JORDAN DISTRICT SCHOOLS POLICY

Revised: September 12, 2007

533 WELLNESS

PURPOSE

The purpose of this policy is to emphasize the important role nutrition and physical activity play in creating healthy students who are better able to grow, learn, and thrive.

GENERAL STATEMENT OF POLICY

The Wellness Policy is a guide for school district and building administrators, school employees, students, school board members, and community members to ensure students are able to form healthy life-long nutritional and physical habits. District 717 will provide our students appropriate education in each of these areas, as well as healthy food choices and opportunities to participate in physical activities.

School District 717's Wellness Policy follows the guidelines of the Child and Nutrition and WIC Reauthorization Act of 2004. A committee comprising parents, students, teachers, school board, school administrators, food service staff, and the public developed the policy. Such broad participation lends itself to support for the elements and guidelines contained below.

ELEMENTS OF THE DISTRICT 717 WELLNESS POLICY

Physical Activity

District 717 will provide Pre-K–12 students with opportunities, support, and encouragement for physical education and activity in partnership with family, staff, and community through:

1. Physical education classes in which the relationship of fitness and healthy lifestyles are emphasized.
2. Daily recess time for elementary students.
3. Co-curricular opportunities.
4. Integration of physical activity into the academic curriculum where appropriate.
5. Use of school facilities outside of school hours.

Nutrition Education

District 717 will provide Pre-K–12 students with opportunities, support, and encouragement for nutrition education through:

1. Health education.
2. Recognition of nutritional needs.

Nutrition Standards

District 717 will provide Pre-K–12 students access to a variety of nutritious and appealing foods that meet the health and nutrition needs of students through:

1. Meeting the USDA nutritional requirements.
2. Participating in available federal and state school meal and milk programs.
3. Accommodating individualized health plans.
4. Accommodating religious, ethnic, and cultural backgrounds.
5. Providing adequate time for students to eat.

Other School Based Activities

District 717 will model and promote Pre-K–12 students' health, well being, and ability to learn by establishing an environment that:

1. Offers healthy and nutritional choices to students.
2. Educates students, staff, and community on healthy choices.

Nutritional Quality of Foods and Beverages Sold and Served on Campus

Meals served through the National School Lunch and Breakfast Programs will:

1. Be appealing and attractive to children.
2. Be served in clean and pleasant settings.
3. Meet, at a minimum, nutrition requirements established by local, state, and federal statutes and regulations.
4. Offer a variety of fruits and vegetables.
5. Serve only low-fat (1%) and fat-free milk and nutritionally equivalent non-dairy alternatives.
6. Ensure that whole wheat and whole grains are used where possible.

Schools should engage students and parents, through taste-tests of new entrees and surveys, in selecting foods sold through the school meal programs in order to identify new, healthful, and appealing food choices. In addition, schools should share information about the nutritional content of meals with parents and students. Such information could be made available on menus, the school's website, cafeteria menu boards, or other point-of-purchase locations.

Breakfast:

To help increase the number of students who start their learning day with a nutritional meal:

1. Breakfast will be offered at the elementary and middle school.
2. The district will make an effort to provide cereal low in sugar content.
3. Schools will encourage parents to provide a healthy breakfast for their children through newsletter articles, take-home materials, or other means.
4. Parents of elementary and middle school students will be made aware of the breakfast program.

Meal Times and Scheduling:

Principals will work with the Hot Lunch staff to ensure adequate time to eat lunch. The elementary will be encouraged to schedule lunch periods to follow recess periods.

Sharing of Foods and Beverages:

The schools will discourage students from sharing their foods or beverages with one another during meal or snack times, given concerns about allergies and other restrictions for some children's dietary needs. The schools will offer students an opportunity to sanitize their hands before eating.

Foods and Beverages Sold Individually (i.e., a la carte, vending machines, snacks, fundraisers)

Beverages

Milk, water, and fruit juice will be the only beverages sold during breakfast and lunch periods. Where available will only be in operation before and after school bell times. Water, milk, and fruit juice shall make up at least 50% of the selection choice in all vending machines. Chocolate milk will only be offered twice per week at the elementary.

Snacks

Snacks served during the school day or in after-school care or enrichment programs will make a positive contribution to children's diets and health, with an emphasis on serving fruits and vegetables as the primary snacks and water as the primary beverage. Schools will assess if and when to offer snacks based on timing of school meals, children's nutritional needs, children's ages, and other considerations. To assist parents in selecting healthy choices when students are asked to bring snacks to school, the District will provide a list of healthful snack items.

If eligible, schools that provide snacks through the after-school programs will pursue receiving reimbursements through the National School Lunch Program.

Celebrations and Rewards

Staff will be encouraged to be selective and limiting when using food as a reward for academic achievement. Schools are encouraged to be selective and limiting when using food for class or school celebrations. Parents will be provided with a list of healthful options to use for celebrations.

Nutrition Education

Students will receive nutrition education through the health education curriculum. Food service staff and facilities will be incorporated into the nutritional learning opportunities for students. The District will make use of promotional and educational materials to further educate students, staff, and the community regarding nutrition. Staff will look for and take advantage of nutritional learning opportunities across the curriculum.

Physical Activity

Physical Education Classes: It is encouraged that students will spend at least 50% of physical education class time participating in moderate to vigorous activity. Student involvement in other physical activities will not be substituted for the physical education requirement.

Daily Recess

Students in grades K-4 will have a supervised recess activity daily. It is recommended that staff supervising students at recess encourage students to be involved in physical activity during recess. Schools are discouraged from using the loss of recess as a regular form of discipline.

Reports To

Each year at the June board meeting the administration will give the board an update on the Wellness Plan in the district.

[Note: All school districts that receive funding from the federal school lunch program are required by the Child Nutrition and WIC Reauthorization Act of 2004 (“the Act”) to have a Wellness Policy that includes nutrition guidelines, goals for nutrition education, and physical activity to promote student wellness. The Act requires the involvement of parents, students, representatives of the school food authority, the school board, school administrators, and the public in the development of the wellness policy. The Act also requires a plan for measuring implementation of the policy and the designation of at least one person charged with operational responsibility for ensuring the school district is in compliance with the policy. IV. IMPLEMENTATION AND MONITORING

[Note: The Act requires that the wellness policy establish a plan for measuring implementation of the policy, including designation of at least one or more persons within the school district or at each school, as appropriate, charged with operational responsibility for ensuring that the school meets the requirements of the wellness policy.]

- A. After approval by the school board, the wellness policy will be implemented throughout the school district.

The comment period for the proposed rules officially ended in June 2014; however, final rules have not yet been issued. New requirements, particularly regarding record keeping related to the school wellness policy may be required soon. MSBA will update this policy when final rules have been issued.]

Jordan Schools District 717 Wellness Policy

Preamble

Jordan Public Schools District 717 (herein referred to as the District) is committed to the optimal development of every student and staff member. The District believes that for students and staff to have the opportunity to achieve personal, academic, developmental and social success, we need to create positive, safe and health-promoting learning and working environments at every level, in every setting, throughout the school year.

Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks.^{1,2,3,4,5,6,7} Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students.^{8,9,10} In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities – do better academically.^{11,12,13,14} Finally, there is evidence that adequate hydration is associated with better cognitive performance.^{15,16,17}

This policy outlines the District's approach to ensuring environments and opportunities for all students and staff to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. Specifically, this policy establishes goals and procedures to ensure that:

- Students and staff in the District have access to healthy foods throughout the school day – both through reimbursable school meals and other foods available throughout the school campus– in accordance with Federal and state nutrition standards;
- Students receive quality nutrition education that helps them develop lifelong healthy eating behaviors;
- Students have opportunities to be physically active before, during and after school;
- Schools engage in nutrition and physical activity promotion and other activities that promote student wellness;
- School staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school;
- The community is engaged in supporting the work of the District in creating continuity between school and other settings for students and staff to practice lifelong healthy habits; and
- The District establishes and maintains an infrastructure for management, oversight, implementation, communication about and monitoring of the policy and its established goals and objectives.

This policy applies to all students, staff and schools in the District. Specific measureable goals and outcomes are identified within each section below.

I. School Wellness Committee

Committee Role and Membership

The District will convene a representative district wellness committee (hereto referred to as the DWC or work within an existing school health committee) that meets at least four times, in a academic year, to establish goals for and oversee school health and safety policies and programs, including development, implementation and periodic review and update of this district-level wellness policy (heretofore referred as “wellness policy”).

The DWC membership will represent all school levels (elementary and secondary schools) and include (to the extent possible), but not be limited to: parents and caregivers; students; representatives of the school nutrition program (e.g., school nutrition director); physical education teachers; health education teachers; school health professionals (e.g., health education teachers, school health services staff [e.g., nurses, physicians, dentists, health educators, and other allied health personnel who provide school health services], and mental health and social services staff [e.g., school counselors, psychologists, social workers, or psychiatrists]; school administrators (e.g., superintendent, principal, vice principal), school board members; health professionals (e.g., dietitians, doctors, nurses, dentists); and the general public. To the extent possible, the DWC will include representatives from each school building and reflect the diversity of the community.

The District will inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. The District will use electronic mechanisms and non-electronic mechanisms to ensure that all families are notified of the content of, implementation of, and updates to the wellness policy, as well as how to get involved and support the policy. The District will ensure that communications are accomplished through means similar to other ways that the district and individual schools are communicating important school information with parents.

The District will notify the public about the content of or any updates to the wellness policy annually, at a minimum.

IV. Physical Activity

Children and adolescents should participate in at least 60 minutes of physical activity every day. A substantial percentage of students' physical activity can be provided through a comprehensive school physical activity program (CSPAP). A CSPAP reflects strong coordination and synergy across all of the components: quality physical education as the foundation; physical activity before, during and after school. Schools will ensure that these varied physical activity opportunities are in addition to, and not as a substitute for, physical education (addressed in "Physical Education" subsection).

Physical activity during the school day (including but not limited to recess, classroom physical activity breaks or physical education) **will not be withheld** as punishment for any reason.[This does not include participation on sports teams that have specific academic requirements].

To the extent practicable, the District will ensure that its grounds and facilities are safe and that equipment is available to students to be active. The District will conduct necessary inspections and repairs.

Physical Education

The District will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education. The physical education curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts (discussed in the “*Essential Physical Activity Topics in Health Education*” subsection). The curriculum will support the essential components of physical education.

All students will be provided equal opportunity to participate in physical education classes. The District will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary.

All District **elementary students** in each grade will receive physical education for at least 150 minutes per week throughout the school year.

All District **secondary students** (middle and high school) are required to take more than one academic year of physical education.

The District physical education program will promote student physical fitness through individualized fitness and activity assessments and will use criterion-based reporting for each student.

Additional policy language includes:

- Students will be moderately to vigorously active for at least 50% of class time during most or all physical education class sessions (meets Healthy Schools Program Silver-level criteria).
- All physical education classes in [District] are taught by licensed teachers who are certified or endorsed to teach physical education (meets Healthy Schools Program Gold-level criteria).
- Waivers, exemptions, or substitutions for physical education classes are not granted.

Essential Physical Activity Topics in Health Education

Elementary students will be exposed to health topics throughout each academic school year. The district will require middle and high school students to take and pass at least one health education course. The District will include in the health education curriculum a minimum of 12 the following essential topics on physical activity:

- The physical, psychological, or social benefits of physical activity
- How physical activity can contribute to a healthy weight
- How physical activity can contribute to the academic learning process
- How an inactive lifestyle contributes to chronic disease
- Health-related fitness, that is, cardiovascular endurance, muscular endurance, muscular strength, flexibility, and body composition
- Differences between physical activity, exercise and fitness
- Phases of an exercise session, that is, warm up, workout and cool down
- Overcoming barriers to physical activity
- Decreasing sedentary activities, such as TV watching

- Opportunities for physical activity in the community
- Preventing injury during physical activity
- Weather-related safety, for example, avoiding heat stroke, hypothermia and sunburn while being physically active
- How much physical activity is enough, that is, determining frequency, intensity, time and type of physical activity
- Calculating Body Mass Index BMI)
- Dangers of using performance-enhancing drugs, such as steroids
- Social influences on physical activity, including media, family, peers and culture
- How to find valid information or services related to physical activity and fitness
- How to influence, support, or advocate for others to engage in physical activity
- How to resist peer pressure that discourages physical activity.

Recess (Elementary)

All elementary schools will offer at least **20 minutes of recess** on all days during the school year. If recess is offered before lunch, schools will have appropriate hand-washing facilities and/or hand-sanitizing mechanisms located just inside/outside the cafeteria to ensure proper hygiene prior to eating and students are required to use these mechanisms before eating. Hand-washing time, as well as time to put away coats/hats/gloves, will be built into the recess transition period/timeframe before students enter the cafeteria.

Outdoor recess will be offered when weather is feasible for outdoor play. Outdoor recess will be conducted daily unless the temperature or wind chill is below 0 degrees, there is severe weather in the area, or at the discretion of the building administrator based on his/her best judgment of safely conditions.

In the event that the school or district must conduct **indoor recess**, teachers and staff will follow the indoor recess guidelines that promote physical activity for students, to the extent practicable.

Recess will complement, not substitute, physical education class. Recess monitors or teachers will encourage students to be active, and will serve as role models by being physically active alongside the students whenever feasible.

Classroom Physical Activity Breaks (Elementary and Secondary)

The District recognizes that students are more attentive and ready to learn if provided with periodic breaks when they can be physically active or stretch. These physical activity breaks will complement, not substitute, for physical education class, recess, and class transition periods.

Active Academics

Teachers will incorporate movement and kinesthetic learning approaches into “core” subject instruction when possible (e.g., science, math, language arts, social studies and others) and do their part to limit sedentary behavior during the school day.

The District will support classroom teachers incorporating physical activity and employing kinesthetic learning approaches into core subjects. Teachers will serve as role models by being physically active alongside the students whenever feasible.

Before and After School Activities

The District offers opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods. The District will encourage students to be physically active before and after school by promoting various initiatives such as morning walking / jog programs.

Active Transport

The District will support active transport to and from school, such as walking or biking. The District will encourage this behavior by engaging in some of the activities below; including but not limited to:

- Designate safe or preferred routes to school
- Promote activities such as participation in International Walk to School Week, National Walk and Bike to School Week
- Instruction on walking/bicycling safety provided to students
- Promote safe routes program to students, staff, and parents via newsletters, websites, local newspaper
- Use crossing guards
- Use crosswalks on streets leading to schools
- Use walking school buses
- Document the number of children walking and or biking to and from school
- Create and distribute maps of school environment (e.g., sidewalks, crosswalks, roads, pathways, bike racks, etc.)

V. Other Activities that Promote Student Wellness

The District will integrate wellness activities across the entire school setting, not just in the cafeteria, other food and beverage venues and physical activity facilities. The District will coordinate and integrate other initiatives related to physical activity, physical education, nutrition and other wellness components so all efforts are complementary, not duplicative, and work towards the same set of goals and objectives promoting student well-being and staff well-being, optimal development and strong educational outcomes.

Schools in the District are encouraged to coordinate content across curricular areas that promote student health with consultation provided by either the school or the District's curriculum experts.

All efforts related to obtaining federal, state or association recognition for efforts, or grants/funding opportunities for healthy school environments will be coordinated with and complementary of the wellness policy, including but not limited to ensuring the involvement of the DWC/SWC.

Community Partnerships

The District will enhance and continue relationships with community partners (e.g., hospitals, universities/colleges, local businesses, SNAP-Ed providers and coordinators, etc.) in support of this wellness policy implementation. Existing and new community partnerships and sponsorships will be evaluated to ensure that they are consistent with the wellness policy and its goals.

Community Health Promotion and Family Engagement

The District will promote to parents/caregivers, families, and the general community the benefits of and approaches for healthy eating and physical activity throughout the school year.

As described in the "Community Involvement, Outreach, and Communications" subsection, the District will use electronic mechanisms (e.g., email or displaying notices on the district's website), as well as non-electronic mechanisms, (e.g., newsletters, presentations to parents or sending information home to

parents), to ensure that all families are actively notified of opportunities to participate in school-sponsored activities and receive information about health promotion efforts.

Staff Wellness and Health Promotion

The DWC will have a staff wellness subcommittee that focuses on staff wellness issues, identifies and disseminates wellness resources and performs other functions that support staff wellness in coordination with human resources staff. The subcommittee leader's name is Matt Helgerson.

Schools in the District will implement strategies to support staff in actively promoting and modeling healthy eating and physical activity behaviors. Some examples include weekly health challenges and periodic access to the walking track at the CERC. The District promotes staff member participation in health promotion programs within the district.

Professional Learning

When feasible, the District will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school (e.g., increasing the use of kinesthetic teaching approaches or incorporating nutrition lessons into math class). Professional learning will help District staff understand the connections between academics and health and the ways in which health and wellness are integrated into ongoing district reform or academic improvement plans/efforts.

SUBJECT: Unpaid Meal Charges: Local Meal Charge Policies

TO: Regional Directors
Special Nutrition Programs
All Regions

State Directors
Child Nutrition Programs
All States

The purpose of this memorandum is to address the need for school food authorities (SFAs) participating in the Food and Nutrition Service (FNS) National School Lunch Program (NSLP) and School Breakfast Program (SBP) to institute and clearly communicate a meal charge policy, which would include, if applicable, the availability of alternate meals. Because all students in participating schools may receive reimbursable school meals, all SFAs must have a policy in place for children who are participating at the reduced price or paid rate, but either do not have money in their account or in hand to cover the cost of the meal at the time of service. Such a policy ensures that school food service professionals, school administrators, families, and students have a shared understanding of expectations in these situations.

For the past several years, the U.S. Department of Agriculture (USDA) has been examining policies and practices relating to unpaid meals. This examination was undertaken in response to section 143 of the Healthy, Hunger-Free Kids Act of 2010 (Public Law 111-296; December 13, 2010) entitled “Review of Local Policies on Meal Charges and Provision of Alternate Meals.” In addition, Congress required USDA to report on the feasibility of establishing national standards for meal charges and alternate meals and, if applicable, to make recommendations for implementation.

During that examination, FNS sought feedback from key stakeholders through a variety of forums and specifically sought strategies and insight from school food service administrators with direct experience managing meal charges. In addition, FNS undertook a thorough review of meal charge policies and practices provided by State and local officials. FNS was careful to consider a wide variety of communities and the scope of this issue, understanding that the effectiveness of a policy depends on the size of an SFA, its location, and even the demographics of the students it serves. FNS has determined that due to these variations, meal charge and alternate meal policies should continue to be made at the State or local level.

Establishing a Meal Charge Policy

It is important that meal charge and alternate meal policies are clearly communicated to school administrators, school food service professionals, families, and students. Stakeholders at the local, State, and national levels emphasized that developing and communicating meal charge policies prevents confusion for students and families and promotes effective financial management of the school meal programs.

As stated in program regulations at 7 CFR 245.5, parents or guardians of all children in attendance at schools participating in a Federal school meal service program must be informed of the availability of reimbursable school meals and must be provided information about applying for free or reduced price meals. This is consistent with the Richard B. Russell National School Lunch Act (NSLA), which states at 42 U.S.C. 1758(b)(2)(A) that SFAs shall publicly announce the income eligibility guidelines for free and reduced price meals on or before the opening of school annually. Federal regulations at 7 CFR 210.12 also require that SFAs promote activities to involve students and parents or guardians in the school meal programs and inform families about the availability of the SBP. Including students, families, and the school community in establishing and developing a communication plan for the meal charge policy complements the public announcement of meal eligibility requirements in 7 CFR 245.5 and is consistent with the involvement required in 7 CFR 210.12.

Information about the availability of the school meal programs and their benefits may be communicated using a variety of methods, but the regulation requires that all families are notified. This notification is in addition to general releases such as public releases to local media outlets or those posted on school or district websites. For example, many school districts send the school meal application and instructions on how to apply in a back-to-school packet mailed to families. Consistent with this long-established practice, stakeholder feedback indicated that many SFAs also use existing notification methods to communicate their meal charge policies to parents, guardians, and students.

Based on these provisions, and consistent with key stakeholders' current practices, FNS has determined that students and their parents or guardians also must be informed about how students who pay the full or reduced price cost of a reimbursable meal are impacted by having insufficient funds on hand or in their account to purchase a meal. Therefore, no later than July 1, 2017, all SFAs operating NSLP and/or SBP must have a written and clearly communicated meal charge policy in order to ensure a consistent and transparent approach to this issue. Policies developed at the SFA level must be provided to the State agency during the Administrative Review.

Meal Charge Policy Considerations

State agencies and SFAs have discretion in developing the specifics of individual policies including the level at which the policy is developed. Some State agencies may choose to develop a State-level meal charge policy to be implemented by all SFAs operating the NSLP and SBP throughout the State. If the State agency does not develop a State-level

policy, SFAs must develop and implement an SFA-level policy for each school operating the NSLP and SBP. While the policy is developed at the State or SFA-level, the policy may vary for elementary, middle, and high schools, as discussed below.

In developing a meal charge policy, FNS encourages adoption of policies that allow children to receive the nutrition they need to stay focused during the school day, minimize identification of children with insufficient funds to pay for school meals, and maintain the financial integrity of the nonprofit school food service account (NSFSA). However, the specific policy is at the discretion of the State agency or SFA, as applicable. Policies may allow students to charge all types of available reimbursable meals, offer alternate meals, impose a limit on charges, or allow neither meal charges nor offer alternate meals. Additionally, policies may be consistent for all students or vary based on student grade levels.

SFAs also must include policies regarding the collection of delinquent meal charge debt in the written meal charge policy. In establishing policies regarding collection of delinquent debt, SFAs are encouraged to consider the benefits of potential collections in the context of the costs that would be incurred to achieve those collections. Additional guidance on how Federal regulations and the definition of “bad debt” apply to the NSFSA when unpaid meal charges are not collected may be found in SP 47-2016, *Unpaid Meal Charges: Clarification on Collection of Delinquent Meal Payments*, July 8, 2016.

Please note that, as with all aspects of program operations, food service management companies must operate in compliance with meal charge policies established by the State agency or SFA.

Policy Communications

Whether developed at the State or SFA-level, SFAs must ensure that the policy is provided in writing to all households at the start of each school year and to households that transfer to the school during the school year. Additionally, SFAs are encouraged to include the policy in student handbooks and/or in online portals households use to access student accounts. SFAs are encouraged to use multiple methods to disseminate the policy. The written policy also could be provided again to the household through mail or email the first time the policy is applied to a specific student.

SFAs also must provide the meal charge policy to all school or SFA-level staff responsible for policy enforcement. This includes school food service professionals responsible for collecting payment for meals at the point of service, staff involved in notifying families of low or negative balances, and staff involved in enforcing any other aspects of the meal charge policy. School social workers, school nurses, the homeless liaison, and other staff members that may assist students in need also should be informed of the policy. FNS also encourages SFAs to provide information about the policy to principals, assistant principals, and other administrators to ensure they are familiar with and supportive of the policy.

Policy Development Resources

FNS is currently developing resources that State agencies and SFAs can use in their efforts to create an effective meal charge policy. These resources, which will be available on the school meal programs website (<http://www.fns.usda.gov/school-meals/child-nutrition-programs>) in 2016, include:

- A handbook summarizing best practices that FNS collected from State agencies, SFAs, schools, and other key stakeholders working to overcome the challenge of unpaid meal charges;
- Webinars sharing ideas and strategies submitted from local-level officials during FNS' open comment period about unpaid meal charges from October 2014 through January 2015; and
- Relevant policy memoranda and guidance documents developed by FNS, including guidance on the process of designating delinquent debt that has been determined to be uncollectable as bad debt and obtaining assistance to offset bad debt losses, and clarification on how the definition of "bad debt" applies to the NSFSFA when unpaid meal charges are not collected.

FNS recognizes that various strategies will be successful in large part based on the scope of the meal charge issue and unique local circumstances. The best practice resources available from FNS are designed to provide examples of strategies to use as a starting point when designing a meal charge policy that meets State and local needs.

State agencies are reminded to distribute this information to Program operators immediately. Program operators should direct any questions regarding this memorandum to the appropriate State agency. State agency contact information is available at <http://www.fns.usda.gov/cnd/Contacts/StateDirectory.htm>. State agencies should direct questions to the appropriate FNS Regional Office.

404 EMPLOYMENT BACKGROUND CHECKS

I. PURPOSE

The purpose of this policy is to maintain a safe and healthful environment in the school district in order to promote the physical, social, and psychological well-being of its students. To that end, the school district will seek a criminal history background check for applicants who receive an offer of employment with the school district or such other background checks as provided by this policy. The school district may also elect to do background checks of other volunteers, independent contractors, and student employees in the school district.

II. GENERAL STATEMENT OF POLICY

- A. The school district shall require that applicants for school district positions who receive an offer of employment submit to a criminal history background check. The offer of employment shall be conditioned upon a determination by the school district that an applicant's criminal history does not preclude the applicant from employment with the school district.
- B. The school district specifically reserves any and all rights it may have to conduct background checks regarding current employees or applicants without the consent of such individuals.
- C. Adherence to this policy by the school district shall in no way limit the school district's right to require additional information, or to use procedures currently in place or other procedures to gain additional background information concerning employees, applicants, volunteers, service providers, independent contractors, and student employees.

III. PROCEDURES

- A. Normally an applicant will not commence employment until the school district receives the results of the criminal history background check. The school district may conditionally hire an applicant pending completion of the background check, but shall notify the applicant that the applicant's employment may be terminated based on the result of the background check. Background checks will be performed by the Minnesota Bureau of Criminal Apprehension (hereinafter "the BCA"). The school district reserves the right to also have criminal history background checks conducted by other organizations or agencies.

- B. An applicant who is offered employment must sign a criminal history consent form, which provides permission for the school district to conduct a criminal history background check, and provide a money order or check payable to either the BCA or to the school district, at the election of the school district, in an amount equal to the actual cost to the BCA and the school district of conducting the criminal history background check. If the applicant fails to provide the school district with a signed Informed Consent Form and fee at the time the applicant receives a job offer, the applicant will be considered to have voluntarily withdrawn the application for employment.
- C. The school district, in its discretion, may elect not to request a criminal history background check on an individual who holds an initial entrance license issued by the state board of teaching or the state board of education within the 12 months preceding an offer of employment.
- D. The school district may use the results of a criminal background check conducted at the request of another school hiring authority if:
1. the results of the criminal background check are on file with the other school hiring authority or otherwise accessible;
 2. the other school hiring authority conducted a criminal background check within the previous 12 months;
 3. the applicant executes a written consent form giving the school district access to the results of the check; and
 4. there is no reason to believe that the individual has committed an act subsequent to the check that would disqualify the individual for employment.
- E. For all non-state residents who are offered employment with the school district, the school district shall request a criminal history background check on such individuals from the superintendent of the BCA and from the government agency performing the same function in the resident state or, if no government entity performs the same function in the resident state, or if no government entity performs the same function in the resident state, from the Federal Bureau of Investigation. Such applicants must provide an executed criminal history consent form.
- F. When required, individuals must provide fingerprints to assist in a criminal history background check. If the fingerprints provided by the applicant are unusable, the applicant will be required to submit another set of prints.
- G. Copies of this policy shall be available in the school district's employment office and will be distributed to applicants for employment upon request. The need to submit to a criminal history background check may be included with the basic criteria for employment in the position posting and position advertisements.

- H. The applicant will be informed of the results of the criminal background check(s) to the extent required by law.
- I. If the criminal history background check precludes employment with the school district, the individual will be so advised.
- J. The school district may apply these procedures to other volunteers, independent contractors, or student employees as though they were applicants for employment.

404 EMPLOYMENT BACKGROUND CHECKS

[Note: The provisions of this policy substantially reflect statutory requirements.]

I. PURPOSE

The purpose of this policy is to maintain a safe and healthful environment in the school district in order to promote the physical, social, and psychological well-being of its students. To that end, the school district will seek a criminal history background check for applicants who receive an offer of employment with the school district and on all individuals, except enrolled student volunteers, who are offered the opportunity to provide athletic coaching services or other extracurricular academic coaching services to the school district, regardless of whether any compensation is paid, or such other background checks as provided by this policy. The school district may also elect to do background checks of other volunteers, independent contractors, and student employees in the school district.

II. GENERAL STATEMENT OF POLICY

- A. The school district shall require that applicants for school district positions who receive an offer of employment and all individuals, except enrolled student volunteers, who are offered the opportunity to provide athletic coaching services or other extracurricular academic coaching services to the school district, regardless of whether any compensation is paid, submit to a criminal history background check. The offer of employment or the opportunity to provide services shall be conditioned upon a determination by the school district that an individual's criminal history does not preclude the individual from employment with, or provision of services to, the school district.
- B. The school district specifically reserves any and all rights it may have to conduct background checks regarding current employees, applicants, or service providers without the consent of such individuals.
- C. Adherence to this policy by the school district shall in no way limit the school district's right to require additional information, or to use procedures currently in place or other procedures to gain additional background information concerning employees, applicants, volunteers, service providers, independent contractors, and student employees.

III. PROCEDURES

- A. Normally an individual will not commence employment or provide services until the school district receives the results of the criminal history background check.

The school district may conditionally hire an applicant or allow an individual to provide services pending completion of the background check, but shall notify the individual that the individual's employment or opportunity to provide services may be terminated based on the result of the background check. Background checks will be performed by the Minnesota Bureau of Criminal Apprehension (~~hereinafter~~ "the BCA"). The BCA shall conduct the background check by retrieving criminal history data as defined in Minn. Stat. § 13.87. The school district reserves the right to also have criminal history background checks conducted by other organizations or agencies.

- B. In order for an individual to be eligible for employment or to provide athletic coaching services or other extracurricular academic coaching services to the school district, except for an enrolled student volunteer, the individual must sign a criminal history consent form, which provides permission for the school district to conduct a criminal history background check, and provide a money order or check payable to either the BCA or to the school district, at the election of the school district, in an amount equal to the actual cost to the BCA and the school district of conducting the criminal history background check. The cost of the criminal history background check is the responsibility of the individual, unless the school district decides to pay the costs for a volunteer, an independent contractor, or a student employee. If the individual fails to provide the school district with a signed Informed Consent Form and fee at the time the individual receives a job offer, or permission to provide services, the individual will be considered to have voluntarily withdrawn the application for employment or request to provide services.

[Note: If the school district elects to receive payment, it may, at its discretion, accept payment in the form of a negotiable instrument other than a money order or check and then pay the superintendent of the BCA directly to conduct the background check.]

- C. The school district, in its discretion, may elect not to request a criminal history background check on an individual who holds an initial entrance license issued by the state board of teaching or the commissioner of education within the 12 months preceding an offer of employment or permission to provide services.
- D. The school district may use the results of a criminal background check conducted at the request of another school hiring authority if:
1. the results of the criminal background check are on file with the other school hiring authority or otherwise accessible;
 2. the other school hiring authority conducted a criminal background check within the previous 12 months;
 3. the individual executes a written consent form giving the school district access to the results of the check; and

4. there is no reason to believe that the individual has committed an act subsequent to the check that would disqualify the individual for employment or provision of services.
- E. For all nonstate residents who are offered employment with or the opportunity to provide athletic coaching services or other extracurricular academic coaching services to the school district, the school district shall request a criminal history background check on such individuals from the superintendent of the BCA and from the government agency performing the same function in the resident state or, if no government entity performs the same function in the resident state, from the Federal Bureau of Investigation. The offer of employment or the opportunity to provide services shall be conditioned upon a determination by the school district that an individual's criminal history does not preclude the individual from employment with, or provision of services to, the school district. Such individuals must provide an executed criminal history consent form.
- F. When required, individuals must provide fingerprints to assist in a criminal history background check. If the fingerprints provided by the individual are unusable, the individual will be required to submit another set of prints.
- G. Copies of this policy shall be available in the school district's employment office and will be distributed to applicants for employment and individuals who are offered the opportunity to provide athletic coaching services or other extracurricular academic coaching services upon request. The need to submit to a criminal history background check may be included with the basic criteria for employment or provision of services in the position posting and position advertisements.
- H. The individual will be informed of the results of the criminal background check(s) to the extent required by law.
- I. If the criminal history background check precludes employment with, or provision of services to, the school district, the individual will be so advised.
- J. The school district may apply these procedures to other volunteers, independent contractors, or student employees.
- K. At the beginning of each school year or when a student enrolls, the school district will notify parents and guardians about this policy and identify those positions subject to a background check and the extent of the school district's discretion in requiring a background check. The school district may include this notice in its student handbook, a school policy guide, or other similar communication. A form notice for this purpose is included with this policy.

IV. APPLICATION AND PROCEDURES

- A. Any employee who receives a subpoena for any purpose related to employment is to inform the building administrator or designated supervisor when the employee receives the subpoena. 512 SCHOOL-SPONSORED STUDENT PUBLICATIONS AND ACTIVITIES

I. PURPOSE

The purpose of this policy is to protect students' rights to free speech in production of official school publications and activities while at the same time balancing the school district's role in supervising student publications and the operation of public schools.

II. GENERAL STATEMENT OF POLICY

- A. The school district may exercise editorial control over the style and content of student expression in school-sponsored publications and activities.
- B. Expressions and representations made by students in school-sponsored publications and activities are not expressions of official school district policy. Faculty advisors shall supervise student writers to ensure compliance with the law and school district policies.
- C. Students who believe their right to free expression has been unreasonably restricted in an official student publication or activity may seek review of the decision by the building principal. The principal shall issue a decision no later than three (3) school days after review is requested.
 - 1. Students producing official school publications and activities shall be under the supervision of a faculty advisor and the school principal. Official publications and activities shall be subject to the guidelines set forth below.
 - 2. Official school publications may be distributed at reasonable times and locations.

III. DEFINITIONS

- A. "Distribution" means circulation or dissemination of material by means of handing out free copies, selling or offering copies for sale, accepting donations for copies, posting or displaying material, or placing materials in internal staff or student mailboxes.
- B. "Official school publications" means school newspapers, yearbooks, or material produced in communications, journalism, or other writing classes as a part of the curriculum.

- C. “Obscene to minors” means:
1. The average person, applying contemporary community standards, would find that the material, taken as a whole, appeals to the prurient interest of minors of the age to whom distribution is requested;
 2. The material depicts or describes, in a manner that is patently offensive to prevailing standards in the adult community concerning how such conduct should be presented to minors of the age to whom distribution is requested, sexual conduct such as intimate sexual acts (normal or perverted), masturbation, excretory functions, or lewd exhibition of the genitals; and
 3. The material, taken as a whole, lacks serious literary, artistic, political, or scientific value for minors.
- D. “Minor” means any person under the age of eighteen (18).
- E. “Material and substantial disruption” of a normal school activity means:
1. Where the normal school activity is an educational program of the school district for which student attendance is compulsory, “material and substantial disruption” is defined as any disruption which interferes with or impedes the implementation of that program.
 2. Where the normal school activity is voluntary in nature (including, without limitation, school athletic events, school plays and concerts, and lunch periods) “material and substantial disruption” is defined as student rioting, unlawful seizures of property, conduct inappropriate to the event, participation in a school boycott, demonstration, sit-in, stand-in, walk-out, or other related forms of activity.
- In order for expression to be considered disruptive, there must exist specific facts upon which the likelihood of disruption can be forecast, including past experience in the school, current events influencing student activities and behavior, and instances of actual or threatened disruption relating to the written material in question.
- F. “School activities” means any activity of students sponsored by the school including, but not limited to, classroom work, library activities, physical education classes, official assemblies and other similar gatherings, school athletic contests, band concerts, school plays and other theatrical productions, and in-school lunch periods.
- G. “Libelous” is a false and unprivileged statement about a specific individual that tends to harm the individual’s reputation or to lower that individual in the esteem of the community.

IV. GUIDELINES

- A. Expression in an official school publication or school-sponsored activity is prohibited when the material:
1. is obscene to minors;
 2. is libelous or slanderous;
 3. advertises or promotes any product or service not permitted for minors by law;
 4. encourages students to commit illegal acts or violate school regulations or substantially disrupts the orderly operation of school or school activities;
 5. expresses or advocates sexual, racial, or religious harassment or violence or prejudice;
 6. is distributed or displayed in violation of time, place, and manner regulations.
- B. Expression in an official school publication or school-sponsored activity is subject to editorial control by the school district over the style and content so long as the school district's actions are reasonably related to legitimate pedagogical concerns. These may include, but are not limited to, the following:
1. assuring that participants learn whatever lessons the activity is designed to teach;
 2. assuring that readers or listeners are not exposed to material that may be inappropriate for their level of maturity;
 3. assuring that the views of the individual speaker are not erroneously attributed to the school;
 4. assuring that the school is not associated with any position other than neutrality on matters of political controversy;
 5. assuring that the sponsored student speech cannot reasonably be perceived to advocate conduct otherwise inconsistent with the shared values of a civilized social order;
 6. assuring that the school is not associated with expression that is, for example, ungrammatical, poorly written, inadequately researched, biased or prejudiced, vulgar or profane, or unsuitable for immature audiences.
- C. Time, Place, and Manner of Distribution

Students shall be permitted to distribute written materials at school as follows:

1. Time

Distribution shall be limited to the hours before the school day begins, during lunch hour and after school is dismissed.

2. Place

Written materials may be distributed in locations so as not to interfere with the normal flow of traffic within the school hallways, walkways, entry ways, and parking lots. Distribution shall not impede entrance to or exit from school premises in any way.

3. Manner

No one shall induce or coerce a student or staff member to accept a student publication.

512 SCHOOL-SPONSORED STUDENT PUBLICATIONS AND ACTIVITIES

I. PURPOSE

The purpose of this policy is to protect students' rights to free speech in production of official school publications and activities while at the same time balancing the school district's role in supervising student publications and the operation of public schools.

II. GENERAL STATEMENT OF POLICY

[Note: A school district generally will wish to reserve a forum it sponsors for its intended purpose in light of the special characteristics of the school environment. By doing so, the school district will have more authority/editorial control over student expression in such a forum. Sponsorship alone may not be enough, however. If the exercise of control is challenged, courts will examine factors such as whether the school district's purpose in creating the forum was educational, whether school officials supervised the publication or activity and exercised editorial control over the contents, whether the materials were produced as part of the curriculum, and whether students received grades and academic credit for the publication or activity. If a forum is reserved, regulation of student expression as in Section IV.B. of this policy will be permissible. If a forum is not reserved, but rather is opened for public communication by tradition or designation, then only the limited regulation of speech as described in Section IV.A. of this policy will be permissible.]

527 STUDENT USE AND PARKING OF MOTOR VEHICLES; PATROLS, INSPECTIONS, AND SEARCHES

I. PURPOSE

The purpose of this policy is to provide guidelines for use and parking of motor vehicles by students in school district locations, to maintain order and discipline in the schools and to protect the health, safety and welfare of students and school personnel.

II. GENERAL STATEMENT OF POLICY

It is the policy of this school district to allow the limited use and parking of motor vehicles by students in school district locations. It is the position of the school district that a fair and equitable district-wide student motor vehicle policy will contribute to the quality of the student's educational experience, will maintain order and discipline in the schools, and will protect the health, safety and welfare of students and school personnel. This policy applies to all students in the school district.

III. DEFINITIONS

- A. "Contraband" means any unauthorized item possession of which is prohibited by school district policy and/or law. It includes but is not limited to weapons and "look-alikes," alcoholic beverages, controlled substances and "look-alikes," overdue books and other materials belonging to the school district, and stolen property.
- B. "Reasonable suspicion" means that a school official has grounds to believe that the search will result in evidence of a violation of school district policy, rules, and/or law. Reasonable suspicion may be based on a school official's personal observation, a report from a student, parent or staff member, a student's suspicious behavior, a student's age and past history or record of conduct both in and out of the school context, or other reliable sources of information.
- C. "Reasonable scope" means that the scope and/or intrusiveness of the search is reasonably related to the objectives of the search. Factors to consider in determining what is reasonable include the seriousness of the suspected infraction, the reliability of the information, the necessity of acting without delay, the existence of exigent circumstances necessitating an immediate search and further investigation (e.g. to prevent violence, serious and immediate risk of harm or destruction of evidence), and the age of the student.

- D. “School district location” means property that is owned, rented, leased, or borrowed by the school district for school purposes, as well as property immediately adjacent to such property that may be used for parking or gaining access to such property. A school district location also shall include off school property at any school-sponsored or school-approved activity, event, or function, such as a field trip or athletic event, where students are under the jurisdiction of the school district.

IV. STUDENT USE OF MOTOR VEHICLES IN SCHOOL DISTRICT LOCATIONS

Students generally are not permitted to use motor vehicles during the school day in any school district location. Students may use motor vehicles on the high school campus during the school day only if there is an emergency and permission has been granted to the student by the High School Principal to use a motor vehicle. Students are permitted to use motor vehicles in school district locations outside of the school day only on the high school campus.

V. STUDENT PARKING OF MOTOR VEHICLES IN SCHOOL DISTRICT LOCATIONS

- A. Students are permitted to park in a school district location as a matter of privilege, not of right. Students driving a motor vehicle to a high school campus may park the motor vehicle in the parking lot designated for student parking only. Students will not park vehicles in driveways, on private property, or in [other designated areas, e.g. parking lots designated for use only by staff or by the general public].
- B. When there are unauthorized vehicles parked on school district property, school officials may:
 - 1. move the vehicle or require the driver or other person in charge of the vehicle to move it off school district property; or
 - 2. if unattended, provide for the removal of the vehicle, at the expense of the owner or operator, to the nearest convenient garage or other place of safety off of school district property.

VI. PATROLS, INSPECTIONS AND SEARCHES

School officials may conduct routine patrols of school district locations and routine inspections of the exteriors of the motor vehicles of students. In addition, the interiors of motor vehicles of students in school district locations may be searched when school officials have a reasonable suspicion that the search will uncover a violation of law and/or school policy or rule.

A. Patrols and Inspections

School officials may conduct routine patrols of student parking lots and other

school district locations and routine inspections of the exteriors of the motor vehicles of students. Such patrols and inspections may be conducted without notice, without student consent, and without a search warrant.

B. Search of Interior of Student Motor Vehicle

The interiors of motor vehicles of students in school district locations, including glove or trunk compartments, may be searched when school officials have a reasonable suspicion that the search will uncover a violation of law and/or school policy or rule. The search will be reasonable in its scope and intrusiveness. Such searches may be conducted without notice, without consent, and without a search warrant. A student will be subject to withdrawal of parking privileges and to discipline if the student refuses to open a locked motor vehicle under the student's control or its compartments upon the request of a school official.

C. Prohibition of Contraband and Interference with Patrols, Inspections, Searches and/or Seizures

It shall be a violation of this policy for students to store or carry contraband in motor vehicles in a school district location or to interfere with patrols, inspections, searches and/or seizures as provided by this policy.

D. Seizure of Contraband

If a search yields contraband, school officials will seize the item and may turn it over to legal officials for ultimate disposition when appropriate.

VII. VIOLATIONS

A student found to have violated this policy and/or the directives and guidelines implementing it shall be subject to withdrawal of parking privileges and/or to discipline in accordance with the school district's Student Discipline Policy, which may include suspension, exclusion, or expulsion. In addition, the student may be referred to legal officials when appropriate.

Students are permitted to use motor vehicles in school district locations outside of the school day only on the high school campus[es].

[Note: This portion of the policy may need to be modified depending upon the designation of the high school campus as open or closed. For example, the school district may choose to adopt language for an open campus in the second sentence such as “Students may use motor vehicles on the high school campus[es] during the school day only during the student’s designated lunch period or if there is an emergency and permission has been granted to the student by (designated school official) to use a motor vehicle during the school day.”]

V. STUDENT PARKING OF MOTOR VEHICLES IN SCHOOL DISTRICT LOCATIONS

- A. Students are permitted to park in a school district location as a matter of privilege, not of right. Students driving a motor vehicle to a high school campus may park the motor vehicle in the parking lot designated for student parking only. Students will not park vehicles in driveways, on private property, or in *[other designated areas, e.g., parking lots designated for use only by staff or by the general public]*.
- B. When there are unauthorized vehicles parked on school district property, school officials may:
 - 1. move the vehicle or require the driver or other person in charge of the vehicle to move it off school district property; or
 - 2. if unattended, provide for the removal of the vehicle, at the expense of the owner or operator, to the nearest convenient garage or other place of safety off of school district property.

VI. PATROLS, INSPECTIONS, AND SEARCHES

School officials may conduct routine patrols of school district locations and routine inspections of the exteriors of the motor vehicles of students. In addition, the interiors of

motor vehicles of students in school district locations may be searched when school officials have a reasonable suspicion that the search will uncover a violation of law and/or school policy or rule.

A. Patrols and Inspections

School officials may conduct routine patrols of student parking lots and other school district locations and routine inspections of the exteriors of the motor vehicles of students. Such patrols and inspections may be conducted without notice, without student consent, and without a search warrant.

B. Search of Interior of Student Motor Vehicle

The interiors of motor vehicles of students in school district locations, including glove or trunk compartments, may be searched when school officials have a reasonable suspicion that the search will uncover a violation of law and/or school policy or rule. The search will be reasonable in its scope and intrusiveness. Such searches may be conducted without notice, without consent, and without a search warrant. A student will be subject to withdrawal of parking privileges and to discipline if the student refuses to open a locked motor vehicle under the student's control or its compartments upon the request of a school official.

C. Prohibition of Contraband and Interference with Patrols, Inspections, Searches, and/or Seizures

~~It shall be a~~ A violation of this policy occurs when ~~for~~ students ~~to~~ store or carry contraband in motor vehicles in a school district location or ~~to~~ interfere with patrols, inspections, searches, and/or seizures as provided by this policy.

D. Seizure of Contraband

If a search yields contraband, school officials will seize the item and may turn it over to legal officials for ultimate disposition when appropriate.

E. Dissemination of Policy

A copy of this policy will be printed in the student handbook or disseminated in any other way which school officials deem appropriate.

VII. DIRECTIVES AND GUIDELINES

The superintendent is granted authority to develop and present for school board review and approval reasonable directives and guidelines which address specific needs of the school district related to student use and parking of motor vehicles in school district locations, such as a permit system and parking regulations. Approved directives and guidelines shall be attached as an addendum to this policy.

[Note: Some school districts may choose to allow students to park their cars in school

district locations, such as designated student parking lots, by permit only. Such a permit system can be used to assist in the dissemination and enforcement of the motor vehicle policy. For example, school districts instituting a permit system can advise students who apply for a permit that the motor vehicle policy exists and that their motor vehicles are subject to inspection and search by school officials. An acknowledgment form, such as the sample attached to this policy, can then be utilized to document the notice given and the student's receipt of the policy.]

[Note: If a school district institutes a permit system and intends to charge students a fee for parking permits, the procedures in Minn. Stat. § 123B.38 must be followed before the fees are implemented.]

VIII. VIOLATIONS

A student found to have violated this policy and/or the directives and guidelines implementing it shall be subject to withdrawal of parking privileges and/or to discipline in accordance with the school district's Student Discipline Policy, which may include suspension, exclusion, or expulsion. In addition, the student may be referred to legal officials when appropriate.

612.1 DEVELOPMENT OF PARENTAL INVOLVEMENT POLICIES FOR TITLE I PROGRAMS

I. PURPOSE

The purpose of this policy is to encourage and facilitate involvement by parents of students participating in Title I in the educational programs and experiences of students. The policy shall provide the framework for organized, systematic, ongoing, informed and timely parental involvement in relation to decisions about the Title I services within the school district. The involvement of parents by the school district shall be directed toward both public or private school children whose parents are school district residents or whose children attend school within the boundaries of the school district.

II. GENERAL STATEMENT OF POLICY

- A. It is the policy of the school district to plan and implement, with meaningful consultation with parents of participating children, programs, activities and procedures for the involvement of those parents in its Title I programs.
- B. It is the policy of the school district to fully comply with 20 U.S.C. § 6318 which requires the school district to develop jointly with, agree upon with, and distribute to parents of children participating in Title I programs written parental involvement policies.

III. DEVELOPMENT OF DISTRICT LEVEL POLICY

The school board will direct the administration to develop jointly with, agree upon with, and distribute to, parents of participating children a written parental involvement policy that will be incorporated into the school district's Title I plan. The policy will establish the expectations for parental involvement and describe how the school district will:

- A. Involve parents in the joint development of the school district's Title I plan and the process of school review and improvement;
- B. Provide the coordination, technical assistance, and other support necessary to assist schools in planning and implementing effective parental involvement activities to improve student academic achievement and school performance;
- C. Build the schools' and parents' capacity for strong parental involvement;
- D. Conduct, with the involvement of parents, an annual evaluation of the content and effectiveness of the parental involvement policy in improving the academic

quality of the schools served, including identifying barriers to greater participation by parents, and, particularly, with parents who are economically disadvantaged, disabled, have limited literacy or English proficiency, or who are of a racial or ethnic minority;

- E. Use the findings of such evaluations to design strategies for more effective parental involvement and to revise, if necessary, the district-level and school-level parental involvement policies; and
- F. Involve parents in the activities of the schools.

IV. DEVELOPMENT OF SCHOOL LEVEL POLICY

The school board will direct the administration of each school to develop (or amend an existing parental involvement policy) jointly with, and distribute to, parents of participating children a written parental involvement policy, agreed upon by such parents, that shall describe the means for carrying out the federal requirements of parental involvement.

- A. The policy will describe the means by which each school with a Title I program will:
 - 1. Convene an annual meeting, at a convenient time, to which all parents of participating children shall be invited and encouraged to attend, to inform parents of their school's participation in Title I programs, and to explain to parents of participating children the program, its requirements, and their right to be involved;
 - 2. Offer a flexible number of meetings, transportation, child care, or home visits, as such services relate to parental involvement;
 - 3. Involve parents in an organized, ongoing, and timely way, in the planning, review, and improvement of the parental involvement programs, including the school parental involvement policy and the joint development of the school-wide program plan, unless the school already has a program for involving parents in the planning and design of its programs that would adequately involve parents of participating children;
 - 4. Provide parents of participating children with: timely information about Title I programs; if requested by parents, opportunities for regular meetings to formulate suggestions, share experiences with other parents and to participate, as appropriate, in decisions relating to their child's education; and to respond to any such suggestions as soon as practicably possible; and
 - 5. If the school-wide program plan is not satisfactory to the parents of participating children, submit any parent's comments on the plan when it is submitted to the school district.

- B. As a component of this policy, each school shall jointly develop with parents a school/parent compact which outlines how parents, staff, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership to help children achieve the state's high standards. The compact shall:
1. Describe the school's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables participating students to meet state student academic achievement standards;
 2. Describe the ways each parent will be responsible for supporting his or her child's learning by monitoring school attendance and homework completion, monitoring television watching, volunteering in his or her child's classroom, and participating, as appropriate, in decisions relating to his or her child's education and use of extracurricular time.
 3. Address the importance of communication between teachers and parents on an on-going basis through the use of:
 - a. Annual parent-teacher conferences to discuss the compact and the child's achievement;
 - b. Frequent progress reports to the parents; and
 - c. Reasonable access to staff, opportunities to volunteer, participate in the child's class, and observe in the child's classroom.
- C. To ensure effective involvement of parents and to support a partnership among the school, parents, and community to improve student academic achievement, the policy will describe how each school and the school district will:
1. Provide assistance to participating parents in understanding such topics as the state's academic content standards and state academic achievement standards, state and local academic assessments, Title I requirements, and how to monitor a child's progress and work with educators to improve the achievement of their children;
 2. Provide materials and training to assist parents in working with their children to improve their children's achievement, including coordinating necessary literacy training and using technology, as appropriate, to foster parental involvement;
 3. Educate school staff, with the assistance of parents, in the value and utility of contributions of parents and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs, and build ties between parents and school;

4. Coordinate and integrate parental involvement programs and activities with Head Start, Reading First, Early Reading First, Even Start, the Home Instruction Programs for Preschool Youngsters, the Parents as Teachers Program, public preschool programs, and other programs, to the extent feasible and appropriate;
 5. Ensure, to the extent practicable, that information about school and parent meetings, programs, and activities is sent home in a format and in a language the parents can understand; and
 6. Provide such other reasonable support for parental involvement activities as requested by parents.
- D. The policy will also describe the process to be taken if the school district and school choose to:
1. Involve parents in the development of training for school staff to improve the effectiveness of such training;
 2. Provide necessary literacy training with funds received under Title I programs if all other funding has been exhausted;
 3. Pay reasonable and necessary expenses associated with parental involvement activities, including transportation and child care costs, to enable parents to participate in meetings and training sessions;
 4. Train and support parents to enhance the involvement of other parents;
 5. Arrange meetings at a variety of times or have in-home conferences between teachers or other educators, who work directly with participating children, and parents who are unable to attend such conferences at school in order to maximize parental opportunities for involvement and participation in school-related activities;
 6. Adopt and implement model approaches to improving parental involvement;
 7. Develop appropriate roles for community-based organizations and business in parental involvement activities; and
 8. Establish a district-wide parent advisory council to provide advice on all matters related to parental involvement in Title I programs.
- E. To carry out the requirements of parental involvement, the school district and schools will provide full opportunities for the participation of parents with limited English proficiency or with disabilities, including providing information and school profiles in a language and form that is understandable by the parents.

- F. The school district and each school shall assist parents and parent organizations by informing such parents and parent organizations of the existence and purpose of such centers.

The policies will be updated periodically to meet the changing needs of parents and the school.

The superintendent or such other school official as designated by the superintendent or the school board shall each year prepare preliminary revenue and expenditure budgets for review by the school board or its designated committee or committees. The preliminary budgets shall be accompanied by such written commentary as may be necessary for them to be clearly understood by the members of the school board and the public. The school board shall review the projected revenues and expenditures for the school district for the next fiscal year and make such adjustments in the expenditure budget as necessary to carry out the education program within the revenues projected.
- B. Prior to the adoption of the initial budget for a school year, the school board must inform the principal or other responsible administrative authority at each site the amount of general education and referendum revenue that will be generated by the pupils in attendance at that site. These estimates may be adjusted in accordance with law.
- C. The school district must maintain separate accounts to identify revenues and expenditures for each building. Expenditures shall be reported in compliance with Minn. Stat. § 123B.76.

No funds may be expended for any purpose in any school year prior to the adoption of the budget document which authorizes

that expenditure for that year, or prior to the adoption of an amendment to that budget document by the school board to authorize that expenditure for that year.

- E. The school district shall, prior to October 1 of each year, publish its adopted revenue and expenditure budgets for the current year, the actual revenues, expenditures, and fund balances for the prior year, and the projected fund balances for the current year in a qualified newspaper of general circulation in the school district. The publication shall be made in the form prescribed by the Commissioner. A statement shall be included in the publication that the complete budget in detail may be inspected by any resident of the school district upon request to the superintendent. At the same time as this publication, the school district shall publish the other information required by Minn. Stat. § 123B.10.
- F. At the public hearing on the adoption of the school district's proposed property tax levy, the school board shall review its current budget and the proposed property taxes payable in the following calendar year.

IV. IMPLEMENTATION

- A. The school board places the responsibility for administering the adopted budget with the superintendent. The superintendent may delegate duties related thereto to other school officials, but maintains the ultimate responsibility for this function.
- B. The program-oriented budgeting system will be supported by a program-oriented accounting structure organized and operated on a fund basis as provided for in Minnesota statutes through the Uniform Financial Accounting and Reporting Standards for Minnesota School Districts (UFARS).
- C. The superintendent or the superintendent's designee is authorized to make payments of claims or salaries authorized by the adopted or amended budget prior to school board approval.
- D. Supplies and capital equipment can be ordered prior to budget adoption only by authority of the school board. If additional personnel are provided in the proposed budget, actual hiring may not occur until the budget is adopted unless otherwise approved by the school board. 705 INVESTMENTS

I. PURPOSE

The purpose of this policy is to establish guidelines for the investment of school district funds.

II. GENERAL STATEMENT OF POLICY

The policy of this school district is to comply with all state laws relating to investments and to guarantee that investments meet certain primary criteria.

III. SCOPE

This policy applies to all investments of the surplus funds of the school district, regardless of the fund accounts in which they are maintained, unless certain investments are specifically exempted by the school board through formal action.

IV. AUTHORITY; OBJECTIVES

- A. The funds of the school district shall be deposited or invested in accordance with this policy, Minn. Stat. Ch. 118A and any other applicable law or written administrative procedures.
- B. The primary criteria for the investment of the funds of the school district, in priority order, are as follows
 - 1. Safety and Security. Safety of principal is the first priority. The investments of the school district shall be undertaken in a manner that seeks to ensure the preservation of the capital in the overall investment portfolio.
 - 2. Liquidity. The funds shall be invested to assure that funds are available to meet immediate payment requirements, including payroll, accounts payable, and debt service.
 - 3. Return and Yield. The investments shall be managed in a manner to attain a market rate of return through various economic and budgetary cycles, while preserving and protecting the capital in the investment portfolio and taking into account constraints on risk and cash flow requirements.

V. DELEGATION OF AUTHORITY

- A. The superintendent of the school district is designated as the investment officer of the school district and is responsible for investment decisions and activities under the direction of the school board. The investment officer shall operate the school district's investment program consistent with this policy. The investment officer may delegate certain duties to a designee or designees but shall remain responsible for the operation of the program.
- B. All officials and employees that are a part of the investment process shall act professionally and responsibly as custodians of the public trust and shall refrain from personal business activity that could conflict with the investment program or which could reasonably cause others to question the process and integrity of the investment program. The investment officer shall avoid any transaction that could impair public confidence in the school district.

VI. STANDARD OF CONDUCT

The standard of conduct regarding school district investments to be applied by the investment officer shall be the "prudent person standard." Under this standard, the investment officer shall exercise that degree of judgment and care, under the circumstances then prevailing, that persons of prudence, discretion, and intelligence would exercise in the management of their own affairs, investing not for speculation and considering the probable safety of their capital as well as the probable investment return to be derived from their assets. The prudent person standard shall be applied in the context of managing the overall investment portfolio of the school district. The investment officer, acting in accordance with this policy and exercising due diligence, judgment, and care commensurate with the risk, shall not be held personally responsible for a specific security's performance or for market price changes. Deviations from expectations shall be reported in a timely manner and appropriate actions shall be taken to control adverse developments.

VII. MONITORING AND ADJUSTING INVESTMENTS

The investment officer shall routinely monitor existing investments and the contents of the school district's investment portfolio, the available markets, and the relative value of competing investment instruments.

VIII. INTERNAL CONTROLS

The investment officer shall establish a system of internal controls which shall be documented in writing. The internal controls shall be reviewed by the school board and shall be annually reviewed for compliance by the school district's independent auditors. The internal controls shall be designed to prevent and control losses of public funds due to fraud, error, misrepresentation, unanticipated market changes, or imprudent actions by officers, employees, or others. The internal controls may include, but shall not be limited to, provisions relating to controlling collusion, separating functions, separating transaction authority from accounting and record keeping, custodial safekeeping,

avoiding bearer form securities, clearly delegating authority to applicable staff members, limiting securities losses and remedial action, confirming telephone transactions in writing, supervising and controlling employee actions, minimizing the number of authorized investment officials, and documenting transactions and strategies.

IX. PERMISSIBLE INVESTMENT INSTRUMENTS

The school district may invest its available funds in those instruments specified in Minn. Stat. §§ 118A.04 and 118A.05, as these sections may be amended from time to time, or any other law governing the investment of school district funds.

X. PORTFOLIO DIVERSIFICATION; MATURITIES

- A. Limitations on instruments, diversification, and maturity scheduling shall depend on whether the funds being invested are considered short-term or long-term funds. All funds shall normally be considered short-term except those reserved for building construction projects or specific future projects and any unreserved funds used to provide financial-related managerial flexibility for future fiscal years.
- B. The school district shall diversify its investments to avoid incurring unreasonable risks inherent in over-investing in specific instruments, individual financial institutions or maturities.
 - 1. The investment officer shall prepare and present a table to the school board for review and approval. The table shall specify the maximum percentage of the school district's investment portfolio that may be invested in a single type of investment instrument, such as U.S. Treasury Obligations, certificates of deposit, repurchase agreements, banker's acceptances, commercial paper, etc. The approved table shall be attached as an exhibit to this policy and shall be incorporated herein by reference.
 - 2. The investment officer shall prepare and present to the school board for its review and approval a recommendation as to the maximum percentage of the total investment portfolio that may be held in any one depository. The approved recommendation shall be attached as an exhibit or part of an exhibit to this policy and shall be incorporated herein by reference.
 - 3. Investment maturities shall be scheduled to coincide with projected school district cash flow needs, taking into account large routine or scheduled expenditures, as well as anticipated receipt dates of anticipated revenues. Maturities for short-term and long-term investments shall be timed according to anticipated need. Within these parameters, portfolio maturities shall be staggered to avoid undue concentration of assets and a specific maturity sector. The maturities selected shall provide for stability of income and reasonable liquidity.

XI. COMPETITIVE SELECTION OF INVESTMENT INSTRUMENTS

Before the school district invests any surplus funds in a specific investment instrument, a competitive bid or quotation process shall be utilized. If a specific maturity date is required, either for cash flow purposes or for conformance to maturity guidelines, quotations or bids shall be requested for instruments which meet the maturity requirement. If no specific maturity is required, a market trend analysis, which includes a yield curve, will normally be used to determine which maturities would be most advantageous. Quotations or bids shall be requested for various options with regard to term and instrument. The school district will accept the quotation or bid which provides the highest rate of return within the maturity required and within the limits of this policy. Generally all quotations or bids will be computed on a consistent basis, i.e., a 360-day or a 365-day yield. Records will be kept of the quotations or bids received, the quotations or bids accepted, and a brief explanation of the decision that was made regarding the investment. If the school district contracts with an investment advisor, bids are not required in those circumstances specified in the contract with the advisor.

XII. QUALIFIED INSTITUTIONS AND BROKER-DEALERS

- A. The school district shall maintain a list of the financial institutions that are approved for investment purposes.
- B. Prior to completing an initial transaction with a broker, the school district shall provide to the broker a written statement of investment restrictions which shall include a provision that all future investments are to be made in accordance with Minnesota statutes governing the investment of public funds. The broker must annually acknowledge receipt of the statement of investment restrictions and agree to handle the school district's account in accordance with these restrictions. The school district may not enter into a transaction with a broker until the broker has provided this annual written agreement to the school district. The notification form to be used shall be that prepared by the State Auditor. A copy of this investment policy, including any amendments thereto, shall be provided to each such broker.

XIII. SAFEKEEPING AND COLLATERALIZATION

- A. All investment securities purchased by the school district shall be held in third-party safekeeping by an institution designated as custodial agent. The custodial agent may be any Federal Reserve Bank, any bank authorized under the laws of the United States or any state to exercise corporate trust powers, a primary reporting dealer in United States Government securities to the Federal Reserve Bank of New York, or a securities broker-dealer defined in Minn. Stat. § 118A.06. The institution or dealer shall issue a safekeeping receipt to the school district listing the specific instrument, the name of the issuer, the name in which the security is held, the rate, the maturity, serial numbers and other distinguishing marks, and other pertinent information.

- B. Deposit-type securities shall be collateralized as required by Minn. Stat. § 118A.03 for any amount exceeding FDIC, SAIF, BIF, FCUA, or other federal deposit coverage.
- C. Repurchase agreements shall be secured by the physical delivery or transfer against payment of the collateral securities to a third party or custodial agent for safekeeping. The school district may accept a safekeeping receipt instead of requiring physical delivery or third-party safekeeping of collateral on overnight repurchase agreements of less than \$1,000,000.

XIV. REPORTING REQUIREMENTS

- A. The investment officer shall generate daily and monthly transaction reports for management purposes. In addition, the school board shall be provided a monthly report that shall include data on investment instruments being held as well as any narrative necessary for clarification.
- B. The investment officer shall prepare and submit to the school board a quarterly investment report that summarizes recent market conditions, economic developments, and anticipated investment conditions. The report shall summarize the investment strategies employed in the most recent quarter and describe the investment portfolio in terms of investment securities, maturities, risk characteristics, and other features. The report shall all explain the quarter's total investment return and compare the return with budgetary expectations. The report shall include an appendix that discloses all transactions during the past quarter. Each quarterly report shall indicate any areas of policy concern and suggested or planned revisions of investment strategies. Copies of the report shall be provided to the school district's auditor.
- C. Within ninety (90) days after the end of each fiscal year of the school district, the investment officer shall prepare and submit to the school board a comprehensive annual report on the investment program and investment activity of the school district for that fiscal year. The annual report shall include 12-month and separate quarterly comparisons of return and shall suggest revisions and improvements that might be made in the investment program.
- D. If necessary, the investment officer shall establish systems and procedures to comply with applicable federal laws and regulations governing the investment of bond proceeds and funds in a debt service account for a bond issue. The record keeping system shall be reviewed annually by the independent auditor or by another party contracted or designated to review investments for arbitrage rebate or penalty calculation purposes.

XV. DEPOSITORIES

The school board shall annually designate one or more official depositories for school district funds. The treasurer or the chief financial officer of the school district may also exercise the power of the school board to designate a depository. The school board shall

be provided notice of any such designation by its next regular meeting. The school district and the depository shall each comply with the provisions of Minn. Stat. § 118A.03 and any other applicable law, including any provisions relating to designation of a depository, qualifying institutions, depository bonds, and approval, deposit, assignment, substitution, addition, and withdrawal of collateral.

XVI. ELECTRONIC FUNDS TRANSFER OF FUNDS FOR INVESTMENT

The school district may make electronic fund transfers for investments of excess funds upon compliance with Minn. Stat. § 471.38.

711 VIDEO RECORDING ON SCHOOL BUSES

I. PURPOSE

The transportation of students to and from school is an important function of the school district, and transportation by the school district is a privilege and not a right for an eligible student. The behavior of students on the bus is a significant factor in the safety and efficiency of school bus transportation. Student misbehavior increases the potential risks of injury. Therefore, the school district believes that videotaping student passengers on the school bus will encourage good behavior and, as a result, promote safety. The purpose of this policy is to establish a school bus videotaping system.

II. GENERAL STATEMENT OF POLICY

A. Placement

1. Each and every school bus owned, leased, contracted, and/or operated by the school district shall be equipped with a fully enclosed box for placement and operation of a video camera and conspicuously placed signs notifying riders that their conversations or actions may be recorded on tape.
2. A video camera will not necessarily be installed in each and every school bus owned, leased, contracted, and/or operated by the school district, but cameras may be rotated from bus to bus without prior notice to students.
3. Video cameras will be placed on a particular school bus, to the extent possible, where the school district has received complaints of inappropriate behavior.

B. Use of Videotape

1. A videotape of the actions of student passengers may be used by the school district as evidence in any disciplinary action brought against any student arising out of the student's conduct on the bus.
2. A videotape will be released only in conformance with the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13 and the Family Educational Rights and Privacy Act, 20 U.S.C. §1232g and the rules and/or regulations promulgated thereunder.

3. Video recordings will be viewed by school district personnel on a random basis and/or when discipline problems on the bus have been brought to the attention of the school district.
4. A videotape will be retained by the school district for a period of six (6) weeks, or until the conclusion of disciplinary proceedings in which the video recording is used for evidence.

720 VENDING MACHINES

I. PURPOSE

The purpose of this policy is to establish procedures to govern vending machines installed in school facilities in the school district.

II. GENERAL STATEMENT OF POLICY

It is the policy of the school district to contract for, supervise, maintain, and account for the proceeds from vending machines located in school facilities in a manner that is fair, that maximizes the revenues from those machines, that allows those revenues to be included in the budget of the facility in which they are generated, and that establishes controls to avoid fraud, theft, or the appearance of impropriety.

III. AUTHORIZATION

Automatic vending machines for the dispensing of food, beverages, or other approved items are authorized in any school facility in the school district provided that all contracts for such vending machines must be approved by the school board as provided in this policy.

IV. SUPERVISION; APPROVAL; LOCATION

- A. All vending machines shall be under the supervision of the school principal or other person in charge of the facility in which the machine is located. That administrator shall be responsible to supervise the machine in compliance with this policy and any applicable laws.
- B. The items to be dispensed from a vending machine located in a school facility shall be approved by the principal or other person in charge of that facility. All food, beverages, or other items approved shall be appropriate to the school setting. Machines dispensing cigarettes or tobacco products are not authorized under any circumstances. In the event a written complaint is filed with the superintendent regarding the approval or disapproval of any item, the school board, after proper review, shall make the final determination.
- C. Vending machines may be approved that will dispense items only during certain hours, through the use of timers or otherwise. Vending machines should not be operated in competition with the school cafeteria or food service. The principal or

other person in charge of the school facility may regulate the hours of operation of any machine.

- D. Vending machines shall be located to meet any applicable building, fire, or life/safety codes and to provide convenience of operation, accessibility, and ease of maintenance. The principal or other person in charge of the facility shall review the location of each machine with appropriate maintenance and food service staff.

V. CONTRACT APPROVAL

- A. All contracts for the purchase or rental of vending machines shall be considered by the school board on a facility-by-facility basis.
- B. If it is estimated that the aggregate receipts from all vending machines located in a school facility will be \$10,000 or more in a fiscal year, the contract for any vending machine in that facility must be awarded after the receipt of sealed bids and compliance with Minn. Stat. § 123B.52.

[Note: This dollar figure is lower than the \$50,000 statutory requirement for sealed bids but is recommended to protect the interests of the public.]

- C. If it is estimated that the aggregate receipts from all vending machines located in a school facility will be less than \$10,000 in a fiscal year, the contract for any vending machine in that facility may be awarded after the receipt of two or more quotations after taking into consideration conformity with the specifications, terms of delivery, other conditions imposed in the call for quotations, and compliance with Minn. Stat. § 123B.52.
- D. The contracting process shall be conducted in compliance with Minn. Stat. § 123B.52. A copy of this policy shall be included in any specifications or request for proposals or quotations. A record shall be kept of all bids or quotations received with the names, amounts, and successful bidder indicated. All bids and quotations shall be kept on file as a public record for a period of at least one year after their receipt.
- E. Any bid or quotation must specify all commissions to be paid from the machine and any other noncommission amounts to be paid as a result of the award of the contract. The noncommission amounts include, but are not limited to, cash payments, in-kind payments, equipment donations, scholarship contributions, bonus payments, or other payments or contributions of any kind or nature. The noncommission amounts shall be reduced to a cash equivalency and shall be specified on the bid or quotation as an additional amount to be paid for the award of the contract.
- F. If a contract contains a provision allowing exclusivity, such as all machines in the building carrying only a certain manufacturer's brand of pop, that provision must be reviewed by the administration prior to requesting bids or quotations to ensure

that it does not conflict with other contracts of the school district.

- G. All contracts for vending machines must be approved by the school board. Any contract not made in compliance with this policy shall be void. Any district employee signing an unauthorized contract may be subject to personal liability thereon and may be disciplined for said action.
- H. All vending machines are to be installed at the expense of the facility in which located. All financial responsibility for the maintenance and repair of machines shall remain with the individual facility in which located to the extent not addressed in the contract.
- I. No teacher, administrator, school district employee, or school board member shall be interested, directly or indirectly, in a vending machine contract with the school district or personally benefit financially therefrom.

VI. ACCOUNTING

- A. Proceeds from vending machine sales and contracts shall be under the control of the school board, shall be accounted for in one of the regular school district funds, and must be accounted for and reported in compliance with UFARS.
- B. An amount equal to the amount of the proceeds from the machines in each facility shall be included in the budget of the facility in which the proceeds are generated. That amount may be expended in accordance with established expenditure procedures.
- C. Pursuant to the vending machine contract or otherwise, proper auditing and inventory control procedures shall be established to ensure that commissions are being correctly calculated and paid. These controls must include daily, weekly, or other periodic inventories and written reconciliations of variances between inventory and cash. Each time cash is removed from, or inventory is added to a machine, a written reconciliation between cash and inventory must be performed by the person taking the cash from the machine and must be signed by the principal or other person in charge of the facility. The original written reconciliation reports shall be filed with the business office monthly and a copy shall be retained by the principal's office.

801 EQUAL ACCESS TO SCHOOL FACILITIES

I. PURPOSE

The purpose of this policy is to implement the Equal Access Act by granting equal access to elementary and secondary school facilities for students who wish to conduct a meeting for religious, political, or philosophical purposes during non-instructional time.

II. GENERAL STATEMENT OF POLICY

- A. It is the policy of this school district not to deny equal access or fair opportunity to, or to discriminate against, any students who wish to conduct a meeting, on the basis of the religious, political, philosophical, or other content of the speech at such meetings.
- B. The school board has created a limited open forum for students enrolled in elementary and secondary schools during which non-curriculum-related student groups shall have equal access and a fair opportunity to conduct meetings during non-instructional time.
- C. Student use of facilities under this policy does not imply school district sponsorship, approval, or advocacy of the content of the expression at such meetings.
- D. The school district retains its authority to maintain order and discipline on school premises, to protect the well-being of students and faculty, and to assure that attendance of students at meetings is voluntary.
- E. In adopting and implementing this equal access policy, the school district will NOT:
 - 1. influence the form or content of any prayer or other religious activity;
 - 2. require any person to participate in prayer or other religious activity;
 - 3. expend public funds beyond the incidental cost of providing the space for student-initiated meetings;
 - 4. compel any school agent or employee to attend a school meeting if the content of the speech at the meeting is contrary to the beliefs of the agent or employee;

5. sanction meetings that are otherwise unlawful;
6. limit the rights of groups of students based on the size of the group;
7. abridge the constitutional rights of any person.

III. DEFINITIONS

- A. “Limited open forum” means that the school grants an offering to our opportunity for one or more non-curriculum related student groups to meet on school premises during non-instructional time.
- B. “Elementary school” means any school with enrollment of pupils in kindergarten through grade 4 or any portion thereof. “Middle School” means any school with enrollment of pupils in grades 5-8.
- C. “Secondary school” means any school with enrollment of pupils ordinarily in grades 9 through 12 or any portion thereof.
- D. “Sponsorship” includes the act of promoting, leading, or participating in a meeting. The assignment of a school employee for custodial, observation, or maintenance of order and discipline purposes does not constitute sponsorship of the meeting.
- E. “Meeting” includes activities of student groups which are permitted under a limited open forum and are not directly related to the school curriculum. Distribution of literature does not constitute a meeting protected by the Equal Access Act.
- F. “Non-instructional time” means time set aside by the school before actual classroom instruction begins or after actual classroom instruction ends, including such other periods that occur during the school day when no classroom instruction takes place.

IV. FAIR OPPORTUNITY CRITERIA

Schools in this school district shall uniformly provide that:

- A. A meeting held pursuant to this policy is voluntary and student-initiated.
- B. There is no sponsorship of the meeting by the school or its agents or employees.
- C. Employees or agents of the school are present at religious meetings only in a non-participatory capacity.
- D. The meeting does not materially and substantially interfere with the orderly

conduct of educational activities within the school; and

- E. Non-school persons may not direct, control, or regularly attend activities of student groups.

V. PROCEDURES

- A. Any student who wishes to initiate a meeting under this policy shall apply to the principal of the building at least 48 hours in advance of the time of the activity or meeting. The student must agree to the following:
 - 1. All activities or meetings must comply with existing policies, regulations, and procedures that govern operation of school-sponsored activities.
 - 2. The activities or meetings are voluntary and student-initiated. The principal may require assurances of this fact.
- B. Student groups meeting under this policy must comply with the following rules:
 - 1. Those attending must not engage in any activity that is illegal, dangerous, or which materially and substantially interferes with the orderly conduct of the educational activities of the school. Such activities shall be grounds for discipline of an individual student and grounds for a particular group to be denied access.
 - 2. The groups may not use the school name, school mascot name, school emblems, the school district name, or any name that might imply school or district sponsorship or affiliation in any activity, including fundraising and community involvement.
 - 3. The groups must comply with school policies, regulations and procedures governing school-sponsored activities.
- C. Students applying for use of school facilities under this policy must provide the following information to the principal: time and date of meeting, estimated number of students in attendance, and special equipment needs.
- D. The building principal has responsibility to:

supervisory capacity does not constitute school district sponsorship of the meeting or activity.

5. Assure that the meeting or activity does not interfere with the school's regular instructional activities.
- E. The school district shall not expend public funds for the benefit of students meeting pursuant to this policy beyond the incidental cost of providing space. The school district will provide no additional or special transportation.

POLICY**

802 DISPOSITION OF OBSOLETE EQUIPMENT AND MATERIAL

I. PURPOSE

The purpose of this policy is to provide guidelines for the superintendent to assist in timely disposition of obsolete equipment and material.

II. GENERAL STATEMENT OF POLICY

Effective use of school building space, and consideration for safety of personnel, will at times require disposal of obsolete equipment and material.

III. DEFINITIONS

- A. “Contract” means an agreement entered into by the school district for the sale of supplies, materials or equipment.
- B. “Official newspaper” is a regular issue of a qualified legal newspaper.

III. MANNER OF DISPOSITION

A. Authorization

The superintendent shall be authorized to dispose of obsolete equipment and materials by selling it at a fair price consistent with the procedures outlined in this policy. Any sale exceeding the minimum amount for which bids are required must first be specifically authorized by the school board. The superintendent shall be authorized to properly dispose of used books, materials and equipment deemed to have little or no value.

B. Contracts Over \$50,000

- 1. If the value of the equipment or materials is estimated to exceed \$50,000, sealed bids shall be solicited by two weeks’ published notice in the official newspaper. This notice shall state the time and place of receiving bids and contain a brief description of the subject matter. Additional publication in the official newspaper or elsewhere may be made as the school board shall deem necessary.
- 2. The sale shall be awarded to the highest responsible bidder, be duly executed in writing, and be otherwise conditioned as required by law.

3. A record shall be kept of all bids, with names of bidders and amounts of bids, and an indication of the successful bid. A bid containing an alteration or erasure of any price contained in the bid which is used in determining the highest responsible bid shall be rejected unless the alteration or erasure is corrected by being crossed out and the correction printed in ink or typewritten adjacent thereto and initialed in ink by the person signing the bid.
4. In the case of identical high bids from two or more bidders, the school board may, at its discretion, utilize negotiated procurement methods with the tied high bidders so long as the price paid does not go below the high tied bid price. In the case where only a single bid is received, the school board may, at its discretion, negotiate a mutually agreeable contract with the bidder so long as the price paid does not fall below the original bid. If no satisfactory bid is received, the board may readvertise.
5. All bids obtained shall be kept on file for a period of at least one year after their receipt. Every contract made without compliance with the foregoing provisions shall be void.
6. Data submitted by a business to a school in response to a request for bids are private until opened. Once opened, the name of the bidder and the dollar amount specified become public; all other data are private until completion of the selection process, meaning the school has completed its evaluation and ranked the responses. After completion of the selection process, all data submitted by all bidders are public except trade secret data. If all responses are rejected prior to completion of the selection process, all data remain private, except the name of the bidder and the dollar amount specified which were made public at the bid opening for one year from the proposed opening date or until resolicitation results in completion of the selection process or until a determination is made to abandon the purchase, whichever occurs sooner, at which point the remaining data becomes public. Data created or maintained by the school district as part of the selection or evaluation process are protected as nonpublic data until completion of the selection or evaluation process. At that time, the data are public with the exception of trade secret data.

C. Contracts From \$10,000 to \$50,000

If the amount of the sale is estimated to exceed \$10,000 but not to exceed \$50,000, the contract may be made either upon sealed bids in the manner directed above or by direct negotiation, by obtaining two or more quotations for the purchase or sale when possible, and without advertising for bids or otherwise complying with the requirements of competitive bidding notice. All quotations obtained shall be kept on file for a period of at least one year after receipt.

D. Contracts Less Than \$10,000

If the amount of the sale is estimated to be \$10,000 or less, the contract may be made either upon quotation or in the open market, in the discretion of the school board. The sale in the open market may be by auction. If the contract is made on quotation, it shall be based, so far as practicable, on at least two quotations which shall be kept on file for a period of at least one year after receipt.

E. Electronic Sale of Surplus Supplies, Materials, and Equipment

Notwithstanding the other procedural requirements of this policy, the school district may contract to sell supplies, materials, and equipment which is surplus, obsolete, or unused through an electronic selling process in which purchasers compete to purchase the supplies, materials, or equipment at the highest purchase price in an open and interactive environment.

F. Notice of Quotation

Notice of procedures to receive quotations shall be given by publication or other means as appropriate to provide reasonable notice to the public

G. Sales to Employees

No officer or employee of the school district shall sell or procure for sale or possess or control for sale to any other officer or employee of the school district any property or materials owned by the school district unless the property and materials are not needed for public purposes and are sold to a school district employee after reasonable public notice, at a public auction or by sealed response, if the employee is not directly involved in the auction or sale process. Reasonable notice shall include at least one week's published or posted notice. A school district employee may purchase no more than one motor vehicle from the school district in any 12-month period. This section shall not apply to the sale of property or materials acquired or produced by the school district for sale to the general public in the ordinary course of business. Nothing in this section shall prohibit an employee of the school district from selling or possessing for sale public property if the sale or possession for sale is in the ordinary course of business or the normal course of the employee's duties.

H. Exceptions for Surplus School Computers

A school district may bypass the requirements for competitive bidding and is not subject to any other laws relating to school district contracts if it is disposing of surplus school computer and related equipment by conveying the property and title to:

1. another school district;
2. the state department of corrections

3. the board of trustees of Minnesota State Colleges and Universities; or
4. the family of a student residing in the district whose total family income meets the federal definition of poverty.
