## OVERVIEW AND MISSION

The Minority Student Achievement Network (MSAN) is a national coalition of multiracial school districts that have come together to understand and eliminate

opportunity/achievement gaps that persist in their schools. MSAN districts have student populations between 3,000 and 33,000 and are most often located in well-established first-ring suburbs or small/mid-size cities. Additionally, the districts share a history of high academic achievement and connections to major research universities.

Across MSAN districts, disparities on an array of achievement data demonstrate wide gaps in performance across students from diverse racial, ethnic, and linguistic backgrounds. Since 1999, MSAN has worked fervently to achieve the parallel goals of closing gaps while ensuring all students achieve to high levels. To this end, districts work collaboratively to conduct and publish research, analyze policies, and share promising practices that support the Network's mission: to understand and change school practices and structures that keep racial opportunity/achievement gaps in place.

MSAN has worked to build a community of learners who engage in a common set of core practices across school districts. These include

- Engaging in collaborative research in which practitioners and researchers are equal partners in designing, conducting, and publishing research
- Evaluating programs intended to raise the academic achievement of students of color
- · Conducting training and professional development activities for district teachers and administrators relative to the MSAN mission
- Creating opportunities for students to guide the work of the organization
- · Disseminating results of Network activities among MSAN districts and the larger educational community.

For more information about MSAN please contact Executive Director, Dr. Madeline Hafner at 608.262.1665 or mhafner@wisc.edu

### WINDSOR BOARD OF EDUCATION

### Agenda Item SUMMARY

For Consideration by the Board of Education at the Meeting of: June 17, 2014

Prepared by: Craig Cooke

Presenter(s): Craig Cooke

Attachments: Dress Code Survey Results

SUBJECT: Dress Code Survey

#### Background:

۰.,

х.,

In February 2007, Windsor Public Schools considered the implementation of defined clothing or formal school uniforms. After consideration, the Board decided not to institute either. The District Improvement Committee received requests to ask the Board to consider defined clothing or school uniforms.

### Status:

At the March 2014 Regular Meeting, the Board directed the Superintendent to conduct a survey of parents, staff and students on their opinion regarding school uniforms and report the result to the Board of Education at the June 2014 meeting. The survey was conducted over two weeks in May.

### **RECOMMENDATION:**

The presentation this evening includes the findings that resulted from the Dress Code Survey. For informational purposes only.

-----\_\_\_\_\_ Recommended by the Superintendent Agenda Item# (CC

### Dress Code Survey Report June 17, 2014

### Background

The Windsor Board of Education District Improvement Committee received seven comments from parents and community members suggesting that the Board of Education consider the implementation of a dress code or formal dress policy for students. As part of their process, the District Improvement Committee referred those suggestions to the full Board. The Superintendent provided the Board of Education with the results of a dress code survey that was conducted in 2007. The Board of Education reviewed and discussed those results.

At the March Board of Education meeting, the Board of Education asked the Superintendent to conduct a survey regarding dress code in the schools and that the Superintendent should report the results of the survey at the June Board meeting. It was discussed that the Superintendent would develop questions similar to the questions asked in 2007. The particulars of the methodology were left up to the Superintendent to determine.

#### Methodology

Survey questions were created from the 2007 bank of survey questions removing what were felt to be leading underlining marks and duplicate/unnecessary questions. The survey was loaded into Survey Monkey which allowed for ease of use and tabulation. Survey Monkey was utilized for the entire survey population except for high school students. In discussion with Russell Sills, Windsor High School Principal, it was determined that the survey would be administered during students' advisory time through paper copy and scantron sheets. This would lead to the least amount of disruption to the education process and provide the most accurate results for this sample. Katrina Palazzolo-Wicks, Technology Teacher Leader, was in charge of monitoring the survey and tabulating the results.

Survey methods:

Students:

• .

1.1

All students completed the Survey Monkey survey except Windsor High School as previously noted.

Administrators:

All administrators received an e-mail with a survey link attached requesting them to complete the survey.

Staff:

All staff received an e-mail with a survey link attached requesting them to complete the survey.

### Parents and Guardians:

The district sent out notices to all families that a survey was available regarding student dress code and requested their response to the survey. Survey was available on the website for parents and guardians to access.

Protection against multiple responses from one participant:

The district took great care to protect against multiple responses from the same survey participant. Where possible, students completed the survey at the same time to ensure that students did not have the opportunity to submit multiple responses. When the parent/guardian survey was initially opened up, the survey was allowing for multiple responses. When this was brought to our attention, a change was made and duplicate responses were deleted.

#### Windsor High School 9<sup>th</sup> and 10<sup>th</sup> Graders 375 6<sup>th</sup>, 7<sup>th</sup>, and 8<sup>th</sup> Graders Sage Park Middle School 609 Clover and JFK 3<sup>rd</sup>, 4<sup>th</sup>, and 5<sup>th</sup> Graders 163 Administration 19 Staff 355 Families 545 Total 2,066

**Survey Sample** 

A sample size of 375 ninth and tenth graders was utilized at Windsor High School. Students in grades 11 and 12 would not be at Windsor High School at the time a potential dress code change would be instituted and, therefore, it was determined not to elicit their feedback. At Sage Park, a sample size of 609 students was utilized and a sample size of 163 at Clover Street and JFK combined was utilized. The differing sample sizes were not a concern because results are reported by level not total number of student responses. The sample size is representative of the student population at each level.

### **Summary of Results**

The results for each individual survey are attached to this report. The results should be considered in the context of this survey administration, which was to receive input to inform future work. These results should not be considered scientific as surveys were administered in some cases with limited control.

Student results indicate that students are typically finding their peers dressed appropriately for school and that there is some, but not a majority, of families that have disagreements over what clothes should be worn to school.

It is important to note for follow-up that students agreed with the statement that students tease or make fun of others because of what they wear. Although these results are not unique to Windsor Public Schools, the schools should address these results through activities involving Positive Behavioral Intervention Supports (PBIS) and advisory time at the high school.

In the opinion of this author there were three major questions that should be discussed and considered as next steps. The three major questions appear below along with the answers from the different groups.

Would you support revisions to the current student dress code?

	Yes	No
Parents	57.8	42.2
Administration	68.4	31.6
Staff	87.7	12.3
High School Students	31.7	68.3
Middle School Students	49.7	50.2
Elementary School Students	N/A	N/A

Would you support a dress code that consists of collared shirts, solid-colored dress pants belted at the waist, skirts, or blouses?

	Yes	No
Parents	51.9	48.1
Administration	42.1	57.9
Staff	75,5	24.5

### Would you support a formal school uniform?

1.1

	Yes	No
Parents	47.1	52.9
Administration	31.6	68.4
Staff	64.8	35.2

The results indicate support for revisions to the current dress code from parents, administration and staff. The results indicate support for a dress code that consists of collared shirts, solid-colored dress pants belted at the waist, skirts, or blouses from staff and slight support from parents. Only staff supported a formal school uniform.

### Recommendation

There is not significant support to move to a formal school uniform or to institute a defined dress code policy (collared shirts, solid-colored dress pants belted at the waist, skirts, or blouses). It is important to note and consider that staff surveyed supported both defined dress and uniforms. This survey did provide extremely useful information to the district regarding the perception of the current dress code policy. Overwhelming support exists for examining the current policy. Therefore, the school district should create a committee made up of students (high school), parents, staff, and administration to review the current district dress code. The Superintendent would charge the committee with developing recommendations for an updated dress code policy. The committee would complete their work during the fall semester and make a recommendation to the full Board of Education regarding the dress code. The policy committee would then be asked to consider the recommendations.

Respectfully submitted,

Craig Cooke, Ph.D., Superintendent

### **Dress Code Survey - Parents**

Jenna Herrick District Communications Specialist Last updated: September 2018 Windsor Public Schools 601 Matianuck Ave Windsor CT, 06095 860-687-2000 www.windsorct.org

## **Board of Education Mission Statement:**

to develop the genius in every child and create life-long learners.

## **Goals:**

To accomplish this mission, the Windsor Public Schools, in cooperation with families and the greater Windsor community, will ensure that all students acquire the following skills and behaviors:

- 1. All students will demonstrate a strong work ethic, exemplary academic skills, effective oral and written communications, technological aptitude, and necessary skills to work collaboratively with others.
- 2. All students will demonstrate the ability to think critically and to solve complex problems utilizing analytical ability, creativity, research skills, logical reasoning, innovation, integrative understanding and resilience.
- 3. All students will demonstrate a knowledge and understanding of the increasingly global nature of society and behaviors associated with good citizenship.
- 4. All students will graduate from Windsor Public Schools with a clear achievable post-secondary plan.
- 5. All students will demonstrate an understanding of the importance of health and wellness.
- 6. All students will gain an appreciation for the visual and performing arts.

\*Approved by the Board of Education: December 20, 2016

# **Stakeholders**

Windsor Public School's stakeholders consist of internal and external audiences. Each stakeholder plays a valuable role in the success of Windsor Public Schools, and benefit from the success of the district.

# **Communication Goals and Strategies**

# 1) Promote a positive image of the Windsor Public Schools District resulting in increased public support.

- Distribute a variety of communications such as newsletters, press releases, media alerts etc. to keep the media and public informed of district-wide activities.
- Expand the district's social media presence to inform the public and encourage community engagement.
- Maintain an informative, user-friendly and up-to-date district website with fresh content and news.

# 2) Maintain a proactive media relations plan with local, state, and national media outlets

- Establish a strong positive relationship with key members of the media.
- Develop an editorial calendar and pitch feature stories to local media to highlight programs, events or exceptional students and staff.
- Distribute informative news releases to educate the public and control the district's overall message.

# 3) Strengthen relationships with key stakeholders and encourage community and family engagement

• Implement School Messenger protocols to staff members to bring consistency in the way we share information to our families across the district.

# **Communication Goals and Strategies**

- Utilize District Communication Specialist for all media related inquires and story ideas.
- Work with Office of Family and Community Partnership to promote opportunities to get involved in our schools and the community.

# 4) Improve internal communications by establishing an effective employee communication process

- Identify proper protocol for approval of professional communication (school and district level).
- Continue to seek feedback from staff and establish areas of improvement regarding internal communications.
- Utilize appropriate communication tools to distribute messages to select audiences.

## **Family Communication Protocol**

*Effective communication with families is essential for a thriving school environment. We strive to improve communication with our families to build trust, transparency and collaboration to best fulfill our mission. These protocols have been created to bring consistency in the way we share information to our families across the district.* 

## School Messenger

Type of Information	Phone	Text	Email	Website	Social Media
Important Reminders	Х	Х	Х	Х	Х
Event Promotion	Х	Х	Х	Х	Х
Forms / Documents			Х	Х	
School E-Newsletters			Х	Х	
Public Relations				Х	Х

\*Messages should be sent to families at 6:00 p.m. unless it is an emergency or time sensitive.

## • Weekly School E-Newsletters:

- Schools are responsible for distributing a weekly E-Newsletter to families on Fridays.
- The E-Newsletter is required to be uploaded to its designated school folder to appear on the website and must be emailed to families using School Messenger.
- The E-Newsletter should include pertinent information about each school including weekly events, announcements, links to documents, resources for parents / guardians etc. Events should also be reflected accordingly on each school's Google calendar and will automatically appear on the website.
- If an E-Newsletter is not distributed weekly, a follow-up from the District Communication Specialist will take place. An additional follow-up from the Superintendent will take place after two weeks.

# **Family Communication Protocol**

## • Website / Social Media:

- Content maintained daily
- Includes news, announcements, events, articles, multimedia content (videos, photos), forms/documents etc.
- Increase the district's social media presence, promote positive district news, and encourage community engagement
- District Communications Specialist and Superintendent are responsible for sharing district level news
- Superintendent Twitter Feed and WPS Facebook page stream on district website
- Principals (or a designated staff member) are encouraged to utilize school Twitter accounts which stream directly on the individual school's website.
- Encourage staff members to have a positive social media presence
- WPS Mobile App

## • Submitting School News

- Schools are also responsible for submitting important news, photos, videos, and special events to District Communications Specialist to promote on district social media channels, future marketing materials, website, and the media.
- All students in submitted photos must not appear on school's "no photo list." If a staff member is contacted by the media, please refer to the District Communications Specialist.

# **District Communication Schedule**

## • District Newsletter

- 3 times per year (Fall, Winter, Spring)
- Fall Deadline October 5, 2018
- Winter Deadline January 11, 2018
- Spring Deadline April 5, 2018
- Distributed to all Windsor households, posted on website and social media
- Displayed at individual schools
- Includes district-wide news, community-related topics, recognitions etc.
- Designed to raise awareness, increase support and educate the Windsor community

## • Board of Education Meeting Recaps

- A brief recap emailed to staff including important items and actions taken at each BOE meeting:
- September 18, 2018 Meeting Recap distributed by September 25, 2018
- October 16, 2018 Meeting Recap distributed by October 23, 2018
- November 20, 2018 Meeting Recap distributed by November 27, 2018
- Tuesday, December 18, 2018 Recap distributed by January 2, 2019 (holiday)

# **District Communication Schedule**

## • Early Dismissal Days

- A reminder will be sent to all families using School Messenger the day before an early release day:
- September 18, 2018 (Early Dismissal)
- October 16, 2018 (Early Dismissal)
- January 8, 2019 (Early Dismissal)
- February 5, 2019 (Early Dismissal)
- March 5, 2019 (Early Dismissal)
- May 7, 2019 (Early Dismissal)

## Back to School Communications

- Communicate with schools in June to determine what information is being distributed to families in the District Back to School Packet (Mailed in August):
- 1. Dr. Cooke Back to School Introduction Letter
- 2. Instructions to update information in PowerSchool
- 3. District Calendar
- 4. Chromebook Information
- 5. Transportation Reminder
- Dr. Cooke Back to School Letter to Staff (Mid August)
- Dr. Cooke Back to School Letter to Families (End of August)

# **District Communication Schedule**

## • Media Coverage

- Distribute daily media coverage emails
- Articles posted to "In the News" section on the district website
- Monthly clip report including all WPS related news to be distributed to Cabinet members and appropriate staff at the beginning of each month.

## • Additional District / Superintendent Communications

- Snow Days / 2-Hour Delays
