12. OPEN FORUM FOR NON-AGENDA ITEMS

12.A. Ms. Deyanira Barrientos addressed the Board. She lives at 1525 Ash St. in Grand Prairie. She would like to propose a means of honoring Mr. and Ms. Blackwell. They were great people and

excellent teachers. She stated the Blackwells were teachers for all three of her children who are now 23, 20 and 14 years old. She has had many beautiful experiences relating to the Blackwells. Anna Maria, while in 3rd grade, told her mother she was ready to begin all of her classes in English and she did well. Jessica was a cheerleader at Arnold Middle School where Mr. Blackwell taught. Mr. Blackwell showed himself to be a person who was attentive to students and he always took good care of Jessica. It was Mrs. Blackwell that noticed her son Mario had trouble concentrating, and it was at her urging that he began participating in the 504 program. She can name many other things that the Blackwells did for everyone. With the Board's help she would like to make sure the Blackwells are honored with the Blackwell Movement to take care of those educators who have pre-existing or underlying conditions and look for a way to help them fulfill their work duties in a safe matter. If such a movement already exists, she would like for it to be more well known and transparent so that workers can come to GPISD with a sense of safety.

12.B. Doris Hill, 534 Frank Keasler Blvd, Duncanville, TX, addressed the Board. Ms. Hill represents herself and the Grand Prairie Education Association. Ms. Hill said that we are coming to the end of the first semester. Many students have not been in class or in a scheduled Zoom and you can imagine their grades. Teachers have spent time going back and reopening gradebooks in hopes that the students might be able to pass. They not only teach in person but virtually and asynchronously. It is three times the work for basically the same pay. No one asked if this is what teachers thought was best. A survey was sent out but then they were told how it would be done. "Just do it and become technical experts too." She said they love their students but are beyond exhausted. She said that she could explain why they are so tired, but they really wouldn't know unless they were working along beside the teachers. Districts all across Texas are giving their employees stipends that range anywhere from \$500.00 to \$2000.00 to recognize the extreme effort being made. GPISD employees see this on social media and in the news and from other fellow teachers in other Districts and they hoped that they might be rewarded too. Ms. Hill said they know they have been loyal and gone way beyond normal amounts of effort of what is asked of them. They have been told to put aside their fears because it is safe, but they take all students hoping and trusting they are feeling well. Teachers are willing to risk their lives to answer the calling of educating our students. Last Sunday, the District lost two great educators, Mary and Paul Blackwell to COVID. She said it isn't known if they were exposed at their schools, but we don't know that they weren't. She hates to admit that she has often wondered who will be next. Ms. Hill said they are proud to be GPISD, they love their calling, they love teaching their students. She said that they know the risk they are taking. She said it would be nice to have choices like the students, whether they teach in-person or virtually. Students and parents get a choice, but employees don't. All they are asking is for the Board to consider what their employees are giving at work and on their personal time. Please carefully consider the sacrifices that your employees are giving this year.

12.C. Mr. Rich Lane, 222 High Point Ln, Cedar Hill, TX stated: How come Board Trustees are not even following safety guidelines, such as maintaining 6-ft and wearing a mask, while telling students and teachers to do so? And Board President, do you still think that you did the right thing by reopening the schools because everything else is opened and parking lots are full? If everyone around you is drunk driving, would you do the same? To other Board members that I respect a little more: if some Board members are making poor, uneducated decisions, are you

going to just get along, get in their good graces, and enable them, or are you going to do something about it?

12.D. Johnna Palmatier, 525 NE 5th St, Grand Prairie, TX, Travis World Language Academy, stated: First off, I want to let you know, I have been with Grand Prairie for 13 years and have been proud to work with such a great District. However, a few weeks ago, I wrote to the President who is on the Board and he did not respond which saddens me. When I contacted the Mayor, Ron Jenson, about a question he didn't reply back with only an email, he went a step further and called me to talk to me. I wish our Board was more like him. In the past couple of years, I have become very disappointed with this District, especially this year. Every day many of us put our lives in danger to work for the children and for you, the Board, and Ed. Center and not complaining about the low pay scale we receive nor the dangers we face every day. Many of us teachers at Travis have contracted COVID-19, and yet the school still remains open. I was one of the teachers who contracted the virus and was only given so many days before I had to return back to school. MeShelly was very disrespectful and rude to me when I was working with her. I was still sick when I returned back to work because I was told the district would take my sick days. Another one of our teachers had to use all of her sick days because of the COVID and she is still recuperating while she works. Another staff member returned back this week and I watched her fall down twice due to lack of oxygen (she had COVID-19 as well and was told she had to return back, or her sick days would be used up.) And then the worst thing happened at Travis, we lost a dear friend and colleague. I believe this could have been avoided. There was a student in her class, who was sent to school even though a family member had the virus. I turned down an \$8,000 raise to work in Irving because I wanted to be loyal to this District. I was hoping you guys would honor us and give us a substantial raise at the beginning of the year, due to us having to work on the front lines and having to put our lives in danger. I can see that wasn't the case. I let it go. And now, Christmas is coming so all of us were hoping and praying we would get a bonus such as Duncanville, who gave their employees \$2000. We not only didn't get a substantial bonus; we didn't get anything!!!! You and the Board say you care, and safety is first, but I am seeing this is not the case. I am disheartened and angry that you guys don't think we are worth anything. Because of this, I know of many teachers that are looking for employment elsewhere. I used to be so proud of Grand Prairie and I used to hear that our school was in the top competitively in paying their teachers. We aren't even in the top 10 anymore. Now that is sad!!! I hope you read this and take this before the board because I really think we as Staff deserve more than what we are being given. Thank you for your time and I pray you all stay safe and don't contract the Virus as so many of us have.

12.E. Jae, 2905 Pitkin Dr, Arlington, TX. He is affiliated with AFT. Jae stated:
As a GPISD teacher and a member of American Federation of Teachers, I'm asking the board and superintendent to "be kind" to our GPISD staff. When GPISD staff members got COVID and got sick they were told to return back to work or use their sick days. Which forces staff to return while still sick. Even if you don't die from COVID, you may still suffer from the aftereffects of it, which could be severe and permanent. Some staff has collapsed in school because she became weakened from COVID. The director in the HR department that decides whether you come back or not was reported to be very rude and not accommodating to staff who have gone through COVID. Education workers are known to be selfless, but it is very disappointing when it just becomes a norm and requires us to be sacrificial. We are not saints or

martyrs; we are only human. Most of us don't really have a choice because we need to make a living. You are forcing our staff to choose between losing their paycheck, career, home, and starving or risking their health and family's health by going to work. The current way of giving out COVID notices is turning out to be unhelpful to the staff too. There are staff members that get in contact with more than just one class, sometimes the entire school and they have no idea if they were around that person or not. There has to be a way to protect confidentiality while providing more transparent and essential information to the staff for themselves and their families. Seating charts are not enough to figure out who stayed too close for how long. Texas is seeing an unsustainable increase in hospitalizations. The number of Texans hospitalized with COVID and the 7-day average of new cases have nearly tripled since the beginning of October. Vaccines are rolling out, but we need to make sure we do not lose any more precious lives until our staff and community are sufficiently vaccinated. Lastly, many other neighboring ISDs are providing a bonus for being in the frontline and overworked. What is GPISD doing to appreciate our staff?

12.F. Mary Gibson, 606 Chickapoo Trace, Grand Prairie, TX, stated: I know I'm not the only parent massively struggling with remote learning. I am incapable of sending my children back to in person school. We are a HIGH-RISK family. I receive at least 2 emails each week from both of my children's schools regarding a COVID positive case. Which confirms my decision to keep my children home. However, this only remote learning, is not doing anything but assisting my child in failing the school year. These kids aren't really learning or engaging via remote learning. I refuse to send my kids back to in person. So, what I'm searching for is some sort of change regarding how remote learning is done. These children are going through so much that school is all of our least worry!! The lesson load should've been lightened. I've received so many emails from the schools & School Board saying they don't want to add to our stress levels, but that's all the schools are doing!! My child or family isn't thriving during this pandemic, we're barely able to keep our heads above water & also get to worry if my child is going to pass.

12.G. Ambria Hawkins, 3504 Corn Valley, Grand Prairie, TX. She is with GPISD: She stated: Is GPISD honoring a teacher pay bonus as other districts have granted their teachers, to show their gratitude for our bravery, hard work, and dedication as we continue to educate students wholeheartedly under the climate pandemic? For example, and as shared on the news and other media platforms, Duncanville ISD granted their teachers \$2,000.

12.H. Roger Arnold, 8014 Westover Drive, Dallas, TX, stated: Keep our kids safe!

12.I. Rebecca Jarrett, 3951 Dechman Drive, #7108, Grand Prairie, TX, stated: My name is Rebecca Jarrett and I am a first-year teacher here in the district. The contents of this letter have been sitting on my heart for a long time, but I did not want it to seem too emotional, so I waited to write it. Despite that, I fear that some of my stronger emotions may bleed through anyway, and I apologize in advance. It's no great secret that this year has been a challenge. 2020 has been crazy, and I think I can safely say that everyone is feeling off right now. I believe that is only to be expected -- we are in a pandemic, but America has attempted to return to business as usual, and the juxtaposition of our traditions and our current reality is taking a toll on many people. I want to start this letter by saying that I understand that there is only so much that is within your focus of control. I understand that, despite the dangers of our current situation as numbers continue to rise and people continue to die each day from the coronavirus, a shutdown/return to

virtual learning only is not something that can happen -- as much as I wish it could, for the safety of myself, my colleagues, and the students and families we serve. I also greatly appreciate the safety measures that have been taken in schools, because they have kept me and most of my students and colleagues safe so far. However, I am scared, stressed, and drained, emotionally and physically. I can't light the kids' flame if my own is burnt out. I have heard so many other teachers, administrators, parents, and just people in general talking about grace this year. The students need grace. We're in a pandemic, be understanding. I wholeheartedly agree. But unfortunately, I do not believe that the same grace that has been extended to the students has been given to us, the teachers. Every day, I struggle to get out of bed and come in to work. I love my job and I love the kids more than anything, but I am terrified for my own life. I understand that it's impossible to live in fear of the worst-case scenario, but, for once, I believe that my anxiety is valid. We do not know enough about this virus to be acting like this is "business as usual." I could get coronavirus and survive but have lifelong effects that have an impact on the quality of my life. It could happen to anyone. Knowing that, and still coming in to work each day and facing it, is truly the scariest thing that I have ever experienced. I have the job of my dreams, yet I feel like I am living in a nightmare. Allow me to take you through a brief timeline of events. When the pandemic first started, I did not leave my house for anything other than walking my dog outside or attending doctor appointments, and that has really not changed. The only thing I have now added is going to work every day. I am lucky and privileged to be able to order groceries instead of going inside the store, and to be working during a pandemic. I try to take every precaution. At work, I feel like all of those precautions are canceled out. Before the kids returned to school, I cried almost every day. The fear weighed heavily on my heart. Now, I am resigned to it. I am drained, physically and emotionally. The first nine weeks of school were probably the hardest nine weeks of my life. At the expense of oversharing: my mental health plummeted, I had to withdraw from grad school in order to focus on work, and I relapsed into the eating disorder that has not impacted me since high school. I only share this because I know that I am not alone in my struggles -- even my specific struggles I share with a fellow educator who is a dear friend. I speak for myself, but I hear and see my fellow teachers. I know they are struggling, many more so than me, and it hurts my heart to know that so many educators are at the end of their ropes. Their hearts are hurting and some of them don't even know if they can teach anymore. Great teachers, amazing people, who SHOULD be in education, are getting frustrated and turned off of education just because of the struggles of this year. And I can't blame them, because I almost was them. As of writing this letter, I don't even know if I have been exposed. I understand that medical information is confidential, but it is extremely frightening knowing that any of my students could test positive, and I would not be informed because I'm not a "close contact." We may take every precaution, but allow me to speak frankly: sometimes, the students don't care, and it's hard to make them. I don't believe some of them truly understand the scale of what's going on. They don't take masks or social distancing or hand hygiene seriously. They're only kids! Psychologically, most of them don't yet have the capacity to understand -- that their actions affect others, and that they aren't immortal/indestructible. As someone who is solution oriented, I wanted to pose a couple of ideas that I believe could greatly impact morale and provide a bit of grace to teachers who desperately need it. Firstly, perhaps we could have two days a month for totally asynchronous lessons, that could then be a teacher workday. This time could be used for deadlines we are falling behind on, such as documenting accommodations, or grading. Potentially, for teachers who do not have anything to catch up on, it could even be a personal day -- I know we all could definitely use some time to relax. I don't

think it's a stretch to say that time is well earned. Secondly, I would like to propose a small stipend or bonus. I honestly believe that could extremely help morale, especially as more and more districts are giving stipends. I don't want to seem entitled; I merely want to offer a genuine perspective -- we have been working very hard, and it's one thing to say we are appreciated, but another thing to show it. As I tell my students: good writing shows and does not tell. In my opinion, not giving a stipend almost shows us that we are undervalued (or, at the very least, valued much less than those teachers at districts where stipends/bonuses have been provided). I want to close this letter by affirming that I truly love to teach in this district. Teaching at Reagan Middle this year has grown my love for educating children, and I truly believe my supportive and encouraging coworkers are the reason I have gotten through this semester. Despite my supportive team, I, unfortunately, do not feel valued. Even more unfortunate: I know I am not alone in those feelings. I feel like many are of the opinion that I am just a teacher, and my life is dispensable. I will close by saying that, if nothing else, the kids deserve me at my best. I do my best to show up and love them and teach them every day, as well as trying to get everything else done on time, but I fear that I am not bringing my true best to the table. I am respectfully asking to be considered.

12.J. Jose, 620 Westchester Pkwy, Grand Prairie, TX. is affiliated with GPISD. He states: Contact tracing is not working. I'm assuming that the district guidelines and campus guidelines are the same, and if so, it should be modified. The principle of contact tracing and quarantining seems to be based on mostly just a seating chart, and at this point, it seems more like a formality. Let's say we are quarantining a student because he has been sitting close to a confirmed student. Why are siblings, relatives, and neighbors that ride and come to school in the same vehicle allowed to come to school? At least siblings should automatically be an exposed close-contact and subject to quarantine.

12.K. Amanda Rodriguez, 1938 Beach Drive, Grand Prairie, TX, is affiliated with GPISD. She stated: Every single day we enter a school building, the health and safety of your educators, students, and our families is put at risk. Going out to the grocery store or running an errand isn't the same as being in a building with hundreds of students and staff members all day. We have the tools needed to move toward remote instruction for at least two weeks after winter break. Several students and staff will travel or gather in large groups over the holidays, and conversely, you'll have staff and students who won't, and they will be exposed to COVID even after taking all the precautions when we return in January. We have tragically lost two members of our GP family, and thoughts and prayers aren't enough, counseling isn't enough. We need action from you. Stand up and take care of your staff and students.

12.L. Lawanda Christopher, 1658 S. Forum Rd, Grand Prairie, TX. She works at Jackson Middle School. She stated: I am writing to inquire about a monetary bonus for the teachers this year. It has taken us 3-4 times as long to plan lessons, communicate with parents, and we are literally juggling several jobs at once. Of course we love what we do and we all will do just about anything to ensure our kids continue to learn throughout this pandemic, however, the time we've spent working to make this school year as successful for the students as possible should be rewarded with a bonus or raise.

12.M. Ashley Harper, 7510 E. Grand Ave, #3107, Dallas, TX, is affiliated with Jackson Middle School. She stated: As an employee of GPISD, this school year has been one of the toughest times being a teacher. Teachers are working more hours every day/week than a normal school year, from lesson planning, handling technology and internet issues, calling parents (more than usual), etc. This pandemic has affected teachers and their families in many ways. I am inquiring about a bonus to the teacher as we are doing our best and working hard daily.

**RESOLUTION OF THE BOARD OF TRUSTEES OF
GRAND PRAIRIE INDEPENDENT SCHOOL
DISTRICT**

WHEREAS, the Board of Trustees (“Board”) of the Grand Prairie Independent School District (“District”) is authorized by Texas Education Code § 11.151 to govern and oversee the management of the public schools in the District; and

WHEREAS, the Board is authorized by Texas Education Code § 45.105 to expend funds of the District for purposes necessary in the conduct of the public schools as determined by the Board; and

WHEREAS, the Board acknowledges that during a pandemic, District employees may require additional leave due to exposure or infection of themselves or family members; and

WHEREAS, the Board acknowledges the emergency paid sick leave and expanded family and medical leave provisions of the Families First Coronavirus Act, otherwise known as FFCRA, expired on December 31, 2020; and

WHEREAS, the Board acknowledges the pandemic is ongoing and employees may be infected, exposed, or required to care for family members infected or exposed to COVID-19 after the expiration of the leave provisions of FFCRA; and

WHEREAS, the Board determines continuing the emergency paid sick leave provisions of FFCRA past December 31, 2020 serves the public purposes of maintaining morale, reducing turnover, and ensuring continuity of District staffing.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE GRAND PRAIRIE INDEPENDENT SCHOOL DISTRICT:

RESOLVED, the District will continue to offer employees current protections of the EPSL for current qualifying events and circumstances authorized by the FFCRA, except that:

- a. Employees who have already exhausted leave under the FFCRA will not be eligible for any additional leave time; and
- b. This authorization expires no later than June 30, 2021, unless this authorization is revoked sooner, or extended by the Board of Trustees.

RESOLVED, the Board of Trustees hereby (1) determines that these payments serve a public purpose, (2) retains sufficient control over the expenditures to ensure a public purpose is served, and (3) is confident the District will receive a return benefit.

RESOLVED, the authority granted by this resolution to continue the emergency paid sick leave to eligible employees is effective until June 30, 2021 unless the Board takes action to authorize continuation of such leave for a longer duration.
