MEMORANDUM OF AGREEMENT

NORTHLAND COMMUNITY AND TECHNICAL COLLEGE COLLEGE IN THE HIGH SCHOOL PROGRAM

WIN-E-MAC HIGH SCHOOL

JUNE 2025

This memorandum of agreement outlines the fee structure for the College in the High School (CHS) program between Northland Community and Technical College and the Win-E-Mac High School. This agreement also stipulates the requirement of Northland to provide a mentor for the high school instructor. Win-E-Mac High School will provide release time for their CHS instructors to attend an annual CHS Spring Conference which will be held in April of each academic year. Win-E-Mac High School will provide additional release time for first year CHS instructors to attend a new instructor orientation session which will be held on the Northland campus. Attendance of new instructor orientation as well as the CHS Spring Conference is mandatory. High School Instructors who do not attend the mandatory Spring Conference will be required to come on-site to Northland within 30 calendar days of the scheduled conference for a meeting with the CHS coordinator and the assigned mentor. If a high school instructor fails to attend a subsequent CHS Spring Conference, the CHS courses that were being taught by the instructor will be terminated the following academic year. Win-E-Mac High School is responsible for providing accommodations that are necessary to meet the Americans with Disabilities Act. Signatures below acknowledge that these educational institutions are willing to participate in this agreement and agree to abide by the above-stated stipulations and stated fee structure. Original signed and dated agreements should be on file in each of the following offices:

College in the High School Program
Northland Community and Technical College

Program Guidelines 2025 - 2026**

The Minnesota State Board of Trustees Policy 3.5, Post-Secondary Enrollment Options, states that "certain guidelines or restrictions shall apply to PSEO classes provided on-site at Minnesota high schools." The following guidelines apply to NCTC College in the High School (CHS) courses taught by high school teachers to high school students, through a cooperative arrangement between NCTC and the school district.

1. All CHS courses are regularly taught on the NCTC campus and are accepted as part of the general education requirement for the associate degree.
2. The NCTC CHS course cannot be used as a platform for other programs that offer college credit such as Advanced Placement, International Baccalaureate, and Project Lead the Way.
3. Instructors of college courses in high schools shall have:
 - a. A master's degree in the discipline to be taught.
 - b. A master's degree within any field, with 18 graduate semester credits in the discipline to be taught.
 - c. If the instructor is a Career and Technical Education (CTE) Instructor, the credentialing requirements vary based upon the field. Work experience (Recency Hours) varies as well as the minimum degree or certification requirement. High school instructors are advised to contact the specific CTE department for the specific requirements of their field.
4. All college policies and regulations which apply to instructional procedures and academic standards will apply to students and staff associated with these courses, except where superseded by sections of this policy.
5. Textbooks and other instructional materials specified in the course outline will be provided by the high school. Textbooks must meet the approval of the NCTC academic department and must be an acceptable edition.
6. If the CHS course is offered in multiple sections, the NCTC courses will also be in the same number of sections as the high school offers. High Schools are advised to have appropriate class sizes (recommended to follow NCTC class capacities).
7. NCTC will work with the high school to determine course placement in reading and math per multiple measures assessment. NCTC will also register students, provide class lists, determine procedures for adding or dropping courses, enter grades and maintain/distribute transcripts.
<https://www.northlandcollege.edu/academics/multiple-measures-assessment-and-placement/>

8. Class enrollment is limited to high school juniors and seniors registered in the CHS program. Sophomores are eligible to take one technical course per semester. These students must meet the following criteria:
 - a. 3.0 cumulative GPA if taking liberal arts courses. 2.5 GPA for Career and Technical Education courses. Effective the 20-21 school year, Juniors or Seniors who have a 2.75 GPA can register for one liberal arts course their first semester and if successful with a C or higher grade, can register for additional courses in their second semester.
9. Tutoring services are available to all CHS students through the NCTC Academic Success Center. The student will need to sign in with their Star ID and password and the services are available on the D2L platform
10. For each course, the high school instructor and the assigned NCTC mentor will work together, as follows:
 - a. A course plan shall be developed which addresses:
 - i. The length and number of class meetings and how they will be used to cover the subject matter of the course.
 - ii. Library resources and required materials and tests.
 - iii. Attendance policy and how it applies to grading.
 - iv. Testing procedures and grading processes.
 - d. For high school instructors who teach the course for the first time, four face-to-face meetings are recommended as follows, or as needed:
 - i. At least one planning meeting between the assigned college instructor and the high school instructor prior to the start of the semester. The required training meeting would qualify for this meeting.
 - ii. At least two in-person classroom observations by the assigned college mentor. Written reports of these observations shall be made to the NCTC CHS coordinator and would be available to the high school principal if the CHS instructor grants approval.
 - iii. At least one follow-up meeting between the assigned college instructor and the high school instructor.
 - e. For high school instructors who have taught the course previously, at least two meetings should be arranged, or as needed. One of the meetings can be the annual Fall Conference.
11. College in the High School Professional Development Conference will be held in April of each academic year. Attendance is mandatory for all high school instructors who teach CHS courses. High school instructors who do not attend the mandatory PD Conference will be required to come on-site to Northland Community & Technical College within 30 calendar days

of the scheduled conference for a meeting with the CHS coordinator and with the assigned mentor. If a high school instructor does not attend, a subsequent CHS PD Conference, the CHS courses that were being taught by the instructor will be terminated the following academic year. Attendance at the PD Conference is strongly encouraged for CHS coordinators, guidance counselors & principals.

12. New Instructors teaching CHS courses for the first time will be required to attend an orientation session which will be led by the CHS coordinator. The training, which is a separate meeting, will be led by the assigned mentor. The training will cover all aspects of the course which they will be teaching. Information such as course syllabi, learner outcomes, textbook approval, course assessments, grading rubrics, pedagogy, etc. will be covered in this training.
13. The maximum number of NCTC credits available shall not exceed 29 credits. Multiple sections of the same course will count as one course.
14. Course Cancellation will occur if the high school determines enrollment numbers do not support a class or if a qualified instructor is not available to teach the course. Notification must be given to the NCTC CHS coordinator, and the student services department will terminate the course and drop the registered students from the course.
