buses and makes annual inspections.

The Director of Business Services or his/her designee shall establish bus routes and designated bus stops. Careful consideration will be had around town boundaries, routes, schedules, number of students at each stop, distances students are required to walk, the number of stops on the route, the total travel time for the route, and safety hazards as described in this policy.

Town government is responsible for town roads and local police are responsible for physical security and enforcement of traffic regulations.

Access to Bus Stops/Transportation

Parents and/or guardians are responsible for ensuring the safety of their children up until the point when students board the school bus or other school provided transportation, and after students get off the bus after school. Rational for Revised Policy

P 4600 Reports of Suspected Abuse or Neglect of Adults with an Intellectual Disability or Autism Spectrum Disorder

This policy has been revised due to the dissolution of the Office of Protection and Advocacy for Person with Disabilities (“OPA”). Previously, reports of abuse or neglect of disabled adults were required to be made to OPA. Reports of abuse or neglect of disabled adults must now be made to the Department of Developmental Services (“DDS”). The policy was updated to reflect this change and provide contact information for DDS.

REPORTS OF SUSPECTED ABUSE OR NEGLECT OF ADULTS WITH AN INTELLECTUAL DISABILITY OR AUTISM SPECTRUM DISORDER

Section 46a-11b of the Connecticut General Statutes requires that certain school personnel report any suspected abuse or neglect of persons between eighteen (18) and sixty (60) years of age who: 1) have an intellectual disability or 2) receive funding or services from the Department of Social Services' ("DSS") Division of Autism Spectrum Disorder Services. In furtherance of this statute and its purpose, it is the policy of the Board of Education to require ALL EMPLOYEES of the Board of Education to comply with the following procedures in the event that, in the ordinary course of their employment or profession, they have reasonable cause to suspect that a person with an intellectual disability or an individual receiving funding or services from DSS' Division of Autism Spectrum Disorder Services between eighteen (18) and sixty (60) years of age has been abused or neglected.

1. Scope of Policy

This policy applies not only to employees who are required by law to report suspected abuse and/or neglect of adults with intellectual disabilities, but also to ALL EMPLOYEES of the Board of Education.

2. Definitions

For the purposes of this policy:

"Abuse" means the willful infliction of physical pain or injury or the willful deprivation by a caretaker of services which are necessary to the person's health or safety.

"Neglect" means a situation where a person with an intellectual disability either is living alone and is not able to provide for himself or herself the services which are necessary to maintain his or her physical and mental health, or is not receiving such necessary services from the caretaker.

"Statutory Mandated Reporter" means an individual required by Conn. Gen. Stat. Section 46a-11b to report suspected abuse and/or neglect of adults with intellectual disabilities. P 5114 Student Discipline

This policy has been revised based on Public Act 16-147 and Public Act 17-220, which revised the expulsion statute and added new requirements relating to expulsion notices and procedures and the alternative educational opportunity for expelled students. Public Act 17-220 also requires the State Board of Education to adopt standards for the provision of an adequate alternative educational opportunity for expelled students by August 15, 2017, which will include the kind of instruction and number of hours to be provided to such students. Other revisions to this policy include clarification of due process procedures for expulsion hearings.

- B. Deadly Weapon means any weapon, whether loaded or unloaded, from which a shot may be discharged, or a switchblade knife, gravity knife, billy, blackjack, bludgeon or metal knuckles. A weapon such as a pellet gun and/or air soft pistol may constitute a deadly weapon if such weapon is designed for violence and is capable of inflicting death or serious bodily harm. In making such determination, the following factors should be considered: design of weapon; how weapon is typically used (e.g. hunting); type of projectile; force and velocity of discharge; method of discharge (i.e. spring v. - E. Exclusion means any denial of public school privileges to a student for disciplinary purposes.
- F. Expulsion means the exclusion of a student from school privileges for more than ten (10) consecutive school days and shall be deemed to include, but not be limited to, exclusion from the school to which such pupil was assigned at the time such disciplinary action was taken. Suspension means the exclusion of a student from school and/or transportation services for not more than ten (10) consecutive school days, provided such suspension shall not extend beyond the end of the school year in which such suspension is imposed; and further provided no student shall be suspended more than ten (10) times or a total of fifty (50) days in one

school year, whichever results in fewer days of exclusion, unless such student is granted a formal hearing as provided below.

- C. The parents or guardian of any minor student removed from class shall be given notice of such disciplinary action within twenty-four (24) hours of the time of the institution of such removal from class.

VI. Procedures Governing Suspension

- A. In cases where suspension is contemplated, the following procedures shall be followed.
 - 1. Unless an emergency situation exists, no student shall be suspended prior to having an informal hearing before the principal or designee at

which the student is informed of the charges and given an opportunity to respond. In the event of an emergency, the informal hearing shall be held as soon after the suspension as possible.

2. If suspended, such suspension shall be an in-school suspension except the principal or designee may impose an out-of-school suspension on any pupil:
 - a. ~~(1)~~ in grades three to twelve, inclusive, if, during the informal hearing, ~~(a)~~ i. the principal or designee determines that the student poses such a danger to persons or property or such a disruption of the educational process that he or she should be excluded from school during the period of suspension; or ~~(b)~~ (ii) the principal or designee determines that an out-of-school suspension is appropriate based on evidence of ~~(A)~~ i the student's previous disciplinary problems that have led to suspensions or expulsion of such student, and ~~(B)~~ ii previous efforts by the ~~administration~~ Administration to address the student's disciplinary problems through means other than out-of-school suspension or expulsion, including positive behavioral support strategies, or
 - b. ~~(2)~~ in grades preschool to two, inclusive, if the principal or designee determines that an out-of-school suspension is appropriate for such pupil based on evidence that such pupil's conduct on school grounds is of a violent or sexual nature that endangers persons.
3. Evidence of past disciplinary problems that have led to removal from a classroom, suspension, or expulsion of a student who is the subject of an informal hearing may be received by the principal or designee, but only considered in the determination of the length of suspensions.
4. By telephone, the principal or designee shall make reasonable attempts to immediately notify the parent or guardian of a minor student following the suspension and to state the cause(s) leading to the suspension.
5. Whether or not telephone contact is made with the parent or guardian of such minor student, the principal or designee shall forward a letter promptly to such parent or guardian to the last address reported on school records (or to a newer address if known by the principal or designee), offering the parent or guardian an opportunity for a conference to discuss same.

10. Notice of the suspension shall be recorded in the student's cumulative educational record. In cases where the student's period of suspension is shortened or waived in accordance with Section VI.A(9), above, the ~~administration~~ Administration may choose to expunge the suspension notice from the cumulative record at the time the student completes the ~~administration~~ Administration-specified program and meets any other conditions required by the ~~administration~~ Administration.
11. If the student has not previously been suspended or expelled, and the ~~administration~~ Administration chooses to expunge the suspension notice from the student's cumulative record prior to graduation, the ~~administration~~ Administration may refer to the existence of the expunged disciplinary notice, notwithstanding the fact that such notice may have been expunged from the student's cumulative file, for the limited purpose of determining whether any subsequent suspensions or expulsions by the student would constitute the student's first such offense.
12. The decision of the principal or designee with regard to disciplinary actions up to and including suspensions shall be final.

13. During any period of suspension served out of school, the student shall not be permitted to be on school property and shall not be permitted to attend or participate in any school-sponsored activities, unless the principal specifically authorizes the student to enter school property for a specified purpose or to participate in a particular school-sponsored activity.

B. In cases where a student's suspension will result in the student being suspended more than ten (10) times or for a total of fifty (50) days in a school year, whichever results in fewer days of exclusion, the student shall, prior to the pending suspension, be granted a formal hearing before the Board of Education. The principal or designee shall report the student to the Superintendent or designee and request a formal Board hearing. If an emergency situation exists, such hearing shall be held as soon after the suspension as possible.

F. Stipulated Agreements:

In lieu of the procedures used in this ~~section~~[Section](#), the Administration and the parent(s) or legal guardian(s) of a student facing expulsion may choose to enter into a Joint Stipulation of the Facts and a Joint Recommendation to the Board concerning the length and conditions of expulsion. Such Joint Stipulation and Recommendation shall include language indicating that the parent(s) or legal guardian(s) understand their right to have an expulsion hearing held pursuant to these procedures, and language indicating that the Board, in its discretion, has the right to accept or reject the Joint Stipulation of Facts and Recommendation. If the Board rejects either the Joint Stipulation of Facts or the Recommendation, an expulsion hearing shall be held pursuant to the procedures outlined herein. If the Student is eighteen years of age or older, the student shall have the authority to enter into a Joint Stipulation and Recommendation on his or her own behalf.

If the parties agree on the facts, but not on the disciplinary recommendation, the Administration and the parents (or legal guardians) of a student facing expulsion may also choose to enter into a Joint Stipulation of the Facts and submit only the Stipulation of the Facts to the Board in lieu of holding the first part of the hearing, as described above. Such Joint Stipulation shall include language indicating that the parents understand their right to have a hearing to determine whether the student engaged in the alleged misconduct and that the Board, in its discretion, has the right to accept or reject the Joint Stipulation of Facts. If the Board rejects the Joint Stipulation of Facts, a full expulsion hearing shall be held pursuant to the procedures outlined herein.

IX. Alternative Educational Opportunities for Expelled Students

- A. For the purposes of this Section, and subject to Subsection IX.E, below, any alternative educational opportunity to which an expelled student is statutorily entitled shall be (1) alternative education, as defined by Conn. Such alternative educational opportunity may include, but shall not be limited to, the placement of a pupil who is at least sixteen years of age in an adult education program. Any pupil participating in an adult education program during a period of expulsion shall not be required to withdraw from school as a condition to his/her participation in the adult education program.
2. The Board of Education is not required to offer an alternative educational opportunity to any student between the ages of sixteen (16) and eighteen (18) who is expelled for ~~the a second time, or if it is determined at the hearing that (1) the student possessed a dangerous instrument, deadly weapon, firearm or martial arts weapon on school property or at a school-sponsored activity, or (2) the student offered a controlled substance for sale or distribution on school property or at a school-sponsored activity, or subsequent, time.~~
3. The Board of Education shall count the expulsion of a pupil when he/she was under sixteen (16) years of age for purposes of determining whether an alternative educational opportunity is required for such pupil when he/she is between the ages of sixteen and eighteen.

CD. *Students eighteen (18) years of age or older:*

The Board of Education is not required to offer an alternative educational opportunity to expelled students eighteen (18) years of age or older.

EF. *Students for whom an alternative educational opportunity is not required:*

The Board of Education may offer an alternative educational opportunity to a pupil for whom such alternative educational opportunity is not required by law or as described in this policy. Notice of expulsion and the conduct for which the student was expelled shall be included on the student's cumulative educational record. Such notice, except for notice of an expulsion of a student in grades nine through twelve, inclusive, based upon possession of a firearm or deadly weapon, shall be expunged from the cumulative educational record by the Board if the student graduates from high school.

In cases where the student's period of expulsion is shortened or waived in accordance with Section VIII.D-14., (14), above, the Board may choose to expunge the expulsion notice from the cumulative record at the time the student completes the Board-specified program and meets any other conditions required by the Board.

If a student's period of expulsion was not shortened or waived, the Board may choose to expunge the expulsion notice from the student's cumulative record prior to graduation if such student has demonstrated to the Board that the student's conduct and behavior in the years following such expulsion warrants an expungement. In deciding whether to expunge the expulsion notice, the Board may receive and consider evidence of any subsequent disciplinary problems that have led to removal from a classroom, suspension or expulsion of the student.

If the student has not previously been suspended or expelled, and the ~~administration~~Administration chooses to expunge the expulsion notice from the student's cumulative record prior to graduation, the ~~administration~~Administration may refer to the existence of the expunged notice, notwithstanding the fact that such notice may have been expunged from the student's cumulative file, for the limited purpose of determining whether any subsequent suspension or expulsion by the student would constitute the student's first such offense.

XI. Change of Residence During Expulsion Proceedings

If a student enrolls in the district while an expulsion hearing is pending in another district, such student shall not be excluded from school pending completion of the expulsion hearing unless an emergency exists, as defined above. The Board shall retain the authority to suspend the student or to conduct its own expulsion hearing.
2. Where a student enrolls in the district during the period of expulsion from another public school district, the Board may adopt the decision of the student expulsion hearing conducted by such other school district. The student shall be excluded from school pending such hearing. The excluded student shall be offered an alternative educational opportunity in accordance with statutory requirements. The Board shall make its determination based upon a hearing held by the Board, which hearing shall be limited to a determination of whether the conduct which was the basis of the previous public school district's expulsion would also warrant expulsion by the Board.

B. *Student moving out of the school district:*

Where a student withdraws from school after having been notified that an expulsion hearing is pending, but before a decision has been rendered by the Board, the notice of the pending expulsion hearing shall be included on the student's cumulative record and the Board shall complete the expulsion hearing and render a decision. If the Board subsequently renders a decision to expel the student, a notice of the expulsion shall be included on the student's cumulative record.

Rational for Deleted Policy

P 5131.7 Firearms, Weapons and Dangerous Instruments

Policy 1317 Possession of Deadly Weapons or Firearms under Series 1000, Community Relations, and Policy 5114 Student Discipline under Series 5000, Students, both provide a definition of what constitutes a deadly weapon/firearm as well as the consequences that exist for any individual that are found to be in possession of a weapon/firearm on school buildings or administrative office buildings, or at a school-sponsored activity. For such reasons, P 5131.7 Firearms, Weapons and Dangerous Instruments should be deleted as it closely aligns with both Policies 1317 and 5114 as listed above.

P 5141.21 Administration of Student Medications in the Schools

2014

Public Act 14-176 makes a number of changes to Connecticut General Statute § 10-212a regarding the storage and use of emergency epinephrine in cartridge injectors (i.e. “epipens”) at school. Prior law had permitted schools to administer epinephrine to a student only when the school had received prior written consent from a parent and written authorization from a qualified medical professional. Effective July 1, 2014, schools are now required to maintain epipens for the purpose of providing emergency first aid to a student who experiences an allergic reaction even if the student does not have a prior written authorization for the administration of epinephrine. Under the revised law, a student’s parent or guardian may submit a written directive to the school nurse (and school medical advisor, if any) to prohibit the administration of epinephrine to such student.

Moreover, the revised law now requires boards of education to designate and train “qualified school employees” to administer epinephrine in emergency circumstances to students having an allergic reaction who do not have the required written authorization for such medication (unless of course they are subject to a written directive prohibiting the administration of epinephrine). A “qualified school employee” is defined as a principal, teacher, licensed athletic trainer, licensed physical or occupational therapist employed by a school district, coach or school paraprofessional

The model policy has been amended to reflect these changes.

2015

Public Act 14-176 made a number of changes to Connecticut General Statute § 10-212a regarding the storage and use of emergency epinephrine in cartridge injectors (i.e. epipens) at school. Effective July 1, 2014, schools were required to maintain epipens for the purpose of providing emergency first aid to a student who experiences an allergic reaction even if the student does not have a prior written authorization for the administration of epinephrine. Under the revised law, a student’s parent or guardian is permitted submit a written directive to the school nurse (and school medical advisor, if any) to prohibit the administration of epinephrine to such student.

Moreover, the law requires boards of education to designate and train “qualified school employees” to administer epinephrine in emergency circumstances to students having an allergic reaction who do not have the required written authorization for such medication (unless of course they are subject to a written directive prohibiting the administration of epinephrine). A “qualified school employee” is defined as a principal, teacher, licensed athletic trainer, licensed physical or

occupational therapist employed by a school district, coach or school paraprofessional. The 2014 law required the State Department of Education to revise the applicable regulations concerning the administration of medications to students, and the applicable revised regulations were released in August 2015.

In addition, the General Assembly amended the law pertaining to the administration of student medication in 2015. Section 22 of Public Act 15-215, effective July 1, 2015, directs school nurses and a school medical advisor, if any, to select a qualified school employee to administer antiepileptic medication to students with medically diagnosed epileptic conditions that require prompt treatment, in accordance with each student's individual seizure action plan, with the written authorization of the student's parents or guardian and the written order by a physician. For this purpose, a qualified school employee for this purpose means a principal, teacher, licensed athletic trainer, licensed physical or occupational therapist employed by the school district, a coach or a school paraprofessional, and such qualified school employee must voluntarily agree to serve in such a role. The qualified school employee must receive annual training, developed by the Department of Education, in consultation with the School Nurse Advisory Council and the Association of School Nurses of Connecticut, and the school nurse or school medical advisory must attest that the qualified school employee completed the training. Additionally, qualified school employees may only administer the antiepileptic medication if the school nurse is absent or unavailable, and the school nurse must provide monthly reviews of the qualified school employee's competence to administer such medication.

Finally, this policy has also been updated in accordance with the state regulations concerning the emergency use of epinephrine. These state regulations became effective in August 2015.

2016

We have revised this policy to make minor grammatical changes and update the legal references section.

2017

This policy was revised to add optional provisions regarding the emergency administration of Naloxone (commonly known by the brand name Narcan) in the event of a suspected opioid overdose. Boards of education are not required to make Naloxone available in schools. In fact, there is no specific provision under Connecticut law exempting Naloxone from the requirements of Connecticut law and regulations regarding the administration of medications in schools (by way of comparison, the emergency administration of epinephrine is exempted). The State Department of Education has taken the position that schools may make Naloxone available in schools for emergency use, provided that the board of education adopts reasonable procedures governing its administration. We encourage boards of education to consider seeking legal counsel if they wish to make Naloxone available for emergency use, as additional legal considerations and/or requirements apply to a board of education's purchasing, maintenance, and administration of Naloxone.

AR 5141.31 Immunizations

We have modified this regulation to update the legal references and change the link to the immunization regulations, as the prior link was not functional. In addition, this policy has been updated to reference the requirement in Conn. Gen. Stat. § 10-204a that a town pay for immunizations required for school attendance in the event that the parents or guardians of a child are unable to pay for such immunizations.

IMMUNIZATIONS

In accordance with state law and accompanying regulations, the Windsor Board of Education requires each child to be protected by adequate immunization against diphtheria, pertussis, tetanus, poliomyelitis, measles, mumps, rubella, hemophilus influenzae type B, hepatitis A, hepatitis B, varicella, pneumococcal diseases, meningococcal disease and any other vaccine required by the schedule for active immunization as determined by the Commissioner of Public Health pursuant to Conn. Gen. Stat. § 19a-7f, prior to enrolling in any program or school under its jurisdiction.

Among other requirements, before being permitted to enter seventh grade, the Board requires each child to be vaccinated against meningococcal disease. The Board further requires each child to receive a second immunization against measles and tetanus, diphtheria and pertussis (Tdap) before being permitted to enter seventh grade.

Further, each child must have received two doses of immunization against varicella before being permitted to enter kindergarten and seventh grade, and each child must have received two doses of immunization against rubella and mumps before being permitted to enter grades kindergarten through twelve.

All children aged 24-59 months who have not received vaccination against influenza previously must show proof of receipt of two doses of the vaccine the first influenza season that they are vaccinated. Children seeking to enroll in the Board's preschool program between January 1 and March 31 are required to receive the influenza vaccine prior to being permitted to enter the program. Children who enroll in the preschool program after March 31 of any given year are not required to meet the influenza vaccine requirement until the following January.

Exemption from the pertinent requirements of these administrative regulations shall be granted to any child who, prior to enrollment:

- (1) presents a certificate from a physician, physician assistant, advanced practice registered nurse or local health agency stating that initial immunizations have been given to such child and additional immunizations are in process under guidelines and schedules specified by the Commissioner of Health; or

Before being permitted to enter the seventh grade, the parents or guardian of any child who is exempt on religious grounds from the immunization requirements, pursuant to subsection (3) above, shall present to the Board a statement that such immunization requirements are contrary to the religious beliefs of such child or the parents or guardian of such child, which statement shall be acknowledged in the same manner as required by subsection (3) above.

In accordance with state law, the Windsor Board of Education shall not be liable for civil damages resulting from an adverse reaction to a nondefective vaccine required to be administered by state law.

[If the parents or guardians of any child are unable to pay for any required immunization, the expense of such immunization shall, upon the recommendation of the Board of Education, be paid by the town of the child's residence.](#)

Policy and administrative regulation 6114.1 Fire Emergency Drills is being revised to align with CGS 10-222m School security and safety plans, School security and safety committees and CGS 10-222n School security and safety plan standards requiring the Board of Education, through the Superintendent's office, to annually submit reports to the Department of Emergency Services and Public Protection regarding fire drills and crisis drills. The Board of Education may also have a public safety official evaluate and provide feedback on a representative sample of fire/crisis response drills each year.

FIRE EMERGENCY DRILLS/CRISIS RESPONSE DRILLS

A fire drill shall be held at least once a month in each school building. The initial fire drill must be held not later than thirty days after the first day of each school year. A crisis response drill shall be substituted for one of the required monthly school fire drills every three months. Each building principal shall prepare a definite fire emergency plan, and furnish to all teachers and students information as to route and manner of exit. Fire drills shall be planned in such a way as to accomplish the evacuation of school buildings in the shortest possible time and in the most efficient and orderly fashion.

The format of the crisis response drill shall be developed in consultation with the appropriate local law enforcement agency. Further, a representative of the law enforcement agency may supervise and participate in any of the required crisis response drills. Such drills shall incorporate the basic protocols of lockdown, evacuation and shelter-in-place responses. The activation and utilization of the Incident Command System shall also be a part of the crisis response drills.

Principals shall keep a record of all fire and crisis response drills held in their schools, stating the date the drill was held and the time required for the response protocols utilized in the drill ~~evacuation of the building~~. They shall furnish such reports to the Superintendent or his designate as may from time to time be required.

Local law enforcement and other local public safety officials may evaluate, score and provide feedback on fire drills and crisis response drills conducted pursuant to Connecticut General Statutes 10-231. "Public Safety Officials" include the local emergency management director, fire marshal, building inspector and emergency medical services representative. Each of the named officials should evaluate and provide feedback on a representative sampling of fire/crisis response drills each year. The Board of Education shall annually submit reports to the Department of Emergency Services and Public Protection regarding such fire drills and crisis response drills.
