Elementary Math TOSA

Lincoln County School District

Who

I am a math educator who believes strongly that ALL students have the potential to understand mathematics from a deep level and ALL teachers have an important role in the process.

What

Mentor and support teachers
to shift their math
instruction...

from → teaching mathematical topics
as procedures

to → facilitating student engagement
that will lead to a deeper
understanding of mathematics

What

It's not just about getting the "right answer" when solving math problems. It's about giving students time to think, question, and process the solution.

In addition, this student-centered approach allows students to form a positive math identity through their elementary years.

Why

Develop and Implement ways for teachers to adopt the National Council of Teachers of Mathematics (NCTM) Eight Effective Mathematics Teaching Practices

The implementation work that is being done presently engages teachers in these eight effective mathematics teaching practices.

Teachers focus learning goals on fluency over time, give students opportunities to engage in productive struggle and¹¹ discourse by building engaging, student-centered learning opportunities.

What teachers are saying about their students':

"A big part of what we've looked at this year, and worked to instill in students, is student-agency. Asking the questions then letting students do the thinking. Be more of a guide than a lecturer. Having them work in teams and share their learning orally. For many of my students this shows up in longer retention of the steps and strategies needed to solve problems."

[illegible]

"I see students more eager to engage in challenging material as I have been better able to provide small group opportunities based on knowing the curriculum from the previous year. I am filling learning gaps therefore they are better prepared for the current grade material and actually believe they can do it."

What our teachers are saying

“i-Ready curriculum was new to 6th grade this year. Jenn provided a full day of training on using the resources, planning the lessons, and instilling critical thinking strategies into the activities. Having also worked on the math team with her, we've been able to create teacher-led opportunities to encourage and guide our grade level teams in their math instruction.”

What our teachers are saying

“Working with the Math TOSA has helped me tremendously. I came in half way through the year last year with no prior teaching background and zero background in math outside of my own K-12 experience. Jenn helped be build a foundation of concrete math practices and strategies. How to engage students, break apart lesson, build on prior understandings and learn the power of manipulatives. My understanding and growth is all owed to my Math TOSA.”

Lincoln County School District Equity Team Land Acknowledgement Statement

We ask that you take a moment to stop what you are doing, to listen to these words as we recognize the land that we currently inhabit. No matter where each of us is physically located in Lincoln County, we must understand that we are on traditional homelands and unceded territories of indigenous peoples. Where we live in Lincoln County, these are the ancestral homelands for the Confederated Tribes of Siletz Indians.

Lincoln County School District acknowledges the Confederated Tribes of Siletz Indians that consists of over 30 bands originating from Northern California to Southern Washington. The Confederated Tribes of Siletz Indians currently occupy and manage 9,310 acres located here in Lincoln County but is a mere fraction of their original 1855 1.1 million-acre Siletz coastal reservation. We must remember the people of the Confederated Tribes of Siletz Indians are and will forever be the first stewards of this land, water, and fish.

We acknowledge and recognize the continued sovereignty of the Confederated Tribes of Siletz Indians and honor their ancestral homelands. We are committed to bringing awareness to their history and the existence of the Confederated Tribes of Siletz Indians since time immemorial.

NON-DISCRIMINATION: Lincoln County Schools do not discriminate nor tolerate discrimination on the basis of an individual's race, color, religion, sex, sexual orientation, national origin, disability, gender identity, marital status or age or because of the race, color, religion, sex, sexual orientation, national origin, disability, gender identity, marital status or age of any other persons with whom the individual associates.
