**4. Prioritize Agenda**

No changes were made to the agenda.

**5. Reports**

**5.1 Superintendent's Report**

Mr. Drill presented his report to the board highlighting that the legislature has finished their session with only a slight increase in funding to Oregon public schools. He emphasized that Cascade has been conservative financially, putting the District in a good position moving into

the 2021-22 school year. Negotiations with the teacher's association have finished – Mr. Drill thanked Ms. Ishii, present at the board meeting, on behalf of CEA. Negotiations with the classified association are ongoing. Mr. Drill thanked the administrators and staff in each building for providing opportunities for students to attend graduations and promotions throughout the District at the high school, junior high, and elementary levels. Finally, Mr. Drill indicated that Governor Brown has released guidance in relation to protocols and mandates in the coming year. It appears that many decisions have been left up to individual school districts for the 2021-22 school year. We will be having continued conversations over the summer about masks, social distancing, and how we “do school” moving into next year and expect further guidance from ODE in July.

### **5.2 Finance Director's Report**

Mr. Pillar shared with the board that, due to our conservative budget process last year and the state's promise to maintain the budget, we are in good shape to finish the fiscal year strong. Although student enrollment was impacted by the unusual circumstances of the last year in relation to the pandemic, we are anticipating continued growth in enrollment heading into the 2021-22 school year as school continues to return to normal. Mr. Stegall asked if the District knew where the kids went this year; as it appears that enrollment in every school across the state declined? Mr. Pillar and Mr. Drill indicated that many chose to homeschool or attend online school. It is also quite possible that many families left the state. Mr. Pillar indicated that he will be presenting a resolution of change for the current budget this evening as the District has received summer grant money. Next year's budget, to be presented to the Board tonight, is the same budget approved by the budget committee – Mr. Pillar pointed out that the budget includes the money appropriated for the bond, despite the fact that the bond did not pass. After consulting with Mr. Drill, the decision was made to leave the bond money in the budget to avoid the need to reconvene the budget committee should the decision be made to go out for another bond in the fall. He assured the board that this only allows you to spend the funds should the bond pass in November. There are no changes in the budget from what the budget committee approved.

### **5.3 High School Principal's Report**

Mr. Thatcher addressed Mr. Stegall's prior question regarding student declining numbers across the state. He indicated that some students transferred to private schools; in particular there is a private school in our district that has over 200 new applicants for the coming year – the applicants are not all from our district but from surrounding areas. Many of these students went to school very little in the 2020-21 school year.

Mr. Thatcher presented his written report to the board with additional comments. Graduation was a highlight this year and an opportunity to recognize the kids we serve. Mr. Stegall thanked Mr. Thatcher and the high school staff for an awesome job and experience for the students. Mr. Thatcher thanked all staff for making it through a difficult year. He pointed out the contribution of Counselor Cristina Williams who worked diligently with freshman

students to help them be successful and prepared for next year. Mr. Thatcher also thanked Tim Ganfield, the Athletic Director, who managed to coordinate 10 months of athletics and fit it all into 2 months; he also volunteered to host other events like the 4A State Wrestling Tournament. Mr. Thatcher completed his remarks by indicating that, after 14 years as the High School Principal, this is his last report to the board. He expressed his appreciation and thanks to the board and is looking forward to transitioning into his new position in the District Office. He has already begun preliminary meetings with teachers and administrators and will be reporting more to the board on those developments in the coming months. Ms. Ramseyer and the Board thanked Mr. Thatcher for everything he has done and will continue to do for the district.

#### **5.4 Junior High Principal's Report**

Mr. Rasmussen thanked the staff for an incredible and unique eighth grade promotion. They created a drive-through carnival-style event and went above and beyond to honor students and families. The event was so successful Ms. LeDay is considering changing the format in the future. The sixth grade staff also pulled off a successful outdoor school, bussing students each day to Camp Tadmor. The school received great feedback and Mr. Rasmussen thanked all the teachers, counselors, and staff. Mr. Stegall asked Mr. Rasmussen what he believes outdoor school may look like in the fall. Mr. Rasmussen indicated they are optimistic and have a date picked in October with Camp Tadmor; the junior high administration will look closely at the guidance and make decisions about overnight stays. Mr. Rasmussen thanked the board for their support of him as junior high principal and he looks forward to continuing to work with them from the high school.

#### **5.5 Athletic Director's Report**

Mr. Ganfield indicated that, once able to begin, sports seasons moved quickly. Winter sports finished up last Saturday and were very successful. Cascade had one first place winner in wrestling, Lance Van Hoose. Mr. Ganfield thanked the maintenance and technology staff for all of their help with the state wrestling tournament. He received nothing but positive comments and requests to have it at Cascade every year. The boys varsity basketball team finished second at the state tournament in Coos Bay. We hired a new swim coach this year and were one of the only teams in the area with an outdoor pool; two swimmers placed seventh. The fact that Cascade had sports seasons was the most positive part – it was a struggle but it was clearly worth the effort for kids and the community. Mr. Ganfield is planning for regular full sports starting in the fall – schedules are already completed for next year. Ms. Stevens and Ms. Ramseyer thanked Mr. Ganfield for all of his efforts this year.

#### **5.6 Elementary Principal's Report**

Ms. Ganfield shared data to give perspective on where Aumsville Elementary ended the year. Aumsville administered statewide assessments after the regular school day so they didn't have to give up instruction time in the already shortened day – close to 70% of kids stayed for assessments in the afternoon. In reviewing data Aumsville has lost ground in reading, missing instruction in the fall carried some heavy data impacts but she has a plan to correct that in the

coming year. It was great meeting with Mr. Thatcher and the math coaches today – there is a great plan moving forward. Ms. Ganfield reviewed statistics from the elementary online program. Many students plowed through and finished early. Aumsville will be running the traditional academic morning for summer programming this year – combining KPI, migrant education, and summer enrichment dollars; approximately 140 students are enrolled. The afternoon summer enrichment program will be funded entirely by summer enrichment grant money and will be planned around the theme of “programming” - Week 1 ESPN (all sports activities); Week 2 DIY Network (construction, building, robotics); Week 3 Food Network (local farm to table, cooking, dairy). Approximately the same number of students are signed up for summer afternoon programming. Finally, this year, in lieu of traditional home visits for pre-kinder engagement, kids were brought on campus and it worked so well Aumsville may continue the format in the future.

### **5.7 Curriculum Director’s Report**

In Ms. Moorefield’s absence, Mr. Drill presented her written report on curriculum to the board. The board will hear from Math Teacher, Misty Pyburn, later tonight concerning the i-Ready math curriculum adoption.

### **5.8 Opportunity School Director’s Report**

Ms. Thompson shared her report with the board and emphasized the increase in student enrollment and engagement this year due to COVID. The Opportunity School was able to develop new and exciting educational opportunities such as the Maker space – a creative space for students. The center also held the first annual graduation/celebration dinner for students and families held at the Turnaround Café which included student acknowledgement and door prizes. Mr. Rasmussen was the speaker for the event. Staff received specialized training in the fall to assist students with social, emotional supports. Mr. Stegall questioned if the attendance numbers indicate that 40% of the students are not attending. Ms. Thompson indicated that attendance is better than it has been and the numbers are somewhat misleading as it depends on how absences are tracked. That said, they are conducting home visits, sending attendance letters, and pursuing other avenues to encourage attendance and let students know they are invested in their success. Ms. Ramseyer asked if they anticipate some students returning to traditional school next year as things return to normal. Ms. Thompson does believe that will be the case.

### **5.9 Technology Director’s Report**

Mr. Essex spoke about the challenges in equipment and supplies this year. As the pandemic started, the District moved as quickly as possible to meet technology needs, using every means possible. There were many challenges as we were competing with other schools across the nation to obtain equipment. In the fall, Cascade was able to provide every family with at least one device and increase that to every student within a few weeks. Technology staff went above and beyond to locate any devices available online and in local stores. Scott Pillar in the fiscal office was instrumental in obtaining funds to get an additional 1,000 computers over the summer. The District is now prepared moving into the fall with new equipment and new carts

that will be available in all district schools. The technology department is now focused on increasing security and addressing password protection across the district and any vulnerabilities to ransomware. Mr. Stegall expressed that he is pleased we are addressing cyber security. He also asked how many chromebooks were distributed to students and how many were returned at the end of the year. Mr. Essex indicated there were about 1,600 distributed – some they did not expect to have returned because they were not in great condition however, overall, he has been surprised that most devices have in fact been returned, more than expected. Ms. Stevens complemented the technology department on their effort to work hard and provide for every student.

#### **5.10 Food Service Director's Report**

Mr. Vetter introduced himself to the board as the new Food Services Director. He thanked Mr. Drill for giving him the opportunity to work with Cascade and the freedom to make improvements. He is also the Food Services Director for North Santiam and his goal is to partner with North Santiam in the same buying group which will save money overall and make our program here at Cascade a viable program that is not dependent on general funds. He will achieve this by taking full advantage of government programs and local produce. To this end he has just applied for an Oregon Farmer's School grant. The goal of the food service program in 2021-22 will be to have a normal school experience. Every student will have a free meal as a result of the USDA program. It will be a non-select hot meal, although self-select items will not be returning for some time. For the last year the staff has done a fantastic job and provided over 900 meals/day at the high school alone. Mr. Stegall asked why Cascade was providing so many meals per day. Mr. Vetter indicated that North Santiam was doing 150-200 take-home-and-cook meals per day and Cascade was perfecting a hot food service for a 5-day school week. Due to our high volume we have generated revenue that will allow us to update equipment. Mr. Stegall asked if the District makes money on the 900 meals/day. Mr. Vetter and Mr. Pillar indicated that there is a net gain to the District; in fact, the District may solve the deficit problem this year alone. Mr. Stegall and Ms. Ramseyer discussed with Mr. Vetter the use of disposable or reuseable trays and utensils. He indicated that it is more cost-effective to use reuseable trays at the elementary level and that is his goal. He will continue to use disposable at the secondary level. Ms. Ramseyer asked if the District will be providing summer lunches. Mr. Vetter explained that lunches this summer will be in August only. Most kitchen staff have worked for a full year with no breaks and they need a break to begin strong in August.

### **6.0 Open Budget Hearing**

The Board Chair opened the budget hearing.

### **7.0 Discussion and Communication**

#### **7.1 Teacher Presentation**

Junior High Math Teacher, Ms. Pyburn, shared with the Board the work of the Math Committee to select a new math curriculum. They started with six programs and narrowed that down to one, the i-Ready program. Although it was not an adoption year for math, the committee chose to move forward as the funds were available. Ms. Pyburn believes the i-Ready program is the best option out of those reviewed and will result in incredible gains for students in mathematics. Students will take several diagnostic tests each year to reveal gains and challenges and develop individual plans for struggling students. It will also give teachers a clear picture of where students need assistance. Mr. Stegall inquired if this is an online or book program. Ms. Pyburn indicated it is a book program but does include online individualized plans for each student as well. Mr. Stegall asked Ms. Pyburn what she saw as the biggest gain for this program. She indicated that she believes it is the individual plans for each student but also the math discourse that will encourage students to engage with each other to think and solve every lesson. Mr. Stegall confirmed with Ms. Pyburn that this is a six-year commitment. Mr. Stegall wished Ms. Pyburn good luck in her future endeavors.
