## AASB POLICY REFERENCE MANUAL UPDATE SERVICE

### 2021 *Business and Noninstructional Operations* UPDATE

#### INSTRUCTION SHEET

NOTE: This packet includes only those policy manual pages that have been revised, deleted or newly established. Full text pages are included and are to be substituted as indicated below.

This update revises various board policies and administrative regulations in Series 3000 of the AASB Model Policies, *Business and Noninstructional Operations*.

For ease of School Boards, AASB has identified those portions of the Update that require formal Board action in order to implement the policy changes. This is indicated by a “Yes” or “No.” A “No” is used if changes have been made only to an AR or an Exhibit, or if policy changes are limited to explanatory notes, legal reference or cross-reference updates, or minor grammatical or stylistic changes that have not changed the policy meaning.

## BP 3470 FUND BALANCE CLASSIFICATION

**Note:** *This policy is consistent with the requirements of the Government Accounting Standards Board (GASB) Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. The policy allows a school board to have greater control over the district's fund balances by addressing the order of spending.*

*Neither this policy nor GASB Statement No. 54 preclude the calculation required to be made in the Auditor's Report on Fund Balance Compliance as required by 4 AAC 06.121(5)(A).*

The School Board desires to establish a fund balance classification policy tailored to the needs of the School District in a manner consistent with governmental accounting standards. As provided for in Governmental Accounting Standards Board (GASB) Statement No. 54, the School Board identifies the order of spending unrestricted resources applying the highest level of classification of fund balance, while honoring constraints on the specific purposes for which amounts in those fund balances can be spent.

It is the responsibility of the Superintendent or designee to make recommendations to the School Board regarding fund balance designations. Formal School Board action is required to establish, modify, and/or rescind a committed fund balance amount.

### Fund Balance Classifications

Fund balances will be classified as follows:

- A. Nonspendable fund balance – The nonspendable fund balance classification includes amounts that cannot be spent because they are either: (a) not in spendable form; or, (b) legally or contractually required to be maintained intact. This includes items not expected to be converted to cash, including inventories, prepaid expenses, supplies, and long-term receivables, and the principal of a permanent fund.
- B. Restricted fund balance – The restricted fund balance classification is utilized when constraints (restrictions) placed on the use of resources are either: (a) externally imposed by creditors, grantors, contributors, or governmental laws or regulations; or, (b) imposed by law through constitutional provisions or enabling legislation. This includes “categorical balances.”
- C. Committed Fund Balance – The committed fund balance classification reflects amounts that can only be used for specific purposes determined by formal action of the School Board. Commitments may be removed or changed by formal School Board action. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Any remaining excess fund balance in a special revenue or capital projects fund at fiscal year end shall be a committed fund balance and designated for the intended purpose of that special revenue or capital project fund. Such fund balances shall be carried over to the ensuing fiscal year as Committed Fund Balance.

- D. Assigned Fund Balance – The assigned fund balance classification reflects amounts intended to be used by the district for specific purposes. Intent can be expressed by the School Board or by the Superintendent, having been designated such authority. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed.
- E. Unassigned Fund Balance – The unassigned fund balance classification is the residual classification for the general fund and includes all amounts not contained in the other classifications. Positive unassigned amounts will be reported only in the general fund. If another governmental fund, other than the general fund, has a fund balance deficit, then it will be reported as a negative amount in the unassigned classification of that fund.

## **Spending Prioritization**

The order of spending regarding the restricted and unrestricted fund balances, when an expenditure is incurred for which both restricted and unrestricted fund balance is available, should first reduce restricted fund balance and then unrestricted fund balance. The order of spending regarding unrestricted fund balance is that committed amounts should be reduced first, followed by the assigned amounts, and then the unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

The School Board authorizes the Superintendent to assign amounts to a specific purpose in compliance with GASB 54. An unassigned fund balance should also be reported in the order of spending unrestricted resources, but is not restricted or committed.

## **Policy**

Alaska Statute AS 14.17.505 establishes that a District may not accumulate in a fiscal year an unreserved portion (as defined by 4 AAC 09.130) of its year-end fund balance in its school operating fund that is greater than 10 percent of its expenditure for that fiscal year.

## **Minimum Unassigned Fund Balance**

The District should maintain a minimum unassigned fund balance in its General Fund of 5 percent of the subsequent year's budget expenditures and out-going transfers. Board approval is required to go below 5 percent. This minimum fund balance is to protect against cash flow shortfalls related to timing of projected revenue receipts and to maintain a budget stabilization commitment.

**Replenishing deficiencies** – when fund balance falls below the minimum 3 percent range, the District should replenish shortages/deficiencies using the budget strategies and timeframes described below.

The following budgetary strategies shall be utilized by the District to replenish funding deficiencies:

- The District will reduce recurring expenditures to eliminate any structural deficit or,
- The District will increase revenues or pursue other funding sources, or,
- Some combination of the two options above
- Replenishment of funds may occur over a multi-year period

When an expenditure has been duly authorized and funding to pay for the expenditure is available within multiple fund balance classifications, the funding available in the most restrictive classification will be used first.
