Nome Public Schools
Superintendent Report
Jamie Burgess
August 8, 2023

Welcome back to a new school year!

Board/Leadership Areas of Focus:

Family Engagement

- Our “Attendance Matters” campaign will kick off this month with PSAs through our radio stations and media outlets, and inclusion of this in our Back to School advertisement in the Nome Nugget.
- Superintendent Burgess will oversee the initial invitations and solicitation for our Native Alaska Family Committee (NAFC), which will act as a review body for various state and federal grant budgets and programs, and provide recommendations from family members at all schools on programs and actions which better serve the needs of our Native Alaska families and students. We hope to hold our initial meeting in September.

Cultural Knowledge in Curriculum and Instruction

- I submitted a grant to the Rural Cap Thriving Communities program over the summer in an effort to find funding for the Cultural Coordinator, but our application was not selected for funding. Organizations are seeing record high grant requests from schools in Alaska due to the overall funding situation. The Governor’s vetoes to the one-time additional funding approved by the Legislature will make it difficult to fund that position out of our budget for this year. I plan to meet with Michael Hoyt at Kawerak to discuss how we might partner with Kawerak to work on our curriculum at all schools, and will also reach out to NEC and BSNC for possible collaboration ideas as well. I will have some information to share at our upcoming work session on curriculum.
- We were very pleased to have 8 staff members attend Culture Camp the last week in July! Mr. Pfau, our Assistant Superintendent, attended, as did 7 new teachers.

Equity Leadership

- I am pleased to announce that Dr. Janelle Vanasse, President of Alaska Pacific University and former Superintendent of Mt. Edgecumbe, has agreed to come to Nome as a keynote speaker for our inservice week this fall. In addition, Marjorie Tahbone will be providing a cultural orientation for all staff during inservice which will also introduce our new staff to the Katirvik Cultural Center as a resource for educators as well.

School Safety Update

We are in the process of conducting onboarding and build-out of our new crisis response plan software platform, and all staff will participate in a hybrid one hour training in the ALICE response system for violent intruders. We will follow up with training from Sergeant Barry with the Nome Police Department, and will have information to share with our families and community members as well.

Nome Public Schools Superintendent Report Jamie Burgess August 8, 2023

Work on the ADA/Security Access Upgrade project for the entrances to NES and Nome-Beltz has been delayed, but the project will be released for bid in the next month. We anticipate completion will be pushed to summer of 2024 due to anticipated supply chain delays for the new entrance doors. We will complete whatever aspects of the project that can be addressed over the school year.

Early Education Program Grant

We are pleased to announce we have received the regular Pre-K grant to support a certified teacher at Nome Preschool for three years. This staff member will also support the needs of Special Education children at both Nome Preschool and Kawerak Head Start under the oversight of a Special Education teacher or the Special Education Director.

School Start

We will be welcoming 18 new teachers this year, which will also include our first group of international teachers. The Alaska Reads Act takes effect this year, so there is a lot of preparation occurring by our elementary administrative team to comply with those requirements, including assessments, parental notifications, individual reading plans, etc. We are also pleased to have training from staff at the Department of Education on our Positive Behavior Intervention and Support (PBIS) initiative to better support our students who are struggling with inappropriate behaviors at school and in the classroom.

In addition, the incident with the severed Quintillion fiber optic cable is impacting our internet stability and bandwidth. Mr. Shreve has been working hard with our ISP to install a backup system which should be in place by the time teachers arrive, but until the cable is repaired, we may still have some impacts to our bandwidth and technology use in the classroom in order to ensure we can conduct our fall MAP testing.

National Superintendent Certification

I am pleased to announce that I have been accepted into the national superintendent association's (AASA) Superintendent Certification program beginning this fall. I was invited to attend by the Alaska Council of School Administrators, who offered to cover the cost of the program upon acceptance. ACSA has an initiative to provide professional development for Alaska superintendents in an effort to improve retention and recruitment, as Alaska experiences the same high rate of turnover in this position as is seen in principals and teachers. As part of the program, I will be required to develop a capstone project, and per the Board's request, this will focus on equity work. I will provide periodic reports to the Board throughout the course of the program.

Nome Public Schools Director of Technology Report

Jim Shreve
08 AUGUST 2023

The fiber optic cut has had a large impact on NPS over the Summer. Although we had redundant geo synchronous orbit satellite systems in place we have discovered several issues with them. The longer latency time of 600-800 milliseconds, speeds of 25Mbps down / 10 Mbps up, and issues with the mounting system at NES provided subpar service. Our Internet Service Provider is in the process of commissioning and preparing a OneWeb system for our use. The advantage to this system is that it is low earth orbit (LEO) which should give us latency times close to what we had on our fiber connection (60-70 ms) and speeds around 100 Mbps down and 25 Mbps up. Hopefully OneWeb will provide a solid enough signal to allow for near to normal operations. The last update I received on the fiber repair is that the vessel is supposed to arrive at the repair site around 14 August 2023 (weather and sea ice permitting).

I would like to welcome Elliott Weintraub as our new Systems Administrator. Elliott holds a Bachelor's of Computer Science and arrived in Nome 22July2023. He has hit the ground running, even with our internet glitches, he has completed his Google Admin training, provisioned 75 new ChromeBooks, rewired 4 computer carts as we swap from Chrapple-Airs to CTL ChromeBooks, and is assisting with updating teacher devices.

Completed Projects

Installation of environmental air quality sensors (Vaping) in public restrooms at NBMHS and NES restrooms are complete. The Tech Department got creative in the use of extension rods, magnets, hooks and steel fish tape to be able to pull network cable into the hardpan ceiling areas of NBMHS and NES restrooms.

PowerSchool End of Year processes are complete. The new School Year setup: scheduling at ACSA and NES is ongoing, NBMHS scheduling is mostly complete.

Wiring and transfer of devices into 5 new carts (3 at NES and 2 at ACSA).

Directory User account migration / settings adjustments for grade level and school changes.

In June/July we changed our Maintenance ticketing system to IncidentIQ Facilities. I spent a good portion of the month with the onboarding of the new system and capturing information for environmental / mechanical rooms assets.

Current projects

Wiring and transfer of 75 new ChromeBook devices into 4 carts at NBMHS.

Future Projects

Network diagraming for our entire network infrastructure in support of District Data Protection Policy.

Division of our large layer two network into multiple Virtual Local Area Network segments to improve speed and security of our connected devices and network as a whole. This will also allow better protection of NPS owned equipment from equipment joining the guest side of our network.

PowerSchool Online Enrollment

SY23-24 New Student Enrollment form is live. Returning Student form is rostered, we will email and hard mail invitations the week of 10 August 2023.

NO DATA captured for JULY2023 PowerSchool Student Information System Access data. PowerSchool use, by students and parents.

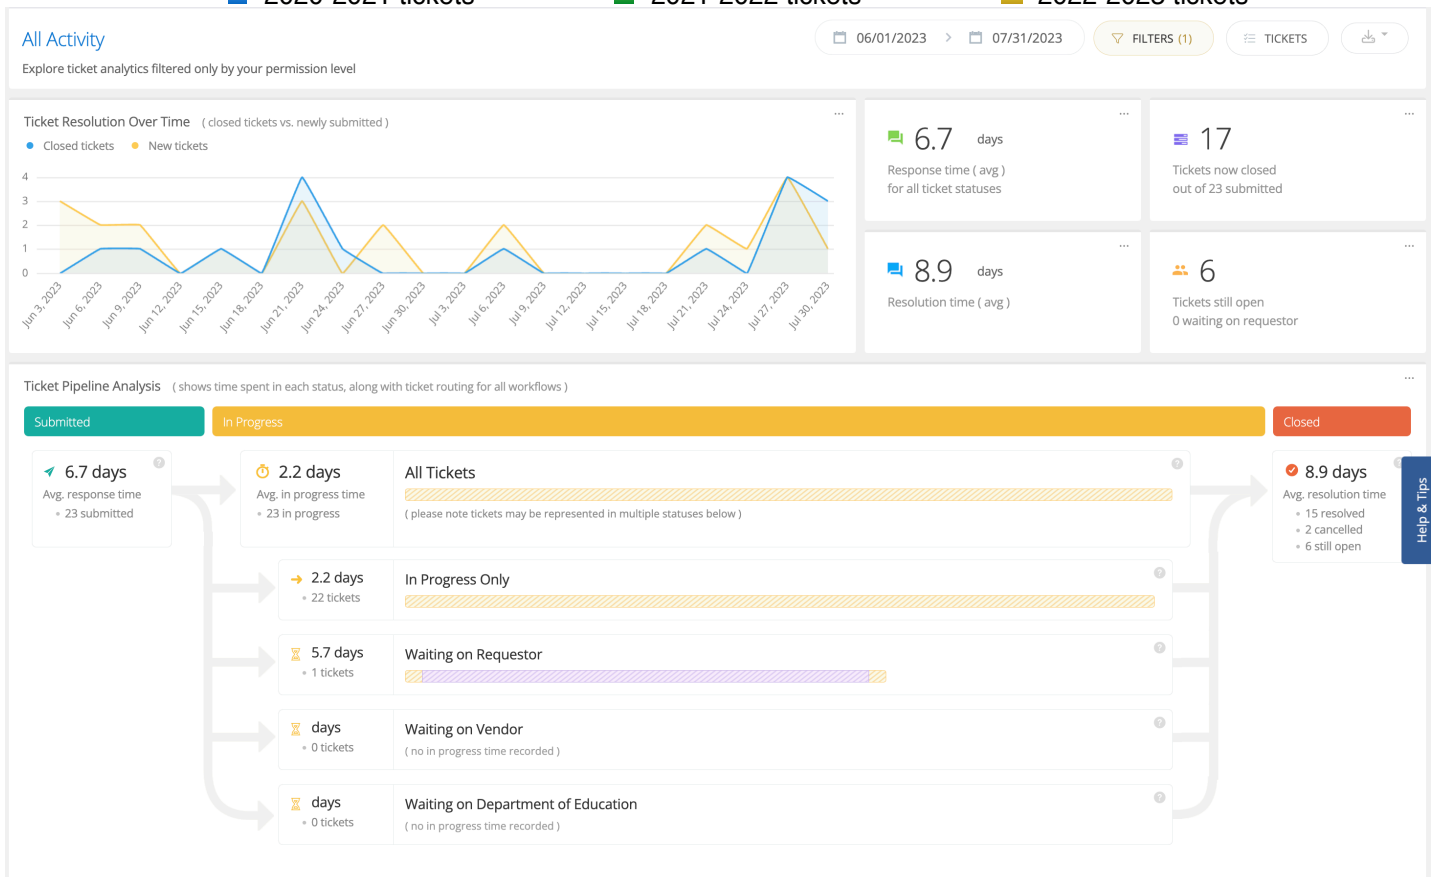

NO DATA captured for JULY2023 Total Parent and Student PS Web and Mobile Access Sessions:

Technology Web HelpDesk

Part of the Technology Department's role is to maintain the Technology Web Help Desk for staff to request repairs, training, and troubleshooting. In June and July we closed / resolved 17 of 23 (74%) of the tech requests submitted through the system. Many of the outstanding tickets are for student device repairs and issues reported at or after the end of the school year. Our average response time was 6.7 days and average resolution time was 8.9 days. These timeframes include the Off Contract time for all personnel (2.5) assigned to the Technology Department. We encourage staff to make use of this resource but many immediate needs are still handled outside of it.

BACKGROUND INFORMATION

Due to continued increases in the costs of meals charged by our Food Services Management Company compared to the reimbursement rates from the National School Lunch Program, additional funds must be transferred from the general fund into the Food Service Fund to cover costs. We have received a supply chain issues grant from DEED, as well as monies for the Fresh Fruits and Vegetables Program to assist in offsetting costs.

The amount budgeted is \$140,000 based on information from last year's food service. The District and NMS food services personnel will work on increasing student participation in meal service to help keep costs as low as possible.

ADMINISTRATIVE RECOMMENDATION

The administration recommends approval of a transfer of \$140,000 into the Food Services Fund for the 2023-2024 school year.

Sample Motion: I move to approve the transfer of \$140,000 into the Food Services Fund for the 2023-2024 school year.

Jamie Burgess, Superintendent
Nome Public Schools 1010 Sandy Beach Rd
P.O. Box 131
Nome, AK 99762

Dear Superintendent Burgess,

I am excited to be considered for work with Nome Public Schools' Grant Programs. My heart has been in rural areas my entire life. I grew up in a small town, attending a small school and my most memorable work during my 32 years in Alaska has been in villages. Seven of these years was in the Bering Strait School District.

Effective grant programs rely heavily on student data, School Board goals, Strategic Plans and parent and community needs. A great deal of the work with grant programs is online reporting and compliance work. I am quite familiar with all of this work.

Should you allow me to work with Nome Public Schools I would plan to be in-district each quarter and any time as requested by you. During this time, I would expect to hold at least one parent/community meeting to gather input and share information. I would also plan to be in schools to observe the grant activities including grant funded personnel and seek information from staff and students about the effectiveness of these programs. All this input would be used to guide development of continuing programs.

It is important for me to understand the budgeting procedures of the district so that my work meets the District's practices and procedures. In terms of budgets, I would make a point of monitoring the budgets to ensure the grant-funded activities are coded appropriately to assist the business office with drawdowns and reimbursements. My accountability would be to know each grant inside out and to provide information to whoever is also working with these programs.

I have been an educator for 42 years, 22 of which have been at the district level working with state and federal grant programs. I am proficient in the management of the entitlement grants: Title I, A; Title I, C (Migrant); Title II, A; Title III; Title IV; Title VI, B. I have worked with Carl Perkins but am not as well versed in it as the Title programs. In addition, I have managed JOM and Indian Education Programs for many years. On the federal level, I have written and managed ANE and NAM grants.

I have a great relationship with many of the Grant Program Managers at the Department of Education and we communicate well together. This is important if I am to be effective serving Nome Public Schools.

I do believe that State and Federal Programs need to be in compliance with program regulations, but they also need to support the mission of the school district. These programs should not duplicate services but work together to ensure that the targeted populations are receiving the support needed.

Hopefully I have explained how I would get to know and commit to serving the needs of Nome Public Schools. Another benefit of contracting is the savings in benefits. There would be no health, life, or disability insurance payments; no retirement system costs, not substitute, or leave costs; and detailed invoices to show what is truly being accomplished. I have attached a proposed contract that is negotiable for your review.

Finally, it vexes me that so many contractors working in Alaska come from outside the state, have little knowledge or understanding of our rural areas and charge exorbitant daily rates. I think you will find my proposal more palatable.

It is exciting to be considered for this position. I will look forward to hearing from you.

Thank you for your consideration.

Respectfully,
