

**Notice of Regular Meeting  
Board of Trustees  
June 16, 2020**

A Regular Meeting of the Board of Trustees will be held on June 16, 2020, beginning at 6:00 PM, in the Virtual Meeting.

The subjects to be discussed or considered or upon which any formal action may be taken are listed below. Items do not have to be taken in the same order as shown on this meeting notice. For more information about public comment, see Policy BED. Unless removed from the consent agenda, items identified within the consent agenda will be acted on at one time.

This meeting will be held virtually due to restrictions and quarantines caused by the COVID-19 virus.

Here is the information to join the meeting:

## **SUPERINTENDENT'S INFORMATION TO THE BOARD**

### **June 16, 2020**

1. **Executive Order** – Last Tuesday, the **Commissioner of Education Mike Morath** issued an update to the **Summer Instruction, Activities and School Visits: Guidance for Reopening and Student Interaction** (attached). District and campus administration are working together to review these latest recommendations. We are also discussing operationalizing the recommendations in La Vega ISD.
2. **Personal Protection Equipment (PPE)** – The **Commissioner of Education** informed school districts that the state would provide PPE to some school districts for the 2020 -2021 school year. Due to PPE scheduled to arrive late July to early August, the District is making plans to purchase PPE to begin teacher in-service and possibly the beginning of school.
  - Disposable Masks – 28,736
  - Reusable Masks – 7,184 (tentative)
  - Gloves – 13,764
  - Thermometers – 23
  - Hand Sanitizers – 295 (gallons)
  - Student Face Shields - TBD
  - Adult Face Shields - TBD
  - Dividers - TBD
3. **Child Nutrition Services** – Summer meals are provided Monday, Wednesday, and Friday at La Vega Intermediate H. P. Miles Campus, La Vega Junior High George Dixon Campus, and La Vega High School, 11:00 AM – 12:30 PM. Children receive extra meals to cover the non-distribution days.

Guidance below is intended for in-school instruction and visits by students, teachers, and staff, starting June 1 as part of:

- Summer learning options if offered by school systems, including
  - o In-person summer school programs including staff and student participants
  - o Virtual summer school programs, which may require some teachers to use school facilities to deliver instruction
- Instructional activities that school systems would like to prioritize during the summer (e.g., special education evaluations, specialized assessments, individualized tutoring, etc.)
- Administrative activities by teachers, staff, or students (e.g., locker clean out, return/retrieving band instruments, etc.)
- Any other activities that teachers, staff, or students must complete and cannot be accomplished virtually

*This guidance replaces previous guidance issued by the agency regarding teachers and [staff](#) and [student](#) use of school facilities. Please see [here](#) for guidance regarding promotion ceremonies.*

**This guidance has been updated as of June 9, 2020. Changes in this version include:**

- 1) Requires school systems to post summary of practices they plan to use to mitigate COVID-19 spread, based in the practices and requirements in TEA guidance.
- 2) Recommends identifying a point person for each school regarding COVID-19 concerns.
- 3) Increases the number of students allowed in a class group by requiring application of three factors related to minimum square footage per person in the classroom, desks spaced six feet apart, and an overall cap of 22.
- 4) Allows participation in non-UIL activities (and links to detailed non-UIL activity guidance, which can be found [here](#))
- 5) Adds hand washing stations as options in addition to hand sanitizer in classrooms and at entrances.
- 6) Provides additional clarification around the wearing of masks and face coverings.
- 7) Adds recommendations aligned to CDC guidance that were not previously included, including encouraging students to cover coughs and sneezes with a tissue,
- 8) Includes recommendation regarding adding physical barriers to desks
- 9) Amends transportation recommendations to clarify that students in the same household may sit together on the bus.
- 10) Adds recommendations related to school planning for response to a COVID-positive or symptomatic student.

**Public Health Considerations**

The virus that causes COVID-19 can infect people of all ages. Research from the Centers for Disease Control, among others, has found that while children do get infected by COVID-19, relatively few children with COVID-19 are hospitalized. However, some severe outcomes have been reported in children, and a child with a mild or even asymptomatic case of COVID-19 can spread the infection to others who may be far more vulnerable.

While it is not possible to eliminate all risk of furthering the spread of COVID-19, the current science suggests there are many steps schools can take to reduce the risks to students, teachers, staff, and their families significantly.

Even if an infected person is only mildly ill, the people they spread it to may become seriously ill or even die, especially if that person is 65 or older with pre-existing health conditions that place them at higher risk. Because of the hidden nature of this threat, everyone should rigorously follow the practices specified in these protocols, all of which facilitate a safe and measured reopening of Texas.

School teachers and staff will need to be trained specifically on the protocols outlined in this document and the practices adopted by their school system. Additionally, while not developed with this exact guidance in mind, Texas Agri-Life Extension offers a free online course on [Special Considerations for Infection Control During COVID-19](#) (2hrs). This course is intended for frontline childcare workers, but the principles of the course apply equally to those working in school settings.

### **Developing a Plan for On-Campus Activities and Instruction**

School systems should take their local context into account when deciding whether to offer summer school on campus by monitoring the situation on the Texas Department of State Health Services [dashboard](#).

If a school system does offer on-campus instruction or activities, it should follow the guidance in this document to the greatest extent possible. Because of the proximity between individuals, particularly in indoor facilities, stringent compliance with these protocols is strongly recommended. Please note that this document contains both requirements and best practices.

It is recommended that, school systems designate a staff person on each campus to be responsible for responding to COVID-19 concerns. All school staff and families should know who this person is and how to contact them.

### **Bringing Students on Campus**

#### *Summer School Programs and Other Instructional Activities*

1. Any instructional activity to be completed at school, including summer school, should either be optional or, if it is mandatory, should be able to be completed virtually. Students who are mandated by their school system to attend summer school as a condition of promotion to the next grade or to otherwise obtain course credit may not be required to attend in-person but would still need to satisfy district academic and/or participation requirements virtually if they do not attend in person.
2. School systems may consider prioritizing the availability of on-campus summer school for:
  - Students with significant academic gaps;
  - Students with disabilities whose needs pose additional challenges to learning in a virtual environment but who are otherwise not medically at risk;
  - Student learning experiences that cannot be done remotely, such as certain Career and Technical Education (CTE) learning experiences for middle and high school students;
  - Students experiencing homelessness;
  - English learners;
  - Younger students whose parents may have greater need of childcare to allow them to work; and/or
  - Students in protective day service who are not otherwise medically at risk.

### **Operational Considerations:**

### *Instruction*

Encourage students to practice social distancing and minimize the number of students who they encounter regularly.

1. When determining the number of students in a classroom group in a typical classroom space, the school must apply all three of the following factors:
  - Each individual (teacher, staff, or student) must have a minimum of 45 square feet of space in the classroom.
  - No more than 22 total individuals can group in a typical classroom space (i.e., not a cafeteria, gym, library, or other larger space.)
  - Student desks (or seats at a table if tables are used) must be placed a minimum of six feet apart. It is recommended that students face the same direction rather than facing each other.

Using these requirements, for example, would mean that:

- An 800 square foot room could serve 17 individuals (800 sq. ft/45 sq. ft=17.8; round down to 17), so long as the room configuration allowed for desks to be placed six feet apart; and
  - A 1,200 square foot room could serve 22 individuals, so long as the room configuration allowed for desks to be placed six feet apart (1,200 sq. ft/45 sq. ft=26.67; however, 22 individuals is the maximum in a classroom space).
2. Multiple groups can meet in a larger space such as a gym or cafeteria, so long as the school applies all four of the following factors:
    - Each individual (teacher, staff, or student) must have a minimum of 45 square feet of space.
    - Students must be separated into distinct groups that cannot exceed 22 individuals, including students, teachers and staff.
    - Student desks (or seats at a table if tables are used) must be placed a minimum of six feet apart. It is recommended that students face the same direction rather than facing each other.
    - Each class group must be separated from other groups by at least 12 feet.

Using these requirements, for example, would mean that:

- A 3,000 square foot cafeteria might serve two groups of 22 with 12 feet between student groups, so long as the room configuration allowed for desks to be placed six feet apart. One teacher might serve both of these groups or the groups may have separate teachers. (The exact number of groups and number of individuals total served in a 3,000 square foot space is determined by the layout of the space.)
  - A 7,800 square foot gymnasium might serve three groups of 22 with 12 feet between student groups, so long as the room configuration allowed for desks to be placed six feet apart. One teacher might serve both of these groups, or they may have separate teachers. (The exact number of groups and number of individuals total served in a 3,000 square foot space is determined by the layout of the space.)
2. Whenever possible, students, teachers, and staff should maintain consistent groupings of people to minimize virus spread in the school. Specifically:
    - Elementary school students should be taught in self-contained classes, if at all possible; and
    - Secondary students should be taught in self-contained classes, if possible and, when that is not possible, should be exposed to as few different individual teachers as possible.

The rationale for this limitation is that each additional individual exposure presents greater opportunity for virus spread. If, for example, three classes are taught by a single science teacher, and a student in one of those classes contracts COVID-19, all three classes are considered a single class

group for purposes of potential exposure, because they all have extended exposure to an individual who could spread the virus, and all will need to follow protocols listed under “Positive Cases” below.

3. Whenever possible and developmentally appropriate, there should be no group or pairs work that would require students to regularly interact within six feet, recognizing that this is not possible for early childhood students and some students with disabilities.
4. When students must be taught by multiple teachers, it is better for students not to be brought together with those in other classes for shared instruction or mixed with other classes during elective or other periods or between classes.
  - Rather than having students change from classroom to classroom, consider having teachers rotate between classes while students stay in one class to minimize students encountering others in the hallway.
  - Alternatively, schools could stagger class start and end times to minimize the number of students in the hallway during passing periods.
5. Students must not be brought together in assemblies, field trips, or other group gatherings outside of their class group, unless the distancing of 12 feet between groups can be maintained.
6. When feasible and appropriate, it is preferable for students to gather outside rather than inside, because of likely reduced risk of virus spread outdoors. If students gather outside, they should maintain the maximum group size of 22 noted above and maintain 12 feet between groups.
7. Participation in extracurricular activities on campus is permitted under the following conditions:
  - Students may participate in UIL-approved conditioning or training programs, consistent with [UIL guidance](#).
  - Students may participate in conditioning or training programs for non-UIL activities that typically compete or conduct activities during the fall semester, consistent with Guidance on Non-UIL Activities, posted in the [Closure Guidance](#) section of the TEA coronavirus website.

Students participating in these activities can make use of school gyms, weight rooms, and other indoor facilities, consistent with either UIL or non-UIL guidance linked above, while supervised by school staff. Indoor facilities are to remain closed for purposes of athletic or fitness activities to unsupervised students and to the community.

### *Health and Hygiene Practices*

1. Teachers and staff should self-screen for COVID-19 symptoms before coming onto campus. Before coming onto campus and at the start of every week of instruction, all students should be pre-screened for COVID-19 symptoms that they or others living in their house will experience. Screening of students can be completed by phone prior to the first day of school and/or prior to entering the campus in person or in writing. The symptoms to screen for are listed at the bottom of this document.
2. School teachers and staff should take the temperature of each student each day they are on campus, if possible.
3. Schools should have hand sanitizer and/or hand washing stations with soap and water at each entrance and require students, teachers, and staff to use it whenever they enter the building. Hand sanitizer or hand washing stations with soap and water should also be available in every classroom, and students and teachers should be encouraged to sanitize and/or wash hands frequently. Students, teachers, and staff should also wash hands or use hand sanitizer after they have touched something another person recently touched.

4. Staff and students should be encouraged to cover coughs and sneezes with a tissue. Used tissues should be thrown in the trash, hands should be washed immediately with soap and water for at least 20 seconds, or hand sanitizer should be used.
5. Students should be instructed in good handwashing techniques and given frequent opportunities to wash their hands.
6. Students should engage in supervised handwashing for at least 20 seconds at least two times each day, in addition to being encouraged to wash hands after using the restroom and before eating.
7. Consider adding physical barriers, such as plastic flexible screens, between bathroom sinks, especially when students cannot be at least six feet apart while using the sinks.
8. Consistent with the actions taken by many organizations across the state, consider having all employees wear cloth face coverings (over the nose and mouth). If available, employees should consider wearing non-medical grade face masks. Similarly, consider having all students for whom it is developmentally appropriate wear cloth face coverings (over the nose and mouth), except while doing an activity where the mask cannot be worn (e.g., eating). Masks or face coverings are especially important in hallways, between classes or at the beginning and end of the school day when students may congregate and class groups may not be as easily isolated from one another. It is most likely not developmentally appropriate for students younger than five years old and for some students with disabilities to wear masks or face coverings. Young children and persons who are unable to adjust or remove face coverings should not be regarded as suitable candidates for wearing face coverings. The decision is up to the individual or their parent, guardian, or attendant.
9. Where possible, dividers should be placed on desks if they can serve the purpose of shielding students, teachers, and staff from respiratory droplets with which they might otherwise come into contact. This could be particularly helpful in settings where individuals cannot otherwise wear cloth face coverings or masks.
10. The CDC provides a range of [printed resources](#) such as posters that promote protective measures and can serve as helpful reminders of best practices. Schools may use these or may create their own reminders.
11. Campuses should institute more frequent cleaning practices, including additional cleaning by janitorial staff, as well as provide the opportunity for children to clean their own spaces before and after they are used, in ways that are safe and developmentally appropriate. Arrange for additional cleaning and disinfecting of surfaces that are touched in common throughout the day. This would include objects such as door handles, common tables/desks, shared supplies such as art supplies, and high touch devices such as shared laptops or tablets. Arrange for cleaning of commonly-touched surfaces in classrooms between different class groups, if the same room will be used by multiple class groups. The CDC has provided [guidance on cleaning community buildings](#) to prevent COVID-19 spread. Schools must ensure these products are stored safely, including storing harmful products where children cannot access them, and ensuring that harmful cleaning products are not used near children.
12. Whenever possible, schools should open windows or otherwise work to improve air flow by allowing outside air to circulate in the building.
13. If a building has remained dormant for an extended period, we recommend you review [CDC guidance on maintaining water system safety](#) when buildings are unused for extended periods of time and apply this guidance as appropriate.

### *Other Operational Considerations*

1. Campuses will need to plan for entry and exit procedures that reduce the number of students and parents congregating outside and/or mixing in the hallways. Consider staggering school start and end times, assigning students to entries to ensure even distribution of students entering/exiting at each door, providing guidance to students to enter one at a time and wait six feet apart outside the entrance, and, where appropriate, encouraging parents to remain outside during drop-off and pick-up.
2. Parents can participate in school visits if their participation is needed. In these cases, parents should follow the guidance in this document. School systems and parents should consider how to minimize visits inside the school building when they are not needed to reduce the number of individual interactions during summer school (e.g., have parents drop off and pick up students outside the school rather than inside).
3. To the extent possible, students should eat lunch at their desks. When this is not possible, students could have assigned seats in the cafeteria that allow students to maintain social distancing. Students who do not bring their own lunch should be served individually plated meals with disposable food service items.
4. Schools will need to consider how to minimize virus spread as a result of play space use.
  - Older elementary students who can follow social distancing protocols should be asked to keep six feet apart while using play spaces. For these children, it may also help to restrict class groups to specific areas of the play space using cones, caution tape, or a natural barrier, with the intent of preventing students from interacting across class groups and increasing virus spread. Alternatively, schools can send only one class group to a play space at a time.
  - For the youngest students, including early childhood and early elementary students, as well as some students with disabilities, social distancing on play spaces will not be possible or developmentally appropriate. These students are also unlikely to attend to a natural barrier or cones. In these cases, it is recommended that, as much as possible, only one class group uses a play space at a time.
  - Students in age groups who do not need to use play equipment for recreation should not spend their recreation time in play spaces, if possible, and should maintain social distance at all times when outside, just as they do inside.
5. Employees of school systems, like employees of any organization, must continue to meet the work expectations set by their employers, subject to any applicable employment contract terms. However, school systems will need to plan for increased teacher attrition and potential future illness and should develop policies that encourage sick employees to stay home. For teachers and staff members who are at particular risk, consider options to allow them to work remotely. Systems should consider hiring additional teachers to plan for these possibilities.

### *Bus Planning Recommendations*

1. School systems should reduce the number of students on a bus route and consider grouping bus routes to align to class groupings to minimize cross-group exposure.
2. Students, teachers, and staff should use hand sanitizer upon boarding the bus.
3. Students who do not live in the same household should be seated at least six feet from other students on the bus (in most cases, this will mean one student per row, on opposite sides of the bus). Students should stay in their seats.
4. Encourage families to drop students off, carpool, or walk with their student to school to reduce possible virus exposure on buses.

5. Buses should be thoroughly cleaned after each bus trip, focusing on high-touch surfaces such as bus seats, steering wheels, knobs, and door handles. During cleaning, open windows to allow for additional ventilation and air flow, which is helpful in mitigating COVID-19 spread.
6. Whenever possible, schools should open windows or otherwise work to improve air flow by allowing outside air to circulate in the bus.

#### **Positive Cases and Teachers, Staff, or Students Showing COVID-19 Symptoms**

1. Schools must have a plan for immediately separating any student who shows COVID-19 symptoms while at school until the student can be picked up by a parent or guardian.
2. Schools should close off areas used by a sick individual (student, teacher, or staff) until they can be disinfected. If possible, wait 24 hours to clean these areas to increase the chances of the virus becoming inactive. If 24 hours is not possible, wait as long as possible.
3. If a positive case is identified for a summer school participant, whether teacher, staff, or student, the school must identify any individuals who had regular or close contact with the affected participant. This will include the entire class (students, teachers and staff) and potentially other teachers and staff (if multiple teachers work regularly with the student or staff member). If those teachers or the students interacted with other students or staff on a regular basis or came in close contact with them, those students and staff should be considered potentially exposed as well and should be screened for symptoms and tested for COVID-19 before returning to school.
4. All participants of the summer school program must receive written notification if a positive COVID-19 case is identified among summer school participants (teachers, staff, or students). For students, such written notification is to be provided to the parents or guardians of the students. The school must also notify its [local health department](#).
5. Any teacher, staff member, or student who experiences any of the symptoms of COVID-19 (listed below) should self-isolate until the below conditions have been met.
  - In the case of an individual who was diagnosed with COVID-19, the individual may return to the summer school program when all three of the following criteria are met: at least three days (72 hours) have passed since recovery (resolution of fever without the use of fever-reducing medications); and the individual has improvement in symptoms (e.g., cough, shortness of breath); and at least ten days have passed since symptoms first appeared; or
  - In the case of an individual who has symptoms that could be COVID-19 and does not get evaluated by a medical professional or tested for COVID-19, the individual is assumed to have COVID-19, and the individual may not return to work until the individual has completed the same three-step criteria listed above; or
  - If the individual has symptoms that could be COVID-19 and wants to return to the summer school program before completing the above self-isolation period, the individual must obtain a medical professional's note clearing the individual for return based on an alternative diagnosis.
6. Any student, teacher, or staff member living with someone who experiences any of the symptoms of COVID-19, whether they have a positive COVID-19 test or not, should self-isolate until the above conditions have been met. If they do not experience any COVID-19 symptoms during that period, they can return to summer school. If they experience symptoms, they must self-isolate until the conditions outlined above have been met.

### COVID-19 Symptoms for Screening

- Cough
- Shortness of breath or difficulty breathing
- Chills
- Repeated shaking with chills
- Muscle pain
- Headache
- Sore throat
- Loss of taste or smell
- Diarrhea
- Feeling feverish or a measured temperature greater than or equal to 100.0 degrees Fahrenheit
- Known close contact with a person who is lab confirmed to have COVID-19

Contact Person:

Ms. Diane Roepke

Background Information:

Section 2.10.6 of the Financial Accountability System Resource Guide, version 14.0, dated January 2010, states that budget amendments are mandated by the state for budgeted funds reallocated from one function level, and state and/or federal project to another. These budget changes are usually the result of unexpected levels of expenditures in certain categories and must be amended in the budget for legal compliance.

All budget amendments are required to be adopted by the last day of the fiscal year. All necessary budget amendments must be formally adopted by the school board and recorded in the board minutes.

Fiscal Implication:

Budget amendments are included that move from one function to another.

Administrative Recommendation:

It is recommended that the Board approve the attached Budget Amendments as presented.

### Background Information:

Following the review of program effectiveness (May 19, 2020), of Optional Flexible School Day Program (OFSDP) student performance at the Success Academy for 2019-2020, the board approved continuation. The board directed staff to complete the annual application to plan to participate. The OFSDP is a program, authorized under the Texas Education Code (TEC), §29.0822 and 19 Texas Administrative Code (TAC), §129.1027 that your school district or open-enrollment charter school may offer to provide flexible hours and days of attendance for students in any grade who meet one of the following criteria:

1. the student is at risk of dropping out of school, as defined by the TEC, §29.081;
2. the student, as a result of attendance requirements under the TEC, §25.092, will be denied credit for one or more classes in which the student has been enrolled;
3. the student is attending a campus with an approved early college high school program designation;
4. the student is attending a campus operating under a commissioner approved turnaround plan; or
5. the student is attending a community-based dropout recovery education program, as defined by TEC, §29.081 (e-1) or (e-2).

Participation in the program additionally requires the student, if less than 18 years of age and not emancipated by marriage or court order, and the student's parent, or person standing in parental relation to the student, to agree in writing to the student's participation.

The goal of the program is to improve graduation rates for students who are in danger of dropping out of school, have dropped out, or who are behind in core subject courses.

### Fiscal Implication:

Recovery of truant and drop-out students provides additional ADA

## APPLICATION

### Optional Flexible School Day Program (OFSDP)

2020-2021 School Year

**ELIGIBLE APPLICANTS:** The Texas Education Agency (TEA) will make available to eligible school districts and open-enrollment charter schools an application form that must be completed and submitted to the TEA for approval.

## Definition of Program Provisions

### Eligible Students

A student is eligible to participate in an optional flexible school day program (OFSDP) authorized under the Texas Education Code (TEC) §29.0822, if:

1. the student meets one of the following conditions:
  - the student is at risk of dropping out of school, as defined by the TEC, §29.081; or
  - the student, as a result of attendance requirements under the TEC, §25.092, will be denied credit for one or more classes in which the student has been enrolled;
  - the student is attending a school with an approved early college high school program designation; or
  - the student is attending an academically unacceptable campus implementing a campus turnaround plan approved by the commissioner under TEC 39A Subchapter C; or
  - **the student is attending a community-based dropout recovery education program as defined by TEC, §29.081 (e-1) or (e-2).**

**and**

2. the student, if less than 18 years of age and not emancipated by marriage or court order, and the student's parent, or person standing in parental relation to the student, agree in writing to the student's participation.

### Assessment

The student must take the required state assessments specified under the TEC, §39.023, during the regularly scheduled assessment calendar.

### Participation in University Interscholastic League (UIL)

A student enrolled in an OFSDP under the TEC, §29.0822, may participate in a competition or other activity sanctioned or conducted under the authority of the University Interscholastic League (UIL) only if he or she meets all UIL eligibility criteria.

### Attendance Credit

A student attending an OFSDP under the TEC, §29.0822, may be counted in attendance for purposes of funding under the TEC, Chapters 46, 48, and 49, only for the actual number of contact hours the student receives, not to exceed 720 hours or 43,200 minutes per 12-month period. **Students in enrolled in the traditional program for part of the year and the OFSDP program for part of the year may not earn more than one ADA.**

### Board Approval

The board of trustees of a school district must include the OFSDP as an item on a regular agenda for a board meeting. Board of trustees of a school district must discuss the progress of the program before approving the program and applying to operate an OFSDP. (see Appendix Two).

## **Continuation or Revocation of Program Authorization**

Applications are approved for a period of one (1) school year. Continuation of the approval for the OFSDP will be contingent on the demonstrated success of the program. Determination of success will include a review and analysis of data provided in the mandatory final progress report(s). The commissioner of education may revoke authorization for participation in the OFSDP after consideration of relevant factors, including performance of students participating in the program on assessment instruments required under the TEC, Chapter 39; the percentage of students participating in the program who graduate from high school; and other criteria agreed to in the application and adopted by the commissioner of education. A decision to revoke approval of the program by the commissioner of education is final and may not be appealed.

## **Reporting Requirements**

Following approval of the application, the applicant may be required to submit progress reports based on criteria selected by the applicant and agreed to by the commissioner. When requested, reports will require applicants to disclose the overall progress of the students in the program, the number of students enrolled in the program (disaggregated by ethnicity, age, gender, and socioeconomic status), the number of students graduating from high school (disaggregated by ethnicity, age, gender, and socioeconomic status), and additional criteria selected by the applicant and agreed to by the commissioner. The TEA will provide notice to applicants and additional instructions for completion of reports at least 45 days before the date a report is due, or as soon as possible, in order to give school districts and charter schools adequate time to prepare and submit the reports to the TEA. The TEA may request additional reports as necessary to monitor and assess progress of students participating in the program.

## Article I - Parties to Agreement

### Provisions of Agreement

This agreement is entered into by and between the Texas Education Agency, an agency of the State of Texas, hereinafter referred to as the "TEA," and

## Appendix One Assurances

**The definition of terms of the application applies to this Appendix One. Assurances. The school district or open-enrollment charter school hereinafter called “district” does hereby certify and agree to the following conditions of the agreement.**

**PAGE LIMIT: SUBMIT NO ADDITIONAL PAGES FOR APPENDIX ONE. ALL INFORMATION REQUESTED MUST BE INCLUDED WITH THIS FORM.**

The district agrees to enroll only eligible students to participate in an OFSDP authorized under this application. A student is eligible to participate in an OFSDP authorized under the TEC, §29.0822, if:

1. the student meets one of the following conditions:
  - the student is at risk of dropping out of school, as defined by the TEC, §29.081; or
  - the student, as a result of attendance requirements under the TEC, §25.092, will be denied credit for one or more classes in which the student has been enrolled;
  - the student is attending a school with an approved early college high school program designation; or
  - the student is attending an academically unacceptable campus implementing a campus turnaround plan approved by the commissioner under TEC 39A Subchapter C; or
  - the student is attending a community-based dropout recovery education program as defined by TEC, §29.081 (e-1) or (e-2).
- and**
2. the student, if less than 18 years of age and not emancipated by marriage or court order, and the student's parent, or person standing in parental relation to the student, agree in writing to the student's participation.

The district agrees:

1. to administer mandatory assessment instruments during the regular assessment cycle to students enrolled in OFSDPs;
2. All instructional materials and facilities must be comparable to or exceed the required standards for students in similar programs;
3. that the students participating in an OFSDP will not be isolated from other academic and vocational programs of the school district and that all students will have access to school counselors for pre- and post-entry counseling, academic or personal counseling, and career counseling;
4. to provide faculty and administrators with baccalaureate or advanced degrees, highly qualified staff, and certified teachers as required by 19 Texas Administrative Code §129.1027 for the program;
5. to adopt a policy that does not penalize students participating in an OFSDP in accordance with the 90% rule (TEC, §25.092[a]) or the 75% to 90% rule for class credit (TEC, §25.092[a-1]);
6. to adopt a policy to require students to attend regularly scheduled instruction for the OFSDP with penalties for nonattendance including filing truancy charges, if appropriate;
7. to track the number of minutes the student receives instruction each day and to comply with applicable sections of the [Student Attendance Accounting Handbook](#).

8. to comply with all reporting requirements established by the TEA;
9. not to discriminate based on disability, race, color, national origin, religion, or sex; and
10. to prohibit a student participating in an OFSDP from participating in a competition or other activity sanctioned or conducted under the authority of the UIL unless the student meets all UIL eligibility requirements.

## **Appendix Three**

### **Attendance and Compliance Procedures of Proposed Program**

**The definition of terms of the application applies to this Appendix Three. Attendance Procedures of Proposed Program. The school district or open-enrollment charter school hereinafter called “district” does hereby certify and agree to the following conditions of the agreement.**

**Concisely provide the information below on separate 8 ½” x 11” sheets of paper:**

1. Please indicate the number of OFSDP students that will be served per teacher.
2. **If** the OFSDP program will offer special education, career and technology education, pregnancy related services or bilingual education, please indicate how services will be provided, the teacher certification standards in each program area, and how services will comply with the [Student Attendance Accounting Handbook](#).
3. OFSDP requires a teacher of record to record the actual number of students’ instructional minutes on any given day. Please explain the following:
  - a. How the classroom teacher will verify the number of minutes of instruction a student receives each day.
  - b. How the district will make sure that minutes for students who did not attend a minimum of 45 minutes on a particular day are not reported for funding.
  - c. How the district will make sure that students transferring from the traditional program (ADA Codes 0-6) to OFSDP (ADA Codes 7-8) will not generate more than one ADA in total for the school year and that students will not receive more than 10,800 minutes per course. It is recommended that the district apply the following formula to determine the maximum OFSDP minutes a student is eligible = (Calendar School Days - Traditional Days Present x 240).
  - d. How the district will ensure that attendance practices and records comply with Sections 2.2.3 and 11.6 of the [Student Attendance Accounting Handbook](#).
  - e. How Student Detail Audit reports for the OFSDP track will be reviewed and certified each six-weeks.

**NOTE: absences and days present do not exist in the OFSDP program**

4. **If** students are attending a community-based dropout recovery education program offered online as defined by TEC, §29.081 (e-2), please include the following:
  - a. Describe the curriculum credentials, certifications, or other course offerings that relate directly to employment opportunities in the state.
  - b. Describe the individual learning plan or process used to monitor each student’s progress.
  - c. Indicate how student will be served by an academic coach and local advocate.
  - d. Indicate the date of the month that monthly student progress reports will be provided to the student’s school district.
  - e. Describe the educational software utilized and explain how the software will track and certify the number of instructional minutes each student receives each day.

### Attendance and Compliance Procedures of Proposed Program

1. The total number of OFSDP students served per teacher ranges from 6-10 students per semester for a yearly total of approximately 30 students.
2. The OFSDP program offers special education and bilingual education services. The program has two full-time teachers and one three-quarter teacher plus support staff. Between the three teachers, two have the required certifications for special education and ESL.
  - a. Lead Teacher
    - i. Generalist 4-8
    - ii. Special Education (EC-12)
    - iii. English as a Second Language Supplemental (EC-12)
    - iv. Principal (EC-12)
  - b. Full-time classroom teacher – provides support for all ESL students. This certified teacher has the following certificates:
    - i. English Language Arts and Reading (7-12)
    - ii. English as a Second Language Supplemental (7-12)

Special Education students are placed in the Lead Teacher's classroom. These students receive direct instruction from this teacher because of meeting the certification requirements. For instruction in English Language Arts, special education students are served by both teachers with the Lead Teacher serving as support, while the classroom teacher provides direct instruction.

Because both of these teachers have the ESL Supplemental certifications, students identified as ELL at the beginning or intermediate level are placed in the classroom teacher's classroom since the teacher is bilingual. For all other ELL students, students are placed equally in the two teacher's classrooms and receive the accommodations and services recommended through the LPAC.

Any student who requires an ESOL I or ESOL II will be taught by the full-time classroom teacher because of the two certifications (ELAR and ESL 7-12).

Student program information is recorded on the daily contact register by the number of minutes served by teacher.

3. Record of actual number of students' instructional minutes.
  - a. Verification of the number of minutes of instruction is completed by the classroom teacher. Students sign a log upon entrance and exit from the school building. Actual attendance does not begin until the student arrives in the classroom and begins work credit recovery coursework. The individual student sign-in/sign-out log serves as a back-up only. The logs are scanned and saved in digital format.
  - b. Teachers note individual arrival time (hour: minute) on a daily contact register. When students depart for the day or transition to another classroom, the end time is noted by the classroom teacher on the teacher's daily contact register. (hour: minute).
    - i. Daily attendance sheets for every classroom teacher are collected and converted from hour: minute format to instructional minutes per student per teacher. The Success Academy Lead Teacher and the PEIMS Clerk generate a weekly student detail instructional minute report. Students with less than 45 minutes on any day are left blank on the official Daily Contact Register. (Sample attached)
      1. At the conclusion of the week, each teacher signs and dates the completed instructional minutes log for their classroom. (See attached sample)

2. Each 3-week reporting period, the PEIMS Clerk and Lead Teacher along with the High School PEIMS clerk review for reasonableness, counseling needs, parent conferences needed, etc.
3. Detailed student daily minute reports are stored electronically and shared with District PEIMS coordinator. The District PEIMS Coordinator, Asst. Superintendent for Curriculum, Instruction, and Assessment, High School Principal, and Lead Teacher for Success Academy review individual student progress and attendance from multiple perspectives.
- c. The High School and Success Academy Credit Recovery Program tries to minimize the possibility of students generating more than one ADA but transferring students from a traditional program to the OFSDP at the beginning of a 6-week period. Parent – student conferences, ARD meetings, LPAC, 504 and Student Intervention Team meetings are conducted to review program eligibility, instructional needs and program requirements.
- d. Every 6-week period, data is reviewed by the Success Academy team, high school PEIMS and administration, and District PEIMS and administrators. Both 42400 and 42401 records are reviewed to identify any student reported simultaneously. The District and HS PEIMS staff ensure student minutes are accurate (180 – Traditional Days Present x 240).
  - i. Data reviewed include:
    1. Beginning and ending dates of reporting period, including the year
    2. Total number of days of instruction in the reporting period
    3. Instructional track
    4. Student’s original entry date and any subsequent withdrawal and reentry dates. (Both 42400 and 42401 series records are created – this ensures if status of enrollment changed from traditional to OFSDP)
    5. Student grade level code
    6. Average daily attendance
    7. Special education instructional setting code
    8. Career and technical education code
    9. ESL program type code
    10. Gifted/talented indicator code
    11. Pregnancy-related services code
    12. Absences by date and total for reporting period
    13. Total eligible days present and total eligible minutes present for OFSDP by 6-week reporting period.
    14. Total ineligible days present (less than 45 minutes of instruction) and total ineligible minutes present for the OFSDP.
    15. Attendance data total for all students, by grade
    16. Signature page, signed by persons recording data (Success Academy PEIMS clerk) and approving data (Success Academy Lead Teacher).
