BOARD OF EDUCATION SELF-EVALUATION

PREAMBLE

An essential purpose of a board of education is to ensure that the school system it governs makes continuous progress toward improving student achievement. By undertaking an annual self-evaluation, this Board seeks to reflect on the efficacy of its governance: how effectively are we, as a Board, fostering and sustaining the conditions needed for Windsor Public Schools to educate all students to high levels through high quality instruction?

The powers and duties of the Windsor Board of Education are defined in the *Connecticut General Statutes 10-220*. The Board's primary responsibilities also are aligned to support the school system's strategic plan, and its vision "...to develop the genius in every child and create life-long learners." State law sets forth that power belongs not to individual members of a Board of Education, but to the Board of Education itself.

The Board's annual self-evaluation affirms the separation of roles and responsibilities of the Board and the Superintendent; allows the Board to hold itself accountable along with the Superintendent for district wide progress on established goals and priorities; and allows the Board to reflect on its work to ensure alignment with the strategic plan. At the very core of all of this work, as individuals and as a team, the Board is driven by its commitment to equity, excellence, and to maximizing success for every child.

INSTRUCTIONS FOR COMPLETING THE SELF-EVALUATION

This self-evaluation comprises **seven** performance criteria, as well as several performance indicators that Board members may reflect upon while considering the ratings for the performance criteria. The expectation is that in completing this self-evaluation tool, each Board member will reflect upon the work of the Board, as a whole, and how his/her individual actions contribute to the efficient and effective operation of the entire Board. The ratings, which will be for the performance criteria only, should be based on, and guided by, specific evidence. The evidence offered should assist the Board in having a thoughtful conversation about future expectations and continuous improvement for the operation of the Board that will serve to advance the goals and interests of Windsor Public Schools.

After completing the evaluation individually, all Board members will submit their results to be compiled into a draft composite. Then, Board members will meet to discuss the draft composite and reach consensus on a self-evaluation that reflects the work of the Board and identifies next steps to support continuous improvement.

For each of the seven performance criteria listed, please provide a rating of either:

1. **IN PROGRESS**—Work performance does not yet meet stated Board expectations. Further development is needed
2. **MEETS EXPECTATIONS**—Work performance consistently fulfills stated Board expectations. Performance is professional and appropriate and work is of high quality in all significant areas of responsibility
3. **EXCEEDS EXPECTATIONS**—Work performance consistently exceeds stated Board expectations. Performance is exceptional and work noticeably exceeds expectations in all areas of responsibility followed by specific evidence or reasons to support your rating of the performance criteria.

Windsor Public Schools Board Self-evaluation

School Board Self Evaluation

Why Evaluate?

The culture of an organization is set at the top, and it is no different for school and educational organizations. School boards must be strong, effective leaders to meet the challenges faced by public education today. School board members direct the affairs of the district by setting goals, developing policy, communicating and evaluating, all with a focus on the achievement and best interests of all students in the district. Self-assessment by the board provides valuable information, discussion and communication.

Self-evaluation by the board:

- Holds the board accountable to themselves, the staff and the community.
- Allows for reflection by board members on their individual and collective behavior and performance.
- Fosters open communication.
- Improves decision making by enhancing a common understanding of philosophies and goals.
- Resolves differences of opinion and challenges assumptions.
- Provides insight into how and why decisions are reached.
- Allows new board members an opportunity to understand board processes.
- Identifies strengths and weaknesses of individual board member performance and that of the board as a whole.
- Holds the board accountable in its role as representative of the public.
- Provides a starting point for effective goal setting and long range planning.

Board self-evaluation provides more than just accountability and communication. It provides an opportunity for building the best possible leadership for the school system and community. Commitment to quality, excellence, continuous learning, and local control of the educational system is demonstrated when boards lead by example.

This *Board Self-Evaluation* document is designed to provide both a clear objective system for board evaluation and flexibility. Part 1 of the evaluation follows a set of performance standards focused on the roles, responsibilities and work of the board. Part 2 focuses on the board's performance in supporting the achievement of district goals.

For boards that would like to survey the community regarding their performance, the questions in Part 1 and Part 2 of the board self-evaluation can be put to administrators, staff and community members and will serve well as a 360-degree evaluation.
