VI. PUBLIC HEARING FOR PUBLIC TESTIMONY ON THE 2012-13 BUDGET

Chair Schuster opened the public hearing and announced that its purpose is to take comments on the approved budget for Fiscal Year 2012-13. No one offered testimony; Chair Schuster closed the public hearing.

VII. BUDGET ACTIONS – 2012-13 BUDGET

The approved budget was based on all employees having four furlough days during FY2012-13; however, the unions ratified and the Board approved contracts containing three furlough days for all employee groups (CEA, OSEA and non-represented). A resolution is needed to change the budget approved by the budget committee to reduce the number of furlough days from four to three, which will increase expenditures by \$168,546 to the General Fund, and increase the General Fund beginning fund balance by the same amount, to be funded by the additional State School Fund grant received in May 2012 for FY2010-12. The board may increase expenditures by up to 10% of the approved budget (ORS 294.435(2) and may therefore approve a resolution to increase the General Fund budget by this amount. The appropriations for other funds are not being increased due to the relatively small increases (less than \$10,000 for any other fund) that can be adjusted within the approved appropriations.

A. Motions to Revise Approved 2012-13 Budget**MOTION #26:**

It was moved by Director Donohue and seconded by Director Corrigan to add back the cost of one furlough day to the General Fund as follows: I move to increase within the General Fund Instruction (1000 Function) by \$122,284 and Support Services (2000 Function) by \$46,262, and to increase the beginning fund balance by \$168,546 for the purpose of reducing the number of furlough days to 3 days for all employee groups. **The motion was voted on and passed unanimously.**

B. Resolution No. 12-0601 To Adopt the Budget and Make Appropriations

(Filed as Supplemental Item #III-3 in the Official 2011-12 Board Minutes.)

MOTION #27:

It was moved by Director Donohue and seconded by Director Sauret to approve Resolution No. 12-0601 to Adopt the Budget and Make Appropriations based on three furlough days as follows: I move that the Corvallis School District budget for 2012-13 in the amount of \$103,538,179 be adopted, and that \$100,422,469 for the fiscal year beginning July 1, 2012, be appropriated for the purposes set forth in Resolution No. 12-0601. **The motion was voted on and passed unanimously.**

C. Resolution No. 12-0602 To Levy and Categorize Ad Valorem Taxes

(Filed as Supplemental Item #III-4 in the Official 2011-12 Board Minutes.)

MOTION #28:

It was moved by Director Corrigan and seconded by Director Donohue to approve Resolution No. 12-0602 to levy and categorize ad valorem taxes: I move that the Corvallis School District impose taxes provided for in the 2012-13 budget in accordance with Resolution No. 12-0602 as follows: Taxes at the permanent tax rate of \$4.4614 per \$1,000 of assessed value in support of General Fund operations and categorized under the Education Limitation; and Local Option Levy taxes at the tax rate of \$1.50 per \$1,000 of assessed value in support of General Fund operations and categorized under the Education Limitation; and Taxes in the amount of \$8,726,500 for the purpose of retiring bonded debt owed by the school district and categorized as "Excluded from the Education Limitation." **The motion was voted on and passed unanimously.**

XI. PUBLIC TESTIMONY

No testimony was offered.

XII. STAFF TESTIMONY

No testimony was offered.

XIII. SUPERINTENDENT'S CONTRACT AND EVALUATION

Chair Schuster read from the Board's evaluation of Superintendent Erin Prince, which had been compiled using input from all Board members.

MOTION #31:

It was moved by Director Donohue and seconded by Director Corrigan to approve the contract with Superintendent Erin Prince.

Director Rochester suggested that implementation of the longevity incentive, with which he completely agrees in principal, be postponed for one year because the District's employee groups have consented to major concessions that are a standstill in compensation and benefits; delaying Dr. Prince's longevity incentive would be mostly symbolic. He added that if the Board is agreeable, the year could be recaptured at a later date if funding is allowable.

Director Ball expressed agreement with Director Rochester's sentiments, adding that when both associations have accepted cuts to help the District, any kind of increase in benefit to executive contracts has to be looked at under a different lens than it would under other circumstances. She further suggested not approving the increase in vacation days because adding any kind of benefit at this time sends the wrong message. Director Ball pointed out, however, that Dr. Prince was the first person to step up and say she would take four furlough days, no COLA, and no increase in salary, which was a mark of stellar leadership.

Director Donohue referred to the longevity incentive, noting District precedent; it provides something in the future for service that's accrued over time. He added that there would be no cost in this year or next year. He noted that, given the cost and time it takes to recruit and get up and running a new superintendent, this incentive is something the Board can do now that

encourages Dr. Prince to stay in the District. Director Donohue said he would support the vacation days as proposed by Dr. Prince, adding that it's a bit of an increase in days but the cash out will save the District in the long run.

Director Corrigan said she completely agrees with Director Donohue's sentiments, adding that she can completely support the contract proposed by Dr. Prince, especially after having gone through the superintendent search process and knowing what a find Dr. Prince is. Director Corrigan added that Dr. Prince has already shown by example the concessions she is willing to make.

Director Sauret clarified that Dr. Prince's 2010-11 contract provided for a 20-day cash out of vacation at the end of employment; her proposed contract allows annual cash out of 10 days. Director Sauret referred to the increase of five days of vacation proposed by Dr. Prince, adding that his understanding is that other local superintendents receive that same amount of vacation. He commented that he would want to do anything to retain Dr. Prince's services, adding that the District is lucky to have her.

Motion #31 was voted on and passed 6-1, with Director Ball voting in opposition.

XIV. CONSOLIDATED ACTION

- L. Achievement Compact
(Filed as Supplemental Item #IV-12 in the Official 2011-12 Board Minutes.)

Held for Discussion: Director Ball referred to the targets in the Achievement Compact, opining that the OEIB was expecting districts to use the data they had on hand, not two year old data. She expressed her belief that the relevant data are in control of the district. She said she is uncomfortable submitting the Achievement Compact to the state due to the data the targets are based on and the methodology being used.

Director Donohue disagreed with Director Ball's assertions, noting that discussion at the recent OSBA listening session revealed that most districts will spend this year gathering data. He said that the OEIB is asking districts to develop an achievement compact at a point in time when they cannot: at the end of the year. He noted that the District doesn't have an opportunity to tie this back to the budget; we need to get started integrating these overall achievement goals with our Continuous Improvement Plan, our budget and our goals. He remarked that many districts are telling the OEIB that this is a "status quo year"; Corvallis is not. He opined that future targets

will be more accurate because we will have the data and the process that we don't have this year. He said he felt the achievement compact on the table was a reasonable response to the spirit of the program, the current situation, and the time of the year we're being asked to do this work.

Assistant Superintendent Kevin Bogatin clarified that the 3rd grade scores window closed on May 18 and that data is then submitted to the state. He added that the District must wait for the State to verify and vet the data through their own process; we won't receive the score report from the State until August.

Director Ball said she is shocked that the District doesn't have a data system that would allow us to figure out what proportion of our 3rd graders passed OAKS.

Director Donohue noted that the State would still want to compare our data with their own numbers. He cautioned against a process where we would apply a different metric using data that may or may not be consistent with the State's metric. He opined that the State may not interpret the data the same way we do; in the end, it's the State's interpretation that determines whether or not we have met our achievement compact. He remarked that he would rather use the State's numbers.

Elementary Curriculum Coordinator Amy Lesan clarified that there are a lot of opportunities for data entry errors in our systems in terms of categories, etc. She noted that staff spends hours throughout the summer on data verification before saying "this is a true and accurate picture."

Mr. Bogatin added that another example would be our current graduation rate. We have students who are one credit short but still fall within a four-year graduation cohort; however, they don't count until they have actually completed the final credit.

Director Ball said she has spent weeks listening to the OEIB's expectations for this first year; there has been the expectation that targets set in June and submitted to the State might be revised in the fall when confirmed data became available. She added that the State has expected all along that districts will use their own data resources to establish their targets; Corvallis School district hasn't done that and perhaps cannot. She opined that the District's achievement compact won't be acceptable to the OEIB, and pointed out that the Chief Education Officer can reject it.

Dr. Prince referenced a "white paper" that she had provided to Board members at the outset of the meeting, noting that many entities are seeking feedback from superintendents. (Filed as Supplemental Item #IV-13 in the Official 2011-12 Board Minutes.) She said it would be irresponsible for her to submit targets on the data that we have at this time when we could have meaningful discussion with our Leadership Team in the fall after obtaining confirmed data. She disagreed with the assertion that the State would reject the District's submission.

MOTION #33:

It was moved by Director Donohue and seconded by Vice Chair Rodman to adopt the K-12/ESD Achievement Compact for Corvallis School District as submitted by Dr. Prince.

Director Ball expressed concern in relation to the law that states that the Board would discuss the targets before submitting the Achievement Compact.

Director Sauret remarked that he doesn't have a problem approving the Achievement Contract as presented by Dr. Prince; the document shows targets that are moving forward, not status quo, and there's an understanding that the targets will be revised as appropriate.

Director Rochester said he looks forward to having a thorough discussion when we have definitive data. He added that he doesn't have a problem submitting this provisional report at this time; however, he would have a major problem if we somehow never got around to having a thorough and candid discussion about the goals and how we're moving to achieve them.

Motion #33 was voted on and passed 6-1, with Director Ball voting in opposition.

Q. Intergovernmental Agreement with the City of Corvallis for Easements for the Corvallis to Albany Trail Project (Filed as Supplemental Item #I-16 in the Official 2011-12 Board Minutes.)

R. Employment Contract – Assistant Superintendent

Held for Discussion: Director Ball asked that this item be held for discussion.

MOTION #34:

It was moved by Vice Chair Rodman and seconded by Director Donohue to approve both the Assistant Superintendent and the Human Resources Director contracts.

Director Ball said there's no question that Mr. Bogatin and Ms. Duvall do extraordinary service for the district; however, she feels that it would send the wrong message to add a TSA to their contracts.

Dr. Prince said the TSA was her idea; neither Mr. Bogatin nor Ms. Duvall would ever have requested it for themselves. Dr. Prince said she feels strongly about offering the TSA as a gesture for the increased workload these employees are assuming due to the loss of key positions within the district. She clarified that Mr. Bogatin and Ms. Duvall are taking one furlough day more than the rest of the staff; even with the TSA, it is the second rollback in a row for these two employees.

Vice Chair Rodman indicated support for the TSA, as did Director Corrigan.

Director Donohue said the contracts for Mr. Bogatin and Ms. Duvall are a net reduction in compensation, even with the TSA.

Director Rochester said that if he were consistent with his request to postpone the superintendent's longevity clause, he would ask for a delay in implementing this extremely

modest request for a TSA; however, he won't do that. He said he does make a distinction between a person who has supreme, overarching authority; Mr. Bogatin and Ms. Duvall don't.

Director Sauret said he supports the contracts and would hope that CEA and OSEA wouldn't see this as a hit against them. He added that he doesn't see the amounts involved as material and significant, although he can see Director Ball's point.

Director Donohue said that both CEA and OSEA have taken a zero line increase; anything above a zero line for Mr. Bogatin and Ms. Duvall would have concerned him. He added that he can understand how these inexpensive changes will help grow the superintendent's Executive Team.

Chair Schuster reiterated that Mr. Bogatin and Ms. Duvall are taking four furlough days instead of three, and their workload is going up.

Motion #34 was voted on and passed 6-1, with Director Ball voting in opposition.

S. Employment Contract – Human Resources Director

Board of Directors

BOARD MEETING DATE: August 20, 2012

FOR ACTION

SUBJECT: Board Policy—EBB—Integrated Pest Management—New—Second Reading

Issue: The 2009 Legislature passed Senate Bill 637 requiring districts to adopt an integrated pest management (IPM) plan and policy that identifies an Integrated Pest Management Plan Coordinator and their responsibilities. The IPM plan adopted in the policy becomes the internal integrated pest management plan.

Options Considered: Not adopting the policy.

Involvement: District office staff

Consequences: The district will be out of compliance with Oregon law.

Cost Impact: None

ACTION REQUESTED: Adopting the policy.

CONTACT PERSON(S): John Meyer, Kerry Richey

Integrated Pest Management

To ensure the health and safety concerns of student, staff, and community members, the district shall adopt an integrated pest management plan (IPM) which emphasizes the least possible risk to students, staff, and community members and shall adopt a list of low-impact pesticides for use with the IPM plan.

The IPM plan is a proactive strategy that:

1. Focuses on the long-term prevention or suppression of pest problems through economically sound measures that:
 - a. Protect the health and safety of students and staff;
 - b. Protect the integrity of district buildings and grounds;
 - c. Maintain a productive learning environment; and
 - d. Protect local ecosystem health.
2. Focuses on the prevention of pest problems by working to reduce or eliminate conditions of property construction, operation, and maintenance that promote or allow for the establishment, feeding, breeding, and proliferation of pest populations or other conditions that are conducive to pests or that create harborage for pests;
3. Incorporates the use of sanitation, structural remediation, or habitat manipulation or of mechanical, biological, and chemical pest control measures that present a reduced risk or have a low-impact and, for the purpose of mitigating a declared pest emergency, the application of pesticides that are not low-impact pesticides;
4. Includes regular monitoring and inspections to detect pests, pest damage, and unsanctioned pesticide usage;
5. Evaluates the need for pest control by identifying acceptable pest population density levels;
6. Monitors and evaluates the effectiveness of pest control measures;
7. Excludes the application of pesticides on a routine schedule for purely preventive purposes, other than applications of pesticides designed to attract or be consumed by pests;
8. Excludes the application of pesticides for purely aesthetic purposes;

9. Includes school staff education about sanitation, monitoring, inspection and pest control measures;
10. Gives preference to the use of nonchemical pest control measures;
11. Allows the use of low-impact pesticides if nonchemical pest control measures are ineffective; and
12. Allows the application of a pesticide that is not a low-impact pesticide only to mitigate a declared pest emergency or if the application is by, or at the direction or order of, a public health official.

The district shall designate the Custodial Supervisor as the Integrated Pest Management Plan Coordinator and give them the authority for overall implementation and evaluation of the IPM plan.

Integrated Pest Management Plan Coordinator

The IPM Plan Coordinator shall:

1. Attend not less than six hours of IPM training each year. The training shall include at least a general review of integrated pest management principles and the requirements of IPM as required by Oregon statute;
2. Ensure appropriate prior notices are given and posted warnings have been placed when pesticide applications are scheduled;
3. Oversee pest prevention efforts;
4. Ensuring identification and evaluation of pest situation;
5. Determine the means of appropriately managing pest damage that will cause the least possible hazard to people, property and the environment;
6. Ensure the proper use and application of pesticide applications when non-pesticide controls have been unsuccessful;
7. Evaluate pest management results; and
8. Keep for at least four years following the application date, records of applied pesticides that include:
 - a. A copy of the label;
 - b. A copy of the Material Data Safety Sheet;
 - c. The brand name and USEPA registration number of the product;

- d. The approximate amount and concentration of pesticide applied;
 - e. The location of where the pesticide was applied;
 - f. The type of application and whether the application was effective;
 - g. The name(s) of the person(s) applying the pesticide;
 - h. The pesticide applicator's license numbers and pesticide trainee or certificate numbers of the person applying the pesticide;
 - i. The dates and times for the placement and removal of warning signs; and
 - j. Copies of all required notices given, including the dates the IPM Coordinator gave the notices.
9. Respond to inquires about the IPM plan and refer complainants to Board policy KL—Public Complaints;
10. Conduct outreach to district staff about the district's IPM plan.

VIII.D. Board Policy EGAAA—Reproduction of All Copyrighted Materials—
Revised—Second Reading

Corvallis School District 509J
Board of Directors

BOARD MEETING DATE: August 20, 2012

FOR ACTION

SUBJECT: Policy EGAAA—Reproduction of All Copyrighted Materials—Revised—Second Reading

Issue: OSBA has reviewed our policy handbook and has made a number of suggestions for clean up and updating. This policy was missing some pertinent language with regard to “fair use” with regard to reproduction of copyrighted materials.

Based on Board member feedback, the definition of “fair use” has been expanded to include the following standards:

1. The purpose and character of the use, including whether such use is of a commercial nature or for nonprofit educational purposes—uses in nonprofit educational institutions are more likely to be fair use than works used for commercial purposes, but not all educational uses are fair use.
2. The nature of the copyright work—reproducing a factual work is more likely to be fair use than a creative work such as a musical composition.
3. The amount of and the significance of the portion used in relation to the entire work—reproducing smaller portions of a work is more likely to be fair use than large or essential portions.
4. The impact of the use upon the potential market for, or value of, the copyrighted work—uses that have no or little market impact are more likely to be fair than those that interfere with potential markets.

Options Considered: Not revising the policy.

Involvement: District office staff

Consequences: Policy will be missing some significant language.

Cost Impact: None

ACTION REQUESTED: Revising the policy.

CONTACT PERSON(S): Rob Singleton, Kerry Richey

Reproduction of all Copyrighted Materials

It is the intent of the Board to adhere to the provisions of the current copyright laws and Congressional guidelines.

The Board recognizes that unlawful copying and use of copyrighted materials fosters an attitude of disrespect for law which is in conflict with the educational goals of this school district.

The Board directs that district employees adhere to all provisions of Title 17 of the United States Code, entitled "Copyrights," and other relative federal or state legislation and guidelines related to the duplication, retention and use of copyrighted materials.

Employees who make and/or use copies of copyrighted materials in their jobs are expected to be familiar with published provisions regarding fair use and public display, and are further expected to be able to provide their supervisor, upon request, the justification, in accordance with current copyright laws and guidelines, for copies that have been made or used.

“Fair use” is a limitation and exception to the exclusive right granted by copyright law to the author of a creative work. Unless otherwise allowed as fair use under federal law, permission must be acquired from the copyright owner prior to reproduction of material in any form, including website links to copyrighted documents. Fair use is not a rigidly defined term. Fair use is based on the following standards:

1. The purpose and character of the use, including whether such use is of a commercial nature or for nonprofit educational purposes—uses in nonprofit educational institutions are more likely to be fair use than works used for commercial purposes, but not all educational uses are fair use.
2. The nature of the copyright work—reproducing a factual work is more likely to be fair use than a creative work such as a musical composition.
3. The amount of and the significance of the portion used in relation to the entire work—reproducing smaller portions of a work is more likely to be fair use than large or essential portions.
4. The impact of the use upon the potential market for, or value of, the copyrighted work—uses that have no or little market impact are more likely to be fair than those that interfere with potential markets.

If an individual questions the legality of duplicating materials or providing access through website links, he/she should seek permission from the copyright holders.

Unlawful copies of copyrighted materials may not be produced on district-owned equipment. Unlawful copies of copyrighted material may not be used with district-owned equipment, within district-owned facilities or at district-sponsored functions.

The legal and/or insurance protection of the district may not be extended to employees who willfully violate copyright laws. Employees in violation of copyright law may be required to remunerate the district in the event of loss due to litigation and may be subject to discipline up to and including dismissal.

A synopsis of pertinent copyright laws will be posted in each office, workroom, media center and computer laboratory throughout the district and in-service for all employees will be provided.
