AR 5123.1 Windsor High School Graduation Requirements

This regulation has been revised based on Public Act 17-42 which has made revisions to the new graduation requirements and provides districts with additional flexibility in determining how to award students credits. Public Act 17-42 delayed the implementation of new high school graduation requirements. The new requirements are effective with the graduating class of 2023.

IV. Performance Standards: Reading, Writing, Mathematics and Science

Windsor High School students must have basic skills in reading/writing, mathematics and science before graduation. To demonstrate their competency in these areas students must meet the district's performance standards.

All students, as part of the mandated State testing program, must take the Science CAPT in grade 10 and the SAT in grade 11.

Step 1: Standardized Assessments

Students meet the district performance standard if they have met any of the following requirements in the area specified:

Reading/Writing

- A. Achieve a score on the SAT I in Evidence Based Reading and Writing which meets the "Proficient" or similar designation as determined by the State of Connecticut.
- B. Achieve a minimum composite score of 20 on the ACT.

Mathematics

- A. Achieve a score on the SAT I in Mathematics which meets the "Proficient" or similar designation as determined by the State of Connecticut.
- B. Achieve a minimum composite score of 20 on the ACT.

Science

- A. Achieve proficiency (score of 3 or higher) on the Connecticut Academic Performance Test (CAPT) in Science.

Step 2: District Performance Assessments

Students who do not achieve qualifying scores in one or more areas on the standardized measures discussed in Step 1 must demonstrate mastery on the district performance assessments:

1. Reading/Writing and Mathematics

- a. The District Performance Assessment in Reading/Writing will be administered quarterly during a student's senior year. Students who score at least a 70% have met the reading and writing graduation requirement.
- b. The District Performance Assessment in Mathematics will be administered quarterly during a student's senior year. Students who score at least 70% have met the mathematics graduation requirement.

2. Science

- a. The District Performance Assessment in Science will be administered quarterly beginning in a student's junior year to those students who did not meet the district standard on Grade 10 Science CAPT. Students who score at least 70% have met the science graduation requirement.

Notification: The counseling department will notify students and parents/guardians in writing at the beginning of their junior year (science only) and senior year (reading/writing, mathematics, science) if they have not yet met the graduation requirement.

Transfers: If a student transfers into Windsor High School after completing at least three years in a high school in another district, s/he must have met the goal on the test from the sending district or state in order to be exempt from Windsor's performance standard requirement for graduation.

Special Needs: The performance standard requirement for graduation for a student with special needs may be modified if so indicated on the student's Individual Education Plan (IEP).

V. Options If Requirements Are Not Met

A. Seniors who have earned the necessary 23 credits (25 credits effective with the Class of 2017) to graduate but have not met the district performance standard on one or more of the reading/writing, mathematics, and science performance assessments must:

1. Enroll in summer school courses that, if successfully completed, would meet the standard,

OR

2. Sit for a retake of the district performance assessment during the summer, the date of administration to be determined by the school system.

B. Seniors who are short .5 to 2.0 credits for graduation must:

1. Enroll in summer school and pass the courses needed to graduate.
2. If the student does not meet all necessary credit requirements for graduation through summer school, s/he can return to WHS in September but only to make-up those courses needed to graduate. [The student may not carry a full load of courses, and will be permitted on campus only during the time s/he is in class.]

OR

3. Attend night school or community college to earn the necessary credits for graduation.

C. Seniors who are short 2.5 or more credits toward graduation may return to Windsor High and carry a full load of courses.

Note: Any seniors returning for another year of school must meet the graduation standard of the students' original graduating class which is based on the year they entered high school.

VI. Residency Requirement:

To receive a Windsor High School diploma, students must have earned a minimum of 5.50 credits while attending Windsor High School. Of the 5.50 credits earned at Windsor High School, 2.50 credits must be earned during the senior year. Students transferring to Windsor High School and planning to graduate in June of the school year in which they transferred, must be enrolled at the school no later than February 1st of that same school year to receive a Windsor High School diploma.

SECTION 504 OF THE REHABILITATION ACT OF 1973 AND
TITLE II OF THE AMERICANS WITH DISABILITIES ACT OF 1990**

Section 504 of the Rehabilitation Act of 1973 ("Section 504") prohibits discrimination against individuals with a disability in any program receiving Federal financial assistance. Similarly, Title II of the Americans with Disabilities Act of 1990 ("Title II" or "ADA") prohibits discrimination against individuals with a disability by state and local governments. To be protected under Section 504 and the ADA ("collectively, "Section 504/ADA"), an individual must (1) have a physical or mental impairment that substantially limits one or more major life activities; (2) have a record of such an impairment; or (3) be regarded as having such an impairment.

In order to fulfill its obligation under Section 504/ADA, the Windsor Public Schools recognize a responsibility to avoid discrimination in policies and practices regarding its personnel, students, parents/guardians and members of the public who participate in school sponsored programs. In this regard, the Windsor Public Schools prohibit discrimination against any person with a disability in any of the services, programs or activities of the school system.

The school district has specific responsibilities under Section 504 to identify, evaluate and provide an educational placement for students who have a physical or mental impairment that substantially limits a major life activity. The school district's obligation includes providing access to a free appropriate public education ("FAPE") for students determined to be eligible under Section 504/ADA. Under Section 504, FAPE is defined as the provision of regular or special education and related services that are designed to meet the individual educational needs of a student with a disability as adequately as the needs of students without disabilities are met, and that are provided without cost (except for fees imposed on nondisabled students/parents).

If the parent/guardian of a student disagrees with the decisions made by the professional staff of the school district with respect to the identification, evaluation or educational placement of his/her child, the parent/guardian has a right to request an impartial due process hearing.

In addition, a student or parent/guardian of a student may also file an internal grievance/complaint on these issues or any other type of discrimination on the basis of disability by or within the district by utilizing the grievance/complaint procedures outlined in the Board's Administrative Regulations Regarding Students and Section 504 of Rehabilitation Act of 1973 and Title II of Americans with Disabilities Act, and/or may file a complaint with the Office for Civil Rights, U.S. Department of Education ("OCR"):

Timely reporting of complaints facilitates the prompt investigation and resolution of such complaints. If the complaint is made verbally, the individual taking the complaint will reduce it to writing.
- B. At any time, when a complaint involves discrimination that is directly related to a claim regarding the identification, evaluation or educational placement of a student under Section 504, the complainant may request that the Section 504/ADA Coordinator submit the complaint directly to an impartial hearing officer and request a hearing in accordance with Section III.D. Complaints regarding a student's rights with respect to his/her identification, evaluation or educational placement shall be addressed in accordance with the procedures set forth below in Section III.
- C. Retaliation against any individual who complains pursuant to the Board's policy and regulations listed herein is strictly prohibited. The district will not tolerate any reprisals or retaliation that occur as a result of the good faith reporting or complaint of disability-based discrimination or as a result of an individual's participation or cooperating in the investigation of a complaint.  - 1. The name of the complainant;
 - 2. The date of the complaint;
 - 3. The date(s) of the alleged discrimination;
 - 4. The names of any witness(es) or individuals relevant to the complaint;
 - 5. A detailed statement describing the circumstances in which the alleged discrimination occurred; and
 - 6. Remedy requested.

However, all complaints will be investigated to the extent possible, even if such information is not included in the complaint. In such circumstances, additional information may be requested by the investigator as part of the investigation process.

G. Upon receipt of the complaint, the individual investigating the complaint shall:

1. Provide a copy of the written complaint to the Superintendent of Schools;
2. Meet with the complainant within ten (10) school days to discuss the nature of the complaint, identify individuals the complainant believes have relevant information, and obtain any relevant documents the complainant may have;
3. Provide the complainant with a copy of the Board's Section 504 Policy, this procedure, and any other applicable administrative regulations;
4. Conduct an investigation that is adequate, reliable and impartial. Investigate the factual basis for the complaint, including conducting interviews with individuals with information and review of documents relevant to the complaint;
5. Maintain confidentiality to the extent practicable throughout the investigative process, in accordance with state and federal law;
6. Communicate the outcome of the investigation in writing to the complainant, and to any individual properly identified as a party to the complaint (to the extent permitted by state and federal confidentiality requirements), within fifteen (15) school days from the date the complaint was received by the Section 504 Coordinator or Superintendent. The investigator may extend this deadline for no more than fifteen (15) additional school days if needed to complete the investigation. (The complainant shall be notified of such extension). The written notice shall include a finding whether the complaint was substantiated and if so, shall identify how the district will remedy any identified violations of Section 504;
7. If a complaint is made during summer recess, as many steps of the investigation that can be completed must be given the availability of staff and/or other individuals who may have information relevant to the complaint. If fixed timeframes cannot be met, complainant will receive notice and interim measures may be implemented as necessary (see subparagraph 6);
8. Ensure that appropriate corrective action is taken whenever allegations are verified. When allegations are verified, ensure that compensatory services and or other measures to remedy the effects of the discrimination are appropriately considered, and offered, when appropriate. Corrective action should include steps to avoid continuing discrimination.

9. In the event the investigator concludes that there is no violation of Section 504, the District may attempt to resolve the complainant's ongoing concerns, if possible.

- H. If the complainant is not satisfied with the findings of the investigation, upon conclusion of the investigation, the complainant may present the complaint and written outcome to the Superintendent for review and reconsideration within thirty (30) calendar days of receiving the findings. This process provides an opportunity for complainants to bring information to the Superintendent's attention that would change outcome of the investigation. In submitting the complaint and written outcome for review, the complainant must explain why he or she believes the factual information was incomplete, the analysis of the facts was incorrect, and/or the appropriate legal standard was not applied, *and* how this would change the investigator's determination in the case. Failure to do so may result in the denial of the review.

Upon review of a written request from the complainant, the Superintendent shall review the investigative results of the Section 504 Coordinator and determine if further action and/or investigation is warranted. Such action may include consultation with the investigator and complainant, a meeting with appropriate individuals to attempt to resolve the complaint or a decision affirming or overruling the investigator's conclusions or findings. The Superintendent shall provide written notice to the complainant of his/her decision within ten (10) school days following the receipt of the written request for review.

Academic Eligibility Policy Revision Recommendation for BOE Consideration

Under current BOE mandated academic eligibility standards (established as BOE policy in 2009) more than 95% of WHS student-athletes have been consistently retaining academic eligibility to participate in interscholastic athletics since the inception of the policy. **The policy states a WHS student must achieve a minimum 71.0 GPA in all of his/her classes and not fail ("F") more than one (1) class in the preceding academic quarter to be eligible to participate after school in interscholastic athletics and/or in a leadership position in a school sponsored extracurricular activity or club.**

The current Director of Athletics (Steve Risser) for the District, who also serves as the Academic Eligibility Advisor at Windsor High School, recommends the following proposal as an addendum to the policy for special consideration by the BOE . This proposal would represent the first amendment to the policy since its inception and not adjust any of the existing grade performance standards for participation eligibility in interscholastic athletics and/or in a leadership position in an extracurricular activity or club.

The proposal is as follows:

"A one-time only opportunity is granted for a WHS student currently in his junior or senior academic year who becomes academically ineligible at the end of a quarter to earn back his academic eligibility mid-way through the succeeding quarter when progress reports are distributed. This one-time only opportunity would not include sophomore and freshman students."

So, in effect this proposal revision would allow a junior or senior student a one-time opportunity to have his eligibility reinstated when progress reports are released at mid-quarter if his grade performance meets the existing grade performance standards **(minimum 71.0 GPA and not fail ("F") more than one (1) class).**

Careful monitoring of the student's grades would take place through the end of the quarter and throughout the the remainder of the academic calendar by his interscholastic coach or activity supervisor, school counselor and the academic eligibility advisor. The student would be mandated to continue to attend the after-school study hall throughout the end of the quarter.

Rationale for the proposal:

- 1) Motivates an ineligible junior or senior student to quickly address and improve his/her academic grades.
- 2) Evidence exists that some senior students who become ineligible and therefore have no opportunity to earn back their eligibility for their senior season lose their motivation to perform academically sometimes leading to issues with on-time graduation.

(Rationale for Proposal-continued)

- 3) Capable academic students sometimes shy away from taking AP classes not wanting to put their eligibility at risk for participation in athletics and/or a leadership position in another extracurricular activity/club.
- 4) The Windsor BOE minimum academic standards for interscholastic athletics participation significantly exceed the Connecticut Interscholastic Athletic Conference (CIAC) state standards for athletic eligibility.
- 5) No evidence has been found showing any school district in the state of Connecticut with a more stringent academic eligibility requirement for participation in interscholastic athletics and leadership positions in other extracurricular activities/clubs. This one-time opportunity to regain eligibility at mid-quarter does not change the BOE grade performance requirements.

**BOARD OF EDUCATION POLICY
WINDSOR PUBLIC SCHOOLS

The Windsor Board of Education believes that student participation in intramural/interscholastic athletic programs and extra-curricular activities/organizations are important for the growth and development of well-rounded students. However, student academic performance is the Windsor Board of Education's highest priority and, therefore, students at Windsor High School will be required to meet certain academic standards, as set forth below, in order to be eligible to participate in these activities.

Furthermore, the Windsor Board of Education is committed to providing students with academic support to assist them in maintaining academic eligibility so that they may continue to participate in these activities.

Effective Date

This policy is effective with the start of the 2009-2010 school year.

Applicability of Policy

The academic standards set forth in this policy apply to all students attending Windsor High School who wish to participate in any intramural and/or interscholastic athletic programs, and/or in the role of an officer/leader of any extra-curricular activity and/or organizations, sponsored by the Windsor Board of Education.

Special Education students will be subject to this policy unless such students are excluded from the academic standards as determined by the Planning & Placement Team (PPT) or by a Section 504 Team Meeting.

Academic Standard For Eligibility

In order to be eligible to participate in activities covered by this policy, Windsor High School students must carry a full course load as defined in the AR, and maintain a "C-" average calculated as a 71 or higher with no more than one F. In addition, students participating in interscholastic athletic programs must meet the minimum eligibility requirements of the C.I.A.C.

Determining Eligibility

No later than ten (10) days after the close of each marking period, eligibility under this policy will be determined. Grades earned in summer school will be considered in calculating eligibility

under the policy. Students who do not meet the academic standard will be ineligible and will not be permitted to practice or be involved in any intramural or interscholastic athletic programs, or be involved in any extra-curricular activities, until the end of the following marking period, provided they then meet the academic standard.

Administration of Policy

The Superintendent shall adopt administrative regulations necessary to implement this policy. These regulations shall include a procedure for monitoring student academic performance and notifying parents and guardians that their son or daughter is at risk of becoming ineligible. Moreover, a system of academic support shall be put in place to assist those students at risk of becoming ineligible. This support system shall also be available for those students who are deemed ineligible.

Standard and Calculation of Eligibility

In order to be eligible to participate in any Board of Education sponsored interscholastic sports or to serve in a leadership role in any extra-curricular activities, Windsor High School students must maintain a "C-" average calculated as a 71 or better, have no more than one "F" and carry a full load of 6 courses, the exception being seniors who would only be required to carry 5 courses. In addition, students participating in interscholastic athletic programs must meet the eligibility requirements of the C.I.A.C. On or before the tenth (10th) day following the close of each marking period, calculation of student eligibility will be completed, using the following point values:

<u>Letter Grade</u>	<u>Assigned Point Value</u>
A+	98
A	95
A-	91
B+	88
B	85
B-	81
C+	78
C	75
C-	71
D+	68
D	65
D-	61
F+	58
F	48
F-	38

[* Incomplete grades will be treated as an F for purposes of this calculation.]

In order to determine eligibility at the beginning of each school year, the calculation will be based on the grades for the final quarter of the previous school year. The exception is incoming 9th grade students; the eligibility standard for these students will be applied at the end of the first quarter marking period. The eligibility of students transferring into Windsor High School will be based on the student's official transcript for the last full marking period completed by the student. The transcript of the student transferring into WHS must show that the student was

carrying a full course load, but no less than 4 Carnegie units. Averages will not be rounded up and there will be no exceptions to this regulation unless expressly provided for in a PPT or Section 504 Committee. If a student receives an F in the 4th quarter and fails the entire course, he/she can attend summer school to make up the failed course.

A grade earned in a summer school program will be added to the fourth quarter grades to determine the academic average for fall eligibility. Failed courses, though made up, will NOT be eliminated in this calculation. Students who have two or more Fs in 4th quarter will be ineligible regardless of summer school performance.

Notification and Academic Support

In order to assist students in maintaining eligibility to participate in intramural and/or interscholastic sports, and as leaders in extra-curricular activities, a system will be put in place to identify students who are at risk of becoming ineligible. Students identified as being in danger of becoming ineligible will be notified in writing, and written notification will also be sent to the student's parent or guardian. Academic assistance will be made available to each student identified as being at risk of becoming ineligible pursuant to this regulation. All students identified as being at risk of becoming ineligible must participate in the academic assistance program in order to continue to play in competitive games or serve as a leader in an extra curricular activity. Students at risk of becoming ineligible who do not participate in academic assistance may continue to practice or participate as a member of an extracurricular activity but will not be able to play competitively or serve as leaders of those extracurricular activities. The Superintendent of Schools and the Principal at Windsor High School will designate a liaison who will be responsible for administering this regulation and will create and implement appropriate programs and supports to assist students in maintaining their eligibility.

Affect of Ineligibility

Any student who does not meet the eligibility standard at the close of any marking period shall not:

1. Be permitted to participate in any way, either formally or informally, in any practice or activity covered by this policy; and

2. Be issued any uniform, equipment, or special clothing associated with the activity and, in the event such material has already been issued to the student, it shall be returned to the coach or advisor during the period of ineligibility.

This policy will be strictly enforced and there will be no exceptions to this policy unless expressly provided for in a PPT or by a 504 committee.
