V. Hearing of Visitors

A. Jessie Thalheim

Mrs. Thalheim asked the board to cross the hall where she showed them a set of experiments students were working on. Plants are being placed in a variety of situations to show how they adapt (ie. phototropism, gravitropism, hydrotropism, etc.) She shared how the kids had prepared the plants and the set up for their experiments. She then showed a series of short videos in which another class had tested out their parachutes in an egg drop experiment. This had many trial and error phases. Lastly, Mrs. Thalheim explained a third class project where they were learning about expenses vs. income in a real world situation. Many are finding that where they would like to live, is far outside what they want to do as a career. Helps them learn the difference between needs and wants

VI. Old Business

A. Transportation

Mr. Tharman shared that bus #11 is currently at Northwest Diesel having an issue looked at. Once that is back, they will send up Bus #17, which is throwing a communication code (Still usable). When that one is done, bus # 19 will be taken in for a shifting issue.

B. Technology

To keep up with the plan for an organized rotation of new and used devices, the school will purchase laptops for the 5th grade, senior laptops will rotate back to next year's freshmen (Seniors will be given a Chromebook after graduation), and then, starting the summer of 2024 we will start the yearly purchase of laptops for the 5th grade and freshmen. In addition, Ryan has been looking into cyber security possibilities. Lastly, the school is going to purchase a smart TV/board to replace a teacher's old long distance throw projector.

C. Board Walk Through

The board shared the notes from their walk-through. They were able to get around to all of the staff and rooms. Mr. Tharman shared that he is going to put the maintenance / repair items on a sheet and let the custodial staff come up with a plan and timeline for completing those. The larger projects will be look at with the budget in mind for dates. There were some personnel concerns shared during the walk-through as well. ARTICLE 6-REDUCTION IN FORCE

Section 1

Reduction of Teaching Staff

In the event the board decides the size of the teaching staff must be reduced, guidelines in the following proposal will be followed. Insofar as possible, reduction will be accomplished by attrition due to resignations and retirement.

The following steps will be utilized by the district's administrative staff:

To determine the number of teaching positions to be reduced, the administrative staff will ascertain the educational program for the district to meet the educational goals established by the board. The number of teachers needed to implement the district's educational program will then be determined by the administrative staff based on those educational goals as determined by the board.

All teachers will be evaluated in relation to the educational goals of the district. Individual qualifications and specific skill areas or disciplines shall be ascertained and applied to the teacher needs of the district. Evaluation forms, instruments or tools will be used to measure each staff member's teaching ability.

In the event two or more teachers have similar qualifications, skills and teaching abilities in a teaching area deemed necessary to fulfill the district's educational goals, the superintendent shall recommend a more experienced teacher before recommending a less experienced teacher for the position in question.

Any certified employee who has not been re-employed as a result of reduction of the teaching staff shall be considered for re-employment if a vacancy exists for which the teacher would qualify. The superintendent will recommend to the board reinstatement of any such teacher whom he deems qualified and able to serve the best interests of the district. The board shall not be required to consider reinstatement of any such teacher after a period of one year from the date of non-renewal.

ARTICLE 7 -DISCIPLINE, SUSPENSION AND DISMISSAL OF SCHOOL DISTRICT EMPLOYEES

I. PURPOSE

The purpose of this policy is to achieve the effective operation of the school district's programs through the cooperation of all employees under a system of policies and rules applied fairly and uniformly. The district wishes to retain, recruit, and equip staff who model professionalism, continued personal growth, and whose skills are utilized appropriately to benefit the district's students.

II. GENERAL STATEMENT OF POLICY

The disciplinary process described herein is designed to utilize progressive steps, where appropriate, to produce positive corrective action. While the school district intends that in most cases progressive discipline will be administered, the specific form of discipline chosen in a particular case and/or the decision to impose discipline in a manner otherwise, is solely within the discretion of the school district.

III. DISCIPLINE

A. Violation of District Policies or Laws: The form of discipline imposed for violations of district policies or laws may range from an oral reprimand to termination of employment or non-renewal of contract depending upon factors such as the nature of the violation, whether the violation was intentional, knowing and/or willful, and whether the employee has been the subject of prior disciplinary action of the same or a different nature. District policies and laws to which this provision applies include:

1. All policies of the school district;
2. directives and/or job requirements imposed by administration and/or the employee's supervisor; and
3. federal, state and local laws, rules and regulations, including, but not limited to, the rules and regulations adopted by federal and state agencies.

B. Substandard Performance: An employee's substandard performance may result in the imposition of discipline ranging from an oral reprimand to termination of employment or non-renewal of contract. In most instances, discipline imposed for the reason of substandard performance will follow a progressive format and will be accompanied by a measurable plan of improvement. The plan of improvement will be collaboratively developed, but the final decision on the plan rests with the designated administrator. This administrator will also provide guidance, help, and encouragement to improve. The employee will be given reasonable time for correction of the employee's deficiency.

C. Misconduct: Misconduct of an employee will result in the imposition of discipline consistent with the seriousness of the misconduct. Conduct which falls into this category includes, but is not limited to:

1. unprofessional conduct;
2. failure to observe rules, regulations, policies and standards of the school district and/or directives and orders of supervisors and any other act of an insubordinate nature;
3. continuing neglect of duties in spite of oral warnings, written warnings and/or other forms of discipline;
4. personal and/or immoral misconduct;
5. use of illegal drugs, alcohol or any other chemical substance on the job or any use off the job which impacts on the employee's performance;
6. deliberate and serious violation of the rights and freedoms of other employees, students, parents or other persons in the school community;
7. activities of a criminal nature relating to the fitness or effectiveness of the employee to perform the duties of the position;
8. failure to follow the canons of professional and personal ethics;
9. falsification of credentials and experience;
10. unauthorized destruction of school district property;
11. other good and sufficient grounds relating to any other act constituting inappropriate conduct;
12. neglect of duty;
13. violation of the rights of others as provided by federal and state laws related to human rights.

IV. FORMS OF DISCIPLINE

A. The forms of discipline that may be imposed by the school district include, but are not limited to:

1. oral warning;
2. written warning or reprimand;
3. probation;
4. disciplinary suspension, demotion or leave of absence with pay;
5. disciplinary suspension, demotion or leave of absence without pay; *and*
6. dismissal/termination or non-renewal from employment.

B. Other forms of discipline, including any combination of the forms described in paragraph A above, may be imposed if, in the judgment of the administration, another form of discipline will better accomplish the school district's objective of stopping or correcting the offending conduct and improving the employee's performance.

V. PROCEDURES FOR ADMINISTERING POLICY

A. In an instance where any form of discipline is imposed, the employee's supervisor will:

1. Advise the employee of any inadequacy, deficiency or conduct which is the cause of the discipline, either orally or in writing. If given orally, the supervisor will document the fact that an oral warning was given to the employee specifying the date, time and nature of the oral warning.
2. Provide directives to the employee to correct the conduct or performance.
3. Forward copies of all writings to the administrator in charge of personnel for filing in the employee's personnel file.
4. Allow a reasonable period of time, when appropriate, for the employee to correct or remediate the performance or conduct.
5. Specify the expected level of performance or modification of conduct to be required from the employee.

B. The school district retains the right to immediately discipline, terminate or non-renewal an employee as appropriate, subject to relevant governing law and collective bargaining agreements where applicable.

VI. RIGHTS OF EMPLOYEES RECOMMENDED FOR TERMINATION OR NON-RENEWAL

- A. After three complete years of service, employees recommended for termination or non-renewal of contract have a right to:
1. Provide written information to the board regarding the termination or non-renewal
 2. Meet with the board in executive session to hear the reason for the proposed termination or non-renewal, and to respond

- A. The pupil's parents must request in writing, to the Student Success Coordinator (SSC), their desire to have their student participate in the early release to work program.
- B. The student will submit an approved form requesting early release from school to work.
- C. The SSC and Principal will review the student's needs, academic records and other necessary criteria. The Principal will make a recommendation to the Board of Education.
- D. The Board of Education will evaluate each student request individually and make a determination.
- E. The student must attend morning classes before they are allowed to go to work each afternoon. The student must maintain employment until 4:00 PM every school day. Additional time must be worked out between the employer and employee. The employer will be responsible for contacting the school if the job status changes.
- F. If the job status changes, the student must work with the school to find a new job. Any student that does not work with the school to maintain employment will forfeit their right to participate in graduation ceremonies.

(Reuters) – Global insured losses for natural catastrophes are projected to reach \$112 billion in 2022, reinsurance broker Guy Carpenter & Co. LLC said on Friday, driven by the impact of Hurricane Ian, which hit Florida earlier this year.

Flood and hail in Europe, Australian floods and severe storms in the United States also contributed to the total, Guy Carpenter said in a statement.

by Jen Frost

SHARE   

Retail agents beware, taking a "shotgun approach" to submissions will not be tolerated in today's hard market, at least not in Burns & Wilcox's personal insurance practice.

This is according to Burns & Wilcox corporate senior vice president, national personal insurance practice leader Bill Gatewood.

Budget Expectations 2023/2024

Budget Recommendations:

- For the past four years, KERMP has positioned itself with our structure and retention increase to insulate the program from significant rate increases
- Based upon current Marketplace conditions and a few past years with unprecedented storms (i.e. DERECHO 1 , DERECHO 2, Winter Freeze,) we are anticipating an industry increase.
- **We would recommend members budget for a minimum of +20-25% increase. This is subject to a member’s individual loss history, exposure increases.**
- Property/Content Valuations Trend – 5% of all buildings and contents for all members including those members who are getting current appraisals. Please updated Risk Partner using those values. Risk Partner will start with 5% increase over expiring values reported.

As always our goal is to beat this target and market aggressively where needed. If marketplace intel causes our expectations to shift significantly we will alert the membership as far in advance of the renewal as is possible.

Schools & Education - Valuation

- Avg KS School Replacement Cost in 2013: \$145/sqft*
- Avg KS School Replacement Cost in 2019: \$186/sqft**
- Today, everything has changed:

* <https://evstudio.com/cost-per-square-foot-of-educational-facilities-by-region/>

** <https://www.rsmeans.com/model-pages/high-school>

What we need to know (and do)

- Property renewals will be as tough as we've ever seen them. A good renewal will be <20% increase when taking into account rate and very important valuation increases. Renewals more than 25% please work closely together to mitigate (if possible) and message to the client.
- Expect 10%-15% increase in Medical Malpractice renewals throughout 2023. Our state is unprofitable, and the carriers will be seeking to make up their losses.
- Expect 5%-15% increases in Cyber. As client controls seem to be improving, and markets seem to be easing, take to market as needed.
- Our state is experiencing increasing Auto Frequency & Severity. Expect 10% increases as norm. If more than that, we need to research why and client communication imperative.
- D&O/EPLI should start to flatten. If you are not seeing this, please involve Darrell and I asap. This may require some tough talk with Cincinnati.
- GL should be flat aside from exposure (sales, payrolls, sqft) increases.
- WC rates continue to be flat or down, but we are seeing some increasing loss trends that will likely turn this market in the next two years. Carefully watch for sneaky rate increases that can be hidden by mod changes, both up and down.

What we need to know (and do)

More than anything else...we need to overly communicate with our clients and carriers.

Don't: Send a renewal comparison that is up 25%+ with no additional narrative or context. Claims, market conditions and growth in their organization are all valid reasons for increases. How we message is key.

Do: Send submissions that are comprehensive, bordering on excessive. Provide explanations for tough losses and why the account is worthy of best pricing or consideration. No shot gun.

Mr. Clint Schutte
Board Chairperson
Kansas Educational Risk Management Pool, LLC,
1745 W. Grand
Haysville, KS 67060

Dear Mr. Schutte:

CBIZ Valuation Group, LLC (CVG) has completed an insurance appraisal of certain property exhibited to us as part of Northern Valley USD 212 located in Almena and Long Island, Kansas and presents our findings in this report.

Purpose of the Valuation

The purpose of this engagement was to provide to Kansas Educational Risk Management Pool, LLC a property insurance appraisal for Northern Valley USD 212 in connection with its internal analysis for insurance needs for the identified property as of January 26, 2023.

CVG's opinion is intended to assist Kansas Educational Risk Management Pool, LLC in making informed business decisions and it is not a recommendation. Any decision relating to insurance coverage shall remain Kansas Educational Risk Management Pool, LLC responsibility and be made solely at its discretion. This report may only be used for the specific purpose stated.

Kansas Educational Risk Management Pool, LLC is the sole intended user of CVG's report or other work product. Kansas Educational Risk Management Pool, LLC shall not reference CVG or its work in any public filing or other materials distributed to actual or prospective shareholders, investors, financing parties, or similar third parties without CVG's prior written consent.

Definition of Value

Replacement Cost New, as applicable to insurance valuations, is defined as the cost required to produce a property of like kind and materials at one time in accordance with current market prices for materials, labor and manufactured equipment, contractors overhead, profit and fees, but without provisions for overtime or bonuses for labor and premiums for materials. We did not take into consideration compliance with state or local ordinances or costs associated with demolition of property or the removal of debris.

Partial losses may result in higher replacement costs as partial losses often require a substantial amount of repair in conjunction with the replacement process. CVG's valuation methodology did not include the development of reproduction costs for ornate or historical property.

Valuation Methodology

There are three fundamental techniques applied in the valuation of assets. These techniques are based on the cost to acquire new (cost approach); the cost at which the asset may change hands in the marketplace (sales comparison or market approach); and the present worth of expected cash flows (income approach). The principle of substitution is important to the development and application of these three techniques. This principle provides

that a prudent investor will pay no more for an asset, property or business than he would be required to pay for a replacement serving as a reasonable substitute of equal utility. The cost approach is most applicable in our valuation for property insurance reporting purposes, thus the cost approach was utilized.

The three principal methods for estimating value are summarized as:

Cost Approach	This approach considers the current cost of reproducing the appraised assets. The reproduction/replacement cost new of the appraised assets is estimated on the basis of current labor and material prices plus allowances for overhead, profit and provisions for mechanical and engineering fees, supervision and other miscellaneous fees.
Sales Comparison Approach	This approach produces an estimate of value by comparing the subject to sales of similar items. The technique is sometimes referred to as the market approach in that it is used to indicate the value established by informed buyers and sellers in the market. Caution must be exercised in using this method since the appraiser is not always privy to the intricacies of the transaction and yet must attempt to make a valid comparison with the subject. Therefore, the sales comparison approach, although considered, was not applied.
Income Approach	This approach gives consideration to the net income expectancy from the assets appraised, and to the capitalization of income in accordance with prevailing returns on properties or investments of similar risks, to determine the amount at which ownership by a prudent investor would be justified. Therefore, the income approach, although considered, was not applied.

Valuation Scope

This report includes property classified as buildings. All other asset classifications were not included as part of the appraisal process, CVG's staff completed an inspection of the identified property located at these facilities on January 26, 2023.

- **Buildings & Structures** – CVG completed a limited scope physical inspection and valuation of buildings (structures with permanent foundations) with a replacement cost of \$1,000,000 or greater at the sites inspected. During the inspections, basic construction components including COPE data were observed and collected. Square footage was calculated using a combination of physically measuring the buildings, conducting take-offs of blueprints, and information made available by the Kansas Educational Risk Management Pool, LLC. Digital photos were taken of each structure inspected and incorporated into our reports and work files.

The valuation included a visit to the member property with analysis of other data made available to us and research of current construction costs. A detailed listing of the property appraised together with an estimate of the insurable values is contained in the summary and detail reports contained herein.

Conclusion

Our opinion, as of January 26, 2023, of the Replacement Cost New is as follows:

Description	Replacement Cost New (\$)
Buildings	15,285,000
TOTAL	15,285,000
