## NEWS

### • New Gym LED Lights

- The new LED lights have been installed in the new gym and they look amazing. Everyone has commented on what an improvement they have made.

### • OLT/BVL possible merger

- With Troy leaving the OTL junior high league that leaves us with 6 teams. I believe that uniting the two leagues will be beneficial to both leagues for scheduling purposes.
- OTL Schools: Frankfort, Centralia, Saint Peter and Paul, Onaga, Axtell, Doniphan West
- BVL Schools: Valley Heights, Linn, Clifton Clyde, Lucky, Washington Co., Hanover, Blue Valley
- The additional schools would also help with non-athletic events like scholar's bowl, band, and vocal.

### • Enrollment Update:

- PBR enrollment count for 2022 – 153 (HS – 44, Elementary – 109)
- PBR enrollment count for 2023 – 165 (HS – 47, Elementary – 118)
- APS is up 12 students from last year

### • Principal's 100 Club:

- Positive Behavioral Interventions and Supports (PBIS) is an evidence-based, tiered framework for supporting students' behavioral, academic, social, emotional, and mental health. The Principal's 100 Club is an extension of this program. When a student is caught going above and beyond, the teachers or staff members can nominate the student by giving them an Eagle Ticket. They will bring in their ticket to Mrs. Frazee and draw a number for the chart. When the chart is full, we will draw for prizes. If their number is drawn, they will be able to choose a prize.

### • K-5 Field Trip:

- On Wednesday, September 27, all K-5 students went to Arbor Day Farms in Nebraska City. They learned about apple harvest, nature, pollinators, and more. The field trip was paid for by the Eagle Boosters Club. Thank you to the Boosters for sponsoring this amazing field trip.

### • Eagle Pals:

- We are implementing a new program this month. This program will pair an elementary student with a high school student. They will meet monthly before school. Students will learn both character education skills and SEL skills through this program.

## • News From the Nest:

- The weekly newsletter has expanded from last year. By doing this, we are able to showcase what we are doing as a school to the community in both our academics and athletics.

## • Classroom News:

- **Personal Finance Class** – Congratulations to Mrs. Hopp's class for receiving the gold standard from Next Gen Personal Finance for their Personal Finance class.

## • 2<sup>nd</sup> Grade – Science is Sweet:

- The 2nd graders have been learning about material properties and they got to check out how easily different kinds of candies melt! They found that some candy has the property of being meltable in warm water while others do not.

## • Axtell Community Fitness Center:

- The fitness center is coming along nicely. Currently, they are finishing up the painting, and installing lights, and outlets. They are hoping next week the floor will come and get installed. Once that is done they will be able to move in the equipment that has already come in or the school has. The students will be able to use the facility at that point. The target date to have everything done and open to the public is November 1. But that is fast approaching.

## Building Report

### October 2023 BOE Meeting

**Academics:** Our MTSS intervention program has been underway for several weeks now. I am impressed at the quality of our Instructional Support Staff and grateful for so many who put in the time each day to support ALL students here at SES! Our school receives full Title 1 funding which allows us to hire such qualified staff and purchase materials that support each and every student.

**Fire Safety:** SES will welcome the Sabetha FD to school for a fire safety presentation and tour of their truck. This will happen on October 18th and is a great way to continue to build community connections.

**High Five Fridays:** I am excited to tell you about our partnership with SHS sports/activities/clubs for High Five Fridays. Each week, a different club or sport in season welcomes our students to school. It has been well received by students at the elementary school and I have heard positive feedback from parents of high school students as well about kids being excited to come to school!

**Parent/Teacher Conferences:** Our parent/teacher conferences are October 18 and 19. Our goal is to provide honest feedback regarding student achievement in our school while building a positive collaborative relationship with families that fosters student growth both at home and in the classroom.

**Family night:** SES's first family night will be November 2 and will feature Willy Wonka and the Chocolate Factory for the theme.

Students and families will be able to walk through the school "factory" while engaging in reading and math activities in a fun atmosphere.

### UPCOMING EVENTS:

- **October 12: 4th Grade Music Program @ 9:15am/7pm SMS**

## USD 113 PRAIRIE HILLS SCHOOL DISTRICT LETTER TO PRAIRIE HILLS USD 113 PATRONS, PARENTS, EMPLOYEES & STUDENTS

*Dear USD 113 Patrons, Parents, Employees, & Students,*

We hope that this fall and the start of school has been a positive time for you and your families! The purpose of this letter is to communicate information about the potential land transfer situation that our district is experiencing with the following school districts: USD 115 Nemaha Central, USD 380 Vermillion and USD 335 Jackson Heights. Curiously these three neighboring districts have recently joined together and filed an unusual legal maneuver requesting intervention by the Kansas State Board of Education.

The collective opinion of the USD 113 Board of Education is that our district is under attack from both outsiders and neighbors. We believe this for a number of reasons, but significantly the three neighboring districts have requested **more than 40%** of USD 113's total square miles. In the 2022-23 school year, Wetmore Attendance Center students accounted for less than **12%** of the district's head-count, and now neighboring districts are seeking to annex **40% of Prairie Hills territory**. This seems unjust. In addition, as we analyze this complex situation it appears that outside interest groups may mysteriously be involved. This involvement is especially concerning because it may indicate a larger agenda than we are struggling with locally.

The following is an update and summary of the situation:

### TIMELINE

In February 2023 after months of study, complex budget and enrollment trend analysis, community input, including six public listening sessions, and the review of the 2015 Kansas Legislative Post Audit USD 113 efficiency study, this Board made the emotionally difficult decision to close the Wetmore Academic Center.

### THE FALLOUT

Afterward a few representatives of the Wetmore Community Action group reached out to neighboring school districts after hiring a Topeka lobbyist and a Kansas City attorney employing political hardball. Early this summer a letter was delivered to USD 113 in which the three neighboring districts proposed annexing **40% of the square miles of the entire Prairie Hills School district**. Such a massive reduction endangers the ability to educate the remaining 88% of USD 113 students. In addition, our neighboring districts are demanding unprecedented payments of money per pupil, not contemplated under current Kansas law.

In contrast, the Prairie Hills School District stands ready to educate all USD 113 students, but we recognized that some of these roughly 100 Wetmore area students might choose to attend school out-of-district. Reasonable efforts were made to ensure district lines be drawn to reflect evolving attendance patterns. In August, an offer was on the table for the parties to sit and visit one on one; superintendent to superintendent to identify district line issues and potential boundaries. However, on August, 30, the law firm representing the three neighboring school boards filed a legal motion requesting mediation and possible intervention in a local issue by the Kansas State Board of Education.

### THE FUTURE

The USD 113 Board of Education is currently preparing for mediation as well as a hearing before the Kansas State Board of Education. This situation is so unusual that the State School Board itself is researching procedures and identifying potential mediators. It's hard to know what the next steps might be; but, rest assured, we are hard at work and ask that you please stay vigilant and informed.

### ADDITIONAL INFORMATION

We question why three neighboring school districts and outside interest groups would form an alliance and file a legal action over what appears to be solvable issues. For example, less than 10 Wetmore area students have chosen to transfer to the Vermillion and Nemaha Central districts combined. These types of student transfers occur on a yearly basis all over Kansas. In fact, Prairie Hills happily educates over a hundred students living in neighboring districts. We have educated students who have transferred from all three of the districts involved and have not asked for nor have we received payment when those districts received funding through the state formula.

It is important to recognize that there could be larger statewide politics at play. There already has been involvement from outside interest groups. Most in our school district have heard about the potential of an additional legal weaponization, a petition for dissolution of the Prairie Hills District. A petition just like this was filed earlier this year in USD 112, a central Kansas school district causing an expensive and time-consuming election. Regardless, this Board is confidently preparing for mediation and a potential hearing before the State Board of Education while continuing to focus on educating all students.

### COMMUNITY ACTION

What can you do to help? Continue to stay vigilant and informed. Ask friends from other involved districts if they are aware of this situation, including the expense of mediators and lawyers. Prepare letters to legislators and State Board of Education Members encouraging them to examine each situation from a district to district viewpoint.

In the face of outside adversity, your local Board is unified and prepared to have reasonable discussions.

Transferring significant sections of the Prairie Hills School District is not a reasonable approach to this situation, nor is making unprecedented USD 113 taxpayer-funded payments. As the USD 113 Board of Education we will continue to work to find common sense solutions to our differences. It is our expectation that mediation will provide an honest and controlled and thoughtful environment without the interference of outside interest groups.

With an educated, engaged and motivated Prairie Hills community we are optimistic about our school district's continuing ability to create bright, educational futures for all our students. Please stay informed about our process. We will continue to seek a reasonable resolution to this situation.

Sincerely, USD 113  
Prairie Hills Board of Education  
Leslie Scoby, Kathy Lippert, Phillip Buessing, Stan Keim, Doug Renyer, Kent  
Saylor, and Jim Scoby

Sabetha High School band program.

Pyware 3D is one of the most widely used drill design software programs for high school and collegiate marching bands. This program is used by Washburn University and I had the opportunity to experiment with it while writing drill for one of band's half-time performances during my senior year.

Drill writing, or choreographing the movements of the band members for a marching performance, is a tedious task which requires numerous dots on graphed paper. This software streamlines the process of defining student placement and easily coordinates the movements required in formation changes.

The best part is that the program provides the ability to replay the drill so you can see the movements of each position according to the tempo and count of the music. This helps identify any errors in the transitions and significantly reduces the time required to write (and re-write) the drill.

I would primarily be using the software to design performance drills for the high school marching band. In addition, with access to this software, I would like to include a unit in my high school music theory class that teaches students how to use the software to write drill, opening the opportunity for interested students to help write the performances for their band.

Pyware 3D offers a basic version geared for those with a smaller budget. The initial cost is \$624, which includes the license and a 3-year subscription. This is what I would need to get started this year. The renewal fee for the subscription, which is required to access the software, is \$125.

I appreciate your review and consideration. Please don't hesitate to reach out if you have any questions.

Sincerely,

Braden Plumlee, Director of Bands

## **Enrollment of Nonresident Students**

**JBCC**

(See JBC, JBCA, JBCB, and JQKA)

Kansas law requires the board to allow nonresident students to enroll in and attend the schools of the district if the board's capacity determination finds there are open seats for such students. In order to determine the district's capacity to accept nonresident students at each grade level in each district school, the board has adopted this policy.

Details concerning the open enrollment and continued enrollment processes for nonresident students may be found in this policy, while general processes on enrollment documentation, assignment to buildings and classes, etc., may be found in board policy JBC.

### Definitions

For the purposes of this policy, the following definitions apply.

"Homeless child" means a child who lacks a fixed, regular and adequate nighttime residence and whose primary nighttime residence is:

- A. A supervised publicly or privately operated shelter designed to provide temporary living accommodations, including welfare hotels, congregate shelters and transitional housing for the mentally ill;
- B. an institution that provides a temporary residence for individuals intended to be institutionalized; or
- C. a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for humans.

"Nonresident student" means a student who is enrolled and in attendance at or seeking to enroll and attend a school located in a district where such student is not a resident.

"Parent" means and includes natural parents, adoptive parents, stepparents, and foster parents.

"Person acting as parent" means:

- A. A guardian or conservator; or
- B. a person, other than a parent, who:
  - i. Is liable by law to maintain, care for or support the child;
  - ii. has actual care and control of the child and is contributing the major portion of the cost of support of the child;
  - iii. has actual care and control of the child with the written consent of a person who has legal custody of the child; or
  - iv. has been granted custody of the child by a court of competent jurisdiction.

"Receiving school district" means a school district of nonresidence of a student who attends school in such school district.

"Sibling" means a brother or sister of the whole or half blood, adoptive brother or sister, a stepbrother or stepsister or a foster brother or foster sister.

#### Determining Capacity for Nonresident Enrollment

The superintendent or designee has the responsibility for studying capacity in each school of the school district and at each grade level within each school and for making recommendations to the board regarding the district's capacity to accept nonresident students. To make recommendations to the board to assist with determining capacity, the superintendent or the superintendent's designee(s) shall do the following.

The superintendent or designee shall develop recommendations on capacity and classroom student-to-teacher ratios in each grade level in each school serving kindergarten students and students in grades one through eight. Such recommendations may be based on, but not be limited to, the following factors:

- Present classroom student-teacher ratios in each grade level in each school;
- projected enrollment shifts based on the resident student population, which may include a percentage adjustment for anticipated growth or decline based on documented enrollment trends; and
- maximum capacity of the classroom and associated learning, activity, and common area spaces.

The superintendent or designee shall develop recommendations on capacity and student-to-teacher ratios for each school building or program serving students in grades nine through twelve. Such recommendations may be based on, but not be limited to, the following factors:

- Present building or program student-teacher ratios;
- projected enrollment shifts based on the resident student population, which may include a percentage adjustment for anticipated growth or decline based on documented enrollment trends;
- anticipated demand for particular courses or programming; and
- maximum capacity of the classroom and associated learning, activity, and common area spaces.

## **Enrollment of Nonresident Students**

**JBCC-3**

On or before May 1 of each year, the superintendent shall present the recommendations concerning capacity and student-to-teacher ratios to the board for adoption or modification, and the board shall determine, for each grade level in each school building of the school district for the next succeeding school year, the following:

- Capacity based on the study conducted by the superintendent or the superintendent's designee;
- the number of students expected to attend school in the school district; and
- the number of open seats available to nonresidents at each grade, building, or program level.

On or before June 1 of each year, the district shall publish the number of open seats available to nonresident students in each grade level for each school building of the district for the next succeeding school year on the school district's website.

From June 1 through June 30, district administration shall accept applications from nonresident students.

If the number of applications for a grade level in a school building is less than the number of available seats for that grade level in the school building, the nonresident students shall be accepted for enrollment and attendance at the school district, except as provided below for nonresident students regarding continued enrollment.

If the number of applications for a grade level in a school building is greater than the number of available seats for the grade level in the school building, district administration shall randomly select nonresident students using a confidential lottery process. This process shall be completed on or before July 15 of each year.

The district shall provide to the parent or person acting as a parent of a nonresident student who was not accepted for or denied enrollment at such school district the reason for the nonacceptance or denial and an explanation of the nonresident student selection process.

### **Priority in Filling Open Seats**

Subject to having capacity to enroll nonresident students, the district shall give priority in enrollment to the following nonresident students, who shall receive open seats without necessity of being selected through the open-seat lottery:

- Any sibling of a nonresident student who was accepted to enroll in and attend school in the district, with priority given when the nonresident student is first accepted and, if necessary, at any other time the district considers transfer applications;

## **Enrollment of Nonresident Students**

**JBCC-4**

- any nonresident student who is a military student as defined in K.S.A. 72-5139, with priority given when the student is first accepted and, if necessary, at any other time the district considers transfer applications;
- any child who is in the custody of the Department for Children and Families and who is living in the home of a nonresident student who transfers to the district;
- any nonresident student who has a parent or person acting as parent employed by the district shall be permitted to enroll in and attend school in the district as if the student is a resident of the district while the parent or person acting as a parent remains employed by the district;
- any nonresident students residing outside of the state of Kansas but attending school in the district during the 2023-2024 school year shall be treated as if resident students and not required to apply for nonresident status, although continued enrollment may be evaluated each year under the factors outlined below; or
- any child who is experiencing homelessness shall be permitted to enroll in and attend the school district of origin or the school district of residence.

If one of these exceptions no longer applies to the student, the student's enrollment status would be subject to review under the terms for continued enrollment under this policy.

### **Prohibitions Regarding Open Enrollment Provisions of this Policy**

The district shall not:

- Charge tuition or fees to any nonresident student who transfers to the district pursuant to this policy, except fees that are otherwise charged to every student enrolled in and attending school in the district; or
- accept or deny a nonresident student transfer based on ethnicity; national origin; gender; income level; disabling condition; proficiency in the English language; or measure of achievement, aptitude, or athletic ability.

Except for a child in the custody of the Department for Children and Families or a child who is experiencing homelessness, a nonresident student shall not transfer more than once per school year to one or more receiving school districts pursuant to the provisions of this policy or authorizing Kansas law.

### **Transportation of Nonresident Students**

The district, by virtue of being a receiving school district of a nonresident student, shall not be required to provide transportation to nonresident students unless otherwise required to do so by state

and/or federal law, as a related service through a student's individualized education program, or as an accommodation pursuant to the student's Section 504 plan. If space is available on district transportation vehicles, the district may assign nonresident students an in-district bus stop to and from which transportation may be provided by the district for nonresident students. The district shall ensure that transportation for nonresident homeless students is provided comparably to that of housed students.

#### KSHSAA Eligibility

Nothing in this policy or state law shall exempt a nonresident student who transfers into the district from the requirements of the Kansas State High School Activities Association ("KSHSAA") regarding eligibility to participate in KSHSAA activities.

#### Information Share with the Kansas State Department of Education

The superintendent shall submit or have submitted to the Kansas State Department of Education this policy, the number of nonresident student transfers approved and denied in each grade level and whether the denials were based on capacity or in accordance with the policy's terms, as required.

#### .Nonresident Student Continued Enrollment

A nonresident student who has been accepted for enrollment and attendance at a district school shall be permitted to continue enrollment and attendance in the district until such student graduates from high school, reaches the age of 21 (if the student is a student with an exceptionality, not solely eligible for gifted services under an individualized education program), or receives a G.E.D., unless such student is no longer deemed by district administration to be in good standing.

Except as otherwise specified herein, nonresident students who have previously been accepted for enrollment by the school district will be allowed to continue enrolling in the district as specified above. The district will not require parents to resubmit a new application each school year and will advance the previous application of an enrolled student amending only the grade placement of the student unless the district provides notification to the parent, person acting as a parent, or student that enrollment is not going to be continued for the upcoming school year for reasons specified as follows.

Regardless of capacity to accept nonresident students at a nonresident student's grade level or in the student's designated school or program, an individual student may be denied continued enrollment for not being in good standing. Nonresident students admitted to the district shall be evaluated each spring by district administration to determine standing for continued enrollment.

Students may be denied continued enrollment for the next school year based on the results of these evaluations. However, if the student has a disability, the student's ability to meet these expectations shall be considered prior to denying continued enrollment in the district. Similarly, administration shall

consider the adverse impact of homelessness on a student's attendance and any resulting suspensions or expulsions before making a determination on the continued enrollment of a student who is homeless. As part of this reflection, administration shall consider the obstacles a homeless student faces to arrive at school on time or each day due to housing instability, lack of transportation, or lack of other basic resources that can hinder consistent attendance.

A student meeting one or more of the following criteria shall automatically be deemed not in good standing and may be denied continued enrollment based solely thereon.

- The nonresident student failed to maintain a 90% attendance rate in the last school year, excluding excused absences under board policy JBD and/or any relevant student handbook language;
- the nonresident student or the student's parent or person acting as a parent provided false or fraudulent information in the application process;
- the nonresident student is not a resident of Kansas;
- the student is currently under a period of suspension or expulsion from any Kansas school district, and such suspension or expulsion will not expire until after the next school year has begun.
- the student has had a combination of three or more in-school and out-of-school suspensions in the current school year, excluding suspensions a manifestation determination determined to be a manifestation of the student's disability or a failure on the part of school staff to implement an individualized education program, Section 504 plan, or behavior intervention plan;
- students who are suspended out of school for acts considered to be violent or threats of violence may be denied continued enrollment after one such act as determined by the superintendent.
- the student has been given a long-term suspension or expulsion by the district in the current school year.

Parents shall be informed of any administrative decision not to continue enrollment of a nonresident student no later than \_\_\_\_\_.
