AGENDA SECTION: Recognitions

ITEM: School Board Appreciation Month

COMMENTS BY: Chace B. Anderson, Superintendent

February is Minnesota School Board Recognition Month. It's a great time to recognize our elected community members who selflessly give their time and energy in support of high-quality public schooling for our youth. School board members in Wayzata Public School District are entrusted by this community with responsibility for 13,143 students across 8 communities, 1,324 employees and 15 school buildings including the Early Learning School, 9 Elementary Schools, 3 Middle Schools 1 High School and 1 Transition School.

School boards are charged with making decisions that can sometimes be quite difficult or require sifting through a great deal of information. They also bear responsibility for developing a vision that will guide the school district for years to come. Through collaboration as a team, and with school district staff, their governance and advocacy are building the future of education in Minnesota.

This February, we're encouraging all members of the community to thank a board member. Please thank them for volunteering their time and playing a critical civic role that helps form the bedrock of our democracy — public education. As a crucial bridge between the local community and the school district, their efforts are instrumental in helping all of us realize the hopes and dreams we have for the children of our community.

The members serving Wayzata Public Schools are:

I am proud of...

Being black, is not just being black but having a heritage and knowing where I come from. I can learn more and teach it to people that really don't know. I'm also proud that black history is a month because I get to learn about the black people who have contributed inventions, science, theories, music, life lessons, art, etc and some of them haven't gotten the recognition they deserve for their achievements.

I want to impact the world by...

One day I would like to be a Nail Tech and own my own business. I think that being a black business owner shows the world that we are smart and important. It will also show my children and many others that they can do what they want to do.

We come together to give back to our community

It is the responsibility of the school to be ready to serve the children and not the responsibility of the children to be prepared for the program of the school.

The test of residence shall be whether such youth validly and substantially live within the district during the school year. Non-emancipated minors (under 18 years of age) are expected to be under the supervision of an adult or adults who assume responsibility for their general health and welfare as well as for emergencies. In instances where such adults are not the parents or legal guardians of the minor, a written statement of such responsibility assumption shall be requested upon school registration. This statement shall be kept on file along with a summary of case particulars.

2023-24 School Year Financial Report Analysis

Excellence. For each and every student.

For the Month Ended December 31, 2023

Statement of Revenues Analysis

This analysis reflects revenue received by the month end noted above. These numbers are representative of the first six fiscal months of the FY 2023-24. Property Tax revenue is right in line with prior years and State Aid revenues are slightly up from prior years but are in line with expectations. Deviations in revenue from prior years continue with Federal Aids due to a some variables that include when these funds are drawn during the fiscal year, a change in the system MDE utilizes to do the draws, along with a change in how these dollars are recorded as it relates to FY23 accruals. Additionally, as a reminder, the district still has CARES Act dollars that were allowed to carry over to the current fiscal year. Miscellaneous Local Revenue can vary year to year and are also impacted by many variables including interest income, gate fees, etc but are closer in line with the prior fiscal year.

Food Service revenue is getting closer in line with prior years due to continued payments received from MDE. As a reminder, legislation was passed to provide free meals which is funded by the state and flows through MDE to the district. This change now makes it so the state aid through MDE is the primary revenue source for Food Service. Community Education revenue continues to be slightly up from the prior fiscal year. The expectation is that the district will continue to see more pre-COVID numbers as it relates to fees the district collects for sports along with Community Education and Food Service. The Construction Fund revenue exceeds the preliminary FY2023-24 budgeted amount due to bond proceeds being received by the district.

Statement of Expenditures Analysis

This analysis reflects actual expenditures and does not include outstanding encumbrances along with representing six months of the FY 2023-24. Overall expenditures are relatively similar to prior years listed in the report. Salaries are in line for the most part with the prior two fiscal years and benefits are slightly below prior years percentages but still in line with expectations. Both budgeted numbers for these two areas of the General Fund will be updated with the FY2023-24 Revised Budget. Purchased Services are again up considerably due to ongoing budgeted district projects related to LTFM. As is usually always the case, variations compared to prior years are primarily driven by the timing of payments, timing of projects (as just described), timing of purchases of supplies, materials, and capital expenditures along with the timing of payments for purchased services. Construction Fund expenditures exceed the preliminary budgeted amount which is due to the planned purchased of the District Service Center.

Fiscal Year 2023-24 Budget Amendment: General Fund

The adjustment to revenue is due to an increased estimate of enrollment for the fiscal year ending June 30, 2024 along with a few additional factors driving revenue up above initial forecast. The estimated increase in enrollment positively impacts and increases the Revenue projection for the State Aid revenues. The adjustments to expenditures are due to utilizing updated fiscal year to date costs to project estimated year-end totals. These adjustments were mainly around updating estimated costs for salaries and benefits in addition to updates to purchased services and supply and material budgets.

FY2023-24 Revised Budget

General Fund

Excellence. For each and every student.

GENERAL FUND INFORMATION

The General Fund contains all revenue and expenses for the general, day-to-day operations of the school district. This includes salaries and benefits for teachers, administrators, custodians, administrative professionals, and para-professionals; instructional supplies, technology, transportation, textbooks, and money spent to operate and repair district buildings. In some ways, it is clearer to express the General Fund in terms of what it does not cover. The General Fund does not cover Wayzata Cafés; Community Services; debt service payments on bonds issued by the District; and the cost of major construction projects financed through the issuance of bonds.

The General Fund includes expenses associated with the capital projects (technology) levy. The focus of this program is curriculum and classroom technology, particularly expansion of classroom tools: projection and sound systems, smartboards, and software. The General Fund also includes expenses funded with the Long-Term Facility Maintenance (LTFM) levy for projects less than \$2.0 million. Projects over \$2 million are recorded in the Building Construction Funds. It is important to note that LTFM expenditures can fluctuate considerably from year to year and can impact the overall view of the District's funding picture.

FUND BALANCE POLICY

The level of spending is set with a number of considerations in mind, but one of the primary considerations is to maintain an adequate level of reserves for unanticipated events. The District has a formal policy calling for an unassigned fund balance in the General Fund equal to at least 5% to 7% of one year's expenditures. This balance could be considered to be the District's "savings account."

Maintaining a prudent fund balance is important for the stability of the district, and is a key measure that bond rating agencies examine when assigning a credit rating to a district's debt issuances. The projected unassigned General Fund balance as of June 30, 2024 is \$15,797,502. This is 8.5% of the expenditure budget, or about four weeks of operations. Unanticipated events that could occur that would require the District to dip into its unassigned fund balance include:

- Property tax delinquencies and abatements
- Enrollment fluctuations
- Unanticipated price increases for essential purchases, e.g. fuel for heating, other utilities, transportation
- State aid revenue reductions
- COVID-19 pandemic
- Federal sequestration
- Unforeseen public health emergencies or severe weather/natural disaster

State Aid Increases	Enrollment estimate increase to 12,408 from 12,281 by utilizing the HK/HM projections. Special Education Aid increased estimate based off of the latest projections.
Federal Aid Decreases	Utilized more ESSER Funds in FY23 as the Preliminary Budget is prior to the completion of the audit.
Other Local Revenues Increases	Primary driver was an increase in estimated increase in Interest Income.
EXPENDITURES	
Salaries and Benefits	Cost containment measures came in lower than anticipated. Special Education cost increases higher than anticipated from FY2023-24 Preliminary Budget. Adjustment to retiree related benefit area. Change to prior years practice.
Purchased Services	Primarily driven by increase in estimated utility costs for the District.
Supplies and Materials	Budget changes primarily related to Fund 08 that include Federal dollars and ESSER related funds.
