion, by percussion, or by detonation of the compound, mixture, or device or any part thereof may cause an explosion.

***Although tear gas compounds or other disabling compounds are considered potential weapons under this policy, parents/guardians of a student may make special arrangements with the administrator if a student feels he or she needs Mace or any other disabling compound for defensive purposes outside the school setting. Such arrangements shall be made in advance for the student to check the disabling compound into the school office. Employees may make special arrangements with their administrator.

4. Procedures and Consequences. Violation by Students

The procedure and consequences for the offenses are:

- (a) Confiscation of the weapon (if it can be done safely), notification of police and request assistance if needed,
- (b) Notification of the superintendent or designees,
- (c) Holding an administrative conference with student(s), which will:
 - i. Inform the student of the policy provision that has been violated.

The superintendent will review the recommendations and, based upon factors including, but not limited to, the surrounding circumstances, student's discipline record, or presence or suspected presence of disability, will determine whether to forward the recommendation to the school board for expulsion or exclusion proceedings consistent with provisions of the Pupil Fair Dismissal Act and Minnesota law.

5. Violation by Other Youths and Adults, Including Employees

- (a) Immediate notification of police, and
- (b) Employees will also be subject to district investigation and application of relevant district personnel policies and disciplinary procedures.

6. Exception Regarding Possession

K-12: A student who finds a weapon on the way to school, on school property, or in the school building and takes the weapon immediately and directly to the administrator's office shall not be considered in possession of a weapon.

7. Authorized Instructional and Work-Related Equipment and Tools

While this policy represents a "zero tolerance" position on weapons and/or look-alike weapons, it is not meant to interfere with instruction or use of appropriate equipment and tools by employees and students. Such

equipment, when properly used and stored, shall not be considered a weapon for purposes of this policy. However, when authorized instructional and work equipment and tools are used in a potentially dangerous or threatening manner, the guidelines and consequences of this policy will take effect.

8. Exceptions

- (a) Licensed peace officers, military personnel or students participating in military training, who are performing official duties.

The school district also recognizes that school district staff may be confronted with requests to withhold emergency care of a student in the event of a life-threatening situation at school or school activities or be presented with Do Not Resuscitate/Do Not Intubate (DNR-DNI) orders. The purpose of this policy is to provide guidance to school district staff in these situations.

II. GENERAL STATEMENT OF POLICY

DISTRICT REPORTING PROCEDURE REGARDING INAPPROPRIATE STUDENT-TO-STUDENT CONTACT

If a special education student verbally or physically threatens (i.e. abusive language or language threatening to harm and/or inappropriate touch such as spitting, hair pulling, kicking or hitting with an opened or closed hand) another student, the following procedures will be followed:

- The special education student's Individualized Education Plan (IEP) team will consider developing a behavioral intervention plan approved by the parents for dealing with such inappropriate behavior; and
 - The behavioral intervention plan will be reviewed as appropriate by the teacher and program supervisor to evaluate its effectiveness; and further,
 - If progress cannot be documented, a conference will be held to revise the plan accordingly.
- Such behavior will be charted on a daily log by school staff. Critical incidents or change in patterns will be brought to the attention of the program supervisor;
- A weekly log summarizing the daily data will be compiled by the classroom teacher and a copy placed in the school nurse's office;
- If an injury occurs as a result of physical contact, the student must be seen by school nursing staff. An "Incident Report of Student Injury" also must be completed and discussed with the District 917 program administrator;
- Parents of both parties (student offender and victim) will be informed of all such incidents (whether or not physical harm occurs) on a daily or weekly basis, depending on the frequency of such incidents, and the parental contacts will be documented on the "Parent contact Log" (CA7).

Restrictive Procedures Plan

In accordance with Minnesota Statute 125A.0942, Subd. 1, schools that intend to use restrictive procedures shall maintain and make publicly accessible a restrictive procedures plan for children. The plan specifically outlines restrictive procedures the school intends to use; how the school will implement a range of positive behavior strategies and provide links to mental health services; how the district will provide training on de-escalation techniques; how the school will monitor and review the use of restrictive procedures, including post use debriefings and convening an oversight committee quarterly; and a written description and documentation of the training staff have completed.

Restrictive procedures used in Intermediate School District 917

- Seclusion
Rooms intended for seclusion meet all of the requirements in accordance with Minnesota Statute 125A.0942, Subd. 3. and are registered with the Commissioner of Education.
- Physical holding
Physical holding procedures are used as the least intrusive procedure necessary to protect a child or other individual from physical injury or to prevent serious property damage in emergency situations. Staff are trained annually regarding requirements and appropriate implementation as part of evidence-based certification programs including CPI – Crisis Prevention Intervention and PCM – Professional Crisis Management. These evidence-based certification programs not only train in appropriate implementation of holds but also techniques to be used in de-escalation.

How the school will implement a range of positive behavior strategies and provide links to mental health services:

- Positive Behavior Interventions and Supports will be implemented when appropriate by site.
- School social workers, mental health professionals and mental health practitioners will be assigned to sites district wide to provide links to mental health services.
- Staff will coordinate with outside service providers to ensure links to mental health services.
- Some sites will participate in school-linked mental health services provided by a grant through the Department of Human Services.
- Some sites will utilize contracted services for crisis intervention with Behavioral Healthcare Providers – Diagnostic Evaluation Center.

How the school will monitor and review the use of restrictive procedures:

- A restrictive procedure may be used in an emergency when immediate intervention is needed to protect a child or other individual from physical injury; and less intrusive or non-physical interventions would not be effective; if a behavior intervention plan has been developed for the student and the student has failed to respond to those reinforcement techniques.
- The staff that implements or oversees the restrictive procedure shall inform the administration of any use of a restrictive procedure as soon as possible and complete the *Incident Report Form* no later than the next working day. This will be submitted to the program's direct supervisor.
- The *Post Use Debriefing Form* will be completed by an administrator or designee within two working days of receipt of the *Incident Report Form*.
- Each site will maintain an ongoing record of all reported uses of restrictive procedures.
- Quarterly, each supervisor will convene an oversight committee which will consist of the assistant director /principal, lead teacher, school social worker and school psychologist. This oversight committee will review the use of restrictive procedures based on patterns or problems indicated by similarities in the time of day, day of the week, duration of the use of a procedure, the individuals involved, or other factors associated with the use of restrictive procedures; the number of times a restrictive procedure is used school wide and for individual children; the number of types of injuries, if any, resulting from the use of restrictive procedures; whether restrictive procedures are used in nonemergency situations; the need for additional staff training; and proposed actions to minimize the use of restrictive procedures.
- Quarterly reports from site oversight committees will be reviewed by the district oversight committee consisting of the director of special education and the assistant director/principal for each site implementing restrictive procedures. This committee will review aggregate data, monitor site procedures and provide district training if necessary.

Documentation and Notification

- Individual Education Plans
The team should include a plan for using restrictive procedures in the IEP (Individual Education Plan) and BIP (Behavior Intervention Plan) but may only use the procedures in situations that constitute an emergency. The IEP and BIP must indicate how the parent wants to be notified when a restrictive procedure is used. The team is expected to debrief after every restrictive procedure and complete the *Incident Report Form*.
- Parental notification
 1. Parents should be notified the same day that a restrictive procedure is used. If this is not possible, there should be written or electronic notification within 2 days.
 2. An IEP meeting must be convened within ten calendar days when restrictive procedures are used on two separate school days within 30 calendar days or when a pattern emerges, and use of restrictive procedures in an emergency are not included in the IEP or BIP or at the request of a parent or the district after restrictive procedures are used. Restrictive procedures must be reviewed at a child's annual individualized education program meeting when the child's individualized education plan provides for using restrictive procedures in an emergency.
 3. An *Incident Report Form* must be completed every time a restrictive procedure is used.

Training

The following employee job classifications are authorized to use restrictive procedures:

How can I qualify?

You must meet program rules including income limits. How much income you can have and still qualify depends on your household size, age, pregnancy status, if you are blind or have a disability, and the health care program you qualify for. **NOTE: Income guidelines are approximations only. Use these charts for general reference.**

MA Monthly Income Limits effective 7-1-15 – 6-30-16

Family size	1	2	3	For each additional person, add
Infants under 2	\$2,775	\$3,756	\$4,737	\$981
Pregnant Women*		\$3,690	\$4,654	\$963
Children 2 through 18	\$2,697	\$3,650	\$4,603	\$953

People who are blind or have a disability	\$981	\$1,328	\$1,675	\$347
*A pregnant woman counts as two or more.				

Can I qualify if my income is more than these limits?

If your income is more than the income limits, you may still qualify for MA by meeting a spenddown. A spenddown is like an insurance deductible. You pay part of your medical bills and MA pays the rest.

I am pregnant. If I qualify, will my baby get health care?

If you get MA as a pregnant woman, your baby will get MA through the month of his or her first birthday. During the first year, your baby's coverage cannot stop if he or she continues to live in Minnesota.

MA Asset Limits

Assets are items you own. Assets that may count include cash, bank accounts, stocks, bonds, certain vehicles and property where you do not live. Assets that do not count include the home where you live, household goods, personal items such as clothing and jewelry, and certain assets owned by an American Indian.

There is no asset limit if you qualify as a pregnant woman, a parent or caretaker relative of a child under age 19, a child under age 21, or an adult under age 65 without children. Parents and caretaker relatives who qualify for MA with a spenddown have an asset limit of \$20,000.

What if I do not qualify for a Minnesota Health Care Program but still need coverage?

You may be able to get health care coverage through your work. Ask your employer if they offer health insurance to you and your family. If your employer does not offer affordable health insurance, you may qualify for a tax credit to help you buy health insurance.

Qualified Health Plans (QHP) and MNsure

You may be able to buy Qualified Health Plan (QHP) coverage, with or without a tax credit on MNsure. If you qualify for a tax credit, the tax credit can help pay the monthly premium.

MNsure is Minnesota's health insurance marketplace. You can find, compare, and choose, quality health care coverage that best fits your needs and budget. QHPs are commercial health insurance plans offered by insurance companies. All plans offer preventive services, mental health and substance abuse services, emergency services, prescription drugs and hospitalization. Some plans include more benefits.

Each plan is reviewed by state regulators, certified as a QHP and approved to be sold on MNsure.

You are able to enroll in a QHP during the open enrollment period of November 15, 2014 through February 15, 2015. You may qualify to enroll at other times due to certain life events such as the birth of a child, marriage or loss of health insurance coverage.

Advance Premium Tax Credit

The Advanced Premium Tax Credit allows you to get a federal tax credit right away to pay a part of your QHP premium. To qualify you must file taxes at the end of the year and enroll in a QHP through MNsure. The tax credit is paid to the health plan you choose. You must pay your portion of the health care premium to the health plan to start and keep coverage.

You may also qualify for cost sharing reduction. This benefit lowers the copays, coinsurance, and out-of-pocket costs you pay for health care services.

How can I apply?

WELCOME

Welcome and congratulations on being a member of the Intermediate School District 917 community. I hope your experience as a member of the ISD 917 staff is rewarding, challenging, and enjoyable. Our mission to serve the many needs of the students from our member districts is ever changing and requires us to modify and adapt our services frequently. Our attitude and philosophy is to meet the needs of each student as the member districts seek service, rather than offering rigidly structured programs to “choose from.” Our attitude and philosophy of flexibility and adaptation is what makes our services unique.

As a staff member of ISD 917, you will need information on many topics. This handbook is designed to be a resource to the many topics and situations you may encounter as an employee of ISD 917. The handbook is not designed to include all of the details of a topic but is intended to be a starting point that leads you to the needed information. In many instances there will be a reference to a website that will provide the in-depth details you are seeking. You are also encouraged to contact your supervisor or other appropriate staff member if the information you are seeking is not sufficiently addressed in the handbook or website.

The processes and procedures described in the handbook help us as staff in ISD 917 to be consistent and efficient in our work as a team. We are an excellent Intermediate School District because we have excellent staff who are committed to working together for the success of all learners. I thank all of you for the work that each of you do each day.

Dr. John M. Christiansen – Superintendent

MISSION STATEMENT OF INTERMEDIATE SCHOOL DISTRICT 917

Intermediate School District 917 serves as the best resource for school districts committed together to success for all learners.

Sixteen Expectations for Staff

I. Professional and Ethical Standards

1. **Be a team player.** Bring a positive attitude to work every day. Communicate effectively with students and the members of your team. Get to know the responsibilities of all your team members. Attempt to resolve problems closest to the source of the issue.
2. **Serve as a role model in your dress, speech, and actions.** Dress and act appropriately for your role and personal safety. Always use respectful language. Avoid jokes, off-color remarks or attempts at humor that could be considered rude, inappropriate, disruptive or unprofessional. Do not use offensive language or call a student a derogatory name. Do not talk about students or staff in a disrespectful or discourteous way.
3. **Teachers and their assistants are responsible for the education and supervision of students at all times.** Appropriate hands off must be communicated clearly.
4. **Be extremely careful regarding a student's personal space. Refrain from hugging students.** Handshakes or other touching may not be welcome or appropriate. Do not restrain a student unless you have completed Professional Crisis Management (PCM) training. Do not strike a student, disrobe a student, conduct a search without appropriate training or without a second person of the same sex as the student in attendance, or conduct a strip search. When in doubt, do not act until you have spoken with your supervisor.
5. **Set high expectations for behavior. Know and enforce the requirements of the District's Student Handbook.** This handbook serves as a guide for student conduct and is to be signed by all students and parents or guardians.
6. **Maintain confidentiality at all times.** Employees, students and their families have a right to confidentiality and data privacy. You are accountable for what you say and for information you release. Do not speak about a student in front of another student or talk about a student to staff or others in or outside school except on a need to know basis. Respect other staff members' confidentiality. Review the District's data privacy requirements by viewing the training module that is part of the Annual Mandatory Training available on the district website.
7. **You are a mandatory reporter of suspected maltreatment of minors and vulnerable adults.** The Intermediate School District 917 policy on maltreatment is available on the district website.
8. **Only have contact with your students during times in which they are enrolled in Intermediate School District 917 programs.** You are not to have dealings with them outside of the school day. Such communications could be confusing to students and reduce your effectiveness with them. It is also inappropriate. Report any student initiated personal contacts, whether by telephone or e-mail or in person, to your program facilitator as soon as possible. If you are responsible for providing respite care to any Intermediate School District 917 student, report that to your supervisor as well.
9. **Maintain your personal and professional boundaries at all times.** Personal information about your life outside of school is not appropriate and may not be appreciated by students or staff. You are part of the school program and your job is to provide education, support and

guidance to students. Establishing “friendships” with students may create unrealistic expectations and interfere with sustaining appropriate boundaries.

10. **Maintain a respectful and safe workplace.** Inappropriate comments about race, color, religion, age, sex, sexual orientation, marital status, national origin, or other tasteless or improper remarks will not be tolerated. The District also has a zero tolerance **Harassment and Violence Policy** that is on the district website. An important aspect of this policy is to report to your supervisor if you receive an unwelcome comment or feel threatened in any way. To the extent possible, we want you to feel safe and secure at all times.
11. **Be dependable.** You are responsible for maintaining good attendance. You are expected to report to work on time, adhere to the time periods established by the District for any breaks, and remain at the assigned work station throughout the scheduled work period or until properly relieved. Arriving to work on time will also allow sufficient time for planning and information sharing purposes. Report any absences or leaves timely on AESOP, our time and attendance reporting system. Remember also that leaves are not an entitlement but rather a benefit to be used as necessary. Accumulated leave can help you transcend the period between an injury and disability payments or can be converted to additional health benefits at retirement. Further information on the District’s attendance expectations can be found in the Dependability Procedure available on the Intermediate School District 917 website.

II. General Work Rules

12. **In emergency situations, all staff are expected to follow Emergency Procedures.** Review the plan for your location and know your role and responsibilities in each situation. First and foremost, you are responsible for your student’s and your own personal safety. Therefore, you should always conduct yourself in a safety conscious manner and encourage fellow staff to do likewise.
13. **Only use District 917 vehicles when it becomes necessary to transport students as part of your job assignment. Staff must undergo training provided by the district to operate district vehicles.**
14. **Use Intermediate School District 917 technologies appropriately.** This includes Internet access, and District owned software and hardware. No user has any right or expectation of privacy in anything that is created, sent, received or stored by computer including e-mail, fax or voicemail. Do not use Intermediate School District 917 technologies for: illegal activities, wagering, betting, or gambling; harassment and illegal discrimination; fundraising for any purpose unless District sanctioned; commercial activities, e.g., personal for-profit business activities; access, storage or transmission of offensive, racist, sexist, obscene, or pornographic information; promoting political or religious activities; downloading software including games, weather monitoring (e.g. Weather bug), wallpaper (e.g. Web Shots), and screen savers from the Internet unless District-sanctioned, or for any other purpose prohibited by District policy. The acceptable use of technology is further defined on the District website.
15. **Smoking is not allowed on District property.** Therefore, no person may smoke or use a tobacco product in any building or vehicle or on grounds owned or leased by the school district. Smoking cessation programs are available through Medica.
16. **You are responsible for reading and following all District policies and procedures.**

If you are unclear about any of these **Sixteen Expectations**, contact your administrator as soon as possible for an explanation. Best wishes for a successful school year!

CODE OF ETHICS OF THE EDUCATION PROFESSION

Adopted by the National Education Association Representative Assembly 1975

The educator, believing in the worth and dignity of each human being, recognizes the supreme importance of the pursuit of truth, devotion to excellence, and the nurture of democratic principles. Essential to these goals is the protection of freedom to learn and to teach and the guarantee of equal educational opportunity for all. The educator accepts the responsibility to adhere to the highest ethical standards.

The educator recognizes the magnitude of the responsibility inherent in the teaching process. The desire for the respect and confidence of one's colleagues, of students, of parents and of the members of the community provides the incentive to attain and maintain the highest possible degree of ethical conduct. The Code of Ethics of the Education Profession indicates the aspiration of all educators and provides standards by which to judge conduct.

PRINCIPLE I: COMMITMENT TO THE STUDENT

The educator strives to help each student realize his or her potential as a worthy and effective member of society. The educator therefore works to stimulate the spirit of inquiry, the acquisition of knowledge and understanding, and the thoughtful formulation of worthy goals.

PRINCIPLE II: COMMITMENT TO THE PROFESSION

The education profession is vested by the public with a trust and responsibility requiring the highest ideals of professional service.

In the belief that the quality of the services of the education professional directly influences the nation and its citizens, the educator shall exert every effort to raise professional standards, to promote a climate that encourages the exercise of professional judgment, to achieve conditions which attract persons worthy of the trust to careers in education, and to assist in preventing the practice of the profession by unqualified persons.

CODE OF ETHICS FOR MINNESOTA TEACHERS

Adopted by the Minnesota Board of Teaching

Each teacher upon entering the teaching profession, assumes a number of obligations, one of which is to adhere to a set of principles which defines professional conduct. These principles are reflected in the following code of ethics, which sets forth to the education profession and the public it serves standards of professional conduct and procedures for implementation.

This code shall apply to all persons licensed according to rules established by the Minnesota Board of Teaching.

Standards of professional conduct are as follows:

- A. A teacher shall provide professional educational services in a nondiscriminatory manner.
- B. A teacher shall make reasonable effort to protect the student from conditions harmful to health and safety.
- C. In accordance with state and federal laws, a teacher shall disclose confidential information about individuals only when a compelling professional purpose is served or when required by law.
- D. A teacher shall take reasonable disciplinary action in exercising the authority to provide an atmosphere conducive to learning.
- E. A teacher shall not use professional relationships with students, parents, and colleagues to private advantage.
- F. A teacher shall delegate authority for teaching responsibilities only to licensed personnel.
- G. A teacher shall not deliberately suppress or distort subject matter.
- H. A teacher shall not knowingly falsify or misrepresent records or facts relating to that teacher's own qualifications or to other teachers' qualifications.
- I. A teacher shall not knowingly make false or malicious statements about students or colleagues.
- J. A teacher shall accept a contract for a teaching position that requires licensing only if properly or provisionally licensed for that position.

CODE OF ETHICS FOR ADMINISTRATORS

Adopted by the Minnesota State Board of Education prior to 2001

NOTE: The following Code of Ethics was adopted by the State Board of Education. The State Board of Education was abolished and in 2001 the Board of School Administrators was created by the legislature. The Board of School Administrators has not yet adopted a Code of Ethics.

The administrator acknowledges that the schools belong to the public they serve for the purpose of providing educational opportunities to all. However, the administrator assumes responsibility for providing professional leadership in the school and community. This responsibility requires the administrator to maintain standards of exemplary professional conduct.

Implicit to adopting this ethical code is the belief that each administrator is significant to the successful accomplishment of the school's mission and that an environment of collaboration, cooperation, and respect for each other's role and responsibility must be maintained.

A school administrator shall:

1. Provide professional educational services in a nondiscriminatory manner.
2. Take reasonable action to protect students and staff from conditions harmful to health and safety.
3. Take reasonable action to provide an atmosphere conducive to learning.
4. Not misuse professional relationships with students, parents, and caregivers, staff or colleagues to private advantage.
5. Disclose confidential information about individuals only when a compelling professional purpose is served in accordance with state and federal laws, and school district policies.
6. Not knowingly falsify or misrepresent records or facts relating to the administrator's qualifications, or to the qualifications of other staff or personnel.
7. Not knowingly make false or malicious statements about students, students' families, staff or colleagues.
8. Not accept gratuities, gifts, or favors that impair professional judgment, nor offer any favor, service or item of value to obtain special advantage.
9. Only accept a contract for a position when licensed for the position or when a school district is granted a variance by the State Board of Education under Minnesota Statutes, section 121.11, subdivision 7b.
10. In filling positions requiring licensure, shall employ, recommend for employment, and assign only appropriately licensed personnel, or persons for whom the school district has been granted a variance by the appropriate state board or agency, unless, after making reasonable efforts to obtain a variance, an appropriately licensed person cannot be assigned and the position must be filled to meet a legitimate emergency educational need.
11. Not engage in conduct involving dishonesty, fraud, or misrepresentation in the performance of professional duties.

MODIFIED WORK ASSIGNMENT GUIDELINES AND PROCEDURES

It is the practice of the district to modify work assignments for a limited period to assist employees who are temporarily restricted from performing their regularly assigned duties due to an on-the-job injury.

The following are definitions of terms used in the description of procedures:

A Modified Assignment position is a temporary position to which an employee is assigned when he/she is unable to return to his/her regular position following an on-the-job injury or illness. The modified assignment position temporarily addresses the restrictions placed on an individual by the employee's treating doctor.

Employment related injury is an injury or occupational disease, which arises out of the course of employment.

Physician in these procedures means a (e.g. doctor of medicine, osteopathic medicine, optometry, dentistry, podiatry, or chiropractic who is licensed and authorized to practice as defined in the Minnesota Workers' Compensation Regulations Labor Code.

Eligibility

To be eligible for participation in a modified assignment position, an employee must provide a written statement from his/her treating physician that he/she is:

- Temporarily unable to perform his/her essential duties, following an employment related injury or illness
- And**
- Capable of carrying out work of a modified nature from his/her regular duties and is expected to return to his/her regular duties within 90 calendar days.

Process

1. Once notified of an on-the-job injury or illness, the administrator/employee must complete a First Report of Injury for Workers' Compensation.
2. The employee must be seen and evaluated by this/her physician to determine if the employee is able to return to work, and if so, with or without restrictions.
3. When the employee is able to return to work with restrictions, the employee's physician must complete the appropriate form indicating the specific restrictions, and the duration of those restrictions. Clarification regarding temporary restrictions may be requested of the treating physician.
4. Taking into consideration the information provided by the physician, the employee's administrator, in consultation with their immediate supervisor, will determine if a temporary modified assignment can be offered. It should be understood that there may be instances in which the district will not be able to offer a modified assignment.

If the employee's program of assignment is unable to meet the employee's need for a modified assignment, the employee may be assigned to another program that can accommodate the restrictions.

In most cases, there will not be an adjustment in the compensation of the employee that is placed in a modified position.

If a modified assignment is identified for an employee, the district will provide a job offer letter that shall include:

1. The assignment offered.
2. The location and duties of the assignment offered.
3. The wages for the assignment offered.
4. The duration of the temporary work assignment.
5. A statement acknowledging that the employer is knowledgeable about and will abide by the limitations under which the treating physician has authorized the return to work.

An employee may choose to accept or refuse the assignment offered. However, an employee who refuses a modified assignment offer is subject to termination. Rejection of the assignment offer might also result in cancellation of income benefits under Workers' Compensation Insurance.

A modified assignment offer will be extended for an initial period not to exceed 90 calendar days. The duration of approved time will be based upon the information provided by the employee's physician. If the employee is unable to return to work at full duty after the initial approved time, he/she may request a continuation of a modified assignment not to exceed a total of 90 days.

An employee requesting an extension of a modified assignment, beyond the originally approved amount of time in the modified assignment offer letter, must submit documentation to the district from his/her treating physician. This document should include what limitations continue to exist and the probable duration of those limitations.

An employee who is unable to return to his/her regularly assigned duties at the end of the modified assignment agreement may request a leave of absence under his/her employment contract agreement or may elect to terminate his/her employment with the district.

If the employee believes that the condition is permanent, progressive, or chronic, the employee may pursue their options under the Long-Term Disability Insurance provisions of their contract to determine if they are a qualified individual with a disability.

Attendance/Reporting Absences via AESOP

All employees are encouraged to maintain good personal health and attend to personal affairs during non-working hours whenever possible. It is an expectation that employees be at work and be on time to work. Regular attendance optimizes instruction for students and is essential to the operation of the school district.

Employees are provided with time off for personal illness, bereavement, family illness, jury duty, personal business, FMLA, etc. Employees must use leave for the purpose for which it is intended. Just as students are expected to maintain regular attendance, employees are expected to maintain regular attendance. Student achievement is negatively impacted by absenteeism. Administrators will meet with employees who exhibit excessive absences or an

unusual pattern of absences.

If you are absent for any reason, your administrator will review the specific procedures for absences. Please refer to your employee contract for your leave eligibility.

It is Intermediate School District 917's policy that you are required to enter your absence request on the Aesop system for the following types of absences: child care leave, surgeries, medical leaves, jury duty, vacation, non-duty days, personal leave, funeral leave, floating holidays, workshops, meetings, time off without pay or other special situations.

To report your absence go online to AESOP. See below for Aesop instructions. For detailed instructions on using Aesop, staff can access the employee user guide by logging on to Aesop at www.aesoponline.com and clicking on Quick Start User Guide.

Change Form for Name and Address

If you have an address or name change please fill out a Change Form located at www.isd917.k12.mn.us, For 917 Staff, District Forms, HR and Payroll Forms. Return to **Personnel** as soon as possible. Legal documentation is required for name changes. Employees also need to change their address independently with Corporate Health Systems for benefits and with their tax sheltered annuity companies.

Communications

Shortly after each School Board Meeting, **Board Notes** will be e-mailed to staff from the Superintendent's office summarizing the actions and decisions of the School Board. This information also includes "Bits of Information." If you have information to share with ISD 917 employees (i.e. births, deaths, milestones, etc.), please send to Linda Berg in the District Office, 1300 – 145th Street East, Rosemount, MN, 55068, or e-mail to linda.berg@isd917.k12.mn.us or call 651-423-8214.

Confidentiality

Confidentiality is one of the most critical and important aspects of your job in the special education department. It is your legal and ethical responsibility to observe both the rights of individuals with or without disabilities and of families in regard to data privacy. Follow these guidelines where issues of confidentiality are concerned:

- Never refer to other students by name outside of the school setting or conference or with other parents.
- Do not share specific information about an individual's program or unique needs outside of the school setting, especially while in the community or when speaking with friends and relatives.
- Take questions you have about school district policies on confidentiality to your administrator.
- Access individual records (i.e. educational, medical, due process, etc.) for the sole purpose of being more effective in your work with the student.
- Go through the proper channels to access confidential information. Make sure you are authorized to do so.
- If you question policies and procedures used with a student, discuss this privately with your administrator. There is often confidential information that directs specific programming of which you may not be aware.
- Speak and write responsibly when passing on information. Be aware of who might hear you or read what you have written.

District Directory

The District Directory lists the name, work location, e-mail address and work phone

number for each employee. The District Directory is accessible via the District's website at www.isd917.k12.mn.us.

All employees should maintain a professional appearance, which typically **excludes** the following:

- Grungy sneakers
- Tank tops

Employee Assistance

Employee Assistance is free to all 917 staff and their immediate family members. This service is completely confidential and free. See www.isd917.k12.mn.us, Employee Links, for more information.

Expense Reimbursement

If you have work expenses (i.e., mileage) which are authorized by district policy and approved by your administrator, fill out the "Employee Mileage and Expense Form" and submit it to your administrator. Forms can be found at www.isd917.k12.mn.us, For 917 Staff, District Forms, District, Business and Employee Forms.

All employee reimbursements will be paid on the 2nd and 4th Thursday of each month. This will include expenses from Mileage Reports, Check Requests and Student Activity Check Requests. All receipts and proper documentation referencing the expense must be submitted by the Friday before the payout. The original receipts need to be submitted. If there are staff members or students included in the expense, such as expenses for field trips, a list of attendees is needed. The reason for this change is to make this process more efficient. We have to track checks that have not been cashed and in some cases void and re-issue checks. This process puts your money directly into your account. Providing the proper documentation will ensure a timely turnaround. **Timeliness for submitting reimbursement requests for expenditures is critical, any expenditures turned in after 60 days from the occurrence date are reported as taxable income as required by the IRS.**

Fire Drills and Emergency Evacuation of Building

Fire drills are held periodically during the school year. Each instructor will inform their students of the exit or exits that are to be used in emergency situations. It is the responsibility of the instructor to become familiar with the evacuation routes and assist their students in safe evacuation procedures. Please see your administrator for the evacuation chart and proper route to exit if there is an emergency and/or drill. Everyone must evacuate the building when the alarm sounds.

Indoor Air Quality

Indoor air quality includes but is not limited to temperature, ventilation and air pollutants in school buildings. The School District has an Indoor Air Quality Management Plan. The purpose of the plan is to proactively manage indoor air and provide a healthy and safe indoor environment for students, staff, and community. The district has an Indoor Air Quality Team coordinated by the Executive Assistant. Staff who have concerns about indoor air quality should direct them to their administrator. They can also complete an Indoor Air Quality Complaint Form which is found on the website at www.isd917.k12.mn.us, under For 917 Staff, Health Wellness & Safety Committee, Plans, Tools, and Forms for Health, Wellness and Safety, IAQ Complaint Form. The administrator, building custodian, IAQ Coordinator may be involved in an investigation of the concern.

Job Postings

Job vacancies are posted on the District's website via Applitrack. See www.isd917.k12.mn.us, Employment.

Internal candidates for a position should submit a letter of interest and an updated application. Some bargaining units have specific criteria to be considered. Employees should check their collective bargaining agreement for more information. Successful candidates must provide official transcripts and a copy of a license (if in a position for which a license is required.)

Names of applicants shall be private data except when certified as eligible for appointment to a vacancy or when applicants are considered to be finalists for a position. *Finalist* means an individual selected for an interview prior to selection. The following personnel data that is collected on current and former applicants is public: veteran's status, relevant test scores, job history, education and training, and work availability.

Master Agreements

Master Agreements for all bargaining units can be found on the website at www.isd917.k12.mn.us under Employment, Contracts/Union Groups.

Parking at Dakota County Technical College

The east parking lot furthest from the DCTC building is designated for District 917 use. This lot is used by the Secondary Career and Technical students and the Dakota County Area Learning Center students. District 917 staff, whose job site is not at DCTC, may park in this lot also. A purple hang tag is available from the Administrative Assistant, Business Office, and must be used when you park in this lot.

Staff whose job site is DCTC will be issued a parking sticker that will provide access to the lots on the west side of the DCTC building and the lots on the east side of the DCTC building closer to the building than the District 917 lot. During the third week in August, DCTC holds a lottery for designated stalls in the gated lot on the north side of the DCTC

building. For information on the DCTC gated lot lottery (\$200 fee), please contact Operations at DCTC, 651-423-8407.

If a District 917 staff member, whose job site is not at DCTC, is attending a meeting of short duration (two hours or less), on a space available basis, parking in the visitor lot on the north side of the DCTC building is permitted.

Paychecks

Payroll checks are distributed through direct deposit to employees' bank accounts on the **15th** and the **last day** of each month, or the Friday prior to a weekend which includes the normal payroll date. Please turn your direct deposit form in to Audrey Weiler in the Business Office. Forms are available on the website at www.isd917.k12.mn.us, For 917 Staff, District Forms, HR and Payroll Forms, Direct Deposit Form.

With myView, all the information regarding your pay stub, leave, personal, license, expenses, and W-2's will be available on a secure website, where you can access and print from any computer, anytime, anywhere. Pay stubs will be no longer mailed. In accordance with Minnesota Statute section 471.426, the district is requiring all district employees to sign up for direct deposit. Photo ID

All school district personnel are required to have and to wear a photo ID when working at or visiting a school site during student-contact hours. Employees who have lost or damaged their ID cards (\$10 replacement fee) or have had a name change should contact their administrator. Photo ID's are taken at Dakota County Technical College. Please contact the Business Office at 651-423-8229 for assistance. **If your work at AEC or Cedar, please get your ID at that location. Cedar staff have two badges, one for 917 and one for 191.**

Professional Responsibilities

Teachers and administrators are professionals. The expectations that follow are inherent to the position of a school professional. The following is not intended to be all-inclusive but rather suggestive of a professional's responsibilities. Professionals:

- Serve as role models to students by being punctual and maintaining regular attendance
- Follow district policies and procedures
- Dress appropriately
- Communicate frequently with parents through established reporting instruments, conferences, open houses, and as necessary, through notes and personal phone calls
- Supervise students who are using the internet

- Limit personal use of computers, phone and e-mail during working hours
- Do not conduct day trading, attend school or conduct other employment on working hours
- Serve on building and district committees as appropriate
- Attend team meetings and IEP meetings as appropriate

Purchasing

To protect the legal and financial interests of the District, all commitments to supplies for goods or services are made through written purchase orders and contracts issued by the Purchasing Department. All procurements are to be made in compliance with applicable federal, state and local law, directives and executive orders. Compliance with the requirements of the Uniform Municipal Contracting Law is specifically the responsibility of the Purchasing Office. District 917 is not responsible for purchases made by employees or individuals associated with the school district who do not have prior approval and fail to follow general purchasing guidelines.

- A. A purchase requisition form is a program's request that the purchasing department purchase or contract for goods or services that are within the approved budget.
 1. Employee completes a purchase requisition form for goods or services needed and attaches all supporting documentation necessary to place the order or service required.
 2. Employee forwards completed requisition to their administrator for approval and any additional routing, then the requisition is forwarded to the Purchasing Department.
- B. The Requisition is carefully reviewed by the Buyer for the following:

1. All necessary signatures;
2. Appropriate budget codes;
3. Dollar amount (see Guidelines below);
4. If the vendor has already been set up, or needs to be set up, which would include the following: Business name, address, telephone and fax number, e-mail address and completed W-9 form;
5. Requisition data entered electronically into TIES finance system, creating a Purchase Order;

9. Once order has been received, packing slips are initialed by requisitioner and sent to accounts payable.

Purchasing Guidelines

- A. Under \$999.00 no quotations are needed.
- B. \$1,000 to \$24,999 two written quotes are required to be established by the purchasing department.
- C. \$25,000 to \$50,000 three written quotes are required to be established by the purchasing department.
- D. Any purchase exceeding \$50,000 must follow formal Sealed Bid guidelines:
 1. Advertising for Bid (two-weeks prior to opening date) must include time, place of bid, detailed description of item, or project, where to acquire bid forms, who to contact with questions and where to send the bid envelope;
 2. Bid bond requirement at time of bid opening. Afterward, payment and performance bonds, certificate of insurance and signed contract are required. Bids must be kept on file along with the bid tabulation and proof of school board approval.

Resignations

Generally speaking, the more notice that a professional can provide the district about their departure plans, the better. As per Minnesota Statute 122A.40, subdivision 7, licensed teachers with a continuing contract are required to submit their written resignation prior to April 1. If an agreement for the terms and conditions of employment for the succeeding school year has not been adopted prior to March 1, the teacher's right to resign extends to the 30th calendar day following board adoption of the collective bargaining agreement. Resignation is effective as of June 30 and the teacher's right to resign for the year that is about to begin ends on July 15th. Teachers who do not submit their resignations in a

timely manner may not be released from their contracts.

SafeSchools

Periodically, we are required by statute to conduct training activities for various employee groups, and in some instances, all staff. The system is called SafeSchools and it is linked on our website.

There are numerous courses available through SafeSchools. Not all of these are statutory requirements, but all could be beneficial to staff based upon their work assignment. We have consulted with our administrators and determined which courses are most appropriate for various employee groups.

The teachers' Relicensure Committee has agreed that one clock hour of continuing education credit will be granted for each in-service completed online. After completion of training, the employee can print off a certificate for verification. Please call Lynn Morris at (651) 423-8358 if you have questions regarding these continuing ed credits.

Below are step-by-step instructions for accessing SafeSchools. You may do this from a district computer or, if you would like, you can access SafeSchools from home or any other computer. If you choose to take a SafeSchools course outside of normal work hours, it will be on your own time and will not be eligible for timesheet payment.

Every staff member is required to complete Sexual Harassment and Blood Borne Pathogens training annually. These courses must be completed by October 1, 2016. In addition, your administrator may have assigned you additional courses that pertain to your job.

- See the district's website at <http://www.isd917.k12.mn.us>
- Click on For 917 Staff
- Log in with your daily computer password to get into "For 917 Staff".
- Then log in to Safeschools Online Training.
- Login for SafeSchools is your e-mail address.
- No password is required
- Complete all courses listed.

The classes which you are required to complete are listed here. Please choose the course you would like to start with. Start with the introduction and work your way through all sections. The Quiz is the final section and everyone will need to show proficiency at 80% correct. 90% proficiency for Defensive Driving.

*** There is no time limit for taking the course. You can start and stop during the courses and always come back and finish. You cannot just go to the QUIZ and take it though. You must review all the sections. The quiz is usually only about 10 questions.

When you are finished and passed, it will say "Congratulations! You've completed this course. Get a certificate of completion." If your score is less than the minimum score, then you have to retake the test until you pass. You may take the test over as many times as you wish.

If you have questions, you may contact Linda Berg at 651-423-8214 or email

linda.berg@isd917.k12.mn.us.

Printing Your Certificate

Once you passed the required course, you may print your "Certificate of Completion" if you wish. If you need **Continuing Education Credits**, print the certificate so you have it for your file. **The District Office does not keep these certificates so if you need them for continuing education credits, this is your responsibility to print them and keep them.**

Smoking Restrictions

Smoking is not permitted in the Main Campus DCTC building, grounds, or any building or vehicle owned/leased by District 917. Please check with your administrator as to smoking restrictions for the building in which you work.

Voicemail

Teachers should communicate their work extension numbers to the parents of their students. All employees are expected to check voice mail messages daily and to return calls promptly (typically within 24 hours or upon return to work). Voice mail messages are also to be deleted promptly.

Personal voice mail greetings are to be courteous, concise and professional. Voice mail users should include an indication of when messages will be picked up/returned and or/ how to reach the employee personally. During summer break or other vacation periods, personal greetings should be changed to announce that voice mail is not being monitored and to direct callers to the main office.

PUBLIC LAWS/DISTRICT POLICIES

This summary is **NOT** exhaustive of all public laws and policies pertaining to education. This section is provided for general informational reference only. Full policies can be found at www.isd917.k12.mn.us, under About, School Board, Policies.

Alcohol and Illicit Drugs - District Policy 418

No employee shall distribute, dispense, possess, use or be under the influence of any alcoholic beverage, malt beverage or fortified wine or other intoxicating liquor or unlawfully manufacture, distribute, dispense, possess or use or be under the influence of any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, anabolic steroid or any other controlled substance while on school property or at a school-sponsored event.

Any employee who violates the terms of this policy may be required to satisfactorily participate in a drug and/or alcohol abuse assistance or rehabilitation program approved by the District. Any employee who fails to satisfactorily participate in and complete such a program is subject to non-renewal, suspension or termination as deemed appropriate by

the School Board.

Americans with Disabilities Act – District Policy 402

Title I of the Americans with Disabilities Act of 1990 (ADA) protects qualified individuals with disabilities from discrimination in employment. Employment decisions must be based on the person's ability to perform the job, not on the person's disability. When necessary, reasonable accommodation to perform essential functions of the job can be requested and will be provided unless it imposes an undue hardship on the District.

A qualified individual with a disability is a person who has the required skills, experience, and education needed for the position and can perform the essential functions of the position, with or without reasonable accommodation. Essential job functions are those that are fundamental and necessary to the position. In other words, the position exists to perform these particular duties. For example, a teacher must be able to teach, but whether or not the teacher can walk may not be essential to the position. Reasonable accommodation is any change the District would make that would help a qualified person with a disability to perform the essential job functions. In the preceding example, if the teacher uses a wheelchair, it could mean elevating a desk and/or raising or lowering other furniture.

Bloodborne Pathogens

Universal precautions will be observed in the District to prevent contact with blood or other potentially infectious materials. All blood or other potentially infectious material will be considered infectious regardless of the perceived status of the source individual.

Employees who work in situations where it is reasonably anticipated that skin, eye, mucous membrane or parental contact with blood or other potentially infectious materials may result from the performance of the employee's duties must participate in an annual training session, report exposures and receive Hepatitis B immunization or sign a District waiver. The form was included in your New Employee Packet.

Any employee who has an exposure incident, which is contact of blood or other potentially infectious material with the employee's eye, mouth, mucous membrane or non-intact skin (including a human bite), must report the incident to health office staff or to your administrator. See www.isd917.k12.mn.us, For 917 Staff, Health & Wellness and Safety Committee, Bloodborne Pathogens.

Bullying Prohibition Policy – District Policy 411

ISD 917 is committed to fostering and maintaining a safe and civil educational environment in which all members are treated with dignity and respect. The district strictly prohibits bullying which means any written or verbal expression, physical act or gesture, or pattern thereof, that is intended to hurt, threaten, upset, distress, or frighten. Bullying includes, but is not limited to; conduct against a person that a reasonable person under the circumstances knows or should know has the effect of: harming a student, damaging a student's property, placing a student in fear of harm to person or property,

creating a hostile work environment, etc.

This policy applies to students, staff, volunteers and all others on school district property. Individuals who bully are subject to discipline. Any individual who believes he or she is a victim of bullying should report it to a trusted adult; the building administrator or the Superintendent. Reprisal of any kind against any person who makes a good faith report about bullying is strictly prohibited.

COBRA

The Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA) is the federal health care continuation law which requires that if an employee or other qualified beneficiary loses employer provided health coverage due to termination of employment or another specified triggering event, the group health plan offers continued health care coverage to the qualified beneficiary.

COBRA coverage has limited duration. In most cases, the maximum COBRA period is 18 or 36 months from the date of the qualifying event. The District offers continuation coverage for each group health plan under which health benefits are provided, i.e., health insurance, dental insurance and life insurance.

The following specific events can be considered triggering events if they result in a loss of coverage:

- Death of the covered employee;
- Voluntary or involuntary termination of the covered employee's employment other than by reason of gross misconduct;
- Retirement;
- Reduction of hours of the covered employee's employment;
- Divorce or legal separation of the covered employee from the employee's spouse;
- Covered employee becomes entitled to benefits under Medicare;
- Dependent child ceases to be a dependent child under the generally applicable requirements of the plan.

An employee or his/her spouse or dependents must notify LeAnn Wright, Benefits Administrator at Corporate Health Systems, Inc. (CHS) 952-873-7124, of triggering events that allow for continued health care coverage. See www.isd917.k12.mn.us, Employee Benefits, Flex Benefits Information and Forms for a link to the CHS website.

Communicable Diseases – District Policy 420

It is the policy of the School Board that students with chronic infectious diseases not be excluded from attending school in their regular classrooms so long as their attendance does not create a substantial risk of the transmission of illness to children or employees of the School District.

Employees with chronic infectious diseases are not to be excluded from attending to their

customary employment so long as they are physically able to perform tasks assigned to them and so long as their employment does not create a substantial risk of the transmission of illness to children or employees of the District.

Public concern regarding communicable diseases is neither an excuse nor defense for the violation of data privacy rights of students or employees who have or are rumored to have such illnesses.

Conflict of Interest

No employee of District 917, including any member of the Board of education, nor any person connected with the public school system in any capacity, shall be interested directly or indirectly in the sale, proceeds, or profits of any book, apparatus, furniture or product used, or to be used, in any school with which one is connected in any official capacity.

This section shall not apply to a person who may have an interest in the sale of a book as its author provided the employee does not participate in the selection process.

Copyright - United States Code Title 17

Employees are personally responsible for compliance with, and knowledge of existing copyright statutes and laws. Generally speaking, a copyright is created automatically when an original work is fixed in any tangible medium of expression that can be perceived, reproduced or communicated. A copyright gives the owner exclusive rights to reproduction, adaptation, publication, performance and display. There are limited fair use exceptions that would permit an educator to use copyrighted material for scholarly work or teaching. A fair use exception gives the non-owner the privilege of using copyrighted material without consent of the owner. In general, a teacher can make a single copy of a page, chapter or article for personal use.

Discrimination – Title IX – Policy 402

No person shall, on the basis of sex, race or religious preference be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity in the School District.

Administration shall comply with Title IX Regulations promulgated by the U.S. Department of Education, Minnesota Statutes, and the Minnesota State Board of Education guidelines implementing this policy.

Election Day - MN Statute 204c.03

E-mail and Electronic Devices - MN Statute 13.05 – Policy 490

E-mail is intended for educational and organizational communication. The use of e-mail for private purposes is strongly discouraged. Employees are responsible for the content of e-mails they send. They are also responsible for the appropriate handling of e-mail they receive. If an employee receives e-mail that is inappropriate, the employee should place the e-mail in the junk mail trash. Data maintained by a government body in electronic form falls under the purview of the Minnesota Government Data Practices Act. Accordingly, all of the classifications of data that are created within the Act must be respected within an electronic storage system. **All mail created on publicly owned computers is public information.** The employee does not have a guarantee of privacy. Even if e-mail has been deleted by the user, there likely is still a record of it in the computer. E-mail users should **NOT** send candid and informal messages that they would never put in a memo or a letter. E-mail indiscretions may fall under the Minnesota Government Data Practices Act.

Emergency Closings – District Policy 466

When the start of a school day is delayed due to an emergency, and unless directed otherwise, staff members are expected to report to work at their usual time or as soon as practical thereafter. Employees are not excused from any portion of their normal workday as the result of a late start for students unless expressly dismissed by the Superintendent. For early dismissal, the type of emergency and student departure schedule will determine how long personnel are to remain in the building and the duties they will perform.

Upon notice that school will be closed due to an emergency, unless expressly dismissed with pay by the Superintendent, compensation for the day is governed by the respective employment agreement. Makeup days, if any, will be scheduled by the Board of Education. Do not come to work if told not to report. If nonexempt (hourly) employees report on a day that they are told not to, they will not be paid for the day.

Delayed starts, early dismissals and school closings will be broadcast on WCCO-Radio AM 830, WCCO – TV Channel 4.

Eye Protective Devices - MN Statute 126.20

Every person shall wear industrial quality eye protective devices when performing any function in connection with activities taking place in eye protection areas. Protective eye wear is provided to protect the employee. For more information on Personal Protection Equipment, written plans can be found on the website at www.isd917.k12.mn.us, under For 917 Staff, Health, Wellness, & Safety Committee.

- The birth of a child;
- The placement of a child for adoption or foster care;
- The care of a seriously ill son or daughter, spouse, or parent; or
- For an employee's own serious illness.

Regular full-time and part-time employees who have been employed for at least one year and who have worked at least 1,250 during the preceding 12 months when the leave starts are eligible. Spouses who are both employed by the District are limited to a combined total of 12 work weeks of family leave for the birth or placement of a child or to care for a parent (but not a parent-in-law) who has a serious health condition. Contact the Business Office at 651-423-8245 for more information or to request forms. For the complete policy go to the district website www.isd917.k12.mn.us, and click on About, School Board, Policies.

Gifts/Donations

Gifts to the School District must be acknowledged by a resolution by the School Board of Education at each monthly board meeting. Employees are responsible for notifying their direct supervisor of any gifts/donations. Acceptance of the gift is recommended by the administrator. The recommendation is then forwarded to the Superintendent for Board action. The purpose of this policy is to assure that the contribution is properly recognized and the gift is of use and value to the District.

Grievance Procedures

A grievance is a claim by an employee that there has been a violation, a misinterpretation or misapplication of a District policy or regulation adoption by the Board or a written

administrative procedure. Grievances may also be made by employees with a negotiated master agreement disputing the interpretation of terms and conditions of employment contained in the master agreement. Contract grievance time lines are described in individual master agreements. See www.isd917.k12.mn.us, For 917 Staff, Employee Contracts and Classifications.

Generally, if an employee believes there is a basis for a grievance, the employee needs to discuss it within a short time (10 days for non-contract items) with his or her administrator. The administrator shall make a written response, again within a short time (7 days for non-contract items). In the event the employee is not satisfied with the disposition of the alleged grievance by the administrator, the employee needs to submit a copy of the original grievance and a copy of the first written response to the Superintendent (again with 10 days), who may appoint a designee to hear the grievance at Level II (again within 7 days).

Internet Use – District Policy 490

Staff is expressly prohibited from using District Internet resources to access, upload, download or distribute any material that violates ISD 917's violence/harassment or respectful behavior policies; violates any local, state, or federal statute; access another person's materials, information or files without the implied or direct permission of that person; violates copyright laws; or use for unauthorized commercial purposes and financial gain. The use of the internet for private, non-educational purposes is strongly discouraged. **A form was included with your new employee packet to fill out, sign and return to Personnel.**

Mandated Reporting of Child Abuse, Sexual Abuse and Neglect - MN Chapter 626 – Policy 6.361

"Subd 3. Persons mandated to report: A person who knows or has reason to believe a child is being neglected or physically or sexually abused, or has been neglected or physically or sexually abused within the preceding three years, shall immediately report the information to the local welfare agency, policy department, or the county sheriff if the person is "a professional or professional's delegate who is engaged in the practice of the healing arts, social services, hospital administration, psychological or psychiatric treatment, child care, education, or law enforcement." Effective August 1, 2002, a mandated reporter who knows or has reason to believe that two or more children not related to the perpetrator have been physically or sexually abused by the same perpetrator within the preceding ten years must also report to the appropriate agency.

A school employee must report to the appropriate agency. It is not sufficient to report only to your immediate administrator. It is not the employee's responsibility to determine the validity of a given report. It is the duty of every mandated reporter to report.

Any person mandated to report who fails to do so shall be guilty of a misdemeanor. Any mandated reporter who fails to report abuse of the nature specified as of August 1, 2002, is guilty of a gross misdemeanor.

School personnel suspecting child abuse, sexual abuse, or neglect by individuals who are not employees of the district shall report the situation to either the appropriate law enforcement agency or the appropriate county welfare agency and notify his/her immediate administrator of such action.

Effective July 1, 1999, the Minnesota Department of Education or the local police department are agencies responsible for assessing and investigating child maltreatment allegations that occur in the school setting by employees of the District. A person who knows or has reason to believe a child is being neglected or physically or sexually abused, or has been neglected or physically abused within the preceding three years by school staff in the school setting, shall immediately report the information to the police or the Minnesota Department of Education.

An oral report must be made within 24 hours of receiving the information. A written report must be filed within 48 hours of the oral report.

Anyone making a report of abuse or neglect is provided immunity and cannot be prosecuted for reports made in good faith and his/her name is confidential, accessible only by court order.

When carrying out reporting procedures as required by state legislation, education employees who report to a welfare or law enforcement agency, District officials or the Minnesota Department of Education that a child is being physically or sexually abused will be protected and supported by the School District. This support and protection also applies when an educator must self-report or report a colleague.

The District prohibits retaliation against a person for reporting in good faith. If a child resides in Dakota County or if the alleged abuse occurs in a school located in Dakota County, the employee should report to **Dakota County Child Protection 952-891-7459**.

Patriotic Observances - MN Statute 120A.42

The governing body of any district may contract with any of the teachers thereof for the conduct of schools, and may conduct schools, on either, or any, of the following holidays,

provided that a clause to this effect is inserted in the teacher's contract: Martin Luther King's birthday, Lincoln's and Washington's birthdays, Columbus Day and Veterans' Day.

On Martin Luther King's birthday, Washington's birthday, Lincoln's birthday, and Veterans' Day at least one hour of the school program be devoted to a patriotic observance of that holiday.

Teachers should check with their administrator regarding the school's practice for meeting this requirement.

Personnel Records

All evaluations and files generated within a school district relating to each individual employee shall be available during regular school business hours to each individual employee upon a written request. The employee shall have the right to reproduce any of the contents of the files at the employee's expense and to submit for inclusion a response to any material contained therein; provided, however, a school district may destroy such files as provided by law.

All file material to be included in an employee's personnel file must be forwarded to Personnel by June 30 of the year of occurrence.

Probationary Period for Teachers

The first, second, and third consecutive years of experience for employees defined by MN Statute 122A.40, is deemed to be probationary for those Minnesota public school employees. Thereafter, the probationary period in each school district is one year. Teachers who work more than 120 days must be evaluated at least three (3) times. Teachers who work at least 60 days but less than 120 days must be evaluated at least two (2) times, and teachers who work fewer than 60 days must be evaluated at least one (1) time during the school year.

During the probationary period, any annual contract with any certificated employee may or may not be renewed as the Board shall see fit, provided that written notice be given before July 1.

Generally speaking, teachers have a three-year probationary period. Employees should consult their respective master agreements for specific wording. See Master Agreements at www.isd917.k12.mn.us, For 917 Staff, Employee Contracts and Classifications.

Prohibition Against Corporal Punishment, Child Abuse, Sexual Abuse, and Neglect – District Policy 414

ISD 917's Board of Education recognizes child abuse and inappropriate discipline as critical problems for learners, the educational system, and society. This School District will be actively involved because children and youth are at risk in the learning process when they are abused or inappropriately disciplined.

The Board is committed to promoting healthy human relationships and positive role models regarding appropriate use of power. Students are a priority, and no physical or emotional harm is to come to them during the teaching-learning process.

District employees or agents of the District are required by law to refrain from causing or inflicting upon a pupil the use of corporal punishment. Punishment means, “conduct involving physical force and infliction of bodily pain. It also means conduct involving cruelty or unreasonable force that causes substantial emotional harm.” District employees are required by law to refrain from emotional maltreatment.

Child abuse includes: sexual abuse; neglect; violent behavior or domestic assault by a parent or caregiver within the sight or sound of the child; chronic and severe use of alcohol or a controlled substance by a parent or guardian that adversely affects the child’s basic needs and safety; emotional harm from a pattern of behavior which contributes to impaired emotional functioning of the child and physical abuse.

Physical abuse includes, but is not limited to, the following acts when done in anger or without regard to the child’s safety:

- Throwing, kicking, burning, biting, or cutting a child
- Striking a child with a closed fist
- Shaking a child under age 3
- Striking or other actions which result in any non-accidental injury to a child under 18 months
- Interference with a child’s breathing
- Threatening a child with a weapon striking a child under age one on the face or head
- Purposely giving a child poison, alcohol, dangerous, harmful or controlled substances which were not prescribed for the child by a practitioner, in order to control or punish the child or other substances that substantially affect the child’s behavior, motor coordination, or judgment or that results in sickness or internal injury, or subjects the child to medical procedures that would be unnecessary if the child were not exposed to the substance.
- Unreasonable physical confinement including but not limited to tying, caging or chaining.

District employees are encouraged to use the following in teaching, counseling, coaching, caretaking, and administrative roles:

- Manage the learning climate so as to create a balance of power among educators and learners
- Inform parent or guardian regarding behavior problems in the classroom
- Meet with parents or guardians regarding behavior problems
- Identify behaviors of concern and refer students to someone who may be able to diagnose and/or address problems
- Recommend counseling or other appropriate professional services

- Physically restrain a student who is hurting others or self
- If necessary, *reasonable force* may be used.

“Reasonable physical force may be used to quell a disturbance, to obtain possession of weapons or dangerous objects on the pupil or within the immediate control of the pupil, to defend oneself or others, or to prevent harm to another person or school property.” (Minnesota 1989 session laws, Chapter 114)

Reasonable force may be used by a teacher “in the exercise of lawful authority to restrain or correct such child or pupil” or . . . “when necessary to restrain the child from self injury or injury.”

The School District will take such disciplinary action it deems necessary and appropriate, including warning, suspension, or immediate discharge to end child maltreatment and inappropriate discipline by educators and prevent its recurrence. Employees may be referred for treatment of violent behavior tendencies, or referred for learning positive behavior management for classroom and school.

The District also recognizes that it has an obligation to support and protect employees from unjust accusations. The District recognizes and supports the legal due process concept that all are presumed innocent until proven guilty. The District will specifically support the employee through use of the District’s Employee Assistance Program and/or other counseling if needed. The District will ensure enforcement of the student discipline policies and procedures and cooperate with law enforcement officials in prosecution of students for juvenile or adult criminal offenses.

Public School Fee Law - MN Statute 120.71

Public school education shall be free and no pupil shall be denied an education because of economic inability to furnish educational books and supplies necessary to complete educational requirements necessary for graduation. . . . School boards do have the right .

. . to make certain charges and to establish fees in areas considered extra curricular, non-curricular or supplementary to the requirements for the successful completion of a class or educational program.

Respectful Behavior

Staff, parents, students and community members should be treated in a manner, which enhances self-esteem and supports the dignity of the individual. Creating a positive climate is critical to the achievement of the district's mission. To create this positive climate, every individual must act with respect, defined as "to value one's self and to act out of consideration for others." Staff consequences for disrespectful behavior may result in discipline.

Section 504 of the Rehabilitation Act

It is the responsibility of the District to identify and evaluate learners whom, within the intent of Section 504, need special services, accommodations, or programs in order to receive the required free appropriate public education. A learner who is protected under Section 504 is one who has a physical or mental impairment that substantially limits one or more major life activities, including learning, has a record of such impairment, or is regarded as having such impairment.

Staff-Student Relationships – District Policy 423

This policy applies to all school district employees at all times, whether on or off duty, and on or off school district locations. At all times teachers must be mindful of their inherent positions of authority and the need to maintain a standard of professionalism. Employees must exercise good judgment in all interpersonal relationships with students. Such relationships must be and remain on a teacher-student basis or employee-student basis. Actions that violate this policy include, but are not limited to: dating students, having any interaction/activity of a sexual nature with a student, committing or attempting to induce a student or others to commit an illegal act or act of immoral conduct which may be harmful to others or bring discredit to the school district, supplying alcohol or any illegal substance to a student, allowing a student access to such substances, or failing to take reasonable steps to prevent such access from occurring. Excessive informal and social involvement with individual students is unprofessional and is not compatible with employee-student relationships. School district employees shall, whenever possible, ensure safeguards against improper relationships. Safeguards may include such measures as keeping doors open when meeting with a student one on one, making sure

that such meetings with a student take place in rooms with windows and/or others nearby, talking with the parent when calling the student's home, etc.

Any employee who receives a subpoena shall immediately inform his/her building administrator. The building administrator shall immediately inform the Superintendent. Direction will be provided and legal counsel will be sought as necessary.

Tax Sheltered Annuities and Deferred Compensation Plan – District Policy 494

Any employee may participate in qualified tax deferred annuity and tax deferred compensation plans via a salary reduction agreement. Employees may use a district approved 403b/457 Plan Provider (list of approved vendors can be obtained on the district website). Employees may change their contributions at any time by submitting a new salary reduction form. This change will take place approximately 30 days after submission of the form. Employees must comply with the IRS rules regarding the amount that may be deferred to a tax-sheltered annuity or tax-deferred compensation plans.

Employees may be eligible under their contract for a matching contribution to a tax-deferred annuity or deferred compensation plan. Individuals should consult applicable Master Agreements. Payroll will inform non-exempt (hourly) employees before September 20th of each year as the amount of match available.

IMPORTANT INFORMATION ABOUT YOU COBRA CONTINUATION COVERAGE RIGHTS

Federal law requires that most group health plans (including this Plan) give employees and their families the opportunity to continue their health Care coverage when there is a "qualifying event" that would result in a loss of coverage under an employer's plan. Depending on the type of qualifying event, "qualified beneficiaries" can include the employee (or retired employee) covered under the group health plan, the covered employee's spouse, and the dependent children of the covered employee.

Continuation coverage is the same coverage that the Plan gives to other participants or beneficiaries under the Plan who is not receiving, continuation coverage. Each qualified beneficiary who elects continuation coverage will have the same rights under the Plan as other participants or beneficiaries covered under the Plan including open enrollment and special enrollment rights.

How long will continuation coverage last?

In the case of a loss of coverage due to end of employment or reduction in hours of employment, coverage generally may be continued only for up to a total of 18 months. In the case of losses of coverage due to an employee's death, divorce or legal separation, the employee's becoming entitled to Medicare benefits or a dependent child ceasing to be a dependent under the terms of the plan, coverage may be continued for up to a total of 36 months. When the qualifying event is the end of employment or reduction of the employee's hours of employment, and the employee became entitled to Medicare benefits less than 18 months before the qualifying event, COBRA continuation coverage for qualified beneficiaries other than the employee lasts until 36 months after the date of Medicare entitlement. This notice shows the maximum period of continuation coverage available to the qualified beneficiaries.

Continuation coverage will be terminated before the end of the maximum period if: any required premium is not paid in full on time, or a qualified beneficiary becomes covered, after electing continuation coverage, under another group health plan that does not impose any pre-existing condition exclusion for a pre-existing condition of the qualified beneficiary, or a covered employee becomes entitled to Medicare benefits (under Part A, Part B, or both) after electing continuation coverage, or the employer ceases to provide any group health plan for its employees.

Continuation Coverage may also be terminated for any reason the Plan would terminate coverage of a participant or beneficiary not receiving continuation coverage (such as fraud).

How can you extend the length of COBRA continuation coverage?

If you elect continuation coverage, an extension of the maximum period of coverage may be available if a qualified beneficiary is disabled or a second qualifying event occurs. You must notify Pa Ngia Her, Corporate Health Systems, Inc. of a disability or a second qualifying event in order to extend the period of continuation coverage. Failure to provide notice of a disability, or second qualifying event may affect the right to extend the period of continuation coverage.

Disability

An 11-month extension of coverage may be available if any of the qualified beneficiaries is determined by the Social Security Administration (SSA) to be disabled. The disability has to have started at some time before the 60th day of COBRA continuation coverage and must last at least until the end of the 18 month period of continuation coverage. Each qualified beneficiary who has elected continuation coverage; will be entitled to the 11-month disability extension if one of them qualifies. If the qualified beneficiary is determined by SSA to no longer be disabled, you must notify the Plan of that fact within 30 days after SSA's determination.

Second Qualifying Event

An 18-month extension of coverage will be available to spouses and dependent children who elect continuation coverage if a second qualifying event occurs during the first 18 months of continuation coverage. The maximum amount of continuation coverage available when a second qualifying event occurs is 36 months. Such second qualifying events may include the death of a covered employee, divorce or separation from the covered employee, the covered employee's becoming entitled to Medicare benefits (under Part A, Part B, or both), or a dependent child's ceasing to be eligible for coverage as a dependent under the Plan. These events can be a second qualifying event only if they would have caused the qualified beneficiary to lose coverage under the Plan if the first qualifying event had not occurred. **You must notify Pa Ngia Her Benefits Administrator at Corporate Health Systems, Inc.** within 60 days after a second qualifying event occurs if you want to extend your continuation coverage.

How can you elect COBRA continuation coverage?

To elect continuation coverage, you must complete the Election Form and furnish it according to the directions on the form. Each qualified beneficiary has a separate right to elect continuation coverage. For example, the employee's spouse may elect continuation coverage even if the employee does not. Continuation coverage may be elected for only one, several, or for all dependent children who are qualified beneficiaries. A parent may elect to continue coverage on behalf of any dependent children. The employee or the employee's spouse can elect continuation coverage on behalf of all of the qualified beneficiaries.

In considering whether to elect continuation coverage, you should take into account that a

failure to continue your group health coverage will affect your future rights under federal law. First, you can lose the right to avoid having pre-existing condition exclusions applied to you by other group health plans if you have more than a 63-day gap in health coverage, and election of continuation coverage may help you not have such a gap. Second, you will lose the guaranteed right to purchase individual health insurance policies that do not impose such pre-existing condition exclusions if you do not get continuation coverage for the maximum time available to you. Finally, you should take into account that you have special enrollment rights under federal law. You have the right to request special enrollment in another group health plan for which you are otherwise eligible (such as a plan sponsored by your spouse's employer) within 30 days after your group health coverage ends because of the qualifying event listed above. You will also have the same special enrollment right at the end of continuation coverage if you get continuation coverage for the maximum time available to you.

How much does COBRA continuation coverage?

Generally, each qualified beneficiary may be required to pay the entire cost of continuation coverage. The amount a qualified beneficiary may be required to pay may not exceed 102 percent (or, in the case of an extension of continuation coverage due to a disability, 150 percent) of the cost to the group health plan (including both employer and employee contributions) for coverage of a similarly situated plan participant or beneficiary who is not receiving continuation coverage. The required payment for each continuation coverage period for each option is described in this notice.

When and how must payment for COBRA continuation coverage be made?

First payment for continuation coverage

If you elect continuation coverage, you do not have to send any payment with the Election Form. However, you must make your first payment for continuation coverage not later than 45 days after the date of your election. (This is the date the Election Notice is post-marked, if mailed.) If you do not make your first payment for continuation coverage in full no later than 45 days after the date of your election, you will lose all continuation coverage rights under the Plan. You are responsible for making sure that the amount of your first payment is correct. You may contact **Pa Ngia Her, Corporate Health Systems, Inc.** to confirm the correct amount of your first payment.

Periodic payments for continuation coverage

After you make your first payment for continuation coverage, you will be required to make payments for each subsequent coverage period. The amount due for each coverage period for each qualified beneficiary is shown in this notice. The periodic payments can be made on a monthly basis. Under the Plan, each of these periodic payments for continuation coverage is due on the twenty-fifth of the preceding month for that coverage period. If you make a periodic payment on or before the first day of the coverage period to which it applies, your coverage under the Plan will continue for that coverage period.

without any break. Intermediate School District #917 will not send notice of payments due for these coverage periods.

Grace periods for periodic payments

Although periodic payments are due on the dates shown above, you will be given a grace period of 30 days after the first day of the coverage period 30 days to make each periodic payment. Your continuation coverage will be provided for each coverage period as long as payment for that coverage period is made before the end of the grace period for that payment. However, if you pay a periodic payment later than the first day of the coverage period to which it applies, but before the end of the grace period for the coverage period, your coverage under the Plan will be suspended as of the first day of the coverage period and then retroactively reinstated (going back to the first day of the coverage period) when the periodic payment is received. This means that any claim you submit for benefits while your coverage is suspended may be denied and may have to be resubmitted once your coverage is reinstated.)

If you fail to make a periodic payment before the end of the grace period for that coverage period, you will lose all rights to continuation coverage under the Plan.

Your first payment and all periodic payments for continuation coverage should be sent to: Intermediate School District #917, Attn: **Corporate Health Systems, Attn: Pa Ngia Her, 15153 Technology Drive, Suite B, Eden Prairie, MN 55344-2273**

C. Acceptable Indoor Air Quality Goals

Intermediate School District 917 has identified the following goals to assure acceptable indoor air quality within its facilities. Each goal is measurable to provide a quantitative assessment of what constitutes good indoor air quality:

Goals and Objectives

1. Provide a minimum of 15 cubic feet per minute (cfm) of outside air per person during regular school hours.
2. Reduce the number of complaints and reactive investigations by improving indoor air quality throughout the district and solving any problems/handling concerns proactively.
3. Implement a thorough preventative maintenance program involving heating, ventilation, and air conditioning systems and building envelope.
4. Improve the effectiveness of cleaning buildings with better procedures, supplies, and equipment.
5. Reduce chemical usage during times when buildings are occupied.
6. Improve the overall health and well being of building staff members and students.
7. Ensure well-maintained building envelop (walls, windows, roofs) to limit moisture infiltration into buildings.

D. Process Utilized

Intermediate School District 917 has followed a logical process as described in the “Tools for Schools” documents to develop this plan. The specific process included:

- Interviews with building custodians and program supervisors (Directors/Assistant Directors) to develop a database of the occupants’ present satisfaction with the quality of indoor air.
- A baseline assessment of the indoor air quality within each facility that included appropriate indoor air quality testing
- Problems identified and isolated were appropriately remedied or a plan was developed for remediation.

E. District Policy

District 917 understands the importance of providing acceptable indoor air quality to our customer base. The district is committed to ensuring that acceptable indoor air quality is provided and maintained in all buildings. This Management Plan provides the tools to help provide acceptable indoor air quality.

III. Building Surveys

A. **Walk-Through**

A walk-through of all District 917 buildings that house students and/or employees will be conducted annually. The walk-through is done by building custodians, directors/assistant directors, classroom teachers, and nurses, and will evaluate the following:

- Obvious water intrusion problems (interior and exterior)
- Obvious ventilation failures and/or problems
- Obvious building/structural failures and/or problems
- Overall cleanliness of buildings and classrooms
- Assess the need for program improvements and upgrades (e.g. ventilation, carpet, building compounds).

Teachers will evaluate classrooms annually using the checklist in Appendix E. Classrooms located in school buildings covered by another district IAQ plan will also be inspected and the district notified regarding any areas of concern.

Maintenance engineers will evaluate ventilation systems annually using the checklist in Appendix K.

Maintenance engineers will evaluate all building maintenance issues using the checklist in Appendix I at least annually.

B. Ventilation Surveys

Ventilation surveys of all buildings will be conducted annually, and as needed when condition changes occur and time elapses. Reports will be available in the Health and Safety Coordinator's Office.

IV. Maintaining and Operating Buildings for Optimum Indoor Air Quality

A. Heating, Ventilation, & Air Conditioning (HVAC) Preventative Maintenance Program

A proactive HVAC management program is key to providing good air quality in schools. To assure good quality of indoor air the following procedures will be implemented through the district's preventative maintenance program:

1. Outdoor Air Intake

- Inspect intake for blockage quarterly.
- Verify if intake damper works and is within design specifications quarterly.
- Verify damper does not close completely under occupied conditions quarterly.
- Check the calibration of all HVAC controls as needed.

Ideally, the minimum fresh air intake setting, while a building is occupied is 15 to 20 percent (15 to 20 percent of supply air to an occupied space is outdoor air) of the total mixed airstream (return air plus outdoor air). During building occupancy the fresh air intake will not be completely closed.

2. Exhaust Air Outlet – Maintenance Includes:

Annually, the belt tension on all fan motors will be checked for proper deflection (see manufacturer's service manual).

3. HVAC Ventilation Ductwork – Ductwork will be inspected on an as needed basis. Ductwork inspection should occur when the cleaning of the cooling coils occurs. Ductwork needs to have easy-to-open observation and clean-out doors installed at a minimum in the following locations:

- a. Clean-out door(s) (as large as possible) upstream and downstream of cooling coils to allow maintenance workers good access to clean the ductwork within five feet of the cooling coils, the cooling coils and drainage pans from the cooling coils.
- b. Inspections door(s) (minimum 10 inch size) 10 to 20 feet downstream of the cooling coils. If there are several supply air ductwork branches in this area, an inspection door needs to be installed in each branch.
- c. Clean-out door(s) (as large as possible) at the filtration system for the air handling unit to inspect the duct work surfaces five feet on each side of the filtration system.

- d. Inspection doors (minimum 10 inch x 10 inch size) 10 to 20 feet upstream of the filtration systems. If there are several return and/or mixed air ductwork branches in this area, an inspection door needs to be installed in each branch.

These observation doors (clean-out doors) are needed to allow inspection of the condition of the ductwork in these buildings. Things to look for are dust, mold (microbial) and water accumulations in the ductwork, which indicate potential problems with the air-handling unit.

Standard galvanized ductwork should be cleaned every 20 to 30 years. Cleaning ductwork lined with fibrous glass on the inside is very difficult and should always be approached with caution. Before any cleaning is conducted, an appropriate inspection should be conducted to determine the need for cleaning.

4. **Air Handling Unit (AHU)** – The components of the air-handling unit at Alliance Education Center are inspected on a regular basis by the maintenance engineer. This regular maintenance can vary greatly among the different types of air handling units. Service manuals for each air-handling unit are consulted for maintenance schedules. The discussion below outlines regular maintenance to components conducted to prevent indoor air quality concerns.

- a. *Air filtration system* – filters are primarily used to remove particles from the air.

Low efficiency filters (ASHRAE Dust Spot ratings of 10-20 percent or less) are often used to keep lint and dust from clogging the heating and cooling coils of a system. In order to maintain clean air in occupied spaces, filters must also remove bacteria, pollens, insects, soot, dust and dirt with efficiency suited to the use of the building. Using high quality filters is one of the best insurance policies for the good health and energy efficiency of an air handling system.

All dirt cannot be eliminated from the HVAC system; however, the amount of dirt present inside the HVAC system can be controlled by proper air filtration.

- b. *Heating Coils* – Heating coils are inspected annually for accumulation of debris on the upstream side of the coils. These coils normally are thoroughly cleaned as needed.
- c. *Cooling Coils* – These coils are thoroughly cleaned as needed.
- d. *Supply Fan or Air Blower* – Supply Fans or Air Blowers should be cleaned as a part of the duct cleaning process. Supply Fans should be thoroughly inspected as least annually for surface debris and general operation.

A copy of the following checklist is kept on file in the Health and Safety Office:

HVAC COMPONENT	MONTHLY	QUARTERLY	SEMI-ANNUALLY	ANNUALLY	AS REQUIRED
A. Outdoor air intake inspection (unit ventilators)				X

The ASHRAE 62-1989 requirements are 20 cfm of outside air per expected occupant in office area, conference rooms, and 15 cfm per expected occupant in reception areas and classrooms. Buildings complying with these regulations should maintain the carbon dioxide concentrations in occupied spaces (where the source of the carbon dioxide is people's exhaled breaths) under most operating conditions below 1000 ppm.

Minnesota Occupational Safety and Health Regulation (MOSHA) which were adopted from the Minnesota Industrial Commission in 1972, regulate the amount of fresh air that must be provided and distributed in all workrooms. This is covered under Minnesota Rules 5205.01109 "Workroom Ventilation and Temperature". This regulation state's the following:

Subpart 1. Air. Air shall be provided and distributed in all workrooms as required in this code, unless prohibited by process requirements. Outside air shall be provided, to all workrooms, at the rate of 15 cubic feet per minute per person.

Buildings complying with the MOSHA regulation should maintain the carbon dioxide concentration in occupied spaces (where the source of the carbon dioxide is people's exhaled breath) below an average of 1000 ppm.

The legal ventilation standard, which applies to most buildings, is the MOSHA standard Minnesota Rules 5205.0110. The goal on ventilation for buildings should be the ASHRAE standard 62-1989.

Intermediate School District 917 uses the guidelines established by the Environmental Protection Agency in its "Tools For Schools" packet to calculate the amount of outside air being supplied to each individual. The following provides the formulas used to calculate the amount of outside air per person and a layout of a typical HVAC system.

A Note About Carbon Dioxide As A Measurement of Ventilation:

In a fully occupied classroom, with doors and windows shut, and measured several hours of occupancy, above 1300 PPM will indicate the need for remediation.

In building areas, where there are sources of carbon dioxide besides peoples exhaled breaths; the above guidelines cannot be used. Other sources can include exhaust gas from kilns, internal combustion engines, and dry ice. Under these conditions, the OSHA standard on carbon dioxide needs to be used to determine

whether adequate fresh air is being provided. The OSHA standard on carbon dioxide is an 8-hour time weighted average of 10,000 ppm with a short-term 15-minute average limit of 30,000 ppm.

RECORD KEEPING: Building custodians will develop a record keeping schedule for preventive maintenance of HVAC systems. This schedule will be based on the manufacturer's recommendations, and information contained in the IAQ Management Plan. See Appendix J.

B. Temperature

In Minnesota it is recommended that occupied space temperatures in the summer should be 72-78 degrees with a relative humidity of 20-50 percent. The fall, winter, and spring occupied space temperatures should be 70-74 degrees with a relative humidity of 20-50 percent.

C. Water Intrusion

Below is a protocol for dealing with building materials where there has been water intrusion:

1. Visually review all flooded areas to determine which building materials have gotten wet.
2. For **ceiling tile**, remove and dispose of all wet ceiling tiles within 24 hours of water contact.
3. For **sheet rock**, remove all drywall and insulation that had become wet up to 12 inches above the water line. This is because wicking can cause water to move up above the water line.
4. For **furniture** that is made of wood, particleboard, or laminates air dry. For upholstered furniture that is wet by drinking quality water, air dry and monitor. For upholstered furniture, wet by contaminated water, discard.
5. For **carpet**, extract excess water from carpet, disinfect, dry as rapidly as possible, and then monitor. Carpet that has been wet for over 24 hours will be evaluated on a case by case basis. A wet/dry vacuum, extractor, and floor fans will be available for use.
6. For **papers, books, and files**, dry essential items within 24 hours. If that is not possible, then freeze them until there is time to dry them. Unessential items should be discarded. Essential items could also be photocopied.

The drying time can be decreased with the use of fans, dehumidifiers, and air conditioning.

D. Painting, Roofing and Flooring

Other work that can impact IAQ in a building includes flooring, painting, and roofing. Refer to Appendices F, G, and H for proper procedures.

V. Indoor Air Quality Checklists

Indoor Air Quality information (IAQ complaint form, questionnaire, action items list and the investigative form) is available in the Superintendent's office for review by interested District 917 staff members. In the event that a building custodian, teacher, or health & safety personnel would like to review a particular area with regard to IAQ, a comprehensive checklist is available for use in Appendices A, B, C, & D.

VI. Integrated Pest Management (IPM)/Chemicals

A. IPM

Pending state regulations, Integrated Pest Management (IPM) is a coordinated approach to pest control intended to prevent unacceptable levels of pests, while causing the least possible hazard to people, property, and the environment and using the most cost-effective means. IPM uses a combination of methods, which include:

- Improved sanitation removing food from desks, cleaning.
- Inspection and monitoring of pest population sites.
- Managing waste (keeping refuse in tight containers and locating waste containers away from buildings, if possible).

- Maintaining structures (fixing leaking pipes promptly, sealing cracks).
- Adding physical barriers to pest entry and movement (screens for chimneys, doors, and windows; air curtains).
- Modifying habitats (removing clutter, relocating outside light fixtures away from doors).
- Using traps (light traps, snap traps, and glue boards).
- Using pesticides judiciously.

An efficient IPM program will integrate pest management planning with preventive maintenance, housekeeping practices, landscaping, occupant education, and staff training.

Pest control activities that depend upon the use of pesticides involve the storage, handling, and application of materials that can have serious health effects. The district will only use pesticides after providing appropriate notice to staff, students and parents. Caulking or plastering cracks, crevices, and/or holes to prevent harborage behind walls will be used as the preferred strategy for dealing with pests.

Intermediate School District 917 will use an outside contractor for pest control when needed. Terms of the contract will be renewed annually and include the principles discussed below:

1. **Pest Control Schedule**

Whenever possible, pesticide applications are scheduled during unoccupied periods so that affected areas can be flushed with ventilation air before occupants return. Pesticides are applied in targeted locations, with minimum treatment of exposed surfaces. They are used in strict conformance with manufacturers' instructions and EPA labels. General periodic spraying may not be necessary. If occupants are present they will be notified prior to the pesticide application.

2. **Materials Selection, Handling and Storage**

Pesticides are selected that are species-specific and attempt to minimize toxicity for humans and non-target species. Contractors or vendors are asked to provide EPA labels and material safety data sheets. Pesticides are stored and handled properly consistent with their EPA labels. Pesticides and other chemicals used will be recorded on a "Chemical Inventory" form.

If only limited areas of the building are being treated, the heating ventilation and air conditioning (HVAC) system will be adjusted so that it does not distribute contaminated air throughout the rest of the building. Temporary exhaust systems may be used to remove contaminants during the work day. HVAC system operation will be modified when necessary during and after pest control activities (e.g., running air handling units on 100 percent outdoor air for some period of time or running the system for several complete air exchanges before occupants re-enter the treated space).

Information on pesticide selection, use, and storage is available from several local and national sources. These include Minnesota Department of Agriculture at <http://www.mda.state.mn.us> and the Federal EPA at <http://www.epa.gov>, and 800/858-7378 or email npic@ace.orst.edu.

Notification of parents and employees, as required in MN Statute, Section 121A.30, is addressed in the Student/Parent Handbooks distributed to all students in September of each year and to new students as they enroll in the district. Notice of unscheduled applications is available to parents and employees. Relevant documentation is available in the Superintendent's office.

B. Chemicals

District employees who purchase chemicals will insure that the least hazardous chemical available is selected for every application. The District 917 Buyer requests all available health and safety information for product review and distribution.

VII. Indoor Air Quality Cleaning Standards

After establishing guidelines that focus on prevention and containment, the final procedure for the effective reduction of contaminants that affect air quality is the implementation of Indoor Air Quality Cleaning Standards.

Keep in mind that whether an item is clean or not, does not necessarily affect IAQ, (e.g. a drinking fountain or wash basin). It may affect sanitation, but not IAQ. "Clean air," however, cannot be foul smelling. Items that have a potential of becoming foul smelling must also have IAQ Cleaning Standards (e.g., a urinal or a wastebasket).

IAQ Cleaning Standards deal with *Items* (anything, object, or surface) to be cleaned, the *Tasks* required, *Task Frequencies*, and *When*. Since contaminated dirt by and large gets tracked into buildings onto floors, much emphasis is placed on clean floors. Since contaminated dirt gets into buildings through lower entrance levels, those levels are impacted far greater by contaminated dirt than upper levels. Task frequencies for floor maintenance tasks should therefore be lowered accordingly for upper levels. Recommended IAQ Cleaning Standards are for high impact areas on first and lower floors: Entrances, Hallways, Food and Beverage Areas, Kitchens, Restrooms and Locker rooms, Classrooms, and Offices.

A. Entrances

The purpose of entry mats is to stop and trap dirt and moisture. It's necessary, therefore, to have two types of mats in place: a dirt mat and a moisture mat.

Dirt Mat: A dirt mat should have a coarse surface that affects removing contaminated dirt more easily from shoes. It should be porous to allow dirt to fall through to the backing of the mat, or into a dirt well into which the mat is placed. It should be thick enough to trap and hold at least 1/8 of an inch of dirt before emptying; and, it should be big enough for a person to step on it at least four times. Of course, the more traffic, the more mat.

Moisture Mats: A moisture mat should be capable of absorbing at least 4 ounces of water per square foot. It should have a backing to prevent moisture from passing through to the floor on which it is placed. And it should be big enough for a person to step on it at least four times. At this time Thompson Heights School is not utilizing moisture mats due to entrance size restrictions. This is an option that will continue to be explored in the future.

Waste Receptacles (plastic lined): Fifteen-inch, double lined waste receptacles are located at each entrance of Alliance Education Center to easily accommodate a day's trash. The location of these waste receptacles encourages use and greatly reduces the amount of contaminants that would otherwise be brought into building.

B. Hallways

It is a goal of District 917 to keep the hallways clean at Alliance Education Center (dusted, damp mopped, or cleaned with the automatic equipment regularly and stripped and refinished annually).

C. Food and Beverage Areas

Food and Beverages (F&B areas) should be designated and should be provided with appropriate facilities:

Facilities:

Food and beverages storage
Clean-up
Eating
Food and beverage purchases
Food disposal
Recyclable Disposal

Examples:

Refrigerator
Wash basin, hand soap, hand towels
Tables and chairs
Vending machines
Lined wastebaskets or refuse containers
Aluminum cans containers

At Alliance Education Center food and beverage areas are thoroughly cleaned by staff daily.

D. Kitchens

The kitchen staff is responsible for cleaning and sanitizing the surfaces, tools, and utensils they use for food preparation, but the custodial staff is responsible for the remainder of the cleaning. Cleaning is completed at the end of the cooking staff shift.

When sweeping and wet mopping the floor, special precautions are taken to reach under stoves and tables to remove all residues. Kitchen floors are swept or mopped daily.

E. Restrooms and Locker Rooms.

Fixtures, floors, and spots on the walls are cleaned daily. Entry surfaces are cleaned annually.

Weekly damp dusting horizontal surfaces and vent covers are a priority IAQ Cleaning Standard.

F. Classrooms

Clean floors, chalkboards, and chalk trays are priorities in classrooms. Clean floors because the tracked in contaminated dirt is a major carrier and source of contaminants. Also, clean chalkboards and chalk trays because of the chalk dust, an air contaminant and irritant.

G. Offices

Office parallel classrooms, the emphasis being on floor care and dusting.

H. Carpet

Weekly routine Carpet Maintenance:

Vacuuming Carpet: A top-fill upright vacuum with brush agitation or a canister vacuum with a power head incorporating brush agitation is to be used with frequency. Equally important, soil that is loosened and vacuumed from carpet must be collected in the vacuum recovery system and not allowed to re-enter the air within the structure to contribute to indoor air pollution. For this reason a high efficiency filtering system and vacuum cleaner bags with a minimum rating of 90 percent efficient for 1 micron size particles need to be used in any vacuum equipment employed. Three of the five vacuum cleaners used at Thompson Heights School currently use installed micron bags. A goal is to purchase and install micron bags for all five of the vacuum cleaners.

Immediate Spotting: Immediate attention is given to any spotting at Alliance Education Center as soon as the need is reported by a student or staff member.

Carpet Dry Chemical/Foam/Shampoo/Steam (Hot Water) Cleaning:

Cleaning Frequency: Specialized maintenance and cleaning programs (e.g. weekly, monthly, quarterly, and semi-annually) will be implemented based on individual needs.

Frequent cleaning of exterior entrances and high traffic areas reduces the contaminants and soil particles from outside the structure that accumulate in these areas.

Carpet Treatment for Fungi/Bacteria:

Carpets which have tested higher than normal will be cleaned or removed depending on the location, age of carpet and microbiological levels.

VIII. Area Indoor Air Quality Guidelines

A. Animals in Classrooms

Certain individuals, in particular those with asthma, may be sensitive to animal fur, dander, body fluids, or feces, and may experience reactions to these allergens. Furthermore, individuals can become sensitized (made allergic) by repeated exposure to allergens. District 917 has developed the following guidelines to address this area:

1. Use alternatives to animals, if possible.
2. If the teacher's intent is to have animals, then it is the site administrators responsibility to:
 - a. Prior to having animals consult the school nurse/health aide about student allergies or sensitivities (data privacy laws will need to be adhered to).
 - b. Ask parents about potential allergies, or seek to obtain information through a note that students take home or during parent-teacher conference. Remember to check for allergies when new students enter the class.
 - c. Locate sensitive students away from animals and habitats.
 - d. Have the teacher clean cages regularly (daily if possible).
 - e. Have the teacher locate animals away from ventilation system vents to avoid circulating allergens.
 - f. Use gloves to handle feces and dispose of in double bags and immediately place in the outside dumpster, not in building trash containers.
 - g. Keep animals caged. An exception is made for instructional activities in the Animal Science program.
 - h. Bottom of cage should have an impermeable liner on the bottom to prevent liquid or solid leakage from the cage.
 - i. Ensure trash bag is removed from classroom after cage cleaning.
 - j. Animals will be kept in the classroom as needed for curriculum activities and not for extended time periods.

For any health issues related to these guidelines please contact Intermediate School District 917 licensed school nurses: Joan Asmus (LSN) 651-423-8493.

B. Food Service

Cooking activities generate odors, heat, moisture, food waste, and other trash which, if not managed carefully, can lead to indoor air quality problems. Intermediate School District 917 has delineated the following responsibilities involved in the preparation and/or serving of food to ensure IAQ management:

Cooking Areas:

1. Make sure that the exhaust fans are working properly. If problems are noted, contact the building custodian.
2. Exhaust fans should be operational whenever cooking, dishwashing, and cleaning.
3. Any leaks or odors of combustion gas should be reported immediately to the building engineer.
4. Clean kitchen after each use as required by district and Department of Health policy.
5. Report any signs of mold, mildew, or algae to building custodian.
6. Report any plumbing water leaks to building custodian.
7. Report any pest problems to building custodian.

Food Handling and Storage:

1. Regularly check food service areas for signs of insects or vermin.
2. Follow food handling and storage practices as recommended by district and Department of Health.
3. Maintain general cleanliness.

Waste Management:

1. Follow district guidelines concerning the recycling of waste.

2. Store waste in appropriate sealed containers.
3. Make sure dumpsters are located away from air intake vents, operable windows, etc.

The District 917 Secondary Technical Center offers several courses to high school students involving food preparation careers (Food Industry Careers, Dietary Aide, and Fundamental Chef). Instructors attend training updates as needed to maintain safety and health within these departments.

C. Art and Crafts Classrooms

Classrooms used for arts and crafts activities shall comply with items detailed in the Teacher's Checklist in Appendix E. Materials emitting toxic fumes are not used in classroom spaces when students and staff members are present.

IX. Indoor Air Quality Complaint Resolution System

A. Purpose/Scope

The purpose of the IAQ Complaint Resolution system is to investigate and attempt to resolve IAQ issues within Intermediate School District 917 buildings in a prompt, responsive manner.

B. Process

The following describes the process to be implemented if a building occupant is concerned about IAQ:

1. The person(s) concerned about indoor air quality should contact the Health and Safety Coordinator using an IAQ complaint form (Appendix A)
2. The Health and Safety Coordinator and/or building custodians will conduct an investigation, using Appendix B, to try to resolve the problem internally.
3. The Health and Safety Coordinator will review the IAQ complaint form and may request relevant medical documents from occupants with symptoms.
4. The Health and Safety Coordinator will investigate the problem using Appendix D. The Health and Safety Coordinator will provide a written report to the Superintendent, the Director/Assistant Director of the program involved, and the building custodian. The Superintendent and Health and Safety Coordinator contact an outside vendor if additional testing is required.
5. District employees will perform remediation when feasible and appropriate. If an outside contractor is necessary the Superintendent will define the scope of services and assist in procuring those services in accordance with district policies.
6. If a problem is not solved after appropriate testing, investigation and remediation, the person may need to be moved to a different space based on availability.

X. Communication/Information

A. Availability of Information

Intermediate School District 917 is committed to open communication regarding IAQ and will make available any and all information regarding IAQ in district facilities. Parents and employees can obtain information about IAQ by contacting the Superintendent's office, or checking the District 917 website: <http://www.isd917.k12.mn.us>. Information available includes:

- Checklists or self-help information so they can properly evaluate their child's home or other out of school situations.

- Information about school facility construction, maintenance, and housekeeping practices, chemicals used, mold and HVAC related information, chemical producing academic subjects, pesticides and herbicides and the like to determine the extent to which school activities contribute to a child's symptoms.
- Information on what a parent can do (how they can effect change) upon discovering questionable activities occurring within schools.

B. Annual Notification

Annual notification of parents will occur each September (or when a new student is enrolled in District 917) through the Parent/Guardian and Student Handbook. Notification of employees will be included in employee orientation materials, policy handbooks, and the annual IAQ Walk-through Inspection process.

XI. Training, Education, and Information

Training 1 – Executive IAQ Briefing

This briefing opportunity, provided annually at a meeting of the District 917 Administrative Team, will provide a broad overview of IAQ and its impact on occupant's health. The presentation will also review/discuss Intermediate School District 917 plan to manage IAQ in the proactive manner.

Training 2– IAQ Plan Implementation

This training will take place at a meeting of the Health, Safety, and Wellness Committee, and will specifically review the IAQ management plan, the impact of the plan on building occupants, and the process and individual responsibilities for its implementation.

Training 3– IAQ in Classrooms

This training for District 917 custodians will address the operation of ventilation equipment, carpet care, animals, food, and the district IAQ plan.

XII. Renovation, Remodeling, and Redecorating Activities

Renovation, remodeling, and redecorating activities have the potential for causing indoor air quality problems. Proper planning is important to minimize potential problems. Building occupants will be informed of the nature of these activities.

District remodeling specifications require cleanliness, dust control, protection of building and building materials from water and clean HVAC parts:

- All mechanical ventilation improvements will result in demonstrated current performance criteria as found in state law, statute or rule, to include proper amount of ventilation rate over a specified outside temperature range, proper filtration, and ability to measure ventilation rate.
- Proper commissioning of all mechanical ventilation improvements will be done and validated by a designated professional who has adequate errors and omissions insurance.
- Mechanical ventilation improvement work will remain under warranty by the outside party until a full range of seasons has occurred, allowing any deficiencies to surface and be corrected.

A common concern which can occur during these activities is the release of volatile organic compounds from paint, stain, adhesives, sealants, new carpeting, and furniture. When feasible these types of activities will be scheduled to occur when the building is not occupied. Many times, for a variety of reasons, these activities need to occur while the building is occupied. During these activities the maintenance engineer will increase the fresh intake air as feasible. This increased ventilation will occur during these activities and for a short time after the work has been completed. A representative from the Indoor Air Quality Management team will advise on the selection and purchase of paint products.

If only limited areas of the building are being remodeled, the HVAC system will be adjusted and/or containment systems utilized as applicable so that it does not distribute contaminated air throughout the rest of the building. Temporary exhaust systems to remove contaminants during the work day will be considered. It may be necessary to modify HVAC system operation during and after these activities (e.g., running air handling units on 100 percent outdoor air for a period of time or running the system for several complete air exchanges before occupants return to the building).

When feasible, activities where solvents will be released will be scheduled to occur late in the day or on Friday so the building can air out overnight or during the weekend. Whenever possible, carpeting will be installed on a Friday so the solvents in the carpet and its adhesive have the weekend to air out before the tenants return to work.

Prior to modifications to the building system that could impact asbestos-containing materials, the AHERA inspection manual will be reviewed. If asbestos-containing materials will be affected by work, asbestos abatement contractors will generally remove asbestos-containing materials and document the removal work.

The documents in Appendices F and G will be provided by the purchasing department to contractors who do painting and roofing repairs.

XIII. Budgeting

The district health and safety budget is available for use in remedying IAQ problems. This budget is submitted annually for approval. Annual needs, project upgrades, etc., are prioritized and included in the health and safety budget. Routine maintenance items are planned and budgeted for in order to prevent water intrusion, maintain airflow, and improve cleanliness in district buildings as a part of annual budgeting.

Painting Checklist

Name	Room	School
Date Completed	Signature	

Instructions:

1. Check off each box as you complete the activity.
2. Check the triangle as appropriate or check the circle if you need additional help with this activity.
3. File this checklist for future reference.

There are many factors to consider before beginning a painting project. Special care should be taken when sanding a surface to prepare for painting, due to the dust released into the air. This dust may contain lead particles. Exposure to excessive levels of lead could affect a child's mental growth, and interfere with nervous system development, which could cause learning disabilities and impaired hearing. In adults, lead can increase the blood pressure.

The type of paint is an important decision. For instance, both solvent-based and water-based paints give off volatile organic compounds (VOCs) that could lead to IAQ problems. Water-based paints produce less VOCs than solvent-based paints, but produce them over a longer period of time.

Durability is important – a relatively low-emitting paint might create more IAQ problems in the long run than a higher emitting paint, if the lower-emitting paint requires repainting more often. In addition, many water-based (even interior paints) have, until recently, used mercury as a fungicide. Any paint that contains mercury should not be used indoors.

Confirm that the painted surface is lead-free before preparing a surface for painting

- ☐ Check painting records or old paint cans to determine whether the paint contains lead
- ☐ Do an initial screen using a trained lead paint inspector
- ☐ If there is lead paint in the existing paint, contact a trained lead-based paint contractor
- ☐ No lead in existing paint
- ☐ Paint contains lead or testing is needed to determine if lead is in existing paint

Select a low-VOC emitting paint that is free of lead and mercury

- ☐ Evaluate existing stock of paint (properly dispose of paints containing lead or mercury or having higher VOC emissions than new paints)
- ☐ Evaluate new paint before you purchase it. Express your indoor air quality concerns to paint suppliers and use their technical personnel as a resource. Not all paint suppliers have information on pollutant emissions; consult other sources (e.g., manufacturers) if your paint supplier cannot provide adequate information
- ☐ Have selected an appropriate paint
- ☐ Need to discuss which paint to use with an IAQ specialist

During exterior painting, minimize occupant exposure to odors and pollutants

- ☐ Schedule exterior painting to occur when the building is unoccupied (for example, on weekends or during vacation periods), and allow time for paint odors to dissipate before occupants return to the area. If the area being

Painted has a heating, cooling, and ventilation system which is shared with other areas, those areas should also be unoccupied

- Use supply and exhaust fans to sweep paint fumes out of the building. Operate supply fans continuously (24-7) at the highest possible outdoor air supply setting, from the beginning of the painting work until several days after the painting has been completed
- Block return openings to prevent circulating air from the work area to occupied areas
- △ Occupant exposure is minimized
- O Need help to minimize occupant exposure

Use appropriate storage and disposal practices for paints, solvents, clean-up materials, and asbestos containing materials

- Seal containers carefully after use
- Keep paint containers in designated storage areas equipped with exhaust ventilation, but not in heating, ventilation, and air conditioning equipment
- Use an appropriate waste disposal method to dispose of any paints containing lead or mercury
Follow EPA National Emission Standards for Hazardous Air Pollutant rules for disposal of asbestos-containing materials
- △ No problem with storage and disposal
- Need help with storage and disposal

Roofing Checklist

Instructions:

1. Check off each box as you complete the activity.
2. Check the triangle as appropriate or check the circle if you need additional help with this activity.
3. File this checklist for future reference.

Roofing work often involves the use of tar or other pollutant-producing chemicals that may cause indoor air problems if fumes enter the building. School officials and roofers can cooperate to prevent these problems and complaints from occupants.

Schedule pollutant-producing activities for unoccupied periods (e.g., weekends or vacation periods:

- Check to ensure that pollutant-producing activities occur during unoccupied periods
- Work is scheduled for an unoccupied period
- Work is scheduled for an occupied period; need help to minimize occupant exposure
- Locate “hot-spots” of tar and other pollutant-producing materials away from outdoor air intakes:
- Consider wind patterns at the work site, and arrange equipment so that prevailing winds carry odors away from the building
- Pollutant-producing materials are away from and downwind from outdoor air intakes
- No good location for pollutant-producing materials

Modify ventilation to avoid introducing odors and contaminants:

- ☐ Advise staff and students to keep doors and windows closed until the roofing work is finished
- ☐ It may be advisable to temporarily close the outdoor air intakes of air handlers; particularly rooftop units in the vicinity of (and downwind from) the work area. (NOTE: To avoid creating IAQ problems from underventilation, provide a temporary means (fans and/or ducts) to supply unaffected outdoor air.)

Δ Ventilation is arranged to avoid entry of pollutants

- Need help to modify ventilation

NOTES:

SECONDARY TECHNOLOGY CENTER SAFETY MANAGEMENT

WRITTEN PLAN

Intermediate School District 917

July 2016

INTRODUCTION

The health and safety standards included in the following sections are provided for guidance to Intermediate School District 917 Secondary Technology Center instructors. Compliance with these standards will substantially aid in providing a safe and healthy work and teaching environment. Procedures outlined should be considered the minimum standards that apply for classrooms. The standards are derived from existing state or federal occupational health and safety regulations and other organizations such as: the National Fire Protection Association and the American National Standards Institute. If there are discrepancies between this plan and the standards, the standards are to take precedence.

The Intermediate School District 917 technology programs include: Construction; Vehicle Services; Heavy Duty Truck Technology; Graphic Technology; Computer Repair, Networking, and Video Game Design; Fundamental Chef; and Food Industry Careers. It is imperative that instructors become familiar with and implement the sections in this plan that pertain to the operation(s) under their control.

Each technology program is responsible for providing safety equipment and supplies as specified in this plan. If there is equipment that does not meet the standard, it is not to be used. If there is equipment that is not used and is not likely to be used in the future, it should be decommissioned. Equipment shall be maintained in good repair. If equipment is not operable or does not meet the standards, it should be red tagged as not operable until a time when it is repaired or upgraded. Instructors are not to perform repairs or upgrades to equipment.

Section 1: The Technology Shop Safety Management Plan

The Secondary Technology Center Safety Management Plan covers: general safety and housekeeping, clothing and safe dress, personal protective equipment, machine safety, hand and power tool safety, electrical safety, compressed air safety, compressed gas cylinders, employee right to know, chemical storage requirements, safety equipment, emergency procedures, employee training and recordkeeping. This plan will be reviewed annually, evaluated for effectiveness and updated as necessary. This plan will be maintained in the District Office and

on-site by each shop instructor. It shall be made available to employees, employee representatives, and safety inspectors upon request.

Each Technology Shop curriculum shall develop and implement their safety plan specific to the activities being performed. Safety guidelines for students are to be developed by instructors that are specific to the task to be performed. Student guidelines should include items identified in this plan and student behavior do's and don'ts. **Health and safety must be made an integral part of all Technology Shop curriculums and the instructor must document student competency on safety procedures by maintaining a file for each student containing safety worksheets and actual safety test passed at the 100% level.**

On a regular schedule, but not less than monthly, instructors are responsible for inspecting the shop areas under their control.

Section 2: General Safety/Housekeeping

The following precautions pertain to the minimum general safety/housekeeping procedures to be implemented in the Technology Shop classrooms:

1. Report all injuries. Injuries to instructors must be documented through the **Business and Nurses's** Office on the Injury Report Form. The Student Injury Log is to be used to document injuries to students.
2. Students are to be supervised by a licensed Technology Shop instructor when using shop equipment or chemicals.
3. No food is allowed in a Technology Shop area. Do not eat, drink, chew gum, or apply cosmetics in a shop area.
4. Minimize exposures by using appropriate personal protective apparel and equipment. (i.e. eye protection, machine guards, etc.)
5. Only tools, equipment, and machinery that are properly maintained and adjusted may be used.
6. Tools, equipment, and machinery may not be altered for use other than that for which it was designed and specified by the manufacturer.
7. Know the locations of and maintain accessibility of all safety equipment including: fire extinguishers, eyewashes, drench showers, etc.
8. Floor areas and aisles must be kept free of debris or any item that may constitute a tripping or slipping hazard.
9. Dust collections systems must be used when performing woodworking activities.
10. Cleanliness around woodworking activities is to be maintained. Particular attention should be made in regards to preventing fire hazards from wood dust inside electrical switch enclosures, bearings and motors.
11. Use shop vacuum equipment to keep work areas clean. Compressed air must not be used to clean dirt and dust from equipment, clothing or skin.
12. Clean up liquid spills immediately.
13. Maintain storage areas in a safe and orderly manner.
14. Store flammables in an approved flammable cabinet if in excess of 10 gallons.
15. Maintain aisles and egresses open and clear.

16. A minimum of 18 inches of clearance must be maintained between storage materials and fire sprinkler heads.
17. Storage of materials must not create a hazard. Overhead storage must be stable and secure. Large objects should not be stored overhead. Attention to the weight limit of a shelving or rack unit should be monitored.
18. A minimum of 36 inches of open area must be maintained for access to all electrical boxes and utility controls.

Section 3: Clothing and Safe Dress

The following precautions pertain to the minimum clothing and safe dress procedures to be implemented in Technology Shop classrooms:

1. The type of clothing is to be appropriate for the planned shop activities.
2. Instructors are responsible for ensuring that students are informed as to the requirements for wearing apparel that is suitable for the type of shop activities to be performed and the hazards involved.
3. For those working with machinery or in other hazardous operations, clothing should be well fitted with no loose or flowing articles. Shirts must be tucked in and short sleeve types are the best.
4. Shoes should be well fitted with good soles and heels and of a style that completely covers the foot. Open-toe shoes “sandals” or lightweight shoes must not be worn during shop activities.
5. Instructors and students with long hair who work around moving machinery must wear adequate hair covering to preclude the possibility of entanglement.
6. Jewelry such as rings, pendants, necklaces, earrings, and watches shall not be worn when working around moving machinery, electricity or electronics equipment.

Section 4: Personal Protective Equipment

This section addresses eye, face, hand and hearing protection. Activities are not to be performed which would require the use of respirator protection, however voluntary use of respirators is allowed. Personal protective equipment (PPE) is to be used by instructors and students whenever doing so will reduce the likelihood of injury. PPE is not a substitute for engineering controls, administrative controls, or good work practices, but must be used in conjunction with these controls.

Responsibility

Instructors have the primary responsibility for implementation of the PPE program in their shop area. This includes: conducting a hazard assessment in their area, determining what type of PPE is required, purchasing the necessary equipment and signage, ensuring students are trained on the proper use, care and cleaning of PPE, ensuring students are wearing PPE and replacing defective or damaged equipment immediately. Based on the hazard assessment, locations or activities that require PPE are to be clearly demarcated identifying the type of PPE required. Visitors or others passing through the area should be able to easily identify the hazards and PPE required.

Eye and Face Protection

Instructors and students must use appropriate eye and face protection when working in eye protection areas or exposed to hazards from flying particles or chemicals. Eye protection areas include but are not limited to, technology shops in which activities are taking place and materials are being used involving: hot molten materials, milling, sawing, turning, shaping, cutting, grinding or stamping of any solid materials, heat treatment, tempering, or kiln firing of any metal or other materials, gas or electric arc welding, repair or servicing of any vehicle or mechanical equipment. Eyewear must comply with ANSI Z87.1 as indicated by labels on the PPE. When there is a hazard from flying objects, side protectors must be used.

Hand Protection

Instructors and students must use appropriate hand protection when exposed to hazards from skin absorption of harmful substances, severe cuts or lacerations, abrasions, punctures, chemical burns or temperature extremes. An evaluation of the hazard must be made and the appropriate glove type selected. Glove selection will be based on performance characteristics of the gloves, conditions, duration of use, and hazard present. One type of gloves will not work in all situations.

Hearing Protection

Instructors and students exposed to noise levels at or above the OSHA permissible exposure limit of 85 dBA as measured on an eight-hour time weighted average (TWA) must wear hearing protection. It is recommended that hearing protection be used whenever operating equipment which generates decibel level above 80 dBA. The type of hearing protection device used must, at a minimum, attenuate the noise level to an 8-hour TWA of 85 dBA or less. Instructors should also limit their daily noise exposure by reducing the time period devoted to excessively noisy activities. Personnel and equipment noise level monitoring can be performed by Health and Safety upon request.

Refer to the District Respiratory Protection, Personal Protective Equipment and Hearing Conservation Written Plans for more information on these topics.

Section 5: Machine Safety

Machinery is the most immediate and apparent safety hazard in the shop area. **It is imperative that instructors supervise students at all times when using any shop machines.** Prior to student usage, the instructor must approve the intended operation by the student making sure that guards are in place and that student has passed the safety test for the equipment he/she will be operating. Instructors must ensure that the equipment is functioning properly and all safety equipment is in place and being used. Equipment lighting is to be maintained operational and must be protected from breakage. All safety guards must be maintained in proper position while the machine is in operation. The instructor is responsible for performing regular scheduled

inspections and manufacturer specified preventative maintenance of machinery. The instructor is not to perform maintenance that will require the implementation of lockout/tagout procedures. If machine equipment is determined not to be functioning properly or it is missing safety or guarding equipment, it is not to be used. The instructor must label the equipment with a red tag as not operational until such a time when repairs or upgrades can be made. Students shall have completed a safety worksheet for each piece of equipment and passed a safety test at the 100% level in order to be deemed fit to operate that machine. The instructor will keep a file for each student containing the worksheet and student safety test. The instructor will record on a visible, posted sheet the student's name and the machines he is qualified to operate. Students not demonstrating competency with machine operation and safety procedures must not be allowed to operate machinery.

Guarding

Machine guarding procedures are as required by OSHA 29 CFR 1910.212. One or more methods of machine guarding shall be provided to protect the operator and other people in the machine area from hazards such as those created by point of operation, in-going nip points, rotating parts, flying chips and sparks. Examples of guarding methods are barrier guards, two-hand tripping devices, electronic safety devices, etc. Safeguards must meet the following minimum requirements:

1. **Prevent Contact:** The safeguard must prevent hands, arms, and any other body part of the user's body from making contact with dangerous moving parts. All belts, pulleys, gears, shafts and moving parts must be guarded. Chip shield guards and filler plates need to be maintained at a maximum clearance of 1/4 inch on the top plate and 1/8 inch on bottom.
2. **Secure:** Users should not be able to easily remove or tamper with the safeguard. Guards and safety devices should be made of durable material that will withstand the conditions of normal use. Safeguards must be firmly attached to the machine.
3. **Protect from Falling Objects:** The safeguard should ensure that no objects could fall into moving parts.
4. **Create No New Hazards:** A safeguard defeats its own purpose if it creates a hazard of its own such as a shear point, a jagged edge, or an unfinished surface which can cause a laceration. The edges of guards should be rolled or bolted in such a way that they eliminate sharp edges.
5. **Create No Interference:** Any safeguard, which impedes a user from performing the job quickly and comfortably, may soon be overridden or disregarded. The guard should be evaluated by Health and Safety personnel for possible improvement but **not** removed.
6. **Allow Safe Lubrication:** If possible, machines should be able to be lubricated without removing the safeguards.

Section 6: Hand and Power Tool Safety

The instructor must monitor activities involving the use of hand and power tools. Tools must be maintained in a safe and operable condition. Any hand or power tool found not in proper working order must be removed from service. Tools must be inspected at regular intervals and

preventative maintenance performed in accordance with the manufacturer's specifications. All tools must be used with the correct PPE, shield, guard or attachment recommended by the manufacturer. Tools are only to be used for the designed or intended usage. Following usage, hand and power tools are to be properly stored and secured. Tools should never be left unattended where they may be available to unauthorized persons.

Guarding of Portable Power Tools

Portable power tool guarding procedures must meet the following minimum procedures:

1. All portable, power-driven circular saws having a blade diameter greater than two inches must be equipped with guards above and below the base plate or shoe. The upper guard must cover the saw to the depth of the teeth except for the minimum arc required to permit the base to be tilted for bevel cuts. The lower guard must cover the saw to the depth of the teeth except for the minimum arc required to allow proper retraction and contact with the work. When the tool is withdrawn from the work, the lower guard must automatically and instantly return to covering position.
2. All hand-held power circular saws having a blade diameter greater than two inches must be equipped with a constant pressure switch or control that will shut off the power when the pressure is released.
3. All hand-held power drills, fastener drivers, grinders or disc with wheels greater than two inches, belt sanders, reciprocating saws, saber, scroll and jig saws with blade shanks greater than a one-fourth inch, and other similarly operating powered tools will be equipped with a constant pressure switch or control, and may have a lock-on control provided that turnoff can be accomplished by a single motion of the same finger that turned it on.
4. The operating control on hand-held power tools must be located as to minimize the possibility of its accidental operation.
5. All portable electric power tools must be grounded.

Section 7: Electrical Safety

Safe work practices must be employed to prevent electric shock or other injuries resulting from electrical contact. Activities performed near or on equipment or circuits that are or may be energized must incorporate safety-related work practices consistent with the nature and extent of the associated electrical hazard. The minimum electrical safety procedures are as follows:

1. All electrical equipment and cords must be inspected monthly by the instructor to insure proper use and safe condition.
2. Damaged electrical equipment must be reported for repairs.
3. The power source to damaged electrical equipment must be disconnected (red tagged) until repairs can be made.
4. Damaged extension cords should be discarded.
5. All electrical equipment and cords must be properly grounded with three-prong type plugs. Power tools not equipped with three-prong type plugs must be double insulated or connected to a ground-faulted outlet or adapter.

6. All occasional use electrical equipment must be disconnected when not in use.
7. Extension cords must not be used on a **permanent basis** to supplement existing outlets to provide electricity for appliances and equipment in regular use.
8. The use of octopus plugs, strip adapters and three-prong adapters are prohibited. The use of ground faulted power strips is acceptable.
9. Circuit breaker panels and wiring are not to be modified by instructors or students.
10. All circuit breakers must be identified by label according to service area. Breakers are to be labeled to facilitate power shut-off in the case of an emergency.
11. A minimum of a 36-inch clearance around electrical service panels and emergency shut-off equipment must be maintained.
12. Electrical service panels are to be secured (locked) at all times to prevent student access. If the service panel is the only location for equipment emergency shut-off, it is to be maintained unlocked and accessible.

Electrical Controls and Equipment

1. Mechanical or electrical power controls must be provided for each machine to make it possible for the operator to cut off the power. Clearly marked power controls must be located within easy reach of the operator. Emergency stops should be identified in red.
2. Students should be given instruction on the purpose of the over-current devices and disconnects should be properly labeled.
3. Electrically driven equipment must be controlled with a magnetic or similar device to prevent automatic restarting of the machine after a power failure.
4. Power controls and operating controls should be located within easy reach of the operator without requiring them to reach over operating parts.
5. Instructors are not to perform repairs on electrical equipment. Adjustments that are considered to be routine, repetitive, and integral to the use of the equipment can be performed by the instructor.
6. Prior to making adjustments to electrical machinery, procedures must be followed to render controls and devices inoperative (lockout/tagout).

Section 8: Compressed Air Safety

The following precautions pertain to the use of compressed air in shop areas:

1. Students are to be supervised by the instructor at all times during compressed air activities.
2. The instructor, prior to each use, must inspect all components of the compressed air system.
3. Compressed air equipment is not to be modified by instructors or students.
4. Compressed air equipment must be labeled to identify its use and maximum allowable working pressures.
5. Air supply shutoff valves must be located as near as possible to the point of operation.
6. Air hoses must be kept free of grease and oil to reduce the possibility of deterioration.
7. Hoses must not be strung across floors or aisles where they are likely to cause occupants to trip and fall.

8. Hose storage must be in a location that provides efficient access and protects the hose and nozzle from damage.
9. Hose ends must be secured to prevent whipping if an accidental cut or break occurs.
10. Before a pneumatic tool is disconnected, the air supply must be turned off at the control valve and the tool bled.
11. Eye and face protection must be worn at all times by instructors and students during compressed air activities.
12. Compressed air nozzles must be equipped with a separate regulator to reduce pressure to less than 30 psi when used for blowing.
13. Compressed air must not be used to clean dirt and dust from clothing or off a person's skin.
14. Compressed air is not to be used for cleaning machinery or blowing dust around the shop area. Shop vacuums and brooms are to be used for cleaning.

Section 9: Compressed Gas Cylinders

Procedures for the use and storage of compressed gas cylinders must meet the following minimum procedures:

1. Instructors must inspect compressed gas cylinders on a weekly basis when in storage and prior to each use.
2. Compressed gases must be handled as a high-energy source and as a potential explosive.
3. All compressed gas cylinders must be clearly labeled with the chemical or trade name of the gas.
4. Always protect cylinder valve stems with valve protectors when not in use or connected for use.
5. Avoid exposing cylinders to heat sources and direct sunlight.
6. Never lubricate, modify, force or tamper with cylinder valves.
7. Gas cylinders must be secured in place and reactive gas cylinders must be separated from oxidizing cylinders by a firewall or a minimum of a 20-foot distance. Mobile cylinders must be securely chained to a wall or cart.
8. Proper personal protective equipment must be used when necessary. (i.e., welding/cutting)

Section 10: Right-to-Know

Right to Know is designed to protect employees, occupants and students from the effects of any hazardous chemical used or stored in industrial arts areas. The purpose of the program is to ensure that all hazardous chemicals in the workplace are identified and to increase employee education and awareness of hazardous chemicals. The District-wide written Employee Right to Know Written Plan is maintained in the District Office.

Procedures to be implemented by instructors are as follows:

1. **Chemical Inventory:** A complete and current inventory of all hazardous chemicals must be maintained for each technology program. The inventory should be maintained as part of this plan using the Chemical Inventory Form. All items in inventory must show the chemical name, manufacturer information, storage location, quantity, product usage and hazard analysis. Examples of hazardous chemicals include, but are not limited to, cleaning chemicals, gasoline and other petroleum products, compressed gases, paints and solvents, inks, and processing chemicals. Products exempted from this requirement include consumer products packaged for distribution to the general public, if used by employees in the workplace in the same form, concentration, frequency and manner, as would the general public.
2. **Safety Data Sheets:** Every item in the chemical inventory must have a corresponding Safety Data Sheet (SDS). It is the responsibility of each school technology shop department to maintain SDS's as part of this plan. SDS's must be organized and made easily available to employees and students. ISD 917 will be implementing an online SDS system through SafeSchools. This will be fully implemented by June 1, 2016.

SDS's are available from the product suppliers and should provide the following minimum information: chemical name, hazardous components, physical characteristics (density, flashpoint, etc.) physical hazards (fire, explosion, reactivity) health hazards and symptoms, primary routes of entry, permissible exposure limits or threshold limit value, any applicable precautions (gloves, goggles, fume hood, etc.) first aid and emergency procedures, date prepared and name and address of the manufacturer. Any item in inventory that does not have a SDS is to be disposed of. Hazardous products are to be disposed of in accordance with the Regulated Waste Management Plan.

3. **Chemical Labeling:** All chemical containers must be labeled to clearly identify contents. At a minimum, chemical container labeling is to list: chemical name, concentration and how the chemical can hurt you. It is best if the label on the container matches the name on the corresponding SDS.

Section 11: Chemical Storage Requirements

All chemicals represent potential hazards and storage systems must recognize these hazards and be designed to minimize them. The quantity of stored chemicals should be minimized to include only those needed for scheduled shop activities. In the event that a shop area has excess or old chemical products, the District Office should be contacted to provide for proper disposal. Storage and disposal requirements for specific chemicals are identified in the Regulated Waste Management Plan.

Chemical storage requirements to be implemented by instructors are as follows:

1. Chemicals should be stored in secured, storerooms or cabinets. Unsecured areas are not to be used for chemical storage.
2. Instructors must inspect chemical storage rooms and cabinets weekly.
3. No unlabeled products should be stored anywhere.

4. Store only the minimum amount of chemicals needed.
5. Storage areas and cabinets must be labeled to identify the hazardous nature of the products stored within.
6. Shelving above work areas must be kept free of chemical storage.
7. All storage containers must have lids or covers. The instructor must clean up spills immediately.
8. Chemicals stored on the floor must be in approved shipping containers.
9. Only authorized personnel are allowed in chemical storage areas or cabinets. **Students are never allowed in these areas.**
10. Exposure to heat or direct sunlight in chemical storage areas must be avoided.
11. Quantities of flammable and combustible liquids in excess of ten gallons (total) must be stored in approved flammable liquid storage cabinets. Doors to the cabinets should be closed after the chemical has been obtained for use. Quantities less than ten gallons may be stored in approved safety cans or original containers.
12. The maximum quantity of flammable and combustible liquids in storage and use must not exceed 120 gallons or 240 gallons in sprinkled areas.
13. When transferring flammable liquids between metal containers, the containers must be properly bonded.
14. Flammable liquids must be stored away from all sources of ignition.

Section 12: Safety Equipment

Safety equipment must be in good operating condition and must be functional at all times. The minimum safety equipment and procedures are as follows:

1. Eye wash fountains and deluge showers, if present or required, must provide tempered water at 55 to 90 degrees Fahrenheit. Eye wash fountains must be flushed weekly. Flushing records are to be maintained at the flushing station.
2. At least one 2A-20BC or larger fire extinguisher must be available for each 3000 feet of shop area. Travel distance to reach the extinguisher must not exceed 50 feet from anywhere in the shop area. A minimum of 36 inches of open area must be maintained for access to all fire extinguishers and fire pull stations.
3. Fire blankets must be easily accessible in shop areas.
4. Neutralizing materials (floor dry) and spill clean-up kits must be available for flammable liquids.
5. A minimum of 18 inches of clearance must be maintained between storage materials and fire sprinkler heads.
6. Safety guards and devices are to be maintained in place and operable at all times. Removal or non-use of safety equipment is **not** allowed.
7. Floor areas around machines should have a non-slip surface.
8. A minimum of 36 inches of open area must be maintained for access to all electrical boxes, utility controls and shut off devices.
9. Hazard lines demark safety zones around machines.

Section 13: Emergency Procedures

It is the responsibility of the instructor to establish emergency procedures specific to the shop areas and activities under their control. The minimum emergency procedure guidelines are as follows:

1. Post emergency phone numbers in each shop area.
2. Post first aid procedures in each laboratory area.
3. Never block access to emergency exits, equipment, or utility controls.
4. Keep all aisles clear.
5. Know emergency evacuation and fire emergency procedures.
6. Know where and how to use master utility controls to shut off gas, electrical and water supplies.
7. Clean-up spills immediately and thoroughly. Technology Shop instructors following standard clean-up procedures should only clean-up spills.

Section 14: Employee Training

Safety training will be held once a year and are to include all Technology Shop instructors and assistants. Efforts will be made to hold this training during summer in-service or on a professional development release day. Training will include, but is not limited to, the following:

1. Contents and location of the Technology Shop Safety Management Plan.
2. Technology Shop instructor responsibilities under the safety plan.
3. Employee Right-to-Know information including chemical inventory, material safety data sheets, chemical labeling and storage.
4. Potential hazards involved in using chemicals.
5. Signs and symptoms associated with exposure to hazardous chemicals.
6. The proper use and location of safety equipment.
7. Emergency procedures.
8. Information on the storage and disposal of hazardous materials.

Section 15: Recordkeeping

The District Office and individual instructors share recordkeeping responsibilities for the Technology Shop Safety Management Plan. Records will be retained for a minimum of three years and will include: noise level monitoring results, inspection records, hazardous waste disposal records and employee training records. Recordkeeping by individual instructors should be maintained in the shop area as part of this management plan. **The minimum recordkeeping responsibilities to be performed by instructors include all completed Technology Shop Safety Checklists, safety tests and worksheets contained in files for each student, a complete and up to date chemical inventory and all corresponding material safety data sheets.** Instructors shall keep a log of employee and student accidents and injuries so that shop improvements can be determined. Corrective action as needed based on accident reports and

near misses shall be taken. In the event of instructor turn-over, all records for that shop area should be provided to the new instructor.

Section 16: Future Equipment

The Department of Education bid specification criteria shall be used for procurement of all future equipment. Instructors should not assume that the equipment they are ordering meets the criteria.

PERSONAL PROTECTIVE EQUIPMENT

WRITTEN PLAN

Intermediate School District 917

July 2016

This written plan documents steps Intermediate School District 917 (ISD 917) has taken to minimize injury, resulting from various occupational hazards present at our sites, by protecting workers through the use of personal protective equipment (PPE) when the hazards cannot be eliminated.

Linda Berg is the program coordinator, acting as the representative of the School Board, who has overall responsibility for the program. Annual training on employee's use of PPE will be conducted by a consultant, one-on-one, or viewing a video or computer-based training module. Procurement of PPE is done by contacting Linda Berg who will select the equipment and place the orders. This written plan is kept in the district office and will be reviewed annually.

ISD 917 believes its obligation is to provide a hazard-free environment to its employees. Any employee encountering hazardous conditions must be protected against the potential hazards. The purpose of protective clothing and equipment (PPE) is to shield or isolate individuals from chemical, physical, biological, or other hazards that may be present in the workplace. (See also separate written plans for the respiratory protection and hearing conservation programs.)

Establishing an overall written PPE program detailing how employees use PPE makes it easier to ensure that they use PPE properly in the workplace, and documents our PPE efforts in the event of an OSHA inspection. Our PPE program covers:

- Purpose
- Hazard assessment
- PPE selection
- Employee training
- Cleaning and maintenance of PPE
- PPE specific information

If after reading this program you find that improvements can be made, please contact Linda Berg at 651-423-8214. We encourage all suggestions as we are committed to the success of our Personal Protective Equipment Program. We strive for clear understanding, safe behavior, and involvement in the program from every level of the school district.

Purpose of Program

The basic element of any PPE program is an in depth evaluation of the equipment needed to protect against the hazards at the workplace; this is the initial hazard assessment for which written documentation is required. Two basic objectives of any PPE program should be to protect the wearer from incorrect use and/or malfunction of PPE. The purpose of this Personal Protective Equipment (PPE) Program is to document the hazard assessment, protective measures in place, and PPE in use at this workplace. PPE devices are not to be relied on as the only means to provide protection against hazards, but are used in conjunction with guards, engineering controls, and sound work practices. If possible, hazards will be abated first through engineering controls, with PPE to provide protection against hazards, which cannot reasonably be abated otherwise.

Hazard Assessment

In order to assess the need for PPE the following steps are taken:

1. The Health and Safety Coordinator and the Assistant Directors and/or Directors will have identified the job classifications where exposures occur or could occur. The business office examines the First Reports of Injury.
2. The Health and Safety Coordinator and the Assistant Directors and/or Directors conduct on going walk through surveys of workplace areas where hazards exist or may exist to identify sources of hazards to employees. Employees are also asked to inform the Health and Safety Coordinator of any hazards in their work. The basic hazard categories are:
 - Impact
 - Heat
 - Penetration
 - Harmful dust
 - Compression (roll over)
 - Light (optical) radiation
 - Chemical
 - Noise
 - Body Fluids

During the walk-through surveys the Health and Safety Coordinator and the Assistant Directors and/or Directors observe and record the following hazards. Employees also provide information during training sessions.

- Sources of motion; i.e., machinery or processes where any movement of tools, machine elements, or particles could exist or movement of personnel that could result in collision

with stationary objects: Heavy Duty Truck Technology Careers-vehicles; Graphic Communications; Food Industry Careers-Food, mixers and slicers; Fundamental Chef Training-Food, mixers and slicers; Vehicle Services – moving vehicles and lifts; Custodial/Maintenance – HVAC units; Grounds – lawn mowers and snow blowers.

- Sources of high temperatures that could result in burns, eye injury or ignition: Heavy Duty Truck Technology Careers; Vehicle Services - welders, torches, plasma cutter; Food Industry Careers and Fundamental Chef Training– ranges; Custodial – boilers.
- Chemical exposures could occur in: Heavy Duty Truck Technology Careers and Vehicle Services – paint, parts washer, auto chemicals; Science; Food – dish room; Custodial – cleaning chemicals, boiler chemicals.
- Exposures to harmful dusts are covered in the Respiratory Protection Program.
- Exposures to sources of light radiation, i.e., welding, brazing, cutting, high intensity lights, ultra-violet light etc. occur in: Heavy Duty Truck Technology Careers– welding; Vehicle Services – welding and torching.
- Sources of falling objects or potential for dropping objects occur in: Vehicle Service Careers- vehicles on lifts; Construction; where hard hats are worn.
- Sources of sharp objects which might pierce the feet or cut the hands have been observed in: Graphic Communication; Food Industry Careers and Fundamental Chef Training; Vehicle Services-sheet metal; Science.
- Sources of rolling or pinching objects, which could crush the feet, have been observed in: Vehicle Services – vehicles moving.
- Sources of excess noise are covered in the Hearing Conservation Program written plan.
- Exposures to potentially infectious body fluids occur in all shop type programs where first aid could be needed.
- Electrical hazards can occur in: Graphic Communications; Vehicle Services; Heavy Duty Truck; Food Industry Careers and Fundamental Chef Training; Custodial; Construction.

An estimate of the potential for injuries has been made. Each of the basic hazards has been reviewed and a determination made as to the frequency, type, level of risk, and seriousness of potential injury from each of the hazards found. The existence of any situations where multiple exposures occur or could occur has been considered.

Selection Guidelines/Purchasing

Once any hazards have been identified and evaluated through hazard assessment, the general procedure for selecting protective equipment is to:

1. Become familiar with the potential hazards and the type of PPE that is available, and what they can do.

2. Compare types of equipment to the hazards associated with the environment.
3. Select the PPE, which ensures a level of protection greater than the minimum required to protect employees from the hazards.
4. Fit the user with proper, comfortable, well fitting protection and instruct employees on care and use of the PPE. It is very important that the users are aware of all warning labels for and limitations of their PPE.

Linda Berg will do selection of PPE with the assistance of the Assistant Director and/or Director. The Laboratory Safety catalogue will be available for ordering in the District Office.

Never will PPE be denied, limited or said to be not available due to departmental budgets.

It is the responsibility of Linda Berg (with the aid of a consultant) to reassess the workplace hazard situation as necessary, to identify and evaluate new equipment and processes, to review accident records, and reevaluate the suitability of previously selected PPE. This reassessment will be ongoing.

Elements, which should be considered in the reassessment, include:

- Adequacy of PPE program
- Accidents and illness experience
- Levels of exposure (this implies appropriate exposure monitoring if needed)
- Adequacy of equipment selection
- Number of person hours that workers wear various protective ensembles
- Adequacy of training/fitting of PPE
- Program costs
- Recommendation for program improvement and modification
- Coordination with overall safety and health program

Employee Training

Annual training is required to use personal protective equipment. Training will be accomplished using SafeSchools Online Learning. Training includes:

- When PPE is necessary
- What PPE is necessary
- How to wear assigned PPE
- Limitations of PPE

- The proper care, maintenance, useful life, and disposal of assigned PPE

Employees must demonstrate an understanding of the training and the ability to use the PPE properly before they are allowed to perform work requiring the use of the equipment.

Employees are prohibited from performing work without donning appropriate PPE to protect them from the hazards they will encounter in the course of that work. Supervisors are responsible to see that employees wear their PPE.

If the Assistant Director and/or Director has reason to believe an employee does not have the understanding or skill required, the employee must be retrained. Circumstances where retraining may be required include changes in the workplace, changes in the types of PPE to be used that would render previous training obsolete, and inadequacies in an affected employee's knowledge or use of the assigned PPE that indicates the employee has not retained the necessary understanding or skills.

The trainer certifies in writing that the employee has received and understands the PPE training. Annual training records will be kept on file in the Health and Safety Office, located in the District Office.

Because failure to comply with district guidelines concerning PPE can result in OSHA citations and fines as well as employee injury, an employee who does not comply with this program will be disciplined for insubordination according to their contract.

Cleaning and Maintenance

It is important that all PPE be kept clean and properly maintained by the employee to whom it is assigned. Cleaning is particularly important for eye and face protection where dirty or fogged lenses could impair vision. PPE is to be inspected, cleaned, and maintained by employees at regular intervals as part of their normal job duties so that the PPE provides the requisite protection. Instructors and the lead Custodian are responsible for ensuring compliance with cleaning responsibilities by employees. If a piece of PPE is in need of repair or replacement, it is the responsibility of the employee to bring it to the immediate attention of their supervisor. It is against work rules to use PPE that is in disrepair or not able to perform its intended function. Contaminated PPE, which cannot be decontaminated, is disposed of in a manner that protects employees from exposure to hazards.

PPE Specific Information

Body Protection - Aprons, Lab Coats, Chaps, Jackets, Smocks

It is the policy of the district as a condition of employment, all regular, full time, part time, and temporary employees working in a designated work area and/or job assignment are required to wear aprons, lab coats, chaps or jackets to help prevent injury to the body resulting from chemicals, light radiation, flying particles, for example. LOCKOUT/TAG-OUT ENERGY CONTROL

WRITTEN PLAN

Intermediate School District 917

July 2016

Purpose

This procedure establishes the minimum requirements for controlling hazardous energy whenever maintenance or repair is done on machinery at our sites. It is used to ensure that the machine or equipment is stopped, isolated from all potentially hazardous energy sources and locked out before employees perform any servicing or maintenance where the unexpected energization or start-up of the machine or equipment or release of stored energy could cause injury.

Authorized and Affected Employees

Authorized employees subject to the requirements of this program and to be trained on their duties within it include all staff from the following programs: Alliance Education Center, Food Industry Careers, Fundamental Chef Training, Construction Trades, Heavy Duty Truck Technology, Vehicle Services, Graphic Communications, Special Education Employment Training Laboratory, Health and Safety.

Machinery and Equipment

The machinery and equipment in this facility that falls under the Control of Hazardous Energy Standard includes the following: Any equipment which is hard wired (not cord/plug operated) including: univents, exhaust and circulating fans at Alliance Education Center, garbage disposals, refrigerators, all lights at Alliance Education Center, and automatic garage doors.

Lockout is the preferred method of isolating machines or equipment from energy sources. Tag-out is to be performed instead of lockout only when there is no way to lockout a machine.

Lockout/Tag-out Procedures

Affected employees are notified verbally when their machine is to be locked out by the authorized employee who will be performing the lockout.

The machinery and equipment listed above follows these shutdown, isolation, blocking and securing procedures for lockout/tag-out:

- 1) The authorized employee shall determine the type and magnitude of the energy that the machine or equipment utilizes, shall understand the hazards of the energy and shall know the methods to control the energy.
- 2) If the machine or equipment is operating, shut it down by the normal stopping procedure (depress the stop button, open switch, close valve, etc.)
- 3) Deactivate the energy isolating device(s) so that the machine or equipment is isolated from the energy source(s).
- 4) Lock out the energy isolating device(s) with assigned individual lock(s.)
- 5) Stored or residual energy (such as that in capacitor, springs, elevated machine members, rotating flywheels, hydraulic systems, and air, gas, steam, or water pressure, etc.) must be dissipated or restrained by methods such as grounding, repositioning, blocking, bleeding down, etc.
- 6) Ensure that equipment is disconnected from the energy source(s) by first checking that no personnel are exposed, then verify the isolation of the equipment by operating the push button or other normal operating control(s) or by testing to make certain the equipment will not operate. Then return the operating control(s) to neutral or “off” position after verifying the isolation of the equipment.

The machinery and equipment listed above follows these lockout removal and restart procedures:

Check the machine or equipment and the immediate area around the machine to ensure that non-essential items have been removed and that the machine or equipment components are operationally intact.

- 1) Check the work area to ensure that all employees have been safely positioned or removed from the area.
- 2) Verify the controls are neutral.
- 3) Remove the lockout devices and re-energize the machine or equipment.
- 4) Notify affected employees that the servicing or maintenance is completed and the machine or equipment is ready for use.

Written procedures for equipment with multiple energy sources, such as soil or gas space heaters, will be kept in the area where the equipment is located.

Lockout/Tag-out equipment will be the responsibility of Scott Zehnder, Lead Custodian, and individual instructors. Lockout/Tag-out equipment will be kept in a box in the Custodial office at Alliance Education Center and in the DCALS Office such that the equipment is accessible. Equipment including: tags, locks, chain and breaker locks will be ordered from the Health and

Safety Coordinator in the District Administration Office.

Periodic Inspection

A periodic inspection is done, looking at the energy control procedures performed to ensure that the procedure and requirements of the standard are being followed. This inspection is performed by a consultant.

Administrative Duties

Superintendent John Christiansen has overall responsibility for coordinating safety and health programs in this district. He is the person having overall responsibility for the Lockout/Tag-out Program. John Christiansen will review and update the program, as necessary. Copies of the written program may be obtained from Linda Berg in the District Administration Office located in Dakota County Technical College.

Discipline

Employees who do not use Lockout/Tag-out to control energy will be considered insubordinate and disciplined according to their contract.

Training and Certification

Annual training will be provided by SafeSchools Online Training to authorized employees. Annual review to certify that building employees are able to perform lockout/tag-out will be done by Scott Zehnder and Eric VanBrocklin.

Outside Contractors

Outside contractors who work on equipment or machinery in the buildings will be shown this plan, prior to doing any work where lockout/tag-out is required. Outside contractors shall use lockout/tag-out whenever the unexpected energization, start up, or release of stored energy could injure. The outside contractor will be responsible for informing affected employees when they plan to use lockout/tag-out. Outside contractors shall provide their own lockout/tag-out equipment.

EMPLOYEE RIGHT TO KNOW

WRITTEN PLAN

Intermediate School District 917

July 2016

Intermediate School District 917 is complying with the requirements of OSHA's Employee Right to Know Standard 5205.0100 to 5202.1200 by ensuring that employees are aware of the dangers associated with hazardous substances, harmful physical agents or infectious agents they may be exposed to in their workplaces.

Written Plan

This plan applies to all work activities in our district where employees may be exposed to hazardous substances or harmful physical agents under normal working conditions or during an emergency situation.

Linda Berg is responsible for this plan. Linda Berg will review and update the plan annually. Copies of the written plan may be obtained from Linda Berg in District Administration.

All employees can obtain further information on this written plan, the Employee Right to Know standard, applicable SDS, and chemical information lists from Linda Berg in the District Administration Office. Under this plan, our employees will be informed of the contents of the Employee Right to Know Standard, the hazardous properties of chemicals with which they work, safe handling procedures, and measures to take to protect themselves from these chemicals. They will also be informed about any exposure to harmful physical hazards: heat, noise or radiation.

If after reading this plan you find that improvements can be made, please contact Linda Berg at 651-423-8214. We encourage all suggestions because we are committed to the success of our written Employee Right to Know plan. We strive for clear understanding, safe behavior, and involvement in the program from every level of the district.

Hazard Evaluation Procedures

Our chemical inventory is a list of hazardous chemicals known to be present in our work place. Anyone who comes into contact with the hazardous chemicals on the list needs to know what those chemicals are and how to protect themselves. That is why it is so important that hazardous chemicals are identified, whether they are found in a container or generated in work operations (for example, welding fumes, dusts, and exhaust fumes). The hazardous chemicals on the list can cover a variety of physical forms including liquids, solids, gases, vapors, fumes, and mists.

Barb Schmitz, Buyer, will request an SDS sheet be sent with every chemical order. Barb will then give the SDS sheet to Linda and the person ordering the chemical. Linda Berg will maintain an inventory of hazardous chemicals and SDS sheets. **All staff who order or purchase chemicals or use a blanket purchase order are responsible to request an SDS sheet and furnish a copy to Linda Berg, Health and Safety Coordinator.**

No chemicals may be brought in from home.

Harmful physical agents and where they are present in this work place include:

- Excess Noise – See the Hearing Conservation Plan
- Excess Heat – Heavy duty truck, TESA kitchen, TESA shop, construction, fundamental chef and food industry careers
- Radiation – no known radiation source.

Safety Data Sheet (SDS)

The SDS is a fact sheet for chemicals that pose a physical or health hazard in the workplace. SDS provides our employees with specific information on the chemicals they use.

The material safety data sheets are kept at the following location(s) in our district:

- District Administration Office
- Department that the chemical is being used in
- Nurse or emergency personnel at Dakota County Technical College

The SDS sheets are in alphabetical order by trade name in a designated ring binder.

Employees can obtain access to a SDS at any time by opening the yellow ring binders labeled “Material Safety Data Sheets” located in the areas listed above.

Contractors working on-site will provide SDS for products being used to the building custodial department before work begins. This will be required of all contractors by the contract or purchase order.

An online SDS system using SafeSchools will be implemented within the next two years to be in compliance by June of 2016. This will eliminate all hard copies and SDS sheets will be available online only.

Labels and Other Forms of Warning

All chemicals in the district must be labeled. If chemicals are purchased through normal channels, the chemicals will come with a label. If a chemical is not labeled by the manufacturer

or vendor, then the user will put a label on the product. If chemicals are taken out of the shipping container and placed in other containers (such as wood glue being put into small plastic bottles) then the secondary use containers must be labeled.

Labels list at least the chemical identity and the appropriate hazard warnings. The chemical identity is found on the label, the SDS, and the chemical inventory. The chemical identity used by the supplier may be a common or trade name, or a chemical name. The hazard warning is a brief statement of the hazardous effects of the chemical (i.e., "flammable," or "causes lung damage"). Labels frequently contain other information, such as precautionary measures (i.e., "do not use near open flame"), but this information is provided voluntarily by the district and is not required by the law. Our labels are legible and prominently displayed, though their sizes and colors can vary.

The user of the chemical is responsible for ensuring that all hazardous chemicals are properly labeled.

If employees transfer chemicals from a labeled container to a portable container that is intended only for their IMMEDIATE use, no labels are required on the portable container.

A poster is displayed to inform employees about the hazard communication standard. It is located on the bulletin board near shops, labs and classrooms where hazards may exist.

Warning labels will be posted where harmful physical agents are at a level which may be expected to exceed the action level.

Training

Everyone who works with or is potentially "exposed" to hazardous chemicals will receive initial training and annual retraining on the Employee Right to Know Standard, the safe use of hazardous chemicals, and the hazards of physical agents. This training will be completed annually through the online Hazardous Communications course in SafeSchools Online Learning. "Exposure" means that "an employee is subjected to a hazardous chemical in the course of employment through any route of entry (inhalation, ingestion, skin contact or absorption, etc.) and includes potential (e.g., accidental or possible) exposure."

Information and training is a critical part of the Employee Right to Know program. We train our employees to read and understand the information on labels and SDS, understand the risks of exposure to the chemicals and physical hazards in their work areas and the ways to protect themselves. The employees who receive training include those from the following programs: Alliance Education Center, Food Industry Careers; Fundamental Chef Training; Construction Trades; Heavy Duty Truck Technology; Vehicle Services; Graphic Communications; and Health and Safety.

The Personnel Department provides initial employee right to know training for all employees hired. This training is done through SafeSchools, an online course, and is shown to all employees before they begin to work. Records of this training are kept in the Health and Safety files in the District Administration Office.

The Assistant Directors, designated instructors or outside consultants will provide annual training. Records of annual training are kept on file in the District's Health and Safety files in the District Administration Office.

Our goal is to ensure employee comprehension and understanding, including their being aware that they are exposed to hazardous chemicals and physical agents, knowing how to read and use labels and SDS, and appropriately following the protective measures we have established. We instruct our employees to ask their supervisors any questions regarding hazardous material or any other safety issue. As part of the assessment of the training program, we seek input from employees regarding the training they have received, and their suggestions for improving it.

Training Content

Training content is organized according to the hazards to which the employees are exposed. The format of the training program used is either group training, hands-on training or one-on-one training.

The training plan emphasizes these elements:

- Summary of the standard and this written program, including what hazardous chemicals are present, the labeling system used, and access to SDS information and what it means.
- Chemical and physical properties of hazardous materials (e.g., flash point, reactivity) and methods that can be used to detect the presence of chemicals.
- Physical hazards of chemicals (e.g., potential for fire, explosion, etc.).
- Health hazards, including signs and symptoms of exposure, associated with exposure to chemicals and any medical condition known to be aggravated by exposure to the chemical.
- Harmful physical agents, the level of exposure, effects, symptoms and emergency treatment.
- Procedures to protect against hazards (e.g., engineering controls; work practices or methods to assure proper use and handling of chemicals; personal protective equipment required, and its proper use, and maintenance; and procedures for reporting chemical emergencies).

Contractors

When contractors or any other employers' workers (i.e., painters, electricians, or plumbers) will be working at this work place, the contractor will:

- Provide the custodial department with SDS for any of the chemicals brought onto our site

- Relay verbally to the Assistant Director any information relating to possible emergencies that may arise or possible exposures to district employees

At Alliance Education Center, contractors must contact Scott Zehnder and also Sara Pratt, Assistant Director (651-423-8100).

At Dakota County Technical College, contractors must contact Paul DeMuth, Director of Operations (651-423-8370).

Additional Information

All employees, or their designated representatives, can obtain further information on this written program, the Right to Know Law, applicable SDS, harmful physical agents and chemical information lists by contacting Linda Berg at 651-423-8214.

CONFINED SPACE ENTRY

WRITTEN PLAN

Intermediate School District 917

July 2016

General District Policy

The purpose of this program is to inform interested persons, including employees, that I.S.D. 917 is complying with the OSHA Confined Space Standard, Title 29 Code of Federal Regulations 1910.146. We have determined that this workplace needs written procedures for the evaluation of confined spaces, and where permit-required spaces are identified, we have developed and implemented a permit-required confined space entry program. This program applies to all work operations at I.S.D. 917 where employees must enter a confined space as part of their job duties.

Superintendent John Christiansen has overall responsibility for coordinating safety and health programs in this district and is the person having overall responsibility for the Confined Space Entry Program. This program will be reviewed and updated as necessary.

Copies of the written program may be obtained from Linda Berg, Health and Safety Coordinator, District Office, at 651-423-8214.

Under this program, we identify non-permit and permit- required spaces in I.S.D. 917, and provide training for our employees according to their responsibilities in these spaces. These employees receive instructions for safe entry into our specific type of confined spaces, including testing and monitoring, appropriate personal protective equipment, rescue procedures, and attendant responsibilities.

This program is designed to ensure that safe work practices are utilized during all activities regarding the confined spaces to prevent personal injuries and illnesses that could occur.

If, after reading this program, you find that improvements can be made, please contact Linda Berg at 651-423-8214. We encourage all suggestions because we are committed to creating a safe workplace for all our employees and a safe and effective confined space entry program is an important component of our overall safety plan. We strive for clear understanding, safe work practices, and involvement in the program from every level of the district.

Hazard Evaluation for Permit Spaces

To determine if there are permit-required confined spaces in I.S.D. 917 a review of the spaces was conducted. Information was provided by District 917 employees regarding the location of and hazards of the confined spaces. This evaluation has provided ISD 917 employees with the information necessary for the classification of the confined spaces throughout the district. This written hazard evaluation is kept in the Health and Safety files located in the district office. The confined spaces in our district have been classified.

Class 1 Spaces – No permit required. No known toxic gas, no engulfment potential and are naturally ventilated upon opening dampers, doors, etc.

Class 1 spaces include: (Alliance Education Center)

HVAC Duct Work
Plumbing Access Areas
Air Conditioning Units

Pre-Entry procedures for Class 1 spaces:

- 1) Assure that a sign, which indicates that this space is a confined space, is posted at all the entrances to the space.
- 2) Only persons who have been trained on confined spaces can enter.
- 3) These spaces will be opened to allow for natural ventilation before and during the entry.
- 4) Lockout/tagout shall be applied before entry occurs.
- 5) Air monitoring is not required.
- 6) No written permit is required however the use of the attached checklist is recommended.
- 7) Notify another employee regarding entry, however no attendant is required.

Entry procedures for Class 1 spaces:

- 1) Ensure space is ventilated during the entry.

Class 2 Spaces – No permit required. No known toxic gas, no engulfment potential and the primary concern is adequate ventilation. These spaces have defined walls and can be effectively ventilated with a mechanically powered ventilator.

Class 2 Spaces include: (Alliance Education Center)

(Boiler Room Sumps)

Pre-Entry procedures for Class 2 spaces:

- 1) Assure that a sign, which indicates that this space is a confined space, is posted at all the entrances to the space.
- 2) Only persons who have been trained on confined spaces can enter.
- 3) Before beginning work isolate the space using barricades, cones, ribbon, etc. to prevent unauthorized persons from entering the area around the space or the space.
- 4) These spaces will be ventilated with a powered blower initially for the time period necessary to replace the volume of the confined space a minimum of five times prior to entry.
- 5) Lockout/tagout shall be applied before entry occurs.
- 6) Air monitoring is not required.
- 7) No permit is required however the use of the attached checklist is recommended.
- 8) Notify another employee regarding the entry, however no attendant is required.

Entry Procedures for Class 2 spaces:

- 1) Continue this ventilation at a minimum rate of 200 cfm per worker inside the space.

Class 3 Spaces –No permit required. These confined spaces are the pipe chase tunnels. These spaces are all below grade and are naturally ventilated. Some have dirt or rock floors, some have concrete floors, they open to the boiler room, have pipes running throughout, and have access hatches or openings in various locations. On occasion a tunnel has steam leaking into the tunnels necessitating repairs. These confined spaces have the potential for oxygen deficiency. They can not be manually ventilated due to their size and shape.

Class 3 Spaces include: (none)

Class 4 spaces include:

(Any confined space with sewage or the odor of sewage--dock storm drains)

There are no Class 4 spaces at Alliance Education Center.

Work Tasks Performed in a Confined Space

The work activities authorized employees are expected to perform in district confined spaces include:

- 1) Cleaning
- 2) Maintenance
- 3) Surveillance

District employees may not weld or use hazardous materials in a confined space.

Preventing Unauthorized Entry

To provide a safe work environment and to prevent exposed employees from accidentally entering a permit space, we have implemented the following procedures to inform all employees of the existence, location, and danger posed by confined spaces in I.S.D. 917. To inform employees of the existence of a permit space, we post every entrance to a confined space. This signage indicates that unauthorized employees are not to enter. Employees who work in areas where confined spaces are accessible are trained on the existence of confined spaces.

Pre-Entry Non-Permit Confined Space Evaluation

To ensure the safety and health of our employees a Pre-Entry Checklist is available for use with Class 1, 2 and 3 spaces before entry. Use of this checklist is optional.

Equipment

To ensure the safety and health of our employees, I.S.D. 917 will provide a torpedo mechanical fan for entry into Class 2 spaces. We maintain all equipment in excellent working condition, train the entrants in the correct usage of this equipment, and ensure that all equipment, including that used for personal protection, is used properly.

Duties: Authorized Entrants

Only persons who have completed confined space entry training are authorized to enter our spaces. The elements covered in the training program for authorized entrants include:

- 1) Recognition of confined spaces
- 2) Understanding that only trained employees may enter
- 3) Proper procedures for entry into Class 1 and spaces
- 4) Use of equipment
- 5) Knowledge of Pre-Entry Checklist

These are the employees who have current authorization to work in our Class 1 confined spaces:

- 1) Lead Custodian

These are the employees who have current authorization to work in our Class 2 confined spaces:

- 1) Lead Custodian

Duties: Attendants

Those persons who have completed the training and have been designated as confined space attendants are assigned specific duties and responsibilities, which they must perform in confined space, job duties.

Lead Custodian duties and responsibilities include:

- 1) Maintain voice communications with employee in the confined space
- 2) Be able to access an emergency response team

Duties: Entry Supervisors

Only Scott Zehnder, who has completed the training, is designated as confined space entry custodian and is assigned specific duties and responsibilities which must be performed in confined space job duties. Those duties and responsibilities include:

- 1) Posting the entrances of all confined spaces
- 2) Ensuring that Pre-entry and Entry procedures are followed by I.S.D. 917 Employees
- 3) Providing a copy of the Confined Space Entry Program to vendors prior to their entering any confined space.

Training Program

Every employee at I.S.D. 917 who faces the risk of confined space entry is provided with training so that each designated employee acquires the understanding, knowledge and skills necessary for the safe performance of the duties assigned to them. This can be done using the SafeSchools Online Training. All training related materials and documents are kept in the Alliance Education Center office and in the Health and Safety files located in the District office.

When we conduct the training, we use a variety of materials and methods. New employees are always trained before their initial assignment of duties. When changes occur in permit-required confined space areas of our district, we notify custodians in the building. If we have reason to believe that an employee has deviated from a previously trained upon procedure or that their knowledge seems inadequate, discipline procedures for insubordination as outlined in the contract may be used.

Rescue and Emergency Services

I.S.D. 917 utilizes local public emergency personnel to perform rescue and emergency services in the event of a permit space incident. To familiarize this service with our facility and emergency needs, we provide access to all permit spaces from which rescue may be necessary so the rescue team can develop appropriate rescue plans and practice rescue operations. We also send a copy of this plan to the Rosemount fire department.

Multiple Employer Entry Procedures

When vendors/outside employers/contractors enter our facility to perform work in confined spaces, we coordinate entry and work operations following these procedures:

- 1) The Lead Custodian provides contractors with a copy of the Confined Space Entry Written Program.
- 2) The Lead Custodian informs the contractor that they are to follow appropriate safety procedures.
- 3) The Lead Custodian informs outside personnel of any expected hazards.
- 4) The Lead Custodian retains a copy of any Pre-Entry Checklists or Permits completed by the contractor.
- 5) The Lead Custodian will debrief the people entering to ascertain if there was any change in conditions confronted in the space and report these changes to the Health and Safety Coordinator.

Post-operations Procedures

Upon completion of work in a confined space, we follow these procedures to close-off the space.

- 1) Barricades are removed.
- 2) Any hatches or doors are closed.
- 3) The Pre-Entry checklist is filed.

Review-Procedures

To ensure that all employees participating in entry operations are protected from confined space hazards; I.S.D. 917 reviews the Confined Space Entry Program on a regular basis. I.S.D. 917 performs a single annual review covering all entries performed during a 12-month period. If no entry is performed during a 12-month period, no review will be performed.

Enforcement

Constant awareness of and respect for confined space entry hazards, and compliance with all safety rules is considered conditions of employment. Supervisors reserve the right to issue disciplinary warnings to employees and to act as detailed in the contract.

RESPIRATORY PROTECTION

WRITTEN PLAN

Intermediate School District 917

July 2016

This Respiratory Protection Plan specifies standard operating procedures to protect all employees from respiratory hazards, according to the requirements of 29 CFR 1910.134. At Intermediate School District 917, respirators are not required but can be used by employees on a voluntary basis. Employees who voluntarily determine that they wish to use a respirator shall be responsible for the storage, maintenance, and cleanliness of the respirator. Procurement, consumables, and replacement parts shall be funded by the District.

Administrative Duties

At Intermediate School District 917 our Respiratory Protection Program Administrator is Linda Berg, the Health and Safety Coordinator. This person is solely responsible for all facets of the plan and has full authority to make necessary decisions to ensure success of this plan.

Employees may review a copy of this Respiratory Protection Plan. It is located in the District Office. We review this plan periodically to ensure its effectiveness.

Respiratory Hazards

A review of potential respiratory hazards indicates that employees may be exposed to mold, soot, solvents, welding fumes and dust. These exposures are below the permissible exposure limit. However, for comfort, employees may choose to wear a respirator.

Respirator Selection

Respirators are selected on the basis of respiratory hazards to which the worker is exposed and workplace and user factors that affect respirator performance and reliability.

Our district's selection procedures include:

Selection Procedure Checklist

When selecting any respirator in general:

- Select and provide respirators based on respiratory hazard(s) to which a worker is exposed and workplace and user factors that affect respirator performance and reliability.
- Select a NIOSH-certified respirator. (NIOSH stands for the National Institute for Occupational Safety and Health)

- Select respirators from a sufficient number of respirator models and sizes so that the respirator is acceptable to, and fits the user.

When selecting respirators for atmospheres that are not IDLH (Immediately Dangerous to Life or Health):

- Provide a respirator that is adequate to protect the health of the employee and ensure compliance with all other OSHA statutory and regulatory requirements, under routine and reasonably foreseeable emergency situations.
- Select respirators appropriate for the chemical state and physical form of the contaminant.

For protection against gases and vapors, provide:

- An atmosphere-supplying respirator, or
- An air-purifying respirator, provided that: (1) The respirator is equipped with an end-of-service-life indicator (ESLI) certified by NIOSH for the contaminant; or (2) If there is no ESLI appropriate for conditions in our workplace, implement a change schedule for canisters and cartridges that is based on objective information or data that will ensure that canisters and cartridges are changed before the end of their service life. Describe in the respirator program the information and data relied upon and the basis for the canister and cartridge change schedule and the basis for reliance on the data.

For protection against particulates, provide:

- An atmosphere-supplying respirator; or
- An air-purifying respirator equipped with a filter certified by NIOSH under 30 CFR part 11 as a high efficiency particulate air (HEPA) filter, or an air-purifying respirator equipped with a filter certified for particulates by NIOSH under 42 CFR 84; or
- For contaminants consisting primarily of particles with mass median aerodynamic diameters (MMAD) of at least 2 micrometers, an air-purifying respirator equipped with any filter certified for particulates by NIOSH.

Respirator Types and Uses

- Half-mask canister respirator for boiler cleaning, removing mold, welding, painting, dust, and solvents
- A 2 strap paper dust mask for dust or mold

The following types of respirators are in use in this facility for the following uses:

Only NIOSH-certified respirators are selected and used. The respirators will be assigned to individual workers for their exclusive and voluntary use.

Medical Evaluations

A medical evaluation for respirator use is not provided to employees by Intermediate School District 917 since the employees are wearing the respirator on a voluntary basis. However, a medical evaluation to determine whether an employee is able to use a given respirator is an important element and recommended to prevent injuries, illnesses, and even, in rare cases, death from the physiological burden imposed by respirator use. A medical evaluation will determine if an employee is physically able to perform the work and use the respirator. Please see 29 CFR 1910.134 for information regarding the recommended medical evaluation. Respirator medical evaluations will be the employee's responsibility and at the employee's expense.

Fit Testing Procedures

Fit testing is not provided since this is a voluntary respirator program.

Proper Use Procedures

Once the respirator has been properly selected and fitted, its protection efficiency must be maintained by proper use in accordance with 29 CFR 1910.134(g).

Our district uses the following recommendations for employees who wear respirators:

Face piece Seal Protection

Do not permit respirators with tight-fitting face pieces to be worn by employees who have:

- Facial hair that comes between the sealing surface of the face piece and the face or that interferes with valve function; or
- Any condition that interferes with the face-to-face piece seal or valve function.

If an employee wears corrective glasses or goggles or other personal protective equipment, ensure that such equipment is worn in a manner that does not interfere with the seal of the face piece to the face of the user.

For all tight-fitting respirators, ensure that employees perform a user seal check each time they put on the respirator using the procedures in 29 CFR 1910.134 Appendix B-1 (User Seal Check Procedures) or procedures recommended by the respirator manufacturer that you could demonstrate are as effective as those in Appendix B-1.

Maintenance and Care Procedures

In order to ensure continuing protection from respiratory protective devices, it is necessary to establish and implement proper maintenance and care procedures and schedules. A lax attitude toward maintenance and care will negate successful selection and fit because the devices will not

deliver the assumed protection unless they are kept in good working order.

Cleaning & disinfecting

Our district provides each respirator user with a respirator that is clean, sanitary, and in good working order. Respirator users are responsible to ensure that respirators are cleaned and disinfected using the procedures below:

- In Appendix B-2 of 29 CFR 1910.134.
- Recommended by the respirator manufacturer.

The respirators are cleaned and disinfected at the following intervals:

Respirator type:	Are cleaned and disinfected at the following interval:
Issued for the exclusive use of an employee	As often as necessary to be maintained in a sanitary condition

Storage

Storage of respirators must be done properly to ensure that the equipment is protected and not subject to environmental conditions that may cause deterioration. Respirator users are responsible for ensuring that respirators are stored to protect them from damage, contamination, dust, sunlight, extreme temperatures, excessive moisture, and damaging chemicals to prevent deformation of the face piece and exhalation valve.

Inspection

In order to assure the continued reliability of respirator equipment, it must be inspected by the user on a regular basis. The frequency of inspection is related to the frequency of use. Frequencies for inspection:

Respirator type:	Inspected at the following frequencies:
All types used in routine situations	Before each use and during cleaning

Respirator inspections include a check:

- For respirator function, tightness of connections, and the condition of the various parts including, but not limited to, the face piece, head straps, valves, connecting tube, and cartridges, canisters or filters; and
- Of elastomeric parts for pliability and signs of deterioration.

Repairs

Respirators that fail an inspection or are otherwise found to be defective are removed from service, and are discarded or repaired or adjusted by the district in accordance with the following procedures:

- Repairs or adjustments to respirators are to be made only by persons appropriately trained to perform such operations and only with the respirator manufacturer's NIOSH-approved parts designed for the respirator;
- Repairs must be made according to the manufacturer's recommendations and specifications for the type and extent of repairs to be performed; and
- Reducing and admission valves, regulators, and alarms must be adjusted or repaired only by the manufacturer or a technician trained by the manufacturer.

Discarding of respirators

Respirators that fail an inspection or are otherwise not fit for use and cannot be repaired must be discarded and will be replaced by the District.

Air Quality Procedure

Filters, Cartridges, and Canisters:

Ensure that all filters, cartridges and canisters used in the workplace are labeled and color-coded with the NIOSH approval label and that the label is not removed and remains legible.

Training

No training is required since this is a voluntary respirator program. Employees are provided with a copy of Appendix D of the standard. Employees are also periodically informed regarding:

- Respiratory hazards to which our employees are potentially exposed during routine and emergency situations, and
- Proper use of respirators, including putting on and removing them, any limitations on their use, and their maintenance.
- Providing the employee with a copy of Appendix D to 1910.134:

Information for employees using respirators when not required under the standard

Respirators are an effective method of protection against designated hazards when properly selected and worn. Respirator use is encouraged, even when exposures are below the exposure limit, to provide an additional level of comfort and protection for workers. However, if a respirator is used improperly or not kept clean, the respirator itself can become a hazard to the worker. Sometimes, workers may wear respirators to avoid exposures to hazards, even if the amount of hazardous substance does not exceed the limits set by OSHA standards. If your employer provides respirators for your voluntary use, or if you provide your own respirator, you need to take certain precautions to be sure that the respirator itself does not present a hazard.

You should do the following:

- Read and heed all instructions provided by the manufacturer on use, maintenance, cleaning and care, and warnings regarding the respirators limitations.
- Choose respirators certified for use to protect against the contaminant of concern. NIOSH, the National Institute for Occupational Safety and Health of the U.S. Department of Health and Human Services, certifies respirators. A label or statement of certification should appear on the respirator or respirator packaging. It will tell you what the respirator is designed for and how much it will protect you.
- Do not wear your respirator into atmospheres containing contaminants for which your respirator is not designed to protect against. For example, a respirator designed to filter dust particles will not protect you against gases, vapors, or very small solid particles of fumes or smoke.
- Keep track of your respirator so that you do not mistakenly use someone else's respirator.

Questions

If an employee has questions or concerns regarding respirator use they are to contact Linda Berg, Health and Safety Coordinator at 651-423-8214.

Appendix B-1 to § 1910.134: User Seal Check Procedures (Mandatory)

The individual who uses a tight-fitting respirator is to perform a user seal check to ensure that an adequate seal is achieved each time the respirator is put on. Either the positive and negative pressure checks listed in this appendix, or the respirator manufacturer's recommended user seal check method shall be used. User seal checks are not substitutes for qualitative or quantitative fit tests.

I. Facepiece Positive and/or Negative Pressure Checks

- A. *Positive pressure check.* Close off the exhalation valve and exhale gently into the facepiece. The face fit is considered satisfactory if a slight positive pressure can be built up inside the facepiece without any evidence of outward leakage of air at the seal. For most respirators this method of leak testing requires the wearer to first remove the exhalation valve cover before closing off the exhalation valve and then carefully replacing it after the test.
- B. *Negative pressure check.* Close off the inlet opening of the canister or cartridge(s) by covering with the palm of the hand(s) or by replacing the filter seal(s), inhale gently so that the facepiece collapses slightly, and hold the breath for ten seconds. The design of the inlet opening of some cartridges cannot be effectively covered with the palm of the hand. The test can be performed by covering the inlet opening of the cartridge with a thin latex or nitrile glove. If the facepiece remains in its slightly collapsed condition and no inward leakage of air is detected, the tightness of the respirator is considered satisfactory.

II. Manufacturer's Recommended User Seal Check Procedures

The respirator manufacturer's recommended procedures for performing a user seal check may be used instead of the positive and/or negative pressure check procedures provided that the employer demonstrates that the manufacturer's procedures are equally effective.

Appendix B-2 to § 1910.134: Respirator Cleaning Procedures (Mandatory)

These procedures are provided for employer use when cleaning respirators. They are general in nature, and the employer as an alternative may use the cleaning recommendations provided by the manufacturer of the respirators used by their employees, provided such procedures are as effective as those listed here in Appendix B- 2. Equivalent effectiveness simply means that the procedures used must accomplish the objectives set forth in Appendix B-2, i.e., must ensure that the respirator is properly cleaned and disinfected in a manner that prevents damage to the respirator and does not cause harm to the user.

I. Procedures for Cleaning Respirators

- A. Remove filters, cartridges, or canisters. Disassemble facepieces by removing speaking diaphragms, demand and pressure- demand valve assemblies, hoses, or any components recommended by the manufacturer. Discard or repair any defective parts.
- B. Wash components in warm (43 deg. C [110 deg. F] maximum) water with a mild detergent or with a cleaner recommended by the manufacturer. A stiff bristle (not wire) brush may be used to facilitate the removal of dirt.
- C. Rinse components thoroughly in clean, warm (43 deg. C [110 deg. F] maximum), preferably running water. Drain.
- D. When the cleaner used does not contain a disinfecting agent, respirator components should be immersed for two minutes in one of the following:
 - 1. Hypochlorite solution (50 ppm of chlorine) made by adding approximately one milliliter of laundry bleach to one liter of water at 43 deg. C (110 deg. F); or,
 - 2. Aqueous solution of iodine (50 ppm iodine) made by adding approximately 0.8 milliliters of tincture of iodine (6-8 grams ammonium and/or potassium iodide/100 cc of 45% alcohol) to one liter of water at 43 deg. C (110 deg. F); or,
 - 3. Other commercially available cleansers of equivalent disinfectant quality when used as directed, if their use is recommended or approved by the respirator manufacturer.
- E. Rinse components thoroughly in clean, warm (43 deg. C [110 deg. F] maximum), preferably running water. Drain. The importance of thorough rinsing cannot be overemphasized. Detergents or disinfectants that dry on facepieces may result in dermatitis. In addition, some disinfectants may cause deterioration of rubber or corrosion of metal parts if not completely removed.
- F. Components should be hand-dried with a clean lint-free cloth or air-dried.
- G. Reassemble facepiece, replacing filters, cartridges, and canisters where necessary.
- H. Test the respirator to ensure that all components work properly.

HEARING CONSERVATION

WRITTEN PLAN

Intermediate School District 917

July 2016

Administration

It is the policy of this District to institute an occupational hearing conservation program for our workers to prevent any temporary or permanent noise-induced hearing loss to employees, and to comply with the federal OSHA standard found at 29 CFR 1926.52.

This written hearing conservation plan serves as a record of the details of the hearing conservation program in place in the District. We have this program in place to protect the hearing of all workers in the district. Elements of the hearing conservation program include:

- Monitoring,
- Audiometric testing program,
- Hearing Protection,
- Training and Information, and
- Record keeping.

Linda Berg, Health and Safety Coordinator has overall responsibility for coordinating safety and health programs in this district. She is the person having overall responsibility for the Hearing Conservation Program. She will review and update the program, as necessary.

Copies of the written program may be obtained from Linda Berg in the District Office.

Monitoring

The monitoring program is in place to provide an ongoing means of determining employee exposure to noise and protect employees based on excessive exposure.

When information indicates that any employee's exposure may equal or exceed an 8-hour time-weighted average of 85 decibels, the district may develop and implement an appropriate monitoring program to identify employees for inclusion in the hearing conservation program and to select proper hearing protection.

The District notifies employees who were monitored and are exposed at or above an 8-hour time-weighted average of 85 decibels of the results of the monitoring by sending a copy of the monitoring data.

The District provides an opportunity for affected employees or their representatives to observe any noise measurements conducted.

Determination of over exposure to noise has been done by observation of the work sites by a person knowledgeable regarding noise.

Employees Currently Tested to Determine if a Program is Required

Currently employees included in the Hearing Conservation Program include:

- Heavy Duty Truck Teacher
- Diesel Truck Assistant

Audiometric Testing Program

The audiometric testing program is in place and available at no cost to all affected employees to ensure that noise exposures are kept at proper levels.

The program ensures that a valid baseline audiogram is established for exposed employees within one year of hire.

Audiometric testing is repeated annually.

Employees whose worksite is tested: Heavy Duty Truck Teacher and Assistant, and Vehicle Services Occupation Teacher and Assistant.

The District determines if standard threshold shift has occurred by reviewing data received by the District from the vendor providing the audiometric testing. Employees that experience a threshold shift in hearing are sent a letter by the District, which offers them a repeat test, a review of current hearing protection and other items as deemed appropriate.

Hearing Protection

The district makes hearing protectors available to any employees exposed to an 8-hour time-weighted average of 85 decibels or greater at no cost to the employees. Previous testing indicates that no employees are being exposed to standard threshold exceeding 85 decibels. Employees will contact the Safety Coordinator to order the proper hearing protection if the employee wants to wear protection even though not required.

Supervisors ensure use of available hearing protection.

The District ensures that employees have a variety of suitable protectors that attenuate (lower) employee exposure at least to an 8-hour time-weighted average of 85 decibels or lower available to them.

The District can obtain a variety of suitable hearing protection for employees found in the Lab

Safety catalogue. The District ensures evaluation for adequacy of the hearing protection attenuation for the specific noise environments in which the protector will be used, according to specifications given in an appendix to the standard. This evaluation will be conducted by the vendor who provides the annual audiometric testing at the same time as the annual audiometric testing.

Customized hearing protection will be investigated if a standard threshold shift in hearing occurs.

Training and Information

The District has a hearing protection-training program in the event that future testing indicates that employees are being exposed to noise at or above an 8-hour time-weighted average of 85 decibels.

The District will ensure employee participation in the hearing protection-training program, if required, by providing the training at the same time as the audiometric testing.

The District makes copies of the standard available to affected employees whenever these are requested from the Safety Coordinator.

The District will repeat the training program annually, if required. The district assures that the training material is updated to be consistent with changes in the protective equipment and work processes.

The District ensures that each affected employee is informed of at least the following information:

- Effects of noise on hearing;
- Purpose of hearing protectors, the advantages, disadvantages, and attenuation of various types, and instructions on selection, fitting, use, and care; and
- Purpose of audiometric testing, and an explanation of test procedures.

The District makes informational materials, pertaining to the Occupational Noise Exposure standard that are supplied to it by OSHA, available to affected employees upon request.

Enforcement

Employees who do not wear their hearing protection in situations requiring such protection when directed to do so will be disciplined for insubordination as per contract language.

Recordkeeping

Recordkeeping is an essential element of the hearing conservation program, since it is the means by which hearing levels are tracked and assessed over a period of years. The District has in place a series of measures to maintain comprehensive and up-to-date records.

The District maintains accurate records of all employee exposure measurements required by the monitoring program of this regulation.

The District maintains accurate records of all employee audiometric test records obtained pursuant to paragraph (g) of 1910.95.

The District retains noise exposure measurement records for two years and audiometric test records for the duration of the affected employee's employment plus 30 years.

The District provides access to records to employees, former employees, and representatives designated by the individual employee, and OSHA, upon request.

In May of 2004, Lee Carlson, Health and Safety Inspector for Inver Grove Heights/South St. Paul Public Schools, checked noise levels with a disometer in the following classrooms:

Vehicle Services – Sound was measured at 68-71 decibels.

Welding - Background noise level was 77 decibels with the blowers on

Heavy Duty Truck – Sound was measured at 66-79 decibels

The employee's exposure must equal or exceed an eight-hour time-weighted average of 85 decibels in order to have a hearing conservation program in place.

AS A RESULT OF THESE SOUND LEVELS, THE HEARING CONSERVATION PROGRAM DOES NOT NEED TO BE IN OPERATION AT THIS TIME. THIS PROGRAM WILL BE KEPT ON FILE FOR FUTURE REFERENCE IF NEEDED.

RE: Terms and Conditions Agreements and Contract Proposals for July 19, 2016, Board meeting

I have been meeting with the following employees, employee groups or unions on their terms and conditions agreement of contracts for 2016-2018. The total package percentage of increase are consistent with our teacher union settlement (8.33%) and range from 7.63% to 8.26%. When the agreement is for one person or a small group like the custodial group with one full-time FTE and three part-time FTE, the dollar differences can cause the percentage differences to seem more significant than in the union groups with 130 FTE. One additional factor to note is the Executive Assistant terms and conditions and PC Technician terms and conditions have no salary step schedule.

The following are the financial changes proposed for the terms and conditions or union contracts.

Subd. 2: An employee may use one (1) day of accumulated sick leave for each day of illness or disability of the employee's child who is less than eighteen (18) years old, for such reasonable periods as the employee's attendance with the child may be necessary, on the same terms the employee is able to use sick leave benefits for the employee's own illness. Subd. 2: A pregnant employee shall notify the superintendent in writing, not later than the end of the sixth month of the pregnancy, and also at such time provide a physician's statement indicating the estimated date of delivery of the child. A male employee or adoptive parent of a preschool child shall make a request for such leave not less than ninety (90) days in advance of usage. The employee shall submit a written request to the superintendent for a child care leave, including

commencement date and return date. A pregnant employee may also use accumulated sick leave for any period of disability, except for the period covered by an unpaid child care leave. The time periods provided herein may be adjusted in cases of emergency.

Subd. 3: The beginning date and duration of such leaves may be adjusted by mutual agreement between the superintendent and the employee.

Subd. 4: The superintendent, after consultation with the employee, shall notify the employee in writing of the effective beginning date of such leave and its duration.

Subd. 1: An employee may be granted absence with pay due to the death of a spouse, child, brother, sister, parent, grandparent, grandchild, or parent-in-law based on the following schedule: 190 to 220 work days – three (3) days per occurrence; 221 to 260 work days – five (5) days per occurrence. Subd. 5: Personal leave must be requested ten (10) duty days in advance of the commencement of the leave. In instances when emergency situations preclude the advance request for leave, the employee shall make the request as soon as practicable and must include the reason for the requested leave and why the ten (10) day notice was not possible. Personal leave will normally only be granted in increments of one full work day(s).

Employees will be expected to report for their regular duties when temporarily excused from attendance at court.

MENTAL HEALTH PRACTITIONER AGREEMENT

The School Board of Intermediate School District 917, Rosemount, Minnesota (School District) enters into this agreement with _____ who agrees to serve in the public schools of said district in the position of Mental Health Practitioner, beginning August 29, 2016. The agreement calls for 185 work days to be scheduled with the Assistant Director for the Therapeutic Education Alternative. This contract will continue through June 9, 2016, or until otherwise amended.

ARTICLE I DEFINITION OF ELIGIBLE EMPLOYEES

These terms and conditions of employment as provided herein, cover those employees of Intermediate School District 917 who are employed as a Mental Health Practitioner. The basic duty year for regularly contracted full time employees, upon which the employee's annual salary is based shall be 187 duty days for first year employees, 186 days for second year employees and 185 for each year thereafter.

ARTICLE II LEAVES OF ABSENCE

Section 1. PTO Leave: Personal Time Off (PTO) is defined as absence used for illness, bereavement, adoption, religious holidays, personal use and paid child care leave. Personal Time Off does not include such absences as jury duty (Section 3), FMLA and unpaid child care leave.

Subd. 1. All full time employees as defined in Article I shall be credited with thirteen (13) days of Personal Time Off (PTO) per contract. The credit shall be made at the beginning of each school year. Part-time and job share employees shall accrue PTO days on a pro-rata basis. If an employee leaves the district having used more PTO days than he/she earned, the District shall reduce the employee's final paycheck for any unearned PTO days on a pro-rata basis.

Subd. 2. At the end of each contract year, unused PTO days will be processed as follows:

- a. Five (5) unused PTO days will be sold back at the rate of one hundred forty (\$140) per day (part-time employees will be prorated based on hours worked per week with 40 hours as the basis for full time), if an employee's accrued sick leave balance equals forty-five (45) unused sick leave days or more as of the end of the contract year. Any remaining PTO days beyond the 5 days sold back will be added to each employee's previously accrued sick leave balance, except as provided below. In the event a PTO sell back is required under this paragraph and the employee's unused PTO balance at the end of the contract year is less than five (5) days, the amount of PTO sold will be equal to the employee's accrued PTO balance.
- b. Employees who use six (6) or less PTO days at the end of each contract year are eligible to be granted up to five (5) consecutive

days of PTO leave in the next school year. This option may not be granted in consecutive school years.

Subd. 3. At the end of each contract unused PTO days will accrue as sick days without limit.

Subd. 4. The first three (3) days used for illness each contract will be deducted from that year's PTO days. Subsequent days used for illness will be deducted from an employee's accrued sick leave balance unless the employee wishes to have them taken from the current year's PTO days. An employee may use PTO days and accumulated sick leave for illness of the employee, and the employee's child under 18. For purposes of this subdivision, "child" includes stepchild, biological, adopted and foster child. The employee may also use PTO days and accumulated sick leave not to exceed twenty (20) days per 12 month period for illness of or injury to the employee's adult child, spouse, sibling, parent, grandparent or stepparent. In extenuating circumstances, an employee may make an additional request for use of Accumulated Sick Leave to the Superintendent/designee.

Subd. 5. After three (3) consecutive days of absence due to illness, or when there is probable cause to support the belief that an employee is misrepresenting the use of leave for illness, the District may require an employee to furnish a medical certificate from the attending physician indicating such absence was due to illness or disability. The district may require certification by the attending physician stating that the employee is in good health and able to resume the employee's duties upon return. In the event that a medical certification will be required, the employee will be so advised.

Subd. 6. When current PTO days and any accrued sick leave days have been exhausted, the Superintendent/designee shall be authorized to grant an extended leave of absence without pay as per Policy 410 – Family and Medical Leave (FMLA). In addition to other leaves and benefits provided for in this contract, employees may take leaves under the provisions of all applicable state and federal laws, including the Family and Medical Leave Act. FMLA leaves shall run concurrently with any of the other leaves provided for in this contract. Nothing in this contract shall be interpreted to diminish any benefit provided for in law, including those provided in the FMLA.

Subd. 7. To use PTO days without giving a reason for the absence, the employee must give at least a three (3) day notice and receive preapproval from their program administrator. For reasons of illness or bereavement, a three-day notice is not required. In the situation of a request for use of PTO with less than a three (3) day notice, an explanation of why a three (3) day notice was not possible and the reason for the absence is required. For reasons other than illness or bereavement, employees must receive pre-approval from their program administrator.

Subd. 8. PTO shall be granted in one hour increments when no substitute is needed. If a substitute is needed, PTO shall be granted in ½ day or four-hour increments. PTO days typically shall not be granted for the day preceding or the day following holidays, vacation periods and the first ten (10) duty days and the last ten (10) duty days of the school year except for reasons of illness or bereavement. PTO days shall not be granted during parent conference days or inservice days except for reasons of illness or bereavement. PTO requests may be denied on a particular day if other employees at the

educational site have already been granted PTO leave which would be disruptive to the functioning of the particular program.

Subd. 9. No more than three (3) consecutive PTO days may be granted except for childbirth, adoption, absence due to extended illness and bereavement.

Subd. 10. An employee who is entitled to PTO leave pay, or has accumulated sick leave, who is then receiving Worker's Compensation, may not be paid PTO leave pay in an amount greater than the difference between such Worker's Compensation and the employee's basic salary. Under such circumstances, only that fraction of a PTO leave day not covered by Worker's Compensation insurance shall be deducted from accrued leave.

Subd. 11. Upon termination of an employee's employment for any reason, all PTO days and accumulated sick leave shall be immediately and automatically cancelled. If the employee is rehired within one year, the previously accumulated sick leave shall be reinstated.

Section 2. Parental Leave

Subd. 1. An employee shall be afforded a parental leave of absence of no more than twelve (12) months in duration, according to the procedures as outlined in this section, to one parent of a newborn child or an adopted child, provided such parent is caring for the child on a full-time basis.

Subd. 2. The superintendent, after consultation with the employee, shall notify the employee in writing of the effective beginning date of such leave and its duration.

Subd. 3. The beginning date and duration of such leaves may be adjusted by mutual agreement between the superintendent and the employee.

Subd. 4. An employee returning from a parental leave shall be reemployed in a position for which the employee is qualified provided that the employee returns on the date as provided in the leave of absence.

Subd. 5. Failure of the employee to return pursuant to the date determined in this section shall constitute grounds for termination in the school district.

Subd. 6. A parental leave of absence granted pursuant to this section shall be a leave without pay.

Section 3. Maternity/Adoption Leave

Subd. 1. The start of a physical disability absence for pregnancy, delivery, and recovery from childbirth shall be determined by the employee's physician. The end of the physical disability absence for childbirth shall be determined by the employee's physician at the time of the child's birth.

Subd. 2. A pregnant employee shall notify the superintendent in writing, not later than the end of the sixth month of pregnancy, and, also at such time provide a physician's statement indicating the estimated date of delivery of the child. The employee shall submit a written request to the superintendent for the use of PTO

and/or accumulated paid sick leave, including commencement date and return date. The time periods provided herein can be modified by the employee's physician.

Subd. 3. An employee's maternity absence may encompass school holidays and/or school vacations. Holidays and/or vacations that fall during the period of disability do not cause the disability period to be extended. These days would not be deducted from the PTO or sick leave.

Subd. 4. Subd. 2 and 3 of this section (Section 3) shall also apply to one parent for the adoption of a child in compliance with the Family Medical Leave Act.

Section 4. Jury Duty Leave: An employee summoned for jury duty shall receive the employee's regular salary but shall remit to the school district any jury duty fees received. The employee shall retain any expenses or mileage allowances paid by the court.

Section 5. General Leave:

Subd. 1. Employees in the school district may apply for an unpaid leave of absence, subject to the provisions of this section. The granting of such leave shall be at the sole discretion of the school board.

Subd. 2. Such leave may be granted by the school board for extended illness of the employee, extended illness of the employee's family, additional education, or other reasons acceptable to the school board.

Subd. 3. An employee on general leave of absence shall provide notice to the school district in writing no later than April 1 of the employee's intention concerning return to employment at the end of the general leave.

See also Board Policy 464 for additional unpaid leave provisions.

Section 6. Insurance Application: An employee on unpaid leave under this Article is eligible to continue to participate in group insurance programs if permitted under the insurance policy provisions, but shall pay the entire premium for leave not covered under the Family Medical Leave Act for such programs as the employee wishes to retain. It is the responsibility of the employee to make arrangements with the school business office to pay to the school district the monthly premium amounts in advance and on such date as determined by the school district. The right to continue participation in such group insurance programs, however, shall discontinue upon termination of employment, except as otherwise provided by law.

Section 7. Accrued Benefits: An employee on unpaid leave under this Article shall retain such number of leave days, experience credit for pay purposes, and other accrued benefits, if any, at the time the employee went on leave for use upon said employee's return. No additional leave, experience credit for pay purposes, or other benefits shall accrue for the period of time that an employee is on leave.

Section 8. Eligibility: Leave benefits as outlined in this Article shall apply only to employees regularly employed at least 185 days per year and at least forty (40) hours per week. Employees regularly employed for a lesser period of time, but at least an average of fourteen (14) hours per week and 65 days per year, shall be entitled to leave benefits on a

RE: Individual Contracts for Mental Health Practitioners

These seven contracts are the mental health professional staff who provide support to our families, staff, and students in our TEA program. These staff provide daily therapy to our TEA students and are an integrated part of our teacher and program assistant teams. This team also provides direction to teaching staff and program assistants on techniques to work with our most challenging setting IV students.

These positions do not require a board of teaching license but do require a Department of Human Services license. The employment of these positions are on stand alone one-year contracts. The salaries are benchmarked at 97% of teacher salaries but do not have the more complex lay off language, steps and lanes, etc. of union contracts.

These positions' retirement contribution is to PERA and the contracts provide benefits of health, dental, LTD, and life insurance. The contracts we are asking your consideration to approve are the same language as the Board Certified Behavior Analysts. The health insurance recommended is an increase of \$30 per month for single and \$75 per month for family. The total base package recommended for the group is 3.93%. We are also requesting consideration for a 2.5% market value adjustment applied to five of the seven practitioners' contracts to help us be more competitive with other employers who put these positions on their teacher contracts.

ARTICLE XI EMPLOYEE SUPERVISION

Section 1. Employee Improvement Plans

Subd. 1. Prior to formal or informal disciplinary procedures being employed in cases of minor misconduct or in cases where the behavior or poor performance does not constitute a serious infraction of the contract, district policies, rules or directives of superiors, the School District may, in its discretion, attempt to improve an employee's performance and/or correct an employee's behavior by implementing an "employee improvement plan."

Subd. 2. The purpose of an employee improvement plan is to improve the employee's performance up to the standards and expectations of the School District. Should the employee fail to raise his/her level of performance to the School District's expectations, or the behavior issues continue, the School District may resort to the disciplinary measures delineated in Section 2 of this Article.

Subd. 3. All employee improvement plans will be placed in the employee's personnel file along with any notations as to the employee's progress in improving performance.

Section 2. Employee Discipline

Subd. 1. Employee discipline is the School District's process for assuring compliance with the terms and conditions of the collective bargaining agreement, Board policies and rules, directives issued by the employee's supervisors or other administrators, and generally accepted norms of behavior. Written reprimands will be placed in the employee's official personnel file. Each employee shall be promptly furnished with a copy of all disciplinary materials entered into their personnel file. All materials shall be dated and signed acknowledging receipt of said documents. Employees may respond in writing to written reprimands and such responses shall be placed in the employee's personnel file. Written reprimands are grievable under Article XIV of this Agreement. The standards of review are whether or not any material in the employee's personnel file is false or inaccurate or is without just cause. Any material found through the grievance procedure to be false or inaccurate or without just cause shall be expunged from the employee's file.

Subd. 3. Suspension.

- (a) An employee may be suspended without pay for grounds as described in Minn. Stat. Section 122A.40, subd. 9(a) through (e) or Minn. Stat. Section 122A.40, subd. 13(1) through (6). Any suspension is subject to the grievance procedure under Article XIV of this Agreement. Additionally, an employee may be suspended without pay when other disciplinary measures have been applied without sufficient positive result, or for other willful violations of District policies or directives.
- (b) Suspension shall take effect upon written notification from the Superintendent of Schools to the employee stating the grounds for suspension. The employee shall have the right to invoke the grievance procedures set forth in Article XIV of this Agreement at the arbitration level provided written notification requesting arbitration is received by the superintendent within fifteen (15) days after receipt of the written notice of suspension.
- (c) The suspension shall take effect upon receipt by the employee of the written notice of suspension or shall take effect as otherwise indicated in the written notice of suspension. The suspension shall continue in effect for the time period provided in the written notice or as otherwise decided by the school board, but not to exceed a period of thirty (30) work days.

- (c) Immediate discharge. The board may discharge a non-probationary health associate, effective immediately, upon any of the following grounds:
- 1) Immoral conduct, insubordination, or conviction of a felony;
 - 2) Conduct unbecoming a health associate which requires the immediate removal of the health associate from classroom or other duties;
 - 3) Failure without justifiable cause to be present at assigned work place without first securing the written release of the school board;
 - 4) Gross inefficiency which the health associate has failed to correct after reasonable written notice;
 - 5) Willful neglect of duty; or
 - 6) Continuing physical or mental disability subsequent to a 12 months leave of absence and inability to qualify for reinstatement.

Section 3. Health Associate Performance Evaluations. Health Associates who have completed the probationary period shall be evaluated by the same criteria and process. Such employees may apply for positions, in order of preference, to which they desire to be transferred.

Subd. 2. Involuntary Transfer Decisions: Programmatic considerations, seniority, employee qualifications, and employee preference, shall be the criteria used by the school district when rotating or transferring staff. Within ten (10) days after the meeting, the superintendent, or his/her designee, shall issue a decision in writing to the parties involved.

Section 6. School Board Review: The School Board reserves the right to review any decision issued under Level I or Level II of this procedure provided the School Board or its representative notifies the parties of its intention to review within ten (10) days after a decision in Level I or Level II has been rendered. At its option, the School Board may also review a grievance at the written request of the grievant, providing such written request is made within ten (10) days after receipt of the Level II decision. In the event the School Board determines to review a grievance it shall hold a hearing and issue a decision within twenty (20) days after the written notice by the School District or within twenty (20) days after receipt of the request for review by the grievant. The Union shall receive written advance notice as to the date of said hearing. In the event of such review, the School Board reserves the right to affirm, reverse or modify such decision. At the option of the School Board, a committee or representative(s) of the School Board may be designated by the School Board to hear the appeal at this level, and report its findings and recommendations to the School Board.

Section 7. Denial of Grievance: Failure by the School District or its representative to issue a decision within the time periods provided herein shall constitute a denial of the grievance and the employee(s) may appeal it to the next level.

Section 8. Arbitration Procedures: In the event that the employee(s) and the School District are unable to resolve any grievance, the grievance may be submitted to arbitration as defined herein.

Subd. 1. Request: A request to submit a grievance to arbitration must be in writing signed by the aggrieved party, and such request must be filed in the office of the superintendent within twelve (12) days following the decision of the School Board in Section 6, or within twelve (12) days following notice that the School Board has elected not to review the matter.

Subd. 2. Prior Procedure Required: No grievance shall be considered by the arbitrator which has not been first duly processed in accordance with the grievance procedure and appeal provisions, unless the parties have mutually agreed to a waiver of step(s).

Subd. 3. Selection of Arbitrator: Upon the proper submission of a grievance under the terms of this procedure, the parties shall, within ten (10) days after the request to arbitrate, attempt to agree upon the selection of an arbitrator. If no agreement on an arbitrator is reached, either party may request the Bureau of Mediation Services to appoint an arbitrator pursuant to M.S. § 179.70, Subd. 4, providing such request is made within twenty (20) days after the request for arbitration. The request shall ask that the appointment be made within thirty (30) days after the receipt of said request. Failure to request an arbitrator from the Bureau of Mediation Services within the time periods provided herein shall constitute a waiver of the grievance.

Subd. 4. Hearing: The grievance shall be heard by a single arbitrator and both parties may be represented by such person or persons as they may choose and designate, and the parties shall have the right to a hearing at which time both parties will have the opportunity to submit evidence, offer testimony, and make oral or written arguments relating to the issues before the arbitrator. The proceeding before the arbitrator shall be a hearing de novo.

Subd. 5. Decision: The decision by the arbitrator shall be rendered within thirty (30) days after the close of the hearing. Decisions by the arbitrator in cases properly before him/her shall be final and binding upon the parties; subject, however, to the limitations of arbitration decisions as provided in the PELRA. The arbitrator shall issue a written decision and order including findings of fact which shall be based upon substantial and competent evidence presented at the hearing. All witnesses shall be sworn upon oath by the arbitrator.

Subd. 6. Expenses: Each party shall bear its own expenses in connection with arbitration including expenses relating to the party's representatives, witnesses, and any other expenses which the party incurs in connection with presenting its case in arbitration. A transcript or recording shall be made of the hearing at the request of either party. The parties shall share equally fees and expenses of the arbitrator and any other expenses which the parties mutually agree are necessary for the conduct of the arbitration. The requesting party shall pay the full cost of transcribing or recording of the proceedings and transcript copy. If both parties request a transcript or recording, the cost shall be equally shared. If the second party orders a transcript after the first party has paid for transcribing and recording, the second party shall also reimburse the first party for one-half (1/2) of those costs incurred, in addition to paying for the transcript copy.

Subd. 7. Jurisdiction: The arbitrator shall have jurisdiction over disputes or disagreements relating to grievances properly brought before the arbitrator pursuant to the terms of this procedure. The jurisdiction of the arbitrator shall not extend to proposed changes in terms and conditions of employment as defined herein and contained in this written Agreement; nor shall an arbitrator have jurisdiction over any grievance which has not been submitted to arbitration in compliance with the terms of the grievance and

arbitration procedure as outlined herein; nor shall the jurisdiction of the arbitrator extend to matters limited or excluded by PELRA of 1971.

Section 9. Grievance Form: A form which must be used for filing grievances shall be provided by the School District (Attachment C). Such form shall be readily accessible in all school buildings.

Section 10. Upon instituting a proceeding in another forum as outlined herein, the employee(s) shall waive his/her right to initiate a grievance pursuant to this Article, or, if the grievance is pending in the grievance procedure, the right to pursue it further shall be immediately waived. RE: Board Item N – Overview of Superintendent Evaluation and Consideration of Performance Incentive

Jill Lewis will provide an overview of the composite results of the superintendent evaluation closed session held on June 7, 2016.

The evaluation feedback document has twenty-one criteria based on the job description. The job description categories are board operations, human resources, budget management, state and federal relations, planning and district operations. The rating scale is as follows:

- 1 – indicates unacceptable performance
- 2 – indicates improvement needed
- 3 – indicates meets expectations
- 4 – indicates very good performance
- 5 – indicates outstanding performance

My contract includes a performance incentive clause that is to be based on my performance evaluation and the completion of the annual goals and operational actions. The language allows for up to a 4% incentive compensation to be paid in July for the 2015-2016 fiscal year performance.
