3.a. Bond Updates & Purchasing Policy

August 12th Board Update
Bond Issue & Investments
OSCIM Grant
Purchasing Policy

Bond Issuance

- The District recently sold its \$73.3 million voter-approved bond issue.
- The sale went extremely well with 7 times more orders than available bonds for sale.
- The District will receive approximately \$5.45 million in additional proceeds that can be used on projects in accordance with the voter-approved ballot title. These funds will be treated as contingency for cost increases and/or unexpected costs such as repairing dry rot or other currently unknown costs.
- Combined with the \$6 million OSCIM grant from the state, the District will have over \$84.2 million to spend on projects.
- The stellar results were due in large part to the District's receipt of an excellent credit rating level of "Aa3" from Moody's Ratings.
 - In their rating summary, Moody's noted "the district's large and growing tax base with strong full value per capita levels, reflecting a large number of second homes in the area."
 - Further, Moody's called out the District's strong financial practices, noting "the district's financial position is solid and expected to remain stable over the near term, supported by prudent budget management."
- The issue is expected to close and the district will receive funds on August 13th.

Investment of Bond Proceeds

- The District has engaged Piper Sandler's investments team to provide professional guidance to the Business Director on investing our bond funds. They have a long standing exemplary relationship managing Oregon School District bond proceeds.
- The District has opened a new Bond Local Government Investment Pool Account and a new Bond Money Market account with Oregon Coast Bank to keep all bond funds separate from other funds.
- All bond proceeds will be deposited into the OCB Money Market account on August 13th.
- Some proceeds will be held at OCB and some will be transferred to the Bond LGIP account to have cash available for the projects that are currently underway.
- The remainder of the proceeds will be invested in US Treasury Bill, Notes or Bonds with anticipated quarterly maturities which will be deposited into the OCB Money Market or LGIP accounts to pay ongoing project expenses.
- The Business Director will maintain oversight of the Bond investments and available cash. The Bond Office staff will focus on expenditure tracking and reporting.

Oregon School Capital Improvements Matching (OSCIM) Grant - \$6,000,000

- Bond issue must be complete before moving forward with the grant
- The spending plan for the grant must be complete before the agreement can be signed
- Requires Bond proceeds to be spent prior to reimbursement (\$12,000,000 total)
- We'll likely use some of the larger projects that are easier to invoice as they require detailed documentation of each expense

Purchasing Requirements & Board Approvals
(ORS 279, Board Policy DJA)
[District Procurement Policy DJA](#)

School Level Approval			Business Office Approval		Board Approval
Under \$25	\$25 - \$500	Up to \$1,500	\$1,500 - \$25,000	\$25,000 - \$250,000	\$250,000+ or \$100,000+ for Public Improvement Projects

 - 20% of an original contract under \$100,000
- **Sole Source Procurements**

The Board may declare goods/ services or classes of goods/services as sole source procurements and award contracts without competitive bidding for any or all of the following reasons:

- Efficient utilization of existing goods requires the acquisition of compatible goods/services
- Goods/services required for software/data exchanges are available only from one source
- Goods/services are for a pilot or experimental project
- Emergency condition exists making multiple quotes/bids impractical
- Only one source meets the quality or specifications required of the goods/services
- Will result in substantial costs savings to the district
- Other findings supporting the conclusion that goods/services are available from only one source

Written determination must be published at least once in a newspaper of general circulation in the area or published electronically if that is likely to be more cost-effective.

- Board approval should occur 14 days after publication of the notice to allow for protests
- To extent reasonably practical, price shall be negotiated to obtain advantageous contract terms.

- **Special Procurements (not for public improvement contracts)**

The Board may approve a special procurement if it finds that a written request demonstrates that the use of a special procurement as described in the request, or an alternative procedure prescribed by the Director or Board will:

- Result in substantial cost savings to the district or public, or will
- otherwise substantially promote the public interest in a manner that could not practicably be realized by complying with the requirements for small, intermediate or large procurements.

Requirements for all Purchases made without an RFP:

- Award shall be based on which best serves the needs of the District taking into account:

Price	Experience/specific expertise	Contractor Responsibility
Availability	Project understanding	Contractor capacity
- If quotes are required, documentation must be maintained and available for inspection
 - If not awarded to the lowest quote, document the reasons
 - If fewer than 3 quotes are available, efforts to obtain the third must be documented

- Must clearly state provisions for vendor comment on specifications which they feel limit competition
- Must be posted for a specified number of days (5-30 days depending on complexity/cost of contract) in a publication of general circulation in the area of the project.
 - This is typically Oregon Buys and/or the DJC (Daily Journal of Commerce) and may include other publications such as local newspapers.
- An RFP may be protested not less than 10 days prior to closing of submissions

Bidder Disqualifications:

- Insufficient financial ability, equipment or personnel to perform the contract
