AGENDA SECTION: Recognitions

ITEM: School Board Appreciation Month

COMMENTS BY: Robb Virgin, Superintendent

Minnesota School Board Recognition Month

September is Minnesota School Board Recognition Month, and Wayzata Public Schools is proud to join the Minnesota School Boards Association in recognizing the dedicated public servants who help ensure every student has the opportunity to succeed. This year's statewide theme, "Minnesota School Boards Help Minnesota Kids Rise," capitalizes on the state's new campaign and celebrates the essential role locally elected school boards play in helping students achieve their highest potential.

School board members volunteer countless hours to lead one of our community's most important responsibilities — providing students with a high-quality public education that prepares them for success in college, careers, and life. Their leadership helps create learning environments where students are challenged, supported, and inspired to grow.

Wayzata Public Schools Equity Commitment

Systemic racism and many inequities exist in our society. This is not a reflection of who we aspire to be in Wayzata Public Schools. It is essential that we address this to fulfill our mission for each and every member of our community.

We're All In

We commit to:

- Evaluating and expanding our mindsets
- Embracing productive discomfort
- Transforming our core values from words to policies and actions that improve equity

We will facilitate the efforts of staff, students and families to act on our six core values.

Achievement

- Create a system for learning, teaching and measuring success that honors cultural differences.
- Give each other space to understand our implicit biases as we seek to free ourselves of them.

Collaboration

- Share collective responsibility for empowering all learners to thrive and be their authentic selves.
- Build on the strengths we each bring so that together we are more than the sum of our parts.

Community

- Understand that we all belong here and are critical to each other's success and well-being.
- Being accountable to each other in the pursuit of being our best selves.

Equity

- Work to increase our awareness of inequities so we can grow our capacity to become who we aspire to be.
- Study and practice anti-racist behavior so that we can continuously learn and improve.

Integrity

- Continually live our shared values, especially when those values are challenged.
- Infuse our daily work and planning with equity-thinking through self-reflection and data.

Respect

- Learn from and through our differences.
- Acknowledge that the lives of Black, Indigenous and people of color matter and this is reflected in our actions.

We will find ways to create more equitable systems that honor each person's unique mix of overlapping identities, including but not limited to:

- age
- beliefs/religion
- class
- disability/special needs
- ethnicity
- family status
- gender
- gender expression/identity
- height/weight
- home language
- immigration status
- issues specific to women/girls
- mental health
- national origin
- poverty
- race
- sexual orientation

Our mission is to ensure a world-class education that prepares each and every student to thrive today and excel tomorrow in an ever-changing global society.

208 DEVELOPMENT, ADOPTION, AND IMPLEMENTATION OF POLICIES

I. PURPOSE

The purpose of this policy is to emphasize the importance of the policy-making role of the School Board and provide the means for it to be an ongoing effort.

II. GENERAL STATEMENT OF POLICY

Formal guidelines are necessary to ensure the school community that the school system responds to its mission and operates in an effective, efficient, and consistent manner. A set of written policies shall be maintained and modified as needed. Policies should define the desire and intent of the School Board and should be in a form which is sufficiently explicit to guide administrative action.

III. DEVELOPMENT OF POLICY

A. The school board has jurisdiction to legislate policy with the force and effect of law for the school district. School district policy provides the school board's general direction for the school district while delegating policy implementation to the administration.

B. The school district's policies provide guidelines and goals to the school community. The policies are the basis for guidelines and directives created by the administration. The school board shall determine the effectiveness of policies by evaluating periodic reports from the administration.

C. Policies may be proposed by a school board member, employee, student, or resident of the school district. Proposed policies or ideas shall be submitted to the superintendent for review prior to possible placement on the school board agenda.

IV. ADOPTION AND REVIEW OF POLICY

A. Adoption of new policies or the amendment or repeal of existing policies is solely the responsibility of the School Board.

B. The final action taken to adopt a proposed new policy shall be approved by a simple majority vote of the school board at a meeting after the two meetings at which public input was received. The policy will be effective on the latter of the date of passage or the date stated in the motion.

C. If a policy is modified with minor changes that do not affect the substance of the policy or because of a legal change over which the school board has no control, the modified policy may be approved at one meeting at the discretion of the school board.

D. The Board will adhere to the following procedure in amending or adopting policies to ensure that they are well examined before final action:
    1. First meeting--the policy shall be presented for a first reading. If the Board feels that the policy has been sufficiently vetted through appropriate stakeholders and is comfortable with the policy, the Board may vote to approve the policy upon first reading. If any member of the Board feels the policy requires more discussion, the policy may be moved to a Work Session for group discussion. A policy may also be removed from the first meeting if a Board member wishes to have more time to consider the policy before approval.
    2. Work Session--the policy shall be discussed and modified as may be appropriate.
    3. Second meeting--the policy shall be presented for a second reading, discussed and voted upon.

E. During discussion of a policy proposal, the views of the public and staff will be considered. Amendments may be proposed by Board members. An amendment will not require that the policy go through an additional reading except as the Board determines that the amendment needs further study and that an additional reading would be desirable.

F. Under unusual circumstances, the Board may temporarily approve a policy to meet emergency conditions; however, the above procedure is required before the policy will be considered Permanent.

G. Policies are living documents, and as such, may undergo updates and changes at any time, outside of the regularly scheduled cycle.

V. IMPLEMENTATION AND ACCESS OF POLICY

A. The superintendent shall be responsible for implementing school board policies, other than the policies that cover how the school board will operate. The superintendent shall develop administrative guidelines and directives to provide greater specificity and consistency in the process of implementation. These guidelines and directives, including employee and student handbooks, shall be subject to annual review and approval by the school board.

B. Each school board member shall have access to school district policies. A copy of the school district policies shall be placed in the office of each school attendance center and in the central school district office and shall be available for reference purposes to other interested persons.

C. The superintendent, employees designated by the superintendent, and individual school board members shall be responsible for keeping the policy current.

D. The school board shall review policies at least once every four years. The superintendent shall be responsible for developing a system of periodic review, addressing approximately one third of the policies annually. In addition, the school board shall review the following policies annually: 502 Student Discipline; 732 Public Data Requests; and 803 Crisis Management Policy.

E. In an effort to keep its written policies current so that they may be used consistently as a basis for Board action and administration decision, the Board will conduct a general review of its policies on a four year cycle (shown below). Some policies may undergo annual review as directed by Minnesota Statute.

Year One	Year Two	Year Three	Year Four
100 Series	700 Series	400 Series	600 Series
200 Series	800 Series	500 Series	900 Series

F. When no school board policy exists to provide guidance on a matter, the superintendent is authorized to act appropriately under the circumstances keeping in mind the mission, educational philosophy, and financial condition of the school district. Under such circumstances, the superintendent shall advise the school board of the need for a policy and present a recommended policy to the school board for approval.

G. During an emergency, only the Superintendent or Superintendent's designee, unless otherwise specified by the School Board, may make public statements, issue news releases, make statements to employees, and make statements to parents and the general public on behalf of the district.

H. Where circumstances require significant administrative action in the absence of Board policy guidelines or legal direction, action shall be taken according to theSuperintendent's best judgment.

I. It is the responsibility of the Superintendent to inform the Board promptly of such action and the need for related policy.

212 PUBLIC PARTICIPATION IN SCHOOL BOARD MEETINGS

I. PURPOSE

A. The school board recognizes the value of participation by the public in deliberations and decisions on school district matters. At the same time, the school board recognizes the importance of conducting orderly and efficient proceedings, with opportunity for expression of all participants' respective views.

B. The purpose of this policy is to provide procedures to assure open and orderly public expression as well as to protect the due process and privacy rights of individuals under the law.

II. GENERAL STATEMENT OF POLICY

A. The policy of the school board is to encourage input on subjects related to the management of the school district at school board meetings. The school board may adopt reasonable time, place, and manner restrictions on public expression in order to facilitate free discussion by all interested parties.

B. The school board shall, as a matter of policy, protect the legal rights to privacy and due process of employees and students.

C. The School Board may decide to hold certain types of public meetings where the public will not be invited to address the School Board. Possible examples are work sessions and Board retreats. The public is entitled to notice of these meetings and will be allowed to attend these meetings, but the public will not be allotted time during the meeting to address the Board.

III. PROCEDURES

The following procedures will be utilized to facilitate public participation in regular School Board meetings. The School Board will provide a specified period of time at the Board's regular monthly meeting where citizens may address the School Board on any topic, subject to right to privacy or private subject data concerns as provided by Minnesota State law.

A. The School Board reserves the right to allocate a specific period of time for this purpose and limit time for speakers accordingly.

B. Citizens who wish to speak at a public School Board meeting may do so in one of the following ways: 1) notify the Superintendent's office in advance of the School Board meeting. 2) notify a member of the board or staff prior to the start of the meeting; or 3) stand and state their wish to address the board when the Board Chair extends the invitation to speak to the audience at the appropriate time on the agenda. All speakers will be asked to complete a form indicating the topic or agenda item to which their comments relate, their name, address, and affiliation with a group (if applicable).

C. The School Board Chair will recognize one speaker at a time and will rule out of order other speakers who are not recognized. Only those speakers recognized by the Chair are allowed to speak. Comments by others are out of order. Individuals who interfere with or interrupt speakers, the School Board, or the proceedings may be directed to leave.

D. It is the practice of the School Board not to engage in discussion or debate with the speaker during the Board meeting. The School Board may follow up with the speaker at a later date, or may designate staff members to follow up with the speaker.

E. Comments by individual speakers are normally limited to a maximum of three to five minutes. The School Board retains the discretion to limit comments on any agenda item or topic to a reasonable period of time. If a group or organization wishes to address the School Board on a topic, the School Board reserves the right to require designation of one or more representatives or spokespersons to speak on behalf of the group or organization.

F. Matters raised by a public speaker which may involve data privacy concerns and/or preliminary allegations, or which may be potentially libelous or slanderous in nature, shall not be considered in public but shall be processed as determined by the School Board in accordance with governing law.

G. The School Board Chair shall promptly rule out of order any discussion by any person, including School Board members, that would violate the provisions of state or federal law, this policy or the statutory rights of privacy of an individual.

H. Personal attacks by anyone addressing the School Board are unacceptable. Persistence in such remarks by an individual shall terminate that person's privilege to address the School Board.

I. Depending upon the number of persons in attendance seeking to be heard, the School Board reserves the right to impose such other limitations and restrictions as necessary in order to provide an orderly, efficient and fair opportunity for those present to be heard.

J. Public speakers at the Regular Board Meeting may be identified in the formal minutes and the remarks will be televised as part of the proceedings.

The public is entitled to notice of these meetings and will be allowed to attend these meetings, but the public will not be allotted time during the meeting to address the Board.

III. PROCEDURES

The following procedures will be utilized to facilitate public participation in regular School Board meetings. The School Board will provide a specified period of time at the Board's regular monthly meeting where citizens may address the School Board on any topic, subject to right to

privacy or private subject data concerns as provided by Minnesota State law.

A. The School Board reserves the right to allocate a specific period of time for this purpose and limit time for speakers accordingly.

2) notify a member of the board or staff prior to the start of the meeting; or 3) stand and state their wish to address the board when the Board Chair extends the invitation to speak to the audience at the appropriate time on the agenda. All speakers will be asked to complete a form indicating the topic or agenda item to which their comments relate, their name, address, and affiliation with a group (if applicable).

~~C. Citizens who address the School Board should open their comments by stating the subject or agenda item(s) to which their comments pertain, their name, address, and affiliation with a group (if applicable).~~

213 SCHOOL BOARD COMMITTEES AND APPOINTMENTS

I. PURPOSE

The purpose of this policy is to provide for the structure and operation of committees and subcommittees of the School Board, and guidance for School Board members appointed to other councils, committees, and local/state/national organizations.

II. GENERAL STATEMENT OF POLICY

The School Board believes that Board committees and appointments enable board members to delve into governance matters in greater detail than is possible at the full board level. In-depth committee work builds governing expertise among board members, while also strengthening their sense of ownership and commitment, which ultimately improves the quality of board decision making. Board decisions that are supported by detailed standing committee work are firmer because of the ownership that is built at the committee level.

A. It is the policy of the school board to designate standing school board committees or subcommittees when it is determined that a committee process facilitates the mission of the school board.

B. The school board has determined that certain permanent standing committees, as described in this policy, do facilitate the operation of the school board and the school district.

C. A school board committee or subcommittee will be formed by school board resolution which shall outline the duties and purpose of the committee or subcommittee.

D. A committee or subcommittee is advisory in nature and has only such authority as specified by the school board.

E. The school board will receive reports or recommendations from a committee or subcommittee for consideration. The school board, however, retains the right and has the duty to make all final decisions related to such reports or recommendations.

F. The school board also may establish ad hoc committees for specific purposes as it deems appropriate.

G. The school board reserves the right to limit, create or abolish any standing or ad hoc committee as it deems appropriate.

H. A committee of the school board shall not appoint a subcommittee of that committee without approval of the school board.

I. Similarly, the school board has determined that appointments to other committees, councils and organizations facilitates the operation of the School Board and the school district.

1. The School Board will appoint board members to serve as liaisons to these committees and organizations. No more than three board members shall be designated to any one appointment, unless the board attends on a rotating schedule.

2. When appropriate, a board member may serve on the board of another organization.

III. STANDING COMMITTEES

A. The school board hereby appoints the following standing committees:

1. Finance and Operations
2. Human Resources
3. Teaching and Learning
4. Community Relations
5. Superintendent Evaluation, Compensation and School Board Development
6. Facilities Development and Long-Range Planning
7. Policy and Regulation Review

B. The school board will establish, by resolution, for each standing or ad hoc committee the charge or mission of each such committee.

J. The school board reserves the right to define the term, members, and number of members for each committee. When such committees include district teachers the board agrees to discuss the appointment with the "exclusive representative" of the teacher's bargaining unit, as defined in the Public Employee Labor Relations Act (PELRA), concerning the nature and purposes of the committee and the basis for determining teacher representation.

K. The school board retains the right to determine procedures and guidelines for all standing committees, but may grant the committee the freedom to develop such procedures and guidelines appropriate to its purpose on its own accord.

E. The school board chair shall appoint the chair of each standing or ad hoc committee.

F. The Superintendent is directed to name an administrative liaison to each standing committee

IV. PROCEDURES FOR SCHOOL BOARD COMMITTEES

A. All meetings of committees or subcommittees shall be open to the public in compliance with the Open Meeting Law, and notice shall be given as prescribed by law.

B. A committee or subcommittee shall act only within the guidelines and mission established for that committee or subcommittee by the school board.

C. Actions of a committee or subcommittee shall be by majority vote and be consistent with the governing rules of the school board.

D. The committee or subcommittee shall record the minutes of actions of the school board committee.

E. The power of a committee or subcommittee of the school board is advisory only and is limited to making recommendations to the school board.

F. A committee or subcommittee of the school board shall, when appropriate, clarify in any dealings with the public that its powers are only advisory to the school board.

V. PROCEDURES FOR SCHOOL BOARD APPOINTMENTS

A. School board members who serve as liaisons may report on the actions of the organization to the full board, and may bring recommendations or legislation from such organizations to the full board for a vote.

B. Action taken by a board liaison shall not obligate the school board.

C. A board liaison, when appropriate, shall clarify that his/her powers are only advisory, and any binding action must be voted upon by the full school board.

2026-27 School Year Financial Report Analysis

For the Month Ended July 31, 2026

WAYZATA PUBLIC SCHOOLS

Excellence. For each and every student.

Statement of Revenues Analysis

This analysis reflects revenue received by the month end noted above. These numbers are only representative of the first fiscal month of the FY 2026-27. Overall revenues for all funds are relatively similar to prior years. This is primarily due to the timing of year, with actual revenues only making up one month of fiscal activity, which takes place over the summer. We would expect actual revenues received to be very minimal.

Statement of Expenditures Analysis

This analysis reflects actual expenditures and does not include outstanding encumbrances along with only representing the first month of the FY 2026-27. Overall expenditures are relatively similar to prior years including salaries and benefits. As is usually always the case, variations compared to prior years are primarily driven by the timing of projects, timing of purchases of supplies, materials, and capital expenditures along with the timing of payments for purchased services.
