BOARD POLICY

209 Health Examinations/Screenings

POLICY NUMBER	VERSION	DOCUMENT STATUS	PRINTED
209	v3	DRAFT	9/22/2026

AUTHORITY

In compliance with applicable law and regulations, and Board-approved health and safety plans, the Board shall require that district students submit to health and dental examinations, screenings and health monitoring in order to protect the school community from the spread of communicable disease and to ensure that the student's participation in health, safety and physical education courses meets the student's individual needs and that the learning potential of each student is not lessened by a remediable physical disability.[1][2][3][4]

GUIDELINES

Each student shall receive a comprehensive health examination conducted by the school physician upon original entry, in sixth grade, and in eleventh grade.[2][4][5]

Each student shall receive a comprehensive dental examination conducted by the school dentist upon original entry, in third grade, and in seventh grade.[3][4][5]

A private health and/or dental examination conducted at the parents'/guardians' request and expense shall be accepted in lieu of the school examination. The district shall accept reports of privately conducted physical and dental examinations completed within one (1) year prior to a student's entry into the grade where an exam is required.[5]

The school nurse or medical technician shall administer to each student vision tests, hearing tests, tuberculosis tests **and** other tests deemed **advisable at** intervals established by the district. Height and weight measurements shall be used to calculate the student's weight-for-height ratio.[2][4][6]

The school nurse or other health care practitioner shall conduct measurements of height and weight for each student for the purpose of tracking growth patterns. Height and weight measurements will be conducted at intervals established by the district and in a manner that protects student confidentiality. Parents/Guardians have the right to request an exemption from height and weight measurements for their child, and the district must provide notification of the exemption request procedure.[2][25]

Parents/Guardians of students who are to receive physical and dental examinations or screenings shall be notified. The notice shall include the date and location of the examination or screening and notice that the parents/guardians may attend. The notice shall encourage the parent/guardian to have the examination or screening conducted by the student's private

physician or dentist at the parent's/guardian's expense to promote continuity of care. Such statement may also include notification that the student may be exempted from such examination or screening if it is contrary to the parent's/guardian's religious beliefs.[7][8][9]

A student who presents a statement signed by the parent/guardian that a health examination is contrary to the student's or parent's/guardian's religious beliefs shall be examined only when the Secretary of Health determines that facts exist indicating that certain conditions would present a substantial menace to the health of others in contact with the student if the student is not examined for those conditions.[10] [11]

Where it appears to school health officials or teachers that a student deviates from normal growth and development, or where school examinations reveal conditions requiring health or dental care, the parent/guardian shall be notified of the apparent need for a special examination by the student's private physician or dentist. The parent/guardian shall report to the school whether a special examination occurred. If the parent/guardian fails to report whether the examination occurred within a reasonable time after being notified of the apparent need and the abnormal condition persists, appropriate school health personnel shall arrange a special health examination for the student.[2][4][12]

In the event that the parent/guardian objects to or refuses to obtain a regular or special health or dental examination or refuses to permit the child to be examined as arranged by the school nurse or school physician, the school nurse, in consultation with the school physician, shall determine whether the student appears to have unaddressed health conditions such that under the circumstances the refusal should be reported to the PA Department of Health or other appropriate authorities.

Where school health officials or staff have reasonable cause to suspect that a student may be the victim of child abuse, the school employee shall make a report of suspected child abuse in accordance with law and Board policy.[13] **[14]**

Health Monitoring

The Board directs district staff to monitor student health in accordance with applicable Board policy and the Board-approved health and safety plan. **[15]**

A student may request an alternative method of monitoring as a religious accommodation, and designated district staff shall assess and respond to such request in accordance with applicable law, regulations and Board policy. A request for an accommodation that would unreasonably impair safety or cause undue hardship will not be granted. **[16]**

A student with a health condition that may render a monitoring method ineffective should notify designated staff so that alternative or supplemental methods may be considered. **[16]** **[17]**

Students who may be exhibiting symptoms that indicate health concerns shall be referred to the school nurse or designated staff for further assessment and response, in accordance with Board policy. **[15]**

Health Records

The district shall maintain for each student a comprehensive health record which includes a record of immunizations and the results of tests, measurements, regularly scheduled examinations and special examinations.[2]

All health records shall be confidential and shall be disclosed only when necessary for the health of the student or when requested by the parent/guardian, in accordance with law and Board policy.[18] **[19]** **[20]**

The district may disclose information from health records to appropriate parties in connection with an emergency when necessary to protect the health or safety of the student or other individuals, in accordance with applicable law and Board policy. **[15]** [18] **[19]** **[20]** [21][22] **[23]**

Designated district staff shall request from the transferring school the health records of students transferring into district schools. Staff shall respond to such requests for the health records of students transferring from district schools to other schools.[18]

The district shall destroy student health records only after the student has not been enrolled in district schools for at least two (2) years.[18] **[24]**

DELEGATION OF RESPONSIBILITY

The Superintendent or designee shall instruct all staff members to continually observe students for conditions that indicate health concerns or disability and to promptly report such conditions to the school nurse or designated staff.[2]

The Superintendent or designee shall ensure that educational information and materials regarding eating disorder awareness and education are made available to students in grades six through twelve. Eating disorder awareness and educational materials must also be posted on the district's website.[26][27]

The Superintendent or designee shall ensure that notice is provided to all parents/guardians regarding the existence of and eligibility for the Children's Health Insurance Program (CHIP). [12]

AUTHORITY

Each school **building** shall have one (1) person **trained and** certified in the use of **an AED and** CPR during **the school day** when school is in session and students are present.[2][3]

Each school nurse or designee, coach of an athletic activity, marching band director, physical education teacher and athletic trainer in the district must participate in instruction in the use of an AED and CPR and maintain their certification.[2]

The AED units are owned by the district and shall be properly maintained **and tested,** and located in secure and accessible locations.

The district shall have an AED in a readily accessible location for students participating in interscholastic athletics and practices. Individuals trained in the use of an AED and CPR will be present during these times.[4][5]

The AED units shall be used in accordance with approved district procedures.

GUIDELINES

A core team shall be trained in CPR and AED procedures by completing a training program offered by approved providers. Members of the team shall be provided opportunities for annual training and retraining.

The district shall make instruction in the use of an AED available to all its employees and volunteers at least once every two (2) years. The instruction is optional and shall be conducted by an approved provider that may be through the Internet or other electronic means.[2]

{X} The district may make instruction on the principles and techniques of CPR and the use of operating an AED available to students.[2]

Written guidelines for medical emergencies related to the use of AED units shall be provided to all **employees instructed in the use of an AED**.

{X} Responders' use of AED units shall not replace the care provided by emergency medical services (EMS) providers. Patient care shall be transferred to the EMS providers upon their arrival.

DELEGATION OF RESPONSIBILITY

The **Superintendent** or designee shall develop and disseminate administrative regulations that detail the use of AED units.

TO: **SAM HOY, KEYSTONE CENTRAL SCHOOL DISTRICT** FROM: **BILL MILLER**

JOB: **BUCKTAIL HIGH SCHOOL WATER DAMAGED GYM FLOOR** DATE: **OCTOBER 6, 2026** (rev.3)

Sam, I have updated this report/proposal for the water damaged gym floor at Bucktail High School in the Keystone Central School District which includes a breakdown of the costs. Miller Sports Construction (MSC/Miller) proposes to supply all materials, labor and equipment necessary to complete the work as further specified: Pricing does not include prevailing wage rates. If prevailing wages are required later, the pricing will be adjusted accordingly.

COSTARS Contract Pricing: The following pricing is based on the PA Cooperative Purchasing Platform - Costars. Costars is a Pennsylvania state approved joint purchasing contract. Miller Flooring Company, West Chester, PA is authorized under Costars contract number 014-E23-327 (Recreation/Fitness)

INSPECTION

I inspected the (7,590 SF) Bucktail High School gymnasium floor with Rob Phillips (Keystone Central SD) on Tuesday, September 8, 2026 at 9 AM. My inspection was in response to a request to evaluate the water damaged gymnasium floor. It was explained the area received up to 7 inches of water in one day and the pressure of the water broke a pipe in a closet adjacent to the gym floor. The water covered the entire floor from end to end. During my visit, Mike Poorman and Jim Poleto stopped at the gym.

Upon my arrival, I found the floor cupped, starting to buckle and under a great deal of pressure. I took approximately 10 moisture readings throughout the gymnasium. The readings included all corners of the gymnasium, the center court, and other areas. Typical readings for the Mid-Atlantic states during the month of September should arrange between 6.5% and 7.5% moisture content in the maple. I took readings with a Tramex Moisture meter. The meter incrementally reads the moisture as the probes are driven down through the floor. My lowest reading in the Maple Flooring was 11% on the top of the maple and 48.6% in the subfloor.

RECOMMENDATION & SCOPE OF WORK

When considering the amount of moisture received on the maple gymnasium floor and the moisture trapped in the floor system, I recommend the floor be removed and replaced. There is no way to dry this floor and return it to its pre-damaged condition.

Scope of Work:

- Demo single layer non-hazardous wood athletic system to Miller Sports supplied dumpster
- Move bleachers, to remain in room during renovation
- No concrete work included assumes 1/8" over 10' levelness
- Supply and Install flooring system to match existing species, size and grade.
- 6 mil poly vapor barrier
- ¼" white closed cell foam, ½" field constructed pine subfloor lattice system
- Oil based sealer and water-based finish coats
- Paint game lines to match existing layout
- Reuse existing black 4"x 3" vent cove base and supplement where needed.
- Reuse all existing aluminum thresholds

NOTICE REGARDING POTENTIAL PRICE ADJUSTMENTS

Subject to U.S. Tariff Policy and International Manufacturing Conditions

Please be advised that the pricing provided in this proposal/estimate is based on current market conditions and known import costs at the time of issuance. Due to ongoing fluctuations in U.S. trade policy, including the potential for increased tariffs on goods imported from certain countries, especially within the European Union and other key manufacturing regions, final project costs may be subject to change. This is particularly relevant for materials sourced internationally, including but not limited to athletic surfacing products (e.g., Mondo), flooring systems, specialty finishes, and custom components.

Important Considerations:

- Tariff-related surcharges imposed after the date of this proposal may affect the landed cost of materials.
- Significant changes in import duties, tariffs, or freight costs may require a corresponding adjustment to material pricing and potentially application to the project invoice(s).

Miller will communicate any known or anticipated cost changes promptly and work with you to explore options for cost mitigation where possible. We appreciate your understanding and partnership as we navigate this evolving and challenging economic environment. Our team remains committed to delivering high-quality results while providing transparency around cost impacts. If you have any questions or would like to discuss how tariff changes might affect your specific project, please contact us directly.

And the
Administrative Act 93 & Non-Instructional Administrative Groups

This Memorandum of Understanding between the Keystone Central School District (hereinafter "District") and the Keystone Central School District Administrative Act 93 & Non-Instructional Administrative groups (hereinafter referred to as the Act 93 Group) is entered into on the date of signature below.

It is understood and agreed that there is an Act 93 Plan between the District and the Act 93 Group and in effect from July 1, 2026 through June 30, 2029.

During the August 13, 2026 board meeting, the Keystone Central Board of Directors voted unanimously on a salary adjustment for two (2) cafeteria managers in the amount of ten thousand dollars ($10,000) each. The increase was the result of not filling a vacant manager position and those job responsibilities being redistributed to the current two (2) cafeteria managers; Taryn Helm and Esther Kramer.

Let it be understood and agreed upon by both parties that if in the future, the District determines, in its sole and exclusive discretion, that the two (2) cafeteria managers are unable to timely complete these additional responsibilities and the District is then required to hire another individual to complete any portion of these additional responsibilities, the District, in its sole and exclusive discretion, has the right to reduce the aforementioned Cafeteria Manager's salary by the $10,000 amount noted hereinabove.

The parties hereto have set their hands and seals on the day and year indicated below.
