Texas Workforce Commission Grant

Texas Workforce Commission (TWC) approved the High Demand Job Training (HDJT) grant application that Workforce Solutions Capital Area (WFSCA) and Pflugerville Community Development Corporation (PCDC) applied for on behalf of PfISD. This grant will infuse \$300,000 to purchase a state-of-the-art immersive virtual reality system (Igloo), surgical technology manikin, and virtual reality curriculum to provide students entry-level training appropriate for radiology and sterile processing, two of the most in-demand healthcare occupations in our region. PfISD will be the first secondary school in central Texas (maybe the state) to have the immersive virtual reality system! We will be able to use the Igloo system for career exploration and awareness activities at the CTE center, once built, as well. It will be an engaging experience for all grade levels and allows us to create a customized virtual environment for any industry setting.

Official Launch of the Three E's Initiative

Pflugerville ISD has officially launched the Three Es initiative, a bold and future-focused commitment that by 2029, 100 percent of PfISD graduates will leave with more than just a diploma. They will graduate with a clear and actionable plan for one of three post-secondary pathways: employment, enlistment, or enrollment in higher education.

This initiative is not a single program, but a district-wide movement to transform how we prepare students for life after high school. It emphasizes early and sustained guidance, meaningful learning opportunities, and real-world readiness, ensuring every student wakes up the day after graduation knowing exactly where they are headed next.

The Three Es initiative aligns closely with other key district efforts, including participation in the System of Great Schools and our Portrait of a Learner framework. Together, these efforts are designed to create a strong culture of belonging, clear educational pathways, and an unwavering focus on execution and results.

To help unify and promote this work across the district, the Communications Department released the official Three Es logo in early July. The launch of this initiative marks a significant milestone in our strategic planning journey and signals our deep commitment to ensuring every student is prepared and empowered to succeed beyond graduation.

1.2.3 *Foster effective communication skills to support success in various contexts.*

June STAAR EOC Improves Participation

With a revised plan for June STAAR EOC, June 2025 participation improved by 19%. In 2024, 319 students submitted 457 tests. In June 2025, 381 students submitted 545 tests.

Participation in EOC English I & II saw an even greater 25% increase.

The prior plan that was in place for many years offered students 2-3 weeks of preparation during the summer school session. Students then returned in late June to test. In 2025, we offered 1-2 days of prep and the test was scheduled for the day immediately following the prep session. Test prep included opportunities for students to build their confidence through teacher-led instruction. The best test prep attendance was for English I & II with 155 students participating on day 1 and 167 students participating on day 2. Algebra I test prep was attended by 107 students.

Test results for June STAAR EOC will be available in late July.

1.3.4 *Incorporate practices that develop self-regulation, networking, and empathy as foundational skills for life and career success.*

Pforge Entrepreneurship Summer Program

16 students participated in the inaugural Pforge Entrepreneurship Summer Program, ranging from grades 6-11. Students learned business ownership principles, financing, and business planning from an expert teacher and community guest speakers. On the final day of the free 3-week camp each student presented a business pitch to successful entrepreneurs from the community and the top three were awarded an Echo Dot and Entrepreneurship start-up book donated by Amazon. PCDC funded the teacher salary, supported the program with guest speaker recommendations, and will fund up to one year of booth rental space at the Pecan Street Collective Market so students can test their products.

Girls Who Game- Cele Middle School

We are excited to celebrate the successful conclusion of the Girls Who Game program at Cele Middle School this spring! Our dedicated team of six amazing girls and two teacher sponsors worked passionately throughout the season to explore STEM careers, develop critical skills, and make a positive impact through technology and teamwork.

As part of the Girls Who Game Spring Challenge, our students designed and built a Minecraft world featuring a school for everyone, complete with a mobile learning lab and a traditional learning center. Their project focused on creating an inclusive environment that supports equity, inclusion, and global collaboration—aligned with the UN Sustainable Development Goals such as Quality Education, Reduced Inequalities, Peace, Justice & Strong Institutions, and Partnerships for the Goals.

We are thrilled to share that during the Girls Who Game Spring Awards Celebration, our team was recognized and awarded for excellence in Communication! This honor highlights the incredible teamwork, communication, and unity the students demonstrated throughout the challenge. We are immensely proud of their growth, dedication, and innovation as they brought their vision to life and made a meaningful impact through their Girls Who Game journey!

Library Circulation

Library circulation across Pflugerville ISD continues to rise, reflecting the ongoing dedication and hard work of our library staff. For the 2024–2025 school year, PFISD libraries circulated a total of 550,481 print books, a notable increase from 506,517 print circulations during the 2023–2024 school year. In addition to print materials, digital reading through Sora has also seen significant growth. Digital book circulations reached 170,442 in 2024–2025, up from 134,667 the previous year. This continued growth in circulation can be attributed not only to the commitment of our library staff but also to the implementation of Beanstack, a digital reading engagement platform that has helped motivate students to track their reading and participate in district-wide reading challenges. Together, these efforts are fostering a strong culture of reading and helping students stay engaged with literature in both print and digital formats throughout the school year.

Esports

Esports is officially in motion in PfISD, with strategic planning underway for the district's inaugural competitive season beginning in the 2025–2026 school year. In preparation, the Secondary Instructional Technology Team has facilitated a series of collaborative planning meetings to develop a comprehensive launch plan that will establish PfISD as a leader in scholastic Esports.

Over the course of three meetings, the planning process brought together all three district Esports coaches from the Secondary Instructional Technology team, five high school campus coaches representing each of the district's comprehensive high schools, and three district leaders from both Academics and Technology. These sessions focused on structuring competitive Esports teams and clubs at each campus, aligning the program with UIL standards, and creating a shared vision for student participation and support.

In addition to building out the foundation for school-based teams, the group also began planning two districtwide tournaments and an Esports Expo scheduled for the 2025–2026 school year. These events will provide students with competitive opportunities, promote digital literacy, and showcase the growing role of Esports in expanding inclusive, skill-building extracurricular activities across the district.

2.2.2 *Provide guidance and support to encourage student growth, resilience, and a mindset that embraces both success and learning from challenges.*

AVID Summer Institute

Hendrickson Students Achieve Remarkable AP Success

Hendrickson High School has some truly impressive news to share about their Advanced Placement (AP) exam performance. This year, the school saw a significant 10% increase in the percentage of students earning a 3 or higher on their AP exams. What makes this even more remarkable is that this achievement occurred while the school administered 194 more exams than in the previous school year, demonstrating a broader participation in advanced coursework alongside improved outcomes.

This year's success builds on a strong trend of academic excellence at Hendrickson. Over the past five years, Hendrickson students have collectively boosted their scores of 3 or higher on AP exams by an outstanding 28%. This sustained improvement highlights the dedication of both students and educators in fostering a culture of high achievement. Congratulations to our HHS Hawks!

Dual Language Summer School

Sixty secondary students, representing seven native languages, participated in a dynamic Summer School enrichment program in June designed to accelerate their English language proficiency. The interdisciplinary curriculum was built around the novel *The Boy Who Harnessed the Wind*, integrating reading, writing, math, and science. Through hands-on experiments connected to the story, students sharpened their problem-solving skills while deepening their language abilities. In a “maker space” setting, students used recycled materials to design a creative project—ranging from art pieces and musical instruments to games, inventions and displays. They then developed and presented their work using posters or slide decks, practicing their oral English skills through peer presentations. Students also performed a readers’ theater piece for another class, further strengthening their speaking and fluency. Impressively, 68% of participants showed measurable growth in English proficiency, based on pre- and post-test assessments—with 16% improving by more than 10%. The program was not only academically enriching but also emotionally impactful. Both teachers and students expressed how much they enjoyed their time together, with many sad to see the session end.

Continuing Our Partnership with Big Rock Educational Services

Pflugerville ISD is excited to continue its partnership with Big Rock Educational Services (BRES) for the 2025–26 school year. Now entering our second year of collaboration, we have already seen promising gains in student achievement, particularly at Dessau Elementary School. We look forward to building on that momentum as we continue to support Dessau Elementary and Westview Middle School this school year.

BRES is a nationally recognized Texas Education Agency Vetted Improvement Program that has worked with over 350 schools across the country. Their team provides professional development and implementation coaching for campus-based instructional leadership teams, with a focus on rigorous instruction, strong campus culture, and measurable impact.

In the coming year, BRES will continue supporting Dessau Elementary and Westview in implementing High-Quality Instructional Materials (HQIM), strengthening systems for lesson planning, execution, and analysis, and equipping both teachers and leaders with the tools needed to maintain high expectations and engaging, on-task classrooms.

We are proud to invest in partnerships that help move the needle for our students, and we're eager to see continued growth and success at Dessau and Westview this year.

June Job Fair Campaign Draws Over 400 RSVPs as PflISD Expands Outreach for All Staff Positions

In June, the Communications Department supported Human Resources in promoting a districtwide staff recruitment effort aimed at filling a wide range of campus and department positions ahead of the 2024–2025 school year. These efforts focused on digital outreach to drive attendance to the All Positions Job Fair, which included opportunities in auxiliary services, transportation, custodial, child care, Aramark food services, fine arts, career and technical education, special education, bilingual education, and more.

To build awareness and interest in the job fair, the department launched a targeted social media advertising campaign. The campaign focused on potential candidates in Pflugerville, Hutto, Manor, Del Valle, and Austin. The ad generated more than 21,000 impressions, 886 link clicks, and reached nearly 10,000 individuals with a total investment of 100 dollars. These efforts helped secure more than 400 RSVPs, reflecting strong community interest and an effective use of resources to reach qualified applicants across a variety of roles.

This broad-based marketing approach ensures that PflISD is connecting with both certified educators and support staff candidates, helping to build a well-rounded team prepared to serve students in the coming school year.

PflISD Connects with Future Talent at Central Texas Job Fair Hosted by CTASPA

Central Texas Association of School Personnel Administrators (CTASPA) is dedicated to providing information, support, and resources to existing and potential human resources administrators and support staff. Employee Assistance Program (EAP) Enhancement!

Pflugerville ISD is proud to announce significant enhancements to our employee counseling and comprehensive employee support program for the upcoming 2025-2026 academic year. We firmly believe that a vibrant and accessible Employee Assistance Program (EAP) is not merely a benefit, but a fundamental pillar in fostering the mental health and overall well-being of our dedicated employees and their families. This commitment directly translates into a multitude of positive outcomes for our district, including substantially improved morale, a notable reduction in absenteeism, and a significant increase in overall productivity across all departments.

Our newly expanded program will offer several key enhancements designed to provide more robust and accessible support. Foremost among these is the increase in our in-person counseling support. We recognize the profound importance of direct, personalized care, and as such, we are thrilled to raise the annual limit on in-person counseling visits from the previous three visits to a more comprehensive five visits per employee per year. This expansion ensures that our employees have greater flexibility and access to the professional support they may need during challenging times.

Furthermore, in a proactive step regarding self-care, Pflugerville ISD will be implementing the innovative One Pass gym membership program. This exciting new initiative is scheduled to launch during the fall of 2025. The One Pass program will provide our employees with unparalleled access to a wide network of fitness centers and wellness facilities, empowering them to prioritize their physical health and discover diverse avenues for stress relief and recreation. We anticipate that this comprehensive approach to employee support, encompassing both mental and physical wellness, will cultivate a more resilient, engaged, and thriving workforce, ultimately benefiting the entire Pflugerville ISD community.

Online Lunch Application System

Effective July 14th, a new Online Student Lunch Application System will be launched for all PfISD parents and students.

Parents/Guardians will receive an individualized email link for each child/student enrolled in a PfISD school. This secure link will display a pre-populated form, requesting responses to three fundamental questions. The submitted form will then be accessible on the respective campus dashboard. Parents with a child/student enrolled at a Community Eligibility Provision (CEP) campus will receive an additional email containing the link to complete the National School Lunch Form.

This form will be monitored and processed by the PfISD Food Services team and will offer PfISD real time data to help families ensure proper nutrition for their children. This process will also streamline the efforts for PfISD's National School Lunch Program percentages which will aid key areas such as E-Rate funding and overall accountability designations.

No Increase in Student Meal Prices for 2024–25

Thanks to sound financial management and a strong fund balance, Pflugerville ISD Food Services, in collaboration with the United States Department of Agriculture (USDA) and Texas Department of Agriculture (TDA), will not increase meal prices for the upcoming 2024-25 school year. Remarkably, PfISD has maintained current student meal prices since the 2018-19 school year, continuing its commitment to affordability and access.

The district is still awaiting official guidance on adult meal pricing, as required by USDA and TDA regulations. Updates will be shared once final directives are received.

Expanding Access Through Flexible Learning Pathways

Pflugerville ISD is committed to fostering a culture of dignity by identifying and removing barriers to educational access and opportunity for all students.

The Optional Flexible School Day Program (OFSDP) is a key initiative supporting this commitment. Implemented at all comprehensive high school campuses and PACE High School, the program allows students who meet criteria under Texas Education Code §29.0822(a) to complete their coursework on a flexible schedule. The goal is to support students who are at risk of dropping out, have already dropped out, or are behind in core subject areas—providing them with a personalized pathway toward graduation.

During the 2024–2025 school year, 112 PFISD students benefited from this flexible learning model, illustrating its effectiveness in addressing individual needs and promoting equity in educational attainment.

In addition, Pflugerville ISD is partnering with Graduation Alliance to further support students who have disengaged from school. This innovative partnership offers a fully virtual academic program that enables students who have dropped out to reengage with their education and earn a high school diploma.

To continue offering these vital options, the district must annually renew its OFSDP application with the Texas Education Agency. The renewal for the 2025–2026 school year will be presented for board approval at the July 17 meeting.

By embracing flexible, student-centered solutions, Pflugerville ISD continues to break down barriers and ensure every student has a dignified and viable path to graduation and future success.

June Enrollment Campaign Generates Over One Million Impressions as Video Ads and Early Pre-K Outreach Drive Engagement

In June, the Communications Department launched a wide-reaching and sustained effort to drive student enrollment across all grade levels for the 2024–2025 school year. With summer enrollment in full swing, the team expanded its outreach through a combination of email communication, social media campaigns, and paid advertising that collectively reached hundreds of thousands of families throughout the Central Texas region.

A key focus remained on Pre-K recruitment, where early engagement continues to show strong results. On June 20, an email was sent to 504 Pre-K families as part of the district's ongoing drip campaign, which includes links to PfISD's Pre-K overview video and parent testimonials. The email achieved a 51.8 percent open rate and 54 clicks, signaling continued family interest in early learning options and confidence in the district's communication. There are now more than 500 families signed up to receive regular Pre-K enrollment information, allowing for early relationship-building and greater awareness of the district's offerings.

The department also launched a two-month-long social media ad campaign promoting both Pre-K and general enrollment. The Pre-K video-based campaign generated 361,237 impressions and 3,484 clicks, with an ad spend of \$1,344 as of June. A second enrollment-focused ad, also video-driven, resulted in over 500,000 impressions and 4,483 clicks with a spend of \$2,049. In both campaigns, video ads continued to outperform static images, prompting the department to expand the use of testimonials and program highlights in future content.

The district's Google Ad campaign also ramped up significantly, generating more than 933,000 impressions and 16,700 clicks in June alone. With more than 14,000 conversions—families taking steps such as visiting the website or starting the enrollment process—the campaign delivered strong return on investment at just under \$4,000 in ad spend. These efforts targeted families in Pflugerville, Manor, Hutto, and Austin.

Additionally, connected TV advertising continued through Disney and Hulu platforms, generating more than 40,000 impressions and helping broaden reach to families in a format that complements traditional digital channels.

The Communications Department will continue these efforts through July to ensure strong awareness and enrollment numbers ahead of the new school year.

6.2.1 Identify new ways to showcase student progress and successes

Graduation Edition of The Pflyer Showcases Student Excellence

In June, the Communications Department released a special graduation edition of The Pflyer, Pflugerville ISD's new digital magazine launched earlier this spring. This marks the first time we've dedicated an edition exclusively to celebrating our graduates, and it provided a meaningful platform to shine a spotlight on our Top 10 students at each high school campus.

The graduation edition highlights the academic achievements, future plans, and personal reflections of our highest-achieving seniors, capturing the spirit of pride and accomplishment that comes with commencement.

We invite you to view the special edition on our website at: www.pfisd.net/news/pflyer.

- A \$5,000 raise for teachers with 5+ years of experience
- Additional supplements for early-career teachers (0–2 years)

B. Optional Flexible School Day Program (OFSDP) Application

PfISD seeks to continue and expand the Optional Flexible School Day Program to support students at risk of dropping out. This program offers personalized schedules and instructional delivery—including virtual options—for students who:

- Have dropped out or are at risk of doing so
- Attend an innovative campus redesign or early college high school
- Have attendance challenges that would otherwise deny them course credit
The program includes campuses such as PACE (the district's alternative high school), all four comprehensive high schools, and Provan Opportunity Center.
- A new online component, in partnership with Graduation Alliance, includes:
 - Wi-Fi-enabled laptops and mobile hotspots
 - Texas-certified teachers
 - Academic and career coaching
 - Industry certification prepThis approach offers both rigor and flexibility to help students meet graduation goals.

C. Credit by Exam (CBE) for Equine Science and Small Animal Management

The district proposes administering Credit by Exam for two Career and Technical Education (CTE) Animal Science courses. These exams allow students with real-world experience—such as work with animals or agricultural programs—to test out of coursework and earn credit.

Key exam features include:

- Full alignment with Texas Essential Knowledge and Skills (TEKS)
- Standardized, proctored testing
- A rigorous audit and review process involving subject matter experts
- Validity, security, and depth of knowledge checks

Students who score 80% or higher will receive course credit and transcript recognition.

The Board will consider a request for 60 students and 6 chaperones to travel to New York from March 20–24, 2026, to:

- Attend a Broadway Master Class
- Explore cultural and historical sites

The trip is student-funded through a combination of direct payments and fundraising activities. Students will miss two days of school. No conflicts with STAAR testing are expected.

The Board will consider adding Design-Build as a fourth approved method to deliver 2022 Bond construction projects. This method utilizes a single firm for both design and construction, streamlining timelines and minimizing administrative delays.

Board of Trustees

Board Development

Trustees Strengthen Governance and Gain Insights at TASB Summer Leadership Institute

TASB Summer Leadership Institute (SLI) is TASB's flagship professional development conference, and was held this year in San Antonio on June 11–14. It is designed to engage both new and experienced school trustees, offering a mix of general sessions, concurrent workshops, and specialized institutes. For example, the Texas Trustee Institute for newer board members and the Board Officer Institute for those serving in leadership. Attendees gain practical strategies on human capital, legal compliance, school safety, student success, and emerging education trends... with opportunities to earn continuing education credit along the way

SLI is important for trustees because it strengthens governance through networking, shared learning, and exposure to current best practices, while fulfilling statutory training obligations and ensuring alignment with state education priorities.

To complement the structured learning, during the meeting we encourage each trustee to share a session they found particularly meaningful. This reflection isn't intended to set district strategy, but rather to capture insights that might inspire future conversation, community engagement, or incremental innovation across PflSD.

Board Committee Updates

Governmental Relations and Community Relations Committee

The Governmental Relations and Community Relations Board Committee has spent the summer laying important groundwork to support PflSD's long-term advocacy and community engagement efforts. During two meetings held on June 19 and July 8, 2025, the committee focused on refining its structure, developing resources, and planning next steps for both state and federal advocacy.

The committee began by reviewing and updating its official charges to clarify its role and scope of work and ensure alignment with Board goals. Members also participated in an orientation to set expectations for the committee's focus areas moving forward. A regular meeting schedule was established, with the committee now set to meet on the first Tuesday of every month.

To organize its work effectively, the committee created several living documents, including running notes for each meeting, spaces for committee members' personal notes, and a log for email correspondence. In addition, a shared drive was established to house key documents and resources, such as an annual advocacy timeline, frameworks for both Board and community testimony, and an outline for forming a Legislative Stakeholder Committee.

The committee also focused on outlining strategies for community engagement. Members drafted a plan for a pre-legislative workshop designed to help community members understand and participate in the legislative process. A proposal was introduced to form an Advocacy Advisory Committee (AAC) that would bring additional community voices into the district's advocacy work. Discussions also included reviewing a proposal from OSOD related to charter school advocacy and positioning.

Looking ahead, the committee will meet with Superintendent Dr. Shepherd to align on next steps related to federal advocacy priorities. Members also identified the development of a Culture of Voting Resolution and related initiatives as a future area of focus to promote civic engagement across the district.

Through these efforts, the Governmental Relations and Community Relations Board Committee is working to create a structured, transparent, and proactive approach to advocacy on behalf of PflISD students, staff, and families.

Finance Committee

07-10 Meeting: Compensation Adjustments & Legislative Funding Updates

Overview of Meeting Context

- Finance Committee meeting held on Thursday, July 10th.
- Focused on compensation planning, legislative funding updates (House Bill 2), and budget deficit recalibration.
- Emphasis on aligning salary adjustments and retention funding with market data and legislative mandates.

Key Compensation and Salary Data

- Teacher and Staff Compensation Adjustments
 - The district leads in starting teacher salary compared to central Texas competitors (Big Four: Round Rock, Austin, Leander, Pflugerville).
 - Slight lag in 15-year and 20-year teacher pay compared to Round Rock.
- Proposed increases:
 - Teachers on the standard pay scale: Starting salary rising from \$57,700 to \$58,300, with \$600 adjustments for new teachers and \$800 increases for one- and two-year teachers.
 - All other positions receive a 1% increase above the pay range midpoint.
- TASB recommendations:
 - Maintain current pay structures aligned to the market.
 - Evaluate general pay raise scenarios (1%, 2%, 3%).
 - Targeted adjustments for specific groups (e.g., \$5,000 stipend for speech-language pathologists, clerical position adjustments) to improve equity and competitiveness.
 - Technology pay plan restructured separately to meet market demands, addressing historical undervaluation of tech roles.

Legislative Influences & House Bill 2 Funding

House Bill 2 mandates:

- Teacher Retention Allotment:
- \$2,500 increase for teachers with three to four years of experience.
- \$5,000 for teachers with five or more years (permanent until further legislative change).
- Support Staff Retention Allotment: Additional funds (\$45,000 per student) for non-administrative positions.
- Additional ABC (Allotment for Basic Costs) funds to offset inflationary pressures (utilities, insurance, transportation) and support broader program funding.

Financial projections under HB2:

- Teacher retention allotment estimated at \$6.7 million.
- Support staff allotment, though significant per student, totals less than \$1 million in current estimates.
- Additional \$2.6 million anticipated from the ABC allotment, with potential program-specific funding increases totaling over \$6.4 million when combining various allocated funds.

Budget Recalibration and Fiscal Health

- Originally adopted budget deficit of \$10.3 million reduced to an estimated \$4.3 million after:
- Incorporating House Bill 2 funding.
- Using carryover funds to partially offset the loss of federal funds.

Compensation plan adjustments and deferred raises are driven by:

- Anticipated further impacts if federal Title I and IDEA-B funds are reduced further (potential 25% cuts).
- Efforts to preserve personnel by cutting programs/resources instead.
- Overall additional state aid projected at \$16.8 million, balancing both restricted (earmarked for specific groups) and flexible (ABC funding) uses.

Market & Competitive Considerations

- Comparison with local districts:
- Districts like Austin, Round Rock, and Hutto implement pay increases (0%–1% for non-HB2 groups) while managing targeted HB2 adjustments.
- Proposed increases help ensure competitiveness, especially in areas with vacancies and retention concerns:
- Special education positions (significant current vacancies).
- Educational assistants (EAs).
- Discussion addressed discrepancies with other districts regarding classification and targeted adjustments, emphasizing the district's proactive approach to market compression while preserving core personnel.

Next Steps

- Finalize and include detailed communication materials that clarify compensation adjustments made by HB2 in the boardbook.
