Burnsville-Eagan-Savage School District Policy 527

527 STUDENT USE AND PARKING OF MOTOR VEHICLES; PATROLS, INSPECTIONS, AND SEARCHES

I. PURPOSE

The purpose of this policy is to provide guidelines for use and parking of motor vehicles by students in school district locations, to maintain order and discipline in the schools, and to protect the health, safety, and welfare of students and school personnel.

II. GENERAL STATEMENT OF POLICY

The policy of this school district is to allow the limited use and parking of motor vehicles by students in school district locations. The position of the school district is that a fair and equitable district-wide student motor vehicle policy will contribute to the quality of the student's educational experience, will maintain order and discipline in the schools, and will protect the health, safety, and welfare of students and school personnel. This policy applies to all students in the school district.

III. DEFINITIONS

- A. "Contraband" means any unauthorized item possession of which is prohibited by school district policy and/or law. It includes, but is not limited to, weapons and "look-alikes," alcoholic beverages, controlled substances and "look-alikes," overdue books and other materials belonging to the school district, and stolen property.
- B. "Reasonable suspicion" means that a school official has grounds to believe that the search will result in evidence of a violation of school district policy, rules, and/or law. Reasonable suspicion may be based on a school official's personal observation, a report from a student, parent, or staff member, a student's suspicious behavior, a student's age and past history or record of conduct both in and out of the school context, or other reliable sources of information.
- C. "Reasonable scope" means that the scope and/or intrusiveness of the search is reasonably related to the objectives of the search. Factors to consider in determining what is reasonable include the seriousness of the suspected infraction, the reliability of the information, the necessity of acting without delay, the existence of exigent circumstances necessitating an immediate search and further investigation (e.g., to prevent violence, serious and immediate risk of harm, or destruction of evidence), and the age of the student.

- D. “School district location” means property that is owned, rented, leased, or borrowed by the school district for school purposes, as well as property immediately adjacent to such property that may be used for parking or gaining access to such property. A school district location also shall include off school property at any school-sponsored or school-approved activity, event, or function, such as a field trip or athletic event, where students are under the jurisdiction of the school district.

IV. STUDENT PARKING OF MOTOR VEHICLES IN SCHOOL DISTRICT LOCATIONS

- A. Students are permitted to park in a school district location as a matter of privilege, not of right. Students driving a motor vehicle to a high school campus may park the motor vehicle in the parking lot designated for student parking only. Students will not park vehicles in driveways, on private property, or in parking lots designated for use only by staff or by the general public.
- B. When there are unauthorized vehicles parked on school district property, school officials may:
 - 1. move the vehicle or require the driver or other person in charge of the vehicle to move it off school district property; or
 - 2. if unattended, provide for the removal of the vehicle, at the expense of the owner or operator.

V. PATROLS, INSPECTIONS, AND SEARCHES

School officials may conduct routine patrols of school district locations and routine inspections of the exteriors of the motor vehicles of students. In addition, the interiors of motor vehicles of students in school district locations may be searched when school officials have a reasonable suspicion that the search will uncover a violation of law and/or school policy or rule.

A. Patrols and Inspections

School officials may conduct routine patrols of student parking lots and other school district locations and routine inspections of the exteriors of the motor vehicles of students. Such patrols and inspections may be conducted without notice, without student consent, and without a search warrant.

B. Search of Interior of Student Motor Vehicle

The interiors of motor vehicles of students in school district locations, including glove or trunk compartments, may be searched when school officials have a reasonable suspicion that the search will uncover a violation of law and/or school policy or rule. The search will be reasonable in its scope and intrusiveness. Such

searches may be conducted without notice, without consent, and without a search warrant. A student will be subject to withdrawal of parking privileges and to discipline if the student refuses to open a locked motor vehicle under the student's control or its compartments upon the request of a school official.

C. Prohibition of Contraband and Interference with Patrols, Inspections, Searches, and/or Seizures

A violation of this policy occurs when students store or carry contraband in motor vehicles in a school district location or interfere with patrols, inspections, searches, and/or seizures as provided by this policy.

D. Seizure of Contraband

If a search yields contraband, school officials will seize the item and may turn it over to legal officials for ultimate disposition when appropriate.

E. Dissemination of Policy

A copy of this policy will be printed in the student handbook or disseminated in any other way which school officials deem appropriate.

VI. DIRECTIVES AND GUIDELINES

The superintendent is granted authority to develop reasonable directives and guidelines which address specific needs of the school district related to student use and parking of motor vehicles in school district locations, such as a permit system and parking regulations.

VII. PARKING FEE/PERMIT SYSTEM

If the school district institutes a permit system and intends to charge students a fee for parking permits or makes changes to parking fees, the procedures in Minn. Stat. 123B.38 must be followed before the fees are implemented.

VIII. VIOLATIONS

A student found to have violated this policy and/or the directives and guidelines implementing it shall be subject to withdrawal of parking privileges and/or to discipline in accordance with the school district's Student Discipline Policy, which may include suspension, exclusion, or expulsion. In addition, the student may be referred to legal officials when appropriate.

Re: Change Order #2 2015 Diamondhead Education Center Early Childhood Program Alterations

RECOMMENDATION: That the Board of Education approve change order #2 for the 2015 Diamondhead Education Center Early Childhood Program Alterations Project in the amount of \$91,271.98.

On April 9, 2015 the School Board approved the bid for the 2015 Diamondhead Education Center Early Childhood Program Alterations Project. Change Order #2 is an add of \$91,271.98 to the contract amount.

Items #1, #2, #3, #11 and #15 which total \$73,145.43 are the result of building code corrections that were uncovered and needed to be corrected during construction.

Item #1 is a plumbing code change needed due to inadequate sanitary sewer lines and providing an additional 2 inch water back feed from the lower level.

Item #2 was to add an ADA compliant water cooler.

Item #3 was needed to fire caulk and fire tape the perimeter walls in the lower level and to add ADA compliant casework and to add a directional exit sign and egress lighting.

Item #11 was needed to replace PVC sanitary sewer piping above the ceiling with cast-iron piping to meet fire code.

Item #15 was to add fire rated glass around the atrium to meet fire code.

The cost of updating these violations to current code equates to 80% of the cost of this change order.

Items #4, #5, #6, and #12 are the result of unforeseen conditions found during construction.

Items #4 and #12 are the result of needing to reroute ductwork to build new walls.

Item #5 is a result of a staircase found above an ACT ceiling that needed a soffit built around it.

Item #6 is the result of poor wall conditions in the panda gymnasium that required reinsulating and new gypsum board.

Item #8 was needed because the 3-person wash stations that were specified for this job did not fit so 2-person wash stations were purchased and used. The 3-person wash stations will be used in the Burnsville High School project.

Items #7, #9, #10, and #13 are items that were missed in the construction documents but needed to be done in order to complete this project.

Item #14 was to provide a new 50 gallon hot water heater and a new 6 gallon hot water heater to replace water heaters that were in poor condition.

Item #16 was a deduct for not grouting hollow metal frames, this is typically done when building CMU walls.

The percent of change from the original contract amount of \$972,500 is 11.09%. The new contract amount with change orders is \$1,080,374.61.

The items on this change order have been reviewed and validated by ATS&R Architects and Engineers.

**Re: Change Orders #018, #019, #020, #021, #022R, #023, #024, #025, and #026 for
the 2015 Additions and Alterations to Burnsville High School**

RECOMMENDATION: That the Board of Education approve change orders #018, #019, #020, #021, #022R, #023, #024, #025, and #026 for the 2015 Additions and Alterations to Burnsville High School Bid Package #1.

On May 28th, 2015 the School Board approved the bids for contracts #0600, #0240, #2600, #3100, and #3300 for the 2015 Additions and Alterations to Burnsville High School Bid Package #1.

Change order #018 for contract #2600 (Peoples Electric CO., Inc.) is in the amount of \$9,458.00. Reasons for this change are electrical modifications in the welding room in the Annex, to remove and reinstall conduits to properly install the EIFS on the exterior of Annex and to provide power for a card reader that will be installed for the door modifications at the temporary loading dock location at the High School. The change to this contract is about 3.44%.

Change order #019 for contract #3300 (Viet and Company, Inc.) is in the amount of \$10,215.00. Reasons for this change was to lower the water main that was in conflict with the storm sewer and to add drain tile and a backflow preventer. The change to this contract is about 15.04%.

Change order #022R for contract #0240 (Viet and Company, Inc.) is in the amount of \$10,827.00. Reasons for this change is due to unforeseen conditions found during demolition that required removal of footings and foundations that were concealed, 3 casings for a car hoist and additional demolition. The change to this contract is about 32.74%

Change order #020 for contract #0600 (Ebert Construction) is in the amount of \$14,701.00. The cost of this change order is the result of modifications made to the restrooms in the Annex and to provide new doors at the north end of the High School that will accommodate the removal of garbage and the acceptance of deliveries by our custodial staff (temporary loading dock location).

Change order #025 for contract #0600 (Ebert Construction) is in the amount of \$11,447.00. The reason for this change was to update concrete stairs and stoop and to add additional railings also to remove a failing concrete apron in front of the building and add a new concrete apron. Reinforcement to Rusty support columns is also included in this change order.

Change order #026 for contract #0600 (Ebert Construction) is in the amount of \$2,994.00. The reason for this change was to add an access door at the penthouse in the Annex and to make modifications to the trench drain for reinforcement. The change to contract #0600 with change orders #020, #025 and #026 is about 7.78%.

Change order #021 for contract #3110 (Max Steininger, Inc.) is in the amount of \$22,453.00. Reasons for this change was to add temporary ADA parking stalls and striping to the front of the Burnsville High School and for additional pavement removals and placing base aggregate relating to Dakota Electric and Centerpoint Energy utility relocations. The change to this contract is about 10.79%.

Change order #023 for contract #2300 (Klamm Mechanical) is in the amount of \$3049.00. Reasons for this change was to add a sink and associated plumbing changes including the relocation of an eyewash station in the Annex.

Change order #024 for contract #2300 (Klamm Mechanical) is in the amount of \$6014.00. The reason for this change was due to modifications and design changes in the welding booth piping in the Annex. The change to this contract with change orders #023 and #024 is about 1.21%.

Total change to the original bid package #1 contract amount of \$3,149,439.00 is 7.00%. New bid package #1 total contract amount with change orders to date is in the amount of \$3,374,219.00.

The items on these change orders have been reviewed and validated by ATS&R Architects and Engineers and WENCK Construction Inc.

On Tuesday October 13, 2015 the Burnsville-Eagan-Savage School District opened sealed bids at 2pm. Wenck Construction, ATS&R and Glenn Simon were present for the bid opening. Bid Pack #4 included 13 (thirteen) alternates. Note Alternates #8,#12 and #13 were rejected. A description of the alternates are attached. The attached recommendation letter from Wenck Construction includes the details of each proposed bid and the recommended lowest responsible bidder for each contract base and accepted alternates for Part 2. Due to this project utilizing a Construction Management as agent (WCI) there is not one general contractor; rather, there is a number of prime contractors which will require awarding of bids to each and the signing of a contract with each prime contractor.

Due to the large number of contracts included in Bid Package #4 (25); the process of interviews and verification of bid numbers is expected to take some time and will be recommended in three (3) parts. Therefore on October 22, the board approved those contracts most time critical for which the process had progressed enough to be able to award the bid as Part 1. Part 2 includes the remaining contracts presented for formal board action at this time, with the exception of the following contracts:

- #0335 Polished Concrete Flooring – No conforming bids were received, therefore we are proceeding with obtaining quotes.
- #0790 Caulking – No conforming bids were received, therefore we are proceeding with obtaining quotes.
- #1044 Signage – Process is incomplete to be able to award the bid, interview still needed; plan to have complete by 11/19/15 Board meeting for recommendation Part 3.
- #1420 Elevators - Process is incomplete to be able to award the bid, interview still needed; plan to have complete by 11/19/15 Board meeting for recommendation Part 3.
- #2100 Fire Protection – Recommend all bids to be rejected; clarification needed for specs and to be rebid.

This recommendation as well as one of the letters of recommendation from Wenck Construction refers to Owner Direct Purchase for Finishes, Specialties, and Equipment. This owner direct purchase allows for the district to maximize its' tax exempt status in making this purchase direct.

The contracts for contractors have been developed with the assistance of our construction attorney, Michael Rowley of Terhaar, Archibald, Pfefferle, and Griebel, LLP (TAP&G); Wenck Construction Incorporated (WCI); and Krause Anderson (Property Casualty Insurance) representation. This contract will be finalized in the coming weeks. We ask that the board authorize the signing of these contracts to allow for the work to begin as soon as possible.

RE: ADDITIONS AND ALTERATIONS TO BURNSVILLE HIGH SCHOOL - BID PACKAGE #4

Dear Mr. Simon:

Based upon bid results and the results of our pre-award conferences with the apparent low bidder(s), we are making a recommendation for award of the following prime contracts, including the base bid and Alternates #1-#7, and #9-#11. We are also recommending that the School Board reject all bids and rebid Contract #2100 - Fire Protection due to an ambiguity in the technical specifications.

Re: Award the bid for the Districtwide Security Camera Project

RECOMMENDATION: That the Board of Education award the base bid for the districtwide security camera project in the amount of \$144,189 to Trans Alarm.

On Thursday, October 8th, 2015, bids for the districtwide security camera project were opened and publicly read aloud. Four bids were submitted; the low bid of \$144,189.00 is within the budgeted amount for this project.

Attached are the bid tabulation results as well as Strategic Sources recommendation letter.

Client Objectives

Client has submitted two quotes for a Surveillance Camera Security Project. The cost estimate (\$100,000) demands a formal bid process for MN school districts. The objective is to prepare the formal RFB, defined by the same specifications for the servers on the existing quotes; which are Supporting Documents 1 & 2. Sourcing must submit the formal RFB to client for approval prior to sending it out.

Client Category Strategy

- RFQ Renegotiate Certified Supplier

Recommendation

Based on our analysis of your requirements and the comparison of your existing pricing to the quotes we received, we recommend that your security camera equipment and installation for the Burnsville School District ISD 191 be purchased from Trans Alarm. By selecting this supplier you will save \$32,183 or 18% over the average submitted quote.

To prepare for this analysis, we conducted a formal bid process. We collected the bids and compared submitted bids to the average of the bids.

Agenda Comments

Other Benefits

(1.) 1 year warranty on materials and workmanship.

Key Assumptions

Re: Approve Financial Audit Report for 2014-2015

RECOMMENDATION: That the Board of Education approve the Financial Audit Report for 2014-2015

CliftonLarsonAllen will provide an overview of the Comprehensive Annual Financial Report (CAFR) for the 2014-2015 fiscal year during the board meeting November 5, 2015. Electronic copies of the Financial Audit Report for 2014-2015 have been made available to the board members and the bound copies will be made available in print to Members of the Board on Thursday evening. Once approved by the Board of Education electronic copies of the report will be made available via the website for the public.

There are three main reports.

- 1) Comprehensive Annual Financial Report (CAFR)
- 2) Schedule of Expenditures of Federal Awards and Other Required Reports
- 3) Executive Audit Summary (EAS)

The EAS is prepared by CliftonLarsonAllen and provides a nice summary of the CAFR including a legislative summary. This is a good starting point in absorbing the Annual Financial Audit.

Next, I would suggest the reading of the Introductory Section, Financial Section and Required Supplementary Section within the CAFR for overviews on the Financial Audit.

Highlights include:

- “Unmodified” Audit Report
- No compliance issues noted
- No “material weaknesses” in internal controls noted
- No Single Audit findings
- No Legal Compliance Findings
- General Fund unassigned fund balance decreased by \$1,153,564

BUSINESS OFFICE • 100 River Ridge Court • Burnsville, MN 55337

- Budget to Actual Variance on General Fund total revenues of 2.0% to the positive impact on Fund Balance.
- Budget to Actual Variance on General Fund total expenditures of 0.3% to the positive impact on Fund Balance.
- Due to the implementation of GASB Statement Nos. 68 and 71; Net position of the District as of June 30,2015 in total decreased by \$82,267,739 below the net position as of June 30,2014.

I recommend the Board of Education approve the Financial Audit Report for 2014-2015.

INTRODUCTION

The comprehensive annual financial report (CAFR) of Independent School District No. 191, Burnsville, Minnesota (the District) for the fiscal year ended June 30, 2015 is hereby presented for your information and review. The CAFR is intended to fully disclose the financial position of the District and the results of operations for the fiscal year. Every effort has been made to ensure the reliability and integrity of the data contained herein. Although that data was received from many sources, the accuracy and thoroughness of this report rests solely with the District. This report belongs to the citizens of the Burnsville – Eagan – Savage community, for it describes, in financial terms, the position and operating results of the District. Questions and comments are solicited and welcome.

REPORT FORMAT

This CAFR is presented in three main sections: introductory, financial, and statistical. In addition to information contained in this letter, the introductory section includes the District's organizational chart, a list of the District's principal officials, and the Association of School Business Officials Certificate of Excellence in Financial Reporting Award. The financial section includes the independent auditor's report, Management's Discussion and Analysis (MD&A), basic financial statements, notes to basic financial statements, and detailed combining and individual statements and schedules. The statistical section includes selected financial and general information presented on a multi-year comparative basis. Where possible, historical data is presented for a 10-year period.

Accounting principles generally accepted in the United States of America require management to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in a separate Management's Discussion and Analysis (MD&A) section of the report. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A of the District can be found immediately following the report of the independent auditors.

DISTRICT ORGANIZATION

The District was incorporated in 1955 and serves parts of five suburban communities in the Minneapolis/St. Paul area. The District is guided by its mission:

Our Schools will:

*Empower Learning,
Energize Achievement,
Embrace Community*

Each Student Real-World-Ready

The District enrolled 9,309 students from a population of over 67,370 citizens residing in a 37 square mile area. During 2014-15, the District operated 19 buildings: 1 high school, 1 alternative high school, 3 junior high schools, 10 elementary schools, 3 special services buildings, and an office building. The District is organized by grade level with elementary schools serving students in kindergarten through Grade 6, junior highs serving Grades 7–9, and the high schools serving Grades 10–12.

REPORTING ENTITY

The District's financial statements include all funds, departments, agencies, boards, commissions, and other component units for which the District is considered to be financially accountable. Component units are legally separate entities for which the District (primary government) is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit includes whether or not the primary government appoints the voting majority of the potential component unit's governing body, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally depended upon by the potential component unit.

Based on these criteria, there are no organizations considered to be component units of the District.

FINANCIAL STATEMENTS

The financial statements contained in this report disclose the financial position of the District as of June 30, 2015 and the financial operations for the fiscal year then ended. The District's financial records and reports are maintained and prepared on a modified or full accrual basis of accounting in accordance with the Uniform Financial Accounting and Reporting System for Minnesota School Districts as well as the standards of the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants. These records are audited annually by an independent certified public accountant as required by Minnesota law. The accounting firm of CliftonLarsonAllen LLP performed the audit for the 2014-15 fiscal year. Their report is included in the financial section of this report. The auditor has given an unmodified opinion on the District's financial statements. An unmodified opinion means that, in the judgment of the auditor, the financial statements present fairly, in all material respects, the financial position of the District and the results of its operations for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

FEDERAL SINGLE AUDIT AND STATE COMPLIANCE AUDIT

The independent audit of the financial statements of the District is part of a broader, federally mandated Single Audit designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited district's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. The District is also required to undergo an annual Minnesota State Legal Compliance Audit under Minnesota Statute §6.65. These reports are available in a separate document.

ACCOUNTING AND BUDGETING

A major thrust of the District's accounting system is to provide adequate internal accounting controls. These controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition, and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of internal controls should not exceed the benefits likely to be derived, and that the evaluation of the cost and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. We believe that the District's internal accounting controls adequately safeguard assets and provide reasonable assurance for proper recording of financial transactions.

Budgetary control is maintained through an annual budget adopted by the School Board for all funds as required by state statutes and School Board policy. The adopted budget serves as the authorizing document for all expenditures, although the School Board approves all checks issued on a monthly basis. The superintendent and business manager are authorized to make financial commitments within budgetary guidelines for contracts not requiring sealed bids. Additional expenditure controls are maintained by the Business Office in accordance with state statutes, i.e., the District cannot incur a negative unassigned balance in the General Fund in excess of 2.5 percent of the preceding year's expenditures. The budget is published annually to inform residents of the District's financial position and operating plan for the fiscal year. The School Board receives Board reports on monthly revenue and expense reports. Program managers may receive weekly budget reports via email which indicate the approved budget on a line item basis; the month-to-date and year-to-date revenues, expenditures, and encumbrances assigned to those line items; the budget remaining; and the percent earned or expended to date. Monthly monitoring of revenues and expenditures by the School Board as well as ongoing monitoring by program managers helps to ensure budget integrity and provides an opportunity to detect material budget variances before the end of the fiscal year.

The budget is adopted by the School Board in the spring of each year for the following fiscal year beginning July 1. In the winter, the budget is revised based upon enrollment changes, effects of negotiated employee contracts, or other new information impacting revenues or expenditures. The revised budget is presented to the School Board for approval. To accurately track and report financial activities with a focus on site-based accounting, approximately 13,000 accounts have been defined in the District's chart of accounts.

SIGNIFICANT EVENTS

The District's finances are largely dependent on student enrollment. Since 2002-2003 the District has experienced a decline in the number of students enrolled in the District's schools. This is a natural occurrence in a fully developed community and is the result of smaller kindergarten cohorts replacing a larger graduating class. For 2014-15, the incoming kindergarten enrollment was larger than the senior class graduating. Grades K-11 have a range in class size from a low of 651 to a high of 791 students. The result is an indication of an enrollment with a lesser decline than has been experienced in the past 12 years. Indicators show our resident population leveling and our served population is projected to begin increasing in the years to come.

Declining enrollment and the lack of a funding increase from the state have placed the District in the position of a need to reduce expenditures to balance the budget in recent years. Most of the District's operating revenue is directly related to the number of students enrolled in its schools. While revenues decline in direct proportion to the change in enrollment, expenditures decline at a much slower rate because the enrollment change is spread over all 15 schools and 13 grades. As student numbers decline, the number of teachers providing direct services to students can be reduced accordingly and some cost reduction occurs. Other costs, such as facility operations, are not proportionally related to enrollment and cannot be adjusted as readily. Strong expenditure curtailment measures were imposed in 2005–2006, 2006–2007, 2007–2008, and 2011-12 in an effort to ensure a favorable financial result. These ongoing efforts to curtail expenditures have allowed the District to improve the fund balance in its General Fund. Fiscal years 2013-2014 and 2014-2015 have seen a planned spend down of the unassigned fund balance in favor of maintaining needed educational supports for our students.

FINANCIAL PROSPECTS FOR FUTURE YEARS

The District has a long history of maintaining positive fund balances and matching revenues with expenditures. Residents of the District have repeatedly supported the District's efforts to increase revenues through levy referenda. The District has two separately authorized levy referenda. The first, in the amount of \$630.52 per pupil unit (\$727.33 per adjusted pupil unit under new law), was approved in November 2007 and is set to expire after 2017-2018. The second, in the amount of \$845.68 per pupil unit (\$975.53 per adjusted pupil unit under new law), was approved November 2011 and is set to expire after 2022-2023. The support shown by residents most recently in the fall of 2011 has allowed for stability in delivery of services to our students for at least the next three years at which time the first referenda will need to be addressed.

The State Legislature has increased the general education formula some this past three biennium after not increasing funding per student for the two previous biennium. Unfortunately, the declining enrollment, near flat funding, and inflationary expenditure increases have created budget gaps and are at risk of continuing going forward. The District has taken significant measures to conserve budget. The results of the 2014-2015 fiscal year show a decrease to the fund balance for the second year in a row including planned spend down of fund balance. It must be noted fund balance is available for use only once so the ability to maintain stability will be dependent on the district's ability to keep expenditures within revenues each year beyond the use of the fund balance that may be available.

Continued financial uncertainty is likely to be the major challenge of the next decade. While enrollment, staffing, and expenses can be projected, it is impossible to predict with any certainty the configuration or adequacy of funding formulas to be enacted in the future by the Legislature. Nonetheless, the District is committed to maintaining programs and services and to operating within its financial limitations. As the District approaches the 2015-2016 revised budget and the 2016-2017 adopted budget, curriculum based decisions will be at the forefront of the discussion as closing the achievement gap and increasing student achievement for all students remains the District's priority. The District will continue to contain expenditures whenever possible and make budget adjustments to keep the planned spend down of expenditures at a level that allows for long-term financial sustainability.

ECONOMIC FACTORS

The District is located in Dakota and Scott Counties, both of which are located in the seven-county metro area of Minneapolis/St. Paul. The cities that comprise the District are suburban communities. Residents are typically employed in professional vocations within the metropolitan area. The economic downturn of the past years has had some effect on the community as evidenced by greater mobility and increased participation in the free and reduced price lunch program.

The taxable market value of property within the District is generally expected to improve. While the District is essentially fully developed residentially, commercial development and redevelopment is clearly evident throughout the community. Overall market improvement is evident in the increased 2014 total market value.

The state of Minnesota assumes major responsibility for funding public education. In the District, approximately 25 percent of our revenues are generated locally from the property tax and 70 percent of the property tax is the result of voter approved, local initiatives. This includes the referendum that was approved in November 2002, renewed in November 2011, which provided revenue in the amount of \$11,000,000 commencing in fiscal year 2004 as well as the referendum that was approved in November 2007 which provided revenue in the amount of \$6,750,000 commencing in fiscal year 2009.

Reliance on the state for the majority of its operating revenues places the District in the position of being dependent on state-wide economic conditions that drive state tax collections. The State Legislature has provided some increases to the basic formula and categorical funding for the 2015-2017 biennium. Even with the two percent increase on the formulas for 2015-2017; this increase does not keep pace with inflation. The District has responded to this financial challenge by curtailing expenditures when possible, revamping the budget process and by judiciously drawing on fund reserves to maintain programs and services.

MAJOR INITIATIVES

The average age of the District's attendance centers is 41.23 years. On February 24, 2015 the district voters' approved a \$65 million building bond to ensure space availability across all of our schools. A grade re-configuration is planned effective for the 2016-2017 school year. This will move I.S.D. 191 to a 9-12 grade high school; 6-8 grade middle schools; and PK-5 potential for our elementary schools. Construction is underway throughout all of the 2015-2016 school year and through the following summer with planned occupancy in the fall of 2016. The bond issuance covers a significant addition to the Burnsville High School adding 27 classrooms and activity center. Also included are security improvements across all schools and some modifications to five elementary buildings, two middle schools, and two other educational buildings within the district. Also on February 24, 2015 the district voters' approved a capital project levy for technology which will add \$2.5 million annually effective 2016-2017 for ten years. Both questions approved by voters support Vision One91 encompassing the reconfiguration of grades and improving use of technology throughout our schools focusing on student achievement.

CERTIFICATE OF EXCELLENCE

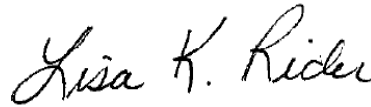

This report will be submitted to the Association of School Business Officials International for consideration for the Certificate of Excellence in Financial Reporting. The District received this award for the past 26 fiscal years and expects to continue to earn the recognition that accompanies the standards of accuracy and thoroughness acknowledged by the Certificate of Excellence program.

ACKNOWLEDGMENTS

The time, effort, and attention that goes into the timely preparation of a CAFR requires the commitment and cooperation of many people. Special appreciation must be extended to the entire Business Office staff for their dedication and to the School Board for their encouragement and leadership.

INDEPENDENT AUDITORS' REPORT

School Board
Independent School District No. 191
Burnsville, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 191, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 191 as of June 30, 2015, and the respective changes in financial position, the respective budgetary comparison for the General, Food Service and Community Service funds and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter Regarding Prior Period Adjustment

During fiscal year ended June 30, 2015, Independent School District No. 191 adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and the related GASB Statement No. 71, *Pension Transitions for Contributions Made Subsequent to the Measurement Date-an Amendment of GASB Statement No. 68*. As a result of the implementation of these standards Independent School District No. 191 reported a restatement for the change in accounting principle (see Note 15). Our auditors' opinion was not modified with respect to the restatement.

Report on Summarized Prior Year Information

We have previously audited Independent School District No. 191's 2014 financial statements of the governmental activities, each major fund and the aggregate remaining fund information, and we expressed an unmodified opinion on those audited financial statements in our report dated December 1, 2014. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2014 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of funding progress for other postemployment benefits, schedules of the District's proportionate share of net pension liability, and schedules of the District's pension contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Independent School District No. 191's basic financial statements. The combining and individual fund financial statements, uniform financial accounting and reporting standards compliance table and introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Other Matters (Continued)

Other Information (Continued)

The combining and individual fund financial statements and the Uniform Financial Accounting and Reporting Standards (UFARS) compliance table are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 26, 2015, on our consideration of the Independent School District No. 191's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Independent School District No. 191's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2015**

This section of Independent School District No. 191's comprehensive annual financial report presents its discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2015. Please read it in conjunction with the District's financial statements, which immediately follow this letter.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Government Accounting Standard Board's (GASB) Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued in June 1999.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2014-15 fiscal year include the following:

- Net position of the District in total decreased by \$82,267,739 or (-141.39%) below June 30, 2014 as a result of implementing GASB Statement No, 68, which reflects the recognition of the District's proportionate share of the Public Employees' Retirement Association of Minnesota General Employees' Retirement Fund's net pension liability as well as the District's portion of the Teacher's Retirement Association's Coordinated and Basic Plan net pension liability.
- Government-wide revenues totaled \$140,599,947 and expenses were \$144,192,531.
- The total fund balance of the General Fund, as presented in the governmental funds, decreased by \$1,282,725 from the prior year.
- The unassigned fund balance in the General Fund decreased by \$1,162,907 from \$15,968,345 to \$14,805,438.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of four parts: Independent Auditors' Report, Required Supplementary Information which includes MD&A (this section), the basic financial statements, and supplementary information.

The basic financial statements include several statements that present different views of the District:

- The **government-wide financial statements**, including the *Statement of Net Position* and the *Statement of Activities*, provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are **fund financial statements** that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.
- **Governmental funds statements** tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
- **Proprietary funds statements** offer short- and long-term financial information about the activities the District operates like businesses.
- **Fiduciary funds statements** provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others to whom the resources belong.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data.

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's *net position* and how they have changed. Net position – the difference between the District's assets plus deferred outflows of resources and liabilities plus deferred inflows of resources – is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements the District's activities are shown in one category:

- **Governmental Activities** – Most of the District's basic services are included here, such as regular and special education, transportation, administration, food services, and community education. Property taxes and state aids finance most of these activities.

**BURNSVILLE-EAGAN-SAVAGE PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 191
MANAGEMENT'S DISCUSSION AND ANALYSIS

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds* – focusing on its most significant or “major” funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The District may establish other funds to control and manage money for particular purposes (e.g., repaying its long-term debts) or to show that it is properly using certain revenues (e.g., federal grants).

The District has three kinds of funds:

- *Governmental Funds* – Most of the District's basic services are included in governmental funds, which generally focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information following the governmental funds statements to explain the relationship (or differences) between them.
- *Proprietary Funds* – The District uses internal service funds to report activities that provide supplies and services for the District's other programs and activities. The District currently has four internal service funds for self-insured health and dental benefits and its severance and postemployment benefits liabilities.
- *Fiduciary Funds* – The District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship funds and the flexible benefit plan. The District is responsible for ensuring that the assets are reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Position

The District's combined net position was \$(24,081,608) on June 30, 2015. This was a decrease of 141.39% from the prior year (see Table A-1). Net position decreased (\$3,592,584) from current year activities, plus a decrease due to a prior period restatement of (\$78,675,155) due to implementation of GASB Nos. 68 and 71 recognizing net pension liabilities, for a total decrease of (\$82,267,739).

**Table A-1
The District's Net Position**

	Governmental Activities as of June 30,		Percentage Change

Unrestricted	(58,671,372)	21,984,806	(366.87)
Total Net Position	\$ (24,081,608)	\$ 58,186,131	(141.39)

The District's financial position is the product of many factors. For example, the determination of the District's net investments in capital assets involves many assumptions and estimates, such as current and accumulated depreciation amounts. A conservative versus liberal approach to depreciation estimates, as well as capitalization policies, will produce a significant difference in calculated amounts.

The District's overall financial position declined significantly from the 2014 fiscal year, as total net position decreased \$82,267,739. The District is able to report positive balances in two of three categories of net position. The largest positive portion of the District's net position represents its investment in capital assets (land, buildings, equipment, etc.) less any related debt used to acquire those assets that is still outstanding. This element of net position decreased by (\$3,389,825) in the current fiscal year.

Another portion of the District's net position, restricted net position represents resources that are subject to external restrictions on how they may be used. This portion of the District's net position increased by \$1,778,264 in the current year. The remaining unrestricted net position is that which may be used to meet the District's ongoing obligations. This portion of net position decreased (\$80,656,178) in the current fiscal year, however (\$78,675,155) is related to a prior period adjustment for the implementation of a new GASB statement Nos. 68 and 71 recognizing net pension liabilities.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2015**

The cost of all *governmental* activities this year was \$144,192,531.

- Some of the cost was paid by the users of the District's programs (Table A-2, Charges for Services, \$6,848,689). The majority of this category, approximately \$5.1 million, comes from food service meal sales and community education class tuition.
- The federal and state governments subsidized certain programs with grants and contributions (Table A-2, Operating and Capital Grants and Contributions, \$29,737,748).
- Most of the District's costs were paid for with local property taxes, unrestricted state aid, investment earnings, and other general revenues. Governmental activities were paid for with \$32,986,831 in property taxes, \$68,576,907 of unrestricted state aid, and with investment earnings and other general revenues.

All governmental funds include not only funds received for the general operation of the District but also include resources from the entrepreneurial-type funds of Food Service and Community Education. Funding for the general operation of the District is controlled by the state and the District does not have the latitude to allocate money received in Food Service or Community Education or for fiscal services to enhance general operation resources.

Table A-3, seen below, presents the cost of twelve major District activities such as, instruction, pupil and instructional services, administration and business, maintenance and operations, transportation, and others. The table also shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs).

The cost of all governmental activities this year was \$144,192,531, an increase of \$8,463,881 over the prior year. After applying program specific revenue, the net cost of all governmental activities this year was \$106,207,313 or an increase of \$7,848,483 from the prior year. The main reason for the increase in the net cost of services was due to program specific revenues remaining flat while expenditures increased due to inflation and salary increases as well as the building construction process wrapped up at BHS and beginning again for Vision One91.

Financial Analysis of the District's Funds

The financial performance of the District as a whole is reflected in its governmental funds. The General and Capital Projects-Building Construction funds had less revenues than expenditures in 2015, thereby contributing to the decrease in individual fund balance. At the end of the 2014-15 fiscal year, the District's governmental funds reported combined fund balances of \$97,957,972. This is a 158.6% increase over the prior year. The increase is primarily due to bond proceeds in excess of \$66 million received in the spring of 2015 for the Vision One91 projects to be substantially completed within the district by the fall of 2016-2017 school year.

**BURNSVILLE-EAGAN-SAVAGE PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 191
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2015**

Revenues and other financing sources for the District's governmental funds were \$212,136,020, while total expenditures other financing uses were \$152,054,870. As a result, the District completed the year with a net change in fund balances of \$60,081,150.

General Fund

The General Fund is used to account for all revenues and expenditures of the school district not accounted for elsewhere. The General Fund is used to account for: K-12 educational activities; district instructional and student support programs; expenditures for the superintendent; district administration; normal operations and maintenance; pupil transportation; capital expenditures; and legal school district expenditures not specifically designated to be accounted for in any other fund.

ENROLLMENT

Enrollment is a critical factor in determining revenue with approximately 70% of General Fund revenue being determined by enrollment. Like many Minnesota school districts, the District has been facing declining enrollment. During the last five years, the District has averaged a 1.1% decrease in students per year. The decrease from 2014 to 2015 was 1.68%. The following chart reflects that the number of students has decreased over the last ten years.

Total General Fund Revenue	<u>\$ 118,595,443</u>	<u>\$ 114,381,341</u>	<u>\$ 4,214,102</u>	3.7

General Fund revenue increased by \$4,214,102 or 3.7% from the previous year.

Property taxes increased \$5,983,754. This increase is mainly a result of no tax shift compared to prior year.

State Sources decreased by \$922,886. The decrease is primarily due to decline in enrollment.

Federal Revenue is recorded in the year in which the related expenditure is made. Federal Sources decreased by \$125,596. The decrease is primarily due to a lesser use of special education federal funds.

General Fund Revenue is received in two major categories as follows:

1. State Education Finance Appropriations
 - A. General Education Aid – The largest share of the education finance appropriation, general education aid, is intended to provide the basic financial support for the education program and is enrollment driven.
 - B. Categorical Aids – Categorical revenue formulas are used to meet costs of that program (i.e. special education) or promote certain types of programs (i.e., career and technical aid, staff development, operating capital).
2. Property Tax Levies

The largest share of the levy is from voter-approved levies: the excess operating referendum which is also enrollment driven.

The following schedule presents a summary of General Fund Expenditures.

**Table A-6
General Fund Expenditures**

	Year Ended		Amount of Increase (Decrease)	Percent Increase (Decrease)
	June 30, 2015	June 30, 2014

Other Expenditures	1,257,357	1,098,589	158,768	14.5
Total Expenditures	<u>\$ 120,386,631</u>	<u>\$ 116,179,878</u>	<u>\$ 4,206,753</u>	3.6

Total General Fund expenditures increased \$4,206,753 or 3.6% from the previous year. The majority of this increase was related to step and lane increases for staffing as well as increased benefit expenditures related to health insurance.

In fiscal 2015, salary and employee benefit costs increased primarily due to approved increases in salary of the various bargaining groups. Other factors impacting salaries and benefits were longevity, education, pay rates, other items included in bargaining agreements, increases in TRA employer contributions, and the rising health insurance premiums. The District continues to look at various strategies to minimize the impact of rising health insurance premiums through self- insurance, wellness initiatives and employee education.

Purchased Services and Supplies and Materials consist of expenditures for fees for service, postage, utilities, diesel and gasoline, property insurance, maintenance repairs, leases, travel, telephone, tuition, transportation, instructional supplies and textbooks. The main increase in these categories was due to the additional substitute and transportation costs in fiscal year 2014-15.

General Fund Budgetary Highlights

After initial approval of the budget, the District revised the budget based on changes in unbudgeted costs or revenue changes. While the District anticipated, in its final budget, that the net change in fund balance would be a decrease of \$4,402,490, total fund balance decreased by \$1,282,725 resulting in a fund balance of \$20,677,866 at June 30, 2015.

Actual revenues were \$2,306,045 more than budgeted primarily due to conservative State Sources budgeting. The actual expenditures were \$305,257 less than budgeted due to increases in salaries and benefits.

Food Service Fund

The Food Service Fund revenue and other financing sources for 2014-15 totaled \$5,376,368 and expenditures were \$5,016,679. The June 30, 2015 fund balance is \$1,755,459, an increase of \$359,689 from fiscal year 2014. Actual revenues and other financing sources were \$153,108 higher than budget mainly due to increased federal revenue. Actual expenditures were \$171,693 lower than budget mainly due to decrease in capital outlay. These variances resulted in the change in fund balance being \$324,801 higher than budgeted.

Community Service Fund

The Community Service Fund revenue for 2014-15 totaled \$6,182,524 and expenditures were \$6,069,954. The June 30, 2015 fund balance is \$818,440, an increase of \$112,570 from fiscal year 2015. The increase in fund balance is due to increase in programming with revenues greater than expenditures.

Capital Projects-Building Construction Fund

The Capital Projects-Building Construction Fund revenue and other financing sources for 2014-15 totaled \$66,051,096 and expenditures were \$6,803,463. The June 30, 2015 fund balance is \$71,537,739, an increase of \$59,247,633 from fiscal year 2014. The increase in fund balance is due to bond proceeds from the 2015A School Building Bonds which will be spent down over the next two fiscal years as the building projects are completed for Vision One91.

Debt Service Fund

The Debt Service Fund is used to record revenues and expenditures for a school district's outstanding bonded indebtedness, whether for building construction, operating capital, or for initial or refunding bonds. The Debt Service Fund revenue and other financing sources for 2014-15 totaled \$15,422,126, an increase of \$5,855,467 from fiscal year 2014. The expenditure budget is based on the payment schedule of bond principal and interest on the general obligation bonds, including refunding bonds issued from 2004 through 2015.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

By the end of 2015, the District had invested over \$226 million in a broad range of capital assets, including school buildings, athletic facilities, computer and audio-visual equipment, and administrative offices (see Table A-7). The most significant change from last year is the completion of projects decreasing Construction in Progress and increasing Building and Improvements and related Depreciation. (More detailed information about capital assets can be found in Note 3 to the financial statements.) Total depreciation expense for the year was just over \$6.8 million.

FACTORS BEARING ON THE DISTRICT'S FUTURE

With the exception of the voter-approved operating referendum, the District is dependent on the State of Minnesota for most of its revenue authority. Recent experience demonstrates that legislated revenue increases have not been sufficient to meet instructional program needs and increased costs due to inflation.

The basic revenue formula allowance increased to \$5,831 in fiscal 2015. The 2013 Legislature approved an increase in the General Education formula while at the same time changed the weighting for various grades served beginning in 2015. The funding formula has been below the current annual rate of inflation for the last twenty years. Accordingly, the District continues to utilize sophisticated enrollment and financial planning tools, along with detailed and conservative budgeting and budget monitoring processes. The District will continue to seek all available sources of funding, respond to enrollment decreases, balance revenue to expenditures, and maintain systems that ensure financial stability.

The District will strive to maintain its long-standing commitment to academic excellence and educational opportunity for students within a framework of financial fiduciary responsibility.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGE IN FUND BALANCE
GOVERNMENTAL FUNDS TO STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2015
(WITH SUMMARIZED FINANCIAL INFORMATION FOR YEAR ENDED JUNE 30, 2014)**

	2015	2014
Net Change in Fund Balance - Total Governmental Funds	\$ 60,081,150	\$ (9,443,901)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital Outlays	6,138,267	8,496,560
Gain (Loss) on Disposal of Capital Assets	2,718	5,186
Proceeds from Sale of Capital Assets	(4,818)	(5,535)
Depreciation Expense	(6,816,190)	(6,379,479)

Some capital asset additions are financed through capital leases. In governmental funds, a capital lease arrangement is considered a source of financing, but in the statement of net position, the lease obligation is reported as a liability. Repayment of capital lease principal is an expenditure in the governmental funds, but repayment reduces the lease obligation in the statement of net position.

Other Financing Source - Capital Lease	(503,645)	-
Change in Accrued Interest Expense - Capital Leases	(5,699)	4,175
Principal Payments - Capital Leases	687,478	531,060

The governmental funds report bond proceeds as financing sources, while repayment of bond principal is reported as an expenditure. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduces the liability. Also, governmental funds report the effect of premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, however, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of general obligation bonds and related items is as follows:

General Obligation Bond Proceeds	(68,450,000)	-
Payment to Refunded Bond Escrow Agent	4,015,000	-
Bond Premium	(2,609,184)	-
Payment of Special Assessment Principal	-	6,721
Repayment of Bond Principal	5,350,000	5,390,000
Change in Accrued Interest Expense - General Obligation Bonds	(241,112)	130,065
Amortization of Bond Premium	257,683	159,382

Delinquent property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and, therefore, are unearned in the funds.	(225,502)	29,338
---	-----------	--------

Other postemployment benefits are reported in the government funds when amounts are paid. The statement of activities reports the values of benefits earned during the year.	500,911	64,822
--	---------	--------

In the statement of activities, certain operating expenses - compensated absences - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).	19,273	146,480
---	--------	---------

Pension expenditures on the governmental funds are measured by current year employee contributions. Pension expenses on the Statement of Activities are measured by the change in Net Pension Liability and the related deferred inflows and outflows of resources.	(2,066,337)	-
---	-------------	---

Internal service funds are used by the District to charge certain costs to individual funds. The net revenue of the internal service funds is reported with governmental activities.	277,423	430,239
--	---------	---------

Change in Net Position of Governmental Activities	\$ (3,592,584)	\$ (434,887)
--	-----------------------	---------------------

NOTES TO BASIC FINANCIAL STATEMENTS

**BURNSVILLE-EAGAN-SAVAGE PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 191
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The financial statements of Independent School District No. 191 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

B. Financial Reporting Entity

Independent School District No. 191 (the District) is an instrumentality of the State of Minnesota established to function as an educational institution. The elected School Board (Board) is responsible for legislative and fiscal control of the District. A Superintendent is appointed by the Board and is responsible for administrative control of the District.

GAAP requires that the District's financial statements include all funds, departments, agencies, boards, commissions, and other organizations which are not legally separated from the District. In addition, the District's financial statements are to include all component units - entities for which the District is financially accountable.

Financial accountability includes such aspects as appointing a voting majority of the organization's governing body, significantly influencing the programs, projects, activities or level of services performed or provided by the organization or receiving specific financial benefits from, or imposing specific financial burden on, the organization. There are no other entities for which the District is financially accountable.

Student activities are determined primarily by student participants under the guidance of an adult and are generally conducted outside school hours. The School Board does have a fiduciary responsibility in establishing broad policies and ensuring that appropriate financial records are maintained for student activities. However, in accordance with Minnesota State Statutes, the District's School Board has not elected to control or exercise oversight responsibility with respect to the underlying student activities. Accordingly, the student activity accounts are not included in these financial statements.

The District is a member of Technology and Information Education Services (TIES), a consortium of Minnesota school districts that provides data processing services and support to its member districts. TIES is a separate legal entity that is financially independent of the District. Further, the District does not appoint a voting majority of TIES' Board of Directors. Therefore, TIES is not included as part of the District's reporting entity. During fiscal year ended June 30, 2015, the District paid TIES \$1,346,472 for services and technology purchased.

C. Change in Accounting Principle

During fiscal year ended June 30, 2015, the District adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and the related GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date-an amendment of GASB Statement No. 68*. The primary objective of these Statements is to improve accounting and financial reporting by state and local governments for pensions. They also improve information provided by state and local government employers and financial support for pensions that is provided by other entities. See Note 7 for more detail of the effect of this change in accounting principle on the financial statements.

D. Basic Financial Statement Presentation

The Government-wide financial statements (i.e. the statement of net position and the statement of activities) display information about the reporting government as a whole. These statements include all the financial activities of the District, except for the fiduciary funds. The Fiduciary Funds are only reported in the statement of fiduciary net position at the fund financial statement level.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The District applies restricted resources first when an expense is incurred for purpose for which both restricted and unrestricted net position is available. Depreciation expense that can be specifically identified by function is included in the direct expenses of each function. Interest on long-term debt is considered an indirect expense and is reported separately on the statement of activities. Generally, the effect of material interfund activity has been removed from the Government-wide financial statements.

Separate fund financial statements are provided for governmental and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Fiduciary funds are presented in the fiduciary fund financial statements by type: pension (or other employee benefit) trust, private purpose trust and agency. Since, by definition, fiduciary fund assets are being held for the benefit of a third party and cannot be used for activities or obligations of the District, these funds are excluded from the Government-wide statements.

D. Basic Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's internal service funds are charges for services in the form of dental and health insurance premiums, severance contributions and other postemployment benefit contributions. Operating expenses for the internal service funds include the cost of services. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts advance recognized in accordance with a statutory "tax shift" described later in these notes. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

Proprietary funds are reported using the economic resources method and the accrual basis of accounting. All assets and liabilities associated with their activity are included on their statement of net position. Revenues are recognized when earned and expenses are recognized when incurred. Regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner:

1. Revenue Recognition

Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Property tax revenue is generally considered as available if collected within 60 days after year-end. State revenue is recognized in the year to which it applies according to Minnesota Statutes and GAAP. Minnesota Statutes include state aid funding formulas for specific fiscal years. Federal revenue is recorded in the year in which the related expenditure is made. Food service sales, community education tuition, and other miscellaneous revenue (except investment earnings) are recorded as revenues when received because they are generally not measurable until then. Investment earnings are recorded when earned because they are measurable and available. A six-month availability period is generally used for other fund revenue.

E. Measurement Focus and Basis of Accounting (Continued)

2. Recording of Expenditures

Expenditures are generally recorded when a liability is incurred. However, expenditures are recorded as prepaid for approved disbursements or liabilities incurred in advance of the year in which the item is to be used. Principal and interest on long-term debt issues are recognized on their due dates.

Unearned revenues arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to incurring the qualifying expenditures.

Description of Funds

The existence of the various District funds has been established by the State of Minnesota, Department of Education. The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. Descriptions of the funds included in this report are as follows:

Major Governmental Funds

General Fund

The General Fund is used to account for all financial resources except those required to be accounted for in another fund. It includes the general operations and pupil transportation activities of the District, as well as the capital related activities such as maintenance of facilities equipment purchases, health and safety projects, and disabled accessibility projects.

Food Service Special Revenue Fund

The Food Service Fund is used to account for food service revenues and expenditures. Revenue is generated from state and federal grants and the sales of meals to students and teachers.

Community Service Special Revenue Fund

The Community Service Fund is used to account for services provided to residents in the areas of recreation, civic activities, nonpublic pupils, veterans, adult or early childhood programs, K-6 extended day programs or other similar services. Revenue is generated by program fees paid by participants.

E. Measurement Focus and Basis of Accounting (Continued)

Major Governmental Funds (Continued)

Capital Projects Fund

The Capital Projects Fund is used to account for financial resources used for the acquisition or construction of major capital facilities.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and payment of, general long-term obligation bond principal, interest, and related costs. The regular debt service account is used for all general obligation bonds except for refunding bond issues, for which a separate refunding bond trust account is established.

Proprietary Funds

Internal Service Fund

Internal service funds account for the financing of goods or services provided by one department to other departments or agencies of the District, or to other governments, on a cost-reimbursement basis. The District's internal service funds are used to account for the District's liabilities for severance, other postemployment benefits (OPEB), and health and dental insurance offered by the District to its employees as a self-insured plan.

Fiduciary Funds

Trust Funds

The District maintains Private-Purpose and Employee Benefit Trust Funds which are used to account for money held by the District in the capacity of trustee or custodian, where both the principal and interest can be spent.

F. Budgeting

Budgets presented in this report for comparison to actual amounts are presented in accordance with GAAP. Each June, the School Board adopts an annual budget for the following fiscal year for the General, Food Service, Community Service, Capital Projects, and Debt Service Funds. The approved budget is published in summary form in the District's legal newspaper. Reported budget amounts represent the amended budget as adopted by the School Board. Legal budgetary control is at the fund level. Budgeted expenditure appropriations lapse at year-end.

Procedurally, in establishing the budgetary data reflected in these financial statements, the Superintendent submits to the School Board prior to July 1, a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means to finance them. The budget is legally enacted by School Board action. Revisions to budgeted amounts must be approved by the School Board.

F. Budgeting (Continued)

Total fund expenditures in excess of the budget require approval of the School Board. Spending control is established by the amount of expenditures budgeted for the fund, but management control is exercised at line item levels.

Budgeted amounts include mid-year budget amendments as follows:

<u>Revenues</u>	<u>Original Budget</u>	<u>Amendments</u>	<u>Amended Budget</u>
General Fund	\$ 115,657,087	\$ 632,311	\$ 116,289,398
Special Revenue Funds:			
Food Service Fund	4,953,260	270,000	5,223,260
Community Service Fund	5,158,552	541,092	5,699,644
 <u>Expenditures</u>			
General Fund	\$ 120,295,546	\$ 396,342	\$ 120,691,888
Special Revenue Funds:			
Food Service Fund	4,862,172	326,200	5,188,372
Community Service Fund	5,319,213	338,812	5,658,025
Capital Projects Fund	2,016,114	983,886	3,000,000

Budget provisions for the Debt Service Fund are set by state law governing required debt service levels.

At the end of each fiscal year, if the General Fund has a net unassigned deficit fund balance, calculated in accordance with the uniform financial accounting and reporting standards for Minnesota school districts which excludes certain restricted balances specified in Minnesota Statutes, exceeding 2.5% of expenditures, a condition referred to as "statutory operating debt" exists. That debt requires retirement through the accumulation of subsequent operating surpluses in accordance with a "special operating plan" approved by the Commissioner of the Department of Education.

G. Cash and Investments

Cash balances from all funds are combined and invested to the extent available in various securities as authorized by Minnesota Statutes. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund. Highly liquid investments with maturities of three months or less are considered cash equivalents.

Cash and investments held by trustee include balances held in segregated accounts that are established for specific purposes.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Cash and Investments (Continued)

Investments are stated at their fair value as determined by quoted market prices, except for money market investments and participating interest-earning investment contracts that have a remaining maturity at time of purchase of one year or less which are recorded at amortized cost, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer or by other factors. Money market investments are short-term, highly liquid debt instruments including commercial paper, banker's acceptances, and U.S. Treasury and agency obligations. Investments in external investment pools operated in a manner consistent with the SEC's Rule 2a7 of the Investment Act of 1940 are valued at the pool's share price.

H. Receivables

Represents amounts receivable from individuals, firms, and corporations for goods and services furnished by the District. No substantial losses are anticipated from present receivable balances, therefore, no allowance for uncollectible accounts is deemed necessary.

I. Inventories

Inventories are recorded using the consumption method of accounting and consist of purchased food, supplies, and surplus commodities received from the federal government. Food and supply purchases are recorded at invoice cost, computed on a first-in, first-out method, and surplus commodities are stated at standardized cost, as determined by the Department of Agriculture.

J. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepayments. Prepaid items are reported using the consumption method and recorded as an expense or expenditure at the time of consumption.

K. Property Taxes

Property tax levies are established by the School Board in December each year and are certified to the County for collection the following calendar year. In Minnesota, counties act as collection agents for all property taxes and are responsible for spreading all levies over taxable property. Such taxes become a lien on January 1. Taxes are generally due on May 15 and October 15 and counties generally remit taxes to the Districts at periodic intervals as they are collected. A portion of property taxes levied is paid through state credits which are included in revenue from state sources in the financial statements.

INDEPENDENT SCHOOL DISTRICT NO. 191
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Property Taxes (Continued)

Generally, tax revenue is recognized in the fiscal year ending June 30, following the calendar year in which the tax levy is collectible, while the current calendar year tax levy is recorded as a deferred inflow of resources (property taxes levied for subsequent year). The majority of District revenue in the General and Special Revenue Funds is determined annually by statutory funding formulas. The total revenue allowed by these formulas is then allocated between taxes and state aids by the Legislature based on education funding priorities. Changes in this allocation are periodically accompanied by a change in property tax revenue recognition referred to as the "tax shift."

In accordance with state law, the current tax shift consists of an amount equal to 31% of the District's 2000 Pay 2001 operating referendum levy (frozen at \$3,269,341) advance recognized as revenue in fiscal 2014 with no corresponding state aid adjustment. Certain other portions of the District's 2014 pay 2015 levy, normally revenue for the 2015-16 fiscal year, are also advance recognized as June 30, 2015, as required by state statute to match revenue with the same fiscal year as the related expenditures.

Taxes that remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is deferred because it is not known to be available to finance the operations of the District in the current year. No allowance for uncollectible taxes has been provided as such amounts are not expected to be material. Current levies of local taxes, less the amount recognized as revenue in the current period, including portions assumed by the state which will be recognized as revenue in the next fiscal year beginning July 1, 2014, are included in the Property Taxes Levied for Subsequent Year account to indicate that, while they are current assets, they will not be recognized as revenue until the following year.

L. Capital Assets

Capital assets that are purchased or constructed by the District are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of donation. The District defines capital assets as those with an initial, individual cost of \$5,000 or more, which benefit more than one fiscal year. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are recorded in the Government-wide financial statement, but are not reported in the Fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 20 to 50 years for land improvements and buildings, and 5 to 15 years for equipment.

INDEPENDENT SCHOOL DISTRICT NO. 191
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Capital Assets (Continued)

Capital assets not being depreciated include land and construction in process.

The District does not possess any material amounts of infrastructure capital assets. Items such as sidewalks and other land improvements are considered to be part of the cost of buildings or other improvable property.

M. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position and balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has items that qualify for reporting in this category related to the recording of defined pension benefits as further explained in Note 7.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has several types of items which occur related to revenue recognition. The first occurs because property tax receivables are recorded in the current year, but the revenue will be recorded in the subsequent year. Another type of deferred inflow of resources occurs because governmental fund revenues are not recognized until available (collected not later than 60 days after the end of the District's year-end) under the modified accrual basis of accounting. The District also has items that qualify for reporting in this category related to the recording of defined pension benefits as further explained in Note 7.

N. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures on both the government-wide and fund financial statements.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

O. Compensated Absences

Eligible employees accrue vacation and sick leave at varying rates as specified by contract, portions of which may be carried over to future years. Employees are reimbursed for any unused, accrued vacation upon termination. Unused sick leave enters into the calculation of severance benefits for some employees upon termination. Compensated absences are accrued in the governmental fund statements only to the extent they have been used or otherwise matured prior to year-end. Unused vacation is accrued as it is earned in the government-wide financial statements.

P. Severance Benefits

Under the terms of collectively bargained employment contracts, certain district employee groups, including teachers, may become eligible to receive lump sum severance benefits. Eligibility is based on years of service and/or minimum age requirements.

Severance benefits are calculated by converting a portion of unused, accrued sick leave times a pay rate specified in the employee's collectively bargained contract. Severance benefits based on convertible sick leave are recorded as a liability in the Internal Service Fund as they are earned and it becomes probable they will vest at some point in the future. In accordance with Minnesota Statutes, no employee can receive severance or retirement incentive benefits that exceed one year's salary.

Q. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net positions of the Public Employees Retirement Association (PERA) and Teachers Retirement Association (TRA) and additions to/deductions from PERA's and TRA's fiduciary net position have been determined on the same basis as they are reported by PERA and TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

R. Fund Balance

In the fund financial statements, governmental funds report fund balances in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

Nonspendable – portions of fund balance related to prepaids, inventories, long-term receivables, and corpus on any permanent fund.

Restricted – funds are constrained from outside parties (statute, grantors, bond agreements, etc.).

**BURNSVILLE-EAGAN-SAVAGE PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 191
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

R. Fund Balance (Continued)

Committed – funds are established and modified by a resolution approved by the Board of Education.

Assigned – consists of internally imposed constraints approved by a majority vote of the school board.

Unassigned – is the residual classification for the general fund and also reflects negative residual amounts in other funds.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, it is the District's policy to use restricted first, then unrestricted fund balance.

When an expenditure is incurred for purposes for which committed, assigned, and unassigned amounts are available, it is the District's policy to use committed first, then assigned, and finally unassigned amounts.

The District formally adopted a fund balance policy for the General Fund. The policy establishes a year-end minimum unassigned fund balance of 8% of the annual budget for fiscal year 2015.

S. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District purchases insurance coverage for such risks from various providers.

There has been no significant reduction in insurance coverage from the previous year in any of the District's policies. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

T. Net Position

Net position represents the difference between assets/deferred outflows and liabilities/deferred inflows in the Government-wide and Fiduciary Fund financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net position is reported as restricted in the Government-wide financial statement when there are limitations imposed on its use through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

U. Comparative Data

The basic financial statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2014, from which the summarized information was derived.

NOTE 2 DEPOSITS AND INVESTMENTS

A. Deposits

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the statement of net position and the balance sheet as "Cash and Investments." In accordance with Minnesota Statutes, the District maintains deposits at financial institutions which are authorized by the School District's Board.

Custodial Credit Risk – Custodial credit risk for deposits is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does have a deposit policy that will minimize Custodial Credit Risk by obtaining collateral or bond for all uninsured amounts on deposit, and by obtaining necessary documentation to show compliance or bond for all uninsured amounts on deposit, and by obtaining necessary documentation to show compliance with state law and a perfected security interest under federal law. Minnesota Statutes require that all deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged must equal 110% of the deposits not covered by insurance or corporate surety bonds. Authorized collateral include: U.S. government treasury bills, notes, or bonds; issues of a U.S. government agency; general obligations of a state or local government rated "A" or better; revenue obligations of a state or local government rated "AA" or better; irrevocable standby letter of credit issued by a Federal Home Loan Bank; and time deposits insured by a federal agency. Minnesota Statutes require securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or at an account at a trust departments of a commercial bank or other financial institution not owned or controlled by the depository.

The carrying value and bank balance of the District's deposits in banks at June 30, 2015 are \$70,876,032 and \$70,876,032, respectively, and were entirely covered by federal depository insurance or by surety bonds and collateral in accordance with Minnesota Statutes. At June 30, 2015, the District's petty cash fund totaled \$3,950.

B. Investments

The District may also invest idle funds as authorized by Minnesota Statutes as follows:

- Direct obligations or obligations guaranteed by the United States or its agencies
- Shares of investment companies registered under the Federal Investment Company Act of 1940 and received the highest credit rating, is rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of thirteen months or less
- General obligations rated “A” or better; revenue obligations rated “AA” or better
- General obligations of the Minnesota Housing Finance Agency rate “A” or better
- Bankers acceptances of United States banks eligible for purchase by the Federal Reserve System
- Commercial paper issued by United States banks corporations or their Canadian subsidiaries, of highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less
- Guaranteed investment contracts guaranteed by United States commercial banks or domestic branches of foreign banks or United States insurance companies if similar debt obligations of the issuer or the collateral pledged by the issuer is in the top two rating categories
- Repurchase or reverse purchase agreement and securities lending agreements financial institutions qualified as a “depository” by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers
- Investments related to the OPEB Revocable Trust Fund may be invested in accordance with Minnesota statute 356A.06

At June 30, 2015, the District’s investment balances were as follows:

NOTE 2 DEPOSITS AND INVESTMENTS (CONTINUED)

B. Investments (Continued)

The MSDLAF+ is an external investment pool and its investments are valued at amortized cost, which approximates fair value in accordance with Rule 2a-7 of the Investment Company Act of 1940. The amortized cost method of valuation values a security at its cost on the date of purchase and thereafter assumes a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the market value of instruments.

Credit Risk – The MSDLAF+ pool is rated AAAM by Standard & Poor’s.

Custodial Credit Risk – For an investment, custodial risk is the risk that, in the event of failure of the counterparty, the School District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Although the District’s investment policies do not directly address custodial credit risk, it typically limits its exposure by purchasing insured or registered investments, or by the control of who holds the securities.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District’s investment policies do not limit the maturities of investments; however, when purchasing investments the District considers such things as interest rates and cash flow needs.

Credit Risk

Credit risk is defined as the risk that an issue or other counterparty will not fulfill its obligation. The investments in municipal bonds are all rated either between A+ and AAA by Standard and Poor’s or between Aa1 and Aaa by Moody’s Investors Service. The negotiable CDs are not rated.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government’s investment in a single issuer, excluding U.S. guaranteed investments, investment pools, and mutual funds. The Districts investment policies do not address concentration risk. At June 30, 2015, the District had not invested 5% or more in the securities of any single issuer.

B. Capital Leases

During the fiscal year ended June 30, 2007, the District entered into a capital lease agreement to finance the renovation and improvements to the Diamondhead Education Center valued at \$4,015,000. The lease carries an interest rate of 4.83% and has a final maturity of 2021. The assets acquired through the capital lease are included in buildings as of June 30, 2015. These payments will be made from the District's General Fund.

During the fiscal year ended June 30, 2009, the District entered into a capital lease agreement to finance improvements to the athletic facilities at Burnsville High School. Capital lease proceeds of \$875,000 carry an interest rate of 5.37% with a final maturity of 2024. The assets acquired through the capital lease are included in land improvements as of June 30, 2015. The lease will be repaid through the General Fund.

During the fiscal year ended June 30, 2010, the District entered into a capital lease agreement to finance a telephone system and related improvements throughout the District. Capital lease proceeds of \$1,103,500 carry an interest rate of 3.73% with a final maturity of 2015. The assets acquired through the capital lease are included in equipment as of June 30, 2015. The lease will be repaid through the General Fund.

During the fiscal year ended June 30, 2015, the District entered into a capital lease agreement to finance computer servers, computers and other related equipment. Capital lease proceeds of \$503,645 carry an interest rate of 3.5% with a final maturity of 2018. The assets acquired through the capital lease are included in equipment as of June 30, 2015. The lease will be repaid through the General Fund,

The assets acquired through capital leases are as follows:

NOTE 5 FUND BALANCES

Certain portions of fund balance are restricted based on state requirements to track special program funding, to provide for funding on certain long-term liabilities, or as required by other outside parties. A description of deficit balance restrictions is included herein since the District has specific statutory authority to levy taxes for such deficits.

Restricted, Committed, and Assigned fund balances at June 30, 2015 are as follows:

- A. Restricted for Alternative Facilities – This amount represents the resources available for approved expenditures based on the ten-year plan for capital projects.
- B. Restricted for Area Learning Center – This represents amounts restricted for students attending area learning centers. Each district that sends students to an area learning center must reserve an amount equal to at least 90% of the district average General Education Revenue, minus .0485 times the formula allowance per pupil unit, times the number of pupils attending area learning centers. Refer to Minnesota Statute §123A.05, Subd. 2.
- C. Restricted for Basic Skills Programs – Represents amounts that can be spent on basic skills programs.
- D. Restricted for Operating Capital – This balance represents amounts available for capital expenditure equipment purchases, facility projects and personnel costs directly related to acquisition, operation and maintenance of computers, related equipment and network and applications software. Revenue to finance these expenditures is derived primarily from state aid revenue.
- E. Restricted for Achievement and Integration – This amount represents available resources for implementing the District’s integration plan for racially identifiable schools.
- F. Restricted for Community Education – This amount represents available resources for community education classes. Revenues are derived from local tax levies and state aids and expenditures are for salaries, benefits and supplies. The account is allowed to go into a deficit to the extent there is future revenues to eliminate the deficit.
- G. Restricted for Early Childhood and Family Education (ECFE) – This amount represents available resources for ECFE classes. Revenues are derived from local tax levies and state aids and expenditures are for salaries, benefits and supplies. The account is allowed to go into a deficit to the extent there is future revenues to eliminate the deficit.
- H. Restricted for School Readiness – This amount represents available resources to provide services for learning readiness programs.
- I. Restricted for Bond Refundings – Represents available resources dedicated for refunding bond payments.

NOTE 5 FUND BALANCES (CONTINUED)

- J. Restricted for Other Purposes – Represents amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- K. Committed for Program Carryover – Noncapital – Represents noncapital amounts allocated to the District's budget units which were unspent during the year.
- L. Committed for Pro Pay Program – Represents amounts that are committed for professional development through the District's Q-Comp Program.

NOTE 6 OTHER POSTEMPLOYMENT BENEFITS PLANS

At June 30, 2009, the District adopted Government Accounting Standards Board (GASB) Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pension*. The District engaged an actuary to determine the District's liability for postemployment healthcare benefits other than pensions.

A. Plan Description

The District provides postemployment insurance benefits to certain eligible employees through its Other Postemployment Benefits Plan, a single-employer defined benefit plan administered by the District. All postemployment benefits are based on contractual agreements with employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements. These contractual agreements do not include any specific contribution or funding requirements. The plan does not issue a publicly available financial report.

Employees that meet certain age and/or length of service requirements are eligible for post-retirement healthcare benefits. For teachers hired before July 1, 1989 and certain other employee groups, the District is contractually required to pay health insurance premiums for the period from retirement until eligibility for Medicare. The amount to be paid is equal to the single coverage insurance premium benefit available to full-time employees in the bargaining group.

The District is legally required to include any retirees for whom it provides health insurance coverage in the same insurance pool as its active employees, whether the premiums are paid by the District or the retiree. Consequently, participating retirees are considered to receive a secondary benefit known as an "implicit rate subsidy." This benefit relates to the assumption that the retiree is receiving a more favorable premium rate than they would otherwise be able to obtain if purchasing insurance on their own, due to being included in the same pool with the District's younger and statistically healthier active employees.

NOTE 6 OTHER POSTEMPLOYMENT BENEFIT PLANS (CONTINUED)

B. Funding Policy

The required contribution is based on projected pay-as-you-go financing requirements, with additional amounts to pre-fund benefits as determined annually by the District. The District issued \$18,580,000 of general obligation OPEB bonds in 2009 and contributed the proceeds to a revocable trust account to be used for other postemployment benefit (OPEB) payments. The District has established a separate internal service fund to account for these obligations and the assets accumulated to finance them.

C. Annual OPEB Cost and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on annual required contributions (ARC) of the District, an amount determined on an actuarially determined basis in accordance with the parameters of GASB Statement No. 45. The ARC represents a level funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and the changes in the District's net OPEB obligation to the plan:

Annual Required Contribution	\$ 1,131,306
Interest on Net OPEB Obligation	3,973
Adjustment to Annual Required Contribution	<u>(8,012)</u>
Annual OPEB Cost	1,127,267
Contributions Made	<u>(1,628,178)</u>
Change in Net OPEB Obligation	(500,911)
Net OPEB Obligation - Beginning of Year	67,601
Net OPEB Obligation - End of Year	<u><u>\$ (433,310)</u></u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the past three years are as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation (Asset)
6/30/2015	\$ 1,127,267	144.4%	\$ (433,310)
6/30/2014	1,127,267	105.8%	67,601
6/30/2013	1,476,757	125.8%	132,423

D. Funded Status and Funding Progress

As of July 1, 2013, the most recent actuarial valuation date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$12,070,602, and the actuarial value of assets was \$-0-, resulting in an unfunded actuarial accrued liability (UAAL) of \$12,070,602. The covered payroll (annual payroll of active employees covered by the plan) was \$63,351,270, and the ratio of the UAAL to the covered payroll was 19.1%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress immediately following the notes to basic financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2013 actuarial valuation, the entry age normal actuarial cost method was used. The actuarial assumptions included: a 3.0% investment rate of return (net of administrative expenses) based on the District's own investments; a 3.0% rate of projected salary increases; an annual healthcare cost trend rate of 7.5% initially, reduced by decrements to an ultimate rate of 5.0% after 6 years for medical insurance; and an annual healthcare trend rate of 4.0% for dental insurance. The UAAL is being amortized on a level dollar basis over a closed period. The original amortization period was not to exceed 30 years.

NOTE 7 DEFINED BENEFIT PENSION PLANS

Substantially all employees of the District are required by state law to belong to pension plans administered by Teachers' Retirement Association (TRA) or Public Employees' Retirement Association (PERA), all of which are administered on a statewide basis. Disclosures relating to these plans follows:

A. Plan Description

The District participates in the following defined benefit pension plans administered by the Public Employees Retirement Association (PERA) and Teachers Retirement Fund (TRA). PERA's and TRA's defined benefit pension plans are established and administered in accordance with *Minnesota Statutes*. PERA's and TRA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

1. General Employees Retirement Plan (GERF)

PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. All full-time and certain part-time employees of the District other than teachers are covered by the General Employees Retirement Fund (GERF). GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. The Basic Plan was closed to new members in 1967. All new members must participate in the Coordinated Plan.

2. Teachers Retirement Fund (TRA)

TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active members, one retired member and three statutory officials.

Teachers employed in Minnesota's public elementary and secondary schools, charter schools, and certain educational institutions maintained by the state (except those teachers employed by the cities of Duluth and St. Paul, and by the University of Minnesota system) are required to be TRA members.

B. Benefits Provided

PERA and TRA provide retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature.

PERA: Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. Members in plans that are at least 90% funded for two consecutive years are given 2.5% increases. Members in plans that have not exceeded 90% funded, or have fallen below 80%, are given 1% increases.

TRA: Postretirement benefit increases are provided to eligible benefit recipients each January. The TRA increase is 2.0%. After the TRA funded ratio exceeds 90% for two consecutive years, the annual postretirement benefit will increase to 2.5%.

NOTE 7 DEFINED BENEFIT PENSION PLANS (CONTINUED)

B. Benefits Provided (Continued)

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

1. GERF Benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2% of average salary for each of the first ten years of service and 2.7% for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2% of average salary for each of the first ten years and 1.7% for each remaining year. Under Method 2, the annuity accrual rate is 2.7% of average salary for Basic Plan members and 1.7% for Coordinated Plan members for each year of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66. Disability benefits are available for vested members, and are based upon years of service and average high-five salary.

2. TRA Benefits

TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statute and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

Tier 1 Benefits

<u>Tier 1</u>	<u>Step Rate Formula</u>	<u>Percentage</u>
Basic	First Ten Years of Service	2.2% per Year
	All Years After	2.7% per Year
Coordinated	First Ten Years of Service are Up to July 1, 2006	1.2% per Year
	First Ten Years, if Service Years are July 1, 2006 or After	1.4% per Year
	All Other Years of Service If Service Years are Up to July 1, 2006	1.7% per Year
	All Other Years of Service If Service Years are July 1, 2006 or After	1.9% per Year

B. Benefits Provided (Continued)

2. TRA Benefits (Continued)

With these provisions:

- (a) Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- (b) 3.0% per year early retirement reduction factor for all years under normal retirement age.
- (c) Unreduced benefits for early retirement under a Rule-of-90 (age plus allowable service equals 90 or more).

or

Tier II Benefits

For years of service prior to July 1, 2006, a level formula of 1.7% per year for coordinated members and 2.7% per year for basic members. For years of service July 1, 2006 and after, a level formula of 1.9% per year for Coordinated members and 2.7% for Basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statute. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree - no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

C. Contributions

Minnesota Statutes, Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

1. GERF Contributions

Basic Plan members and Coordinated Plan members were required to contribute 9.1% and 6.25%, respectively, of their annual covered salary in calendar year 2014. Coordinated Plan members contributed 6.5% of pay in 2015. In calendar year 2014, the District was required to contribute 11.78% of pay for Basic Plan members and 7.25% for Coordinated Plan members. In 2015, employer rates increased to 7.5% in the Coordinated Plan. The District's contributions to the GERF for the plan's fiscal year ended June 30, 2015, were \$1,331,441. The District's contributions were equal to the required contributions for each year as set by state statute.

2. TRA Contributions

Per Minnesota Statutes, Chapter 354 sets the contribution rates for employees and employers. Rates for each fiscal year were:

	Ended June 30, 2014		Ended June 30, 2015	
	Employee	Employer	Employee	Employer
Basic	10.50%	11.00%	11.00%	11.50%
Coordinated	7.0	7.0	7.5	7.5

The District's contributions to TRA for the plan's fiscal year ended June 30, 2015, were \$4,254,581. The District's contributions were equal to the required contributions for each year as set by state statute.

D. Pension Costs

1. GERF Pension Costs

At June 30, 2015, the District reported a liability of \$14,768,937 for its proportionate share of the GERF's net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2013, through June 30, 2014, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2015, the District's proportion was 0.3144%.

1. GERF Pension Costs (Continued)

For the year ended June 30, 2015, the District recognized pension expense of \$1,096,374 for its proportionate share of GERF's pension expense.

At June 30, 2015, the District reported its proportionate share of GERF's deferred outflows of resources and deferred inflows of resources from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Economic Experience	\$ 226,658	\$ -
Changes in Actuarial Assumptions	1,522,087	-

2. TRA Pension Costs

At June 30, 2015, the District reported a liability of \$54,373,550 for its proportionate share of TRA's net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to TRA in relation to total system contributions including direct aid from the State of Minnesota, City of Minneapolis and Minneapolis School District. The District's proportionate share was 1.18% at the end of the measurement period and 1.161% for the beginning of the period.

The pension liability amount reflected a reduction due to direct aid provided to TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

Description	Amount
District's Proportionate Share of the TRA Net Pension Liability	\$ 54,373,550
State's Proportionate Share of TRA's Net Pension Liability Associated with the District	3,825,072

A change in benefit provisions that affected the measurement of the total pension liability since the prior measurement date was an increase of the contribution rates for both the member and employer.

For the year ended June 30, 2015, the District recognized pension expense of \$2,915,886. It also recognized \$166,861 as pension expense for the support provided by direct aid.

E. Actuarial Assumptions

The total pension liability in the June 30, 2014, actuarial valuation was determined using the following actuarial assumptions:

Assumptions	GERF	TRA
Inflation	2.75% per Year	3.50%
Active Member Payroll Growth	3.50% per Year	3.75% Based on Years of Service
Investment Rate of Return	7.90%	8.25%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2000 tables for males or females, as appropriate, with slight adjustments.

Actuarial assumptions used in the June 30, 2014, valuation were based on the results of actuarial experience studies. The actuarial assumptions used in the June 30, 2014, valuation were based on the results of the actuarial experience study for the period of July 1, 2004, to June 30, 2008, and a limited scope experience study dated August 29, 2014. The limited scope experience study addressed only inflation and long-term rate of return for the GASB 67 valuation.

The following changes in actuarial assumptions for GERF occurred in 2014: As of July 1, 2013, the postretirement benefit increase rate was assumed to increase from 1.0% to 2.5% on January 1, 2046. As of July 1, 2014, the postretirement benefit increase rate was assumed to increase from 1.0% to 2.5% on January 1, 2031.

There was a change in actuarial assumptions that affected the measurement of the total liability for TRA since the prior measurement date. Postretirement benefit adjustments are now assumed to increase from 2.0% annually to 2.5% annually once the legally specified criteria are met. This is estimated to occur July 1, 2034.

The long-term expected rate of return on pension plan investments is 7.9% for GERF and 8.25% for TRA. The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness of the long-term expected rate of return on a regular basis using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages.

INDEPENDENT SCHOOL DISTRICT NO. 191
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 7 DEFINED BENEFIT PENSION PLANS (CONTINUED)

E. Actuarial Assumptions (Continued)

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	45 %	5.50%
International Equity	15	6.00%
Bonds	18	1.45%
Alternative Assets	20	6.40%
Cash	2	0.50%
Totals	100 %	

F. Discount Rate

The discount rate used to measure the total pension liability was 7.9% for GERF and 8.25% for TRA. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, each of the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability Sensitivity

The following presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

Description	1% Decrease	Current Discount Rate	1% Increase in Discount Rate
<u>GERF Discount Rate</u>	6.90%	7.90%	8.90%
District's Proportionate Share of the GERF Net Pension Liability	\$ 23,808,122	\$ 14,768,937	\$ 7,331,814
<u>TRA Discount Rate</u>	7.25%	8.25%	9.25%

Detailed information about TRA's fiduciary net position is available in a separately-issued TRA financial report. That report can be obtained at www.MinnesotaTRA.org; by writing to TRA at 60 Empire Drive #400, St. Paul, Minnesota, 55103-2088; or by calling (651) 296-2409 or 1-800-652-9026.

NOTE 8 FLEXIBLE BENEFIT PLANS

The District has a flexible benefit plan classified as a "cafeteria plan" (the Plan) under §125 of the Internal Revenue Code. All employee groups of the District are eligible if and when the collective bargaining agreement or contract with their group allows eligibility. Eligible employees can elect to participate by contributing pre-tax dollars withheld from payroll checks to the Plan for health insurance, healthcare, and dependent care benefits. Payments are made from the Plan to participating employees upon submitting a request for reimbursement of eligible expenses actually incurred by the participant.

Before the beginning of the Plan year, which is from July 1 to June 30, each participant designates a total amount of pre-tax dollars to be contributed to the Plan during the year. At June 30, the District is contingently liable for claims against the total amount of participants' annual contributions to the medical reimbursement portion of the Plan, whether or not such contributions have been made.

The dependent care and medical expense reimbursement portions of the Plan are administered by an independent contract administrator, with the activity reported by the District in an employee benefits trust fund. Health insurance premium reimbursements are administered by the District and are accounted for in the District's General Fund and special revenue funds.

All property of the Plan and income attributable to that property is solely the property of the District, subject to the claims of the District's general creditors. Participants' rights under the Plan are equal to those of general creditors of the District in an amount equal to the eligible healthcare and dependent care expenses incurred by the participants. The District believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

NOTE 9 DENTAL SELF-INSURANCE PLAN

The District established an Internal Service Fund to account for and finance its uninsured risk of loss for employee dental insurance plans. Under these plans, the Internal Service Fund provides coverage to participating employees and their dependents for various dental costs as described in the plan. There have been no significant reductions in insurance coverage from the prior year.

The District makes premium payments to the Internal Service Fund on behalf of the program participants based on provisional rates determined by insurance company estimates of monthly claims paid for each coverage class, plus the stop-loss health insurance premium costs and administrative service charges.

District claim liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred, but not reported. Because actual claim liabilities depend on complex factors such as inflation, changes in legal doctrines, and damage awards, the process used in computing a claim liability does not necessarily result in an exact amount. Claim liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. Claims have not exceeded insurance coverage in any of the past three years.

Changes in the balance of dental claim liabilities for the year were as follows:

Fiscal Year Ended June 30,	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year-End
2015	\$ 42,584	\$ 955,916	\$ 946,593	\$ 51,907
2014	43,252	911,923	912,591	42,584
2013	42,115	914,727	913,590	43,252

NOTE 10 HEALTH SELF-INSURANCE PLAN

The District's health benefits plan is a partially self-insured plan and maintains an Internal Service Fund to account for and finance a program for health benefits. Under the health benefits plan, the District is self-insured for the first \$5,000 for single coverage and \$10,000 for family coverage. Amounts in excess of these amounts are covered by the District's health insurance provider. The District has not purchased outside insurance for the risks of losses to which it is exposed for amounts under these limits. District management believes it is more economical to manage its risks internally and set aside assets for claim settlement. The Internal Service Fund currently services all claims and risk of loss to which the District is exposed for health expenses. There have been no significant reductions in insurance coverage from the prior year.

NOTE 10 HEALTH SELF-INSURANCE PLAN (CONTINUED)

Participants in the program make premium payments to the fund based on the component insurance premium which takes into account the aforementioned risk. The excess amount received above current year claims is used to establish a reserve for future claims. The District had pre-funded the self-insurance fund with an initial transfer of \$2,600,000 at June 30, 2010. At June 30, 2015, there is a reserve of \$4,134,942 resulting from fund operations.

District liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing a claim liability does not necessarily result in an exact amount. Claims liabilities are re-evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. Claims have not exceeded insurance coverage in any of the past three years.

Premiums received through June 30, 2015 were in excess of claims paid by \$1,416,808. There is a possibility for loss if claims are in excess of the premiums collected up to the amounts covered by the District for single and family coverage. The District held \$6,802,381 in cash and investments at June 30, 2015, for payment of claims and carryover balances.

Changes in the balance of medical claim liabilities for the year were as follows:

Fiscal Year Ended June 30,	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year-End
2015	\$ 701,553	\$ 17,935,302	\$ 17,331,794	\$ 1,305,061

The interfund receivables and payables are for the District's share of retiree medical premiums funded by the revocable trust and for bond proceeds received by the Capital Projects Fund to be transferred to the Debt Service Fund for the next interest payment.

NOTE 12 STEWARDSHIP AND ACCOUNTABILITY

Excess of Expenditures Over Budget

Expenditures exceeded budgeted amounts in the following funds at June 30, 2015.

	<u>Budget</u>	<u>Expenditures</u>	<u>Excess</u>
Special Revenue Funds:			
Community Service Fund	\$ 5,658,025	\$ 6,069,954	\$ 411,929
Capital Projects Fund	3,000,000	6,803,463	3,803,463

The overages were considered by District management to be the result of necessary expenditures critical to operations approved by the Board.

NOTE 13 COMMITMENTS AND CONTINGENCIES

A. Federal and State Revenues

Amounts received or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

B. Legal Claims

The District has the usual and customary types of legal claims pending at year-end, mostly of a minor nature and usually covered by insurance carried for that purpose. The District's management believes that the District will not incur any material liabilities relating to these claims, and none have been accrued at year-end.

C. Construction Contracts

At June 30, 2015, the District had commitments totaling \$860,478 under various construction contracts for which the work was not yet completed.

NOTE 14 LEASE REVENUE

In September 2012, the District entered into a lease agreement with Intermediate School District 917 to lease space within the District's Cedar School to I.S.D. 917. The term of the lease extends ten years, ending on June 30, 2022. Minimum base rent per the lease agreement is \$16,222 per month through June 30, 2015, and the monthly payment increases by \$270 each additional year thereafter. The lease also includes common area maintenance payments to be paid by the lessor at a rate of \$7,480 per month.

NOTE 15 RESTATEMENT OF BEGINNING NET POSITION

During fiscal year 2015, the District implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, and the related Statement No. 71. As a result, the District's net positions as of June 30, 2014 has been restated to reflect the recognition of the School's proportionate share of the Public Employees' Retirement Association of Minnesota General Employees' Retirement Fund's net pension liability as well as their portion of the Teacher's Retirement Association's Coordinated and Basic Plan net pension liability.

Note 1: A portion of the total spread levy is paid through various property tax credits which are paid through state aids and have been included in collections.

Note 2: Delinquent taxes receivable are written off after seven years. The amount of collections has been adjusted to reflect the write off of delinquent taxes receivable.

Note 3: Only a portion of the taxes levied for the most recent fiscal year is collected by June 30.

School Board
Independent School District No. 191
Burnsville, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Independent School District No. 191, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Independent School District No. 191's basic financial statements, and have issued our report thereon dated October 26, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Independent School District No. 191's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Independent School District No. 191's internal control. Accordingly, we do not express an opinion on the effectiveness of Independent School District No. 191's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Independent School District No. 191

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Independent School District No. 191's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Independent School District No. 191's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program

We have audited Independent School District No. 191's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Independent School District No. 191's major federal programs for the year ended June 30, 2015. Independent School District No. 191's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Independent School District No. 191's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Independent School District No. 191's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Independent School District No. 191's compliance.

Opinion on Each Major Federal Program

In our opinion, Independent School District No. 191 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of Independent School District No. 191 is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Independent School District No. 191's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Independent School District No. 191's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

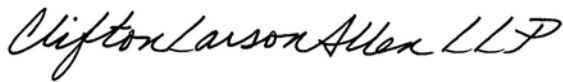

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the result of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 191 as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Independent School District No. 191's basic financial statements. We issued our report thereon dated October 26, 2015, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

INDEPENDENT AUDITORS' REPORT ON MINNESOTA LEGAL COMPLIANCE

School Board
Independent School District No. 191
Burnsville, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Independent School District No. 191 as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the School's basic financial statements, and have issued our report thereon dated October 26, 2015.

The *Minnesota Legal Compliance Audit Guide for Political Subdivisions* promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, covers seven main categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and uniform financial accounting and reporting standards for school districts. Our study included all of the listed categories.

In connection with our audit, nothing came to our attention that caused us to believe that Independent School District No. 191 failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivisions*. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the School's noncompliance with the above-referenced provisions.

The purpose of this report is solely to describe the scope of our testing of compliance relating to the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivisions* and the results of that testing, and not to provide an opinion on the effectiveness of the Schools compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT

School Board, Advisors, and Students
Independent School District No. 191
Burnsville, Minnesota

Report on the Financial Statement

We have audited the statement of cash receipts and disbursements of the Student Activity Funds of Independent School District No. 191 as of and for the year ended June 30, 2015, and the related note to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the regulatory basis of accounting described in the note to the financial statements; this includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in the note to the financial statements, to meet the financial reporting requirements of the Minnesota Department of Education, the financial statements are prepared by Independent School District No. 191 in accordance with the financial reporting provisions of the accounting practices prescribed or permitted by the Minnesota Department of Education, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in the note to the financial statements and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the Student Activity Funds of Independent School District No. 191 as of June 30, 2015, or changes in financial position for the year then ended.

Basis for Qualified Opinion on Regulatory Basis of Accounting

We were unable to audit cash receipts because the District has not established procedures to provide assurance that all cash collections are recorded in the accounting records. We were unable to obtain sufficient appropriate audit evidence about the completeness of cash receipts by other auditing procedures.

Qualified Opinion on Regulatory Basis of Accounting

In our opinion, except for the possible effect of the matter discussed in the Basis for Qualified Opinion on Regulatory Basis paragraph, the financial statements referred to in the first paragraph present fairly, in all material respects, the cash balances of the Student Activity Funds of Independent School District No. 191 as of June 30, 2015, and the receipts and disbursements for the year then ended in accordance with the basis of accounting described in the note to the financial statements.

NOTES TO EXTRACURRICULAR STUDENT ACTIVITY ACCOUNTS
JUNE 30, 2015**

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Extracurricular student activity account transactions are defined as extracurricular programs conducted for the motivation and enjoyment of students. These programs and activities are not offered for school credits nor required for graduation. Activities are generally conducted outside of school hours. The content of the activities is determined primarily by the students, under the guidance of a staff member or other adult.

Extracurricular student activities are to be self-sustaining with all expenses paid by dues, admissions, or other student fund-raising events.

The accounts of the Student Activity Fund are maintained, and the accompanying financial statements have been prepared, on the regulatory basis of accounting as permitted by the Minnesota Department of Education. Consequently, receipts are recognized when received rather than when earned, and disbursements are recognized when paid rather than when the obligations are incurred.

NOTE 2 DEPOSITS AND INVESTMENTS

All cash and investments of the student activity accounts are held in demand accounts.

Custodial credit risk is the risk that in the event of a bank failure, the School's deposits may not be returned to it. The School does not have a deposit policy for custodial credit risk and follows Minnesota Statutes for deposits.

Minnesota Statutes require that all District deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged must equal 110% of the deposits not covered by insurance.

Authorized collateral includes certain state or local government obligations, obligations of the U.S. Treasury and U.S. agencies, irrevocable standby letter of credit issued by the Federal Home Loan Bank accompanied by written evidence that the Federal Home Loan Bank's public debt is rated "AA" or better by Moody's or Standard & Poor's Corporation, and certificates of deposit insured by the FDIC.

Minnesota statutes require that securities pledged as collateral be held in safekeeping by the District Treasurer or in a financial institution (as agent for the District) other than that furnishing the collateral.

All student activity bank deposits are covered by deposit insurance or are collateralized by securities held by the District or its Agent in the District's name.

School Board, Advisers, and Students
Independent School District No. 191
Burnsville, Minnesota

In planning and performing our audit of the statement of cash receipts and disbursements of the extracurricular student activity funds of Independent School District No. 191 as of and for the year ended June 30, 2015, in accordance with auditing standards generally accepted in the United States of America, we considered Independent School District No. 191's internal control over financial reporting (internal control) as a basis for designing our auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Independent School District No. 191's internal control. Accordingly, we do not express an opinion on the effectiveness of the entity's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of Independent School District No. 191's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the schedule of findings and corrective action as item 2015-002 to be a material weakness.

This communication is intended solely for the information and use of management and others within Independent School District No. 191, and is not intended to be, and should not be, used by anyone other than these specified parties.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH THE
MANUAL FOR ACTIVITY FUND ACCOUNTING**

School Board, Advisors, and Students
Independent School District No. 191
Burnsville, Minnesota

Report on Compliance

We have audited, in accordance with auditing standards generally accepted in the United States of America, the statement of cash receipts and disbursements of the Student Activity Funds of Independent School District No. 191 as of and for the year ended June 30, 2015, and the related note to the financial statements, which collectively comprises the basic financial statements, and have issued our report thereon dated October 26, 2015. We expressed an adverse opinion on U.S. generally accepted accounting principles because the financial statements are prepared on a basis of accounting that demonstrates compliance with the regulatory basis of accounting prescribed or permitted by the Minnesota Department of Education, which differs from accounting principles generally accepted in the United States of America. In addition, our report on the regulatory basis of accounting is qualified because the District has not established procedures to provide assurance that all cash collections are recorded in the accounting records.

The *Manual for Activity Fund Accounting* (MAFA), issued by the Minnesota Department of Education, provides uniform financial accounting and reporting standards for student activities. We have performed auditing procedures to test compliance with the provisions of this manual.

In connection with our audit, nothing came to our attention that caused us to believe that the District failed to comply with the provisions of the *Manual for Activity Fund Accounting*, except as described in the schedule of findings and corrective action as item 2015-001. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above-referenced provisions.

The District's written response to the legal compliance finding identified in our audit is described in the Schedule of Findings and Responses. The District's response was not subjected to the auditing procedures applied in the audit of the financial statement and, accordingly, we express no opinion on it.

The purpose of this report is solely to describe the scope of our testing of compliance relating to the provisions of the *Manual for Activity Fund Accounting* and the results of that testing, and not to provide an opinion on compliance. Accordingly, this report is not suitable for any other purpose.

FINDINGS AND CORRECTIVE ACTION

EXTRACURRICULAR STUDENT ACTIVITY ACCOUNTS

2015-001 Inactive Accounts

Condition – Nineteen of the District’s student activity accounts were inactive during fiscal year 2015 and need to be closed to be in compliance with the *Manual for Activity Fund Accounting*.

Recommendation – It is our recommendation that the District close all inactive accounts and transfer any residual balances to other active student activity accounts.

CORRECTIVE ACTION PLAN (CAP):

Explanation of Disagreement with Audit Findings:

There is no disagreement with the audit finding.

Actions Planned in Response to Finding:

The District will close all accounts that were inactive for all of fiscal year 2014-15 and have remained inactive through December 31, 2015. Any remaining balances will be transferred to another district account at the direction of the Activity Fund Advisor. The District will also continue to monitor activity throughout the year to avoid having any inactive accounts as of the fiscal year-end.

Official Responsible for Ensuring CAP:

The Director of Accounting is the official responsible for ensuring corrective action of the deficiency.

Planned Completion Date for CAP:

The planned completion date is June 30, 2016.

Plan to Monitor Completion of CAP:

The Board of Education will be monitoring this corrective action plan.

FINDINGS FOR INTERNAL CONTROL OVER FINANCIAL REPORTING OF STUDENT ACTIVITY ACCOUNTS

FINDING 2015-002

PROCEDURES TO PROVIDE ASSURANCE THAT ALL CASH COLLECTIONS ARE RECORDED IN THE ACCOUNTING RECORDS

Condition – The District has not established accounting procedures to provide assurance that all cash collections are recorded in the accounting records. The District records student activity revenues on the cash basis and does not have an accounting system and internal controls in place to ensure student activity revenues and receipts have been properly recorded.

Effect – The potential exists that a material misstatement could occur in the financial statements and not be prevented or detected by the District's internal controls.

CORRECTIVE ACTION PLAN (CAP):

Explanation of Disagreement with Audit Findings: There is no disagreement with the audit finding.

Actions Planned in Response to Finding: The District records student activity revenues on the cash basis and does not have an accounting system and internal controls in place to ensure student activity revenues and receipts have been properly recorded. In consideration of the guiding principles under which the student activity funds were established, the District provides opportunities for substantial student involvement in the selection, direction, and management of fundraisers. This student involvement, although of great value to those students, is an inherent internal control weakness. The District has determined the costs of implementing controls over fundraising activities, in light of the multiple locations and times of these activities, outweigh the benefits; therefore, the District will continue to rely on activity fund advisors for appropriate oversight and supervision, but will not, at this time, implement procedures and policies to provide for detail internal control processes at each fund raising location and activity.

Official Responsible for Ensuring CAP: The Director of Accounting is the official responsible for carrying out the corrective action plan.

Planned Completion Date for CAP: The CAP will be carried out as part of each annual audit, therefore, the CAP is ongoing.

Plan to Monitor Completion of CAP: The corrective action plan will be monitored each year by the District financial staff and Board of Education as a part of the process of developing the annual audit report.

FOR
BURNSVILLE-EAGAN-SAVAGE PUBLIC SCHOOLS
YEAR ENDED JUNE 30, 2015**

AUDIT FINDINGS AND RESULTS

We prepared this Executive Audit Summary and Management Report in conjunction with our audit of the District's financial records for the year ended June 30, 2015.

Audit Opinion – The financial statements are fairly stated. We issued what is known as an “unmodified” audit report.

Yellow Book Compliance Findings – No compliance issues were noted in our review of laws, regulations, contracts and grants that could have significant financial implications to the District.

Internal Controls Over Financial Reporting – No “material weaknesses” in internal controls over financial reporting were noted.

Single Audit – There were no findings reported in regard to the requirements for the major federal programs tested.

Legal Compliance – No compliance issues were reported with respect to Minnesota Statutes.

Fund Balance – The District's General Fund unassigned fund balance decreased by \$1,153,564 during fiscal 2014-2015, changing from a balance of \$16,003,177 to a balance of \$14,849,613 at June 30, 2015. Total fund balance of the General Fund decreased by \$1,282,725, ending at \$20,677,866 as of June 30, 2015. The ending unassigned fund balance represents a balance of 12.33% of General Fund expenditures. A District's fund balance is an important aspect in considering the District's financial wellbeing since a healthy fund balance represents things such as cashflow, as a cushion against unanticipated expenditures, enrollment declines, funding deficiencies, state aid metering changes and aid proration at the state level and similar problems.

Enrollment – For fiscal 2014-2015, Burnsville-Savage-Eagan Public Schools served an estimated total adjusted average daily membership of 9,302.94 (or 10,127.25 adjusted pupil units under the new methodology which equates to 10,692.02 under the previous guidance). For fiscal 2013-2014, Burnsville-Savage-Eagan Public Schools had served total adjusted average daily membership of 9,468.67 or 10,864.36 adjusted pupil units).

Budget to Actual – Total revenues on a net basis in the General Fund were \$2,306,045 (or 2.0%) higher than the final budgeted amount while total expenditures on a net basis were \$302,257 (or 0.3%) lower than had been budgeted. Including other financing sources of \$508,463 (insurance recovery proceeds and capital lease proceeds), the net effect was a decrease to total fund balance that was approximately \$3.1 million less than had been reflected in the District's final amended budget. On a budget this large, the expenditure variances reflect good budgeting, monitoring and outcomes.

AUDIT FINDINGS AND RESULTS (CONTINUED)

Statement of Net Position

The Statement of Net Position essentially tells you what your District owns and owes at a given point in time, the last day of the fiscal year. Theoretically, net position represents the resources the District has leftover to use for providing services after its debts are settled. However, those resources are not always in expendable form, or there may be restrictions on how some of those resources can be used. Therefore, the statement divides the net position into three components: net investment in capital assets, restricted net position, and unrestricted net position. As explained in further detail later in this document, the District was required to implement GASB Statement Nos. 68 and 71 for the fiscal year ended June 30, 2015, which significantly impacted the District's ending net position as a result of recording the District's estimated share of the respective unfunded liability for the statewide pension plans for TRA and PERA. The following table presents components of the District's net position at year-end, along with a simplified reconciliation of the difference between the governmental fund balances and total net position:

	As of June 30,	
	2015	2014
Total Fund Balance for Governmental Funds	\$ 97,957,972	\$ 37,876,822
Capital Assets, Less Accumulated Depreciation	108,986,473	109,666,496
Long-Term Liabilities	(168,972,368)	(108,239,884)
Pension Liability	(80,741,492)	-
Other - Net	18,687,807	18,882,697
Total Net Position - Governmental Activities	<u>\$ (24,081,608)</u>	<u>\$ 58,186,131</u>
Net Position:		
Net Investment in Capital Assets	\$ 27,062,458	\$ 30,452,283
Restricted	7,527,306	5,749,042
Unrestricted	(58,671,372)	21,984,806
Total Net Position - Governmental Activities	<u>\$ (24,081,608)</u>	<u>\$ 58,186,131</u>

Most of the District's fund balances translate into restricted net position by virtue of external restrictions (statutory reserves) or by the nature of the fund they are in (e.g. unrestricted food service fund balance can only be spent for food service program costs). The unrestricted net position category consists mainly of the General Fund unreserved fund balances, offset against non-capital long-term obligations such as vacation or severance payable and beginning in fiscal 2015 the District's estimated share of the unfunded portion of statewide pension plans. Consequently, many Minnesota school districts have accumulated deficits in this component of net position.

AUDIT FINDINGS AND RESULTS (CONTINUED)

Statement of Activities

The Statement of Activities tracks the District's yearly revenues and expenses, as well as any other transactions that increase or reduce total net position. These amounts represent the full cost of providing education. This statement provides a more comprehensive measure than just the amount of cash that changed hands, as reflected in the fund-based financial statements. This statement includes the cost of supplies used, depreciation of long-lived capital assets, and other accrual-based expenses. As mentioned previously, the line item for "Change in Net Pension Liability" was a new requirement beginning in fiscal 2015. The following table presents a simplified reconciliation of the change in the District's governmental fund balances to the change in total net position for fiscal years 2015 and 2014:

	Year Ended June 30,	
	2015	2014
Net Change in Fund Balance - Total Governmental Funds	\$ 60,081,150	\$ (9,443,901)
Capital Asset Purchases	6,138,267	8,496,560
Depreciation	(6,816,190)	(6,379,479)
Debt Proceeds	(68,450,000)	-
Repayment of Debt	9,365,000	5,396,721
Change in Other Long-Term Liabilities	(3,988,043)	531,060
Change in Net Position of Internal Service Funds	277,423	430,239
Other - Net	(200,191)	533,913

As reflected in the above chart and graph, the District's net open enrollment has continued to see significant increases in the net open enrollment out in recent years. Note also that the pupil unit calculation was modified for fiscal 2015 which resulted in a reduction in total pupil units served but that reduction was offset by an increase in the per pupil unit funding.

General Fund Revenue

The following table and graph summarizes the District’s General Fund Revenue sources for the last five years.

The table below illustrates the fluctuation that occurs between the taxes and state aid categories based on legislative activity. The Legislature determines what portion of the general education funding formula will be paid by local taxpayers. In addition, when the tax shift percentage changes or the state provides property tax relief, this only impacts the mix between state aids and taxes and does not change total revenue. For example, in fiscal 2014, the Legislature repaid a total of approximately \$8.6 million of the property tax shift buydown for the General and Community Service Funds, which gives the appearance of a significant decrease in taxes for 2014 but this was offset by a corresponding increase in state aid. For this and other reasons, school finance in Minnesota continues to be a very difficult subject to explain to the general public.

APPENDIX A (CONTINUED)

Expenditures Per Student

Expenditures per Student (average daily membership) are summarized in the following graph.

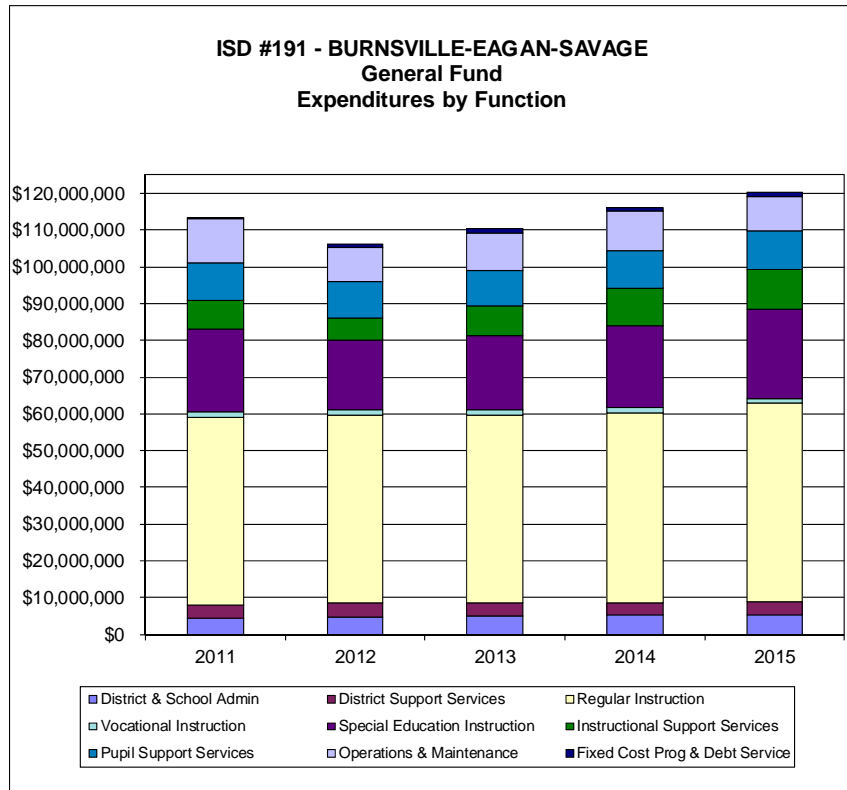

General Fund Expenditures for fiscal 2009 were grossed up by the impact of OPEB bonds which added approximately \$17.7 million of employee benefit costs on a one-time basis to move the bond proceeds to a trust fund that can only be used to pay employee postemployment benefit costs.

The following schedule shows total expenditures of the General Fund by program type:

The District's General Fund unassigned fund balance changed by \$1,153,564 during fiscal 2014-2015, decreasing from \$16,003,177 to \$14,849,613 at June 30, 2015. Total fund balance of the General Fund decreased by \$1,282,725, ending at \$20,677,866 as of June 30, 2015. The ending unassigned fund balance represents 12.33% of General Fund expenditures.

Total revenues and other financing sources exceeded total expenditures by \$359,689 in the District's Food Service Fund for 2015, resulting in a fund balance of \$1,755,459 at June 30, 2015.

Total actual revenues were higher than the budgeted amount by a net of \$153,108 or 2.9%. Total expenditures were lower than the budgeted amount by \$171,693. The net impact of these variances was an improvement to fund balance that was approximately \$325,000 more than had been reflected in the final budget.

Total Fund Balance	\$ 111,038	\$ 680,362	\$ 1,042,717	\$ 705,870	\$ 818,440

The District's Community Service Fund results reflected that revenues exceeded expenditures by \$112,570 for fiscal 2015, increasing the combined fund balance from \$705,870 at June 30, 2014, to \$818,440 at June 30, 2015. The District historically had struggled to operate the Community Service programs on a self-sustaining basis. The outcomes in recent years represented a significant improvement from prior years when transfers from the general fund were needed to cover fund balance deficits. We encourage you to continue the process of identifying ways to increase program revenues and improve the matching of available revenues with corresponding program costs with flexibility built into the program development such that if programs cannot reasonably be operated on a self-sustaining basis the costs are not incurred.

Total revenues of the District's Community Service Fund for 2015 were approximately \$483,000 higher than the budgeted amount while total expenditures were approximately \$412,000 higher than the budgeted amount. The net impact of these variances was to increase total fund balance by \$70,951 more than had been reflected in the budget. As part of any budget update initiated for fiscal 2015-2016, the community services department will want to take these budget variances into consideration in order to limit budget variances to every extent possible.

District and school admin and support services - all costs related to providing administration to the District (school board, superintendent, principals, assistant superintendents, directors of instructional areas, etc.) and all central office administration (business services, human resources, legal, data processing, other district-wide support activities)

Regular instruction - includes all activities dealing directly with the teaching of pupils including co-curricular and extra-curricular activities and the interaction between teachers and pupils in the classroom (excluding exceptional, vocational and community education instruction) and includes activities of aides or assistants of any type (paraprofessionals, clerks, graders, etc.) who assist in the educational process, except spec ed aides

Vocational instruction - consists of costs related to courses and activities which develop knowledge, skills, attitudes and behavioral characteristics for students seeking career exploration and employability

Special education instruction - consists of activities providing learning experiences for pupils of any age, who because of certain atypical characteristics or conditions, have been identified as requiring, or who would benefit by, educational programs differentiated from those provided pupils in regular or vocational instruction

Instructional support services - activities for assisting instructional staff with content and process of providing learning experiences for pupils in K-12 (curriculum, staff dev, educ media, libraries and media centers, etc.)

Pupil support services - all services to pupils not classified as instructional (counseling & guidance, health services, psychological services, social work, pupil transportation and safety, etc.)

Operations and maintenance - activities related to the operation, maintenance, repair and remodeling of all physical plant, facilities and grounds of the District

Food service - all costs of the Food Service Fund

Community service - all costs of the Community Service Fund

Capital expenditures - all capital expenditures charged to operating funds

Debt service - all debt service costs (principal, interest and fiscal agent costs)

APPENDIX C

LEGISLATIVE ACTIVITY

What follows are some education-related highlights of recent legislative sessions as summarized from information made available by the Minnesota Department of Education, the Minnesota School Boards Association, the Office of the Legislative Auditor, the Minnesota Association of Charter Schools and the Minnesota House of Representatives.

Formula Increase

The General Education Revenue formula allowance was increased by 2% (by \$117 per pupil unit to \$5,948) for FY16 and by another 2% (by \$119 per pupil unit to \$6,067) for FY17 and later.

Extended Time Revenue

Effective for fiscal year 2016 the extended time revenue for school districts schools was increased by \$100 per pupil unit (from \$5,017 to \$5,117). Extended time revenue was also allowed for charter schools at 25% of the state average per adjusted pupil unit.

Long-Term Facilities Maintenance Revenue

Effective for fiscal year 2017, the long-term facilities maintenance revenue program was reestablished in response to the Capital Facilities Work Group recommendations. All school districts were given access to alternative facilities funding so school buildings and grounds can be responsibly and efficiently maintained. School facilities levies and bonds were made more affordable in low-wealth districts by increasing the equalization (\$31,961,000).

- Establishes the long-term facilities maintenance equalization levy and aid programs.
- Requires that a district or intermediate district have a ten-year facilities maintenance plan adopted by its board and approved by the commissioner.
- Repeals Alternative Facilities Program, Deferred Maintenance Revenue Program and Health and Safety Levy, while retaining a list of allowed expenditures for health and safety revenue.
- Authorizes a district that is a member of an intermediate district or other cooperative unit to levy for its proportionate share of the costs of long-term facilities maintenance costs. Requires approval of each member board and the Commissioner of Education.
- All districts are held harmless in that all districts are guaranteed to receive at least as much revenue and at least as much state aid as they would have received under existing law.

Long-term facilities maintenance revenue may be used for exactly the same purposes as the old revenue categories it replaces: health & safety; deferred maintenance, and alternative facilities. As was true under the old law, Long-Term Facilities Maintenance Revenue may not be used for the following:

1. For construction of new facilities, remodeling of existing facilities, or the purchase of portable classrooms;
2. To finance a lease purchase agreement, installment purchase agreement, or other deferred payments agreement;
3. For energy-efficiency projects under section 123B.65, for a building or property or part of a building or property used for postsecondary instruction or administration or for a purpose unrelated to elementary and secondary education; or
4. For violence prevention and facility security, ergonomics, or emergency communication devices.

APPENDIX C (CONTINUED)

Adjusted Net Tax Capacity for Ag Land

Effective for fiscal year 2016 for the purposes of the long-term facilities maintenance equalized levy only, provides an alternative calculation for adjusted net tax capacity that is reduced by 50% of the class 2a agricultural land before the application of the ANTC growth limits.

Alternative Teacher Pay System (QComp)

Effective for fiscal year 2017, the cap on alternative compensation was increased for those districts that currently have approved plans. Cooperatives are allowed to participate in the alternative teacher professional pay system. The alternative teacher professional pay system is allowed to: (1) include a hiring bonus or other added compensation for effective or highly effective teachers who work in a hard-to-fill position or in a hard-to-staff school, (2) include incentives for teachers to obtain a master's degree in their content field of licensure or pursue additional licensure in a locally-identified teacher shortage area, or help fund a "grow your own" teacher initiative.

Flexible Use of Staff Development Revenue

Staff development revenue is now allowed to be used for principal and teacher development and evaluation, and teacher mentoring.

Fund Transfer Extension through FY2017

The authorization for a school district to transfer money among accounts (if the transfer doesn't change the district's state aid or local levy authority) was extended through fiscal 2017. Does not include transfers from the Community Service fund, the Food Service Fund or from the restricted account for staff development.

Compensatory Education Revenue

Effective July 1, 2015, the school board is allowed flexibility to allocate up to 50 percent of the revenue according to a plan adopted by the school board.

English Language Learners

The maximum number of years a student may receive state-funded English learner services was increased from six to seven years.

Special Education Funding Formula Clarifications

Clarified that cooperatives and intermediate school districts will receive direct payment of state special education aid beginning in FY 2016. A newly formed cooperative is allowed to apply to the commissioner for payment of aid based on current year data for its first year of operation, with an offsetting reduction in the aid paid to participating school districts.

APPENDIX D

TECHNICAL UPDATE

Understanding the GASB 68 Pension Accounting and Financial Reporting Rules

Given the significance of the impact the implementation of GASB No. 68 has had on the District's financial statements for the fiscal year ended June 30, 2015, we have prepared this summary based on materials made available by the Governmental Accounting Standards Board (GASB) as well as by the Public Employees Retirement Association of Minnesota. In Minnesota, substantially all school district employees are required by state law to belong to pension plans administered by either Teachers' Retirement Association (TRA) or Public Employees' Retirement Association (PERA) which are both administered on a statewide basis depending on certain criteria such as licensing. GASB is the authoritative standard-setting body for governmental accounting principles. GASB Statement No. 68 was originally issued in 2012 but is required to be implemented by Minnesota school districts for the fiscal year ended June 30, 2015. The new requirements fundamentally change the way state and local governments and school districts account for public pension liabilities and expenses. It is designed to improve the decision-usefulness of reported pension information and to increase the transparency, consistency, and comparability of pension information across governments.

The new pension accounting and financial reporting requirements will impact governments that prepare financial statements in accordance with generally accepted accounting principles in three major ways:

- First, governments are now required to report their proportionate share of the unfunded pension liability of a statewide pension plan such as TRA and PERA, referred to as the net pension liability or NPL, on their government-wide financial statements. The NPL is the difference between the present value of future pension benefit payments to employees and the amount of plan assets currently available to pay the future pension benefits. TRA and PERA allocate the NPL to participating employers. Both TRA and PERA calculate each employer's proportionate share of the NPL based on the employer's contributions to the pension plan as a percentage of the total of all employers' contributions to the plan.
- Second, pension expense is calculated differently and is no longer tied to contributions. In the past, pension expense was equal to the amount of employer contributions paid to TRA and PERA. As long as employers paid the contributions as required by state statutes, employers did not report a pension liability on their financial statements. Under the new requirements, pension expense is equal to the change in the NPL from the prior year to the current year (with some adjustments for deferred amounts). Pension expense is calculated by TRA's and PERA's respective actuary, and similar to the allocation of the NPL, both TRA and PERA allocate pension expense and deferred amounts to participating employers each year.
- Third, employers are now required to include fairly extensive pension footnote disclosures and pension-related schedules as Required Supplementary Information. The GASB believes the additional pension information better informs financial statement users how the pension liability changes over time and what economic events and assumptions impacted the changes in the liability.

APPENDIX D (CONTINUED)

Understanding the GASB 68 Pension Accounting and Financial Reporting Rules (Continued)

Most importantly, the GASB concluded that, for financial reporting purposes, governments using the accrual method of accounting need to account for pension liabilities the same way they account for any other liabilities, that is, when the goods or services are received, not when they are paid for. GASB 68 requires governments to recognize pension liabilities when their employees provide the services to the government, not when contributions are paid to the pension plan to pay for future benefits. Prior to GASB 68, governments only recognized the contributions they made to the pension plan as pension expense. They did not report the pension benefits their employees earned during the period that would be paid in the future.

The pension liabilities are quite significant and in some cases have resulted in a negative net position on the Government-wide Statement of Net Position (i.e. balance sheet). A negative net position does not necessarily indicate a school district will not be able to pay for its current obligations but it could be an indication that the school district may not be able to meet its long-term obligations in the future.

Key Talking Points

- The implementation of GASB 68 is the first time under governmental accounting that a liability has been added to the school district's district-wide financial statements that was not as a result of an action of the local school board. The local school board had no responsibility to negotiate the terms of the statewide pension plans since this is determined by the state legislature.
- It is important to note that the NPL will not impact the fund balance of a school district's operating funds (General, Food Service, Community Service, etc.). The new accounting standards require that the NPL only be reported on the government-wide financial statements, which are prepared on the accrual basis.
- Bond rating agencies have been aware of the funding policies and status of governmental pension plans. They have historically incorporated that information into their analysis of a government's ability to meet its debt obligations already.
- Governments will continue to pay off unfunded pension liabilities in the same way that they always have. The timing of when pension plans will be funded does not change as a result of the new accounting and financial reporting requirements. Although governments will be reporting their proportionate share of the NPL on their government-wide financial statements, they will not be solely responsible for paying off those liabilities. In Minnesota, employers, employees, and retirees all share the responsibility to pay off unfunded pension liabilities. In addition, investment earnings on contributions fund the majority of pension benefits in Minnesota.
- The new accounting standards will not result in increases to employer pension contributions. Contribution rates will continue to be set in Minnesota Statutes and will continue to be determined based on traditional actuarial funding valuations. The Minnesota Legislature will make future decisions about required pension contributions based on the traditional funding actuarial valuations and not on the new accounting standards.
- School districts will not need to budget more for pension expenses under the new requirements. While the NPL will be reported on the school district's financial statements, there is no expectation that school districts pay off the liability within a budget cycle or limited number of budget cycles. The pension liabilities are similar to a home mortgage: homeowners pay off the mortgage gradually over time and are not expected to pay off the mortgage upon purchasing a home. In fact, there is no ability for an individual unit of government to pay off their portion of the unfunded liability even it wanted to and had the resources to do so. So the only real difference is that governments now report the outstanding balance of their "mortgage" as a liability on their financial statements.

APPENDIX D (CONTINUED)

Key Talking Points (Continued)

- Pension plans in Minnesota are in fairly good shape financially. Minnesota pension plans also have a positive standing nationwide in terms of funding and pension reform efforts. In recent years the Minnesota Legislature has enacted various pension reforms to ensure state pension plans remain financially viable and pension benefits remain sustainable.
- The amount of government resources spent on public pensions will not change as a result of the new pension accounting requirements. Nationwide, public pensions currently account for about 3.7% of state and local government spending whereas they only account for approximately 2% of government spending in Minnesota.

GASB Statement No. 69 – Government Combinations and Disposals of Government Operations

This statement provides accounting and financial reporting guidance, including disclosure requirements, for government combinations and disposals of government operations. Government combinations include mergers, acquisitions, and transfers of operations. Included within the scope of this statement are combinations of governmental entities or combinations of governmental entities, with nongovernmental entities (such as a nonprofit entity) as long as the new or continuing organization is a government. This statement does not apply to combinations in which a government acquires an organization that continues to exist as a separate entity, or acquires an equity interest in an organization that remains legally separate from the acquiring government. A disposal of operations occurs when a government either transfers or sells specific operations. This statement is effective for school district financial statements for the fiscal year ending June 30, 2015.

GASB Statement No. 70 – Accounting and Financial Reporting for Nonexchange Financial Guarantees

Some governments extend financial guarantees for the obligations of another government, a not-for-profit entity, or a private entity without directly receiving equal or approximately equal value in exchange (a nonexchange transaction). As a part of this nonexchange financial guarantee, a government commits to indemnify the holder of the obligation if the entity that issued the obligation does not fulfill its payment requirements. Also, some governments issue obligations that are guaranteed by other entities in a nonexchange transaction.

This Statement requires a government that extends a nonexchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee. The amount of the liability to be recognized should be the discounted present value of the best estimate of the future outflows related to the guarantee expected to be incurred.

This Statement requires a government that has issued an obligation guaranteed in a nonexchange transaction to recognize revenue to the extent of the reduction in its guaranteed liabilities. This Statement also requires a government that is required to repay a guarantor for making a payment on a guaranteed obligation or legally assuming the guaranteed obligation to continue to recognize a liability until legally released as an obligor. When a government is released as an obligor, the government should recognize revenue as a result of being relieved of the obligation.

APPENDIX D (CONTINUED)

GASB Statement No. 71 – Pension Transition for Contributions Made Subsequent to the Measurement Date—an Amendment of GASB Statement No. 68

The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by the school district to a defined benefit pension plan after the measurement date of the school district's beginning net pension liability.

Statement 68 requires a school district employer to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If a school district makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the government's reporting period, Statement 68 requires that the school district recognize its contribution as a deferred outflow of resources. In addition, Statement 68 requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net pension liability of a school district that arises from other types of events. At transition to Statement 68, if it was not practical for a school district to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, paragraph 137 of Statement 68 required that beginning balances for deferred outflows of resources and deferred inflows of resources not be reported. Consequently, contributions made after the measurement date of the beginning net pension liability could not have been reported as deferred outflows of resources at transition. This could have resulted in a significant understatement of a school district's beginning net position and expense in the initial period of implementation.

This Statement amends paragraph 137 of Statement 68 to require that, at transition, a school district recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. Statement 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts. The provisions of this Statement are required to be applied simultaneously with the provisions of Statement 68.

GASB Statement No. 72 – Fair Value Measurement and Application

In response to stakeholders requesting more clarity regarding Fair Value standards, GASB developed new guidance by issuing Statement No. 72. The new guidance is designed to provide additional information regarding the measurement of Assets and Liabilities and to help financial statement readers make better, more informed decisions. GASB Statement No. 72, *Fair Value Measurement and Application*, defines Fair Value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Currently, state and local governments are required to disclose how the value of an asset or liability is determined or measured. Statement No. 72, however, now requires governments, for periods beginning after June 15, 2015, to categorize Fair Values based on the criteria of the Fair Value Hierarchy.

An investment is a security or other asset that a government holds primarily for the purpose of income or profit and has a present service capacity based on its ability to generate cash. GASB 72 requires governments to use a consistent valuation technique based on one of following three approaches: the market approach, the cost approach, or the income approach. The market approach uses quoted market prices for identical or similar assets and liabilities in most instances, but additional techniques such as the multiples and matrix techniques can also be applied. The cost approach is a technique that considers the dollar amount to replace the asset with a similar asset or substitute. Lastly, the income approach considers the future amounts of revenue or cash flows and converts the amounts to a single value with techniques such as the discounted present value, the option pricing model, and the multi-period excess earnings technique. The Statement specifies that the selected approach should be used consistently, but changes may be appropriate depending on the circumstances.

APPENDIX D (CONTINUED)

GASB Statement No. 72 – Fair Value Measurement and Application (Continued)

The Fair Value Hierarchy is categorized into three levels based on reliability. Level 1 inputs, the first and most reliable level, are quoted prices for assets or liabilities in active markets that governments can access at a particular date. Level 2 inputs are those that are directly or indirectly observable but lack quoted prices in active markets. Level three inputs are the lowest level of reliability. Level three inputs are prices that cannot be observed. It is important to note that if an asset or liability is measured using more than one input, the government must categorize the item at the lowest of the inputs used.

Due to the need for increased transparency in government reporting, GASB Statement No. 72 addresses the issues related to Fair Value reporting and provides guidance for governments on measuring assets and liabilities and the reliability of those measurements. Financial statement readers will now be able to determine how the values of the government's assets and liabilities were measured and how reliable the measurements are.

GASB Statement No. 73 – Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68

The issuance of GASB Statement No. 73 completes the suite of pension standards. Statement 73 establishes requirements for those pensions and pension plans that are not administered through a trust meeting specified criteria (in other words, those not covered by Statements 67 and 68). The requirements in Statement 73 for reporting pensions generally are the same as in Statement 68. However, the lack of a pension plan that is administered through a trust that meets specified criteria is reflected in the measurements. The provisions in Statement 73 are effective for fiscal years beginning after June 15, 2015—except those provisions that address employers and governmental non-employer contributing entities for pensions that are not within the scope of Statement 68, which are effective for financial statements for fiscal years beginning after June 15, 2016.

GASB Statement No. 74 – Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans

GASB Statement No. 74 addresses reporting by OPEB plans that administer benefits on behalf of governments and replaces GASB Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. GASB 74 addresses the financial reports of defined benefit OPEB plans that are administered through trusts that meet specified criteria. The Statement follows the framework for financial reporting of defined benefit OPEB plans in Statement 45 by requiring a statement of fiduciary net position and a statement of changes in fiduciary net position. The Statement requires more extensive note disclosures and RSI related to the measurement of the OPEB liabilities for which assets have been accumulated, including information about the annual money-weighted rates of return on plan investments. Statement 74 also sets forth note disclosure requirements for defined contribution OPEB plans. The provisions in GASB Statement No. 74 are effective for financial statements for fiscal years beginning after June 15, 2016.

APPENDIX D (CONTINUED)

GASB Statement No. 75 – Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions

GASB Statement No. 75 addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. GASB 75 replaces the requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, and requires governments to report a liability on the face of the financial statements for the OPEB that they provide: Governments that are responsible only for OPEB liabilities related to their own employees and that provide OPEB through a defined benefit OPEB plan administered through a trust that meets specified criteria will report a net OPEB liability—the difference between the total OPEB liability and assets accumulated in the trust and restricted to making benefit payments.

Governments that participate in a cost-sharing OPEB plan that is administered through a trust that meets the specified criteria will report a liability equal to their proportionate share of the collective OPEB liability for all entities participating in the cost-sharing plan. Governments that do not provide OPEB through a trust that meets specified criteria will report the total OPEB liability related to their employees.

GASB 75 requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary information (RSI) about their OPEB liabilities. Among the new note disclosures is a description of the effect on the reported OPEB liability of using a discount rate and a healthcare cost trend rate that are one percentage point higher and one percentage point lower than assumed by the government. The new RSI includes a schedule showing the causes of increases and decreases in the OPEB liability and a schedule comparing a government's actual OPEB contributions to its contribution requirements.

Some governments are legally responsible to make contributions directly to an OPEB plan or make benefit payments directly as OPEB comes due for employees of other governments. In certain circumstances—called special funding situations—GASB 75 requires these governments to recognize in their financial statements a share of the other government's net OPEB liability. The provisions in Statement 75 are effective for fiscal years beginning after June 15, 2017.

GASB Statement No. 76 – The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments

The objective of this Statement is to identify—in the context of the current governmental financial reporting environment—the hierarchy of generally accepted accounting principles (GAAP). The “GAAP hierarchy” consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and non-authoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP.

This Statement supersedes Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2015, and should be applied retroactively.

APPENDIX D (CONTINUED)

GASB Statement No. 77 – Tax Abatement Disclosures

The objective of this Statement is to require governments that enter into tax abatement agreements to disclose information about a reporting government's own tax abatement agreements and information about those that are entered into by other governments and that reduce the reporting government's tax revenues. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2015.

APPENDIX E

FORMAL REQUIRED COMMUNICATIONS

Board of Education
Independent School District No. 191
Burnsville-Eagan-Savage Schools
Burnsville, Minnesota

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Independent School District No. 191 (the school) as of and for the year ended June 30, 2015, and have issued our report thereon dated October 26, 2015. We have previously communicated to you information about our responsibilities under auditing standards generally accepted in the United States of America, *Government Auditing Standards*, and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit. Professional standards also require that we communicate to you the following information related to our audit.

Significant audit findings

Qualitative aspects of accounting practices

Accounting policies

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the school are described in Note 1 to the financial statements.

As described in Note 1, during the fiscal year ended June 30, 2015, the District changed accounting policies related to its accounting for pensions by adopting Statement of Governmental Accounting Standards (GASB Statement) No. 68, *Accounting and Financial Reporting for Pensions*, and the related GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68*. Accordingly, this change in principle resulted in the restatement of beginning net position related to the recognition of the District's proportionate share of the Public Employees' Retirement Association of Minnesota General Employees' Retirement Fund's net pension liability as well as their portion of the Teacher's Retirement Association's Coordinated and Basic Plan net pension liability.

We noted no transactions entered into by the school during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Qualitative aspects of accounting practices (continued)

Accounting estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

- Due from Minnesota Department of Education
- Due from other Minnesota school districts
- Due from federal through the Minnesota Department of Education
- Other Postemployment Benefits Payable
- Estimated useful lives of depreciable capital assets
- Estimated proportionate share of PERA's and TRA's net pension liability

Management's estimate of the due from Minnesota Department of Education is based on amounts anticipated to be received from the state for various aid entitlements for fiscal 2015. The most significant of these is the aid portion of general education revenue. General education revenue and certain other revenues are computed by applying an allowance per student to the number of students served by the school. Student attendance is accumulated in a statewide database, Minnesota Automated Reporting Student System (MARSS). Because of the complexity of student accounting and because of certain enrollment options, student information is input by other school districts and the MARSS data for fiscal year 2015 is not finalized until well into the next fiscal year. MDE calculates amounts owed to the School for special education excess cost tuition billing and adds the amount to the School's special education aid. Because the tuition amounts are based on estimated information, final entitlements are not expected to be known until well into the following fiscal year. Management expects any differences between estimated and actual data will be insignificant.

Management's estimate of due from other Minnesota school districts is based on amounts that have been billed to other school districts under the excess special education cost tuition billing system. The school has made a good faith effort to accurately calculate such amounts billed, but until the resident school district has an opportunity to review such underlying details as membership days, disability codes, and rates, it will not be known whether such amounts will be collected or not. Management expects any difference between amounts billed and amounts ultimately collected will be insignificant.

Management's estimate of due from federal through the Minnesota Department of Education is based on amounts anticipated to be received through the state for various federal aid entitlements for fiscal 2015. Many federal entitlements require that supporting financial reporting information be provided both in the Uniform Financial Accounting and Reporting Standards (UFARS) accounting system and also the Electronic Data Reporting System (EDRS) reporting system. To the extent that these two separate systems are not in agreement and reported in a timely manner, the estimated aid entitlement may be adversely affected. Management expects any differences between estimated and actual data will be insignificant.

Qualitative aspects of accounting practices (continued)

Accounting estimates (continued)

Management's estimate of other postemployment benefits payable is based on an actuarially determined calculation, less actual payments incurred on behalf of retirees and an actuarially determined estimate of implicit rate subsidy, which is the estimated increased cost of premiums due to inclusion of retirees in the same plan as the District's active employees.

Management's estimate of the useful lives for depreciable capital assets is based on guidance recommended by the Minnesota Department of Education and other sources. The useful life of a depreciable capital asset determines the amount of depreciation that will be recorded in any given reporting period as well as the amount of accumulated depreciation that is reported at the end of a reporting period.

Management's estimate of the District's proportionate share of PERA's and TRA's Net Pension Liability is based on guidance from GASB Statement No. 68 and GASB Statement No. 71 and each plan's respective allocation tables. Each plan's allocation tables allocate a portion of the plan's net pension liability based on the District's prior fiscal year contributions as a percentage of the total contributions received for the related year by the plan.

We reviewed and tested management's procedures and underlying supporting documentation in the areas discussed above and evaluated the key factors and assumptions used to develop the estimates noted above in determining that they are reasonable in relation to the financial statements taken as a whole. We concluded that the accounting estimates and management judgments appeared to consider all significant factors and resulted in appropriate accounting recognition.

Financial statement disclosures

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There were no particularly sensitive financial statement disclosures.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties encountered in performing the audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Uncorrected misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements.

Corrected misstatements

None of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. No such disagreements arose during our audit.

Management representations

We have requested certain representations from management that are included in the management representation letter dated October 26, 2015.

Management consultations with other independent accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the school's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Significant issues discussed with management prior to engagement

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to engagement as the school's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our engagement.

Other audit findings or issues

We have provided a separate letter to you dated October 26, 2015, communicating internal control related matters identified during the audit.

Other information in documents containing audited financial statements

With respect to the required supplementary information (RSI) accompanying the financial statements, we made certain inquiries of management about the methods of preparing the RSI, including whether the RSI has been measured and presented in accordance with prescribed guidelines, whether the methods of measurement and preparation have been changed from the prior period and the reasons for any such changes, and whether there were any significant assumptions or interpretations underlying the measurement or presentation of the RSI. We compared the RSI for consistency with management's responses to the foregoing inquiries, the basic financial statements, and other knowledge obtained during the audit of the basic financial statements. Because these limited procedures do not provide sufficient evidence, we did not express an opinion or provide any assurance on the RSI.

With respect to the schedule of expenditures of federal awards (SEFA) accompanying the financial statements, on which we were engaged to report in relation to the financial statements as a whole, we made certain inquiries of management and evaluated the form, content, and methods of preparing the SEFA to determine that the SEFA complies with the requirements of U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, the method of preparing it has not changed from the prior period or the reasons for such changes, and the SEFA is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the SEFA to the underlying accounting records used to prepare the financial statements or to the financial statements themselves. We have issued our report thereon dated October 26, 2015.

Other information in documents containing audited financial statements (continued)

With respect to the individual fund financial statements and the Uniform Financial Accounting and Reporting Standards Compliance Table (collectively, the supplementary information) accompanying the financial statements, on which we were engaged to report in relation to the financial statements as a whole, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period or the reasons for such changes, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves. We have issued our report thereon dated October 26, 2015.

The statistical section accompanying the financial statements, which is the responsibility of management, was prepared for purposes of additional analysis and is not a required part of the financial statements. Such information was not subjected to the auditing procedures applied in the audit of the financial statements, and, accordingly, we did not express an opinion or provide any assurance on it.

Our auditors' opinion, the audited financial statements, and the notes to financial statements should only be used in their entirety. Inclusion of the audited financial statements in a document you prepare, such as an annual report, should be done only with our prior approval and review of the document.

APPENDIX F

INDEPENDENT AUDITORS' REPORT ON CONDENSED FINANCIAL STATEMENTS INCLUDED HEREIN

Board of Education
Independent School District No. 191
Burnsville-Eagan-Savage Schools
Burnsville, Minnesota

Report on the Financial Statements

We have audited the financial statements of Independent School District No. 191 (the District) as of and for the years ended June 30, 2015, 2014, 2013, 2012, and 2011 (not presented herein).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Auditors' Responsibility (Continued)

The condensed Statements of Revenues, Expenditures and Changes in Fund Balance for the years presented on pages 13, 14 and 16 are presented as a summary and, therefore, do not include all of the disclosures required by U.S. generally accepted accounting principles.

Opinions

In our opinion, because of the significance of the omission of the information referred to in the preceding paragraph, the condensed financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America the results of its operations for the years then ended.

This report is intended solely for the information and use of the School Board and management of the District and is not intended to be and should not be used by anyone other than these specified parties.

General Fund – Expenditures per Student

General Fund Expenditures for fiscal 2009 were grossed up by the impact of OPEB bonds which added approximately \$17.7 million of employee benefit costs on a one-time basis to move the bond proceeds to a trust fund that can only be used to pay employee postemployment benefit costs

Re: Enrollment Projections

Each year a report is generated from the work done around Projection of Enrollment. We utilize final prior year enrollment data and the latest fall enrollment data available to project student enrollment for the future years. This process has some key assumptions embedded.

- 1) We use end of year data for purposes of budgeting
- 2) We need to assess the anticipated Kindergarten enrollment as this plays a key factor in the process. We have chosen the assumption of Kindergarten class of 2016 to be at 776 and 2017 to be at 780 for purposes of this enrollment projection.
- 3) We compare five different projection methods and chose the “middle of the road” projection which is based on the Weighted Ratio over 7 years. In the weighted method greater weight is given to the ratio of the most recent year, less to the second year, less to the third year, etc. We chose seven years as that assists in smoothing out peaks and valleys that may have occurred in recent years.

The Enrollment Projection Report will be presented November 5.

409 EMPLOYEE PUBLICATIONS, INSTRUCTIONAL MATERIALS, INVENTIONS, AND CREATIONS

I. PURPOSE

The purpose of this policy is to identify and reserve the proprietary rights of the school district to certain publications, instructional materials, inventions, and creations which employees may develop or create, or assist in developing or creating, while employed by the school district.

II. GENERAL STATEMENT OF POLICY

Unless the employee develops, creates or assists in developing or creating a publication, instructional material, computer program, invention or creation entirely on the employee's own time and without the use of any school district facilities or equipment, the employee shall immediately disclose and, on demand of the school district, assign any rights to publications, instructional materials, computer programs, materials posted on websites, inventions or creations which the employee develops or creates or assists in developing or creating during the term of employee's employment and for _____ ~~[school district should select time]~~ two years thereafter. In addition, employees shall sign such documents and perform such other acts as may be necessary to secure the rights of the school district relating to such publications, instructional materials, computer programs, materials posted on websites, inventions and/or creations, including domestic and foreign patents and copyrights.

III. NOTICE OF POLICY

The school district shall give employees notice of this policy by such means as are reasonably likely to inform them of this policy.
