### 2312 - **CLASS SIZE**

The Board of Education believes that many factors must be given consideration in the establishment of class size. All efforts will be made to maintain classes at a sound educational level. However, this provision in no way should interfere with the ability of the Board and administration to experiment with different forms of classroom instruction.

Recommended class sizes, other than special education classes are:

	<b>Maximum Size</b>	<b>Optimum Size</b>	<b>Minimum Size</b>
K-2	22	20	14
3-6	25	23	14
7-12 Lab Classes	24	22	12
7-12 Non-Lab Classes	30	25	12
4K	17	15	10

The District Administrator must approve any class that falls three (3) students above the maximum, or below the minimum class size. The District Administrator must also approve any class with less than ten (10) (excluding four (4) year old kindergarten) students or more than twenty-eight (28) (K-6) and thirty-three (33) (7-12) students.

The following considerations will be used when granting approval for classes above or below the recommendations above:

- A. Consideration will be given to those courses which are sequential in nature, such as Spanish I, II, III, and IV.
- B. Whether assistant time would improve the instruction of the class.
- C. Characteristics of special classes or special needs of students, such as vocational courses, advanced mathematics, science courses, or small group music instruction.
- D. Assessments of the community, local traditions, and current status of public opinion.
- E. Current and projected enrollment. (Class size might be low one year and projected to be higher the next year).
- F. The Board recognizes that these are guidelines and special circumstances or financial considerations may require class sizes even greater than the maximum or less than the minimum. Specific classes may be approved that are less than the minimum or greater than the maximum.
