- I. CALL TO ORDER AND ROLL CALL
- II. PLEDGE OF ALLEGIANCE
- III. COMMITTEE/BOARD MEMBER ITEMS
- IV. STUDENT REPRESENTATIVE REPORTS
- V. SUPERINTENDENT'S REPORT

- VI. STAFF AND PUBLIC TESTIMONY - (20 minutes)
Please note: To indicate your desire to testify, complete a request card at the meeting and turn it in to the Board Secretary before the meeting begins. See attached guidelines for providing input to the School Board.

Corvallis School District 509J

How to Provide Input to the School Board

Effective 10-08-14

The Corvallis School Board values the opinions and input of community patrons. As such, the purpose of this document is to provide general guidelines about how to make the most of your time when communicating with the School Board. The public may offer public testimony during certain School Board meetings or correspond in writing via email or U.S. mail, as outlined below.

I. Public Testimony

Members of the public have the opportunity to share their ideas and opinions with the Board during the agenda item labeled *Public Testimony*. These opportunities are offered only at certain School Board meetings.

To request the opportunity to offer public testimony

- A. Complete a *Request to Address the Board* card, which can be found on a table at or outside the entrance of the meeting room.
- B. Complete all requested information. The Board Secretary will notify you if any information has been omitted or is unclear.
- C. Be specific regarding the topic about which you wish to speak. The Board Secretary will contact you if the topic is unclear or too general.
- D. Give the completed Request to Address the Board card to the Board Secretary at the head table **before** the meeting begins.
- E. Failing to fully and clearly complete the card and/or to submit it to the Board Secretary before the meeting begins may affect your opportunity to testify at the meeting.

Rules for Public Testimony

1. If you're called to testify:
 - Proceed to the podium in front of the Board.
 - Only one person at a time will be allowed at the podium, with exceptions at the board chair's discretion.
 - State your name and address, and the topic you will address before you begin.
 - These are a matter of public record and will not count against your time.
 - Exception: Current students may omit their address but should state the school they attend.
2. Direct your comments to the Board. The Board Chair will refer any questions or requests for action to the proper person for a response at a later date.
3. Keep your comments to the specified time allotted.
 - You will be signaled when you have 30 seconds remaining.
 - You will be signaled when your time is up.
4. If others have testified before you about the same issue, please state that fact and either decline to testify or limit your comments to points not already stated.

Corvallis School District

How to Provide Input to the School Board

Page 2

5. If a group wishes to speak:
 - Please designate one spokesperson for the group; that person will stand at the podium.
 - In order to maintain the meeting schedule, repetitious comments will not be permitted.
6. Speakers may offer objective criticism of district operations and programs but the Board will not hear complaints concerning individual district personnel.
 - Any such complaints must be handled following the steps outlined in policy KL and administrative regulation KL-AR, copies of which are available during meetings at which public testimony is allowed, or online at <http://policy.osba.org/corvall/KL/index.asp>.
 - Complaints regarding budget, programs, or other district issues also should be handled by first following the steps outlined in policy KL.
7. Undue interruption or other interference with the orderly conduct of Board business cannot be allowed.
 - Defamatory or abusive remarks are always out of order.
 - The board chair may terminate the speaker's privilege of address if, after being called to order, the speaker persists in improper conduct or remarks.

Important information

- A. The board secretary will sort the *Request to Address the Board* cards, which are complete and were received before the meeting begins, into sets by topic, then will shuffle each set and place them face down at her place.
- B. When it is time for public testimony, the board secretary will draw one card from each set, in turn, and announce the name of the person who will be called up to testify.
- C. If you are called upon to testify, you will be allowed only a small amount of time to do so; usually three minutes are granted, but it could be less at the discretion of the board chair.
- D. If more testimony requests are submitted than can be accommodated during the allotted time on the board's agenda, you might not be called upon to provide your testimony. In that case, please refer to section II – Written Correspondence, should you wish to provide your comments in written form.
- E. When you testify, your name, address and testimony are matters of public record, except for student addresses.
- F. Although it is not required, you may wish to prepare a written outline for your comments or to write out your testimony in its entirety.

Corvallis School District

How to Provide Input to the School Board

Page 3

- G. Although providing a written copy of your testimony is not required, should you wish to provide it:
- Please include your name, address and telephone number on the document.
 - You may either provide the board secretary with one copy of your written testimony to distribute at a later date, or you may bring 13 copies to the meeting for the board secretary to distribute to those at the head table.
 - One copy will be filed as part of the official board record.
 - The same holds true for any handouts you wish the board to receive.
- H. If you wish to submit a letter or any form of written comments:
- Copies will be provided to all board members and key staff members.
 - The document will be kept in the district office as part of the official board record.
 - Letters, emails and other written materials are considered public record.

II. Written Correspondence

Letters, emails and other written materials submitted to the Board are considered public record. In lieu of public testimony, you may send a letter via U.S. mail to: Corvallis School Board, Attn: Julie Catala, P.O. Box 3509J, Corvallis, OR 97339. Also, you may send an email to: schoolboard@corvallis.k12.or.us. This will send your e-mail to all board members at one time. Others who will receive emails sent to this address: superintendent, assistant superintendent/student services director, human resources director, finance and operations director, and executive assistant to the superintendent and board of directors.

III. Telephone Communication

Citizens also may contact board members by telephone:

Vincent Adams	541-738-4324 or 541-240-4055
Judy Ball	541-758-1671 or 240-997-1222
Beth Heaney	541-738-0918
Bill Kemper	541-754-0943 or 541-740-0728
Felicia Reid-Metoyer	541-250-0352
Chris Rochester	541-224-1880
Tom Sauret	541-758-2244

Introduction: Linn Benton Lincoln Education Service District

LBL comprises 12 component school districts and approximately 34,000 students in Linn, Benton and Lincoln counties. LBL also serves students and districts elsewhere in Oregon through grants and contracts. Its governance structure includes a seven-member Board. LBL has an annual budget of approximately \$48 million and work force of approximately 200 employees.

LBL serves educational agencies, districts, and schools across the state with high-quality services, and programs that are practical, reliable and economical. LBL has a distinguished reputation for supporting educational excellence and equity, working cooperatively with educators and educational agencies, and effecting productive solutions that help schools, teachers, students and families meet Oregon's educational goals.

LBL Programs Include:

- Administrative Services – Providing a Full Range of Business Office Functions and Business Information Systems
- Cascade Regional Program - Services for Low Incidence High Needs Students in Vision, Hearing, Orthopedic Impairment and Autism
- Early Intervention/Early Childhood Special Education - Providing Early Intervention and Early Childhood Special Education Classrooms
- Information Systems - Student Information Systems Suite, Help Desk Support, Student Achievement and Instructional Technology
- Long Term Care and Treatment Education Program - Education Services for Students Placed in Residential and Day Treatment
- Network and Facility Services - Wide and Local Area Networks, Data Center Services and Facilities Management
- Special Education and Evaluation Services – TAG, Special Education, Education Evaluation and Consultation Services for Students
- Student and Family Support Services - Attendance and Behavior Support for Students and Families

LBL Vision

To be a responsive and transparent organization that supports districts in helping every child succeed.

LBL Values

- Success for all students;
- Relationships that are built on trust, responsiveness and honesty;
- The Four “E”s of Excellence, Equity, Efficiency and Effectiveness;
- Accountability!

LBL Agency Goals

Goal 1. Support success for all students by delivering excellent, equitable and efficient services.

Goal 2. Foster positive relationships by strengthening communication systems within the agency, with component school districts and with other organizations.

Goal 3. Pursue long term financial stability.

Governance

LBL Board of Directors, Superintendent, and staff serve districts, schools and students by providing flexible, effective, and efficient educational services.

2014-2015 Resolution for the Local Service Plan

Valley Coast Superintendent Association (VCSA)

Resolution Service Allocation

At least 90% of the annual State School Fund (SSF), Property Tax and other qualifying resources allocated to LBL will be expended on resolution services. Services will be provided on a two-tiered basis.

Tier 1 Resolution Services

Tier 1 contains services that are available to all 12 districts and are determined as being essential to all districts. Approval will be a unanimous vote to sustain or add to Tier 1 services. The emphasis in Tier 1 is on achieving the greatest economies of scale and assuring equity of access. Tier 1 services are fully funded out of the 90% of the SSF allocation. Service decisions are made for a two year period. However, if a service is provided through a contract that LBL holds with a third party vendor, the term of that contract will take precedence.

- Business Information System
- Student Information System Suite
- TIENet Special Education Records System
- Data Warehouse
- Help Desk
- Network Support Services Including Wide Area Network Operation
- Network Systems Analysts
- Education Evaluation and Consultation Center (School Psychologists, Speech Language and other special education assessment personnel) includes EI/ECSE Evaluations
- Severely Disabled Support and Consultation
- Interpreter/Translation Services for Special Needs Families
- Home School Registration and Assessment Tracking

Tier 2 Resolution Services

Once Tier 1 funds are allocated, the remaining balance is used for Tier 2 services. 98% of Tier 2 funds are allocated based on the ADMw of the 12 component districts using the final estimate for the May 15, 2012 SSF. The amount is rounded to the nearest whole percentage, not less than 1%. The remaining 2% of Tier 2 funds will be distributed as a beginning fund balance each year. Once established, the Tier 2 ADMw calculation does not change over a two year period in order for districts and LBL to maintain a stable program. LBL and its component school districts will stay within the constraints of our agreements, yet provide flexibility in the use of funds. We further agree to:

Changes in Tier 2 resolution services are negotiated by each district between the LBL superintendent and local superintendent based on individual need and within the following criteria:

- Assist component school districts in meeting requirements of state and federal law
- Improve student learning
- Enhance the quality of instruction provided to students
- Provide professional development to component school district employees
- Enable component school districts and the students who attend schools in those districts to have equitable access to resources
- Maximize operational and fiscal efficiencies for component school districts
- Service decisions will be made prior to May 1st of each year when possible
- Estimates of available resolution funding will be provided in April

While every attempt is made to achieve economies of scale in Tier 2, the emphasis is on customizing a service package for each district. Tier 2 services do not require participation by every school district in the region. The emphasis is on the development of consortia of districts utilizing a given service. These consortia may, and most likely will, utilize a variety of funding resources, including resolution service resources, to fund services. The cost of Tier 2 services will be based on the districts ADMr where applicable. Additionally, LBL Tier 2 resources, may be used to acquire services with contractors other than LBL if the service is not provided by LBL.

Amendments to the Local Service Plan

If the component school districts approve an amendment to a local service plan, the board of an education service district may amend a local service plan that has been previously adopted by the board and approved by the component school districts.

By _____ School District

LBL Board Chair

Date

School District Board Chair

Date

LBL Planning Calendar for Developing and Approving Resolution Services

* **September and October**

Visit and interview districts to discuss service level satisfaction, performance measures, and emerging needs. Survey electronically as needed.

* **November**

Present VCSA with draft resolution plans for the next biennium. Revise the local service plan as described under ORS 334.175(1) and with input from superintendents.

* **December**

VCSA Superintendents review each service provided in detail and the upcoming year's estimated costs included in a draft of the next Local Service Plan.

* **January**

VCSA finalizes services and agreements for local service plan under ORS 334.175(1) that will be taken to LBL Board of Directors for adoption for the biennium.

* **February**

After being adopted by the LBL Board of Directors the local service plan is approved on or before March 1 by resolution of two-thirds of the component school districts that are part of the education service district and that have at least a majority of the pupils included in the average daily membership of LBL. Adoption by component district boards shall occur during February or by March 1st.

* **March**

Notify LBL staff of changes in service requirements as established in the Local Service Plan.

* **April and May**

LBL acquires the necessary staffing, equipment, and technology to deliver the services required or services are brokered through other sources.

Assessment of Services: Regional Advantage and Infrastructure Capacity

- LBL can provide the service more **efficiently** due to regional presence
- LBL can provide the service more **effectively** due to regional presence
- ESD has existing capacity to add proposed service
- Proposal includes expansion of LBL capacity as needed in order to provide proposed service

Administrative Services

Business Services

The LBL ESD Business Service Department provides services to assist schools, districts, and LBL in day-to-day business operations.

Service Description	Funding Source	Performance Measure	
Business Services Delivery and support of Infinite Visions business information system software (including help desk) and all business functions to LBL.	Non-Resolution Funds Generated from 10% of State School Fund and Indirect Fees on Services	Agency Goal #3 Pursue long term financial stability.	Program Goal Retain current and expand future BIS customer base to insure long term viability.
Courier Service Delivery of goods and equipment to component districts via a twice-weekly schedule.	Non-Resolution Funds and Tier 1 Resolution Funds		
Business Information System Delivery and support of Infinite Visions business information system software (including help desk) to component school districts.	Tier 1 Resolution Service Customer Service Representatives, Licenses and support staff.	Output Measure: Increase number of districts acquiring LBL BIS services from the current count of 31. Conduct an annual customer satisfaction survey. Satisfaction Measure: Customer satisfaction survey will reflect a 95% level of satisfaction with support services received and identify areas of future focus.	
Business Information System Delivery and support of Infinite Visions business information system software (including help desk) to the following non-component school districts: Athena Weston Morrow County North Central ESD Condon Woodburn Milton Freewater Mt. Angel Eddyville St. Paul Falls City Springfield Gervais Siletz Charter Jefferson Pleasant Hill Klamath Falls Pilot Rock	Non-Component District Contracts BIS Customer Service Representatives, travel, software licenses, supplies and fees.		
Business Administration Services Assist districts to prepare and maintain budgets, meet audit and ODE reporting requirements, and maintain general ledger, Process payroll, A/P, reconcile employee benefits, prepare tax payments, process PERS payments. <i>Component Districts Served:</i> Sweet Home and Lincoln County School Districts <i>Non-Component Districts Served:</i> Eddyville Falls City School District Siletz Charter	Contracts or through Tier 2 Resolution agreements Payroll and Accounts Payable Clerks, and travel.	Impact Measure: - BIS software and support services will be low cost, efficient and effective. - Increased long-term financial viability of regional services.

- Regional Advocacy

Why Regional Services?

ORS 334

1. Ensure an equitable and excellent education for all Oregon students;
2. Implement the Oregon Educational Act for the 21st Century and subsequent educational initiatives;
3. Foster the attainment of high standards of performance by all students in Oregon public schools;
4. Facilitate inter-organizational coordination and cooperation among educational, social service, health care and employment training agencies.

Goals and Services

ORS 334

Six Defined Goals Center On:

- Supporting Instruction
- Enabling equitable access to resources for students
- Maximizing operational and fiscal efficiencies

Required Services

- Programs for students with special needs
- Technology support
- School Improvement services
- Services that consolidate functions, ex. business services
- Liaison between districts and Oregon Department of Education
- Home School registration
- Other services required by Law

Governance

ORS 334

1. Governed by a publicly elected Board of Directors; seven member board
2. Budget Committee comprised of Board members from component school districts
3. Local Service Plan drives services; Developed by Superintendents from component school districts; Approved by LBL ESD Board and Component School District Boards.

LBL Programs

- 1. Administrative:** Superintendent, Human Resources and Business Office - Full Range of Business Office Functions and Business Information Systems
- 2. Information Systems:** Student Information Systems Suite, Help Desk Support, Curriculum/Instructional Technology, Special Education Record Management
- 3. Network and Facilities:** Wide and Local Area Networks, Data Center Services, Computer Support and Facilities
- 4. Special Education and Evaluation Services:** Education Evaluation and Consultation; Talented and Gifted; Severe Disabilities; Response to Intervention; Transition; Interpreter/Translator

LBL Programs

- 5. Student and Family Support :** Behavior, Attendance, Family Support Liaison; Administrative Medicaid Billing; Home School
- 6. Cascade Regional Services:** Services for Students with Low Incidence Disabilities: Vision, Hearing, Orthopedic and Autism; plus audiology and augmentative communication
- 7. Early Intervention/Early Childhood Special Education:** Evaluation and Special Education Services for children birth to 5 years
- 8. Long Term Care and Treatment Education:** Residential and Day Treatment Education

Corvallis Services

District Service Summary

- Lists all LBL services provided to Corvallis
- Includes funding source, contact, service provider
- Provided each fall

Summary: Total of 39 types of services provided.

Additional services contained within those 39

LBL Tier 1 Services

- **Business Information System**
- **Special Education Evaluation**
 - K-12
 - Birth to 5 year olds
 - Audiology
- **Severe Disabilities**
- **Network Services**
 - Wide Area Network Operation
 - Network Systems Engineers

LBL Tier 1 Services

- **Student Information System Suite and Support**
 - LBL WebSIS
 - Pinnacle Gradebook
 - SILK Scheduler
 - eVisions/Argos
- **TIENet Special Education Records System**
- **Curriculum and Instructional Technology**
- **Home School**

Corvallis Tier 2 Services

2014-15 Allocation - \$798,427

- **Behavior Specialists**
- **School Psychologist**
- **Library Media Specialist**
- **Extended Learning Paraprofessional**
- **Augmentative Communication Specialist**
- **Occupational Therapists**
- **Speech/Language Pathologist**
- **Programmer**

Corvallis Tier 2 Services

- **Network Support**
 - Email Archiving
 - iBoss Licenses/CIPA Filtering
 - Internet Service Provider - Bandwidth
- **Business Support**
 - Enterprise Scenario Planning Software
 - InTouch Accounting Module
- **Records Management**
 - Section 504 and Spanish Translation Modules

Pinnacle Grade Book

- **Advantages**

- Interconnects well with the LBL WebSIS
- Feature rich - best product to support standards based learning and proficiency based grading.
- Allows for data interconnectivity – example: can see student grades in other classes, if districts choose
- Allows customization of reports - example: several districts have customized report cards printed directly from Pinnacle
- Allows students and parents to view attendance, grades and standards scores securely on the web and receive email notifications for attendance and grades

Pinnacle Grade Book

- **Recent Challenges**

- Pinnacle Internet Viewer (PIV) Log In
- Duplicate Attendance in PIV and Student Explorer
- Grade Level “UN”
- Support as of July 2015

- **Lessons Learned**

- Over communicate
- Primary Communication Contact in District
- Additional Training – new or infrequent users
- Clarification on Help Desk

LBL Network Services

- **Current Focus**
 - Increased Bandwidth Capacity
 - iBoss – New CIPA filtering product
 - Tablet (iPad) remote filtering
 - Stronger Customization
 - 1:1 Device Implementation
 - WiFi Upgrades

LBL Technology Service Plans

- **Student Records Management –Monitor Options**
 - Gradebook/Attendance
 - Scheduler
 - Attendance
 - Data Warehouse
- **Complete On-Line Registration RFP by spring 2015**
- **Continue to support implementation of student 1:1 devices, including Wi-Fi upgrades**
- **Technology Audit**

2015-16 Budget Parameters Discussion

Board Meeting – December 15, 2014

DRAFT

For consideration of the
School Board 12-15-2014

***Tonight's Objective:** To adopt budget parameters for staff to utilize in building the proposed 2015-16 budget

***Summary:** District staff seeks your input and guidance, which will establish the framework for building the 2015-16 proposed budget. I have outlined the topics for discussion below, along with my recommendations based on discussions with staff and the Finance Workgroup, for your consideration.

***2015-16 Budget Assumptions:**

- 1) Full School Year.
 - 2) Stable Enrollment.
 - 3) Stable to modestly rising State School Fund.
 - 4) Continued slow recovery of local option levy revenue from tax compression.
 - 5) Continued state economic recovery, but no significant changes concerning state taxation and retirement system, or Corvallis housing and taxation policies.
 - 6) Continued significant number of low and very low income students with resulting requirements for resources.
-

***Proposed 2015-16 Budget Parameters:**

- 1) Current requirements will not exceed current resources with a focus on long term sustainability.
- 2) Personnel costs will not exceed 85% of operating resources.
- 3) Agreements with employee associations will be aligned with available current resources.
- 4) Continue all-day kindergarten district-wide.
- 5) Equity will be considered in resource allocation.
- 6) The district will continue to maintain the PERS litigation set-aside until all said litigation has been resolved. At that time, the Board will then establish a policy regarding the use of these funds.
- 7) The district will re-build the Rainy Day Fund to the Board policy level of 5% of current resources by June 30, 2018. The other two reserve accounts will be maintained at policy levels (2.5% for Contingency and 5% for Unappropriated Ending Fund Balance).
- 8) The primary criteria for technology expenditures will be academic achievement and infrastructure reliability.
- 9) Carry over Policy: Schools and departments may carry over up to 25% of their unspent 2014-15 allocations into 2015-16 as has been the practice the past two fiscal years. The Board will continue to grant the Superintendent discretion to approve a maximum 50% carry over on a case by case basis.

Corvallis School District 509J

Budget Notes – December 15, 2014 Board Meeting

Compiled by Steve Nielsen, Finance and Operations Director

The Governor's recommended 2015-17 biennial budget was released on December 1, 2014 and fails to keep up with inflation, much less increased investment in K-12 education. His proposed state school fund (SSF) allocation of \$6.91 billion represents a 3.9% increase over the 2013-15 actual allocation of \$6.65 billion. Upon closer examination, however, this is not an apples-to-apples comparison. The \$6.91 billion proposed SSF includes \$220 million in funding for all-day kindergarten, which reduces the base SSF to \$6.69 billion. The result is a meager increase of \$40 million, or .6%, over 2013-15. This is disappointing in light of the fact that state general fund revenues are projected to increase by 11% over 2013-15.

The Governor's recommended budget includes an additional \$354.8 million of non-SSF general fund dollars, which specifically target key investments managed by the Oregon Education Investment Board (OEIB), including: (1) Third Grade Proficiency Investment (\$83.2 million) - for improving integration between pre-kindergarten, kindergarten and first through third grade; (2) Kindergarten Readiness Investment (\$263.7 million) – this falls under the early learning part of the OEIB framework and includes funding for home visits, early learning hubs, childcare, kindergarten partnerships, early intervention and early childhood special education; and (3) STEM hub support and expansion Investment (\$8 million). More specifics on these investments can be found on pages B-29–B-31 of the Governor's proposed budget document. Links to both the complete budget and summary documents can be accessed here:

* [Governor's budget for 2015-2017](#) (Complete Document)

* [Budget Summary Document](#) (Budget Summary)

It's important to remember that the Governor's recommended budget is just the first of many steps in a long and tedious process. The budget will go through several iterations in the Legislature, which is ultimately charged with its adoption. The next step is the release of the Co-Chairs recommended budget, which is expected to be released in mid-January. This sets the stage for the Legislative session, which begins on February 2, 2015.

The Co-Chairs of the Joint Ways and Means Committee are once again Senator Richard Devlin and Representative Peter Buckley. This marks their third and fourth consecutive sessions, respectively, as Ways and Means Co-Chairs. Historically, the Co-Chairs have proposed higher funding levels for K-12 in their budget than the Governor's. That trend is expected to continue. Rough estimates point to a \$7.2-\$7.5 billion K-12 allocation in the Co-Chairs' recommended budget. There are upwards of 400 bills that may be introduced in this legislative session with impacts on K-12 education. District staff will keep a close eye on all the developments and keep stakeholders informed.

As for our process, staff are currently assembling 2015-16 enrollment and revenue projections as well as discussing priorities for next year. In January, we will meet with Principals and seek their input on equitable resource allocation and what they feel is needed to best support student success and close the opportunity gap. We will also discuss this at the January 26, 2015 Board work session.

Corvallis School District 509J

2015-16 Budget Parameters Discussion

Board Meeting – December 15, 2014

As approved by the School
Board on 12-15-2014

***12-15-14 Discussion Objective:** To adopt budget parameters for staff to utilize in building the proposed 2015-16 budget

***Summary:** District staff sought input and guidance to establish the framework for building the 2015-16 proposed budget. Topics for discussion and recommendations based on discussions with staff and the Finance Workgroup were provide for consideration.

***2015-16 Budget Assumptions:**

- 1) Full School Year.
 - 2) Stable Enrollment.
 - 3) Stable to modestly rising State School Fund.
 - 4) Continued slow recovery of local option levy revenue from tax compression.
 - 5) Continued state economic recovery, but no significant changes concerning state taxation and retirement system, or Corvallis housing and taxation policies.
 - 6) Continued significant number of low and very low income students with resulting requirements for resources.
-

***2015-16 Budget Parameters:**

- 1) Current requirements will not exceed current resources with a focus on long term sustainability.
- 2) Personnel costs will not exceed 85 percent of operating resources.
- 3) Agreements with employee associations will be aligned with available current resources.
- 4) Continue all-day kindergarten district-wide.
- 5) Equity will be a priority in resource allocation.
- 6) The district will continue to maintain the PERS litigation set-aside until all said litigation has been resolved. At that time, the Board will then establish a policy regarding the use of these funds.
- 7) The district will re-build the Rainy Day Fund to the Board policy level of 5 percent of current resources by June 30, 2018. The other two reserve accounts will be maintained at policy levels (2.5 percent for Contingency and 5 percent for Unappropriated Ending Fund Balance).
- 8) The primary criteria for technology expenditures will be academic achievement and infrastructure reliability.
- 9) Focus on K-3 literacy and math proficiency.
- 10) Carry over Policy: Schools and departments may carry over up to 25 percent of their unspent 2014-15 allocations into 2015-16 as has been the practice the past two fiscal years. The Board will continue to grant the Superintendent discretion to approve a maximum 50 percent carry over on a case by case basis.

Corvallis
SCHOOL DISTRICT

VII.D. Technology Security Audit

BOARD MEETING DATE: December 15, 2014

SUBJECT: Technology Security Audit

BACKGROUND INFORMATION:

Corvallis School District hired Virtual Security Research, LLC (VSR) to perform an application penetration assessment of its mobile device management (MDM) application.

The purpose of the assessment was to evaluate the District's implementation of the Casper Suite MDM application, analyze its security architecture, identify potential threats and test the likelihood or potential impact on confidentiality, integrity and availability of the MDM and iPads.

Following are two documents:

1. My summary, in lay terms, of the VSR executive summary.
2. The executive summary prepared by VSR. This is a much more technically-worded document.

CONTACT PERSON: Rob Singleton, Technology Services Manager

Executive Summary

VSR Findings Report: Application Penetration Assessment Casper Suite MDM

**Compiled by Rob Singleton, Technology Services Manager
Corvallis School District 509J
December 10, 2014**

Summary of VSR Findings Report:

Application Penetration Assessment Casper Suite MDM

GOAL

The purpose of this assessment was to evaluate the District's implementation of the Casper Suite MDM application, analyze its security architecture, identify potential threats and test the likelihood or potential impact on confidentiality, integrity and availability of the MDM and iPads.

TIMELINE

The project began August 18, 2014 and concluded on October 14, 2014. The Findings Report was delivered on October 24, 2014.

COMPONENTS

VSR was sent a District iPad with all the configuration profiles and restrictions of a typical student iPad. VSR was also given access to the District's hosted instance of the Casper MDM. JAMF Software also provided VSR with their own dedicated Casper MDM instance in their hosted environment for the purposes of testing cross-server vulnerabilities. The following areas were included in the tests:

- Auditing
- Authentication
- Authorization
- Availability
- Confidentiality and Integrity
- Deployment Configuration
- Design
- Implementation

RESULTS

VSR identified 10 issues. No issues were deemed high risk. Two issues resided directly within the Casper software. These will be reported to the vendor. Of the eight related directly to the District's deployment, four were rated "satisfactory" in the areas of Auditing, Availability, Deployment Configuration and Implementation; one was rated "fair" in the area of Design, and three were rated "needs improvement" in the areas of Authentication, Authorization, and Confidentiality and Integrity.

Below is a summary of the “fair” and “needs improvement” issues:

Area	Issue	Current Risk Level	Response Level & Status	Action
Authentication	Increase global proxy security using an outside certificate authority	Medium	Easy - Scheduled for Dec.	Consult with LBL ESD to issue an iBoss public/private key pair. Use Casper to push out public key to student iPads using DigiCert as signing authority.
Authorization	Change admin account used to proxy student account authentication	Medium	Easy - Scheduled for Dec.	Switch admin account to one with more limited access and privileges.
Confidentiality and Integrity	Encrypt requests made during student authentication	Medium	Easy - Scheduled for Dec.	Consult with LBL ESD to open ports to allow for switch to LDAPS protocol.
Design	Require student passcodes	Low	Easy – Completed in Oct.	Restriction pushed out to student iPads using Casper

FOLLOW-UP

Technology Department has already begun the process of addressing the recommendations included in the audit. In January 2015, VSR will perform a second series of tests with these changes in place and will produce a follow-up vulnerability assessment report.

**Prepared for Corvallis School
District**

Application Penetration Assessment
Casper Suite MDM

October 24, 2014

VSR

Executive Summary

Overview

Corvallis School District (Corvallis) engaged Virtual Security Research, LLC (VSR) to perform an application penetration assessment of the JAMF Software Casper JSS Mobile Device Management (MDM) suite. During the engagement, the security team reviewed the application components and deployed architecture for problems in the following areas:

- Auditing
- Authentication
- Authorization
- Availability
- Confidentiality and Integrity
- Deployment Configuration
- Design
- Implementation

The engagement began on August 18, 2014 and included approximately 10 person-days of effort in testing, analysis and documentation. Testing was conducted remotely via the Internet from VSR facilities and concluded on October 14, 2014.

This document summarizes the analysis, findings and recommendations of the product security team's assessment. Recommendations address both critical, short-term enhancements to be completed in the development phase as well as long-term strategic security considerations.

VSR identified several areas of functionality which would benefit from security enhancements. These vulnerabilities have the potential of impacting the *Confidentiality, Integrity and Availability* of the service offering and data contained within. In general, no high risk issues were identified relative to the deployment configuration, or the implementation. However, of the issues identified the highest risk issues stemmed from: use of an untrusted SSL certificate for the mobile proxy (which has since been fixed since it was originally identified); LDAP authentication which is performed in cleartext communication channels between the JSS server and Active Directory infrastructure, and using privileged domain administrator credentials; the failure to enforce complex passwords for staff user accounts; and potential impact to user privacy due to reliance on the mobile proxy. Two vulnerabilities were also identified in the JAMF software implementation relative to session management, which could potentially put administrators who use the application at risk to session hijacking vulnerabilities.

Overall, *ten* issues were identified, *zero* of which were deemed high risk. Out of *eight* evaluated Areas of Analysis, *four* were rated "Satisfactory", *one* was rated "Fair" and *three* were rated "Needs Improvement".

Assessment Summary

Application Assessment Process

An application penetration assessment is designed to highlight potential security vulnerabilities within the product based upon a defined threat-model. It is intended to identify design failure and unsafe coding practices, including but not limited to: authentication, authorization, session management, data validation, use of cryptography, error handling, information leakage and language-specific coding issues. VSR has assigned business risk ratings based on our current understanding of the application.

The assessment is not intended to provide a comprehensive security evaluation, outlining every instance of a given vulnerability; rather, it concentrates on highlighting areas of increased risk exposure, validating exploitation possibilities when feasible.

Summary of Issues Identified

VSR's evaluation of the Corvallis school district mobile device management (MDM) solution involved a review of controls associated with the JAMF software Casper suite deployment for potential settings that could compromise the infrastructure, application architecture, or user privacy. In addition, VSR's testing included penetration testing against the deployment and JAMF software's Casper suite product itself. In general the product was resistant to many common web application security vulnerabilities and provided controls that were in-line with competing MDM solutions, which provide the school district with the capability to monitor and manage Apple devices, enforcing a number of common security controls. Of the vulnerabilities observed, two were directly related to the JAMF software implementation associated with access to the web administration dashboard. These vulnerabilities included: session fixation, whereby the application assigns a session cookie prior to authentication that remains constant even after successful authentication; session cookies were also set without the "secure" cookie flag which could put them at risk to eavesdropping if the user were to attempt to access a plaintext instance of the management URL.

Overall, no major security vulnerabilities were identified, and of those observed none would contribute to vulnerabilities that could directly be exploited to impact systems, devices or user privacy. Of the vulnerabilities identified, a number of the issues pertained to deployment configuration. These deployment / system configuration weaknesses included: the use of domain administrative credentials to interact with Active Directory for user authentication; LDAP integration with Active Directory was performed over cleartext communication channels which could put those credentials at risk while in transit; early in the testing a self-signed SSL certificate was used for the mobile proxy, which could desensitize users to security warnings; staff user accounts did not enforce password complexity requirements.

Additionally, some of the vulnerabilities could have an impact on user privacy or expectations of user privacy. For example, user HTTP/HTTPS communications is proxied through a cloud-based proxy server to which users must authenticate prior to being able to interact with Internet services. The login page to which users authenticate does not contain any terms of service nor does it outline expectations for user privacy, even while connected to private networks. VSR also identified that iPads did not enforce any passcode security, potentially putting devices at risk to configuration modifications or software installation while the devices are left unattended. Some configuration settings could directly impact where user traffic is routed, and could potentially be configured to direct traffic to a system under an attackers control to passively monitor communications. In addition, software could be installed which could compromise the confidentiality and integrity of the device itself.

Recommendations

The following recommendations identify both short-term tactical fixes in addition to strategic fixes, or those which may take considerably more effort to implement. The Observed Vulnerabilities table (included later in this document) identifies the recommended course of action for each finding. Through remediation of the vulnerabilities identified, exposed components of the application will benefit from improved *Confidentiality, Integrity and Availability*.

Recommendations for action items are broken up into two groups, Immediate Actions and Long Term Actions. Recommendations that can be acted on immediately or that are considered crucial due to the nature of the vulnerability are considered Immediate Actions. Recommendations that will require significant work in planning or execution and may need to be implemented over a longer period of time are considered Long Term Actions.

Recommended Immediate Actions

- **Implement device passcodes to protect iPads while unattended.** Implement device passcodes, at a minimum consisting of the simple passcode and whereby devices are automatically locked after a short duration of inactivity of 15 minutes or less.
- **Update the proxy login page to include terms of service agreement.** Define the terms of service and include this on the login page for the mobile filter, requiring users to acknowledge privacy expectations.
- **Update LDAP configuration in Casper.** Configure the JSS server to utilize LDAPS (running on port 636), ensuring that credentials are never sent in the clear. Additionally, modify the account under which initial LDAP binds are performed to be performed using a service account with limited privileges to only search the Active Directory LDAP instance.
- **Work with JAMF software to address vulnerabilities related to session management.** Set the "secure" flag on all session cookies under HTTPS. This will protect user sessions from a well-known man-in-the-middle attack that can be used to hijack user login sessions. Ensure all user session identifiers are updated upon successfully authenticating to the application, to minimize the likelihood of session fixation attacks.

Recommended Long Term Actions

- **Modify Active Directory group policy settings for staff password enforcement.** Require high-complexity passwords of sufficient length to make guessing statistically difficult for attackers.
- **Consider additional policy enforcement to define a whitelist of applications permitted.** By enforcing a list of known good applications permitted on iPads, the school district may benefit from additional protection, confidentiality, and integrity controls on the devices and improved user privacy.
- **Address remaining medium and low impact flaws.** Often, multiple lower risk flaws can be combined, creating more serious attacks. Ensure all items listed in the report are scheduled for remediation within a reasonable time-frame.

Next Steps

Next steps to be performed by VSR include a retest of the application following remediation of identified high and medium risk vulnerabilities.

SUMMARY OF VSR FINDINGS REPORT

Casper Suite Mobile Device
Management (MDM)

Casper Suite

- ▣ Leading solution for management of devices on the Apple platform.
- ▣ Capable of handling a broad range of challenges, from standard to customized workflows.
- ▣ “Efficient and mature solution”.

Architecture

Test Live System

- Analyze security architecture
- Identify potential threats
- Test system for actual threats

Goal – Find Threats

“Identify security vulnerabilities and the impact of the most-likely and worst-case exploitation.”

Poor or improper server configuration or insecure code in the server software.

Detect Actual Threats

- ▣ Perform vulnerability scans
- ▣ Perform manual penetration testing:
 - Circumvent authentication and authorization
 - Circumvent application session management
 - Circumvent application trust boundaries
 - Break or analyze encryption of data
 - Escalate user privileges
 - Alter data or data presentation
 - Corrupt application and data integrity, functionality

Conclusion

- ▣ No high risk issues
- ▣ Issues detected are quick and easy to resolve
- ▣ Biggest risk to security is from within the District organization
- ▣ Least-likely risks are from outside the district

About CASE™ Score

Hide x

CASE is a research-based framework developed over a decade by educational researchers, K-12 practitioners, and higher-ed statisticians. CASE stands for Classroom, Access, Skills, and Environment. Taken together, these four areas encompass all of the factors that determine the effectiveness of technology in improving student achievement. Your score in each area falls into one of five categories: Beginning, Emerging, Proficient, Advanced, or Exemplary. These categories represent your school's maturity and readiness related to technology use and its impact on student outcomes within each area.

Focus Groups

- a. Internet Filter: Should the district block content beyond CIPA/COPA requirements? Outcome(s): Filtering guidelines by level (Elem, MS, HS); Social Media recommendation.
- b. Health: What potential health risks exist through the use of tablet devices? Outcome(s): Research overview of health concerns. Recommendation for teachers, students, & parents.
- c. Common Language & Vocabulary: What are the agreed upon language and terms that everyone should know and be able to understand? Outcome(s): List of common terms and definitions. + Review
- d. Board Policies & Technology Guidelines: Do our current policies sufficiently guide as at this time? Outcome(s): Review current policy, research other district's policies and develop recommended changes.
- e. Parental Controls: How can parents be provided more oversight of devices at home? Outcome(s): What parental controls are available for free and as paid? Recommendations for the Superintendent and/or parents.
- f. Communication: How should the district effectively communicate regarding district technology? Outcome(s): Review current communications, communication plan, & website. What recommended changes for immediate implementation, short-term, and long-term implementation.
- g. 1:World Evaluation & Device Research: How do we evaluate the goals of 1:World? Which device best meets the needs for elementary, middle school, and high school? Outcome(s): Evaluation metric recommendation, device research and possible pro/con.

Future Outcomes:

- 1. Recommendations to the Superintendent (See above groups)
- 2. Parent/Community Communication
- 3. Evaluation guidance
- 4. 1:World Phase IV Recommendation

VIII. CONSOLIDATED ACTION

VIII.A. Minutes

VIII.A.1. November 3, 2014

MINUTES
Regular Meeting of the
BOARD OF DIRECTORS
Corvallis School District 509J

I. CALL TO ORDER AND ROLL CALL

The meeting was called to order at 6:48 p.m. in the Board Room of the Central Administration Building, 1555 SW 35th Street, Corvallis, OR 97333. The secretary recorded those present as listed below.

<u>BOARD MEMBERS PRESENT</u>	<u>EXECUTIVE STAFF PRESENT</u>
Chris Rochester, Chair	Dr. Erin Prince, Superintendent
Tom Sauret, Vice Chair	Kevin Bogatin, Assistant Superintendent
Vincent Adams	Jennifer Duvall, Human Resources Director
Judy Ball	
Beth Heaney	<u>STUDENT REPRESENTATIVES PRESENT</u>
Bill Kemper	Rina Shirai, College Hill
Felicia Reid-Metoyer	Katie Kearns, CVHS

A quorum was present and due notice had been published.

- II. PLEDGE OF ALLEGIANCE** – Chair Rochester led the group in the Pledge of Allegiance. Chair Rochester noted a change that will be made to 10/13/14 draft minutes: removing Anne Schuster and Lisa Corrigan and adding Beth Heaney and Felicia Reid-Metoyer to the list of Board members present. When the minutes are voted on, this change will be incorporated.

III. ACTION ON MATTERS DISCUSSED IN EXECUTIVE SESSION

MOTION #10:

It was moved by Director Adams and seconded by Director Kemper that Mr. Fryman's appeal of the administration's resolution of his complaint against Kevin Bogatin be denied on the grounds that the District made a good faith effort to follow applicable procedures. The motion was voted on and passed unanimously.

MOTION #11:

It was moved by Director Adams and seconded by Director Kemper that Mr. Fryman's appeal of the administration's resolution of his complaint against Erin Prince be denied on the grounds that the District made a good faith effort to follow applicable procedures. The motion was voted on and passed unanimously.

Chair Rochester commented that the work continues on Administrative Regulation KL-AR to hone it to be the very tightest that it can be.

IV. COMMITTEE/BOARD MEMBER ITEMS

Board members shared highlights of their recent activities.

Chair Rochester read aloud a statement that he had submitted for the Good Words section of the Corvallis Gazette Times Newspaper, but which had never been published:

On behalf of the Corvallis School District and Board of Directors, I would like to thank the twelve remarkable people who submitted applications for election as interim school board members. The departure of two long-serving board members required us to elect two new members who will serve until June 30, 2015. At the School Board public meeting on September 22, Mary Elizabeth Heaney and Felicia Reid-Metoyer were elected. The other ten candidates were: Zel Brook, Katherine Bremser, David Coulombe, Sebastian de Assis, Adam Ghozeil, Al Hutchinson, Jim McCullough, Lynn Russell, Hal Salwasser and Janine Trempy. We deeply appreciate their willingness to serve our schools and bring their impressive experience and dedication to the community.

Chair Rochester read aloud a statement that he had prepared regarding the sale of the former Fairplay School building:

I was gratified to see that the Gazette Times reported in its News Trackers at the bottom of page 8 of the November 2 edition the final and definitive assessment by Benton County of the Fairplay School (now known as the Waldorf School).

I would like to very briefly add to the information reported by the Gazette Times.

At one point, the Benton County Assessor stated a market value of almost \$3,600,000 for the Fairplay property. The school district, which leased the school, viewed this market value and the associated assessment of the property as seriously flawed. We believed that the County Assessor was not in possession of critical facts concerning Fairplay, facts that had a significant bearing on the assessed and market values of the property. Details of these facts and a timeline of events can be found on the Corvallis school district website.

The school district did two things: we commissioned an independent private assessment of the school, and we brought to the attention of the County Assessor the material information that was not considered in the previous valuations. The independent assessment stated a market value of \$450,000. The County Assessor acknowledged that the previous valuations were flawed, and committed to carry out a new assessment.

Last month, the Benton County Assessor officially released the corrected valuations: an assessed value of Fairplay/Waldorf of \$435,309 and a market value of \$488,378.

At the request of the board of the Waldorf School, in 2013 the school district negotiated the sale of the property to the school for \$476,830. Now, it could be said that the sale price was more than the assessed value but less than the market value. I would point out that the Waldorf board was highly motivated to obtain ownership of the school, and that the negotiated sale price was at the extreme limit of the Waldorf community's financial capacity. In addition, I would note that while the school was leased the school

district bore responsibility for maintenance costs. This cost was not insignificant. About a year before the sale, for example, the school district repaired the roof of the Waldorf gym at a cost of \$126,000. The sale of the school to the Waldorf community relieved the school district and Corvallis tax payers of all future obligations to pay for maintenance of the school. The slight difference between the sale price and the final stated market value pales in comparison with downstream maintenance costs that the school district would have had to pay.

In conclusion, the Corvallis school district and board of directors fully and conscientiously fulfilled their fiduciary responsibilities. Anyone who asserts otherwise is either not in possession of the facts, or for reasons that are obscure is not prepared to accept the facts.

I want to commend the staff of the school district for scrupulously and professionally conducting the process from start to finish.

Today, the Waldorf School (formerly Fairplay) is owned and operated by its own community. The school district, which considers the Waldorf School to be a valued and trusted partner, has relieved the Corvallis tax payers of all future financial obligations concerning the school. The school district and the board sold Fairplay at a fair price.

V. STUDENT REPRESENTATIVE REPORTS – Student representatives provided highlights about the activities involving their schools.

VI. SUPERINTENDENT'S REPORT – Dr. Prince offered highlights from the past month and provided information regarding current and future initiatives.

VII. STAFF AND PUBLIC TESTIMONY

Katie Myers, French teacher at CVHS and CHS, played a short video advocating for world language instruction. She said that our students need to be biliterate and bicultural if they want to go into medicine, science, etc. and be players on the world stage. She opined that if we want to follow the Governor's 40-40-20 philosophy, we need to provide world language instruction.

VIII. SPECIAL REPORTS

A. Boys & Girls Club of Corvallis (BGCC) Teen Center Traffic Study

Facilities and Maintenance Supervisor Kim Patten briefly recapped the history leading up to this presentation, and referenced a prior presentation given by BGCC at the January 13, 2014 Board meeting.

Executive Director Helen Higgins, Operations Director Clay Higgins, and Facilities Committee Chair Bill Mercer, all from BGCC; Senior Transportation Engineer Mike Ard of Lancaster Engineering; Tom Gerding, builder; and Lyle Hutchens of DEVCO Engineering presented information regarding the

study and a revised teen center proposal. (Presentation is filed as Supplemental Item #V-3 of the Official 2014-15 Board Minutes.)

Board members asked questions about the traffic study and the revised teen center proposal. Board members raised concerns about the revised teen center proposal, especially relating to parking, field usage and traffic flow, and how they relate to student safety.

Ms. Higgins indicated the Club's desire for the Board to sign the modified conditional use application that would allow BGCC to begin the process of conditional use permitting through the City of Corvallis.

Ms. Higgins also requested a resolution of support from the Board by December 31, 2014 for the Teen Center Expansion at the Linus Pauling Middle School complex.

B. Technology Innovation Grant Recipient

Sage Randklev and Angela Apple, 3rd grade teachers at Wilson Elementary School, shared their plans for usage of the iPads they will receive through the District's Technology Innovation Grant.

C. Smarter Balanced Assessment Update

Curriculum Coordinator Rynda Gregory presented information on Smarter Balanced Assessment. (Presentation is filed as Supplemental Item #V-4 of the Official 2014-15 Board Minutes.) Additional input was given by Curriculum Coordinator Amy Lesan and Assistant Superintendent Kevin Bogatin.

Some of the information conveyed and responses to Board member questions included:

- Beginning this year, we will be assessing English language arts and math skills using the Smarter Balanced Assessment. The assessment is sometimes referred to as SBAC (for the Smarter Balanced Assessment Consortium).
- Field tests of approximately 7,000 students in Oregon were done by SBAC but the official outcomes won't be released until December.
- This year's seniors who haven't passed OAKS (Oregon Assessment of Knowledge and Skills) will be allowed to take it again; this is based on the Oregon Department of Education's (ODE) belief that these students were given certain instruction on Oregon Standards that were based on OAKS.
- The accommodations and supports for students are already outlined by SBAC.
- You are encouraged to take the practice test which is available online.
- It would be interesting to see if there are differences in the assessment results for K-3 students in 1:World schools because those students have more access to technology regardless of poverty level.
- We are working to determine which kind of device to use for SBAC: tablets with keyboards or computers.

- We have a strong network of assessment coordinators throughout the region who share their experiences and we are using their feedback in our decision making.
- Part of our decision making will be around ensuring that the device does not become one more obstacle to student success.
- Keyboarding is not mandatory in elementary school.
- We are waiting for SBAC to release its benchmarks; ODE will then determine its own benchmarks, which may or may not be the same as those for SBAC.
- We don't expect to receive the benchmarks before January.
- We will provide you with the field test newsletter which is put out by SBAC.
- We have not received an answer to the question of whether or not a junior who fails the SBAC will be able to take it again as a senior; therefore, we are having discussions with high schools about doing practice work samples with students throughout their middle- and early high-school years, and possibly banking successful work samples so students would have something to fall back on if they are not allowed to retake the test.
- SBAC won't be the primary way for students to demonstrate mastery of essential skills; it will be one of the ways. We are starting to develop multiple ways of passing essential skills, and making sure our students are well aware of what those opportunities are.

Chair Rochester commented that we have been teaching students more or less in one way; SBAC is assessing them in quite a different way. Dr. Prince said that for the past three years we have been working toward instructional strategies and moving to the Common Core State Standards, so our district is probably much better prepared than other districts that just started this year. Mr. Bogatin opined that SBAC better reflects how teaching goes on a day-to-day basis vs. a multiple-choice assessment. He added that it's rare that our teachers would use a multiple-choice assessment; they are using the standard of "show me what you know;" we are more of a performance-oriented organization and that is what SBAC will measure.

Director Adams asked what communication will be done with parents to ease their anxiety about the shift to SBAC. Ms. Gregory explained that ODE is creating talking points that can be used with students and families. She added that these communication tools will be shared with the Board once our principals have tailored them to our district.

D. Technology Update

Technology Services Manager Rob Singleton and Instructional Technology TOSA (Teacher on Special Assignment) Robbie Faith presented updates about technology infrastructure and programs, and technology professional development.

Some of their comments included:

- Technology Department staff spent last summer installing more than 200 access points as part of Phase 3 of 1:World. That infrastructure is working well.
- We have had very few issues with Wi-Fi, including Phase 2 sites.

- JAMF Software, the company from whom we purchase our mobile device management system, Casper, has worked with us on the issues relating to the system freezing up. Of all the technology companies that we get support from, JAMF Software has given us some of the best attention to their product that we've ever gotten from a vendor. They are not running away from the problem; they are working very hard to make it right for our district.
- We have been running without problem for a little over two weeks.
- We have been able to work on getting out the backlog of iPads.
- Pinnacle Internet Viewer (PIV) has been the highest profile issue this fall; it hasn't been flowing well from Linn Benton Lincoln Education Service District (LBL ESD) Web Student Information System (SIS) to the portal for parents.
- LBL ESD has reported that the issue has been fixed; we heard from a school registrar today that it's actually working in the "real world" (at school buildings).
- Pinnacle attendance information is still not summing days absent correctly; Scantron, the parent company, is still working on that issue.
- All the issues are with Pinnacle; all that LBL ESD staff are able to do is promote those issues to Scantron. We have been seeing updates and changes to Pinnacle as a result.
- The Technology Department continues to offer technology classes for all staff. Topics range from "How to use Moodle" to "SmartBoard training", all the way to specific software training, based on the need.
- We are also trying to embed the training into the schools, but will continue to provide it at the Western View Center.
- We commissioned a mobile device management (MDM) security audit as part of 1:World. It was conducted by Virtual Security Research (VSR). We received a report at the end of October and will be giving a detailed executive summary to the Board in December.
- A quick look at the report showed that there were no high risk vulnerabilities found.
- Our MDM vendor cooperated directly with VSR in the audit, so that product was directly tested with our implementation.
- Additionally, we wanted to do a general district network audit of our own systems and vulnerabilities and policies. That started this week. Structured Communications came down for a day to do some initial testing. We will do an executive summary to the Board, hopefully in December.
- BrightBytes is looking at the district data from its survey; there is a plan to present the data in December.

In response to a question from Vice Chair Sauret regarding the estimate for finishing the rollout, Mr. Singleton provided information including:

- Wilson Elementary School is getting its iPads tomorrow; that's the last major big push of iPads to that location.
- We're still working to get all of the apps on each of the iPads at all of the locations.
- This week we will finish at CVHS with the AVID (Advancement Via Individual Determination) classrooms; not all of the kids had their paperwork in last week, so we're finishing up this week.
- We're about two weeks behind with AVID because school staff wanted to establish the AVID curriculum before their students started using the iPads.

In response to a question from Chair Rochester regarding where Mr. Singleton would like to be looking ahead, Mr. Singleton's comments included:

- I'm extremely pleased with JAMF Software's response level to our specific concerns. It is 100% stable now for 100% of our devices.
- I would still like to be able to host it inside of our network; but JAMF is happy and willing to compensate us the difference in price not only this year but next year until they can fix the fault in their system. They've given us some breathing room.

Director Kemper asked Mr. Faith about what is in place to get at the "aha", the unintended usage, noting that it's the discovery that he is really eager to hear about. Mr. Faith noted that one of his big visions is developing an iTunes U course that would be a resource for 509J teachers, and a place to host discussions and share their "aha moments". He added that it just takes some time to get enough bulk and resources to make it worthwhile for teachers.

IX. CONSOLIDATED ACTION

In addition to the change in the October 13, 2014 minutes that was noted by Chair Rochester at the start of the meeting, Director Ball requested a change to portion of the minutes in which Love, INC. was recognized. The sentence needed to be completed. When the minutes are voted on, this change will be incorporated.

MOTION #12:

It was moved by Director Adams and Seconded by Vice Chair Sauret, to approve the Consolidated Action items. The motion was voted on and passed unanimously.

The following items were approved.

A. Minutes – October 13, 2014.

B. Licensed Personnel Recommendations

Termination/Resignation/Layoff/Retirement

- Kathleen Johnson: Special Education Teacher, 1.0 FTE, Lincoln Elementary School, effective November 7, 2014 (Resignation).

Information

- Alicia Ward-Satey: ELL-Equity Coordinator, 1.0 FTE, District Office, effective October 20, 2014 (Regular). Was Assistant Principal at Corvallis High School.

C. Board Policy JHCDA—Administering Injectable Medicines to Students—Revised—Second Reading – (Filed as Supplemental Item #VII-4 of the Official 2014-15 Board Minutes.)

X. CONSOLIDATED INFORMATION

A. Non-Licensed Personnel Information

Recommendation to Hire

- Ruben Almazan Zeferino: Educational Assistant 2/Lifeskills, 7 hrs, Corvallis High School, effective October 15, 2014 (Probationary).
- Heidi Blankenship: Food Service Assistant, 4 hrs, Linus Pauling Middle School, effective October 13, 2014 (Probationary).
- Vladimir Fox-Cisco: Food Service Assistant, 4 hrs, Central Kitchen, effective November 3, 2014 (Probationary).
- Deanna Lungren: Food Service Assistant, 2 hrs, Linus Pauling Middle School, effective October 17, 2014 (Probationary).
- Kathleen Nichols: Educational Assistant 2/LRC, 6.5 hrs, Corvallis High School, effective October 6, 2014 (Probationary).
- Niles Potts: Educational Assistant 2/LRC, 6.5 hrs, Crescent Valley High School, effective October 20, 2014 (Probationary).

Termination/Resignation/Layoff/Retirement

- Lauren Whipple: Educational Assistant 2/LRC, 6.5 hrs, Linus Pauling Middle School, effective October 28, 2014 (Resignation).

XII. ADJOURNMENT

There being no further business before the Board, Chair Rochester adjourned the meeting at 8:30 p.m.

Chris Rochester, Board Chair

Dr. Erin Prince, Superintendent
