PROMOTION AND RETENTION

Student promotion shall be determined by academic performance and social and emotional maturity. The Administration and faculty shall apply these criteria when determining whether to promote or retain a student. Retention is an extraordinary measure that should be the result of the combined professional judgment of the school principal, teachers, guidance counselor and/or other support personnel.

The Superintendent or his/her designee shall be responsible for developing procedures, in furtherance of this policy, that are designed to foster student achievement and reduce the incidence of social promotion. Such procedures shall:

- 1) include objective criteria for the promotion and graduation of students,
- 2) provide for the measuring of the progress of students against such criteria and the reporting of such information to parents and students,
- 3) include alternatives to promotion such as transition programs, and
- 4) provide for supplemental services.

Such procedures may require students who have substantial academic deficiencies that jeopardize their eligibility for promotion or graduation to attend after school programs, summer school or other programs that are designed to assist students in remedying such deficiencies.

Students**Promotion/Retention**

The Board of Education is dedicated to the best total and continuous development of each student enrolled in its schools. Therefore, the District will establish and maintain the highest standards required for each grade and monitor student performance in a continuous and systematic manner. The administration and faculty shall establish a system of grading and reporting academic achievement to students and their parents and guardians. The system shall also determine when promotion and graduation requirements are met. The decision to promote a student to the next grade level shall be based on successful completion of the curriculum, attendance, personal and social maturity, performance on objective tests, and student demonstration of mastery of the Goals for Windsor Students (P 0200) at each level.

To graduate from the Windsor Public Schools a student must demonstrate competency in specific basic skills. Assessment of the level of competency in the specified basic skills includes the results from the Connecticut Academic Performance Test (CAPT). Administration will identify a course of study to assist a student who has not successfully completed the assessments.

Students**Promotion/Retention**

1. The Windsor Public Schools are committed to ensuring that every graduate is a lifelong learner, productive worker, responsible citizen and thoughtful participant in our diverse communities. It is the goal of this school system that every graduate will achieve the Goals for Windsor Students, adopted by the Board of Education as Policy 0200.
2. These expectations shall frame the teaching, learning and assessment processes of the Windsor schools. Such expectations are viewed as crucial to lifelong learning and essential to gaining student's commitment to the learning process.
3. The Administration will maintain rigorous grade-by-grade standards and a curriculum and assessment system to support such standards. A high priority must be placed on ensuring a student's ability to read on grade level. These standards are based on Windsor's goals and aligned with Connecticut's statewide assessment system, CMT's, CAPT, Common Core of

Learning and Curriculum Frameworks. They are translated into local curriculum frameworks to guide instruction based upon high expectations for student achievement.

4. Social promotion is not acceptable.

5. Student promotion and graduation shall be based on demonstrated and/or assessed mastery of the content and skills standards. *(especially in the core subjects of English/language arts, mathematics, science and social science)* Students should earn the right to move from grade to grade through demonstration of the mastery of the knowledge and skills required of them.

A. Students are expected to progress through each grade usually within one school year. To accomplish this, instruction should accommodate the varying interests and growth patterns of individual students and include strategies for addressing academic deficiencies when needed. Students shall progress through the grade levels by demonstrating growth in learning and meeting grade-level standards of expected student achievement. The student's readiness for work at the next grade level shall be required before he/she is promoted.

The District shall utilize multiple measures of academic performance indicators as determinants in promotion/**retention** decisions. Student assessment of performance shall be based upon and aligned with the adopted standards. Student evaluation shall be fair, consistent and appropriate to program goals. The assessment program shall include, but not be limited to, the use of standardized and teacher made tests, projects, portfolios, and other student demonstrations of mastery, teacher observation, and student performance on objective tests.

B. Schools shall identify students at risk, modify instruction, and offer additional support to prevent **retention**. Prior to deciding on **retention** for a student not mastering the appropriate skills, the district shall provide and may require the student to attend one or more alternatives for remedial assistance.

C. Academic achievement, attitude, effort, work habits, behavior, attendance, and other significant learning related factors shall be regularly evaluated and communicated to students and their parents/guardians.

D. Parents/guardians shall also be included in the planning of intervention strategies and the ongoing monitoring of the student's progress. Parent/guardians are to be fully involved and informed throughout the promotion/**retention** decision-making process. Parents will be notified as early as possible of prevention and intervention strategies, and following unsuccessful attempts to bring the student to mastery, that **retention** is being considered. The Principal shall be responsible for making the final promotion/**retention** decision.

6. The District may provide alternatives to promotion for students not successfully completing academic requirements for promotion. Such programs could include, but not be limited to, transitional programs and alternative schools/programs within the District or in cooperation with other school districts.
