Mr. James Garrett

Background Information:

Section 2.10.6 of the Financial Accountability System Resource Guide, version 14.0, dated January 2010, states that budget amendments are mandated by the state for budgeted funds reallocated from one function level, and state and/or federal project to another. These budget changes are usually the result of unexpected levels of expenditures in certain categories and must be amended in the budget for legal compliance.

All budget amendments are required to be adopted by the last day of the fiscal year. All necessary budget amendments must be formally adopted by the school board and recorded in the board minutes.

Background Information:

Currently, students requiring Dyslexia evaluations are predominately processed by the Dyslexia specialist. New legislation will require that all Dyslexia evaluations are processed through the Special Education Department. This would increase the Special Education evaluation caseload by approximately 80 evaluations. This significant increase cannot be absorbed by the current Special Education evaluation staff; therefore, an additional Educational Diagnostician or Licensed Specialist in School Psychology (LSSP) is required.

INDEPENDENT AUDITOR'S REPORT

The Board of School Trustees
La Vega Independent School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of La Vega Independent School District (the "District") as of and for the year ended August 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the La Vega Independent School District as of August 31, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principles

As discussed in Note 20 to the financial statements, the District adopted Governmental Accounting Standards Board (“GASB”) Statement No. 84, *Fiduciary Activities*, effective September 1, 2020. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis on pages vii through xii, the budgetary comparison information on pages 43 through 44, the schedules of the District’s proportionate share of the net pension and total OPEB liabilities on pages 45-46 and 49; and the schedules of District contributions to Teachers Retirement System of Texas (“TRS”) and TRS-Care on pages 47-48 and 50 (collectively, “the required supplementary information”) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District’s basic financial statements. The other supplementary schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (“Uniform Guidance”), and is also not a required part of the basic financial statements.

Other Matters (continued)

Other Information (continued)

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting or other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

December 6, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the annual financial report for La Vega Independent School District (the "District") presents our discussion and analysis of the District's financial performance during the fiscal year ended August 31, 2021. Please read it in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The liabilities and deferred inflows of resources of the District exceeded its assets and deferred outflows at the close of the most recent fiscal year by \$9.4 million, a reduction in the deficit net position of \$1.7 million from prior year. The unrestricted net position of the District at August 31, 2021 is a deficit of \$15.3 million, which results primarily from the District's recognition of net pension and other postemployment benefits ("OPEB") liabilities of \$18.7 million.
- As of the close of 2021, the District's governmental funds reported combined ending fund balances of \$12.8 million, an increase of \$2.0 million in comparison with the prior year increase of \$0.7 million. The increase in governmental funds combined ending fund balance resulted primarily from a decrease in overall operating expenses of \$0.9 million for the District as a whole as students were partially remote from the start of the 2020/2021 school year until April 12, 2021, when all students returned to campus. Additionally, property tax revenues increased \$0.9 million due to an increase in assessed values of \$43.9 million. State revenues decreased \$0.5 million due to a reduction in state grant revenue for instructional materials, as additional instructional materials for remote learning were purchased in the prior year, and a slight decline in average daily attendance.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$7.9 million, or approximately 25% of the total 2021 general fund expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis provided here are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to the financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements.

Government-wide Financial Statements

The *government-wide statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information on all of the District's assets, liabilities, and deferred outflows/inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes, etc.).

The governmental activities of the District include all of the District's basic services, such as instruction, curriculum and staff development, student services, extracurricular activities, general administration, and plant maintenance and operations. Property taxes, state aid, and federal and state grants finance most of these activities.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are governmental funds or fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows or spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains approximately twenty-one individual governmental funds. Information is presented in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the instructional materials allotment special revenue fund, and the debt service fund, which are considered to be major funds. Data from the other governmental funds are combined into a single aggregated presentation.

The District adopts an annual appropriated budget for its general fund, child nutrition fund, and debt service fund. Budgetary comparison statements are included in supplemental information to demonstrate compliance with these budgets.

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reported in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The private purpose trust fund is used to report resources held in trust for scholarships. The custodial fund reports resources held by the District in a custodial capacity for student groups.

Notes to the Financial Statements and Other Information

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's progress in funding its obligation to provide pension and OPEB benefits. Additional supplementary information is presented as required by the Texas Education Agency.

GOVERNMENT-WIDE OVERALL FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows exceeded assets and deferred outflows by \$9,405,280 at the close of the most recent fiscal year.

The District has a net investment in capital assets of \$1,161,016 at August 31, 2021, which reflects its net investment in capital assets (e.g., land, buildings and improvements, and furniture and equipment) less any outstanding debt that was used to acquire those assets. The District uses these capital assets to provide public educational services to its students. Accordingly, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position (\$4,715,105) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* is a deficit of \$15,281,401.

The District recognized an increase in net position of \$1.7 million, compared to a decrease of \$0.3 million in the prior year, as a result of the following:

- Property taxes increased approximately \$1.0 million primarily due to increases in assessed values. State aid decreased \$0.2 million due to the state funding formula. Operating grants and contributions decreased \$2.7 million due to a decline in on-behalf pension and OPEB contributions of approximately \$1.5 million and a decrease in federal and state grant revenues of approximately \$1.0 million due to purchases of additional instructional materials in the prior year, as more fully discussed below.
- The cost of all governmental activities this year was \$40.7 million, a decrease of approximately \$3.6 million from the prior year. The decrease was primarily attributed to increases in salaries due to annual step increases offset by a decrease in pension and OPEB expense of approximately \$1.0 million. Additionally, in the prior year, the District purchased additional instructional materials related to implementation of remote learning in March 2020 and for the 2021 school year as a result of COVID-19 that were not acquired during the current year.

FINANCIAL ANALYSIS OF GOVERNMENTAL FUNDS

The District's Board of School Trustees annually monitors the relative unassigned fund balance in the District's general fund. Most districts have an unassigned fund balance goal of 15% of the budget, or two to three months of operations costs for their fund balance. The unassigned fund balance in the general fund increased in 2021 from \$7,027,037 to \$7,926,963. The graph below reflects the historical trend fund balance for unassigned fund balance of the general fund.

The fund balance of the general fund increased by \$903,661 during the current fiscal year, compared to an increase of \$515,185 in the prior year. Key factors in this change are as follows:

- Property taxes increased approximately \$0.5 million primarily due to increases in assessed values. State aid decreased approximately \$0.1 million due to the state funding formula.
- Total expenditures were \$31.7 million and \$31.6 million in 2021 and 2020, respectively. The increase was primarily attributed to increases in salaries and benefits due to annual step increases, offset by a decrease in instructional materials purchased in the prior year related to implementation of remote learning in March 2020 and for 2021 school year as a result of COVID-19 that were not purchased in the current year.

The fund balance of the debt service fund increased by \$710,291 during the current fiscal year, compared to an increase of \$282,639 in the prior year. Key factors in this change are an increase in property tax revenue of \$368,871 (17%) due to an increase in the I&S property tax rate of \$0.023336 per \$100 valuation and increased assessed values.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget for expenditures amounted to \$533,940, and included the following increases: (1) \$238,000 for improvements to the track; (2) \$131,271 for additional instructional materials and other supplies; (3) \$90,900 for technology equipment and supplies; (4) \$46,975 for the purchase of new percussion instruments; and (5) \$26,794 for the purchase of a new tractor.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The District's investment in capital assets for its governmental activities as of August 31, 2021 amounts to \$38.3 million (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, and furniture and equipment.

Major capital asset events during the current fiscal year included \$237,189 for improvements to the track, \$47,655 for new LED signs at the high school and elementary school, \$26,794 for a new tractor, and \$13,408 for new maintenance and audio visual equipment.

Additional information on the District's capital assets can be found in Note 9.

Long-term Debt

The State of Texas backs the District's bonds with its "AAA/stable" rating. This bond rating helps the District by reducing the costs of any debt issued. At the end of the current fiscal year, the District had total bonded debt outstanding of \$36.6 million. During the current year, the District issued \$7,995,000 series 2021 refunding bonds to refund portions of the series 2012 refunding bonds. Reductions in long-term debt were the result of scheduled principal payments.

Additional information on the District's long-term debt can be found in Note 10.

Economic Factors and Next Year's Budget

For 2022, the District adopted a budget of approximately \$34.2 million. The tax rate adopted for 2022 is \$1.261350 per \$100 valuation and is a \$0.038605 decrease from the 2021 tax rate of \$1.299955. The decrease in the tax rate results from a lower M&O tax rate due to increases in the assessed values within the District.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District's Administration Building, La Vega Independent School District, 400 E. Governmental Funds to the Statement of Activities**

Year Ended August 31, 2021

Net change in fund balances - total governmental funds (Exhibit C-2)	\$ 1,986,574
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense (\$1,769,169) exceeded capital expenditures (\$325,046) in the current period.	(1,444,123)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	31,130
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued; whereas, these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	1,474,341
Governmental funds report contributions to pension/OPEB plans as expenditures, whereas pension/OPEB expense is recognized in the statement of activities. Notes to Financial Statements

August 31, 2021

(1) Summary of Significant Accounting Policies

The Board of School Trustees (the “Board”), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the La Vega Independent School District (the “District”). Because members of the Board are elected by the public; have the authority to make decisions, appoint administrators and managers, and significantly influence operations; and have the primary accountability for fiscal matters; the District is not included in any other governmental “reporting entity”. Also, no component units were identified or included within the reporting entity.

The accounting policies of the District substantially comply with the rules prescribed in the Texas Education Agency’s (“TEA”) Financial Accountability System Resource Guide. These accounting policies generally conform to generally accepted accounting principles applicable to governmental units.

(a) Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported in separate columns in the fund financial statements.

(b) Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements and the fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

La Vega Independent School District

Notes to Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (continued)

(b) Measurement focus, basis of accounting and financial statement presentation (continued)

Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental revenue and interest associated with the current fiscal period are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The general fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The instructional materials allotment special revenue fund is used to account for resources provided by the state to purchase textbooks and other instructional materials.

The debt service fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

La Vega Independent School District

Notes to Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (continued)

(b) Measurement focus, basis of accounting
and financial statement presentation (continued)

Additionally, the District reports the following fund types:

The private purpose trust fund accounts for resources legally held in trust for scholarships to be awarded to current and former students for post-secondary education. All resources of the fund, including any earnings on invested resources, may be used to support the activities listed in the preceding sentence. Additionally, the District accounts for resources held for others in a custodial capacity in custodial funds. The District's custodial fund consists of the student activity funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

(c) Investments

State statutes authorize the District to invest in obligations of the United States or its agencies and instrumentalities and state or local governments, commercial paper, guaranteed investment contracts, repurchase agreements, and certain governmental investment pools. The District's local investment policy limits the District to invest in obligations of the United States or its agencies and instrumentalities, certificates of deposit, fully collateralized repurchase agreements by obligations of the United States or its agencies and instrumentalities, money market mutual funds, and local government investment pools.

Investments are reported at fair value, except for governmental investment pools. The governmental investment pools operate in accordance with appropriate state laws and regulations, and are reported at amortized cost.

For its investment in a repurchase agreement carried at fair value, the District uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. The District determines fair value based on assumptions that market participants would use in pricing an asset or liability in the principal or most advantageous market.

When considering market participant assumptions in fair value measurements for its investment in a repurchase agreement, the following fair value hierarchy distinguishes between observable and unobservable inputs, which are categorized in one of the following levels:

La Vega Independent School District

Notes to Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (continued)

(c) Investments (continued)

Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.

Level 2 Inputs: Other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 Inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

(d) Receivables and payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds”.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

(e) Supplies and inventory

All inventories are valued at cost using the first in/first out method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

(f) Capital assets

Capital assets, which include land, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

La Vega Independent School District

Notes to Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (continued)

(f) Capital assets (continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Buildings and improvements, and furniture and equipment are depreciated using the straight-line method over their estimated useful lives:

	<u>Years</u>
Buildings and improvements	6 – 40
Furniture and equipment	4 – 15

(g) Compensated absences

District employees are entitled to vacation and sick leave days earned by them for services performed. Vacation days lapse at the end of the year and have not been accrued. Sick days do accumulate, but employees are not paid the benefits on termination or retirement if they are not used. Consequently, the benefits have not been accrued.

(h) Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective-interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are recorded as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

(1) Summary of Significant Accounting Policies (continued)

(i) Pensions

The fiduciary net position of the Teacher Retirement System of Texas (“TRS”) has been determined using the flow of economic resources measurement focus and the full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities, and additions to/deductions from TRS’s fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

(j) Other Postemployment Benefits (“OPEB”)

The fiduciary net position of the Teacher Retirement System of Texas (“TRS”) TRS Care Plan (“TRS-Care”) has been determined using the flow of economic resources measurement focus and the full accrual basis of accounting. This includes for purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities, and additions to/deductions from TRS-Care’s fiduciary net position. Benefit payments are recognized when due and payable in accordance with benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

(k) Deferred outflows and deferred inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Notes to Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (continued)

(l) Fund equity

Governmental fund balances classified as restricted are balances with constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments. Fund balances classified as committed can only be used for specific purposes pursuant to constraints imposed by the Board of School Trustees (the “Board”) through an ordinance. Assigned fund balances are constrained by an intent to be used for specific purposes but are neither restricted nor committed. Assignments are made by District management based upon Board direction.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted resources as they are needed. The order of spending available resources is as follows: restricted, committed, assigned, and unassigned.

(m) Data control codes

Data control codes refer to the account code structure prescribed by the TEA in the Resource Guide.

(2) Reconciliation of Government-Wide and Fund Financial Statements

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains, “long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds.” The details of this \$60,850,936 difference are as follows:

Bonds payable	\$ (33,358,282)
Add: Premium on issuance (to be amortized as interest expense)	(3,252,651)
Less: Deferred charge on refunding (to be amortized as interest expense)	587,680
Accumulated accretion on bonds	(545,580)
Loans payable	(1,073,329)
Accrued interest payable	(56,132)
Net pension/OPEB liabilities, and related deferred inflows of \$9,580,536 and deferred outflows of \$5,154,573 (to be amortized as pension expense)	<u>(23,152,642)</u>
	<u>\$ (60,850,936)</u>

La Vega Independent School District

Notes to Financial Statements (Continued)

(2) Reconciliation of Government-Wide and Fund Financial Statements (continued)

The governmental statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balances of total governmental funds and changes in net position of governmental activities as reported in the government-wide financial statements. An element of that reconciliation states that “the issuance of long-term debt (e.g., bonds and leases) provides current financial resources to the governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.” The details of this \$1,474,341 difference are as follows:

Proceeds from issuance of refunding bonds	\$ (7,995,000)
Premiums on refunding bonds	(1,112,106)
Payment to bond agent	8,945,494
Principal repayments:	
General obligation and refunding bonds	1,171,361
Loans payable	217,536
Amortization of premiums received on issuance of bonds	242,589
Amortization of deferred charge on refunding of bonds	(43,014)
Accumulated accretion on capital appreciation bonds	17,588
Accrued interest payable	29,893
	<u>\$ 1,474,341</u>

(3) Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund, the child nutrition special revenue fund, and the debt service fund. There is no legal requirement to adopt a budget for the instructional materials allotment special revenue fund; therefore, presentation of budgetary comparison information is not required. Budgets are not legally adopted for capital projects funds; however, specific projects are individually approved by the Board of School Trustees. All annual appropriations lapse at fiscal year-end. By August 20, the budget is legally adopted through passage of an appropriate ordinance by the Board of School Trustees.

The appropriated budget is prepared by fund, function, object code, program intent code, and location. The District’s management may make transfers of appropriations within a function. Transfers or appropriations between functions require the approval of the Board of Trustees. The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) is the function level.

La Vega Independent School District

Notes to Financial Statements (Continued)

(3) Budgetary Information (continued)

Differences between the original budget and the final amended budget for general fund expenditures amounted to \$533,940, and included the following increases: (1) \$238,000 for improvements to the track; (2) \$131,271 for additional instructional materials and other supplies; (3) \$90,900 for technology equipment and supplies; (4) \$46,975 for the purchase of new percussion instruments; and (5) \$26,794 for the purchase of a new tractor.

Encumbrance accounting is employed in the governmental funds. Encumbrances (i.e. purchase orders, contracts) outstanding at year-end do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year. There were no significant encumbrances outstanding at August 31, 2021.

(4) Deposits and Investments

Investments of the District at August 31, 2021, consist of the following:

Investments	Amount	Weighted Average Maturity (in Days)
Public funds investment pools - reported at amortized cost:		
Texas CLASS Local Government Investment Pool ("Texas CLASS")	\$ 6,969,225	53
TexTerm Local Government Investment Pool ("TexTerm")	43,573	53
Total public funds investment pools	7,012,798	
Repurchase agreement - reported at fair value	3,035,671	
	<u>\$ 10,048,469</u>	

Public Funds Investment Pools

The public funds investment pool has been created pursuant to the Interlocal Corporation Act of the State of Texas. The District has delegated the authority to hold legal title to TexPool and, as custodian, to make investment purchases with the District's funds.

Texas CLASS. The Texas Cooperative Liquid Assets Securities System Trust ("Texas CLASS") was created as a local government investment pool pursuant under state law. The Texas CLASS Trust Agreement is an agreement of indefinite term regarding the investment, reinvestment, and withdrawal of local government funds. The parties to the Trust Agreement are Texas local governments that choose to participate in the trust ("participants"), Public Trust Advisors, LLC as program administrator, and UMB Bank,

(4) Deposits and Investments (continued)

N.A. as custodian. Texas CLASS is overseen by a Board of Trustees (“the Board”) comprised of active members of the pool and elected by the participants. The Board is guided by an Advisory Board and is responsible for selecting the program administrator and program administrator. There are no maximum transaction amounts and withdrawals from Texas CLASS that may be made daily. Texas CLASS uses amortized cost rather than fair value to report net assets share price.

TexTERM. The TexasTERM Local Government Investment Pool (“TexasTERM”) was established by the TexasTERM Common Investment Contract, in conformity with Chapters 791 (Interlocal Cooperation Act) and 2256 (Public Funds Investment Act) of the Texas Government Code. TexasTERM is an agreement of indefinite term regarding the investment, reinvestment, and withdrawal of local government funds. The parties to the Interlocal Agreement are PFM Asset Management, LLC as investment advisor and administrator, and U.S. Bank, N.A.. as custodian. TexasTERM is guided by an Advisory Board which is made up of experienced local government finance directors and treasurers. There are no maximum transaction amounts and withdrawals from TexTERM that may be made daily. TexTERM uses amortized cost rather than fair value to report net assets share price.

Repurchase Agreement

In July 2010, the District invested in a repurchase agreement with a financial institution in connection with the issuance of \$5,190,000 Series 2010B Unlimited Tax Qualified School Construction Bonds. Under the terms of the repurchase agreement, annual sinking fund requirements of \$234,789 are deposited with the paying agent and are invested in eligible securities. Interest earned on the sinking fund deposits is 3.16% per annum under the terms of the repurchase agreement, which has a maturity date of February 15, 2027. The maturity date of the repurchase agreement coincides with the maturity date of the bonds, as more fully described in Note 10. At August 31, 2021, the fair value of the repurchase agreement was \$3,035,671, which is based upon estimated future cash flows (Level 3).

Interest Rate Risk

In accordance with its investment policy, the District manages its exposure to declines in fair values by limiting the maturity of its investment portfolio. The term of any collateralized mortgage obligation is limited to ten years, repurchase agreements may not exceed 90 days, banker’s acceptances and commercial paper must have a stated maturity of 270 days or less, no-load money market mutual funds must have a dollar-weighted averaged stated maturity of 90 days or less, and no-load mutual funds must have an average weighted average maturity of less than two years. Except for the repurchase agreement described above, the maximum allowable stated maturity of any other individual investment owned by the District cannot exceed one year.

La Vega Independent School District

Notes to Financial Statements (Continued)

(4) Deposits and Investments (continued)

Credit Risk

It is the District's policy to limit its investments in a manner that ensures the preservation of capital in the overall portfolio. Specifically, repurchase agreements must be secured by obligations of the United States or its agencies, commercial paper must be rated not less than A-1 or P-1, no-load mutual funds must be rated not less than AAA or its equivalent, and public funds investment pools must be continuously rated no lower than AAA or AAAM or at an equivalent rating. At August 31, 2021, Texas CLASS and TexTERM are rated AAAM by Standard & Poor's.

Custodial Credit Risk - Deposits

In the case of deposits, custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has a depository contract with a financial institution and monitors its deposits to ensure its bank deposits are insured or fully collateralized with securities held by the pledging financial institution's agent in the District's name.

In addition, the following is disclosed regarding coverage of combined balances on the date of the highest combined deposit during 2021:

- (a) Depository: American Bank
- (b) The market value of securities pledged as of the date of the highest combined balance on deposit was \$5,329,691.
- (c) The highest combined balance of cash, savings, and time deposit accounts amounted to \$4,981,738 and occurred during the month of July 2021.
- (d) Total amount of FDIC coverage at the time of largest combined balance was \$250,000.

(5) Property Taxes

Property taxes are levied by October 1 on the assessed value as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code.

La Vega Independent School District

Notes to Financial Statements (Continued)

(5) Property Taxes (continued)

The assessed value at January 1, 2020, on which the 2020 levy was based, was \$1,013,174,995. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed.

The District's maximum legal maintenance and operations tax rate is \$1.068350 per \$100 valuation; the current maintenance and operations tax rate is \$1.054700 per \$100 valuation.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the general and debt service funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written-off, but the District is prohibited from writing-off real property taxes without specific statutory authority from the Texas Legislature. The allowance for uncollectible amounts was \$286,270 at August 31, 2021.

(6) Due from Other Governments

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State of Texas through the school foundation and per capita programs. Amounts due from federal and state governments as of August 31, 2021 are summarized below:

<u>Fund</u>	<u>State Aid</u>	<u>Federal/State Programs</u>	<u>Other</u>	<u>Total</u>
General	\$ 1,631,098	-	19,132	1,650,230

(7) Interfund Balances and Transfers

Interfund receivable and payable balances at August 31, 2021 are as follows:

<u>Fund</u>	<u>Receivable</u>	<u>Payable</u>
General	\$ 648,874	22,916
Instructional materials allotment	-	413,581
Debt service	22,916	-
Other governmental funds	-	235,293
	<u>\$ 671,790</u>	<u>671,790</u>

Interfund balances resulted from the time lag between the dates that payments between funds are made.

In the year ended August 31, 2021, the general fund made an operating transfer to a nonmajor governmental fund in the amount of \$8,891 for excess expenditures over the approved federal grant amount for the Title IV, B Community Learning special revenue fund.

(8) Unearned Revenue

Governmental funds report unearned revenue in connection with resources that have been received, but not yet earned. Unearned revenue at August 31, 2021 consisted of the following:

	<u>General</u>	<u>Other Governmental</u>	<u>Total</u>
Unearned:

(10) Long-Term Debt

Long-term debt consists of bonded indebtedness, loans payable, a net pension liability, and a total OPEB liability. The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities and enters into loans payable to provide funds for the acquisition of various types of equipment. Loans payable, the net pension liability, and the total OPEB liability are generally liquidated by the general fund and certain special revenue funds.

Current refunding of debt

On December 30, 2020, the District issued \$7,995,000 Unlimited Tax Refunding Bonds, Series 2021, which was used to refund \$8,794,998 of existing general obligation debt on the call date of February 15, 2021. The true interest cost of the refunding bonds is 1.373% with a final maturity of February 15, 2034. The carrying value of the old debt exceeded the reacquisition price by \$445,490. This amount is being amortized over the life of the new bonds. The refunding transaction was undertaken to reduce total debt service payments over the next fourteen years by \$1,562,531 and resulted in an economic gain of \$1,412,352.

The following is a summary of changes in long-term debt for the year ended August 31, 2021:

	Balance September 1, 2020	Additions	Deletions	Balance August 31, 2021	Due Within One Year

(14) Defined Benefit Pension Plan

Plan Description. The District participates in a cost-sharing multiple-employer defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (“TRS”) and is established and administered in accordance with the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code (“IRC”). The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension’s Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by TRS.

Pension Plan Fiduciary Net Position: Detail information about TRS’s fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at https://www.trs.texas.gov/Pages/about_publications.aspx; by writing to TRS at 1000 Red River Street, Austin, Texas 78701-2698, or by calling (512) 542-6592.

Benefits Provided: TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member’s age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of credited service or earlier than 55 with 30 years of credited service. There are additional provisions for early retirement if the sum of the member’s age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic cost-of-living adjustments (“COLAs”). Ad-hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System’s actuary.

(14) Defined Benefit Pension Plan (continued)

In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13th check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in either the matching amount of their monthly annuity or \$2,000, which ever was less.

Contributions: Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 through 2025.

	Contributions Rates	
	Plan Fiscal Year 2020	2021
Member (employees)	7.7%	7.7%
Non-employer contributing entity (state of Texas)	7.5%	7.5%
Employer (the District)	7.5%	7.5%
	Contributions Required and Made	
Member (Employees)	\$ 1,679,170	
Non-employer contributing entity (State)	1,272,569	
District	686,135	

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

Notes to Financial Statements (Continued)

(14) Defined Benefit Pension Plan (continued)

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- All public schools, charter schools, and regional educational service centers must contribute 1.5% of the member's salary beginning in fiscal year 2020, gradually increasing to 2% in fiscal year 2025.
- When employing a retiree of TRS, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

(14) Defined Benefit Pension Plan (continued)

Actuarial Assumptions: The total pension liability in the August 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Valuation date	August 31, 2019 rolled forward to August 31, 2020
Actuarial cost method	Individual entry age normal
Asset valuation method	Market value
Single discount rate	7.25%
Long-term expected investment rate of return	7.25%
Municipal bond rate at August 31, 2020	2.33%
Inflation	2.30%
Salary increases, including inflation	3.05% to 9.05% including inflation
Benefit changes during the year	None
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2019. For a full description of these assumptions please see the actuarial valuation report dated November 14, 2019.

Discount Rate: A single discount rate of 7.25% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50% of payroll in fiscal year 2020 gradually increasing to 9.55% of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

La Vega Independent School District

(14) Defined Benefit Pension Plan (continued)

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2020 are summarized below:

Discount Rate Sensitivity Analysis: The following schedule shows the impact of the net pension liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (7.25%) in measuring the 2020 net pension liability:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
District's proportionate share of the net pension liability	\$ 13,514,455	8,764,340	4,904,975

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

At August 31, 2021, the District reported a liability of \$8,764,340 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for the State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 8,764,340
State's proportionate share of the net pension liability associated with the District	15,889,972
Total	\$ 24,654,312

The net pension liability was measured as of August 31, 2019 and rolled to August 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2019 through August 31, 2020.

At August 31, 2020, the District's proportion of the collective net pension liability was 0.000163642, which was a decrease of 0.000016563 from its proportion measured as of August 31, 2019.

Changes Since the Prior Actuarial Valuation: There were no changes in assumptions since the prior measurement date.

La Vega Independent School District

(14) Defined Benefit Pension Plan (continued)

For the year ended August 31, 2021, the District recognized total pension expense of \$3,232,203. Of the total pension expense, for the measurement period ended August 31, 2020, the District recognized pension expense of \$1,911,211 and revenue of \$1,224,138 for support provided by the State.

At August 31, 2021, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
District contributions subsequent to the measurement date	\$ 686,135	-
Differences between expected and actual experience	16,003	244,589
Changes in assumptions	2,033,639	864,689
Net difference between projected and actual earnings on pension plan investments	177,427	-
Changes in proportion	<u>419,631</u>	<u>860,785</u>
Total	<u>\$ 3,332,835</u>	<u>1,970,063</u>

The \$686,135 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in year ended August 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended August 31,</u>	
2021	\$ 278,441
2022	285,069
2023	302,366
2024	48,212

(15) Defined Other Post-Employment Benefit Plans

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (“TRS-Care”). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (“OPEB”) plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code, Chapter 1575. The Board of Trustees is granted authority to establish basic and optional group insurance coverage for participants as well as amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care’s fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.gov/Pages/about_publications.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS-Care provides health insurance coverage to retirees from public and charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table.

TRS-Care Monthly Premium Rates

	Medicare	Non-Medicare
Retiree or Surviving Spouse	\$ 135	200
Retiree and Spouse	529	689
Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1,020	999

Notes to Financial Statements (Continued)

(15) Defined Other Post-Employment Benefit Plans (continued)

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.75% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	Contributions Rates	
	Plan Fiscal Year	
	2020	2021
Active Employee (Members)	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers (District)	0.75%	0.75%
Federal/Private Funding Remitted by Employers	1.25%	1.25%
	Contributions Required and Made	
Member (Employees)	\$	141,748
Non-Employer Contributing Agency (State)		272,592
District		180,140

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to regardless of whether or not they participate in the TRS Care OPEB program. When hiring a TRS retiree, employers are required to pay to TRS Care a monthly surcharge of \$535 per retiree.

La Vega Independent School District

(15) Defined Other Post-Employment Benefit Plans (continued)

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$230.8 million in fiscal year 2020 to maintain premiums and benefit levels in the 2020-2021 biennium..

Actuarial Assumptions. The actuarial valuation was performed as of August 31, 2019. The Update procedures were used to roll forward the total OPEB liability to August 31, 2020. The actuarial valuation was determined using the following actuarial assumptions:

The following actuarial assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2019 TRS pension actuarial valuation that was rolled forward to August 31, 2020: rates of mortality, retirement, termination and disability; general inflation, wage inflation, and expected payroll growth.

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (U-MP).

Additional Actuarial Methods and Assumptions:

Valuation date	August 31, 2019 rolled forward to August 31, 2020
Actuarial cost method	Individual entry age normal
Inflation	2.30%
Single discount rate	2.33% as of August 31, 2020
Aging Factors	Based upon plan specific experience.
Expenses	Third party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claim costs.
Projected salary increases	3.05% to 9.05%, including inflation
Healthcare trend rates	4.25% to 9.00%
Election rates	Normal retirement: 65% participation prior to age 65 and 40% participation after age 65 25% of pre-65 retirees are assumed to discontinue coverage at age 65.
Ad hoc post-employment benefit changes	None

Discount Rate. A single discount rate of 2.33% was used to measure the total OPEB liability. There was a decrease of 0.30% in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to *not* be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2020 using the fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the net OPEB liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (2.33%) in measuring the total OPEB liability.

	1% Decrease (1.33%)	Current Discount Rate (2.33%)	1% Increase (3.33%)
District's proportionate share of the net OPEB liability	\$ 11,954,784	9,962,339	8,388,593

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At August 31, 2021, the District reported a liability of \$9,962,339 for its proportionate shares of the TRS’s total OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the total OPEB liability, the related State support, and the total portion of the total OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective total OPEB liability	\$ 9,962,339
State's proportionate share of the total OPEB liability that is associated with the District	<u>13,386,995</u>
Total	<u>\$ 23,349,334</u>

(15) Defined Other Post-Employment Benefit Plans (continued)

The net OPEB liability was measured as of August 31, 2019 and rolled forward to August 31, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2019 through August 31, 2020.

At August 31, 2020, the employer's proportion of the collective net OPEB liability was 0.000262067, compared to 0.000261458 as of August 31, 2019.

The following schedule shows the impact of the net OPEB liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates assumed.

	1% Decrease	Current Single Healthcare Trend Rate	1% Increase
District's proportionate share of the net OPEB liability	\$ 8,137,954	9,962,339	12,392,161

Changes Since the Prior Actuarial Valuation: The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

- The discount rate was changed from 2.63% as of August 31, 2019 to 2.33% as of August 31, 2020. This change increased the total OPEB liability.
- The participation rate for post-65 retirees was lowered from 50% to 40%. This change lowered the total OPEB liability.
- The ultimate health care trend rate assumption was lowered from 4.5% to 4.25% as a result of Congress' repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the total OPEB liability.

There were no changes in benefit terms since the prior measurement date.

For the year ended August 31, 2021, the District recognized an OPEB benefit of \$196,046. Of the total OPEB benefit, for the measurement period ended August 31, 2020, the District recognized OPEB benefit of \$92,954 and revenue of \$267,659 for support provided by the State.

(15) Defined Other Post-Employment Benefit Plans (continued)

At August 31, 2021, the District reported its proportionate share of the TRS-Care's deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
District contributions subsequent to the measurement date	\$ 180,140	-
Differences between expected and actual experience	521,624	4,559,276
Changes in assumptions	614,469	2,735,710
Net differences between projected and actual investment earnings	3,238	-
Changes in proportion	502,267	315,487
Total	<u>\$ 1,821,738</u>	<u>7,610,473</u>

The \$180,140 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in year ended August 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended August 31,

2021	\$ (988,961)
2022	(989,393)
2023	(989,641)
2024	(989,573)

(16) Retiree Medicare Part D Coverage

Federal legislation enacted in January 2006 established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One provision of the law allows TRS-Care to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible participants. Federal contributions to TRS made on behalf of the employees for the years ended August 31, 2021, 2020 and 2019, were \$99,594; \$91,731; and \$74,884; respectively.

(17) Contingencies

The District participates in a number of federal award programs. Although the programs have been audited in accordance with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* through August 31, 2021, these programs are still subject to financial and compliance audits by grantor agencies. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

The District is involved in various claims and legal actions in the ordinary course of business. In the opinion of management, the ultimate outcome of these claims will not have a material adverse effect on the District's financial position.

(18) Economic Dependency

During the year ended August 31, 2021, the District received 53% of its revenues from the State of Texas.

(19) Prior Period Adjustment

During the current year, the District determined that certain amounts due from other governments reported in the debt service fund were overstated. Accordingly, fund balance and net position at September 1, 2020 were reduced by \$83,406 for the debt service fund and governmental activities.

(20) Adoption of Accounting Pronouncement

During the current year, the District adopted the provisions of Governmental Accounting Standards Board ("GASB") Statement No. 84, *Fiduciary Activities*. Accordingly, the District's agency fund is now reported as a custodial fund, and the net position for the custodial fund at September 1, 2020 was increased by \$71,550.

(21) Authoritative Pronouncements Not Yet Effective

A summary of pronouncements issued by the Government Accounting Standards Board ("GASB") which may impact the District but are not yet effective follows. The District has not yet determined the effects of the adoption of these pronouncements on the financial statements.

(21) Authoritative Pronouncements Not Yet Effective

GASB Statement No. 87, *Leases* (issued June 2017) – the objective of this statement is to increase the usefulness of governments’ financial statements by requiring reporting of certain lease liabilities that currently are not reported. It will enhance comparability of financial statements among governments by requiring lessees and lessors to report leases under a single model. The statement will also require notes to financial statements related to the timing, significance, and purpose of a government’s leasing arrangements. The requirements of this statement are effective for financial statements for periods beginning September 1, 2021.

GASB Statement No. 91, *Conduit Debt Obligations* (issued May 2019) – the objective of this statement is to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this statement are effective for the District’s financial statements beginning September 1, 2022.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements* (issued May 2020) – the objective of this statement is to provide guidance for subscription based technology arrangements (“SBITA”). It will define SBITA contracts, provide guidance on accounting for SBITAs, and require disclosures regarding the SBITAs. The requirements of this statement are effective for the District’s financial statements beginning September 1, 2022.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code (“IRC”) Section 457 Deferred Compensation Plans* (issued June 2020) – the objectives of this statement are to (1) increase consistency and comparability of the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board; (2) mitigate costs associated with the reporting of certain defined benefit and defined contribution plans as fiduciary component units, and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for IRC section 457 plans. Certain provisions relating to component unit criteria are effective upon issuance. The remaining requirements of this statement are effective for the District’s financial statements beginning September 1, 2021.

Note to Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – General Fund

Year Ended August 31, 2021

(1) Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund, the child nutrition fund, and the debt service fund. Budgets are not legally adopted for capital projects funds; however, specific projects are individually approved by the Board of School Trustees. There is no legal requirement to adopt a budget for the instructional materials allotment special revenue fund; therefore, presentation of budgetary comparison information is not required.

Differences between the original budget and the final amended budget for general fund expenditures amounted to \$533,940, and included the following increases: (1) \$238,000 for improvements to the track; (2) \$131,271 for additional instructional materials and other supplies; (3) \$90,900 for technology equipment and supplies; (4) \$46,975 for the purchase of new percussion instruments; and (5) \$26,794 for the purchase of a new tractor.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

The Board of School Trustees
La Vega Independent School District:

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of governmental activities, each major fund, and the aggregate remaining fund information of La Vega Independent School District (the "District") as of and for the year ended August 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 6, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE *UNIFORM GUIDANCE*

The Board of School Trustees
La Vega Independent School District:

Report on Compliance for Each Major Federal Program

We have audited the compliance of La Vega Independent School District (the "District") with the types of compliance requirements described in the U.S. Office of Management and Budget ("OMB") *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2021. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2021.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards

August 31, 2021

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of La Vega Independent School District (the "District") under programs of the federal government for the year ended August 31, 2021. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

(2) Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

(3) Indirect Cost Rate

No indirect costs were claimed by the District for the year ended August 31, 2021.

(4) Reconciliation to Financial Statements

Following is a reconciliation of the schedule of expenditures of federal awards to total federal program revenues per the statement of revenues, expenditures and changes in fund balances – governmental funds for the year ended August 31, 2021:

Expenditures per Schedule of Expenditures of Federal Awards	\$ 4,294,984
SHARS revenue	184,832
Federal subsidy for debt service	<u>272,499</u>
Total federal program revenues per Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds	<u>\$ 4,752,315</u>
